*13.1. Motion by Regional Councillor Santos, re: Building Improvement Grant – 249 Main Street North

WHEREAS Council at its meeting of September 12, 2018 approved a Façade Improvement Grant (File: FA18-003) and a Building Improvement Grant (File: BU18-004) in the amount of $50,000 each for 249 Main Street North (Resolution PDC 108-2018).

AND WHEREAS, the proposed works involved the restoration and conservation of the building, which is a designated heritage resource and converting it to commercial uses.

AND WHEREAS, following the approval of the grant, the owner decided to use the building for residential purposes rather than commercial uses.

AND WHEREAS, the owner completed the works approved under the Façade Improvement Grant and Council at its meeting of April 8, 2020 directed Staff to pay the Façade Improvement Grant under application FA18-003 (Resolution C107-2020) notwithstanding the building being used for residential purposes because the completed works contribute to revitalizing Downtown Brampton by restoring a designated heritage resource and would benefit the building if it were to be
converted to a commercial use in the future.

AND WHEREAS, the owner has since advanced, but not completed, the works for the interior of the building.

AND WHEREAS, the works approved under the Building Improvement Grant would also contribute to the restoration of the designated heritage resource and would benefit the building if it were to be converted to a commercial use in the future.

AND WHEREAS, the Implementation Guidelines require that payment of grants only be made after work approved under a grant is completed to ensure that grant monies are used for the works, and it is important to maintain that intent.

IT IS THEREFORE RESOLVED that Staff be directed to proceed with the payment of the Building Improvement Grant under application BU18-004 upon the completion of the works to restore the interior of the building, which can be paid out in two installments with the first being for a maximum of $30,000 upon completion of the work to the foundation of the building, following the standard requirements contained in the Building Improvement Grant Implementation Guidelines for the submission of invoices, inspections and other matters.

    BCS005-2021

    Whereas the traffic lights on many major roads are timed such that drivers are rewarded for speeding to make the next green light, and,

    Whereas timed traffic lights on major roads in Toronto and other cities have proven to reduce overall speed, traffic accidents, and death, and,

    Whereas it has been confirmed that technology exists to time the traffic lights to ensure smooth flow traffic and that the pricing of this technology is less than in previous years, and,

    Whereas traffic flows more efficiently when right and left turn lanes exist by decreasing throughway flow obstructions, and,

    Whereas pedestrian safety increases as people are queued in a turn lane instead of the throughway, and,

    Whereas fewer bus routes obstructions occur where turn lanes exist because buses can use the turn lanes at major intersections for their stops, and,

    Whereas road safety is a concern for all Brampton residents, and,

    Whereas the Williams Parkway expansion has been cancelled,

    Therefore it is the opinion of the Brampton Community Safety Advisory Committee that staff be directed to explore timing the traffic lights on Williams Parkway, as a pilot project, and eventually city-wide, such that a driver heading eastbound or westbound continues to get green lights and that traffic flows smoothly, provided everyone is travelling at the posted speed limit, and,

It is the opinion of the Brampton Community Safety Advisory Committee that staff be directed to explore right and left hand turn lanes, advanced greens, and timed advancement pedestrian cross over signals (e.g. the count down don't walk hand), at all intersections on Williams Parkway, as a pilot project, and eventually city-wide.

We need to vaccinate essential workers, and also vaccinate seniors who are having difficulty making it to appointments, we need mobile vaccination sites. Buses offer a large mobile platform that can easily move people and equipment to sites.Large employer sites already are set up to handle large vehicles like tractor trailers and fire trucks, buses are a similar size clas. For vaccinating teachers, schools are set up to accommodate school buses, again, a similar size class.

Using Brampton Transit buses is also free advertising that the City of Brampton is supporting the vaccination rollout.

To His Worship Mayor Patrick Brown and Members of Council,

Re: the Kaneff Group's Support of Brampton's City-wide Community Improvement Plan Program for Employment

On behalf of The Kaneff Group of Companies, we would like to express our support for the City-wide Community Improvement Plan Program for Employment. As landowners of the property located at HWY 407 between Mississauga Rd and Financial Drive (as per figure 7 in Appendix 1), we are pleased to see our lands included in this initiative. Our lands are designated "Office" and "Prestige Industrial" and form part of the "Bram West" area.

We are working closely to help relocate a large Canadian robotics company to the prestigious office and industrial node along Mississauga Road, where we currently operate the Streetville Glen Golf course.

It is our hope - and firm belief - that the relocation of this robotics company will in turn draw other high-tech and research companies to relocate to the Mississauga Road / Financial Drive area.

At Kaneff we continue to support our local Brampton economy and its communities. We are thrilled to see the City of Brampton endorsing economic development initiatives that help retain and attract new businesses to Brampton. An important feature of the City's Community Improvement Plan for Employment is the Tax Increment Equivalent Grant (TIEG) program, which has been employed widely and very successfully by other municipalities to attract and retain businesses.

Businesses require jobs, and we strongly believe that there is no better place for people working in Brampton to live than in the city in which they work.

We house our corporate headquarters in Brampton, have been investing in this wonderful city for over 30 years and intend to continue investing into the future.

We look forward to working with and collaborating with the City of Brampton on this very important economic development initiative.

Sincerely,

Anna-Maria Kaneff

Re: Community Improvement Plan Program for Employment (RM11/2019)

Dear Committee of Council,

We are in receipt of the above noted staff recommendation report. Although we have not had the opportunity to complete an in-depth review of the entire report including the study carried out by N. Barry Lyon Consultants Ltd., we are writing to in principle, endorse the staff recommendation report.

Increasing office employment in the City is an important mandate. Office development needs to be a key component in the city's evolution into a more sustainable urban form. As a developer of office and mixed-use product within the city, we have first-hand experience of the risk level and challenges involved. We urge the city to prioritize incentives to projects located in central areas which embody strong development characteristics and to provide criteria flexibility to such projects.

Thank you for your efforts in making lasting positive change in our city.

Yours truly,

John Kanellopoulos
