"I am requesting a seat at the table to collaborate with both the City and the Region on what is right for both the project and the businesses. I do believe that it is important for those that are leading this project to see the perspectives of all sides, so that there is clarity and transparency. This clarity and transparency is something that all our members are looking for and we are unable to provide answers. Being able to collaborate and work together will allow us to

- 1) provide information as it comes to our members – such as timelines
- 2) Pivot and adjust in a timely manner on events, or even create new events to bring people in
- 3) Create a marketing campaign to support the growth of what is coming and the vision of what it will be
- 4) Support businesses that will have a harder time adjusting to the changes (not currently online etc)"

On behalf of DBBIA Members, Rick Evans, Secretary and Chair of Downtown Development, outlined comments, concerns and questions regarding downtown revitalization and the LRT, and highlighted the need for a coordinated plan between the Region of Peel and City of Brampton.

8. Government Relations Matters

8.1 Update re: Government Relations Matters

Blaine Lucas, Acting Director, Corporate Projects and Liaison, Office of the CAO, provided a presentation which included information on Region of Peel, Provincial Government, Federal Government and advocacy matters.

Mr. Lucas provided information on meetings being set up with Brampton MPs and MPPs, in coordination with the Mayor's Office, and responded to questions from Council.

At the request of Council, staff agreed to provide an update by e-mail on the Brampton Rapid Transit project and, if required, further information would be provided for consideration at the August 2021 Council meeting.

Council discussion took place with respect to advocacy, in advance of the AMO conference taking place in August 2021, for the LRT stop to be north of Steeles Avenue. In response to questions from Council, staff indicated that a motion in support of the stop location would assist with the City's advocacy efforts.

It was confirmed that staff would develop a motion for consideration by Council at a later point in this meeting, and that this item would be stood down to provide time for this purpose.

Later in the meeting, the motion, moved by Regional Councillor Vicente and subsequently seconded by Regional Councillor Medeiros, was introduced, with the operative clauses as follows:

Therefore be it resolved, that the Council strongly supports the Hurontario Main LRT stop to be located to the north of Steeles Avenue; and

That a copy of this motion be forwarded to:

- The Premier's Office;
- Ministry of Transportation;
- Brampton Members of Parliament;
- Brampton Members of Provincial Parliament; and
- The CEO of Metrolinx.

Council consideration of the motion included the need for continuing advocacy on relocation of the LRT stop, and a suggestion that Mayor Brown invite the Honourable Prabmeet Sarkaria, MPP, Brampton South, to walk the area so that the City could highlight the need for relocation of the stop for pedestrian safety.

The motion was considered as follows.

C231-2021

Moved by Regional Councillor Vicente

Whereas on June 23, 2021 staff presented to the Committee of Council the preferred surface and preferred underground options along Main Street as part of the Hurontario Main LRT Extension EA Study;

Whereas on June 23, 2021 Committee of Council directed that staff move forward with two preferred alignments one surface and one tunnel for the 30% (preliminary) design and draft environmental project report for the Light Rail Transit (LRT) extension from Steeles Avenue to Downtown Brampton;

Whereas on June 23, 2021 Committee of Council unanimously supported the tunnel option as the preferred alignment to advance funding advocacy with the current provincial and federal governments;

Whereas on July 7, 2021 Council ratified the decisions made above;

Whereas the need to have the Brampton Gateway Terminal stop located to the north of Steeles Ave has become even more emergent with the identification of the Hurontario Main LRT Extension preferred alignments along Main Street;

Whereas, the Brampton Gateway Terminal is Brampton's busiest terminal with over 18,000 customers daily on-boarding and off-boarding (pre-COVID-19) with a sizeable transfers by students to access the Brampton Transit routes to Sheridan College and post-secondary institutions in Downtown Brampton

Whereas there continues to be distinct customer experience benefits in having the Hurontario Main LRT stop to the north of Steeles Avenue due to its proximity to the existing Brampton Gateway Terminal for safe and convenient passenger transfers and travel time savings;

Whereas the Hurontario Main LRT stop to the north of Steeles Avenue is more compatible with the future LRT extension along Main Street and building it north of Steeles now will avoid potential sunk costs should the stop be constructed to the south of Steeles Avenue and relocated in future;

Whereas Metrolinx is carrying on enhancements to the Kitchener rail line to support the two-way-all-day-GO service;

Whereas locating the LRT stop in closer proximity to the Brampton Gateway Terminal offers critical leverages for the economic recovery and resilience, and enhanced regional connectivity, and support development to the fullest, such as:

- the City's focus on city-building for future generations and the engagement with the private sector redevelopment proposal to transform the north-west corner of Steeles Avenue West and Main Street based on a comprehensive transit-oriented community approach;
- the seamless connections to various post-secondary institutions in Downtown Brampton such as the future Ryerson University new Brampton School of Medicine, Rogers Cybersecure Catalyst at Ryerson University, Algoma University and the future home of the University of Guelph-Humber;

- the Council approved \$275M as of 2021 in continued investment and projects for Downtown Brampton on key priorities that matter most to residents and business owners, including transportation, road and building improvements,

- 16.4 Discussion Item at the Request of City Councillor Williams, re: Fireworks Safety

City Councillor Williams outlined numerous complaints she received about fireworks during the Canada Day weekend (from June 30 to July 5, 2021), which included fireworks being set off after hours and in an unsafe manner, and residual garbage.

At the request of Council, staff outlined the number and types of complaints and charges laid during this time period.

In response to questions from Council, staff provided information on the following:

- challenges in identifying and charging those responsible for illegal fireworks displays

- challenges with successfully getting charges through the court system
- potential methods for increased communications around fireworks restrictions and safety measures
- provincial and federal regulations relating to the storage of fireworks

Staff also provided an advisory that no vendors applied for training to sell fireworks in the City, and therefore no permits to sell them were issued, resulting in residents likely purchasing fireworks from other municipalities or sources that do not have the same restrictions as those in place in Brampton, i.e. short-range fireworks only, etc.

Council consideration included:

- information from Members about complaints they received
- potential ban on fireworks in the City, and acknowledgment of the City's previous efforts toward banning fireworks
- residual impact on parking issues
- current and existing communications and education campaigns issued by the City
- continuous disregard by some residents of the City's rules around fireworks safety
- impact of fireworks on the environment
- need for further conversations on this topic, which could include City-run displays to ensure safety of the public
