C118-2021

Moved by Regional Councillor Santos

Whereas in 2019, the City of Brampton declared a climate emergency and on Sept, 23, 2020 unanimously endorsed the Community Energy and Emissions Reduction Plan with a target to reduce green house gas emission targets by 80% by 2050;

And whereas transportation represents 60% of GHG emissions generated in Brampton;

And whereas enabling and encouraging other sustainable modes of transportation and transitioning away from a car based culture will help reduce GHG emissions;

And whereas during the past year, the City and Region has seen an increased demand and use of active transportation infrastructure;

And whereas, investments in the built environments that facilitate active mobility support the health and well-being of residents;

And whereas Council unanimously passed the Active Transportation Master Plan on September 25, 2019 which sets out an implementation framework to deliver a connected city-wide AT network and supporting policies and programs;

And whereas on January 28, 2021 the City of Brampton identified the implementation of active transportation infrastructure as a Term of Council Priority;

And whereas the Region of Peel unanimously passed a motion on April 8, 2021 to advance Sustainable Active Mobility and work collaboratively with lower tier municipalities and community advocates to improve the active transportation network across the region;

And whereas, on February 10, 2021 the Federal government announced \$14.9 billion of funding over the next eight years to support infrastructure projects as part a plan to create one million jobs, fight climate change, and rebuild a more sustainable and resilient economy;

And whereas, on March 12, 2021, the Federal government announced the first federal fund of \$400 million over five years dedicated to building active transportation to help build new and expanded networks of pathways, bike lanes, trails for cycling, walking and pedestrian bridges;

And whereas the City of Brampton is committed to supporting the health and wellbeing of its employees, and has a number of existing benefits and programs in place to support an active lifestyle;

And whereas creating incentives to encourage City employees to learn and use active transportation infrastructure would demonstrate a “lead by example” approach as we all strive to address the climate emergency and live healthier lifestyles;

Therefore be it resolved:

- 1) That the City advise its employees of existing incentives supporting sustainable transportation options and active lifestyles;
- 2) That an awareness campaign be launched this summer, to include but not be limited to education, employee challenges and/or group rides, that promote and encourage sustainable and active transportation among City employees;
- 3) That staff work collaboratively across all departments and report back by Q1 of 2022 (before Earth Day 2022) to Council, with opportunities and recommendations to incentivize and/or further enable, encourage, and support employees in using sustainable and active modes of transportation.

9. Reports from the Head of Council

- 9.1 Update from Mayor Brown re: COVID-19 Emergency

Mayor Brown provided an update on the City's response to the COVID-19 emergency, highlighting the significant numbers of cases in Brampton and Peel, impacts on the William Osler Health System, vaccinations plans, issues and

concerns, advocacy efforts toward the closure of airports to non-essential travel, and concerns about vaccine hesitancy among Brampton residents.

Council consideration included:

- issues with obtaining rapid tests
- acknowledgement of City staff's efforts in closing and then reopening playgrounds in response to Provincial announcements
- continuing advocacy for paid sick days and additional vaccines for "hot spot" areas including Brampton

A motion, moved by Mayor Brown and seconded by Regional Councillor Medeiros, was introduced, with the operative clauses as follows:

Therefore be it resolved, that the City of Brampton begin a marketing campaign to encourage vaccine use for Brampton residents using local celebrity and medical influencers as soon as possible.

That, the City's long-term economic development Marketing vendor, who has knowledge of the City's processes, BTA Marketing be engaged via direct emergency procurement to immediately embark on this Campaign on an expedited basis.

That staff be directed to proceed with a marketing campaign not exceeding \$250,000, funded from the existing 2021 Operating Budget, which would cover the development and advertisements of this new digital campaign, acknowledging that any year-end Operating variance is funded through the General Rate Stabilization Reserve.

Mayor Brown and Councillor Medeiros outlined the purpose of the motion, and requested that Members provide Strategic Communications with any suggestions for influencers and celebrities to assist with the campaign.

Council consideration of the motion included concerns about direct procurement and costs for the proposed marketing company, other companies, including those in downtown Brampton, that may be able to provide the same service for reduced costs, and the possibility of development and deployment of the campaign in-house.

The motion was considered as follows.

C120-2021

Moved by Mayor Patrick Brown

Seconded by Regional Councillor Medeiros

WHETHER TO DESIGNATE THE GTA WEST PROJECT IN
ONTARIO PURSUANT TO THE IMPACT ASSESSMENT ACT

May 2021

Impact Assessment Agency of Canada

Canada

May 3, 2021: The Minister of Environment and Climate Change has determined that the GTA West Project proposed by the Ontario Ministry of Transportation **warrants designation under the Impact Assessment Act.**

Rationale for the decision:

- The designation of the Project is warranted as the Project may cause adverse direct or incidental effects on the critical habitat of federally-listed species at risk.
- The Minister took into account the public concerns related to these potential effects.

City of Brampton Staff Comments:

- The decision does respect Council's request in the motion dated March 3, 2021 that the GTA West project be designated.
- At this point in time it is not clear when the federal study will start, how it will proceed, or when it will conclude.
- Staff will identify opportunities to be involved in the study.

Your Worship
Mayor Patrick Brown
City of Brampton
Gary.Collins@brampton.ca

Dear Mayor Brown:

Thank you for your letter on behalf of the City of Brampton council requesting amendments to the *Planning Act* and the *Building Code Act* to expand the rights of entry for municipal officials to enter properties without a warrant to determine if owners of buildings that contain secondary units and owners of multi-unit lodging houses obtained building permits prior to construction and occupancy. I appreciate the time you have taken to write.

Our government is interested in promoting second units as an affordable form of housing but not at the expense of the health and safety of the occupants. As part of our **Housing Supply Action Plan**, we produced a series of homeowner guides, including one on creating a second unit in a house. These guides emphasize the need for all construction to meet provincial and municipal requirements, including local zoning by-law and Building Code requirements.

I appreciate the City's interest in addressing construction that occurs without the requisite building permits and I consider all proposals to update and revise the *Building Code Act* and the *Planning Act*. When requests relate to powers to enter buildings, serious consideration must be given to the importance of protecting public safety as well as the privacy of people in their own homes.

As you know, if the occupant's informed consent cannot be obtained, the *Building Code Act* authorizes entry into a building if a warrant has been obtained from the courts or where the delay necessary to obtain a warrant or the consent of the occupier would result in an immediate danger to the health or safety of any person. The Canadian Charter of Rights and Freedoms recognizes that everyone has the right to be secure against unreasonable search and seizure. Any powers of entry that the province considers must be consistent with this right.

I am also in receipt of the Building Code amendment that was submitted by the City of Brampton that would help to provide consistent rules for two-unit dwellings, regardless of the age of the building. In the spirit of further aligning the requirements in Ontario's Building Code with the National Construction Codes, Brampton's proposal is being given full consideration.

.../2

The City is welcome to forward any additional information in support of this proposal to Mansoor Mahmood, Director, Building and Development Branch, Ministry of Municipal Affairs and Housing, at mansoor.mahmood@ontario.ca.

Once again, thank you for sharing council's concerns on this matter. Please accept my best wishes.

Sincerely,

Steve Clark

Dear Head of Council,

As you may be aware, the Ontario government is consulting on how to strengthen accountability for municipal council members. We want to ensure that councillors and heads of council maintain a safe and respectful workplace and carry out their duties as elected officials ethically and responsibly. More information on the scope of consultations can be found at [Ontario.ca](https://ontario.ca).

As part of this work, my colleague Jill Dunlop, Associate Minister for Children and Women's Issues will be seeking input from members of council representing each of Ontario's municipalities through one of two hour-long telephone townhall sessions with municipal representatives from Central Ontario's municipalities on May 18, 2021 at 12:30 PM EDT.

This session will provide participants with the opportunity to share their valuable feedback on:

- what changes or mechanisms are needed to better hold council members accountable for municipal code of conduct violations;
- how to effectively enforce these codes
- whether a broader range of penalties for violations of the codes of conduct are needed; and
- the circumstances in which these potential penalties could be applied.

Please identify one member of your council to participate in the session. Once chosen, the one identified member of your council should register via [Eventbrite](https://eventbrite.com) by Thursday, May 6, 2021. The registered member will receive instructions about how to participate in the session prior to the meeting.

We have also launched an online survey to seek input on ways to strengthen accountability mechanisms for municipal council members. I encourage members of council and municipal staff to provide their input on this important topic through the online survey: [Consultation: Strengthening accountability for municipal council members | Ontario.ca](https://ontario.ca). This online survey will be available until July 15, 2021. Please share this link with your municipal staff.

I hope you will accept this invitation to participate in this session, as we look forward to hearing your feedback on how to strengthen accountability for municipal council members.

Sincerely,

Steve Clark

Dear Sonya,

I greatly appreciate that you kept me in mind to inform me of the upcoming meeting! I'm not currently prepared for a delegation however, I hope it's not too late to add the following links to the agenda in kind:

While these are US or EU based/studies, they apply exactly to Canada as our current regulations and standards are the same as US, relying on studies conducted prior to 1980.

Informed health and environmental effects of 5G and those who are hyper sensitive to RF need to be taken into account as the city is liable for any legal actions, as 5G installations are exempt from liability.

Please note that those city officials living and working within the 5G radius, especially the towers (and schools) will also be subject to the long term effects of RF and to monitor their health continually.

Thank again Sonya!! You're an Angel!!
