*13.1. Motion re: Taxi Industry Concerns

This item is listed pursuant to Committee of Council Recommendation CW241-2021, as follows:

That the following delegation to the Committee of Council Meeting of May 12, 2021, re: Taxi Industry Concerns, be referred to staff for presentation of a proposed motion to the City Council meeting of May 19, 2021:

1. Zafar Tariq, Taxi Industry Member

Proposed motion (published on the City's website on May 18, 2021):

Whereas The Mobile Licensing By-law 67-2014, as amended, was enacted on March 26, 2014 to provide for a system of licensing for Mobile businesses; and

Whereas Schedule 4 of By-law 67-2014 provides for licensing requirements related to persons who carry on the business of taxicab owners and drivers and taxicab brokers; and

Whereas Zafar Tariq a member of the taxi industry delegated to Committee of Council on May 12, 2021, regarding concerns for the reduction in taxicab business during the COVID-19 pandemic;

Whereas Mr. Tariq requested that the period of inactive taxicab owner licences be increased from two (2) years to three (3) years as the taxicab plate holders are finding it difficult to lease the plates at this time; and

Whereas the two-year limit for the use of conditional licence renewal- no vehicle was based on the standard taxicab business with small numbers of taxi plates inactive; and

Whereas the closure of offices and businesses during the COVID-19 pandemic has seen a significant increase of nine (9) applicants, in 2019, to over ninety (90) applicants seeking the option of Conditional Licence Renewal-No Vehicle option in 2020; and

Whereas four (4) applicants for taxicab owner licences will reach the limit of two years using this Conditional Licence renewal- No Vehicle option and will lose their licence in late August 2021 should there be no amendment to the by-law; and

Whereas Mr. Tariq indicated that due to the pandemic and the loss of business for the taxicab industry the mileage on vehicles used as taxis in Brampton has been significantly decreased and he suggests that an additional model year be permitted for vehicles with a model year of 2011 to 2015; and

Whereas one of the two approved providers of mandated taxicab security cameras was sold and its operations moved from Ontario to the United States and the taxi industry has been having difficulty with purchasing new cameras or having the existing cameras repaired; and

Whereas the taxi delegation has asked for the use of taxicab security cameras to be optional, similar to the cities of Markham, Vaughan and Mississauga; and

Whereas Mr. Tariq is requesting that the issuance of taxicab driver licences be permitted to be renewed for up to five years similar to the Ontario Provincial Driver Licence for those driver who have not had a criminal record for a number of years; and

Whereas Council believes the suggested amendments would be beneficial for the struggling taxicab industry;

Therefore Be It Resolved:

1. That section 63 of Schedule 4 of the Mobile Licensing By-law, 67-2014, as amended, be further amended by increasing the number of months a Conditional Licence Renewal-No Vehicle may be issued to 36 months.
2. That paragraph 35(7) of Schedule 4 of the Mobile Licensing By-law, as amended, be further amended by increasing the maximum age at which a vehicle may be licensed from six (6) to seven (7) model years.
3. That clause 35(8)(i) of Schedule 4 of the Mobile Licensing By-law, as amended, be further amended by increasing the number of model years an applicant may request an extension of model years from three (3) to four (4) years.
4. That paragraph 35(1)(i) of Schedule 4 of the Mobile Licensing By-law, as amended, be deleted.

5. That section 14 of the Mobile Licensing By-law, as amended, be amended by adding the following clause immediately following section 14:

14.1 Notwithstanding section 14, where an Applicant for a renewal of a Driver Licence has had no Criminal Record and a clean driving record for five (5) or more licence years the Driver's Licence may be valid for up to four (4) years when accompanied by the Licence Fee for the four-year period.

12.3 Recommendations – Audit Committee – May 5, 2021

Council consideration of the Audit Committee Recommendations included a review of discussions at the meeting regarding the Internal Audit Charter.

Regional Councillor Medeiros, Committee Chair, expressed an interest in reopening Council's decision with the goal to reverting back to the previous Internal Audit Charter, and outlined his reasons therefor.

Peter Fay, City Clerk, outlined the process for reopening a decision of Council without a Notice of Motion on the agenda, noting there is precedent with this Council to do so. Mr. Fay outlined the three motions required to reopen Council's decision for consideration at this meeting.

The first required motion, moved by Regional Councillor Medeiros (having voted on the prevailing side of the original motion) and seconded by Mayor Brown, was introduced to temporarily suspend the rules of the Procedure By-law.

A recorded vote was requested on the motion, and it carried with the required two-thirds majority vote achieved. The motion is outlined in Resolution C143-2021 below.

The second required motion, moved by Regional Councillor Medeiros and seconded by Mayor Brown, was introduced to reopen Council's decision for consideration at this meeting.

During Council's consideration of the motion, a Point of Order was raised by City Councillor Williams, for which the Mayor gave leave.

Councillor Williams noted that she was on the board to speak prior to the vote being undertaken. The Mayor indicated that Councillor Williams could speak to the matter if the vote to reopen carried.

In response to a question from Councillor Williams, Mr. Fay confirmed that if the vote to reopen this matter does not carry, then Council's original decision stands.

A recorded vote was requested on the motion, and it carried with the required two-thirds majority vote achieved. The motion is outlined in Resolution C144-2021 below.

The third motion, moved by Regional Councillor Medeiros and seconded by Mayor Brown, was introduced, as follows:

That the previous version of the Internal Audit Charter and Terms of Reference from March of 2019 be reinstated; and,

That the City Solicitor be directed to provide comments with regard to clarification of roles and responsibilities, for future consideration by Council.

Councillor Medeiros outlined the purpose of the motion.

Council discussion on the motion included:

- reasons for reverting back to the previous version of the Internal Audit Charter to ensure independence, accountability and oversight
- suggestion from staff to refer the matter back for review and comments on any issues with alignment with the current legislative framework
- clarification that the purpose of the motion is to revert back to the previous Charter immediately, and based on comments from staff at a future meeting, Council could consider any proposed modifications to the Charter for the purpose of clarity and wordsmithing
- information from staff, in response to questions, about the background on the previous Charter and the rationale for the new Charter
- suggestion that all Members of Council second the motion
- varying opinions on the need for the City Solicitor to provide comments, recognizing that if changes are required to the previous Charter, any such changes could be considered by Council at a future meeting

That the Minutes of the Cycling Advisory Committee Meeting of April 20, 2021, to the Planning and Development Committee Meeting of May 10, 2021, Recommendations CYC009-2021 to CYC016-2021 be approved, as published and circulated.

Carried

The recommendations were approved as follows:

CYC009-2021

That the agenda for the Cycling Advisory Committee Meeting of April 20, 2021, be approved, as published and circulated.

CYC010-2021

That the Delegation from Manvir Tatla, Project Manager, Sustainable Transportation, Region of Peel, to the Cycling Advisory Committee of April 20, 2021, re: Region of Peel 2020/2021 Active Transportation Implementation, be received.

CYC011-2021

It is the position of the Cycling Advisory Committee that staff be requested to review the City's current winter maintenance practices relating to cycling facilities and investigate enhancements to existing programs to address the following list of gaps. This review shall include the impact these changes will have on operating budgets, equipment needs and resources.

- AT facilities that accommodate cycling in both directions (i.e. in-boulevard multi-use paths) should be maintained at a minimum width of 2.4 m;
- The ATMP Priority Cycling Network should be maintained at the same level of a Class 1 or 2 road type (ON. Reg. 239/02);
- Collector roads with bike lanes should be maintained to "bare pavement" condition as opposed to "tracked bare" condition and snow should be plowed back to the curb (ensuring a minimum width of 1.0 m is provided in the bike lanes);
- Maintenance programs should be revised to include maintenance of all active transportation infrastructure within the road boulevard (i.e. there are instances

where a sidewalk and bicycle boulevard path run adjacent to one another but only the sidewalk is maintained);

- Special attention is required at bridges & underpasses and where maintenance activities of different service providers transition (i.e. where a path/trail meets a road) as these present the most challenges and probability of deficiencies;
- A permanent inspection routine be implemented along the City's major recreational trails, similar to the inspections conducted for the Winter Wonderland program.
- That an approach for maintenance of new types of cycling infrastructure (protected bike lanes along East-West Cycling Corridor) be developed in advance of their implementation to ensure a smooth seasonal transition.

CYC012-2021

Whereas in 2019, the City of Brampton declared a climate emergency and on Sept, 23, 2020 unanimously endorsed the Community Energy and Emissions Reduction Plan with a target to reduce green house gas emission targets by 80% by 2050;

And whereas transportation represents 60% of GHG emissions generated in Brampton;

And whereas enabling and encouraging other sustainable modes of transportation and transitioning away from a car based culture will help reduce GHG emissions;

And whereas during the past year, the City and Region has seen an increased demand and use of active transportation infrastructure;

And whereas, investments in the built environments that facilitate active mobility support the health and well-being of residents;

And whereas Council unanimously passed the Active Transportation Master Plan on September 25, 2019 which sets out an implementation framework to deliver a connected city-wide AT network and supporting policies and programs;

And whereas on January 28, 2021 the City of Brampton identified the implementation of active transportation infrastructure as a Term of Council Priority;

And whereas the Region of Peel unanimously passed a motion on April 8, 2021

to advance Sustainable Active Mobility and work collaboratively with lower tier municipalities and community advocates to improve the active transportation network across the region;

And whereas, on February 10, 2021 the Federal government announced \$14.9 billion of funding over the next eight years to support infrastructure projects as part a plan to create one million jobs, fight climate change, and rebuild a more sustainable and resilient economy;

And whereas, on March 12, 2021, the Federal government announced the first federal fund of \$400 million over five years dedicated to building active transportation to help build new and expanded networks of pathways, bike lanes, trails for cycling, waling and pedestrian bridges;

And whereas the City of Brampton is committed to supporting the health and wellbeing of its employees, and has a number of existing benefits and programs in place to support an active lifestyle;

And whereas creating incentives to encourage City employees to learn and use active transportation infrastructure would demonstrate a “lead by example” approach as we all strive to address the climate emergency and live healthier lifestyles;

Therefore be it resolved:

- 1) That the city advise City employees of existing incentives supporting sustainable transportation options and active lifestyles;
- 2) That an awareness campaign be launched this summer, to include but not be limited to education, employee challenges, and/or group rides, that promote and encourage sustainable and active transportation among City employees;
- 3) That staff work collaboratively across all departments and report back by Q1 of 2022 (before Earth Day 2022) to Council, with opportunities and recommendations to incentivize and/or further enable, encourage, and support employees in using sustainable and active modes of transportation.

CYC013-2021

That the report from Leslie Benfield, Committee Member, to the Cycling Advisory Committee of April 20, 2021 re: **Ontario Bike Summit** be received.

Carried

CW243-2021

That the motion and proposed amendments thereto be **referred** to staff for further consideration and a report to the Committee of Council meeting of May 26, 2021 regarding implications of the motion and options for implementation:

“Moved by: Mayor Brown

Whereas the Region of Peel is planning to undertake a capital works project to replace the water mains on an “interim” basis in the downtown core, including in the “four corners” estimated to cost approximately \$7 million for the immediately needed work, with a total cost of approximately \$20 million;

Whereas this is a singular isolated and interim initiative with no other improvements currently planned to occur along with this replacement, such as other utility upgrades, sidewalk or roadway improvements, streetscaping, landscaping, etc.;

Whereas this isolated and interim initiative will cause massive disruption to an already heavily burdened business community within the downtown core;

Whereas a broader strategic, integrated downtown plan is currently being developed;

Whereas in December 2018, a decision by this term of Council to pause the work related to Downtown Reimagined was made in order to conduct the necessary risk assessment and due diligence related to the downtown underground channels;

Whereas it was determined after proper due diligence that risk related to the downtown underground channels was low;

Whereas the Region of Peel’s water main work represents a key opportunity for the City of Brampton to begin its initial subsurface infrastructure and surface work under the previously named “Downtown Reimagined” project as an immediate solution to revitalize the downtown, support Brampton’s 5 year Tourism Strategy, and in conjunction with the broader integrated downtown plan and the Region of Peel;

Whereas past work related to the previous “Downtown Reimagined” project included stakeholder consultations with businesses, organizations, and residents; and

Whereas a decision of the future LRT (surface or underground) along Main Street to the downtown core is a significant transformational project similar to the Riverwalk which will further support the growth, economic future, and other significant plans of the City of Brampton but is separate from the more immediate need to implement a solution to revitalize the downtown core,

Therefore Be It Resolved That:

That City of Brampton staff update all required engineering and legal work, and propose a financial plan to begin work on the previously named “Downtown Reimagined” as the first phase of the immediate implementation of the broader Integrated Downtown Plan process (which includes future plans for the LRT in the downtown) and in coordination with the Region of Peel’s timetable for its upcoming infrastructure work;

That a staff plan to meet the Region of Peel’s timetable and coordinate the City of Brampton’s work be presented to City Council, no later than this Spring 2021;

That the City of Brampton commence its work on the immediate implementation (previously known as Downtown Reimagined) of the Integrated Downtown Plan when the Region of Peel begins its work; and

That the immediate implementation of the Integrated Downtown Plan include the upgrade of the Garden Square pavement and fixtures, including the repair of the fountain and seating areas within the Square commemorating former members of Council; and

That the immediate implementation also include improvements to Ken Whillans Square to make the space fully accessible for public events, particularly with regard to the annual Remembrance Day ceremonies, with upgrades to be done in alignment with the requirements of the Accessibility for Ontarians with Disabilities Act and City policy (City Accessibility Technical Standards).”

Whereas a decision of the future LRT (surface or underground) along Main Street to the downtown core is a significant transformational project

similar to the Riverwalk which will further support the growth, economic future, and other significant plans of the City of Brampton but is separate from the more immediate need to implement a solution to revitalize the downtown core,

Therefore Be It Resolved That:

That City of Brampton staff update all required engineering and legal work, and propose a financial plan to begin work on the previously named “Downtown Reimagined” as the first phase of the immediate implementation of the broader Integrated Downtown Plan process (which includes future plans for the LRT in the downtown) and in coordination with the Region of Peel’s timetable for its upcoming infrastructure work;

That a staff plan to meet the Region of Peel’s timetable and coordinate the City of Brampton’s work be presented to City Council, no later than this Spring 2021;

That the City of Brampton commence its work on the immediate implementation (previously known as Downtown Reimagined) of the Integrated Downtown Plan when the Region of Peel begins its work; and

That the immediate implementation of the Integrated Downtown Plan include the upgrade of the Garden Square pavement and fixtures, including the repair of the fountain and seating areas within the Square commemorating former members of Council; and

That the immediate implementation also include improvements to Ken Whillans Square to make the space fully accessible for public events, particularly with regard to the annual Remembrance Day ceremonies, with upgrades to be done in alignment with the requirements of the Accessibility for Ontarians with Disabilities Act and City policy (City Accessibility Technical Standards).”

The public was given the opportunity to submit questions via e-mail to the City Clerk's Office regarding any decisions made under this section of the agenda. P. Fay, City Clerk, advised that questions were received and read them as follows:

1. Questions from Chris Drew, Brampton resident:

"With respect to the bike lane discussion at today's Council meeting, I have a question for City staff regarding Brampton's bike lane expansion. My parents are in their late 60s and early 70s and live in Bramalea. Cycling has become an important way for them to stay fit and healthy. They use the on-street bike lanes and support them. We know that health promotion and seniors getting physical activity is critical to the health care success for Brampton. A healthier Brampton means less pressure on the hospital. Can City staff please describe in detail how expanding Brampton's bike network, including on-street bike lanes, will help Brampton achieve its health promotion and health care goals? Further, can City staff please confirm that research, such as an October 2014 paper entitled "Healthy Street: Evidence Review" by Toronto Public Health, has confirmed on street bike lanes are not only good for the reasons just mentioned, but they also create safer roads as they help to regulate the speed at which drivers use the roads, and could you confirm that the City of Brampton is trying to be a Canadian leader when it comes to road safety?"

2. Questions from Lisa Stokes, Brampton resident:

- "1. Will staff confirm that the bike lanes that are planned for the G section and Bramalea are important for creating the connectivity and safe cycling space laid out in the Active Transportation Master Plan which was passed unanimously by this council?
2. Also, will staff please confirm who owns municipal roads, and does the city have the right to restrict parking on them?"

3. Questions from Dayle Laing, Brampton resident:

- "1. Please explain the priority for car parking in the City of Brampton, given that the 2040 Vision prioritizes pedestrians first, cyclists second, transit third, goods movement fourth, shared vehicles fifth and private vehicles sixth.
2. Please explain how preventing bike lanes in an area ideally suited for Complete Streets safety and network connectivity aligns with Brampton's 2040 Vision, where "Vision Zero' fatalities should be emphasized."

The following information was provided with respect to the questions outlined above:

- Bike lanes and active transportation infrastructure are important elements to improve and support the health, well-being and lifestyle of residents
- The City owns the right-of-way, with some exceptions, and can restrict parking
- The Transportation Master Plan prioritizes active transportation
- Bike lanes on roads can enhance safety and provide an alternative mode of transportation

Dear Mayor Brown & Council:

The Peel Federation of Agriculture (PFA) would like to thank you in your support of referring staff to review how stormwater management charges are negatively impacting the agricultural community within The City of Brampton.

We would like to impress upon council and staff that agriculture is a unique sector of the economy. It is inappropriate to compare agriculture properties to commercial/retail/warehousing. Agriculture and the attributed greenspaces they occupy should also be viewed as a valuable resource in an urban landscape such as Brampton, in the fight against Climate Change, along with its role in the entire water cycle.

We would respectfully ask that the staff review of stormwater management charges on agricultural properties includes the following:

- How other municipalities have been able to legally subsidize, exempt or charge a flat-rate to agricultural properties from stormwater charges and include by-law amendment options for consideration that would address this concern.

- Respond to the concerns raised by Ontario Federation of Agriculture (OFA) in their letter to council regarding both of, The City of Brampton staff reports to council.
- An assessment of the costs associated with engineering studies on agricultural properties vs the revenue generated by the stormwater management charge on these properties.
- Please continue to engage with PFA & OFA as a valuable resource partner for information on agriculture in Brampton. We would be happy to arrange a meeting between OFA staff, City staff and members of council.

The agricultural community in Brampton looks forward to engaging in the process of meaningful stakeholder input. Adhering to the key objectives as listed in Stormwater Management Financing Study, of being based on an assessment of actual need, and being as efficient as possible along with incorporating the direct linkage between cost paid and benefit derived from services.

Subject: [EXTERNAL]Brampton City Council Resolution C426-2020, seeking rapid COVID-19 tests for essential workers
Dear Ms. Brenton,

Thank you for your correspondence regarding Brampton City Council Resolution C426-2020, seeking rapid COVID-19 tests for essential workers.

The Government of Canada has been working closely with provinces and territories to distribute rapid tests to help break the chain of COVID-19 transmission. Ontario received its first shipment of rapid test kits in October 2020 and it has been a priority to ensure ongoing provincial access to rapid tests. To date, Ontario has received 11 million rapid tests from the federal government for deployment.

On May 7, the Government of Canada [announced new efforts to increase access to rapid tests](#) and support workplace screening initiatives. In addition to rapid test availability [directly from the Government of Ontario](#), a new federal direct delivery channel supported by a [web portal](#) is now in place, in addition to distribution via [pharmacies](#), [chambers of commerce](#) and the [Canadian Red Cross](#). The related Ontario government announcement can be found [here](#).

We are in regular contact with our counterparts in the Ontario government and understand that the City of Brampton has been in discussions with them.

Should you have additional questions, please do not hesitate to contact me.

Thank you again for your letter and for your ongoing efforts in the fight against COVID-19.
