2. That City Council considers implementing a carsharing program in Brampton, at locations including, but not limited to, by transit stations, community centres, other community centres, with a plan towards an electric fleet.

9. Question Period

In response to a question from Committee, staff noted there is a generally high compliance rate with respect to transit riders wearing masks on busses.

10. Public Question Period

The public was given the opportunity to submit questions via e-mail to the City Clerk's Office regarding any decisions made under this section of the agenda.

P. Fay, City Clerk, read the following questions from Chris Drew, Co-founder, Fight Gridlock Brampton:

1. On February 20, 2020 there was a Metrolinx Board Meeting where there was a report on the agenda entitled "Advancing Transit Priorities". This report makes reference to future transit lines in Brampton, including Main LRT, Queen BRT, and several "priority bus routes" in Brampton. Can City staff please distribute this report to committee members so they are aware of its contents given the references to these routes in the presentation given by the GM of Brampton Transit? Also, there was a letter sent by the Mayor of Brampton to this February Metrolinx Board meeting and a letter sent by the CAO respecting the Advancing Transit Priorities Report. The letter from the CAO included a map of current and future transit routes in Brampton. Can these two letters please be distributed by City staff to Committee members so they are aware? Committee members might be interested in noting that there is an almost perfect alignment of routes in Brampton between the map in the CAO's letter and the map in the Advancing Transit Report.

2. Since it's not legible in the agenda package or on the livestream, on the "Brampton Gateway HuLRT Stop" slide what does the text say in the upper left image in the middle of the intersection? Was this image presented during the previous term of Council?

Staff noted that the report will be provided at the next meeting, and the details of the Brampton Gateway HuLRT Stop will be provided to committee and circulated to Mr. Drew.
