## 15. Notices of Motion

### 15.1 Notice of Motion – Basketball Court Naming to Commemorate Marc Eversley

Moved by: Councillor Vicente

Seconded by: Councillor Santos

Whereas the City of Brampton, including its lands, peoples, cultures and heritage, has a rich and diverse history worthy of celebration and recognition; and

Whereas recognizing our City's diversity through possible naming opportunities for City assets such as streets, facilities and parks is an appropriate way to celebrate our collective cultural heritage from all over the world; and

Whereas City Council has approved an Asset Naming Policy to facilitate commemorative recognition to honour events and individuals' outstanding achievements, distinctive service, or significant community contributions, including recognition of the City's rich cultural heritage; and

Whereas a revitalized multi-use park with basketball courts and spectator stands would provide a space where youth who cannot afford to play sports at private gyms can pursue their interests in a safe, public space in Brampton; and

Whereas Marc Eversley is the new General Manager of the NBA's Chicago Bulls and an alumni of Brampton's Cardinal Leger high school; and

Whereas Marc Eversley is an excellent role model for Brampton's youth, highlighted in the Black and Caribbean communities and it is appropriate to recognize and commemorate Brampton's cultural community heroes and significant individuals whose ideals and beliefs contribute to the cultural mosaic that makes Brampton a special and inclusive place;

**Therefore Be It Resolved** that an appropriate future Basketball Court at Bruce Beer Park be named to commemorate the new General Manager of the NBA's Chicago Bulls and Cardinal Leger high school alumnus Marc Eversley, in accordance with the City's Asset Naming Policy.

15.2 Notice of Motion – Incoming Investment Opportunities with African and Caribbean Markets

Moved by: Mayor Brown

Seconded by: Councillor Williams

Whereas the City of Brampton recognizes the value in exploring incoming investment opportunities with African and Caribbean markets;

Therefore be it resolved

1. That the report from Claudia McKoy, Upsurgence, dated June 2020, to the Council Meeting of September 30, 2020, re: 2020 Nigerian FDI & Cultural Engagement Tour Report be received; and
2. That City Councillor Williams present at the 2020 Nigeria-Canada Virtual Investment Summit (NCIS 2020) scheduled for November 10th - 11th, 2020, and
3. That the Nigeria-Canada Virtual Investment Summit (NCIS 2020) be endorsed by Council, and use of the City of Brampton logo on 2020 Summit promotion materials and online information be authorized; and
4. That City of Brampton Economic Development and Protocol staff support the City of Brampton's participation in incoming delegations from African and Caribbean countries; and
5. That Economic Development be assigned a staff resource through the 2021 Budget Process to begin the implementation of a plan to include African and Caribbean markets as areas of focus for inward investment to Brampton in 2021.

See Item 8.1

Regional Councillor Santos, Vice and meeting Chair, led Council's consideration of the minutes.

Council discussion took place with respect to Audit Committee Recommendation AU024-2020 – Internal Audit Charter.

A motion, moved by Regional Councillor Palleschi and seconded by City Councillor Bowman, was introduced to refer recommendation AU024-2020 back to Audit Committee for further consideration, and a review of both the former and new Charters.

Councillors Palleschi and Bowman outlined the reasons for the proposed referral.

Councillor Santos provided an overview of discussions on this matter at the Audit Committee meeting.

At the request of Council, Nicholas Rolfe, KPMG, provided an outline of the new Charter and responded to questions.

Council Members expressed varying opinions in support of and opposition to the proposed referral.

During consideration of this matter a Point of Order was raised by Councillor Palleschi. The Chair gave leave for the Point of Order.

Councillor Palleschi expressed concern about some of the comments made by Councillor Santos. Councillor Santos clarified her comments.

The referral motion was considered as follows.

*C333-2020 Moved by Regional Councillor Palleschi

Mayor Brown introduced the subject minutes.

The Committee Section Chairs led Council's consideration of the minutes.

During consideration of the minutes, at the request of Council, staff outlined the plans for the 2020 Santa Claus Parade.

Council discussion took place with respect to a proposed amendment to the referral to staff for consideration and a report regarding the request from Fazal Khan, Project Manager, who delegated at Committee, regarding the Neighbourhood Watch Brampton Program. The amendment to the referral motion had been voted on at Committee and lost.

The following motion, moved by City Councillor Williams and subsequently seconded by Regional Councillor Palleschi, was introduced.

And that the following previously lost motion be deferred for consideration to the Council meeting at which the related Neighbourhood Watch report is presented:

- “3. That staff also be requested to consider the following draft motion:

‘Whereas, City of Brampton residents place a high value on community safety, and

Whereas, the City of Brampton should deploy best practices from around the country and around the world in order to increase security on our neighbourhoods, and

Whereas, a Request For Proposal (RFP) will allow taxpayers to have a combination of access to best practices and value for money,

## Minutes City Council

C339-2020 Moved by Regional Councillor Whillans  
Seconded by City Councillor Whillans

That the correspondence from Todd Letts, CEO, Brampton Board of Trade, dated July 31, 2020, re: Downtown Brampton Flood Protection Environmental Assessment (DBFP EA), to the Council Meeting of September 16, 2020, be received.

Carried

Note: Later in the meeting, on a two-thirds majority vote to reopen the question, Resolution C339-2020 was reopened to provide for further consideration of this matter.

In response to questions from Council, staff provided details on the next steps for the Riverwalk project, following recent approval of the Downtown Brampton Flood Mitigation Plan.

Council consideration of this matter included the need to ensure that Brampton residents are informed of the value of the Riverwalk project as it relates to flood mitigation in the downtown, planning decisions for the downtown core and other parts of the City, and the importance of having an appropriate central core in attracting investment to the City. Staff was requested to develop materials for this purpose.

Resolution C339-2020 was re-voted on and carried as outlined above.

16.2. Discussion at the request of Regional Councillor Palleschi re: **Community Safety and Wellbeing Plan**.

Council agreed to vary the order of business, and dealt with this item immediately before Item 12.2.

## Minutes City Council

---

A motion, moved by Regional Councillor Palleschi and subsequently seconded by all Members of Council, was introduced, with the operative clauses as follows:

**Therefore be it resolved that** before the end of the year staff from the Community Safety Program meet with each individual Councillor to discuss, but not limited to, concerns, solutions and challenges in the wards they represent;

**That** a Council workshop be arranged to discuss the findings of the one-on-one meetings and develop strategies for a clear and concise path to be outlined for the Community Safety Program; and

**That** the findings be sent to the Community Safety Advisory Committee for comment and to Council for adoption.

Councillor Palleschi outlined the purpose of the motion, and confirmed that it was forwarded to all Members of Council in advance of the meeting.

Members of Council expressed their support for the motion.

The motion was considered as follows.

C340-2020    Moved by Regional Councillor Palleschi  
                  Seconded by All Members of Council

**Whereas** the provincially legislated Community Safety and Well Being Plan is coming before Regional Council October 22, 2020 for consideration and adoption; and

**Whereas** the development of the Community Safety and Well Being Plan encompasses the insight and knowledge of over thirty community partners including CMHA Peel, Family Services of Peel and Trillium Health partners to name a few that will all be supporting, adopting and making the necessary steps to implement change in their own respective plans; and

**Whereas** our partners, such as Peel Regional Police are going through fundamental structural changes; and

**Whereas** Community Safety has always been a top priority and as such is identified as a Council priority; and

**Whereas** all Councillors can identify unique societal challenges in their Wards and city-wide; and

**Minutes  
City Council**

---

**Whereas** COVID-19 has exacerbated existing societal gaps and barriers; and

**Whereas** members of City Council and the Corporation of the City of Brampton pride ourselves on being collaborators and innovators; and

**Whereas** there is a need to reevaluate City Council's community safety priorities and unified approach to tackling community safety concerns in our City;

**Therefore be it resolved that** before the end of the year staff from the Community Safety Program meet with each individual Councillor to discuss, but not limited to, concerns, solutions and challenges in the wards they represent;

**That** a Council workshop be arranged to discuss the findings of the one-on-one meetings and develop strategies for a clear and concise path to be outlined for the Community Safety Program; and

**That** the findings be sent to the Community Safety Advisory Committee for comment and to Council for adoption.

16.3. Discussion at the request of Regional Councillor Fortini re: **Bike Lanes on North Park Drive – Ward 7.**

Regional Councillor Fortini outlined comments and concerns with respect to the bike lanes on North Park Drive.

Mayor Brown confirmed with Councillor Fortini that a motion was not being proposed for this item, and noted that further consideration of this matter could be addressed under Item 16.3.

16.4. Discussion at the Request of Mayor Brown re: **Active Transportation.**

Mayor Brown referenced a resolution (C142-2020) passed by Council that any roads built would have infrastructure for active transportation, and provided information titled "2020 Preliminary Road Rehabilitation" and "2020 Road Rehabilitation Program Active Transportation Provisions".

Staff provided an overview of the above-noted information, and responded to questions from Council regarding the details outlined within.

The Mayor encouraged Members of Council to review the information and provide any comments/concerns to staff.

## **Minutes City Council**

---

The following motion, moved by Mayor Brown and seconded by Regional Councillor Santos, was introduced.

That the 2020 Preliminary Road Rehabilitation resurfacing plan be endorsed with regard to the green and yellow classifications; and  
That staff be requested to review, reconsider, and report back to the September 30, 2020 meeting of Council with regard to the potential inclusion of Meadowland Gate and reclassification of Haggert Avenue North and Railroad Street.

Council consideration of this matter included:

- benefits of active transportation infrastructure in encouraging an active lifestyle
- cost savings through incorporation of active transportation infrastructure during initial road construction or rehabilitation
- need for more education and outreach to the Brampton community with respect to active transportation infrastructure
- concerns about the cycling lanes on North Park Drive, given the number of schools on this roadway
- request that staff consider green space for active transportation infrastructure where possible
- proposed amendments to the motion, accepted by the mover:
  - include Balmoral Drive east of Bramalea Road in the second clause
  - add a new clause 3: “That future considerations include “no parking” designations; and”
  - add a new clause 4: “That any new road resurfacing be paused until Council has been presented with the requested report.”

Throughout Council’s consideration of this matter, in response to questions from Council, staff provided details on the process for consideration of active transportation infrastructure as part of road rehabilitation and construction projects, and information on urban shoulders.

The motion, as amended, was considered as follows.

C341-2020    Moved by Mayor Brown  
                  Seconded by Regional Councillor Santos

That the 2020 Preliminary Road Rehabilitation resurfacing plan be endorsed with regard to the green and yellow classifications; and

That staff be requested to review, reconsider, and report back to the September 30, 2020 meeting of Council with regard to the potential inclusion of Meadowland Gate and Balmoral Drive east of Bramalea Road; and reclassification of Haggert Avenue North and Railroad Street; and

## **5.2: Review of Regional Council Composition (*For Information*)**

### Overview

- At the February 6, 2020 meeting of Regional Council Policies and Procedures Committee (PPC), this report titled “Review of Regional Council Composition” was deferred to the next PPC meeting.
- Under the Municipal Act, 2001, regional municipalities are required to review, for each of their lower-tier municipalities, the number of members of their council that represent the lower tier.
- The report provides options for Council’s consideration regarding the method of conducting a review
- Options for the Regional Council’s consideration include:
  1. Do nothing.
  2. The Region of Peel may proceed in accordance with Ontario Regulation 45/17 which has not been repealed. This option does not eliminate the requirement for a triple majority process.
  3. Establish a task force comprised of Councillors and staff to make recommendations to Regional Council.
  4. Refer the issue to the Council Policies and Procedures Committee to make recommendations to Regional Council.
  5. Schedule Special Meetings of Regional Council for the purpose of conducting the review.

### City of Brampton (Comments from Public Affairs)

- A fair Regional Council composition ensures Brampton residents continue to receive core Regional services in the most cost effective and efficient way possible

September 30<sup>th</sup> 2020

On behalf of the City of Brampton, we would like to thank the Nigerian High Commission, the Lagos State Government, His Imperial Majesty Arole Oduduwa'Olofin Adimula, Ooni Adeyeye Enitan Ogunwusi Ojaja II, Ooni of Ife, the Nigerian Canadian Trade & Investment Group, Idris Orouguh Consulting, UpSurgence, Pertinence Limited, South Energyx Nigeria Limited, and Hope4Sure Foundation for their support in the development of the 2020 Brampton meets Nigeria 2020 Nigeria Foreign Direct Investment (FDI) and Cultural Engagement Tour. We greatly value the opportunities created by the tour that explored potential cultural, technological and trade relations between our City, the Country of Nigeria and the State of Lagos.

The City of Brampton shares a unique bond with Nigeria in its greatest resource, its people. The Nigerian Canadian diaspora in our city has played a vital role in the growth and development of our community, opening doors to new and exciting opportunities. Nigeria is Canada's 31st ranked trading partner, 0.1% of FDI stock in 2017 and is the top country for Immigrants from Africa for Brampton, giving the city the second largest group of Nigerians in Canada and making it a seamless transition for many new Nigerian Canadians.

We are excited about the interest from Canadian and Nigerian investors, as well as entrepreneurs who wish to expand their operations, pursuing trade and investment between businesses in Lagos State and The City of Brampton. We look forward to continued discussions around the development of an agreement with Lagos State, centred on our shared priorities and goals of advancing the

development in the following sectors: cybersecurity, health & life sciences, agriculture, arts, and tourism.

In addition to this opportunity, we have received significant positive response from High Commissions across Africa and the Caribbean, expressing interest in furthering ties and opportunities for trade and development. Brampton is home to a Black African & Caribbean Diaspora of 80,000 residents as of last census 4 years ago, and has continued to grow dramatically. The potential of leveraging our people to people ties will not only support the continued strong growth of our diverse mosaic of cultures in the City of Brampton, but will also lead to more equitable international trade and access to quality jobs in the City of Brampton.

Our Director of Economic Development for the City of Brampton, Clare Barnett, will be leading this initiative for the City. Clare is a highly accomplished professional in the economic development sector, with experience around the world in developing foreign trade offices for the Province of Ontario. Clare's experience will prove instrumental to the development of this agreement.

The 2020 Brampton Meets Nigeria FDI tour has proven to be an important first step in strengthening and growing ties between Brampton and Lagos State. Our shared work on increasing business ties with our constituents will show strong leadership on the international stage.

Mayor, Patrick Brown

Building Engaging Communities

# 2020 NIGERIAN FDI & CULTURAL ENGAGEMENT TOUR REPORT

JUNE 2020

## AFRICAN TRADE OVERVIEW

---

In the period of 2015-2017, the total trade from Africa to the rest of the world averaged US\$760 billion compared with US\$481 billion from Oceania, US\$4.109 trillion from Europe, US\$5.14 trillion from America and US\$6.801 trillion from Asia, according to the [UNCTAD](#).

The [Office of United States Trade Representative](#) ("Oustr") reports that in 2018 the leading Sub Saharan Africa ("SSA") import categories included: Crude Oil (US\$8.0 billion in 2018; down 13.6% from 2017), Textiles and Apparel (US\$1.2 billion; up 18.4%), Minerals and Metals (\$728 million; down 12.3%), Transportation Equipment (US\$697 million; down 47.4%), Agricultural Products (US\$597 million, up 8.0%), and Chemicals and Related Products (US\$486 million, up 51.9%)

[Africa Renewal](#) - a media partner of the UN - reports that China surpassed the U.S. in 2009 to become the SSA's largest single trading partner. According to the [International Advances in Economic Research's article 'Africa's Rising Exposure to China: How Large Are Spillovers through Trade?'](#), China made foreign direct investment ("FDI") in the SSA region that amounted to US\$16 billion in 2011. China also stepped up its financial assistance to the region by announcing a credit line of US\$20 billion to Africa during the 2012 Forum On China-Africa Cooperation ("FOCAC").

The increasing role of China in SSA reflects "China's increasing share as a major player in world trade and its historic reorientation toward new markets that started in the last decade," the [IMF](#) reports. As part of its massive expansion in the region, China has set up 6 strategic economic zones: two in Nigeria, one in Mauritius, one in Ethiopia, two in Namibia, and one Egypt.

---

Yet, the US still remains an important influencer in the region. The [Oustr](#) records that US goods exports to Sub-Saharan African countries in 2018 were US\$15.9 billion, up 12.8% (US\$1.8 billion) from 2017 but down 14.1% from 2008. US exports to the Sub-Saharan African countries account for 1.0% of overall US exports in 2018. While US goods imports from Sub-

Saharan African countries in 2018 were US\$25.1 billion, up 0.9% (US\$218 million) from 2017, but down 70.9% from 2008. US imports from the Sub-Saharan African countries account for 1.0% of overall US imports in 2018.

American technological powerhouses too are fighting to establish dominance on the continent. Facebook, for example, is building a 37,000-kilometer long undersea cable around Africa to boost the Internet access on the continent. While the CEO of Twitter and Square [Jack Dorsey] expressed that he wanted to move to Africa for at least 3 months because the continent will 'define the future', according to [CNBC](#). And, McKinsey & Company has now established an [Africa Delivery Hub](#) to help develop the continent's social infrastructure by utilizing emerging technologies.

While China is currently the continent's largest single trading partner, the European Union-27 is Africa's largest export and import partner. In 2016, the European Union-27 had 31% of its exports and 29% of its imports moving to and from the continent. In exports, the European Union-27 was followed by other African countries (16%) and China (11%). In the same year, Africa's exports to the UK stood at US\$16.89 billion, registering a marginal 1.96% increase from the previous year's total of US\$16.57 billion. While Africa's imports from the UK stood at US\$11.40 billion, representing a 5.69% decline from the previous year's total imports of US\$112.08 billion, according to [TRALAC](#).

With all that being said, Africa's colonial history continues to play a predominant role in its trade narrative. France remains the key investor in French-speaking Africa, as Portugal and Brazil invest primarily into Portuguese speaking Angola and Mozambique—although on a smaller scale.

Internally, the nations of Africa have been moving towards stronger ties and collaboration. [The African Continental Free Trade Agreement \(AfCFTA\)](#) trade pact was signed in March 2018 and ratified in May 2019. The act forms a continent-wide free-trade area that aims to stimulate more inter-continental trade, scheduled to take effect in July 2020. The trade agreement "removes tariffs on 90 percent of goods, progressively liberalizes trade in services, and addresses a host of other non-tariff barriers", [according to the Washington-based Brooks Institute](#).

## NIGERIA: BASIC FACTS

---

The **Federal Republic of Nigeria** was declared on the 1st of October 1963

**President:** Muhammadu Buhari

**Capital:** Abuja

**Population:** 204.6 million est. (2020)

Nigeria has the third largest youth population in the world, after India and China, with more than 90 million of its population under the age of eighteen.

**Currency:** Nigerian naira

**GDP Per Capita:** \$6,232

According to [worldexports.com](https://worldexports.com), [Nigeria's Top exports in 2019](#) were:

1. Mineral fuels including oil: US\$46.7 billion (87.1% of total exports)
2. Ships, boats: US\$3.2 billion (5.9%)
3. Other base metal goods: US\$2.1 billion (3.9%)
4. Cocoa: US\$311.1 million (0.6%)
5. Oil seeds: US\$299.7 million (0.6%)
6. Fertilizers: US\$151.7 million (0.3%)
7. Fruits, nuts: US\$113.4 million (0.2%)
8. Tobacco, manufactured substitutes: US\$103.7 million (0.2%)

9. Raw hides, skins not fur-skins, leather: US\$75.3 million (0.1%)
10. Aircraft, spacecraft: US\$69.8 million (0.1%)

According to [worldexports.com](https://worldexports.com), [Nigeria's Top imports in 2019](#) were:

1. Machinery including computers: US\$9 billion (18.9% of total imports)
2. Mineral fuels including oil: US\$7.4 billion (15.6%)
3. Vehicles: US\$5.6 billion (11.9%)

6. Plastics, plastic articles: US\$1.5 billion (3.2%)
7. Glass: US\$1.5 billion (3.2%)
8. Pharmaceuticals: US\$1.5 billion (3.1%)
9. Cereals: US\$1.3 billion (2.8%)
10. Articles of iron or steel: US\$1 billion (2.1%)

Thus, Nigeria tends to import high valued manufactured goods while exporting raw materials and commodities.

**Famous Nigerians include:** Fela Kuti, Afrobeat and human rights advocate and Wole Soyinka, author and first Black African to win the Nobel Prize for Literature in 1986.

## NIGERIA-CANADIAN RELATIONS

---

Nigeria's top trading partners include Brazil, China, India, Japan, US and the European Union. Canada, however, is ranked Nigeria's 31st trading partner, at 0.1% of FDI stock in 2017. Yet, in 2018, Canada welcomed more than 11,000 Nigerian students—making Nigeria Canada's most important source of international students from Sub-Saharan Africa [according to the Government of Canada](#).

[The Government of Canada](#) also reports that in 2018, Nigeria was Canada's second-largest bilateral merchandise trading [partner in Sub-Saharan Africa](#), with bilateral merchandise trade totalling \$948.4 million. Canadian merchandise imports from Nigeria totalled \$480.5 million. Canada's main imports consist of mineral fuels and oils, cocoa, rubber, lead and processed foods. Meanwhile, Canada's exports to Nigeria totalled \$467.9 million – making Nigeria Canada's second-largest export market in Africa. Canadian exports to Nigeria include a wide range of products, including vehicles and equipment, wheat, manufacturing equipment, software, aircrafts, and cars.

Currently, Canada and Nigeria have a trade agreement, [“Agreement Between Canada And The Federal Republic of Nigeria For the Promotion and Protection of Investments”](#), that has yet to be ratified.

According to the Canadian [consensus](#), in 2016 Nigerians only followed Jamaicans and Haitians respectively in having the most number of immigrants of Afro-descent to enter Canada as new immigrants.

## THE IMPACT OF COVID-19

---

Like much of the world, the first half of 2020 has not been kind to Nigeria. Its economy is highly dependent on foreign exchange proceeds and the recycling of petrodollars. The nation now suffers a loss of over US\$26 billion due to the recent deep decline in the international oil prices along with a depressed global demand for oil, [according to the IMF](#). To make matters worse, the IMF also reports that the impact of COVID-19 on the Nigerian economy has been severe. With a 6% drop in growth, the economy now faces a contraction of 3.4% in 2020.

To address these issues, [the IMF has provided Nigeria with US\\$3.4 billion](#) in emergency assistance to support the nation's healthcare sector, jobs, businesses, and defend its struggling international reserves. In fact, since the City of Brampton's **Nigerian 2020 FDI & Cultural Engagement Tour** in February, the Nigerian currency faced devaluations. On March 24, 2020 [Bloomberg reported](#) that Nigeria had devalued its Naira by 4%. To further illustrate the Naira's decline, on February 10th, 2020, the Naira was worth 366.27 NGN to 1 US Dollar. On May 10th, 2020, the Naira was worth 390.13 NGN to 1 US Dollar.

In the midst of these challenges, opportunities have appeared. Wealthy Nigerians are now seeking to protect their assets in safer terrains. In such an economic climate, the secure and stable financial institutions of the Canadian market have become more attractive to the Nigerian Investor.

## PURPOSE OF THE FDI INITIATIVE

---

After a successful exploratory tour in November 2019, the purpose of the Nigerian 2020 FDI & Cultural Engagement Tour held in February was to further the City of Brampton's governmental and cultural ties with the nation. The initiative was designed to offer greater opportunities to Brampton's businesses and exports by creating paths to Nigerian investors and markets. Thus, the tour included meetings with investors, entrepreneurs, technology and cultural leaders—from top Nollywood film directors to the Ooni of Ile-Ife—as well as government officials—highlighted by our meeting with the Governor of Lagos State. The tour was simply six days of continuous impactful victories for the City of Brampton.

The initiative was built to last. Well after the Nigerian 2020 FDI & Cultural Engagement Tour occurred the initiative has continued to attract seasoned investors and entrepreneurs who wish to expand their businesses in the city. As well, the information gathered from the engagement can now help the City of Brampton to pinpoint areas for further government-to-government strategic partnerships akin to the cybersecurity agreement that it is now formalizing with Lagos State.

## FINANCE & BUDGET IMPLICATIONS

---

The FDI initiative was at no cost to the City of Brampton. Nigeria-Canada Trade & Investment Group ("**NCTIG**") covered the cost for the initial FDI Exploratory Visit to Nigeria in 2019. UpSurgence coordinated the sponsorship of Nigerian 2020 FDI & Cultural Engagement's key activities. **Key Sponsors:** Pertinence Limited, Ooni of Ile-Ife, NCTIG, and UpSurgence.

**Hosting City Support:** Security: Lagos State Government; Security: Osun State Government; and Ground Transportation: Lagos State Government.

## SUMMARY OF ACTIVITIES

---

- In July 2019, The City of Brampton hosted a delegation with the Ooni of Ife of Nigeria. Discussions have begun to establish a mobile exhibition of Nigerian art to be launched in Brampton.
- In August 2019, Councillor's Williams and Singh, Director of Operations to the Mayor, Frances Bradshaw and Director of Economic Development for the City of Brampton Clare Barnett met with Nigeria's High Commissioner to Canada in Ottawa. The discussion centred around a potential FDI mission to Nigeria. Attending the **Canada-Nigeria Business & Investment Summit (CNBIS)** was also discussed.
- The NCTIG, and the Nigerian High Commissioner's office invited the Mayor's office and council to attend the NCTIG, in Nigeria after receiving the Ooni of Ife-Ife. The High Commissioner's office continued the discussion with the City of Brampton by leveraging the city's growing Nigerian diaspora--one of the largest in Canada. In addition, the High Commissioner sent the Mayor a document outlining the investment opportunities Nigeria had to offer, as well as the potential for collaboration.
- On October 1, the Mayor's office received an invitation to attend the second annual CNBIS in Nigeria. Due to a prior engagement, the Mayor was unable to attend the NCIS and council voted unanimously to send City Councillor Williams and Regional Councillor Palleschi to attend and present at the CNBIS 2019, with the NCTIG covering the cost.
- Following direction from the Mayor's office and Council, Councillor Williams led a delegation to carry out due diligence on economic and cultural development of FDI attraction from Nigeria by attending the Nigerian Canadian Investment Summit 2019.
- Before attending the conference, Brampton City staff and a consultant who worked with Welcome Nigeria--a Nigerian tourism and business development organization, conducted research. Brampton City staff also attended local relevant

investment events to develop relationships and assess the market data ahead of building out a business case for a strategic FDI initiative in Nigeria for the City of Brampton.

- Clare Barnett had connected with Canada's High Commission in Nigeria to seek their point of view on the Summit, and Brampton's ability to secure FDI leads from the attendees. The EDO began working with Isaac Olowolafe jr of Dream Maker Ventures on realty development opportunities. Isaac has significant business connections with Nigeria. In collaboration with Ryerson University, Isaac Olowolafe has established the Black Innovation Fellowship. Its goal is to support and mentor black entrepreneur led start-ups. There are current discussions to establish a fund in Brampton. The first exploratory meeting was held November 29th at Brampton City Hall in collaboration with Ryerson and there are conversations, including Isaac Olowolafe and the Nigerian delegation, about creating a Black Innovation Hub based in Brampton.
- In September 2019, the Mayor received a letter from the High Commissioner, inviting the Mayor and the City to visit Nigeria and attend the Nigeria Canada Investment Summit. Council unanimously approved for Councillor Williams and a Member of the Mayor's staff to attend along with the consultant Idris Orughu.
- In December of 2019, s. Claudia McKoy of UpSurgence was invited to develop a plan of action to map out a possible **2020 FDI & CULTURAL ENGAGEMENT TOUR** for both Nigeria and Ghana. On December 31, 2019, Ms. McKoy began working with Brampton's EDO Clare Barnett to discuss the objectives and requirements for the initiative.
- On January 6th, Ms. McKoy then met with Peel Art Gallery Museum + Archives' ("PAMA") acting development Coordinator, Joane Doane, who declined an invitation to participate in the upcoming FDI tour. However, she welcomed the idea of possibly hosting the Ooni of Ile-Ife's art collection.
- In early January, the decision was made to focus the 2020 FDI & CULTURAL ENGAGEMENT TOUR on Nigeria alone to accommodate Mayor Brown's busy schedule.
- Throughout January 2020, Ms. McKoy conducted informal community engagement activities at local social events like First Fridays to promote the initiative to key members of Brampton's African and Caribbean communities. She also

began to coordinate with key stakeholders to ensure confirmations of key activities, travel and accommodations and security of the delegates. In addition, Ms. McKoy secured the required sponsorship for the 2020 FDI & CULTURAL ENGAGEMENT TOUR.

- From February 9th to 13<sup>th</sup> February, Mayor Patrick Brown and Councillor Williams visited Nigeria.

- In March 2020, Brampton-based UpSurgence began negotiating a partnership deal with Lagos-based Pertinence Limited.

- Beginning in March 2020, a series of follow ups meetings were held with Councillor Williams, Mrs. Frances Bradshaw, and Ms. Clare Barnett. Such meetings were interrupted by the rise of the COVID-19 pandemic. Follow up meetings resumed in June. On June 4th, 2020 meetings with Ms. Clare Barnett team, Councillor Williams and Mrs. Frances Bradshaw as well as Mayor Brown. Those meetings laid out the next steps for the initiative. The next steps are outlined in the *OUTCOMES & NEXT STEPS* section of this document.

## KEY TAKEAWAYS

---

- With the majority of foreign nationals living or working in Lagos, the state is both an economic and cultural hub of Nigeria. The Lagos State Governor has recently come into office with a progressive agenda and shares many of our council efforts. This vision for Infrastructure and housing development, alleviating traffic congestion and awareness of environmental impacts highlights his eco-friendly growth model he seeks to lead Lagos' ever increasing population.
- On the matter of cybersecurity, the Nigerian Police Force has put substantial efforts into developing effective strategies to protect online data. In addition, at The Lagos State Governor's meeting, Mayor Brown established a strategic partnership agreement with the city of Lagos. This offers the City of Brampton to share information and begin the process of creating a global fire wall against online crime.
- The Ooni of Ile-Ife's 2019 visit to Brampton was a significant cultural exchange between the Nigerian diaspora and the mosaic that is the city of Brampton. The cultural ties were further strengthened by the Mayor's visit to Osun State and the Kingdom of Ile-Ife. A verbal agreement was reached to launch the Canadian tour of Ooni of Ile-Ife's art collection at Brampton's PAMA.
- Among many Nigerians, Canada is an attractive place to live and invest. Investors like Canada's secure and stable financial institutions. Entrepreneurs too are keen to expand into a Canada market that enjoys its own and access to one the world's largest consumer markets—the US. This offers Brampton the opportunity to welcome wealthy investors to either invest in its local businesses or expand into the city.
- Councillor Williams identified the need for municipalities to have more independence in developing their own FDI programs. One way this could be achieved is by having municipalities get FDI funding directly from the federal government. Councillor Williams has begun advocating for a direct Federal to municipalities funded FDI program to occur.

- The 2020 FDI & CULTURAL ENGAGEMENT TOUR provided a successful model for municipalities to explore emerging markets and underexplored terrains to identify new FDI opportunities without expense. This model has now piqued the curiosity of elected officials of smaller municipalities who have yet to develop FDI strategies for their cities due to the belief that such a plan would 'naturally' be financially out of their reach. In addition, the impact of COVID-19 on many cities' balance sheets too has made a private sector driven and no cost FDI program even more desirable.

## **HIGHLIGHT - 2020 FDI & CULTURAL ENGAGEMENT TOUR, LAGOS & ILE- IFE February 8TH – 14TH 2020**

---

Ground Preparation Days—Saturday February 8<sup>th</sup> & Sunday February 9<sup>th</sup>

Saturday February 8<sup>th</sup>, Councillor Williams, Mrs. Frances Bradshaw, Ms. Claudia McKoy arrived at Murtala Muhammed International Airport and was received by the Pertinence Limited team and Taiwo Odutola, and Toibudeen Oduniyi of the Nigeria-Canada Trade & Investment Group. The Canadian delegation was then taken directly to Eko Hotel & Suites where Ms. Peju Naomi Sigismund met us and pre-arranged our accommodations. The accommodations were provided for by the Ooni of the Yoruba kingdom of Ile-Ife as a thank you for being received back in August 2019 by the city of Brampton.

Councillor Williams, Mrs. Bradshaw, and Ms. McKoy spent Sunday February 9<sup>th</sup> preparing for the upcoming week to ensure that all the necessary details were addressed. As a result several team meetings were held to confirm the tours activities.

### **Lagos – Monday, February 10<sup>th</sup>**

**11am:** Pertinence Ltd office Tour to Meet & greet its staff  
**Venue:** Pertinence Limited Offices

**1pm: Deputy High Commission of Canada Meeting**

Venue: High Commission of Canada, Lagos

Mr. Toibudeen Oduniyi, Director, NCTIG; Mr. Taiwo Odutola, Managing Director, NCTIG; Mr. Sunday Olorunsheyi – Co-Founder, Pertinence Limited; Mr. Wisdom Ezekiel– Co-Founder, Pertinence Limited; City Councillor City of Brampton Charmaine Williams; Mrs. Frances Bradshaw, Senior Advisor to the Mayor of Brampton, and Ms. Claudia McKoy – Principal of UpSurgence met with Deputy High Commissioner, Ryan A. Ward.

Mr. Ward spoke about the various ways his office assists Canadian businesses that seek to enter the Nigerian market. Councillor Williams and Mrs. Bradshaw were keen to discuss with the deputy high commission how cities could help assist the process of building partnerships to lay the foundation for mutually beneficial trade. While Ms. McKoy, the Pertinence Limited founders and the NCTIG delegates focused on exploring how private businesses and organizations could work together to assist other businesses and organizations to access each other's markets in innovative ways. Mr. Ward stressed that the West African markets have both their challenges and rewards. The key was to be well informed and have strong reliable partnerships in the region. He invited UpSurgence and Pertinence Limited to think through ways that a potential partnering between the two businesses could assist such a process. This sparked the UpSurgence and Pertinence Limited partnership.

**9pm: Delegates and Local Officials received the Mayor Patrick Brown**

**Venue:** Murtala Muhammed Airport

The Mayor was received at the airport by the Canadian Delegates, Nigerian Delegates as well as the Lagos State Government Officials.

## VENUES

---

**Eko Hotels and Suites** is a five-star conference centre hotel in Lagos.

### **Eko Atlantic**

**Eko Atlantic** development is being carried out as a Public–private partnership, with private companies and investors providing the funding, whilst Lagos State Government is a strategic partner, with the support of the Federal Government.<sup>[6]</sup> The Contractors are China Communications Construction Group, a company that works in the field of marine dredging and landfill operation. Consultants are Royal Haskoning (traffic and transport expertise) and *ar+h Architects*. *South Energyx Nigeria Ltd.*, a subsidiary of the Chagoury group, was specifically created to undertake the development. Testing of the sea defence system took place at the DHI Institute in Copenhagen, Denmark, where models were successfully tested for one-in-a-hundred-year ocean surges, and one-in-120-year, one-in-150-year and one-in-1,000-year storms.

Eko Atlantic is a registered Free Economic Zone. We believe that this will be a crucial area in business development due to the support the project has from the government. The advantages of operating in an Free Economic Zone include:

- Complete holiday from all Federal, State, & Local Government taxes & levies.
- Duty free importation of capital goods, machinery/components, spare parts, raw materials and consumable items within the zones.
- 100% foreign ownership of investments.
- Waiver of all imports and exports licenses.
- Waiver on all expatriate quotas.

- One-step approvals for permits, operating license and incorporation papers.
- Waiver on all expatriate quotas for companies operating in the zones.
- Foreign investors guaranteed unconditional capital transfer.

## NEXT STEPS

---

1. One of the lessons learned throughout the process was that the City needs to establish a framework and best practices for its participation in private-sector driven FDI initiatives to address how best to document the financial aspect of such initiatives. We recommend a sponsorship model that assigns any third party investment to the City and not to the elected officials who take part in those trade missions. Investing in such structural guidance will allow the City to enjoy impactful FDI initiatives at lower costs. The UpSurgence team would be happy to help with such a process.
2. To continue the momentum of the Nigerian trade mission, The City will participate in the Nigeria – Canada Trade & Investment's ("**NCTIG**") **Nigeria Canada Investment Summit** to host the **Nigeria – Canada Investment Summit ("**NCIS**")** a virtual conference scheduled for November 10<sup>th</sup> & 11<sup>th</sup> 2020. Highlights includes keynote speaker Vice President of Nigeria H.E Prof. Yemi Osinbajo.

## Announcement

---

As a result of connecting through the process of developing the 2020 NIGERIAN FDI & CULTURAL ENGAGEMENT TOUR, **UpSurgence (Brampton) and Pertinence Limited (Lagos)** have begun a partnership. The partnership will establish an organization that will identify and create readiness programs for entrepreneurs & businesses that wish to operate in Canada & Africa and the Caribbean. We will host virtual investment campaigns highlighting Africa and the Caribbean entrepreneurs. Additional activities will include designing and hosting a follow up West Africa FDI tour. Our ultimate

goal is to establish an investment fund. Much of our key operating activities will occur in Brampton—promising local opportunities and jobs. The new initiative seeks the city's support in two ways:

1. The Mayor's and the City's participation in key virtual meetings to entrepreneurs and investors to promote Brampton. The series will be launched in November 2020.
2. A letter from the City or its Mayor to invite the Pertinence Limited founders to attend a planning meeting at the City to explore how our initiative could work with the city to identify how the initiative would best benefit the city.

## **MEDIA COVERAGE**

---

The trade mission was broadcast on prime news both prior to and during its visit. Understandably, the peak media attention for the trade mission occurred during the Lagos State meeting with its Governor. Internally, Pertinence Limited ensured that the delegation had both traveling photographers and videographers. In addition, as seen below, the trade mission enjoyed plenty of social media documentation.

# Villages of Rosedale Community Tax Fairness

Rick Wesselman  
Joe Spina

September 30, 2020

# Why We're Delegating Today

- The review of property tax fairness for the Villages of Rosedale residents submitted by staff was comprehensive and explained our position and request clearly and provided three definitive conclusions.
- We attempted to request the Committee to adopt these conclusions as a motion to be forwarded to Council, however:
  - The delegation by VOR was virtually ignored beyond putting it forward to Council today.
  - Councillor Singh brought forward a motion on a noise wall replacement that was, in our opinion, not on the agenda and orthogonal to the staff report.
  - The noise wall replacement was petitioned in November 2018 under existing city policy.
  - The noise wall petition shouldn't be traded off against the property tax fairness issues raised in our previous delegations.

# Our Asks of Council

- On the issue of property tax fairness:
  - After 2 ½ years of discussions, the residents of the Villages of Rosedale deserve closure.
  - We request that Council vote on taking actions on each of the three conclusions contained within the staff report.
- On the issue of VORs' petition on the replacement of an existing noise wall under the City of Brampton's existing noise wall policy:
  - We request that Council approve the motion requesting staff to report on the petition.

## Active Transportation Master Plan

### 2019 Active Transportation Master Plan Endorsed by Council

On September 25, 2019 Brampton City Council endorsed the **Active Transportation Master Plan**.

The Plan was initiated in January 2016. Its development involved hundreds of hours of consultations with the public, stakeholders, partnering public agencies, City Council and staff.

#### Thank You

The City of Brampton would like to thank everyone who took the time to attend one of our public sessions.

### About the Active Transportation Master Plan

The City's first ever Active Transportation Master Plan provides the network plan, policies and programs to support Brampton's 2040 Vision for a mosaic of safe, integrated transportation choices and new modes, contributions to civic sustainability, and emphasizing walking, cycling, and transit.

Active Transportation (walking, cycling and other self-propelled mobility options) presents one of the greatest untapped opportunities for reducing single occupant vehicle trips, and for addressing a host of community design and public health issues. Incorporating global best practices in active transportation and promoting the concept of 'complete streets' and 'sustainable' community design is a guiding principle for the City's planning and engineering efforts.

The Active Transportation Master Plan focuses on the implementation strategy for building a connected cycling and pedestrian network across the City (and connecting to neighbouring

**Subject:** **Asset Naming -Recommended Location for Shahbaz Bhatti Park**

**Contact:** Peter Fay, City Clerk, Legislative Services,  
peter.fay@brampton.ca

**Report Number:** Legislative Services-2020-174

**Recommendations:**

1. That the staff report titled Asset Naming - Recommended Location for Shahbaz Bhatti Park, to the City Council meeting of September 30, 2020, be received;
2. That the new park currently being constructed at Davenfield Circle (Davenfield Park) be named Shahbaz Bhatti Park; and
3. That, upon successful completion of the public commenting period, staff be directed to erect appropriate park signage and undertake notifications for addressing, mapping, operations and emergency services regarding the new park name.

**Overview:**

- **At its August 5, 2020 meeting, City Council approved the name Shahbaz Bhatti Park to commemorate his sacrifice promoting acceptance and tolerance for minority groups.**
- **The Wards 7 and 8 Reference Committee (comprised of Mayor Brown and Councillors Williams and Fortini) considered possible parks and recommended the naming of the Davenfield Park, currently under construction, to be named Shahbaz Bhatti Park. Staff are recommending the renaming as proposed by the Reference Committee.**
- **A 30-day public consultation commenting period will start in accordance with the City's Asset Naming Policy.**

## **Background:**

In May 2019, Council established ward-specific Reference Groups to consider and make recommendations on City asset naming and renaming requests within the respective ward pairings:

Resolution C295-2020

1. That the report titled: Commemorative Naming Process and Update for City Facilities and Streets (R 323/2019 / RM 68/2019), to the Council Meeting of August 5, 2020, be received;
2. That the following names be approved and available for future use, as previously considered by Council, through the commemorative naming process for parks, in accordance with the Asset Naming Policy:
  - a. Shahbaz Bhatti Park;”

City staff reviewed options for candidate parks within Wards 7 and 8 for consideration by the Reference Committee. This report recommends a park naming based on the recommendation of the Wards 7 and 8 Reference Committee.

## **Current Situation:**

An April 2019 Council meeting Announcement from Peter Bhatti, Chair, International Christian Voice, and brother of Shahbaz Bhatti, identified a request for a City park named after his deceased brother. Shahbaz Bhatti was the first Christian parliamentarian who served as the Federal Minister of Minorities Affairs in Pakistan. Bhatti was one of the founding members of the organization ‘All Pakistan Minorities Alliance’ (APMA) in 1985 and was considered a representative of the religious minorities in Pakistan. As federal minister, Bhatti took serious steps to ensure the safety, rights and empowerment of religious minorities while in office, until his assassination in 2011.

In August 2019, Mayor Brown announced a park in the City would be named Shahbaz Bhatti Park. Naming a City park as Shahbaz Bhatti Park contributes to the City’s rich cultural mosaic and commemorates acceptance and tolerance for minority groups within a diverse society such as Brampton. The recommended name of Shahbaz Bhatti Park is in keeping with the City’s Asset Naming policy.

The Council Reference Group met on September 16, 2020 to discuss potential locations in Ward 8 for a park to name Shahbaz Bhatti Park, as approved by City Council. Two parks were considered:

- Davenfield Park (new park under construction to be completed over the next several weeks and include trail connections)
- Midsummer Park (existing park named after adjacent street)

The consensus was to recommend naming the new Davenfield park as Shahbaz Bhatti Park for the following reasons:

- New park development preferred over renaming established park
- Links to trail amenities

Pending Council's decision, the renamed park will be available for a public commenting period of 30-days while the park construction is completed.

**Corporate Implications:**

Financial Implications:

None

Other Implications:

**Term of Council Priorities:**

Council Priority – Brampton is a Mosaic

This report achieves the Strong Communities priority by celebrating and recognizing Brampton's diversity.

**Conclusion:**

Naming Davenfield park as Shahbaz Bhatti Park fulfils Council's direction and contributes to the City's rich cultural mosaic and commemorates acceptance and tolerance for minority groups within a diverse society such as Brampton.

**Date:** 2020-09-22

**Subject:** **2021 Council and Committee Meeting Schedule**

**Contact:** Charlotte Gravlev, Deputy City Clerk

**Report Number:** Legislative Services-2020-183

**Recommendations:**

1. That the report titled 2021 Council and Committee Meeting Schedule (File: BC.x) to the City Council Meeting of September 30, 2020, be received; and
2. That the 2021 Brampton Council and Committee Meeting Schedule, as outlined in Appendix 1 of the report, be approved; and
3. That the Mayor, in consultation with the respective Committee Chairs, the Chief Administrative Officer and City Clerk, be authorized to exercise discretion and constraint in the convening of scheduled Committee meetings, having regard for practicality and level of necessity, in the context of COVID-19 considerations and restrictions; and
4. That as directed by Council in September 2019, in regard to the report on the 2020 Council Schedule, the following provisions also be made to the 2021 meeting calendar:
  - a. in respect for Remembrance Day events and activities leading up to November 11th, and in accordance with similar practices of federal and provincial legislatures in observance of Remembrance Day Week, no meeting be held on the Wednesday preceding Remembrance Day;
  - b. in respect to the Thanksgiving statutory holiday, no meeting be held on the Wednesday preceding the Thanksgiving Monday holiday; and
5. That the commencement of meetings of Council and Committees in January 2021 be delayed until the third week of the month, to the week following the first meeting of Regional Council (Thursday, January 14, 2021), in order to maintain the traditional sequencing of Regional and City meeting events.

**Overview:**

- **Procedure By-law 160-2004, as amended, outlines requirements for the annual meeting schedule for Council and its committees, subject to Council approval by the end of September of the preceding year.**
- **This draft 2021 calendar schedules meetings of City Council, Committee of Council, Planning and Development Committee, and various other Council committees or advisory committees as defined in the Procedure By-law.**
- **The proposed meeting schedule takes into consideration statutory holidays, significant religious observances and events such as annual municipal conferences.**
- **This report achieves the Term of Council Direction/Priorities of a Well-run City through the approval and publication of an annual legislative meeting schedule to facilitate Council decision-making.**

**Background:**

Procedure By-law 160-2004, as amended, states that the Council/Committee meeting schedule is to be established on an annual basis, and approved in September of the previous year. This report recommends a legislative meeting schedule for 2021.

**Current Situation:**

The Procedure By-law sets out the method for scheduling meetings for City Council and its standing committees: the Committee of Council and the Planning and Development Committee. Meetings are generally scheduled every two weeks. The proposed 2021 meeting calendar follows this same approach to provide scheduling certainty for 2021.

The proposed 2021 meeting schedule takes into account statutory holidays, significant religious observances and events such as annual municipal conferences. The meeting schedule also includes monthly Council Workshop dates for continuous learning.

This proposed calendar also continues to reserve Thursdays for Peel Regional Council meetings, and subject to Regional Council approval of its 2021 meeting calendar, such meetings will be added to the 2021 Brampton Meeting Schedule. Of note, the proposed 2021 Regional Council schedule of meetings indicates its first meeting of Regional Council of the year would occur on Thursday, January 14, 2021, and correspondingly the first meeting of Brampton Committee of Council is proposed for the following week on Wednesday, January 20, 2021.

Having regard for Remembrance Day, the Brampton meeting schedule has adopted similar practice as the Provincial Legislature and Federal Parliament by not scheduling a meeting of Council in the week leading up to November 11<sup>th</sup>. Similarly, the proposed calendar is not scheduling meetings on the Wednesday prior to the statutory holidays of Thanksgiving Monday and Family Day Monday.

Other adjudicative bodies, such as the Brampton Appeal Tribunal, Property Standards Committee and Committee of Adjustment are scheduled to facilitate those decision-making processes.

Having regard for the prevailing restrictions in relation to COVID-19, meetings will continue to be held electronically, and/or with hybrid participation options including electronic and in person attendance as may be practical and prudent, at the discretion of the Chair, CAO and City Clerk.

### **Corporate Implications:**

#### Financial Implications:

Any resources and funding required for the facilitation of meetings of Council and its Committees, will be identified and considered as part of the 2020-2022 Operating Budget submission, pending Council approval.

#### Other Implications:

Strategic Leadership Team has reviewed the proposed meeting calendar to assess impact on business operations, and no issues were identified.

### **Term of Council Priorities:**

This report achieves the Term of Council Direction/Priorities of a Well-run City through the approval and publication of an annual legislative meeting schedule to facilitate Council decision-making.

### **Conclusion:**

The proposed meeting schedule reflects the requirements of the Procedure By-law, addresses specific considerations, and seeks to maximize the efficiency of the legislative Council/committee decision-making process. Once approved, the final schedule will be circulated to Members of Council and staff, appropriate Outlook invitations will be issued and the meetings will be posted on the City website. This schedule will be updated during the year as required pending decisions made by Council with respect thereto.

**Secondary Title:** **Traffic By-law 93-93 - Administrative Update - File I.AC (TRAF)**

**Contact:** Binita Poudyal, Traffic Operations Technologist, Road Maintenance, Operations and Fleet, Public Works and Engineering Department, 905-874-2878

**Report Number:** Public Works & Engineering-2020-177

**Recommendations:**

1. That the report titled: **Traffic By-law 93-93 - Administrative Update – (R177/2020 - File I.AC TRAF)**, to the Council Meeting of September 30, 2020, be received; and,
2. That Traffic By-law 93-93, as amended, be further amended.

Enter your Recommendation Here

**Overview:**

- **Administrative changes are required to update and/or add new by-law information to the appropriate schedules and consolidated text of the General Traffic By-law 93-93.**
- **The by-law schedule relating to “Community Safety Zones” is impacted by this administrative update.**

**Background:**

Administrative changes to Traffic By-law 93-93 are necessary on a regular basis as staff identifies, adds and modifies by-law information to the appropriate schedules of the by-law. This allows By-law 93-93 to properly support changes to the City’s road network and

subsequent traffic and parking regulations, including the creation of Community Safety Zones to facilitate Automated Speed Enforcement.

### **Current Situation:**

The following amendment to the schedule of Traffic By-law 93-93 is recommended:

#### Community Safety Zones (Schedule XXIV):

A housekeeping amendment is required to the “Community Safety Zones” schedule to change the street name from Vodden Street to Vodden Street East.

### **Corporate Implications:**

#### Financial Implications:

There are no costs associated with this report.

### **Strategic Plan:**

This report achieves the “Move & Connect” Priority of the Strategic Plan by supporting the “active transportation and cycling strategy” initiative of the plan.

### **Council Priority – Streets for People**

This report incorporates the Vision Zero framework into transportation planning, design and operations to prevent fatal and serious injury from motor vehicle collisions within the City right-of-way.

### **Conclusion:**

The aforementioned administrative updates to Traffic By-law 93-93 is required to properly support changes to the City’s road network and subsequent traffic and parking regulations, including the creation of Community Safety Zones to facilitate Automated Speed Enforcement.

**Subject:** 2020 Road Resurfacing Program

**Secondary Title:** Active Transportation Provisions in the 2020 Road Resurfacing Program – All Wards (HF.x)

**Contact:** Nelson Cadete, Project Manager, Active Transportation, Planning, Building and Economic Development Department

**Report Number:** Public Works & Engineering-2020-191

**Recommendations:**

**THAT** the report from Nelson Cadete, Project Manager, Active Transportation, Transportation Planning, dated September 24, 2020, to the Council meeting of September 30, 2020, re: **Active Transportation Provisions within the 2020 Road Resurfacing Program - All Wards (HF.x)** be received

**Overview:**

- In April of this year, City Council directed staff to apply an active transportation lens, to all new road construction and future road infrastructure capital projects wherever it is possible within the geographical space available within a road construction project.
- Staff takes a collaborative and proactive approach between Planning and Public Works staff to consider well in advance the AT needs to be incorporated into planned capital projects and programs.
- For Council's information, a table summarizing the AT provisions included in the 2020 annual resurfacing program is provided that compares the feedback received from the cycling advocacy to the recommendations of the ATMP, and provides an explanation for any roads that are not considered as candidates for active transportation improvements through the road resurfacing program.

## **Background:**

Further to the City's 2040 Vision for a safe, integrated transportation network emphasizing walking, cycling, and transit, Council directed staff in April of this year *"to apply an Active Transportation lens, as set out in the Active Transportation Master Plan, to all new road construction and future road infrastructure capital projects; and wherever it is possible within the geographical space available within a road construction project, the City endeavour to accommodate Active Transportation initiatives to facilitate an integrated and connected system for the improved health of all Brampton residents."* - April 29, 2020, C142-2020.

A staff report entitled *Implementation of Active Transportation Infrastructure within the City Road Rights-of-way* was included as an information item on the agenda of the August 5, 2020 Council meeting. This report outlined the collaborative and proactive approach between Planning and Public Works staff to coordinate well in advance the AT needs to be incorporated into planned capital projects and programs. The August 5, 2020 report is attached as Appendix A.

At its meeting of September 16, 2020, Council endorsed the proposed active transportation projects incorporated into the 2020 Road Resurfacing program, and directed staff to report back to the September 30, 2020 meeting of Council with regard to the potential inclusion of active transportation infrastructure for the following roads:

- Meadowland Gate
- Balmoral Drive east of Bramalea Road
- Haggert Avenue North
- Railroad Street

Through subsequent discussions with Council, staff was also requested to consider feedback from citizen advocates from the cycling community and to review it against staff's planned active transportation projects within the 2020 Road Resurfacing Program.

## **Current Situation:**

One of the key implementation strategies outlined in the Active Transportation Master Plan (ATMP) is to incorporate cycling and walking infrastructure into planned construction opportunities (i.e., capital road projects, road resurfacing program). This report is addressing active transportation facility implementation opportunities through the City's annual road resurfacing program, and specifically in regards to the 2020 program.

A table summarizing the AT provisions included in the 2020 annual resurfacing program is provided as Appendix B. The table also compares the feedback received from the cycling advocacy to the recommendations of the ATMP, and provides an explanation for any roads that are not considered as candidates for active transportation improvements through the road resurfacing program.

The inclusion of active transportation provisions in planned construction opportunities such as the 2020 Road Resurfacing Program is one of a number of implementation strategies outlined by the ATMP. Implementation of active transportation infrastructure through the road resurfacing program is the most cost-effective approach, though it does limit the types of cycling infrastructure that can be applied to a specific roadway given the scope of the road resurfacing program. The road resurfacing program includes a number of maintenance activities (curb/sidewalk replacement, replacement of asphalt road surface) which extend the life cycle of the road without changing its geometrics. Therefore, the introduction of a bike lane within the existing width of a road can easily be accommodated into a road resurfacing project with pavement markings and traffic signs. However, the construction of a boulevard path or the relocation of a curb to widen a roadway to accommodate bike lanes would require a detailed design (to assess impacts on utilities and drainage) as well as a review of maintenance issues and extends beyond the scope of the resurfacing program.

Due to operating characteristics, the ATMP recommends multi-use paths as the appropriate cycling facility for both Clark Boulevard (Rutherford Road to Dixie Road) and Rutherford Road (south of Queen Street). The suggested facility types identified within the ATMP are derived by applying a facility selection tool (based on provincial guidelines) which uses the following roadway operating characteristics:

- operating speed
- vehicle volume
- pedestrian volumes
- function of the roadway (arterial road, collector road, local road)

Appendix C attached is an excerpt from the ATMP that illustrates a generalized Cycling Facility Selection Tool. It is important to note that any decisions made respecting facility type must be further refined through a more detailed contextual evaluation (because every road is different). From the facility selection tool we can identify that separated facility types such as multi-use paths or cycle tracks are appropriate for roadways with an arterial classification and daily vehicle volumes exceeding 10K, such as the subject section of Clark Boulevard (22.6K – 2018) and Rutherford Road (21.7K – 2015).

The selection facility tool was also applied to support our decisions to not implement formal cycling facilities on local streets. Local streets with daily vehicle volumes less than 3K do not require dedicated space (bicycle lane/urban shoulder). Further, Table

4.7 from the Ontario Traffic Manual Book 18 Cycling Facilities (Appendix D) includes suggested minimum widths for conventional bike lanes. The suggested minimum width for a uni-directional bike lane is 1.5 metres (total three metre requirement – one lane/direction). When applying this standard to the City's 8.0 metre wide local streets, only five metres remain available for two vehicle lanes. For local roadways that have been identified in the ATMP as important network links or identified by the cycling community, staff will accommodate either sharrows or a modified urban shoulder.

### North Park Drive

With North Park Drive (Dixie Road to Bramalea Road) being resurfaced this summer as a part of a regular maintenance cycle, staff assessed the current operational characteristics of the roadway (vehicle speed, volume, etc.) with the ATMP and Vision Zero framework in mind. The traffic data revealed operating speeds were higher than expected when compared to similar roadways.

North Park Drive from Williams Parkway to Bramalea Road is identified in the City's ATMP as a candidate for cycling infrastructure and the recommended facility type is a protected bike lane. In addition to accommodating people on bikes, the bike lanes will also calm traffic by placing North Park Drive on a "road diet". In this case, the road diet involves replacing the four car lanes with two through car lanes, leaving the remaining portion of roadway for other purposes such as bike lanes and a buffer (where possible) between the bike lanes and car lanes. Road diets reduce vehicle speeds, collisions and cut-through traffic, making the road safer for vehicles, pedestrians and cyclists. An increase in traffic safety and slower vehicle speeds has already been noted on the portion of North Park Drive between Dixie Road and Williams Parkway that was put on a road diet earlier this summer.

A request was made by Council to review the potential of installing a multi-use path (MUP) facility in the boulevard of North Park Drive. Even though this road has the boulevard space to install a MUP, it is not recommended for the following reasons:

- Line painting has already taken place on North Park Drive from Dixie Road to Williams Parkway as noted above; to remove those would incur additional cost and would require the road to be resurfaced as the lane markings visible even after grinding would create driver confusion.
- Line painting on North Park Drive where the resurfacing has been completed has already been pre-marked. It is recommended that the line painting in this segment take place as soon as possible to avoid safety concerns.

- Putting priority on the car over that of other sustainable modes of transportation is contrary to our Brampton 2040 Vision and the ATMP.
- The placement of the MUP would use valuable green space in the right of way that we are trying to maintain as part of our Complete Streets initiative and recently approved CEERP, the six CEERP priority projects and the establishment of the Centre for Community Energy Transformation.
- The MUP in the boulevard would have winter maintenance impacts. The snow clearing from the road would be placed on the boulevard so the MUP would not be cleared to the same service level as the road. A bike lane on the road would have the same service level.
- Review from the biking advocacy groups show a strong preference for on road bike facilities versus MUP's.
- The installation of a MUP would have to be considered as a capital project for 2021 at a cost of approximately \$1M for the full length of North Park Drive from Bramalea to Dixie.

### Balmoral Drive

Balmoral Drive from Bramlea Road to Torbram Road is identified with the ATMP as a candidate for cycling infrastructure and the recommended type of cycling facility is a bike lane. Balmoral Drive is an existing four lane collector road that could also benefit from a road diet. Staff will include the consideration of bike lanes along Balmoral Drive into the 2021 ATMP implementation work plan.

### Main Street South

Similar to North Park Drive, Main Street South is a location where excessive vehicle speeds have been recorded. In order to assist with improving safety for all road users, staff are recommending that Main Street South between Nanwood Drive and Wellington Street be reduced from four car lanes to two car lanes with the addition of bike lanes and a shared centre turn lane. These changes to the roadway in conjunction with the newly introduced Community Safety Zone and future implementation of Automated Speed Enforcement will reduce vehicle speeds and collisions along this section.

These initiatives align with the Council Priority "Streets for People" that incorporates the Vision Zero framework in transportation planning, design and operations to prevent fatal and serious injury from motor vehicle collisions in the City right-of-way. Also, the City

Council endorsed Vision Zero framework recognizes that safety for all road users is prioritized over speed, convenience or cost.

### Implications of pausing the 2020 Road Resurfacing Program

Prior to the pause in work (September 16, 2020), staff had anticipated that 13 streets from the 2020 Road Resurfacing Program would be deferred to 2021 as a result of project delays (COVID-19) and the end of the construction season. This estimate was based on the contractor's most recent project schedule (August 31, 2020).

With the current pause in resurfacing work, an additional 21 streets could potentially be deferred to next year. The table below provides a summary of the streets that are currently under construction, those that were originally anticipated to be deferred and the new 21 locations that are planned to be carried over to next construction season.

Staff continue discussions with the contractor to see if there are any streets that can be started and finished this construction year. Upon confirmation, staff will reach out to staff at the Region of Peel in order to ensure that any impacts to their work are captured.

Staff were provided notice from the contractor on September 19, 2020 that a delay claim would be forthcoming. The claim has now been received and is currently under review.

### Advisory Bicycle Lanes

Advisory Bicycle Lanes are a facility type that has been suggested by our cycling advocates for use along the local narrow roads identified in the resurfacing program. Advisory bicycle lanes are a shared roadway facility that delineate space on a narrow roadway for cycling with dashed outer lane lines. The roadway contains no centreline, and motor vehicles share the centre roadway space for two-way travel. The centre travel lane width is narrower than two conventional travel lanes and may be as narrow as a single travel lane. Motor vehicles yield to oncoming traffic by pulling into the advisory bicycle lane. If a cyclist is present, motorists are to slow and yield to the cyclist prior to entering the advisory bicycle lane. Motorists must always yield to people riding bikes and overtake with caution. The diagram below illustrates the layout of a typical advisory lane layout (without on-street parking).

## Advisory Bicycle Lane Without On-street Parking

Advisory bicycle lanes are most appropriate on streets where motor vehicle traffic volumes are low (< 4,000 ADT), operating speeds are low (30 to 50 km/h), trucks are restricted or very infrequent, and the road geometry is straight, level and without sightline obstructions. They work best when it is rare for two opposing motor vehicles to meet at the same time that a cyclist is in the vicinity.

Although there may be candidates for advisory bike lanes in the City, their endorsement for use by the province is still under consideration and their effectiveness is still unknown and being tested. As a part of the update to the guidelines respecting bicycle facilities (Ontario Traffic Manual Book 18: Cycling Facilities), the province is currently considering the use of advisory bike lanes.

### Zebra Markings

Through their review of the program, the community cycling advocates suggested that the use of enhanced pavement markings ('zebra' or 'ladder' markings) be applied to pedestrian crossings at intersections along the local streets where formal bike lanes are not recommended. The City has a policy for the introduction of enhanced pedestrian crossings at intersections. The following guidelines are used to determine the appropriate locations for ladder stripe crosswalks in Brampton:

- Crossings controlled by a traffic signal or a stop sign
- Pedestrian crossing volumes are high
- Right or left turn vehicle volumes are high
- Higher than expected number of pedestrian collisions

### Parking Restrictions, Bike Lanes and Urban Shoulders

Vehicles are prohibited from parking in designated bike lanes (which are identified by pavement markings – white line and bicycle symbol – and signage). In response to current parking demand along some two-lane collector roads within residential areas, the City has implemented urban shoulders. An urban shoulder resembles a typical bike lane, however there are no pavement markings (bike symbols) or signage to designate it as an exclusive bike lane, and parking is permitted. While a dedicated cycle lane is the preferred application, urban shoulders can be considered an interim measure to accommodate cyclists on local collector roads where previously there was no such facility, while still providing for current on-street parking. Urban shoulders can be "upgraded" to a dedicated cycling facility with no other physical changes than the addition of painted bike symbols and signage.

### Adelaide - Richmond Cycle Tracks

One of the facility types being recommended by community cycling advocates (through their review of this program) is a cycle track (protected bike lanes) similar to the one installed along Adelaide Street and Richmond Street in the City of Toronto. Cycle tracks are separated from the adjacent vehicular lane by some form of physical barrier (eg., curbs, bollards, planter boxes, etc.). This facility type is applied along roads with higher vehicle volumes and speeds, where the barrier separation provides for a bicycle lane more comfortable for more cyclists of all ages and abilities. The City's East-West Cycling Corridor is an example where the existing volumes and speeds along Vodden Street and Howden Boulevard warrant the need for a higher order cycling facility, and a cycle track is the ultimate design. Elsewhere in Brampton, cycle tracks are to be

implemented on Hurontario Street, south of Steeles Avenue and on The Gore Road between Castlemore Road and Queen Street East. The ATMP cycling network also recommends other potential locations for cycle tracks.

### **Corporate Implications:**

#### Financial Implications:

The two week pause on the 2020 Road Resurfacing program will result in a delay claim from the contractor. A claim has been submitted and is under review from staff. There may also be additional financial impacts that will depend on how many additional roads will be deferred until 2021.

### **Term of Council Priorities:**

This report supports the Term of Council priority for a Green City as it demonstrates the City's commitment to sustainability by improving active transportation opportunities.

### **Conclusion:**

The annual road resurfacing program provides an ideal opportunity to apply an active transportation lens to planned projects. This is a recommended implementation approach within the ATMP and a part of a 'Complete Streets' approach to designing and enhancing road corridors for all users.

Planning and Public Works staff take a collaborative and proactive approach to consider well in advance the AT needs to be incorporated into planned capital road projects and programs.

Staff will be preparing an annual report to be delivered in the first quarter of each year, summarizing the scope of active transportation elements implemented in the preceding year, and outlining the proposed program for the coming year. This will provide an opportunity to engage the cycling advocates (through the Brampton Cycling Advisory Committee) and to advise the community of changes coming to City roads prior to the beginning of construction. Staff have started work on the ATMP implementation work plan for 2021 which includes the consideration of 67 km of bike lanes, paths or trails. The 2021 work plan will be presented to Council and the advisory committee to solicit feedback.

**Recommendations:**

1. **THAT** the report from Nelson Cadete, Project Manager, Active Transportation, Transportation Planning, dated July 24, 2020, to the Council meeting of August 5, 2020, re: **Implementation of Active Transportation Infrastructure within the City Road Rights-of-way - All Wards (HF.x)** be received.

**OVERVIEW:**

- The Active Transportation Master Plan (ATMP) supports the 2040 Vision for Transportation and Connectivity, calling for “a mosaic of safe, integrated transportation choices and new modes, contributing to civic sustainability, and emphasizing walking, cycling and transit”.
- The Active Transportation Master Plan identifies a defined implementation strategy that will see a comprehensive network built out through the following programs:
  - Fix-it Program –improvements/enhancements to existing facilities (curb-cuts and proper crossings, wayfinding signage, etc.).
  - Infill Program – dedicated infill projects required to complete the planned network by 2041.
  - Capital Program - incorporating cycling projects into existing road reconstruction projects and the annual road resurfacing project is part of a ‘Complete Streets’ approach to designing and enhancing road corridors for all users.

- **Key network elements of the ATMP implementation strategy are delivered in partnership with Public Works & Engineering (PWE) and decisions on what elements of the ATMP are constructed are determined well ahead of implementation, to avoid costly changes once projects are tendered and in construction.**
- **On an annual basis, staff will be preparing a report summarizing the scope of active transportation elements implemented in the preceding year, and outlining the proposed program for the coming year.**

## **BACKGROUND**

The Brampton 2040 Vision, “Living the Mosaic” (2018) identifies seven target vision statements and transformative actions to guide Brampton’s continuing evolution towards a thriving, urban and complete city. The target vision for “transportation and connectivity” in Brampton is *“a mosaic of safe, integrated transportation choices and new modes, contributing to civic sustainability, and emphasizing walking, cycling and transit.”* The target vision is complemented by associated actions that prioritize active mobility and that support more integrated transportation choices emphasizing walking and cycling.

The Active Transportation Master Plan (ATMP) provides the implementation framework for network plans, policies and programs that support the 2040 Vision. It states that *“through developing an integrated, attractive, and accessible system of sidewalks, cycling facilities and trails, Brampton will be a liveable city where all members of the community can safely and conveniently access places, goods and services and connect to transit using active modes of transportation.”*

The goals of the ATMP are:

- Improve the safety of walking and cycling
- Provide mobility options to all residents, including enhancing the accessibility of the transportation network
- Maximize the value (usage) of existing infrastructure
- Invest efficiently in an expanding network
- Improve access to transit and provide viable active transportation options for the first / last mile

The vision and goals of the ATMP are supported by the following key objectives:

- Establish a broad and well-connected active transportation network that will make travel by bike and on foot a safe and desirable option for school, work, recreation and other trips;
- Create a multi-year implementation strategy to deliver an active transportation network;
- Develop active transportation policies that reinforce the importance of cycling and walking to building a viable, safe and attractive city;
- Improve, expand and develop new programming to educate, encourage, and support a cycling and walking culture in Brampton; and
- Create a framework to measure and assess the progress of active transportation in Brampton.

### **ATMP Implementation Strategy**

The ATMP refined the comprehensive cycling network introduced in the 2015 Transportation Master Plan, and includes a variety of facility types such as signed routes, bike lanes, buffered bike lanes, protected bike lanes, cycle tracks and multi-use paths (located within road allowance) and multi-use trails (located within parks and valley lands).

The recommended active transportation network within the ATMP includes proposed dedicated cycling infrastructure (bike lanes, urban shoulders, or multi-use paths) for most of the City's arterial and collector roads. Given typically higher auto volumes and speeds on such roads, there is a greater need to provide a physical separation between motorists and cyclists. While some local streets may provide valuable links within the cycling network, these roads are typically "low stress" environments (fewer cars and slower speeds) and are too narrow to accommodate dedicated cycling infrastructure.

The proposed 2041 active transportation network has been costed at a value of approximately \$126.6M. The resources and funding required to implement the ATMP are identified and considered as part of the annual Capital Budgeting process.

Key network elements of the ATMP implementation strategy are delivered in partnership between Planning, Building & Economic Development working with Public Works & Engineering, as a part of other capital road improvement projects and programs. Since many of these projects have significant design timelines before actual construction can begin, decisions on what elements of the ATMP are constructed are determined well ahead of implementation. Careful monitoring of design progress and being mindful of changes to active transportation strategies help to ensure that the scope of work is

finalized prior to implementation (and avoiding costly change orders once projects have been tendered or are in construction).

## **CURRENT SITUATION:**

The active transportation network is being implemented through the following approaches:

- Fix-it Program – improvements/enhancements to existing facilities that will improve Brampton’s active transportation network within 10 years. It provides low-cost solutions (such as providing curb-cuts and proper crossings where trails meet roadways, wayfinding signage, etc.) that will yield noticeable improvements for users.
- Infill Program – in addition to the cycling and trails projects to be delivered through a coordinated capital program, standalone, dedicated “infill” projects will also be needed in order to achieve the planned 2041 network. An analysis was completed as part of the ATMP to understand what parts of the City have the greatest cycling potential, and therefore the greatest need for new “infill” infrastructure.
- Capital Program - opportunities to coordinate implementation of cycling facilities are identified by comparing candidate cycling network routes against the City of Brampton’s capital works program for road projects. Incorporating cycling projects into existing road reconstruction projects and the annual road resurfacing project is part of a ‘Complete Streets’ approach to designing and enhancing a road corridor for all users.

### Fix-it Program (Active Transportation Master Plan):

In 2019, a \$2M project budget (Project # 193130-001: Active Transportation Infrastructure Project) was established to address the ATMP’s “Fix-it Program” which focuses on enhancing the existing AT network by completing critical gaps with proper pedestrian and cycling crossings. In 2019, the following crossings identified within the ATMP fix-it program were either implemented or in the design/planning stage for implementation:

| <b>Project</b>                     | <b>Location</b>   |
|------------------------------------|---|
| Etobicoke Creek Recreational Trail | Kennedy Road Signalized Crossing<br>(*separate Capital Project) |
| School Crossing Enhancements (curb | George Vanier Catholic School                                   |

|   |  |
|---|--|
| depressions)                                    |  |
| School Crossing Enhancements (curb depressions) | Larkspur Public School                             |
| School Crossing Enhancements (curb depressions) | Russell D Barber Public School                     |
| School Crossing Enhancements (curb depressions) | St. Marguerite Bourgeois School                    |
| School Crossing Enhancements (curb depressions) | Stanley Mills Public School                        |
| School Crossing Enhancements (curb depressions) | Hickory Woods Public School                        |
| Major Trail PXO Crossings                       | Fletchers Creek at Queen Mary Drive                |
| Major Trail PXO Crossings                       | Hydro Corridor Trail at Kingknoll Drive            |
| Major Trail PXO Crossings                       | Flower City Trail at Queen Mary Drive              |
| Multi-use path Durable Pavement Markings        | Heart Lake Road, Wanless Drive and Financial Drive |
| Buffered Bikes Lanes                            | Heart Lake Road                                    |

In 2020, staff will be planning and designing the following:

- Five (5) signalized (cross-ride) recreational trail crossings (at arterial roads);
- Approximately thirty (30) pedestrian crossover crossings, where recreational trails meet collector roads; and,
- Depressing curbs at 17 more school crossings.

Construction of these projects is intended to be started or completed in 2020 but could be delayed by extenuating factors such as designs, permits, procurement, etc.

#### Infill Program (Active Transportation Master Plan)

\$1.875 Million from the 2018 Operating Budget surplus was allocated to a Project Budget to implement the following active transportation infrastructure projects (*Project # 187356-001 - Active Transportation Plan (North-South and East-West Routes)*):

- An East-West Route; and
- A North-South Route.

#### East-West Route:

Based on the recommendations of the ATMP and proactive support from the community cycling advocacy for an east-west active transportation network

addition, staff is now overseeing a Cycling Facility Design Feasibility Study for the Vodden Street/Howden Boulevard/Hanover Drive corridor and preparing detailed design drawings for a preferred option.

The project is currently at the 60% design stage, with completion of the ultimate design anticipated by end of summer 2020. With the impetus afforded by the Covid-19 pandemic, the project timeframe had been accelerated, and the scope expanded to include immediate implementation of “interim” bike lanes on Vodden Street and Howden Boulevard between Etobicoke Creek and Chinguacousy Park. In the meanwhile, the “interim” bike lanes that had been delineated by T-54 Traffic Barrels are being painted this summer. This will still be an “interim” design condition providing a transition between the Covid-19 bike lanes and the ultimate design which will be constructed in 2021, in tandem with planned road resurfacing/reconstruction.

The public engagement strategy for the study was adapted to respond to the Covid pandemic, and to date has included a very well-attended virtual stakeholder workshop (May 28, 2020), an online survey ongoing until the end of July, and an earlier mail-out sent to over 4,000 residents/businesses along the corridor encouraging participation in the online survey.

#### North-South Route:

The proposed north-south route takes advantage of existing facilities (Chinguacousy Rec. Trail, Fernforest Drive and MacKay Street North) by tying them together to provide a corridor that extends across the City culminating at the Bramalea GO Station. The City's Transportation Planning staff will be undertaking a best practices review to identify a wayfinding strategy that would effectively link on-road and off-road infrastructure elements together.

#### Capital Program (Active Transportation Master Plan)

In 2011, Council approved a direction that the consideration of bicycle facilities be incorporated into all planned construction opportunities such as the annual road resurfacing program, the development review process, bridge and road reconstruction projects (including Environmental Assessments), etc. This same direction was carried through in the ATMP.

In 2019, cycling facilities were considered, identified and implemented within the following road construction projects:

| <b>AT Facility</b>                               | <b>Current Road Project</b>      |
|--|----------------------------------|
| Fletchers Creek Recreation Trail - Bovaird Drive | *Region of Peel – Resurfacing of |

|  |                                   |

| Sidewalks along West Drive   | Missing Link Sidewalk Program     |
| Sidewalks along Van Kirk Drive   | Missing Link Sidewalk Program     |

For projects that are underway in 2020, staff has incorporated the following AT infrastructure.

| <b>AT Facility</b>   | <b>City Roads Program</b>     |
|--|-------------------------------|
| Curb depressions at 5 school crossings   | 2020 Road Resurfacing Program |
| Curb depressions at 17 park path/trail access points   | 2020 Road Resurfacing Program |
| 4.2 km (approx.) of new boulevard multi-use paths : (McLaughlin Road, Humberwest Parkway, Castlemore Road) | Road Reconstruction           |
| One new pedestrian crossover   | 2020 Road Resurfacing Program |
| 11.6 km (approx.) of bike lane/urban shoulder  | 2020 Road Resurfacing Program |

## **CORPORATE IMPLICATIONS:**

### **Term of Council Priorities:**

This report supports the Term of Council priority for a Green City as it demonstrates the City's commitment to sustainability by improving active transportation opportunities.

## **Financial Implications:**

Funding for the Active Transportation Infrastructure has been drawing on the following funding sources over the past two years (2019/2020):

- Active Transportation Infrastructure (193130-001) – Fix-it Program (\$2M);
- Active Transportation Planning Cycling - North-South and East-West routes (\$1.875M)
- Annual Sidewalk Program (\$1.25M – 2019, \$600K – 2020);
- Annual Controlled Pedestrian Crosswalks (\$50K – 2019, \$50K - 2020);
- Annual Road Resurfacing Program (total program \$15M – 2019, \$15M - 2020 which includes curb depressions, painted bike lanes/urban shoulders);Chinguacousy Road Reconstruction - Wanless Drive to Mayfield Road (total project budget \$9.3M includes multi-use paths);
- Castlemore Road Reconstruction (total project budget \$4.1M includes multi-use paths);
- Cottelle Boulevard Reconstruction – Humberwest Parkway to Goreway Drive (total project budget \$31.5M includes multi-use paths);
- McLaughlin Road Reconstruction – Wanless Drive to Mayfield Road (total project budget \$9.3M includes multi-use paths);
- Valleyland Development -Riverstone Valley Trail Design (\$100K);
- Pathways Implementation - Etobicoke Creek Trail Connection to Brampton Starts Park/CAA Centre (\$250K);
- Riverstone Valley Trail Construction (\$1M); and,
- Valleyland Development - Fetchers Creek Recreational Trail/Sheridan Connection Design (\$150K).

With input from Transportation Planning staff (Planning, Building and Economic Development) to refine network implementation requirements to build out the active transportation network, these projects will continue to be considered through the annual budget process, and included in the capital budget request put forward by Public Works & Engineering.

## **CONCLUSION:**

The City's Active Transportation Master Plan lays out a defined strategy to implement a comprehensive citywide active network. This includes a collaborative and proactive approach between Planning and Public Works staffs to consider well in advance the AT needs to be incorporated into planned capital projects and programs (thereby avoiding/minimizing the need for costly changes once projects are already tendered or in construction).

The final active transportation network will be implemented through the following approaches:

- Fix-it Program –improvements/enhancements to existing facilities (curb-cuts and proper crossings, wayfinding signage, etc.).
- Infill Program – dedicated infill projects required to complete the planned network by 2041.
- Capital Program - incorporating cycling projects into existing road reconstruction projects and the annual road resurfacing project is part of a 'Complete Streets' approach to designing and enhancing road corridors for all users.

Going forward, staff will be preparing an annual report to be delivered in the first quarter of each year, summarizing the scope of active transportation elements implemented in the preceding year, and outlining the proposed program for the coming year. This will also provide an opportunity to advise the community of changes coming to City roads prior to the beginning of construction.

*\*Based on staff's understanding of information provided by community cycling advocates, September 22, 2020 and subsequent follow-up on September 28, 2020.*

**NOTE 1:** Local roads are typically “low stress” environments (fewer cars and slower speeds) and too narrow to accommodate dedicated cycling infrastructure (Recommended approach for typical local roads, per ATMP and provincial guidance in OTM Book 18 for design of cycling facilities, is to not include linear AT infrastructure).

**NOTE 2:** Given the roadway classification, vehicle speed/volumes and amount of truck traffic, the recommended cycling facility required is a separated path within the boulevard, which involves design and work outside the scope of the Road Resurfacing Program.

**NOTE 3:** There are rumble strips currently in place along Deerhurst Drive (section not being resurfaced) to deter street racing and are not bicycle friendly. A more appropriate time to consider on-street bicycle facilities along Deerhurst Drive would be when the remaining portion of the road is resurfaced.

**NOTE 4:** Provisional location or road resurfacing was previously deferred to a future year.

**NOTE 5:** Signed routes are not within the scope of resurfacing projects (they do not involve any pavement works/markings), and are to be addressed more comprehensively as part of an AT network wayfinding/routing strategy.

**NOTE 6:** See “Parking Restrictions, Bike Lanes, and Urban Shoulders” in body of staff report.

**Exhibit 3.2: Generalized Cycling Facility Selection Tool**

<sup>1</sup>TAC suggests that pedestrians and cyclists be separated where there is:

- A high percentage of pedestrians (more than 20% of users) and total user volumes greater than 33 persons per hour per metre of path width, or
- A low percentage of pedestrians (less than 20% of users) and total volumes greater than 50 persons per hour per meter of path width.

**Table 4.7 – Desired and Suggested Minimum Widths for Bicycle Lanes**

| Facility   | Desired Width                        | Suggested Minimum                                 |
|--|--------------------------------------|---|
| Conventional Bicycle Lane  | 1.8 m <sup>b</sup>                   | 1.5 m <sup>c</sup>                                |
| Conventional Bicycle Lane splitting two travel lanes <sup>d</sup>    | 2.0 m                                | 1.8 m   |
| Conventional Bicycle Lane adjacent to on-street parking <sup>e</sup> | 1.5 m lane +<br>1.0 m parking buffer | 1.5 m lane <sup>c</sup> +<br>0.6 m parking buffer |

Widths are to face of curb (inclusive of gutter, if present). Includes bicycle lanes alongside continuous barriers such as guiderails and underpass walls. Where intermittent obstructions (for example, sign posts) are present alongside the bicycle lane, a width of 1.8 – 2.0 m is recommended.

- a Where high volumes of cyclists are anticipated and accommodation of overtaking movements is desired, consider providing a buffered bicycle lane, which increases separation between cyclists and motor vehicles while providing a space for passing movements (refer to **Section 4.4.2**).
- b Conventional bicycle lanes may be reduced to 1.2 m over very short distances (< 100 m), in constrained areas or in complex circumstances, such as to avoid utility poles or other infrastructure that may be costly to relocate.
- c Includes bike lanes between through lanes and turn lanes on the approach to an intersection. Also applies to bike lane between through lanes and merge lanes downstream of an intersection.
- d The desired total width of the parking lane plus the parking buffer is 3.4 m (for example, a 2.4 m parking lane plus 1.0 m parking buffer), to ensure cyclists will ride outside of the door zone. On streets with very low parking turnover, a buffer may not be necessary.

## 8. Reports

### 8.1 Staff Report re: **Councillors' Expense Policy – Consulting Services (RM 12/2020)**.

At the request of Committee, staff provided an overview of the subject report and responded to questions.

Committee consideration of this matter included varying opinions in support of and opposition to the proposed amendments to the Councillors' Expense Policy, outlined in the staff report.

Committee discussion took place with respect to a Member's retention of consulting services, and included:

- varying opinions on a Member's use of consulting services
- actions outlined in Committee Recommendation GC044-2020 (approved by Council, as amended, on November 20, 2020 pursuant to Resolution C422-2019) regarding Councillor retention of consulting services
- concern that the direction outlined in Recommendation GC044-2019 was not followed
- questions about payments made to the consultant subsequent to Council's approval of Recommendation GC044-2019, including cancellation fees
- concern that a consultant hired by a Member of Council may have access to confidential information and work spaces, and unlike Members of Council who must follow the Code of Conduct, and Councillor staff who must abide by all applicable policies and procedures, such Codes and policies and procedures may not be applicable to a consultant
- policies as they relate to an individual Member of Council binding the Corporation through the hiring of consultant services
- need for further review and information on the contract and payments made to the consultant

During discussion on this matter, a Point of Order was raised by Councillor Williams. The Chair gave leave for the Point of Order.

City Councillor Williams, in response to comments made by Members of Committee, outlined her view that a copy of the contract was never requested by Committee, but was provided to Finance when requested.

Chair Fortini brought forward discussion Item 9.1 and outlined concerns about the use of social media and the type of messaging posted by the consultant hired by a Member of Council, and provided a reminder about the appropriate use of

Members' corporate social media accounts, and that the use of taxpayers money as it relates to corporate social media accounts.

A Point of Personal Privilege was raised by Councillor Williams at which time she acknowledged the use of taxpayers money for Councillors' corporate media accounts.

The following motion, moved by Regional Councillor Vicente, was introduced.

That staff be requested to further review and report on the details of the contract for Consulting Services agreed to by Councillor Williams, and any requirement to pay penalty in relation thereto, and the chronology of events and decisions regarding the use of consultants by Members of Council, to a future meeting of the Governance and Council Operations Committee.

Committee discussion took place on the proposed motions and included varying opinions in support of and opposition to the motion.

The following motions were considered.

GC012-2002

1. That the report titled: **Update to Councillors' Expense Policy (RM 12/2020)**, to the Governance and Council Operations Committee Meeting of September 14, 2020, be received; and

CW196-2020

WHEREAS climate change is currently responsible for billions of dollars in property damage worldwide through rising sea levels, poor air quality, intense wildfires, heat events, unpredictable droughts and heavy rains;

WHEREAS international science and research supports that massive reductions in greenhouse gas (GHG) emissions in the next decade is required to avoid devastating economic, societal, and environmental loss;

WHEREAS many cities that declared climate change a state of emergency, have established a goal of reducing greenhouse gas (GHG) emissions by 80% by 2050, as per The Paris Agreement;

WHEREAS the City of Brampton's Community Energy and Emissions Reduction Plan is recommending to reduce greenhouse gas (GHG) emissions by 50% from 2016 levels by 2040, and to establish a pathway to reduce emissions by at least 80% by 2050;

WHEREAS on June 6, 2019 Brampton Council officially declared a Climate Emergency for the purpose of aiming, framing, and deepening the City of Brampton's commitment to the protection of our ecosystems and community from climate change;

THEREFORE BE IT RESOLVED:

1. That the staff presentation and report re: **Brampton's Community Energy and Emissions Reduction Plan (CEERP)**, to the Committee of Council Meeting of September 23, 2020, be received.
2. That the Community Energy and Emission Reduction Plan and its Priority Projects be endorsed by Council;
3. The City of Brampton commit staff resources and capital funding towards the immediate development and implementation of the Community Energy and Emissions Reduction Plan's six priority projects, which include:
  - Ensuring the City of Brampton policies and programs align with supporting the CEERP Objectives and Targets;
  - Establishing a system to deliver standardized retrofits to Brampton homeowners;

- Updating the Transportation Master Plan (TMP) that prioritizes safer, healthier and more environmentally efficient movement of people which also reflects complete streets and the integrated nature of mobility and built form;
  - Integrating District Energy Systems in appropriate locations within Brampton;
  - Developing Integrated Energy Master Plans for public facilities and private development; and
  - Establishing a community organization to lead the development and implementation of select priority projects.
4. That the following interim and total targets be approved:
    - a. to reduce greenhouse gas (GHG) emissions by 30% from 2016 levels by 2030;
    - b. to reduce greenhouse gas (GHG) emissions by 50% from 2016 levels by 2040, and
    - c. to establish a pathway to reduce greenhouse gas (GHG) emissions by at least 80% by 2050; and
  5. That staff be directed to update the Official Plan, as part of the Brampton 2040 Official Plan Review, to reflect the principles, goals, strategic directions and targets of the Community Energy and Emissions Reduction Plan; and,
  6. That a copy of the City of Brampton's Community Energy and Emissions Reduction Plan and approved targets be provided to the Region of Peel, City of Mississauga, Town of Caledon, Sheridan College, Federation of Canadian Municipalities, Association of Municipalities of Ontario, Ministry of the Environment, Conservation & Parks, Ministry Energy, Northern Development & Mines, TRCA, CVC, Peel District School Board, Dufferin Peel Catholic District School Board, and all local Brampton MPs and MPPs.

6. **Government Relations Matters**

6.1 Staff Report re: Government Relations Matters

Item 9.2.3 was brought forward and dealt with at this time.

B. Lucas, Senior Manager, Public Affairs, Office of the CAO, provided an overview of the new format for the Government Relations Matters (GRM) update, based on Council requests for further information on Regional Council agenda items. Mr. Blaine provided the presentation on Government Relations Matters.

Committee discussion took place with respect to the following:

- Challenges regarding the timelines for providing information on Regional Council agenda items
- Benefits of receiving these updates prior to Regional Council meetings
- Allocation of Human Services funds as it relates to Brampton

A Point of Order was raised by Regional Councillor Palleschi. The Chair provided permission for the Point of Order. Councillor Palleschi advised that remarks by a Member of Council that updates on Regional Council agenda items were not provided by staff in the previous term of Council were inaccurate.

Another Point of Order was raised by Regional Councillor Palleschi. The Chair provided permission for the Point of Order. Councillor Palleschi advised that remarks by a Member of Council that a motion was not passed by Council to receive GRM updates were inaccurate.

Further Committee discussion took place regarding Regional Council agenda updates, and included the following:

- Previous motions passed in regard to GRM updates

- Staff time/process for preparing the GRM update
- Clarification that updates are only required on items that are relevant to Brampton
- Indication from Committee Members that the information provided in the attached GRM update is valuable
- Suggestion that Members of Council inform staff of items of interest for the GRM update
- Safety concerns in downtown Brampton, and the need to increase supports for mental health and homelessness in this area

The following motions were introduced.

That future Government Relations Matters updates provide highlights of Regional activities, rather than in-depth analysis of Regional agendas.

That the City Clerk be requested to research past resolutions with respect to Government Relations Matters and report thereon to the September 30, 2020 meeting of City Council.

A motion was later introduced to refer the motions above to the September 30, 2020 City Council meeting.

During consideration of this matter, a procedural motion to Call the Question was introduced by City Councillor Singh and was voted on and carried. In accordance with the Procedure By-law, Members who had not spoken on this topic were given the opportunity to do so.

The following motions were considered.

#### **CW189-2020**

That the following motions be **referred** to the September 30, 2020 meeting of City Council:

That future Government Relations Matters updates provide highlights of Regional activities, rather than in-depth analysis of Regional agendas.

That the City Clerk be requested to research past resolutions with respect to Government Relations Matters and report thereon to the September 30, 2020 meeting of City Council.

### 6.2 Update from Mayor P. Brown re: COVID-19 Emergency

Mayor Brown provided an update on the COVID-19 Emergency, which included the following:

- Brampton now has three COVID-19 testing centres, with the addition of Peel Memorial Hospital and Greenbriar Recreation Centre
- The addition of these centres will reduce testing wait times
- The Province has issued a verbal approval for COVID-19 tests to be processed locally at Brampton Civic Hospital
- COVID-19 infections have been linked to banquet halls and weddings
- There is concern regarding recent increases in the number of COVID-19 infections in Ontario
- The need to acknowledge essential workers in the transportation logistics/food manufacturing industry, which is an essential service for Canada

Committee discussion took place with respect to the following:

- Concerns regarding the selection of Greenbriar Recreation Centre as a COVID-19 testing centre, due to the close proximity to a child care centre
  - Staff provided information on the extensive process undertaken to evaluate potential sites, including space requirements, and outlined safety measures taken to secure this site. Staff confirmed that the YMCA and school board were both in support.
- Confirmation that many municipalities, including Brampton, have restarted the process for issuing marriage licenses
- Possibility implementing "pop-up" test centres in the northeast and northwest areas of Brampton
- Possibility using the larger recreation centres (Cassie Campbell, Gore Meadows, Soccer Centre) as additional testing centres, in the event of a shut down

The following motion was considered.

**CW191-2020**

That the update from Mayor Brown re: **COVID-19 Emergency**, to the Committee of Council Meeting of September 23, 2020, be received.

Carried

**7. Public Delegations**

- 7.1 Delegation from Shoaib Ahmed, CEO, SCOOTY (Scooty Mobility Inc.) re: e-Scooter Micropilot held at Chinguacousy Park on August 28-30, 2020 and September 3-7, 2020

Shoaib Ahmed, CEO, SCOOTY (Scooty Mobility Inc.) provided a presentation regarding the e-Scooter Micropilot held at Chinguacousy Park on August 28-30, 2020 and September 3-7, 2020.

- 7.3 Delegation from Gideon Forman, Climate Change and Transportation Policy Analyst, and Malkeet Sandhu, Community Organizer, David Suzuki Foundation, re: Community Energy Plan and Greenhouse Gas Reductions Targets

Items 7.4, 10.1.1, 10.2.1 and 10.3.1 were brought forward and dealt with at this time.

P. Cooper, Policy Planner - Environment, Public Works and Engineering, and CEERP Community Task Force Co-Chairs, Dave Kapil and Hassaan Khan, provided a presentation entitled "Community Energy and Emissions Reduction Plan (CEERP)".

Gideon Forman, Climate Change and Transportation Policy Analyst, David Suzuki Foundation, thanked the City for this plan, and advised that it will set the example for other municipalities across Ontario. He outlined the importance of reducing carbon emissions and encouraged Brampton to review and improve targets over the next few years, and to implement stronger transportation policies.

Malkeet Sandhu, Community Organizer, David Suzuki Foundation, and Brampton Resident, provided information on the impact of the climate crisis on women, and advised that climate policies need to address inequities. She encouraged Council to establish a Committee that focuses on equity and sustainability, and includes residents in marginalized communities.

Divya Arora, Co-Founder, Board Member and Political Advocacy Strategy Lead, and Lajanthan Prabakaran, Board Member and Regional Relations Specialist, Community Climate Council, provided a presentation entitled "Brampton Climate Council", expressed concern regarding the impacts of climate change, and outlined their support for and the benefits of implementing the CEERP.

Committee Members thanked staff and external stakeholders for their efforts in developing the CEERP.

Committee discussion on this matter included the following:

- Recent Council decisions in support of the environment, and the need to do more
- Targets in the CEERP, which are more aggressive than other municipalities
- The need for staff to review road construction projects and other core business operations to ensure best practices are followed and consideration is given to use of more environmentally friendly materials

The following motions were considered.

#### **CW194-2020**

#### **CW196-2020**

WHEREAS climate change is currently responsible for billions of dollars in property damage worldwide through rising sea levels, poor air quality, intense wildfires, heat events, unpredictable droughts and heavy rains;

WHEREAS international science and research supports that massive reductions in greenhouse gas (GHG) emissions in the next decade is required to avoid devastating economic, societal, and environmental loss;

WHEREAS many cities that declared climate change a state of emergency, have established a goal of reducing greenhouse gas (GHG) emissions by 80% by 2050, as per The Paris Agreement;

WHEREAS the City of Brampton's Community Energy and Emissions Reduction Plan is recommending to reduce greenhouse gas (GHG) emissions by 50% from 2016 levels by 2040, and to establish a pathway to reduce emissions by at least 80% by 2050;

WHEREAS on June 6, 2019 Brampton Council officially declared a Climate Emergency for the purpose of aiming, framing, and deepening the City of Brampton's commitment to the protection of our ecosystems and community from climate change;

THEREFORE BE IT RESOLVED:

1. That the staff presentation and report re: **Brampton's Community Energy and Emissions Reduction Plan (CEERP)**, to the Committee of Council Meeting of September 23, 2020, be received.
2. That the Community Energy and Emission Reduction Plan and its Priority Projects be endorsed by Council;
3. The City of Brampton commit staff resources and capital funding towards the immediate development and implementation of the Community Energy and Emissions Reduction Plan's six priority projects, which include:
  - Ensuring the City of Brampton policies and programs align with supporting the CEERP Objectives and Targets;
  - Establishing a system to deliver standardized retrofits to Brampton homeowners;
  - Updating the Transportation Master Plan (TMP) that prioritizes safer, healthier and more environmentally efficient movement of people which also reflects complete streets and the integrated nature of mobility and built form;
  - Integrating District Energy Systems in appropriate locations within Brampton;
  - Developing Integrated Energy Master Plans for public facilities and private development; and
  - Establishing a community organization to lead the development and implementation of select priority projects.
4. That the following interim and total targets be approved:
  - a. to reduce greenhouse gas (GHG) emissions by 30% from 2016 levels by 2030;

- b. to reduce greenhouse gas (GHG) emissions by 50% from 2016 levels by 2040, and
  - c. to establish a pathway to reduce greenhouse gas (GHG) emissions by at least 80% by 2050; and
5. That staff be directed to update the Official Plan, as part of the Brampton 2040 Official Plan Review, to reflect the principles, goals, strategic directions and targets of the Community Energy and Emissions Reduction Plan; and,
  6. That a copy of the City of Brampton's Community Energy and Emissions Reduction Plan and approved targets be provided to the Region of Peel, City of Mississauga, Town of Caledon, Sheridan College, Federation of Canadian Municipalities, Association of Municipalities of Ontario, Ministry of the Environment, Conservation & Parks, Ministry Energy, Northern Development & Mines, TRCA, CVC, Peel District School Board, Dufferin Peel Catholic District School Board, and all local Brampton MPs and MPPs.

##### 10.1.2 Staff Presentation by M. Hoy, Supervisor, Environmental Planning, Public Works and Engineering, re: Centre for Community Energy Transformation (CCET)

Item 10.2.2 was brought forward and dealt with at this time.

M. Hoy, Supervisor, Environmental Planning, Public Works and Engineering, provided a presentation entitled "Centre for Community Energy Transformation (CCET)".

Committee Members thanked staff and the Task Force for their efforts, outlined the importance of establishing the Centre for Community Energy Transformation, and noted the opportunity to involve the development community.

The following motion was considered.

**CW213-2020**

1. That the staff presentation and report re: **Centre for Community Energy Transformation (CCET) (formerly known as Institute for Sustainable Brampton, ISB)** to the Committee of Council Meeting of September 23, 2020, be received.
2. That Council endorse, in principle, the recommended organizational model and approach for developing the Centre for Community Energy Transformation
3. That staff be directed to facilitate the transition of the Community Energy and Emissions Reduction Plan Task Force into an interim, transitional Centre for Community Energy Transformation (CCET) Board, initiate the process to incorporate the CCET as a non-profit organization, develop a CCET funding plan, and finalize roles and responsibilities of potential leaders, contributors and organizations;
4. That staff report back within the next 18 months on progress of establishing the Centre for Community Energy Transformation and,
5. That staff be directed to present the Centre for Community Energy Transformation to Regional Council; and
6. That the report be circulated to the Region of Peel, City of Mississauga, Town of Caledon, and Sheridan College for information.

A recorded vote was requested and the motion carried unanimously, as follows:

Yea (11): Mayor Patrick Brown, Regional Councillor Santos, Regional Councillor P. Vicente , Regional Councillor Palleschi, Regional Councillor Medeiros, Regional Councillor P. 10.3.2 Discussion Item at the request of City Councillor Whillans, re: Road Resurfacing

Committee discussion took place with respect to the 2020 Road Resurfacing program and the impact of the September 16, 2020 Council Resolution (C341-2020) to pause road resurfacing, on the completion of this program.

Committee discussions included:

- Impact of the direction to pause any new road resurfacing on the Road Resurfacing contract, construction timelines and costs
- Suggestion that the road resurfacing program resume where there is no impact to active transportation
- Clarification regarding the intent of Council Resolution C341-2020, and an indication that the report requested will be considered at the September 30, 2020 Council Meeting
- Concern that some roads may not be completed before the end of the construction season, the impact this will have on affected residents, and the need to make every effort to complete roads where construction has already begun
- The importance of incorporating active transportation infrastructure in road construction projects

J. Holmes, Acting Commissioner, Public Works and Engineering, provided information on the current status of the 2020 Road Resurfacing program and advised that the priority is to complete roads that have been started and repair the impacted driveways and boulevards before the end of the construction season. She advised that some roads will be deferred to 2021 and added that many of the suggestions submitted by Bike Brampton for active transportation were already included and planned for in the 2020 Road Resurfacing program. She requested that direction be given to restart the road resurfacing program.

In response to comments from Committee, D. Barrick, Chief Administrative Officer, advised that staff must adhere to the direction outlined in the Council Resolution.

During consideration of this matter, a procedural motion to Call the Question was introduced by Regional Councillor Santos, voted on and carried. In accordance with the Procedure By-law, Members who had not spoken on this topic were given the opportunity to do so.

The following motion was considered.

#### **CW214-2020**

Whereas a review of the 2020 resurfacing program is underway and there are no geometric changes (i.e. curb relocations) to the current roadway recommended; and

Whereas the 2020 road resurfacing contract is underway and the schedule has already been affected by the current pandemic; and

Whereas there are many roads under the current resurfacing contract that already have on-road cycling infrastructure per the ATMP planned for implementation; and

Whereas any new on-road AT infrastructure not previously identified in the ATMP that is now recommended for addition, can be implemented after the road replacement has been completed.

Therefore be it resolved:

1. That, until such time as staff report back to the September 30 Council meeting on the additional road rehabilitation resurfacing plan requests directed at the September 16, 2020 City Council meeting, staff continue with the following resurfacing projects:

- Roads where work has commenced
- Roads that can be started and finished in this construction season

- Roads where AT infrastructure is already planned
2. That staff report back to September 30, 2020 meeting of Council on what roads under the existing contract are anticipated to be deferred until 2021.

Hello.

I am unable to delegate at the City Council Meeting of September 30, 2020. However, I wish to include this correspondence regarding the following item:

10.6.2 - Staff Report re: Active Transportation Provisions in the 2020 Road Resurfacing Program

The attached PDF includes my remarks regarding the North Park Drive bicycle lanes, and to other concerns that were expressed at the City Council Meeting of September 16, 2020, pertaining to paved shoulders and multi-use pathways in the context of the Road Resurfacing Program.

Thanks,

**Kevin Montgomery** R.G.D., C.X.D.

## 10.6.2 Staff Report re: Active Transportation Provisions in the 2020 Road Resurfacing Program

### Context

At the City Council Meeting of September 16, 2020, there was a discussion regarding the on-street bike lanes on North Park Drive, and a question around why an on-street solution was installed rather than a facility such as a grade-separated cycle track or multi-use path.

From that discussion, I've itemized these points that I will attempt to address.

Please note that this document primarily addresses what I perceived being discussed in Council. As a result, **this document might inadvertently exclude segments of the population that also need to be considered in a broader transportation conversation, such as people with disabilities.**

### Who am I, anyway?

I haven't owned a car since 2011. I believe in being the change we want to see. Council probably knows me as a "cycling advocate", which is true.

I'm also a Certified CAN-BIKE Instructor, a Certified User Experience Designer, and additionally, have completed a certificate course from the University of Amsterdam on "Building the Cycling City". I was also part of the Region of Peel's Road Safety Strategic Plan Stakeholder Workshop, from the Region of Peel's Vision Zero strategy derived.

I am not an accessibility expert.

## Summary of my opinion

The best way to keep people safe on our roads, particularly in school zones, is to reduce the volume and speed of automobiles. Building a multi-use path as a compromise to maintain a higher capacity for cars does not improve safety. Reducing the capacity for cars, while also building infrastructure to enable safe bicycle transport to school, does.

## However...

I also suggest that this is not the conversation we should be having. We need to stop having homogeneous conversations that create false dichotomies. The broader goals to increase active transportation, reduce car usage -- and with that, reduce emissions associated with transportation -- is not about bike lanes vs. multi-use pathways. It's about **understanding needs from an intersectional lens, understanding Council goals, and providing heterogeneous options and policy to accommodate and enable the changes Council wants to see.**

## Confusion: School drop-off and traffic lights

It is unclear to me how school drop-offs will be impacted by bicycle lanes.

### Regulatory sign restrictions

According to Google Street View, there were regulatory signs prohibited stopping/parking before the addition of bike lanes.

### **Crossing a bike lane to turn right**

This could be a source of confusion for drivers who have never had to do this before. The guidance provided to drivers crossing a bike lane to turn right from the MTO Driver's Handbook is for drivers to “enter the bike lane only after ensuring that you can do so safely,

and then make the turn.”

<http://www.mto.gov.on.ca/english/dandv/driver/handbook//section2.3.2.shtml>

When bike lanes are appropriate, and when a separate path is appropriate (for bicycle transport)

While there are several other factors to consider, the Ontario Traffic Manual Book 18 offers pre-selection guidance on desirable bicycle facilities. Road speeds generally need to be faster than 50 km/h before a completely separate facility like a grade-separated cycle track or multi-use pathways makes the most sense.

### Desirable Cycling Facility Pre-selection Nomograph

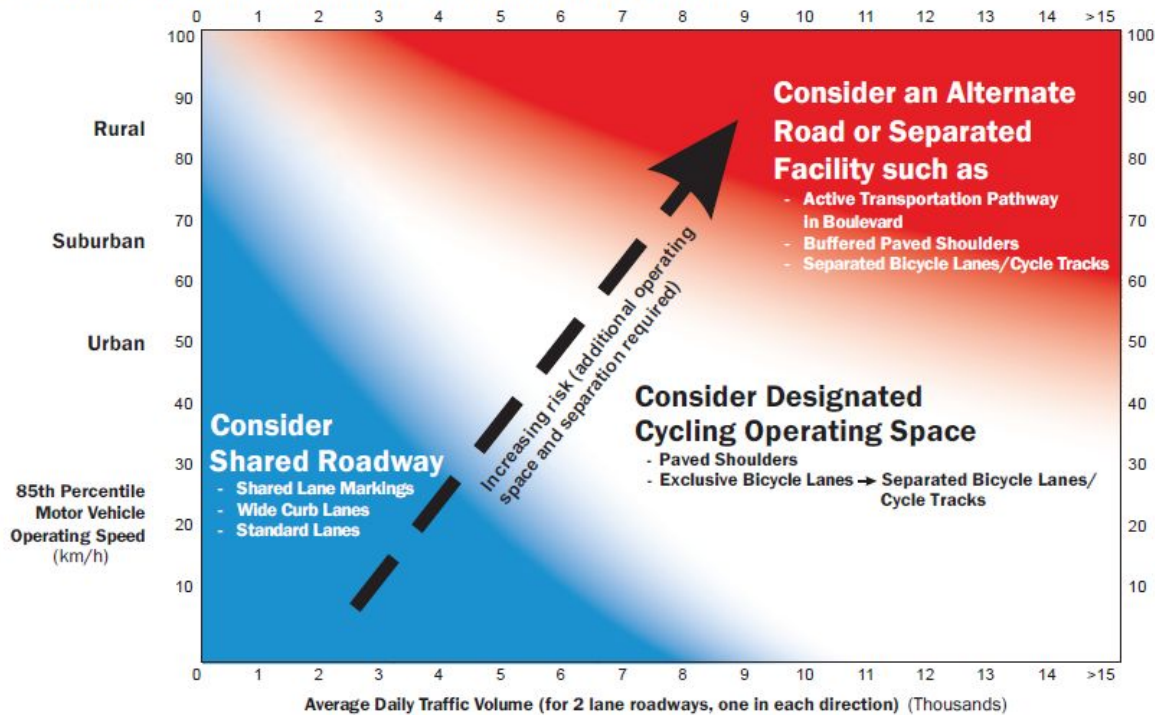

Figure 3.3 – Desirable Bicycle Facility Pre-Selection Nomograph

## Other factors

### Micro-mobility

“No person shall operate a motor-assisted bicycle or e-bike upon any sidewalk or multi-use trail.” - By-law 229-2011

At the moment, according to Brampton’s by-laws, the installation of a multi-use pathway would have prohibited using e-assist bicycles and e-scooters, potentially applying constraints to seniors, which tends to be the largest demographic of e-assist devices.

### Accessibility

Design Requirements for Accessible Routes, Sidewalks and Corridors under City of Brampton Accessibility

Technical Standards indicate that “where space is required for two wheelchairs to pass, it shall be 1830 mm” in width.

<https://www.brampton.ca/en/City-Hall/Accessibility/Documents/technical-standards.pdf>

While not necessary for bicycle usage in this context, a multi-use pathway might have been considered to improve accessibility standards along North Park Drive.

## Human factors, and bicycle heterogeneity

Sidewalk and wrong-way riding may also be prevalent if multi-use paths do not have adequate connections in both directions of a multilane roadway

[https://safety.fhwa.dot.gov/ped\\_bike/tools\\_solve/fhwasa12018/fhwasa12018.pdf](https://safety.fhwa.dot.gov/ped_bike/tools_solve/fhwasa12018/fhwasa12018.pdf)

Further, multi-use pathways are often subject to restrictions based on assumptions about bicycle homogeneity, which are false. This leads to barriers with accessing and transitioning onto and off of this kind of infrastructure. The example in this image is of a cargo bike, however, bicycles can also have trailers, baskets, or wide handlebars, which well intended devices such as “P” gates create barriers for.

## Differences between paved shoulders and painted bike lanes

There was a discussion regarding some confusion on the differences between paved shoulders and bike lanes with respect to parking. This confusion is understandable.

**Bicycle lanes** - are spaces on the road that are reserved for exclusive use by cyclists, clearly designated by pavement markings and signage. If a car is parked in a bicycle lane, the driver of that car is breaking the law.

**Paved “urban” shoulders** - ...are not an alternative to bicycle lanes. They are spaces that can be used by people using bicycles. They can also act as a space for on-street parking. There usually isn't clear signage or guidance depicting this convergence of uses. It is correct that, if a car is parked in an paved shoulder, a person on a bicycle will have to navigate around it.

## Congestion, school drop-off, and safety

I interpreted a section of Council discussion as suggesting that a source of congestion on this street is parents dropping off their children using private automobiles. In my opinion, while installing bicycle infrastructure is a good start, the City of Brampton cannot stop there.

The City of Brampton now needs to work with the various school boards represented on North Park Drive to consider implementing a school travel plan for nearby residents that offer education and encouragement for students to:

- Walk or cycle to school as the first transport choice.
- Plan and practise the route to their school with their parents.
- Walk or ride on their own.

## Closing

I apologize for the length of this letter. However, it is important to consider the diverse backgrounds and experiences people have when contemplating how to best serve them moving forward, even with something as seemingly innocuous as a road resurfacing program.

Reducing the volume and speed of automobiles improves safety for all. In my opinion, on-street bicycle lanes are satisfactory to achieve this. But an intersectional conversation should also be had with appropriate stakeholders, such as people with disabilities, to consider improving their experience also.

It might be the case that a better solution is to implement both.

## **A By-law to amend By-law 77-2020, to Provide Relief Measures for Overdue Property Taxes**

---

WHEREAS By-law 77-2020 provides for the levy and collection of final taxes for the year 2020 and allows for the imposition of penalties and interest on all arrears of taxes pursuant to sections 317, 343, and 345 of the *Municipal Act, 2001*, S.O. 2001, Chapter 25, as amended;

AND WHEREAS By-law 77-2020 provides that final taxes are due and payable in three instalments on September 23<sup>rd</sup>, October 21<sup>st</sup>, and November 18<sup>th</sup>, 2020;

AND WHEREAS By-law 77-2020 provides that final taxes for properties subject to an agreement for monthly payments under the City of Brampton Pre-Authorized Tax Payment Program shall be due and payable in four (4) instalments based on the withdrawal day consisting of the option of payment dates on the 1<sup>st</sup> or the 15<sup>th</sup>, or the next subsequent business day in the event of a weekend or a statutory holiday, during the months of: September, October, November and December;

AND WHEREAS By-law 77-2020 provides that failure to pay final taxes in full when due results in the imposition of both penalties and interest in accordance with sections 345(2) and 345(3) of the *Municipal Act, 2001*;

AND WHEREAS The Corporation of the City of Brampton wishes to provide assistance to Brampton taxpayers in response to the COVID-19 pandemic by:

1. Suspending charges of penalties and interest on all tax arrears retroactive from August 20<sup>th</sup>, 2020 to December 31<sup>st</sup>, 2020, inclusive (the "Waiver Period"); and
2. Suspending any fees payable pursuant to the User Fee (Municipal Act) By-law 380-2003 (as amended) for any taxpayer for issuing Overdue Notice during the Waiver Period.

NOW THEREFORE the Council of the Corporation of the City of Brampton, ENACTS as follows:

1. THAT By-law 77-2020 is hereby amended by adding the following provision:

6 (3) Notwithstanding the provisions of sections 6(1) and 6(2) of this By-law, late payment and interest charges shall not be levied pursuant to sections 345(2) or 345(3) of the *Municipal Act, 2001* retroactive from August 20<sup>th</sup>, 2020 to December 31<sup>st</sup>, 2020, inclusive.

2. THAT By-law 77-2020 is hereby amended by deleting paragraph 7 and replacing it with the following:

7. The Treasurer is hereby authorized to accept part payment from time to time on account of any taxes due and to give a receipt for such part payment, provided that acceptance of any such part payment does not affect the collection of any late payment charges imposed and collectable under the provisions of subsection 6(1) and 6(2) of this By-law, in respect of non-payment of any taxes or any class of taxes or of any instalment thereof.

3. THAT charges of penalties and interest on all tax arrears retroactive from August 20<sup>th</sup>, 2020 to December 31<sup>st</sup>, 2020 inclusive (the “Waiver Period”), are hereby suspended.

4. THAT any fees payable pursuant to the User Fee (Municipal Act) By-law 380-2003 (as amended) for the issuance of an Overdue Notice to any taxpayer during the Waiver Period, are hereby suspended.

5. It is the intent of Council for The Corporation of the City of Brampton that:

(a) if any section or portion of this By-law is found by a court of competent jurisdiction to be invalid, all remaining sections and portions of this By-law continue in force and effect; and

(b) all other requirements and time periods set forth in By-law 77-2020 not expressly amended by this By-law remain unchanged and continue in full force and effect.

6. This By-law comes into effect on the date of enactment.
