15. Notices of Motion

15.1. Notice of Motion re. Park Naming to Commemorate Toronto Police Constable Jeffrey Northrup

Moved by: Mayor Brown

Seconded by: Councillors Fortini and Williams

WHEREAS on July 2, 2021 Toronto Police Services Constable, and Brampton resident, Jeffrey Northrup was killed in the line of duty; and

WHEREAS City Council has approved an Asset Naming Policy to facilitate commemorative recognition to honour events and individuals' outstanding achievements, distinctive service, or significant community contributions, including recognition of the City's rich cultural heritage; and

WHEREAS there may exist opportunities for the City to recognize community and cultural heroes of significance to local communities within the City through naming streets, parks and other City assets;

THEREFORE BE IT RESOLVED:

- 1. That a City park be named to commemorate fallen Toronto Police Constable, and Brampton resident, Jeffrey Northrup; and
- 2. That City staff consult with the Northrup family to identify a suitable park location and report to Council in accordance with the Asset Naming Policy.

See Item 7.2

15.2. Notice of Motion re. Brampton COVID-19 Memorial

Moved by: City Councillor Bowman

Seconded by: Regional Councillor Medeiros

WHEREAS the COVID-19 global pandemic affected the City of Brampton very hard, especially our senior population;

WHEREAS Brampton's Wards 3 & 4 were especially vulnerable due to an older

population and the location of local long-term care facilities;

WHEREAS many people did not have an opportunity to say their goodbyes to family, friends and loved ones before they passed away from COVID-19 or complications from the virus;

THEREFORE, BE IT RESOLVED that:

- 1. The City of Brampton create a memorial to the victims of COVID-19;
- 2. Staff report back with appropriate recommendations for the implementation of a memorial for the victims.
- 15.3. Notice of Motion re. Mental Health Benefits for City Employees

Moved by: Mayor Brown

Seconded by: Regional Councillor Medeiros

WHEREAS there is a need to treat mental health like physical health

THEREFORE BE IT RESOLVED THAT Staff report back on enhanced mental health benefits that are available to offer City employees.

15.4. Notice of Motion re. Naming of Future Street in Honour of former Councillor Avtar Aujla

Moved by: Regional Councillor Medeiros

Seconded by: Regional Councillor Dhillon

WHEREAS Avtar Aujla was the first ever person of South Asian descent to be elected to Brampton City Council, serving as Councillor in Ward 4 from 2000 to 2003;

WHEREAS she has been a proud Bramptonian since she arrived in Canada nearly 40 years ago;

WHEREAS during her tenure as Councillor she played a key role in bringing important recreation facilities and employment opportunities to the City of Brampton, along with playing a pivotal role in promoting diversity and cultural initiatives

WHEREAS she was honoured by the City of Brampton at its 2017 Sikh Heritage Month celebration for her contributions to the City;

WHEREAS she was the founder of Sanjha Virsa, a women's advocacy group which was run exclusively by women and promoted and built to encourage women in leadership, and also included providing scholarships to girls;

WHEREAS she continues to be involved in actively promoting social justice through her advocacy for workers' rights, including her work for the Brampton \$15 and Fairness chapter that fought for a higher minimum wage and stronger labour protections for workers in Ontario;

WHEREAS she has been an outspoken advocate for the Fair Deal for Brampton healthcare campaign;

WHEREAS she has and continues to be a role model for South Asian women and women of colour;

THEREFORE BE IT RESOLVED THAT Staff report back on options regarding the naming of a future street in Wards 3 and 4 after former Brampton Councillor, Avtar Aujla, subject to appropriate approval from the Region of Peel Street Naming Committee; in accordance with the City's Asset Naming Policy; and following consultation with Avtar Aujla and her family.

15.5. Notice of Motion re. Location of Truck Parking and Storage Facilities

Moved by: Regional Councillor Dhillon

Seconded by: Regional Councillor Vicente

WHEREAS the City of Brampton has over 24,000 businesses classified as "transportation and warehousing"; and

WHEREAS in 2020, the transportation and warehousing sector contributed approximately 11 per cent to Brampton's Gross Domestic Product (GDP); and

WHEREAS the City of Brampton is home to the Canadian National Railway's largest Intermodal Terminal, servicing over 2,000 trucks daily; and

WHEREAS the COVID-19 Pandemic has underscored the important role the trucking industry plays in serving the day-to-day needs of residents and businesses of the City of Brampton; and

WHEREAS the City of Brampton wishes to ensure that locations for the parking and/or storage of trucks do not conflict with adjacent land use, are in strategic employment areas designated for transportation and warehousing, and support the City's 2040 Vision;

THEREFORE BE IT RESOLVED that the Council of the City of Brampton directs staff to work with Private Landowners, the Peel Goods Movement Task Force, and the Trucking and Development Industries to inform of locations desirable for parking and/or storage of trucks and the approvals required for establishing such facilities; and

FURTHER that staff report back to Council on this matter through staff reports regarding development applications for truck parking/storage and the ongoing Municipal Parking Strategy.

15.6. Notice of Motion re. Outdoor Face Masks

Moved by: Mayor Brown

Seconded by: Regional Councillor Fortini

Whereas increasing vaccination rates among Brampton, Peel and Ontario residents is encouraging and will result in a pathway towards reopening the province and resuming normal or near-normal activities;

Whereas mandatory face masks and/or physical distancing continues to be a necessary requirement within indoor settings, as per the Reopening Ontario legislation and the City's Face Masks By-law 135-2020, as amended;

Whereas the current provisions of the Reopening Ontario legislation and provincial public health orders continue to require mandatory face masks and physical distancing at outdoor events, including City parks, playgrounds and properties where the risk of transmission is lower within an outdoor environment and face masks should more appropriately be a choice not a requirement;

Therefore be It Resolved:

- 1. That the Mayor, on behalf of Council, write to the Premier of Ontario, Provincial Medical Officer of Health, Minister of Health and Brampton MPPs requesting that the provisions of the Reopening Ontario legislation be amended to no longer require mandatory face masking at outdoor events, properties and gatherings where sufficient physical distancing provisions can be maintained.
- 2. That a copy of this Resolution be provided to the Region of Peel, City of Mississauga and Town of Caledon for their information.
- 15.7. Notice of Motion re. Medical-grade Face Masks and Transit Operators

Moved by: Mayor Brown

Seconded by: Regional Councillor Fortini

Whereas the provisions of the City's Face Masks By-law 135-2020, as amended, include a mandatory requirement for all persons entering onto and while riding in a Brampton Transit Vehicle to wear a Face Mask, as defined within the by-law;

Therefore Be It Resolved:

- 1. That Face Masks By-law 135-2020, as amended, be further amended to exempt Brampton Transit Vehicle operators from wearing a medical-grade mask where:
- a. there exists a physical barrier/separator between the operator driving area and passenger door entry/exit and seating areas, and
- b. a window within the operator driving area is open to allow for sufficient ventilation, and
- c. the operator continues to wear a Face Mask as defined in the by-law.

6. <u>Announcements (2 minutes maximum)</u>

6.1 Announcement – CIBC Run for the Cure (Brampton) – Sunday, October 3, 2021 Council agreed to provide additional time for this announcement.

Kelly McNamara, Volunteer Run Director, Brampton, Canadian Cancer Society, announced the Canadian Cancer Society CIBC Run for the Cure, and provided a presentation that included the following:

- 2021 marks the 23rd anniversary of the Run for the Cure, taking place virtually on Sunday, October 3, 2021
- funds raised are invested in breast cancer research in Canada
- request for the City to proclaim August 22-29, 2021 as "Paint Brampton Pink Week", a pre-run event to raise awareness of breast cancer

Ms. McNamara acknowledged participation by Council Members in past events, and requested their consideration for participation in the 2021 event.

City Councillor Singh, announcement sponsor, acknowledged Ms. McNamara's efforts on behalf of the Canadian Cancer Society, and noted that he and other Members of Council would be participating in this year's event.

7. Public Delegations and Staff Presentations (5 minutes maximum)

7.1 Possible Delegations re: Surplus Declaration of Easement Rights over City owned Buffer Blocks for Sewer Infrastructure in Connection with the Development of Adjacent Residential Lands – Ward 6

Notice regarding this matter was published on the City's website on June 29, 2021.

Peter Fay, City Clerk, confirmed that no delegation requests were received.

- 7.2 Delegations from Downtown Brampton BIA, re: Item 12.5 Committee of Council Recommendations CW341-2021 (Downtown Revitalization) and CW342-2021 (LRT):
 - 1. Suzy Godefroy, Executive Director (on behalf of DBBIA Chair Carrie Percival)
 - 2. Rick Evans, Secretary and Chair of Downtown Development

Note: votes were taken on Items 12.5 (Resolution C242-2021) and 14.3 (Resolution C243-2021) under this item; for the purpose of the minutes, the motions are outlined under the respective items.

On behalf of Carrie Leigh Percival, Chair, Downtown Brampton BIA (DBBIA), Suzy Godefroy, Executive Director, DBBIA, read correspondence from Ms. Percival, outlined in Item 14.3, requesting the following:

"I am requesting a seat at the table to collaborate with both the City and the Region on what is right for both the project and the businesses. I do believe that it is important for those that are leading this project to see the perspectives of all sides, so that there is clarity and transparency. This clarity and transparency is something that all our members are looking for and we are unable to provide answers. Being able to collaborate and work together will allow us to

- 1) provide information as it comes to our members such as timelines
- 2) Pivot and adjust in a timely manner on events, or even create new events to bring people in
- 3) Create a marketing campaign to support the growth of what is coming and the vision of what it will be
- 4) Support businesses that will have a harder time adjusting to the changes (not currently online etc)"

On behalf of DBBIA Members, Rick Evans, Secretary and Chair of Downtown Development, outlined comments, concerns and questions regarding downtown revitalization and the LRT, and highlighted the need for a coordinated plan between the Region of Peel and City of Brampton.

Mr. Evans also provided comments on the immediate need for a staffed downtown office to provide coordination between all parties and downtown businesses.

Mr. Evans responded to questions of clarification from Council.

The following motion was considered.

C229-2021

Moved by Regional Councillor Medeiros Seconded by Regional Councillor Vicente

That the following delegations from Downtown Brampton BIA, re: Item 12.5 – Committee of Council Recommendations CW341-2021 (Downtown Revitalization) and CW342-2021 (LRT), to the Council Meeting of July 7, 2021, be received:

- 1. Suzy Godefroy, Executive Director (on behalf of DBBIA Chair Carrie Percival)
- 2. Rick Evans, Secretary and Chair of Downtown Development

Carried

Item 16.3 was brought forward and dealt with at this time.

A motion, moved by Regional Councillor Vicente and seconded by Mayor Brown, was introduced with the operative clauses as follows:

That Staff be directed to include the resurfacing and repairs of Queen and Main Streets, including the replacement of the curb and sidewalks as part of the road improvements, which will be undertaken as part of the Region of Peel's tender;

That Staff be directed to continue to implement the short-term initiatives, in advance of the 90-day report;

And furthermore that the Downtown Improvements capital project 183866-001 be amended to include \$12,000,000 funded from Reserve #91 - Federal Gas Tax upon confirming eligibility or Reserve #4 – Repair & Replacement and that the original \$3,000,000 of external tax based debt financing be replaced with the above funding.

An amendment was proposed and accepted by the mover to second operative clause to add the following after short-term initiatives: "to include opportunities for street-level art and public art installations,"

Minutes - City Council - July 7, 2021

Council discussion took place on the motion during which time Members of Council expressed varying opinions.

During Council's consideration, staff from the City of Brampton and Region of Peel provided an overview of the project components and processes and responded to questions on the following topics:

- ongoing consultations between the City and all stakeholders and partners
- request from DBBIA Chair to have a seat at the table to collaborate with both the City and the Region
- status of the downtown office
- incorporation of public art
- coordination with utilities and potential need for immediate upgrades to hydro, fibre optics and gas services
- funding availability in Reserve #91 Federal Gas Tax and Reserve #4 Repair & Replacement
- potential surface LRT alignment and impact on downtown revitalization as a result
- possibility of expediting the staff report on the revitalization plan (due in early September 2021)

The motion, as amended, was considered as follows.

C230-2021

Moved by Regional Councillor Vicente Seconded by Mayor Patrick Brown

Whereas the Region of Peel is planning to undertake a project to replace water mains and repair sanitary sewers in the downtown core, including the "four corners";

Whereas the City of Brampton approved in 2020, proceeding with the construction of road improvements in downtown core in partnership with the Region of Peel as part of the Region's water and waste water improvements;

Whereas Staff presented information on the Integrated Downtown Plan, with short and long term options for improvements in the downtown;

That Staff be directed to include the resurfacing and repairs of Queen and Main Streets, including the replacement of the curb and sidewalks as part of the road improvements, which will be undertaken as part of the Region of Peel's tender;

That Staff be directed to continue to implement the short-term initiatives, to include opportunities for street-level art and public art installations, in advance of the 90-day report;

And furthermore that the Downtown Improvements capital project 183866-001 be amended to include \$12,000,000 funded from Reserve #91 - Federal Gas Tax upon confirming eligibility or Reserve #4 – Repair & Replacement and that the original \$3,000,000 of external tax based debt financing be replaced with the above funding.

8. Government Relations Matters

8.1 Update re: Government Relations Matters

Blaine Lucas, Acting Director, Corporate Projects and Liaison, Office of the CAO, provided a presentation which included information on Region of Peel, Provincial Government, Federal Government and advocacy matters.

Mr. Lucas provided information on meetings being set up with Brampton MPs and MPPs, in coordination with the Mayor's Office, and responded to questions from Council.

At the request of Council, staff agreed to provide an update by e-mail on the Brampton Rapid Transit project and, if required, further information would be provided for consideration at the August 2021 Council meeting.

Council discussion took place with respect to advocacy, in advance of the AMO conference taking place in August 2021, for the LRT stop to be north of Steeles Avenue. In response to questions from Council, staff indicated that a motion in support of the stop location would assist with the City's advocacy efforts.

It was confirmed that staff would develop a motion for consideration by Council at a later point in this meeting, and that this item would be stood down to provide time for this purpose.

Later in the meeting, the motion, moved by Regional Councillor Vicente and subsequently seconded by Regional Councillor Medeiros, was introduced, with the operative clauses as follows:

Therefore be it resolved, that the Council strongly supports the Hurontario Main LRT stop to be located to the north of Steeles Avenue; and

That a copy of this motion be forwarded to:

- The Premier's Office;
- Ministry of Transportation;
- · Brampton Members of Parliament;
- Brampton Members of Provincial Parliament; and
- The CEO of Metrolinx.

Council consideration of the motion included the need for continuing advocacy on relocation of the LRT stop, and a suggestion that Mayor Brown invite the Honourable Prabmeet Sarkaria, MPP, Brampton South, to walk the area so that the City could highlight the need for relocation of the stop for pedestrian safety.

The motion was considered as follows.

C231-2021

Moved by Regional Councillor Vicente Seconded by Regional Councillor Medeiros

Whereas on June 23, 2021 staff presented to the Committee of Council the preferred surface and preferred underground options along Main Street as part of the Hurontario Main LRT Extension EA Study;

Whereas on June 23, 2021 Committee of Council directed that staff move forward with two preferred alignments one surface and one tunnel for the 30% (preliminary) design and draft environmental project report for the Light Rail Transit (LRT) extension from Steeles Avenue to Downtown Brampton;

Whereas on June 23, 2021 Committee of Council unanimously supported the tunnel option as the preferred alignment to advance funding advocacy with the current provincial and federal governments;

Whereas on July 7, 2021 Council ratified the decisions made above;

Whereas the need to have the Brampton Gateway Terminal stop located to the north of Steeles Ave has become even more emergent with the identification of the Hurontario Main LRT Extension preferred alignments along Main Street;

Whereas, the Brampton Gateway Terminal is Brampton's busiest terminal with over 18,000 customers daily on-boarding and off-boarding (pre-COVID-19) with a sizeable transfers by students to access the Brampton Transit routes to Sheridan College and post-secondary institutions in Downtown Brampton

Whereas there continues to be distinct customer experience benefits in having the Hurontario Main LRT stop to the north of Steeles Avenue due to its proximity to the existing Brampton Gateway Terminal for safe and convenient passenger transfers and travel time savings;

Whereas the Hurontario Main LRT stop to the north of Steeles Avenue is more compatible with the future LRT extension along Main Street and building it north of Steeles now will avoid potential sunk costs should the stop be constructed to the south of Steeles Avenue and relocated in future;

Whereas Metrolinx is carrying on enhancements to the Kitchener rail line to support the two-way-all-day-GO service;

Whereas locating the LRT stop in closer proximity to the Brampton Gateway Terminal offers critical leverages for the economic recovery and resilience, and enhanced regional connectivity, and support development to the fullest, such as:

- the City's focus on city-building for future generations and the engagement with the private sector redevelopment proposal to transform the north-west corner of Steeles Avenue West and Main Street based on a comprehensive transit-oriented community approach;
- the seamless connections to various post-secondary institutions in Downtown Brampton such as the future Ryerson University new Brampton School of Medicine, Rogers Cybersecure Catalyst at Ryerson University, Algoma University and the future home of the University of Guelph-Humber;
- the post COVID economic recovery strategy that aims to bring resiliency and competitive advantage to the Brampton economy by fully adopting innovation and technology transformation, seizing opportunities to attract investment, expediting infrastructure projects and shifting the paradigm through which the arts and creative sector serves as the beating heart of Brampton;
- the Council approved \$275M as of 2021 in continued investment and projects for Downtown Brampton on key priorities that matter most to residents and business owners, including transportation, road and building improvements,

infrastructure maintenance, innovation district projects, safety, enforcement, emergency initiatives, environmental enhancements, and postsecondary partnerships;

Therefore be it resolved, that the Council strongly supports the Hurontario Main LRT stop to be located to the north of Steeles Avenue; and

That a copy of this motion be forwarded to:

- The Premier's Office:
- Ministry of Transportation;
- Brampton Members of Parliament;
- Brampton Members of Provincial Parliament; and
- The CEO of Metrolinx.

A recorded vote was requested, and taken later in the meeting, with the results as follows.

- 3. That the following resolution from the delegation be endorsed:

WHEREAS there has been an increased risk of domestic violence against women and children during COVID-19;

AND WHEREAS Peel Regional Police reported spending more hours on scenes of domestic incidents than any other type of incident; they spent 40, 000 hours more than the next highest type of incident in 2016/2017;

AND WHEREAS Peel Regional Police responded to over 18,000 family violence calls, including 10, 000 intimate partner calls, in 2019, a rate of approximately 50 per day;

AND WHEREAS the rate of police-reported incidents of domestic violence in Peel has increased over the past several years with an increase of 859 intimate and family violence incidents in 2018/2019, an increase higher than any other type of incident in Peel, however intimate partner violence victims represent only one third of all police-reported violent crime in Canada;

Minutes – City Council – July 7, 2021

AND WHEREAS the rate of homicides in Peel increased 24% in 2019 and nearly half of all homicides in Peel Region were domestic related;

AND WHEREAS more than 60% of those who utilize emergency shelters in Canada are women and 80% of women seeking shelter as a result of abuse cited a former or current intimate partner as being their abuser;

AND WHEREAS on a snapshot day in Ontario, 42% of shelters were at capacity, and shelter being at capacity was the reason women were turned away in 82% of situations:

AND WHEREAS in 2009, 15% of female victims of spousal violence obtained a protection order (e.g., restraining order, no contact, peace bond), and 32% of these orders were breached; 65% of these breaches were reported to police;

AND WHEREAS the most dangerous time for a victim of intimate partner violence is during a pending or actual separation, and was a risk factor present in 67% of homicides investigated by the Domestic Violence Death Review Committee between 2003-2017;

AND WHEREAS the City of Brampton continues to support Pilot Project Guardian and other support programs that similarly offer options to victims of domestic and gender-based violence to better meet the needs of the Brampton community;

THEREFORE BE IT RESOLVED THAT Brampton City Council write a letter of support to endorse BPW Brampton's resolution for the Region of Peel and Province of Ontario to support Project Guardian.

16.2 Discussion Item at the request of Mayor Brown re. Emancipation Day August 1 Fireworks Display

A motion, moved by Mayor Brown and seconded by City Councillor Williams, was introduced to provide for the City's acknowledgement of the legacy and importance of Emancipation Day.

Mayor Brown outlined the purpose of the motion and highlighted proposed amendments in response to input from the Afro-Caribbean community.

Council discussion took place on the motion and included proposed additional amendments.

Minutes - City Council - July 7, 2021

During Council's consideration of this matter, staff responded to questions which helped inform the final wording of the motion. The amendments were considered and accepted, such that the operative clauses read as follows:

Therefore be it resolved that City staff be directed to acknowledge the legacy and importance of Emancipation Day;

That up to \$50,000 be allocated for a memorial, in keeping with the parameters of Q4 2021 report on Public Art, and in consultation with the Afro-Caribbean community, be installed at Emancipation Park;

That staff report back on servicing costs and implementation steps for Emancipation Park;

That staff be directed to apply to Heritage Canada for further funds to cover costs of installation and maintenance of the memorial; and

That City of Brampton planned Emancipation Day events be held at Emancipation Park in 2021 and beyond; and

That this resolution be provided to the Region of Peel for information.

The motion was considered as follows.

C244-2021

Moved by Mayor Patrick Brown Seconded by City Councillor Williams

Whereas, An Act for the Abolition of Slavery throughout the British Colonies received Royal Assent on 28 August 1833 and took effect 1 August 1834; and

Whereas, the Abolition of Slavery Act made Canada a haven and destination for former and escaped slaves from the United States travelling the Underground Railroad; and

Whereas Brampton City Council has previously declared August to be emancipation month and named Emancipation Park in this honour;

Whereas the City's Black African and Caribbean community is a vibrant and active contributor to the cultural and economical mosaic of Brampton; representing the second-largest group of visible minorities in the city with a growing population of more than 80,000 residents;

Therefore be it resolved that City staff be directed to acknowledge the legacy and importance of Emancipation Day;

Minutes – City Council – July 7, 2021

That up to \$50,000 be allocated for a memorial, in keeping with the parameters of Q4 2021 report on Public Art, and in consultation with the Afro-Caribbean community, at Emancipation Park;

That staff report back on servicing costs and implementation steps for Emancipation Park;

That staff be directed to apply to Heritage Canada for further funds to cover costs of installation and maintenance of the memorial; and

That City of Brampton planned Emancipation Day events be held at Emancipation Park in 2021 and beyond; and

That this resolution be provided to the Region of Peel for information.

A recorded vote was requested and the motion carried, as amended, as follows.

16.3 Discussion Item at the Request of Regional Councillor Vicente, re: Downtown Revitalization Plan

Dealt with under Item 7.2 – Resolution C230-2021

16.4 Discussion Item at the Request of City Councillor Williams, re: Fireworks Safety

City Councillor Williams outlined numerous complaints she received about fireworks during the Canada Day weekend (from June 30 to July 5, 2021), which included fireworks being set off after hours and in an unsafe manner, and residual garbage.

At the request of Council, staff outlined the number and types of complaints and charges laid during this time period.

In response to questions from Council, staff provided information on the following:

 challenges in identifying and charging those responsible for illegal fireworks displays

Minutes - City Council - July 7, 2021

- challenges with successfully getting charges through the court system
- potential methods for increased communications around fireworks restrictions and safety measures
- provincial and federal regulations relating to the storage of fireworks

Staff also provided an advisory that no vendors applied for training to sell fireworks in the City, and therefore no permits to sell them were issued, resulting in residents likely purchasing fireworks from other municipalities or sources that do not have the same restrictions as those in place in Brampton, i.e. short-range fireworks only, etc.

Council consideration included:

- information from Members about complaints they received
- potential ban on fireworks in the City, and acknowledgment of the City's previous efforts toward banning fireworks
- residual impact on parking issues
- current and existing communications and education campaigns issued by the City
- continuous disregard by some residents of the City's rules around fireworks safety
- impact of fireworks on the environment
- need for further conversations on this topic, which could include City-run displays to ensure safety of the public
- issues resulting from improper manufacturing of fireworks

A motion, moved by Regional Councillor Dhillon and seconded by City Councillor Williams, was introduced and considered as follows.

C245-2021

Moved by Regional Councillor Dhillon Seconded by City Councillor Williams

That staff be requested to report on other municipal examples of banning personal use fireworks and of only permitting City-led or sponsored firework displays and other special occasion permitted events.

Carried

16.5 Discussion Item at the Request of Regional Councillor Santos, re: Public Art

Regional Councillor Santos shared conversations with and feedback from artists in Brampton regarding public art, and highlighted the need for increased funding to support Brampton's arts community.

Councillor Santos also highlighted the importance of an integrated program for public art installations, and the incorporation of public art in all City projects, including renovation of existing facilities and development of new facilities.

In response to questions from Council, staff provided information on a report being developed for Council's consideration in Q4 2021 on a new public art framework and program.

No motions were introduced with respect to this matter.

16.6 Discussion Item at the Request of Regional Councillor Santos, re: Commercial Kitchen in Downtown Brampton

At the request of Councillor Santos, staff provided an update on potential funding for a community kitchen in downtown Brampton, noting that submission deadline is July 23, 2021.

The following motion, moved by Regional Councillor Santos and seconded by Regional Councillor Vicente, was introduced, voted on and carried.

C246-2021

Moved by Regional Councillor Santos Seconded by Regional Councillor Vicente

- 1. THAT staff be directed to apply for the Canada Community Revitalization Fund to assist in offsetting the costs to repair, renovate, and revitalize 60 Main Street North for a Commercial Kitchen to support economic recovery and culinary entrepreneurship, and
- 2. THAT staff be directed to prepare a Request for Proposal to establish a Commercial Kitchen, at 60 Main Street North, to support economic recovery and culinary entrepreneurship.

16.7 Discussion Item at the Request of City Councillor Bowman, re: Public Sector Salary Disclosure

City Councillor Bowman provided background information on requests made during past Council and Committee of Council meetings for information on this topic, and referenced recent information provided by staff to Members of Council. Councillor Bowman expressed his view that the materials provided did not include all the information that had been requested.

Council discussion took place on this matter, during which time staff responded to questions. Discussion included:

- questions about:
 - o information that could potentially be released publicly
 - increase in the number of employees on the Public Sector Salary Disclosure (PSSD) list between 2019 and 2020
 - number of City employees hired in 2019 and 2020 versus the number of employees planned for in the City's budget allocations
 - salary threshold for the PSSD that was first set by the Ontario Government in 1995/1996
 - whether all policies and procedures have been followed since 2019
 - comparison of the salary scale in Brampton to that of the Region of Peel and City of Mississauga
- concerns about the City's increasing payroll costs, particularly during the COVID emergency and the current property tax freeze, and also in light of observations outlined in the Interim Auditor General's report (McCarter Report 2015)
- need for an extensive review of payroll costs

No motions were introduced with respect to this matter.

17. Public Question Period

Members of the public were given the opportunity to submit questions via e-mail to the City Clerk's Office regarding any decisions made at this meeting.

Peter Fay, City Clerk, confirmed that no questions were submitted regarding decisions made at this meeting.

18. By-laws

The following motion was considered.

BRAMPTON VISION

2022

What Would A CEBL Team in Brampton mean to you?

"We need a sports team in that arena - as a basketball fan CEBL is the next best thing after the Toronto Raptors...I will support this franchise"

- David Dunlop, Brampton Resident

What would it have meant to you to grow up and have a professional team in your hometown that you could have aspired to play for?

"To say that it would be a dream come true to have a CEBL team in Brampton would be an understatement. There is so much pride that comes from representing Brampton for the guys who have come out of Brampton. But it's a much greater pride to be one of the guys to represent Brampton at the pro level."

- Kenny Ejim, Player, Hamilton Honey Badgers

WHAT THE CEBL DOES FOR BRAMPTON

As a partner with the City, the CEBL:

- will draw national and international attention to Brampton through broadcasts and other media coverage and can be used to boost economic development through major basketball events (i.e. Championship Weekend, BCLA, Canada Basketball/FIBA events, U Sports, 3x3, etc.).
- can be an asset for the City's sponsorship program for Recreation, and can be used to promote Parks & Green City initiatives (i.e. "Plant 1 Million Trees").
- will boost participation rates in community basketball programming if the team's brand is attached to these programs. Basketball is the most inclusive of all sports, and "access and opportunity" are core principles of the CEBL, where every individual who wishes to engage with the game may do so.
- provides the fastest growing and second most popular sport in Brampton with a platform that will spotlight that the market has produced numerous players in the NBA and in other pro leagues.

- is the top FIBA league in North America and is among the best of the 200 pro basketball leagues operating globally.
- aligns with Brampton's emphasis on innovation and entrepreneurship. The CEBL is owned and operated by entrepreneurs with extensive experience in major pro sports (NBA, NHL, CFL, NLL, NBL, IMG, PGA Tour, Olympic sports, NSO's, venue management, etc.). It is the most innovative pro sports league in the world as evidenced by having its own OTT platform, being the only pro league in North America to offer players the option to be paid in cryptocurrency, being the only pro league in the world to use Elam Ending rather than a game clock to end games, by engaging a live DJ to perform courtside during game action, by utilizing FIBA rules for a faster paced and shorter game than NBA or NBA G League games, and more!

WHAT DOES THE CEBL REQUIRE FROM BRAMPTON?

THE CHALLENGES:

- There is no venue in Brampton that is presently suitable to accommodate professional basketball.
 CEBL players come from the NBA, NBA G League, top international pro leagues, and major NCAA Division 1 programs expecting and meriting professional level facilities. Playing in an arena designed for OHL and ECHL hockey falls short of minimum standards of professional players, coaches, league investors, and fans.
- The CAA Centre is privately owned. However, stakeholders including fans, sponsors, players/ coaches view it as Brampton-owned and operated. It is perceived locally, and will be perceived nationally and internationally, as Brampton's arena. Investment from Brampton to make the CAA Centre basketball-ready is required to bring a CEBL team to the city.

- There is no basketball court, basket stanchions, a scorer's table, score/shot clocks, or lockerrooms to accommodate professional basketball players.
- While the high percentage of financial support is required up front because there is no pro basketball infrastructure at the CAA Centre, it is anticipated that there will be some minimal on-going annual support—financial and nonfinancial support—needed.

FINANCIAL FUNDING SUPPORT

\$150,000 for a basketball floor (to be owned by the City; life of 30 yrs)

\$115,000 for four basket stanchions (to be owned by the City; life of 10 yrs)

\$60,000 for the LED scorer's table (to be owned by the City; life of 10 yrs)

\$35,000 for 350 courtside chairs (to be owned by the City; life of 25 yrs)

\$20,000 for public launch event introducing franchise to Brampton

\$12,000 for in-arena seat tarps (to be owned by City; life of 30 yrs)

\$10,000 for risers for courtside seating (to be owned by the City; life of 15 yrs)

\$8,000 for converting Office space to reflect a business operating model that is different in the CEBL from the ECHL

\$7,500 for 2 shot clocks (to be owned by City)

\$4,000 for temporary bleacher seats in end zone to offset unusable seating

\$2,000 for basketball floor cleaning kit

\$403,500 TOTAL

The CAA Centre and Realstar are excited to be part of such a great opportunity. The CEBL and the CAA Centre have been in discussion to bring professional basketball to Brampton over the past few years and have now come to terms on an MOU.

Since its opening in 1998, the Centre has hosted three major tenants - The Brampton Battalion - OHL, The Brampton Beast - ECHL and the Brampton A's - NBLC. During this time, the Centre has provided top level support and a great venue for fans to enjoy while cheering on their home teams.

Unfortunately, the pandemic took a financial toll on the Brampton Beast, forcing them to shut down operations in the spring of 2021. This leaves a vacancy for a new tenant to move into the Centre and we feel strongly that the timing couldn't be better to bring professional basketball to the city and the venue.

Basketball has gained huge popularity in Brampton and we see more and more kids shooting hoops at the end of their driveways, in the school yards and gymnasiums. We feel the CAA Centre is the perfect venue to welcome a true Canadian League in the CEBL.

The fact that the CEBL operates in the summer months works well for the Centre's event business, opening up an additional 40 dates to promoters during the fall and winter season. The guarantee of 12-16 home dates per season, International exhibition games, youth camps and clinics plus the opportunity to host the league's Championship Weekend is more than we could hope for from a new tenant.

We thank you for your time today.

CEBL FINANCIAL CONTRIBUTION?

COST RECOVERY FEE (CRF)

 CEBL will commit to an annual "financial giveback" to the City in the form of a CRF

 The fee will be calculated based on a valuation of \$2 per ticket SOLD during each season the CEBL operates out of the CAA Centre

Please refer to the below ticket projection based on a 24 game (12 home game) season

Home Opener: 3000 tickets sold

School Day Game: 4000 tickets sold

Remaining 10 home games: 20,000 tickets sold(2000 per game)

27,000 tickets sold X \$2 Per Ticket = **\$54,000 per year in CRF** (this will accumulate to a total CRF of \$403,500)

 Both parties agree that this fund would first be utilized to ensure that the basketball equipment is in working order, after which all remaining dollars would be remitted back to the City

THE PITCH: THIS WILL BE A BIA LED PROJECT BUT WE NEED SOME HELP FROM THE CITY

City of Brampton

- Approve that the top floor of the Nelson Street garage be used as public space and assist in securing it
- Collaborate with the BIA for grant and sponsorship opportunities for the mural
- Recommendations from Members of Council for restauranteurs who may be interested
- Promote through the City of Brampton Tourism's Experience Brampton channels
- Artist Activation assistance via ACCIDA
- Collaborate with Brampton Tourism for restaurants outside the DBBIA (the Brampton Food Guide)

Downtown Brampton BIA will...

- Similar to Party in the Lanes, work with local businesses to manage and program the space for food and music
- With help from ACCIDA, secure local mural artist to paint the roof top of the Nelson Garage
- Apply for sponsorship and grants for the mural
- Begin process for necessary food and beverage licenses
- Invite restaurants to be part of this activation
- Align with existing Taste of Brampton event October 14 -28, 2021

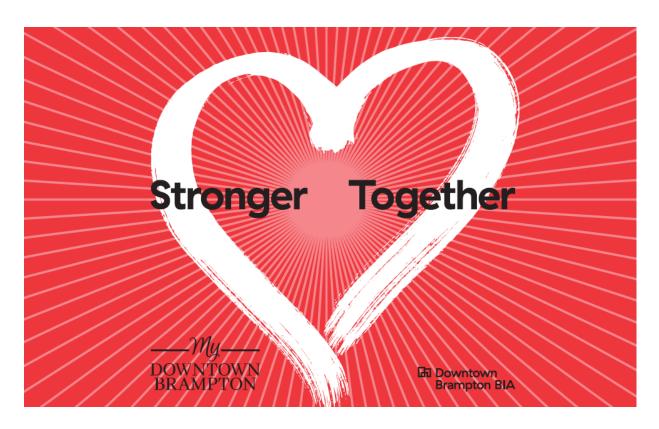

NEXT STEPS FOR PILOT

- Pending approval to transform the space and allow the DBBIA to use it, DBBIA will have an agreement drawn between both parties
- Event Logistics and Budget to be approved by the DBBIA
- Marketing and promotion of the program to be discussed with the DBBIA and the Brampton Tourism/communications
- Pilot launch ideally in Q3 of 2021 –September 10 to October 29, 2021

Financial Implications:

- Program Cost: = \$50,000-60,000
 - DDBIA Budget
 - Sponsorship (\$30,000) for mural and support to activate space (Sweeney & Co and Greenwin, and Luxor Developments already confirmed sponsors)
 - Grants
- Marketing Program to be administered by DBBIA with social media support from City
- DBBIA to build brand

Subject: Asset Naming – Recommended Location for Fiji Park

Contact: Peter Fay, City Clerk, Legislative Services, peter.fay@brampton.ca

Report Number: Legislative Services-2021-873

Recommendations:

 That the report titled: Asset Naming – Recommended Location for Fiji Park, to the City Council meeting of August 11, 2020, be received;

- 2. That the administratively-named Kanashiro Parkette (Thorndale Road, Wards 9 and 10) be permanently named Fiji Park; and
- That, upon successful completion of the public commenting period, staff be directed to erect appropriate park signage and undertake notifications for addressing, mapping, operations and emergency services regarding the new park name.

Overview:

- At its July 7, 2021 meeting, City Council approved the name "Fiji" to name a City park in response to a 2020 request to honour Fiji's 50th Independence Anniversary.
- The Wards 9 and 10 Reference Committee (comprised of Mayor Brown and Councillors Singh and Dhillon and Fortini) considered and recommended the naming of the Kanashiro Parkette, currently assigned an administrative name based on the adjacent street name, to be named Fiji Park. Staff are recommending the renaming as proposed by the Reference Committee.
- Pending Council's approval, a 30-day public consultation commenting period will start in accordance with the City's Asset Naming Policy.

Background:

In October 2020, received correspondence from the Fiji Multicultural Society of Ontario requesting the City name a street to honour Fiji's 50th Independence Anniversary, and requested that "Fiji" be referred to the Peel Street Names Committee for consideration (Resolution 386-2020).

The Peel Street Names Committee approved the use of "Fiji" for a street name in Brampton, which was recommended to Council by staff in December 2020, with a number of other street name requests. The corresponding report was referred back to staff for further consideration (C446-2020). In July 2021, a further report was presented to Council recommending "Fiji" be added to the City's Master List of Street Names. Council approved the street name as well as requested staff to name a City park after Fiji (Resolution C237-2021).

This report recommends a park naming based on the consensus of the Wards 9 and 10 Council Reference Committee, in accordance with the City's Asset Naming Policy.

Current Situation:

The name "Fiji" was approved by Council in July 2021 as a park name, without a specific park location identified within the City. New parks developed by the City regularly receive an administrative park name, many times based on adjacent street names, to assist with parks operations and location identification for emergency services. These administratively-named parks are eligible for a Council-approved permanent name, in accordance with the Asset Naming Policy. Staff have worked with the community representative for the Fiji Multicultural Society of Ontario to identify an administratively-named park in Wards 9 and 10 – Kanashiro Parkette (Thorndale Road – for renaming. The Council Reference Committee (i.e., Mayor and Wards 9 and 10 Councillors, or their designates) recently considered and concurred with the park naming recommendation.

It is recommended that in consideration of the previously Council-approved name of Fiji as a park name, the administratively-named Kanashiro Parkette (Wards 9 and 10) be permanently named Fiji Park, and subject to a public notice and commenting period, staff be directed to erect appropriate park signage and undertake notifications for addressing, mapping, operations and emergency services regarding the new park name.

Subject: By-law To Amend Sign By-law 399-2002, To Allow Treat

Accessibly Lawn Signs,

Contact: Shant Goswami, Accessibility Coordinator

Report Number: Legislative Services-2021-840

Recommendations:

1. That the report titled By-law To Amend Sign By-law 399-2002, To Allow Treat Accessibly Lawn Signs, to the City Council meeting of August 11 2021, be received:

2. That Sign By-law 399-2002, as amended, be further amended to permit Treat Accessible lawn signs during the annual Halloween period.

Overview:

- The City of Brampton has taken, and continues to take, a very progressive approach to addressing barriers to accessibility. The Accessibility Team is committed to enhancing accessibility by preventing, reducing and removing barriers to ensure people of all abilities have equal access to participate in all aspects of the community.
- The <u>Treat Accessibly</u> initiative encourages residents to place a lawn sign on their home's front lawn before Halloween, to promote barrier-free and accessible ways of trick-or-treating.
- Public Notice for this proposed amendment to the Sign By-law was given in accordance with the Procedure By-law.

Background:

In 2017, the founder of "<u>Treat Accessibly</u>", Rich Padulo, placed a sign on his front lawn to let his neighborhood know that children with disabilities can trick-or-treat at his home. Rich had set up a trick-or-treating station on his driveway that would allow individuals of all abilities to participate in trick-or-treating, without having to travel up a flight of stairs

or face any obstacles or barriers. The Treat Accessibly initiative encourages residents to set up a trick-or-treating station on their driveway or garage to allow children with disabilities to fully participate in an accessible and inclusive trick or treating experience free of stairs, steps and other barriers.

Treat Accessibly is also currently working with Peel District School Board, Dufferin-Peel Catholic District School Board, as well as the Region of Peel, City of Mississauga, and Town of Caledon to spread more awareness about this initiative and make Brampton and Peel more inclusive and accessible for all during Halloween.

Treat Accessibly also has the support of the Rick Hansen Foundation, as well as Home Depot and Re/Max. Home owners can pick up a lawn sign from Home Depot or Re/Max for free. They can also print a copy of their own sign from the Treat Accessibly website

In addition to the above, Rich Padulo also delegated to the Accessibility Advisory Committee meeting on June 1st 2021, and received strong support from the committee members who are keen on seeing this initiative grow within the City of Brampton.

AAC009-2021

That the delegation by Rich Padulo, Treat Accessibility, Founder, to the Accessibility Advisory Committee meeting of June 1, 2021, re: Grassroot Movement to make Halloween Accessible to Children of all Abilities be referred to staff for consideration.

This report addresses the request to amend Sign By-law 399-2002, to allow City residents to participate in this accessibility program.

Current Situation:

At this time, Sign By-law 399-2002 does not allow and does not provide an exemption for signs such as the Treat Accessibly lawn sign to be placed on the front lawn. City Council would need to amend the Sign By-law for an exemption in order to allow this.

Staff recommend that By-law 399-2002, as amended, be further amended by adding the following subsection 8. (20) as follows:

"8. (20) One lawn *sign* located on a private residential property pertaining exclusively to and identifying the property as providing an accessible means for Halloween trick or treating, provided it is not greater than 0.4m² (4.3 ft²) in area and provided the signs shall only be displayed between October 20 and November 01 of each calendar year."

Public Notice for this proposed amendment to the Sign By-law has been given in accordance with the Procedure By-law.

Corporate Implications:

Financial Implications:

There are no financial implications to the City from this report.

Term of Council Priorities:

This report fulfills the Council Priority of the City of Brampton as a Mosaic, recognizing the City has continued commitment towards accessibility for all residents of Brampton.

Conclusion:

This report requests City Council, if deemed to be appropriate and desirable, to amend Sign By-law 399-2002 to exempt the Treat Accessibly lawn signs from the restrictions and requirements of the by-law and allow residents to place the Treat Accessibly lawn sign on their front yard during the Halloween period.

Subject: Promoting and Supporting Employment Opportunities for Brampton

Residents Negatively Impacted by COVID-19

Contact: Michael Davidson, Commissioner, Corporate Support Services

Report Number: Corporate Support Services-2021-867

Recommendations:

 That the report from Michael Davidson, Commissioner, Corporate Support Services, dated July 28, 2021 to the Committee of Council Meeting of August 11, 2021, re: Promoting and Supporting Employment Opportunities for Brampton Residents Negatively Impacted by COVID-19 be received:

Overview:

• At the March 18, 2021 Committee of Council, The Council of The Corporation of the City of Brampton passed the following resolution at its meeting of March 3, 2021:

"C059-2021 Whereas many constituents of the City of Brampton have lost their jobs or experienced financial hardships due to COVID-19;

Whereas the City of Brampton has a strong commitment to support economic recovery in the city;

Whereas the Corporation of the City of Brampton is committed to employing top local talent from Brampton;

Whereas the City of Brampton is investing in, and expanding its, Transit Operations by building a third transit facility;

Therefore Be It Resolved that the Human Resources division in the Corporate Support Services department will work with Brampton Transit and other City of Brampton departments, and other major capital projects, to explore ways to

offer employment opportunities to Brampton residents, whose jobs were negatively impacted because of COVID-19; the Corporation is asked to report back to Council on ways to develop and deploy recruitment plans, in consultation with bargaining agents of the City, and with the Region on employment, to support economic recovery in the city of Brampton through employment opportunities over the next four years."

 To inform this report, the Talent Acquisition team conducted consultation sessions with Operating Departments across the City, bargaining partners and community agencies to explore the viability of this initiative. The feedback gathered has been incorporated into this report.

Background:

The COVID-19 pandemic has impacted constituents in the City of Brampton through loss of jobs and financial hardships, similar to impacts across other cities in Canada, especially those that are worst hit by the Pandemic, such as in the Peel region. The City has a strong commitment to support the economic recovery in the City of Brampton and is committed to employing top local talent from Brampton. The City is also investing in capital projects to continue to support the growth in Brampton with a third transit facility that will create more jobs within the community.

The City's Recruiting and Retaining Top Talent Policy sets out the principles, roles and responsibilities governing Recruitment at the City of Brampton. The Recruitment process strives to attract and retain a high-performing workforce that is representative of the community we serve. The City selects top talent with competencies, skills, education and work experience that is aligned with the requirements for each role.

Collective Agreements set out the process governing hiring of unionized City Staff. Compliance with all collective agreements, policies and procedures will continue to be adhered to, to ensure that applicants hired for unionized jobs continue to meet the required qualifications.

Current Situation:

In order to understand the current climate within the City of Brampton and conduct the feasibility of this initiative, consultation sessions were held between Human Resources and Operating Departments across the City.

These sessions included the following discussion:

1) Review of data analytics for each respective portfolio highlighting the number of Brampton residents hired and rehired in 2019-2020

- 2) Discussion on future talent needs within each Operating Department
- 3) Feedback on ability to align recruitment outreach strategies with the aforementioned initiative

Consultation sessions were also held with each of the City's bargaining partners including ATU Local 1573, BPFFA Local 1068, and CUPE Local 831 to solicit feedback and ensure compliance with collective agreements requirements as it relates to this initiative.

Overall, the feedback and discussion with the Operating Departments can be summarized in the following key themes:

- Consideration be given to the intersectionality between this initiative and other important initiatives such as the Diversity, Equity and Inclusion strategy.
- Clarity on definition of the specific criteria related to "negatively impacted by COVID 19" to align outreach strategies to the appropriate community groups.
- Ensure adherence to Collective Agreements throughout process.
- Ensuring that the City remains focused on competitive recruitment processes.

To understand the internal composition, the Human Resources team reviewed data analytics on the workforce composition as it relates to the number of Brampton residents hired. City hires in the past two years have comprised of approximately 74% of Brampton Residents.

The City completed benchmarking against neighboring municipalities of which none were focused on any employment opportunities targeting their residents negatively impacted by COVID-19 (Appendix A– Benchmarking Against Economic Recovery Initiatives Municipalities).

Next Steps:

The City can increase access to employment opportunities for Brampton residents impacted by COVID labour market adjustments by implementing the following strategies:

1. In collaboration with Operating Departments across the Corporation, Human Resources can expand the outreach initiatives to ensure Brampton residents are aware of employment opportunities at the City. As the motion emphasized a focus on Transit, Human Resources can partner with Transit to promote and educate Brampton residents on opportunities available such as Mechanics, General Services Person and Temporary Transit Operators through a targeted job/information fair to be hosted between 2021-2023. Recruitment for these positions occurs when required and will be a focus for the new Transit Facility anticipated to open in late 2024. With this continuous partnership with Brampton Transit and other Operating Departments, Human Resources will educate the

community and promote the opportunities available through various channels including information sessions and career fairs aimed at City of Brampton residents. This active outreach can also highlight qualifications/requirements for roles and career pathways to Brampton residents.

- 2. The City can proactively increase the number of Brampton residents in the talent pool for roles through targeted outreach and connectivity to local professional associations, high schools, post-secondary institutions and employment outreach groups within the community. The Human Resources team will strive to form strategic partnerships specifically connecting with local institutes.
- 3. Social media platforms can be leveraged to promote the City of Brampton as an employer of choice to residents and increase awareness of current and future opportunities. Hard to fill roles can be highlighted to the community by profiling current incumbents. As well, specific job boards and newspapers in different languages within the City of Brampton can be used to create further awareness. The Human Resources team will collaborate with Operating Departments to expand our presence as an employer of choice within the most accessible local media avenues.

While implementing these strategies, it is critical to ensure that we continue to maintain the integrity of a competitive recruitment process that aligns with our corporate policies. The recruitment process within the City will continue to strive for acquiring candidates with competencies, skills, education and work experience that is aligned with the requirements for each role.

Corporate Implications:

Financial Implications:

The initiative is set to be part of the current budget for each of the respective Operating Departments within the corporation.

Other Implications:

This initiative is not intended to compete with or duplicate efforts currently in progress, but rather complement the work currently taking place including Diversity and Inclusion and other initiatives, which support equitable and fair recruitment practices.

Term of Council Priorities:

This initiative is in line with our commitment to being a 'Well-Run City'.

Subject: Youth Internship and Mentorship Program

Contact: Michael Davidson, Commissioner, Corporate Support Services

Report Number: Corporate Support Services-2021-872

Recommendations:

1. That the report from Michael Davidson, Commissioner, Corporate Support Services, dated to the Committee of Council Meeting of August 11, 2021, re Youth Internship and Mentorship Program be received.

- 2. In reference to this report. Council endorses the youth programs attached in Appendix 2.
- 3. That staff enhance its programs with a mentoring component, or opportunity to actively communicate, and promote the City's youth programs to Brampton high schools and post -secondary institutions through the City website, social media accounts and community partners.

Overview:

- Council approved on January 28, 2019 a Recommendation Report Brampton Youth Council and Mentorship Program, which outlines a number of recommendations specific to youth mentorship opportunities at the City.
- At the March 11, 2020 meeting of Council, Council requested staff to report back on opportunities and current initiatives in which the City is or can be, involved in youth internships and mentoring programs, prior to summer 2020.
- The City of Brampton has been, and is, actively engaged in youth employment opportunities
 across the corporation and is committed to continuing to build upon these programs to
 provide youth opportunities to gain valuable skills and experience. These programs will
 support key action items under the Diversity and Inclusion strategic priority 1.3 Establish
 Diversity and Outreach recruitment goals and the Age-Friendly Strategy action items under
 Critical Participation and Employment.
- To inform this report, staff conducted benchmarking with other municipalities on youth internships and mentorship programs. (Appendix 1– Benchmarking on Youth programs).

Background:

There are over 860,000 young people across Canada aged 14-29. Canada's population is comprised of 20% youth are the next generation of our workforce. Youth are the leaders of today, the next generation of our workforce, and are already contributing to our economy. As the Canadian economy becomes more knowledge based and demands greater innovation, the business case for hiring youth becomes stronger than ever. According to the 2016 census, The City of Brampton is one of the largest, most diverse and multicultural cities with 130,600 youth living in Brampton. Brampton is one of the youngest cities in Canada. The census found 1 in 3.6 Brampton residents are under the age of 19, and 42% of the population is under the age of 29. The youth unemployment rate in Peel is approximately 36.7%¹. The City is favourably positioned with the current demographic composition to capitalize on the skills and knowledge of this vital demographic group.

Research indicates that the demographic landscape is changing and, for the first time ever, an unprecedented multigenerational workforce is at play. Rather than seeing this as a business challenge, a multigenerational workforce is an opportunity for organization to transfer knowledge and retention, develop mentoring opportunities for junior staff and build more cohesive teams.

Table 1 below provides a summary of the City's projected full time permanent workforce eligible for retirement over the next 5 years, demonstrating the need to effectively plan for the transition expected to happen within our workforce

Current Situation:

The City has had a consistent focus on developing youth in the community. There are multiple initiatives that align with the *Brampton Youth Engagement Strategy*, which was endorsed by Council recognizing the need to support youth in employment and find ways to connect with youth that are meaningful to them. This Strategy also directly links to the Age Friendly Strategy and supports efforts of Economic Development through youth entrepreneurship and ongoing partnerships with elementary schools across Brampton to educate youth. These programs are

_

not intended to compete with or duplicate efforts currently in progress, but rather these initiatives are designed to connect and complement all youth initiatives taking place across the City, thereby enabling a comprehensive approach to helping youth succeed.

Programs currently in progress are available in *Appendix 2 - City Of Brampton Youth Programs*. A few Programs that have contributed to engaging youth in the community include:

- Summer Jobs: The City currently employs students each summer for positions within Community Services and Parks such as camp counselors, student parks, etc. As per Appendix 3, 112 students have already been employed throughout the City in 2021. These provide a significant amount of opportunity for youth in the community. In recent years the City has also partnered with the Region of Peel to hire summer students in other areas outside of Community Services and Parks. The City will continue to leverage the Region of Peel Summer Job Challenge program across the organization and increase Brampton's participation rate in this highly successful program. The City also participates in the Government of Canada Summer Jobs program, which provides funding for not-for-profit organizations, public sector employers to create summer jobs for students between the ages of 15 and 29. This year the City received approval for 126 positions.
- **Co-op Placements**: Various divisions across the organization offer co-op placements and have well established partnerships with key educational institutions that are directly tied to their area of specialty. Appendix 3, showcases in 2021, 90 co-op students have been employed at the City surpassing the number of co-op placements in 2020.
- Articling Program: In 2020, the City's legislative Services launched the City's first Articling
 Program with recruitment happening on an annual basis to provide the unique opportunity to
 gain legal experience on a rotational basis exposure to hands on practical experience and
 training opportunities.
- Internships: The City has a partnership established with Career Edge to provide paid internships to recent graduates, graduates with disabilities and internally qualified professionals. Talent Acquisition promotes the program across the organization to fill temporary non-union roles.

In a well-rounded commitment to assisting youth in the community, the City of Brampton has a variety of other opportunities for youth displaying leadership in the community including:

- Youth Hubs that serve as youth-centric spaces that act as a one-stop shop for services and activities for youth, various volunteer opportunities to gain experience
- Grant and training support for youth summer companies
- Ten Thousand Coffees to connect youth to small business community and form new professional relationships
- Specialist High Skill Major Programs in partnership with the Peel District School Board and the Dufferin-Peel Catholic District School Board, the Recreation division offers ICE (Innovation, Creativity and Entrepreneurship) workshops. A variety of certifications are also offered to align with Specialist High Skills Major goals.

In March 2020, the City of Brampton received the Platinum Status Youth Friendly Community designation from Play Works, a program supported by Parks and Recreation Ontario.

This is the third time the City has been recognized for its outstanding commitment to growth and development opportunities for youth, and is one of three communities to receive the top platinum designation this year.

Next Steps:

The City aims to create impactful opportunities for youth and elevate the programs we have in place. The City has also created new programs detailed in Appendix 2 that will enhance and diversify our youth development efforts. As an important part of the next steps, meaningful dialogue will need to occur with stakeholders across the organization including leadership, staff and unions and also solicit input from youth in the community to develop a strategy that is well-rounded and impactful to youth in the City of Brampton. Working with Operating Departments, the following objectives and strategies will guide activities in the near future highlighted as follows:

Demonstrate Leadership in the community for youth career development

It is important for City Staff to demonstrate leadership in the community acting as mentors to youth in our community. Human Resource staff continue to explore learning available to City Staff that will support and encourage youth mentorship. Mentorship is an important part of youth development and the City has already taken steps to create a mentorship culture throughout the organization. As part of the City's D&I learning strategy, learning curriculum is being reviewed to include content focused on mentorship. The Power of Diverse & Inclusive Mentoring by Royal Godfrey was the first learning session held as part of the Brampton Learning Day (June 24, 2021) which focused on diverse and inclusive mentorship and impact to youth. Appendix 4 highlights organization in Brampton who have formal mentoring program in place that have been identified by the City to continue creating partnerships.

Create meaningful school to work opportunities

Human Resources and operating departments continue to explore ongoing partnerships with post-secondary institutions to continue to provide both paid and unpaid experiential learning opportunities. As these partnerships are developed information is shared across the organization. Partnerships have already been developed with Algoma University, University of Toronto and both the Peel District School Board and Peel Catholic School Board. These partnerships will be vital to bring highly skilled youth to contribute directly to the City of Brampton. The City of Brampton Internship program will focus on increasing employment opportunities for youth in various areas across the City. The internship is a development opportunity to grow top talent while providing youth valuable experience that matches their education, skill set, and career choice.

Interns will gain invaluable work experience as they explore the various career opportunities available within municipal government. Internships can range from 4-12 months.

A partnership is being developed with the University of Toronto Mississauga campus for students in the (SOC480 Internship in Sociology and Criminology) pairing qualified senior undergraduate students with community partners in an 8-month (September to April) 200-hour unpaid internship. Students work together with organizations to conduct research, complete organizational tasks, and support organizational mandates and gain valuable career experiences.

The City's Apprenticeship Program will form partnerships with local colleges and training facilities for youth completing trades-related qualifications. The City currently supports apprenticeship programs for apprentice mechanics within Transit. Development of further apprenticeship programs in other areas such as Roads Maintenance, Operations and Fleet Services would assist the City in filling anticipated labour shortages and provide youth a rewarding career.

It will also be important to work with the unions to identify ways to support youth further through programs that allow development opportunities for youth through special programs.

Continue to develop opportunities for underrepresented youth groups furthering the City's Diversity, Equity and Inclusion Strategy

Performing Arts Internship and Co-op Program for Black and Indigenous Youth Designed by and for Black and Indigenous students, the program was developed to celebrate and elevate Black and Indigenous youth, increase cultural understanding, provide opportunities for professional development, and prepare students for future leadership positions and careers in the live performing arts industry.

The City will explore opportunities to create connections with community agencies centered on underrepresented youth creating opportunities for development embedded throughout the organization.

Corporate Implications:

Financial Implications:

With endorsement from Council, consideration should be given to applying a youth employment lens to the City Budget. By working with Finance, departments will be able to allocate funding and resources through a designated and tracked budget line item.

Appendix 5 highlights wage subsidies and other assistance programs available both from the Provincial and Federal government to assist with offsetting the costs. It will be important to ensure the organization actively aware of grant opportunities across the organization. Awareness of these programs will allow further employment of youth throughout the organization.

Term of Council Priorities:

This initiative is in line with our commitment to being a 'Well-Run City'.

Conclusion:

Attachments:

In line with Council's request for a report on Youth Internship and Mentorship Program initiatives at the City this report summarizes youth programs and initiatives throughout the City. The City has showcased a strong commitment to furthering youth development in the community both with a strategic emphasis on youth as well as a practical approach whereby connections in the community create opportunities for youth throughout the organization.

In this program, an experienced professional mentor, a CWY alumnus over a six-month period to help him/her in the planning and development of his/her career. It provides CWY alumni with opportunities for personal growth and professional development. It is also a unique chance for experienced professionals to guide youth by sharing their own career experience and accompanying them as they make decisions about their future.
Big Brothers Big Sisters of Peel	We are looking for MENTORS! Are you an experienced professional or community leader who wishes to make a difference in the life of a youth? Are you The Big Brothers Big Sisters mentoring program matches a child 6 —17 years of age (Little Sister/Little Brother) with a caring adult (Big Sister/Big Brother) over the age of 18. Through regular outings, a relationship is developed between the mentor and the mentee, which is built on trust and common interests, and is supported by our experienced case-workers. The result is a life-changing experience for both the mentor and the mentee. Unique opportunities to mentor a child together as a couple or as a female volunteer matched with a young boy are also available in our Couples for Kids Program and Big & Little Buddy Program. The Big Brothers Big Sisters mentoring program usually requires two regularly scheduled outings a month of a few hours each and

United Achievers Brampton — Black Leaders Tomorrow (BLT)Youth Entrepreneurship Mentorship Program	United Achievers' Community Services (UACS) Inc. is a charity that provides culturally enriching services, programs and support that enhances the lives of families and individuals throughout the Region of Peel's Black and Caribbean communities for over two decades. Entrepreneurial mentoring program for Black youth who wish to embark on the journey of becoming an entrepreneur and for those who have already began that journey but wish to reap the benefits of having a mentor. Mentors use their knowledge and skills to coach promising young entrepreneurs and help them chart a path for positive outcomes in life. Initiative offers the opportunity for young entrepreneurs to be mentored by a seasoned professional who supports them in developing a business plan which they can use to attract investors and gain access to capital.
Rapport Youth and Family	Use multi-generational mentorship model by pairing former youth-incare mentors with youth currently in-care, or youth who have recently aged out. Report Number: Corporate Support Services-2021-879

Recommendations:

- That the report titled Arts, Culture & Creative Industries Development Agency – Recommendation to amend Panel Composition to the August 11, 2021 Council meeting, BE RECEIVED; and that
- 2. Council APPROVE the revised Arts, Culture & Creative Industries Development Agency Panel Composition to include an eighth member, as outlined in this report.

Overview:

- On January 15, 2020 Council endorsed the recommended organizational model and approach to developing an Arts, Culture and Creative Industry Development Agency in Brampton; including the draft Terms of Reference and mandate of the Chair to build the rest of the Advisory Panel membership using the matrix provided in Appendix A (CW007-2020).
- At the February 17, 2021 Council meeting, Council approved the appointment of the inaugural Chair, Advisory Panel, for the start-up and incubation period of the Arts, Culture and Creative Industries Development Agency (C051-2021).
- On March 10, 2021, Council approved the appointment of Councillor R. Santos to sit on the Advisory Panel; and approved the recruitment strategy for the remainder of the Advisory Panel members (CW118-2021).

- Upon conclusion of the interviews by the Advisory Start-up subcommittee, the Director of Strategic Communications, Culture & Events received a request from the Chair, Advisory Panel, to put forth a recommendation to amend the Panel composition to include an eighth member.
- The start-up focus of the eighth member would be fundraising and development, as outlined in Appendix B.

Background:

On January 15, 2020 Council endorsed the recommended organizational model and approach to developing an Arts, Culture and Creative Industry Development Agency in Brampton; including the draft Terms of Reference and mandate of the Chair to build the rest of the Advisory Panel membership using the matrix provided in Appendix A (CW007-2020).

At the February 17, 2021 Council meeting, Council approved the appointment of the inaugural Chair, Advisory Panel for the start-up and incubation period of the Arts, Culture and Creative Industries Development Agency (C051-2021).

On March 10, 2021, Council approved the appointment of Councillor R. Santos to sit on the Advisory Panel; and approved the recruitment strategy for the remainder of the Advisory Panel members, as recommended by the consulting firm that developed the Agency's operating model:

- Advertise a call for Advisory Panel members broadly in the community through stakeholder networks, media release, City website and social media.
- Set criteria for applicants based on the Terms of Reference and Panel matrix criteria.
- Create a limited-term Advisory Start-up Sub-committee to review applications.
 Membership on this committee would include Chair Advisory Panel, City staff representative, representative of City Council and Senior Program Lead.
- Conduct interviews with prospects, make offers to join the Advisory Panel.
- Approval of appointment of new members is through the Advisory Start-up Subcommittee.

Current Situation:

The sub-committee received 40+ applications for consideration, with 12 invited for formal interviews by the Sub-committee. Upon conclusion of the interviews, the Director of Strategic Communications, Culture & Events received a request from the Chair, Advisory Panel to put forth a recommendation to amend the panel composition to include an eighth member with a start-up focus on Fundraising and Development.

In consultation with Jeanne LeSage, co-author of the arms-length arts agency organizational model report and Panel matrix, it was concluded that an additional Advisory Panel member would not be detrimental to the Panel and that appropriate decision making processes / governance would be outlined in the board development package issued to each Board Member upon accepting a role on the Panel. Staff support the request of the Chair to amend the Panel composition and have updated the Panel Matrix to include an eighth member, focused on Fundraising and Development, for Council consideration (Appendix B).

Next Steps:

Approval of appointment of new members is through the Advisory Start-up Subcommittee. Upon approval of this report, the Advisory Start-up Sub-committee will make offers to fill the 8 seats on the Advisory Panel.

Corporate Implications:	
Financial Implications:	
None.	
Other Implications:	
None.	

Term of Council Priorities:

This report aligns with the Term of Council priorities of Brampton is a Mosaic and Brampton is a City of Opportunities by supporting Culture Master Plan implementation, inclusive engagement with diverse communities, and aligning services and investments to support the creation of an innovation ecosystem. Living the Mosaic This report aligns with the vision that Brampton will develop into a mosaic of artistic expression and production, cultures and lifestyles, complete neighbourhoods, and vibrant centres with quality jobs.

Culture Master Plan This report supports the Culture Master Plan themes of:

- Supporting Success
- Developing a Community of Practice
- Building Brampton's Identity

Conclusion:

Adding an eighth member to the Advisory Panel focused on fundraising and development ensures strong representation by both artists and experts in their relative fields to guide the Arts, Culture and Creative Industries Development Agency though a successful incubation period into its registration as a sustainable, independent non-profit organization.

Report Number: Corporate Support Services-2021-856

Recommendations:

- 1. That the report titled Request to Begin Procurement Geographic Information System (GIS) Maintenance and Support Services, to the Council meeting of August 11, 2021, be received,; and
- 2. That the Purchasing Agent be authorized to begin procurement for Geographic Information System (GIS) maintenance and support services for City-wide use;
- 3. That the Purchasing Agent be authorized to directly engage with Esri Canada Limited for the Geographic Information System (GIS) maintenance and support services.

Overview:

- This report seeks to obtain Council authority to begin procurement of Geographic Information System (GIS) maintenance and support services for a three (3) year period, with two (2) additional three (3) year renewal periods.
- With the Enterprise GIS GeoHub, Open Data and multiple solutions and integrations built on this platform, and further growth and use throughout the City to support operational activities, DI&IT recommends moving from a standard maintenance and support agreement to an Enterprise Agreement.

Background:

In 2015, based on consultation and feedback from all City departments, the process of migrating the City's GIS to the Esri platform began. At that time, a 4-year Software Training and Implementation Services contract was established through a direct negotiation, as Esri Canada Inc. is the only distributor for the software in Canada. This provided software, maintenance, support and training for City staff as well as implementation and migration assistance, where it was required.

Subsequent to the four (4) year period, two (2) additional one (1) year renewals were exercised, primarily to provide software support and maintenance for the City's existing solution. Since 2015, the Enterprise GIS platform has continued to evolve and develop, and has become an integral part of many City operational activities, and the GeoHub, which contains the City's Open Data, has received industry recognition and many awards for the innovative approach to sharing City data and making it available and easy to use.

Current Situation:

As the City continues to leverage data and technology in its daily operations, the Enterprise GIS has become a foundational and integral part of the City's technology environment. The Esri tools have been integrated into many solutions to add the value of spatial (map) data to City processes, i.e. Planning application process, asset management, storm water levy, building permits, address data, Fire CAD, and many more. The platform continues to evolve and provide more tools and technology that the City can leverage. Data analysis and visualization tools that are used to drive and inform decisions as well as engage the public with such things as 3D modelling that can help with the Urban Design process. Through this platform, the public, can access and use tools and City data via the GeoHub and Open Data.

With all three (3) municipalities, as well as the Region of Peel using this same technology, data sharing and integration for such things as the Fire CAD system and the storm water levy are more efficient.

Corporate Implications:

Subject to Council approval to begin the procurement, a continuation of the maintenance and support services for the Esri platform through a new contract will ensure a smooth and uninterrupted operation of the Enterprise GIS and all of its integration points. This will provide the City access to the necessary software, tools, training and support as we continue to further adopt and leverage the technology in daily processes and to support decision making using data and location analytics (i.e. Fire station location analysis; cannabis retail site analysis, etc.)

Purchasing Comments:

Purchasing and DI&IT will enter into negotiations with Esri Canada Inc. to establish a new contract. Upon successful conclusion of the negotiations, purchase approval will be obtained in accordance with the Purchasing By-law.

All communication with Esri Canada Inc. will occur formally through a designated contact in Purchasing.

Financial Implications:

This report is seeking Council endorsement to begin procurement and limited tendering with the selected vendor Esri Canada Inc. The initial term of the contract will be three years, with the option of extending the contract by two additional three year terms. Estimated procurement value for the first three years is \$1,160,000*. Overall procurement value including the two three year optional extensions will be approximately \$3,500,000**.

Future budgetary needs will be identified as part of the annual budget submission, pending Council approval.

Term of Council Priorities:

This report achieves the Priority of a Well-Run City, by providing a cost effective Enterprise GIS technology platform to support City services and operations.

Conclusion:

It is recommended that the Purchasing Agent be authorized to commence procurement through directly engaging Esri Canada Inc. for the Geographic Information System (GIS) maintenance and support services, as described in this report.

Technology Division, Corporate Services (905) 874-2018

Report Number: Corporate Support Services-2021-834

Recommendations:

That the report entitled Annual Public Sector Network (PSN) Update dated July 15, 2021, be received; and Financial Results for 2020 as outlined in Appendix I and PSN Proposed Budget for 2021 as outlined in Appendix II be approved with no impact to the overall City budget.

Overview:

- Since 1999, the City of Brampton has been in a partnership agreement with the Region of Peel, City of Mississauga and Town of Caledon for the development of a fibre optic network known as the Public Sector Network (PSN).
- The PSN now consists of 842 kilometres of fibre that connects 1,031 partner and subscriber facilities, to the benefit of each partner municipality, its citizens and businesses.
- Within the PSN Agreement, revenues are to be applied to offset shared costs for the operation and support of the network, and each partner is required to seek Council approval of the annual PSN operating and financial status reports
- The Reserve Fund balance at the end of 2020 stood at \$822,497 and is anticipated to reach \$852,859 by the end of 2021.

Background:

In June 1999, Council endorsed that the City of Brampton enter into a partnership known as the Public Sector Network (PSN) with the Region of Peel, the City of Mississauga and the Town of Caledon for the development of a fibre optic network. The key principle of the partnership is that each partner is responsible for construction of the fibre optic network within its municipal boundaries. However, spare fibre would be made available for use by the other member partners. The City of Brampton has 274 kilometres of fibre connecting 374 connection points to sites, Zum stations and traffic controllers across the city.

PSN Budget:

The Public Sector Network Agreement requires that each partner submits and obtains approval from its Council of an annual operating report update with the previous year's financial statement and the current year's budget forecast. The PSN Steering Committee decided that the report should first go to the Regional Council and then to the local municipalities of Brampton, Mississauga and Caledon. Region of Peel Council approved its annual PSN operating report on May 27th, 2021.

Appendix I of the subject report includes a Revenue and Expenditure statement for the year ending December 31st, 2020 with commentary on budget variances.

Appendix II of the subject report included the PSN Proposed Budget detailing the proposed allocation of revenues in 2021. In accordance with the PSN Partnership Agreement revenues received from PSN Subscribers are used to offset shared costs incurred for operation and support of the network thereby reducing the partners' cost of ownership.

As noted in these Appendices, PSN incurred a reduction in subscriber revenue in 2020, due to discontinuation by Trillium Hospital of its connection to Mississauga Academy of Medicine. As a result, some of the operating costs previously covered by subscriber revenue will need to be borne by the owners. While some opportunities to generate additional revenue from subscribers are currently being explored, revenue generation is not the primary focus of PSN. While the owners have benefitted from the fact that some of their operating costs have been and will continue to be offset by subscriber revenue, the network generates an estimated ten million dollars in annual savings/cost avoidances for the owners with our without these revenues.

Current Situation:

The following PSN construction and development activity demonstrates the value and success of the partnership that brings benefits to each municipality, citizens and businesses:

- In 2020 PSN reached a milestone connecting the 1,000th municipal site to the PSN network.
- The PSN now consists of 842 kilometres of fibre connecting (almost 50,000 strand kilometers) 1,031 partner subscriber facilities.
- Despite the impact of COVID-19, which limited some PSN activity, PSN continues to expand during 2020:
 - 15 kilometres of new fibre optic cables were installed, representing almost 1,000 new strand-kilometres.
 - Brampton completed operational maintenance during 2020 to ensure network integrity and uptime.
 - Designing and building bypasses (alternate routes) for key sites along the Hurontario corridor, to minimize the risk of service disruptions resulting from the planned Hurontario LRT construction.

- Working with Metrolinx and other affected utilities to plan alternatives to existing overhead GO Rail crossings, which will need to be replaced as part of the planned GO Rail electrification;
- Working with Alectra to relocate PSN fibre from Alectra poles scheduled for replacement.
- Current partner connections include (1,016):
 - City of Brampton (374)
 - o Region of Peel (204)
 - Peel Regional Police (24)
 - City of Mississauga (395)
 - Town of Caledon (19)
- Subscriber connections within the Region include (15):

PSN provides highly reliable service. During 2020, there were 15 incidents where fibre was damaged. Eight of these incidents involved damage caused to buried fibre by contractors digging, despite locate services. Incidents are generally repaired within a few hours. However, since most critical facilities have redundant connections, no loss of service was experienced in many cases. Overall, PSN maintains availability exceeding 99.99 percent for connected sites.

The PSN continues to grow based on the additional needs of the Corporation, other partners and requests from existing or new subscribers. Staff from the Digital Innovation and Information Technology Division meet with counter parts in the Public Works Division regularly to ensure PSN development activities are aligned with the capital budget process, including new facility construction projects and infrastructure redundancy to limit exposure to communications failures resulting from network outages.

Corporate Implications:

Financial Implications:

The recommendations in this report have no direct financial impact on the City of Brampton. Revenues received from PSN subscribers will be used to offset PSN shared operating costs, which would otherwise be borne by PSN partners. Surplus funds in the existing PSN Reserve Fund will be applied as determined by the PSN Steering Committee in accordance with the established agreement. In 2021 the network is estimated to increase the reserve fund by \$30,362 and end the year with a reserve fund balance of \$852,859.

Other Implications:

N/A

Term of Council Priorities:

This report aligns to term of council priority of Brampton is a Well-Run City

Conclusion:

The PSN remains an outstanding example of technological innovation and of the benefits derived by City residents through co-operation and partnership among municipalities within the Region of Peel and with the broader public sector in Peel. Access fees from subscribers to the network are now funding a substantial portion of the shared costs associated with network operations while providing a small surplus for future network operations. City staff continues to participate in this partnership and the continued development of fibre infrastructure to meet the business requirements of the Corporation.

Notes:

- 1a. Trillium no longer required link to Mississauga Academy of Medicine decommisioned in July
- 1b. New Osler connection to McLaughlin Clinic commissioned one month later than planned, due to COVID
- 2. Cable locate costs, generated by construction activity, continue to rise, despite COVID
- 3. Lower level of maintenance activity due to COVID
- 4. Reduced project management costs, due to lower level of activity on network
- 5. Decrease in reserve contribution primarily due to decrease in subscriber (Trillium) revenue
- 6. Reduced requirement for Legal Services support

Recommendations:

Enter your Recommendation Here

- THAT the report titled: Recommendation Report: Direction to enter into Consent Agreements – 2185715 Ontario Inc – 11570 McVean Drive – Ward 10 (Planning, Building and Economic Development-2021-810 and Files B-2020-0012 and B-2020-0013) to the Council Meeting of August 11, 2021, be received, and
- 2. THAT the Mayor and City Clerk be authorized to execute Consent Agreement in Accordance with the Committee of Adjustment decisions (Files B-2020-0012 and B-2020-0013) approving related Consent Applications for 2185715 Ontario Increspecting a property located at 11570 McVean Drive, with content satisfactory to the Commissioner of Planning, Building and Economic Development and in a form acceptable to the City Solicitor; and that staff be authorized to take the necessary steps to implement the terms of the Consent Agreements.

Overview:

• This report recommends that Council direct the Mayor and the City Clerk to execute Consent Agreements in association with Consent Applications B-2020-0012 and B-2020-0013 by 2185715 Ontario Inc. for 11570 McVean Drive. The Committee of Adjustment approved the two Consent Applications on September 8, 2020, each including a condition that the Consent Agreement be entered into.

- The purpose of the applications was to request the consent of the Committee to sever a parcel of land having a total area of approximately 6.30 hectares (15.57 acres). The effect of the applications was to create a lot of approximately 0.30 hectares (0.74 acres) and a lot of approximately 0.29 hectares (0.72 acres). The severances will facilitate a future second residential dwelling, conveyance of natural areas to the west, and an access easement for a future driveway in favour of the adjacent lot. The land will continue to be used for residential purposes.
- The Consent Applications were brought before the Committee of Adjustment and approved on September 8, 2020. Recognizing the need for future access easements to be created across neighbouring properties and the need for financial securities to ensure physical changes to remove an existing access will be completed at such time as requested by the City, Consent Agreements were recommended by Development Services staff. These Consent Agreements will ensure that the owners and the City have in place arrangements for future access planning which would protect the City's interest while still advancing development of the project.

Background:

The property at 11570 McVean Drive is located in the northeast portion of the City, on the west side of McVean Drive and generally between Mayfield Road to the north and Countryside Drive to the south.

Consent applications B-2020-0012 and B-2020-0013 were submitted to facilitate lot division to accommodate a second residential dwelling on McVean Drive and to convey lands with natural areas to be dedicated with development of the lands to the west.

On September 8, 2020, the Committee of Adjustment approved the Consent Applications. Due to the need for access easements to be created across neighbouring properties and the need for financial securities to ensure physical changes to remove an existing access at such time as requested by the City, staff recommended and the Committee of Adjustment imposed the conditions requiring the Consent Agreements. Staff is of the opinion that a Consent Agreement is an appropriate means to protect the City's interests while advancing the development of the project.

Current Situation:

This Recommendation Report seeks Council's direction to authorize the Mayor and City Clerk to execute the Consent Agreements. This authorization is required to enable the Consent Agreements to be executed and the related condition to be cleared, allowing the consent certificates to be issued to facilitate the proposed severances.

Corporate Implications:

Financial Implications:

There are no financial implications associated with this request to enter into a Consent Agreement. The consent agreement will require the property owner to bear responsibility for costs associated with future requests as made by the City as needed.

Other Implications:

There are no Corporate implications associated with this request to enter into a Consent Agreement.

Term of Council Priorities:

This report is consistent with the "City of Opportunities" priority by cultivating economic growth and investing in new infrastructure efficiencies and attracting investment.

Conclusion:

By entering into a Consent Agreement, the City will be able to protect the City's long-term interests while still advancing the development proposal.

Recommendations:

That the applications be formally approved in the following order: B-2020-0012, A-2020-0065, B-2020-0013, A-2020-0066.

That applications A-2020-0065 and A-2020-0066 are supportable, subject to the following conditions being imposed:

- 1. That the extent of the variances be limited to that shown on the sketch attached to the Public Notice;
- 2. That related consent applications B-2020-0012 and B-2020-0013 be approved; and,
- 3. That failure to comply with and maintain the conditions of the Committee shall render the approval null and void.

AND That applications B-2020-0012 and B-2020-0013 are supportable, subject to the following conditions being imposed:

- 1. That related applications A-2020-0065 and A-2020-0066 be approved;
- 2. The Secretary-Treasurer shall have been satisfied that the following conditions have been fulfilled within one year of the mailing date noted below and the Secretary-Treasurer's Certificate under the Planning Act shall be given:
 - a. A Secretary-Treasurer's certificate fee shall be paid, in the amount current at the time of the issuance of the Secretary-Treasurer's Certificate; and

- b. Approval of the draft reference plan(s), as applicable, shall be obtained at the Committee of Adjustment office, and; the required number of prints of the resultant deposited reference plan(s) shall be received.
- 3. That the Owner is to convey, at the Owner's expense, a 7.85 metre right-of-way widening along with the associated temporary grading easements and permanent easement for storm outfall, to the City along the entire frontage of McVean Drive from both the retained and severed lands, to the City to the satisfaction of the Commissioner of Public Works and Engineering. For lands that are being conveyed to the City fee simple they are required to be conveyed free of all encumbrances and for the easements that are being conveyed to the City, they are to be in priority to all other encumbrances, to the satisfaction of the Commissioner of Public Works and Engineering.
 - a. Approval of the draft reference plan(s), illustrating the parts for the conveyances referred to in Condition #3, and the consents that have been granted by the Committee of Adjustment for this application shall be obtained at the Committee of Adjustment office, and; the required number of prints of the resultant deposited reference plan(s) shall be received.
- 4. The access easements approved by the Committee of Adjustment will be in perpetuity and will be to the satisfaction of the City's Legal Services Division, Corporate Services Department and the Commissioner of Public Works and Engineering.
- 5. That prior to the issuance of the Certificate of the Secretary-Treasurer, the Owner be required to enter into a Consent Agreement for the severed and retained lands, which Consent Agreement shall be registered on title to the lands subject to the application in priority to all other encumbrances, all to the satisfaction of the Commissioner of Planning, Building, and Economic Development Services and the City Solicitor. The Consent Agreement shall generally include provisions including but not limited to, the following:
 - a. That the Owner of both the retained and severed lands agree to obtain site plan approval from the City, if there are any changes to the current design and/or location of access(s) to McVean Drive.
 - b. Upon request of the City, the Owner of both the retained and severed

lands shall agree to provide an access easement in favour of the property(ies) to the north possibly including the severed lands, 11636 McVean Drive and 11762 McVean Drive, to the satisfaction of the City. The Owner acknowledges this will require an attendance before the Committee of Adjustment and that they will be responsible for all costs associated with obtaining this easement, unless other arrangements are agreed upon with the owners benefitting from the easement. Upon that easement being obtained, the access to McVean Drive from the lands conveying the easement may be permanently closed at the discretion of the City.

- c. Upon request of the City, the Owner of both the retained and severed lands shall agree to provide an access easement in favour of the property(ies) to the south possibly including the severed lands, 11570 McVean Drive and 11518 McVean Drive, to the satisfaction of the City. The Owner acknowledges this will require an attendance before the Committee of Adjustment and that they will be responsible for all costs associated with obtaining this easement, unless other arrangements are agreed upon with the owners benefitting from the easement. Upon that easement being obtained, the access to McVean Drive from the lands conveying the easement may be permanently closed at the discretion of the City.
- d. The Owner provide the securities requested by staff based on the cost of removing the access to McVean Drive and reinstating the boulevard.
- e. The Owners of the severed and retained lots are responsible for restoring the boulevard, at the Owner's expense, to the satisfaction of the City, if one of the accesses to McVean Drive on the retained or severed lots is closed.
- f. The Owner agrees and covenants that it will register and convey the access easement that it applied for in this application at the same time that the Severed and Retained lands are legally created to the satisfaction of the Commissioner of Planning, Building, and Economic Development Services.

Background:

A previous severance approval was granted by Committee to allow severance application B-2019-0023 for this property. The application proposed to split the subject property into two parts: one residential lot and an environmental lot to be merged with lands to the south that are currently subject to an application for Draft Plan of Subdivision.

The new series of related applications propose to create three parts: two residential lots and an environmental lot to be developed in conjunction with a subdivision to the south.

Existing Zoning:

The property is zoned "Residential Estate Holding (REH)" according to By-law 270-2004, as amended.

A-2020-0065 Requested Variances:

The applicant is requesting the following variances:

- 1. To permit a minimum lot width of 42.5 metres whereas the by-law requires a minimum lot width of 45 metres;
- 2. To permit a minimum lot area of 0.29 hectares whereas the by-law requires a minimum lot area of 0.8 hectares.

A-2020-0066 Requested Variances:

The applicant is requesting the following variance:

- 1. To permit a minimum lot width of 42.5 metres whereas the by-law requires a minimum lot width of 45 metres;
- 2. To permit a minimum lot area of 0.29 hectares whereas the by-law requires a minimum lot area of 0.8 hectares.

Requested Severances:

The applicant is requesting the following severances:

- 1. (B-2020-0012) Consent to sever a parcel of land currently having a total area of approximately 6.30 hectares (15.57 acres). The effect of the application is to create a lot having a frontage of approximately 42.5 metres (139.44 feet), a depth of approximately 73.1 metres (239.83 feet) and an area of approximately 0.30 hectares (0.74 acres), together with an access easement for a future driveway in favour of Lot 'A'. The land will continue to be used for residential purposes.
- 2. (B-2020-0013) Consent to sever a parcel of land currently having a total area of approximately 6.30 hectares (15.57 acres). The effect of the application is to create a lot having a frontage of approximately 42.5 metres (139.44 feet), a depth of approximately 63.3 metres (207.68 feet) and an area of approximately 0.29

hectares (0.72 acres) together with access easements for a future driveway in favour of the retained lands.. The land will be used for future residential purposes.

Minor Variances:

1. Conforms to the Intent of the Official Plan

The property is designated "Residential" and "Open Space" in the Official Plan and "Executive Residential" in the Vales of Humber Secondary Plan (Area 50). The Executive Residential policies within the Secondary Plan provide that lands within the "Executive Residential" designation shall be developed with a variety of wide frontage (50-80 foot) single detached lots. The requested variances are consistent with these policies. Subject to the recommended conditions of approval, the requested variances are considered to maintain the general intent of the Official Plan.

2. Conforms to the Intent of the Zoning By-law

The property is zoned "Residential Estate Holding (REH)" according to By-law 270-2004, as amended.

The requested variances are required to facilitate the severance of the lands into three pieces, including two residential lots. The intent of the by-law in regulating minimum lot size and width is to ensure that the size of the property is appropriate for its proposed use and the surrounding neighbourhood.

The proposed reduced minimum lot widths and areas are anticipated to provide sufficient room for the proposed residential uses of the properties. On the severed parcel, an appropriately sized dwelling given the character of the neighbourhood can be constructed while complying with the zoning by-law, and the existing dwelling is proposed to remain unchanged.

Subject to the recommended conditions of approval, the requested variances are considered to maintain the general intent of the Zoning By-law.

3. Desirable for the Appropriate Development of the Land

The requested variances and their associated consent application will facilitate the division of the property for the purposes of constructing a second residential dwelling, and for conveyance of lands to be partially developed and partially dedicated as a natural area, in conjunction with an active subdivision application to the south of the subject property.

The proposed variances will allow the creation of two large lots that will utilize only one existing access onto McVean Drive to ensure that traffic on McVean is not negatively impacted by constructing an additional access.

Further, surrounding the subject property a significant amount of residential development has taken place. The proposed reduced lot sizes are still much larger than those in nearby developments, adding to the Executive Residential character of this

portion of the street.

Subject to the recommended conditions of approval, the requested variances are considered to be minor in nature.

4. Minor in Nature

The proposed variances to permit reduced lot areas and depths are requested in conjunction with two associated severance applications. Due to the limits of development, the reduced size of the residential properties to be created are appropriate based on the fact that nothing could be constructed within the extended area of the property. The requested reductions in permitted lot width still fall within the permitted lot widths for the Executive Residential character of the area. Subject to the recommended conditions of approval, the requested variances are considered to be minor in nature.

Consent Applications:

Staff has undertaken a thorough review of this proposal, relative to the provisions prescribed within Section 51(24) of the Planning Act (as summarized on Schedule "A" attached to this report), and advise that the proposed consent applications are considered to represent proper and orderly planning and can be supported from a land use perspective.

Respectfully Submitted,

Shelby Swinfield

Shelby Swinfield, Planner I, Development

SCHEDULE "A" CRITERIA TO BE CONSIDERED UNDER SECTION 53(12) & 51(24) OF THE PLANNING ACT

	Criteria To Be Considered	Analysis
a)	The effect of development of the proposed subdivision on matters of provincial interest:	The proposed severances have no significant effect on matters of provincial interest.
b)	Whether the proposal is premature or in the public interest;	The proposed severances are neither premature nor contrary to any matters of public interest.
c)	Whether the plan conforms to the official plan and adjacent plans of subdivision, if any;	The proposed severances do not present any concern with regard to the Official Plan and will facilitate the completion of an adjacent plan of subdivision.
d)	The suitability of the land for the purposes for which it is to be subdivided;	There are no concerns about the suitability of the land for the purposes of the severances.
e)	The number, width, location and proposed grades and elevations of highways, and the adequacy of them, and the highways linking the highways in the proposed subdivision with the established highway system in the vicinity and the adequacy of them;	The proposed severances do not present any concern with regard to the adequacy of the roadway network.
f)	The dimensions and shapes of the proposed lots;	The proposed lots to be created are appropriate in size and shape for their purpose. Two associated minor variance applications are also submitted for the Committee's consideration relating to permitting a reduced lot width and area.
g)	The restrictions or proposed restrictions, if any, on the land proposed to be subdivided; or the buildings or structures proposed to be erected on it and the restrictions, if any, on adjoining land;	No concerns are noted with regard to restrictions on the lands included in the lands to de subdivided.
h)	The conservation of natural resources and flood control;	The proposed severances present no concerns with regard to flood control and the conservation of natural resources. The Toronto and Region Conservation authority have previously identified the limit of development for the property and

		the proposed severances are consistent with those boundaries.
i)	The adequacy of utilities and municipal services;	There are no concerns with regard to the adequacy of utilities and municipal services.
j)	The adequacy of school sites;	The proposed severance presents no concerns with regard to the adequacy of school sites.
k)	The area of land, if any, within the proposed subdivision that, exclusive of highways, is to be conveyed or dedicated for public purposes;	There are no concerns related to conveyances for public purposes. Conditions of approval are recommended relating to conveyance of right of way for McVean Drive.
1)	The extent to which the plan's design optimizes the available supply, means of supplying, efficient use and conservation of energy	The proposed severances have no impact on matters of energy conservation.
m)	The interrelationship between the design of the proposal and site plan control matters relating to any development on the land, if the land is also located within a site plan control area designated under subsection 41(2) of this Act.	There are no concerns related to the design of the proposal and matters of Site Plan Control. A condition of approval is recommended that a site plan application be submitted to allow the applicant to work with Traffic staff to design a satisfactory access to McVean Drive.

- 2. THAT Council approve a new City-established Downtown Office (now considered Downtown Action Hub) to facilitate strategic planning and coordinate with maintenance and operation efforts, marketing and communication, business support, and community outreach relating to the Integrated Downtown Plan, Downtown infrastructure improvements and economic revitalization efforts:
- 3. **THAT** Council approve two permanent full time staff resources (Downtown Coordinator and Downtown Principal Planner/Senior Supervisor) dedicated to support the Downtown Office (now considered Downtown Action Hub) for a total budget of approximately \$266,000; and,
- 4. **THAT** an additional two permanent full time staff resources (Downtown Economic Development Officer and Downtown Planner 1) be included in the 2022 proposed budget for a total budget of approximately \$234,000, pending Council approval.

Overview:			

- Regional Council voted on May 27th, 2021 to complete the Region of Peel's interim water and wastewater works as approved by Regional Council in July 2020, including City's roadworks that was approved by City Council in July 2020.
- Construction of the City's roadworks and Region's water and wastewater works is anticipated, by the Region, to commence in late September 2021 and be completed by summer 2023.
- At the June 2nd 2021 Council meeting, Council passed a motion to report on next steps for the establishment of a City managed Downtown Office (now considered Downtown Action Hub) that would support the Integrated Downtown Plan (IDP) and all its various components and external partners.
- At the July 7th, 2021 Council Meeting, Staff are asked to report back to Council over the next several weeks and expedite the creation of a Downtown Office (now considered Downtown Action Hub) and Downtown Coordinator position.
- This report recommends approval of a Downtown Action Hub and a complement of resources that are generally proportional to the public and private and private investment approved and/or anticipated for the downtown.
- It will be the responsibility of the Downtown Action Hub to help foster and enhance relationships with downtown stakeholders (businesses and residents) and internal/external departments; mitigate service interruptions as a result of construction; and to attract a variety of new investments to the downtown.
- The Downtown Action Hub is proposed to provide physical and virtual accessibility and ongoing support to businesses and residents. The Downtown Action Hub will help build, foster, and enhance relationships with Downtown stakeholders, including the residents, businesses, potential investors, Downtown Brampton Business Improvement Association (DBBIA), board of trade and others.

Background:

The Integrated Downtown Plan (IDP) conceived as an action plan to coordinate and align ongoing City initiatives, developments, and infrastructure projects launched in Q1 of 2021.

A Downtown Action Hub will facilitate and implement the vision through strategic planning, coordinated operations, business promotion and community outreach.

On May 27, 2021, Regional Council voted to complete the Region of Peel's water and wastewater works. The critical infrastructure upgrades in Downtown Brampton are being tendered by the Region of Peel have an anticipated construction start date in late September 2021. The City and Region are currently finalizing the construction contract documents for the roadworks, water and wastewater works on Main Street from Wellington Street to Nelson Street West and on Queen Street from Mill Street South to Chapel Street.

Staff received Council direction on June 2, 2021, to report back on possible options, budget and next steps to establish a City-managed Downtown Office, now considered "Downtown Action Office".

Integrated Downtown Plan:

Council has prioritized the need to unlock Downtown Brampton's potential – advocating change and securing the City's future. The IDP will adhere to the guiding principles of inclusivity, innovation and sustainability. As a roadmap for action, the IDP will serve to coordinate Downtown Brampton's many ongoing initiatives, programs, and infrastructure projects while providing an evolving framework to guide future growth and strategic investment in Downtown Brampton.

The IDP focuses on achieving mutually beneficial objectives between projects - defining necessary actions to help advance short, medium and long-term solutions. The IDP, as a project management framework, brings internal alignment to City projects - leading the coordination of capital works and cross-departmental initiatives in the Downtown (such as: public realm streetscape improvements, the Transit Hub, Hurontario-Main future LRT expansion, Innovation District, Centre of Innovation, Heritage Theatre Block revitalization, and Cyclepath property revitalization). The proposed Downtown Action Hub will provide a central location for robust engagement and will continue to provide a physical space for cross-departmental coordination and collaboration to build on all the public and private investments coming to Downtown.

Downtown Action Hub:

The Downtown Action Hub will support the IDP actions including "Meanwhile" strategies and economic revitalization, serving to keep residents, business owners, and groups, like the DBBIA, aware of progress and assist with alleviating construction concerns. The physical space dedicated for Downtown Action Hub activities will provide residents and businesses a point of contact to remain informed of all Downtown initiatives. The Downtown Action Hub will be overseen by Economic Development and City Planning and Design.

The public facing area located within the Economic Development Office (EDO) on the main floor and entrance of City Hall is being considered as the physical location for the Downtown Action Hub. The Hub space will be highly visible, designed and branded to support Downtown Action with an inviting entranceway, windows for showcasing colorful posters, collaborative informal meeting areas, flexible work areas, a meeting room, and direct access to City Hall's atrium for hosting larger dynamic public events. The "vibe" will be one of activity, enthusiasm, dedication, and accountability to the Downtown and its many stakeholders.

The majority of City staff are currently working virtually from home as a result of the COVID-19 pandemic. With the available technology this has proven to be surprisingly effective and resilient in managing work, coordinating meetings, and advancing projects and initiatives. The acceleration of virtual work and business is one of the most disruptive aspects of the pandemic and as we transition into a post-COVID world a "new normal" of both virtual and physical work spaces is very likely. In this context the Downtown Action Hub should also consider a strong virtual presence and work with the business community organizations such as the DBBIA to build this presence through IT tools for such infrastructure. The continued planning and phasing of the physical and virtual Downtown Action Hub will ensure that this balance is achieved.

The Downtown Action Hub will be used by all City Departments, the Region, and Downtown-focused organizations. The meeting space will serve to build relationships with the business and resident community by facilitating collaboration, engagement, and the exchange of information for Downtown issues, projects and initiatives. It will be open and readily accessible to the public and can operate during peak hours with flexible staff scheduling to accommodate a daily and variable project and special event driven workflow. Additionally, the Downtown Action Hub will provide bookable space for off-hour City-related business meetings that can be open to organizations supporting the Downtown revitalization vision.

The initial fit-out would include flexible co-working and hot-desking space for the various new/modified Downtown revitalization roles, such as: Downtown Principal Planner and Coordinator, as well as the Region's Infrastructure Ambassador. This Hub space will have the capacity to adapt as the range of initiatives in the Downtown gain momentum.

The Downtown Action Hub will assist EDO and DBBIA work to support existing Downtown businesses and attract new ones. It will serve as the physical point of contact for collaboration for the DBBIA in its relationship with municipal and regional government. Co-locating the Downtown Action Hub with the Economic Development Office and the creation of Economic Development driven positions will ensure that the City is available and well-resourced to support business attraction, retention, and entrepreneurship. The Action Hub will also facilitate strategic collaboration and public engagement on the City's future plans and initiatives in the Downtown. Consultation with the City's Facilities Operations and Interior Design Services are underway to finalize the design and arrange for furniture installations.

The Construction Site Office for the Region's upcoming construction project is separate and distinct from the proposed Downtown Action Hub. The Construction Site Office will be used only by the contractor for their administrative and storage needs. The Construction Site Office falls under the contractor's obligations for general maintenance, health and safety for the 2-year construction period. Only the Region's and City's project-related personnel will have access to the Site Office and there will be no public access.

Immediate Resourcing (Stage 1)

Phase 1 is anticipated to commence immediately upon staff mobilization. The IDP Team along with other City departments have been collaborating to align existing internal resources to leverage and advance the initiatives in the Downtown by diverting resources appropriately. As a result, two additional permanent full time positions are being requested to support the program. In addition, Regionally funded positions were created including an Ambassador from the Region for the infrastructure upgrades and additional field positions as part of the Welcoming Streets pilot project. The DBBIA Liaison position was created, and will be supported by the City's Inspector and Public Works and Engineering staff. This is in addition to the Region's consultant who will be administrating the construction contract.

These positions, described below, are essential to mobilizing the Downtown Action strategy with the business community and aligning it with the immediate and long-range growth and major capital initiatives over the next five to ten years.

a) Downtown Coordinator

The Downtown Coordinator will assist local businesses, the DBBIA, resident associations, and elected officials to direct their queries to the appropriate City Departments. The Downtown Coordinator will troubleshoot maintenance, safety, and operational issues in the Downtown. Issues flagged by the Downtown Coordinator will be escalated following a clear and coordinated process with City departments or to the Downtown Area Working Group (DAWG).

DAWG is a cross functional technical staff group focused on the identification and resolution of operational and maintenance issues in the Downtown Area. Stakeholder meetings organized by external organizations and internal departments will be attended by the Downtown Coordinator. 311 calls – pertaining to operations and maintenance – will be directed through the Downtown Coordinator to ensure relevant issues have been effectively addressed. The Downtown Coordinator will stay informed about all City of Brampton and Region of Peel initiated capital projects impacting the downtown area and will work closely with City staff to assist with the communication and implementation of the IDP. It is important to note that businesses, landlords, and residents should continue to use 311 as a key communication tool with the City. The Downtown Coordinator will work closely with 311 staff, but it is not a replacement for this important resource.

b) <u>Downtown Principal Planner/Senior Supervisor</u>

Council has prioritized the need to unlock Downtown Brampton's potential through a strategic approach – advocating change and securing the City's future. The Downtown Principal Planner is the lead for the IDP and Downtown strategy. They are also a crucial point-of-contact for all downtown projects. The Downtown Principal Planner will work closely with the Downtown Coordinator and ensure operational considerations are addressed strategically. The Downtown Principal Planner will hot-desk at the Downtown Action Hub along with members of the IDP core team.

c) <u>DBBIA Liaison – Strategic Communications (existing position):</u>

A BIA Liaison staff position has already been created internally. With the expansion of the Downtown Action Hub the BIA Liaison will have opportunities to hot-desk and co-work in the Hub. They will serve as a crucial point of contact for developing and implementing communication strategies for the ongoing Downtown work and developing a streamlined one-window administrative approach to Downtown programs and approvals through the IDP

d) <u>Staff – City's Public Works and Engineering (existing):</u>

A City Construction Inspector will be available during the upcoming Region-led water and wastewater replacement construction. This Inspector will provide quality assurance for any City owned infrastructure. The DBBIA Liaison will have a close working relationship with the City Inspector and all relevant Public Works and Engineering Staff.

e) <u>Ambassador - Region's Public Works and Engineering Project (budgeted Regional position):</u>

The Region has indicated their Project Ambassador will be available full-time at the Downtown Action Hub during the upcoming construction for the Region's works until the end of the construction. The Ambassador will serve as the Region's representative to the public - communicating updates and dealing with all concerns arising from the water and wastewater replacement project and associated roadworks.

f) Welcoming Streets Pilot Program (new Regionally Funded positions)

Regional Council approved the City's June 10, 2021 report, "Creating a Welcoming Streets Pilot Program for Brampton". The Region of Peel is providing up to \$250,000 for this pilot program. The intent of Welcoming Streets is to promptly respond to businesses' concerns about the activities arising from loitering in downtown Brampton as well as concerns of community safety, littering on private property, and graffiti. The Downtown Action Hub will provide

"Welcoming Streets" staff a regular place to meet with stakeholders and senior leadership. Based in Downtown Brampton, program staff would act as liaisons between the vulnerable and downtown stakeholders to build trusting and effective relationships over time.

Additional Resources (Stage II)

Additional resources will be considered through the annual 2022 budget process, pending Council approval. These positions will ensure that the growth and development vision and key capital projects such as the high order transit initiatives (GO Station, LRT, BRT, and Transit Hub), Center for Innovation, and Heritage Theatre remain on track. Some of the key positions that the Department is considering include a level one Downtown Planner and a Downtown Economic Development Officer.

a) <u>Downtown Economic Development Officer (1 new position)</u>:

The City's Downtown would benefit from a dedicated Downtown Economic Development Officer to attract new investment, businesses, and development by the private sector to complement and build on the public infrastructure investments taking place in Downtown Brampton. The Downtown Economic Development Officer would report to the Director of Economic Development. The Downtown Economic Development Officer will liaise with landlords, businesses, and residents to keep them apprised of programs, initiatives, and events that may impact their day-to-day activities.

The Economic Development Officer will also attend formal and information meetings with the DBBIA and BBOT to provide input and receive feedback on various City initiatives involving the Downtown including BIA Board and subcommittee meetings. This individual will support business attraction and retention of key industries including, but not limited to, retail, restaurants, personal and professional services, hotels and other complementary investments that will support the anticipated population, employment and student growth. The Economic Development Officer will support the future growth and strategic investment portfolio of Downtown Brampton. The work not only includes promoting Peel Memorial Hospital expansion (given the economic spin-offs anticipated with this project), but working closely with the City's Innovation District partners by supporting graduating businesses and attracting other investments to support their growth. This position will be the voice advocating for businesses and investment in the downtown working collaboratively with City departments and agencies.

b) Downtown Planner I (1 new position):

The Downtown Planner will support matters related to the Downtown community, ongoing initiatives and future planning of the Downtown. The role

may function as a branch resource in areas of specialization and undertake studies on an individual basis or as part of the IDP team.

Corporate Implications:

Economic Development Implications:

The number of public infrastructure initiatives and associated funding intersecting the Downtown and surrounding area will generate a substantial amount of economic activity. The Downtown Action Hub will help realize and sustain economic activity so the City can leverage public dollars to the fullest extent possible. Downtown revitalization will only occur if the private sector remains engaged and willing to invest in the downtown. The Downtown Action Hub and related positions will work with existing businesses and residents to navigate any interruptions from construction; and will be dedicated to bringing new businesses and investment to the downtown.

Time is money. There is clear economic benefits to establishing a Downtown Action Hub. By maintaining an ongoing, two-way communication between businesses, the BIA, resident associations and the City there are less opportunities for issues to arise due to coordination oversight. The Downtown Action Hub ensures the successful coordination and synergy for all Downtown events and initiatives as well as streamlined administrative processes.

Financial Implications:

The total financial consideration for this initiative is approximately \$524,925. The operating impact is a total of \$500,000 which equates to a 0.1% property tax increase. The capital costs are approximately \$24,925.

The initiative immediately requires two permanent full time positions which includes a Downtown Coordinator and Principal Planner/Senior Supervisor for a total of \$266,000 (inclusive of salary, benefits, WSIB and staff costs). The financial impact will be incorporated in the 2022 budget through a compensation adjustment, pending Council approval.

Two new staff requests for the Downtown Economic Development Officer and Downtown Planner, requiring a total budget of \$234,000 (inclusive of salary, benefits, WSIB and staff costs) will be identified as part of the 2022 proposed budget submission, pending Council approval.

Request	Staff Request	Total*
Downtown Coordinator	2021	\$117,000
Principal Planner/Senior Supervisor	2021	\$149,000
Downtown Economic Development Officer	2022	\$117,000
Downtown Planner 1	2022	\$117,000
	TOTAL	\$500,000*

^{*}Total is inclusive of salary, benefits, WSIB and staff costs

The capitals costs for the refurbishment of the existing office space is approximately \$24,925. Sufficient funding is available from the following funding source:

Project #	Budget Available	Estimated Cost	Remaining Budget
201900-008	\$24,925	\$24,925	\$0

Any additional funds required will be requested as part of the 2022-2024 Budget Submission, pending Council approval.

Other Implications:

There are no other implications in this Report.

Next Steps:

Following the endorsement of these Recommendations by Council, City staff will begin work on immediate action items as described in this Report. Explore a branding and communication strategy for the Downtown Action Hub that aligns with all Downtown initiatives and the IDP.

Conclusion:

This Report supports the Terms of Council Priorities ensuring Brampton is constantly "improving day-to-day operations by streamlining service delivery, effectively managing municipal assets, and leveraging partnerships for collaboration and advocacy." The Downtown Action Hub will support the IDP team in coordinating and implementing many of Downtown Brampton's ongoing initiatives and infrastructure projects.

Subject: Site Specific Amendment to the Sign By-Law 399-2002, as

amended, 2514682 Ontario Inc, 3455 Queen Street East - Ward

8

Contact: Elizabeth Corazzola, Manager, Zoning and Sign By-law Services,

Building Division, 905-874-2092, elizabeth.corazzola@brampton.ca

Report Number: Planning, Bld & Ec Dev-2021-838

Recommendations:

 That the report titled: Site Specific Amendment to Sign By-Law 399-2002, 2514682 Ontario Inc, 3455 Queen Street East – Ward 8, to the Planning & Development Committee meeting of July 26, 2021, be received; and

2. That a by-law be passed to amend Sign By-law 399-2002, as amended, to permit the proposed site-specific amendment.

Overview:

- An amendment to the Sign By-law has been requested to permit Four (4) top storey wall signs each located on separate elevations. Whereas, the Sign By-Law permits a hotel to have a maximum of two (2) top storey wall signs each located on separate elevations.
- The Hyatt Place is a 6 storey hotel, located on the south side of Queen Street East, mid-block between Auction Lane and Goreway Drive.
- Staff are generally supportive of the proposed site specific amendment and recommend approval.

Background:

The Hyatt Place is a 6 storey hotel that is currently under construction and will be holding their grand opening in November of this year. The building is located on Queen Street East, mid-block between Auction Lane and Goreway Drive. A permit has been

issued for two (2) of the four (4) proposed top storey signs as they comply with the sign By-law.

Current Situation:

The Hyatt Place has requested permission to install a total of four (4) top storey signs, each located on separate elevations. The two signs located on the larger elevation shall have an area of 15.45m² and the signs on the shorter elevations shall have an area of 6.16m². The following table identifies the percentage of wall area associated with each top storey sign:

	Proposed Top Storey Sign Area	Elevation Wall Sign Area	Top Storey Sign Area % of Wall Area
North Elevation	15.45m²	1215.22m ²	1.3%
South Elevation	15.45m²	1215.22m ²	1.3%
East Elevation	6.16m ²	446.86m ²	1.4%
West Elevation	6.16m ²	446.86m ²	1.4%

In addition to the permitted wall signage, the Sign By-law permits two (2) additional signs each on separate building wall faces may be permitted on an office building, school or hotel two or more storeys in height. These additional signs shall be located only on the top storey but shall be contained below the roof line of the building. The two (2) additional signs shall not exceed a maximum of 2% of the building wall face area or 30m², whichever is less. None of the proposed signs exceed the maximum 2% of the wall face area and all are well below the 30m² threshold.

As part of the comprehensive Sign By-law review, staff have identified the limit of two (2) top storey signs as overly restrictive and will include a revision in the upcoming By-law to allow one (1) top storey sign on each elevation of a building to a maximum four (4) top storey signs.

Staff have also considered that patrons of the hotel may not be local citizens resulting in the need for additional visibility for passing motorists, as a result staff find the requested two (2) additional signs appropriate and recommend approval.

Corporate Implications:

Financial Implications:

There are no financial implications associated with this report.

Other Implications:

Staff of the Urban Design Section have no concerns with the proposed amendment

Term of Council Priorities:

This report is consistent with the "A City of Opportunities" theme. Approval of this request is consistent with the priority of attracting investment and employment.

<u>Living the Mosaic – 2040 Vision</u>

This Report has been prepared in full consideration of the overall Vision that the people of Brampton will 'Live the Mosaic'.

Conclusion:

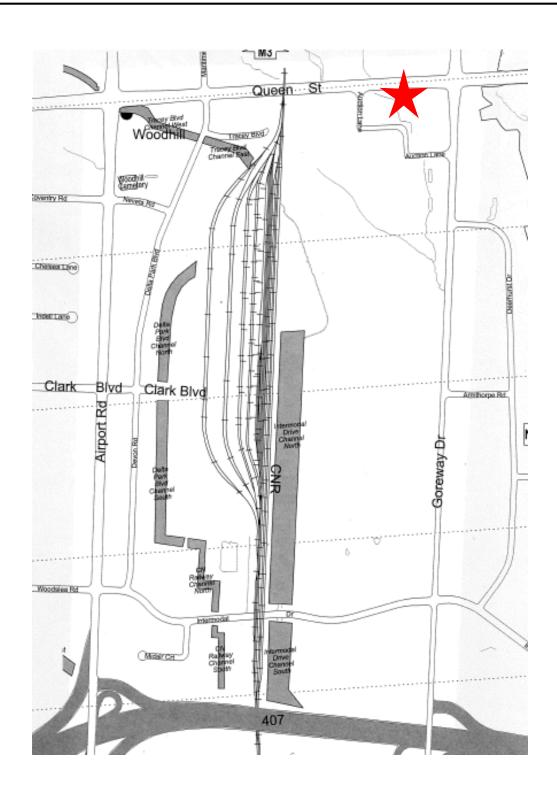

The proposed top storey signage will provide effective building identification to patrons by allowing additional visibility for passing motorists. Furthermore, staff have identified the current maximum of two (2) top storey signs as overly restrictive and plan to propose an increase to four (4) top storey signs as part of the upcoming comprehensive Sign By-law review. Staff are supportive of the proposed site specific amendment and recommend approval of a total of four (4) top storey signs, each located on separate elevations. The signs on the north and south elevations having an area of 15.45m², and the signs on the east and west elevations having an area of 6.16m².

Subject: Fire Station 214 and Peel Regional Paramedic Service Satellite

Station - Budget Amendment

Contact: Isaac Kedida, Project Manager, Building Design and Construction,

Public Works & Engineering,

PH: 647-244-8567 Isaac.Kedida@brampton.ca

Report Number: Public Works & Engineering-2021-865

Recommendations:

 THAT the report titled "Fire Station 214 and Peel Regional Paramedic Service Satellite Station - Budget Amendment" dated 2021-07-26, to the August 11, 2021 Meeting of Council be received,

2. That a budget amendment be approved for project #182530-003 – Fire Station 214 and Peel Regional Paramedic Service Satellite Station to include a top-up of \$1,900,000; with funding of \$1,425,000 to be transferred from Reserve #91 - Federal Gas Tax and \$475,000 from Account 601305 - Cost recovery – Region.

Overview:

- January 2021 Council passed a resolution that the Purchasing Agent be authorized to begin procurement of a General Contractor to construct Fire Station 214 and Peel Regional Paramedic Service Satellite Station.
- May 2021 A tender was issued to eight pre-qualified General Contractors, following a public Request for Proposal issued by the Purchasing Agent. Seven (7) bids were received (the "May RFP").
- June 2021 Following the bid evaluation process, the lowest compliant bid received was higher than the estimated budget.
- The design and construction industry is experiencing significant and unprecedented cost escalation involving price and schedule volatility. Current market conditions and

project scope improvements have impacted the Project budget.

- This report seeks a budget amendment of \$1,900,000 to award the construction of the new Fire Station 214 and Peel Regional Paramedic Services Satellite Station facility to the lowest bidder from the May RFP.
- The Regional Municipality of Peel has approved adequate funding for the Regional share of costs, including the value of this budget amendment, as per the executed Memorandum of Understanding and the Cost Sharing Agreement to be executed between the City of Brampton and the Regional Municipality of Peel.

Background:

Fire Station 214 serves a growing and developing City.

The new Fire Station 214 will be located on the south side of Bovaird Drive West approximately 500m east of Chinguacousy Road. The station will provide emergency response services to the central west sector of Brampton. The location was chosen as per the need identified in the Council approved Fire Station Location & Apparatus Deployment Study to support the City's growth by providing the required emergency response coverage to the central west sector (Bovaird and Chinguacousy).

In accordance with Regional Council's direction to reduce the overall cost of providing essential emergency services, the Region's Paramedic Services will be co-locating a Paramedics Satellite Station with the Fire Station.

A Memorandum of Understanding outlining the City's and Region's intent to co-locate the Fire Station and Paramedic Station was executed by the City on March 27, 2019, and by Region on April 4, 2019.

The total Council approved Capital Budget for the design and construction of the facility is \$7,000,000.

Council approved \$600,000.00 in the 2018 Capital Budget to initiate land acquisition and design due diligence and further approved \$5,500,000.00 in the 2019 Capital Budget and a further \$900,000.00 in the 2020 Capital Budget, which totals \$7,000,000. The approved budget includes the cost of construction and all other project costs including but not limited to consulting services, furniture, permits and staff recoveries. \$660,000 of the budget has been expended, with a remaining balance of \$6,340,000.

The Region of Peel's portion of the total funding is 25% of design costs and 25% of construction costs. The City will fund the full cost of the project and the Region's portion of the budget will be recovered by the City as outlined in the Memorandum of

Understanding between the City and the Region of Peel and the Cost Sharing Agreement to be executed between the City and the Region of Peel.

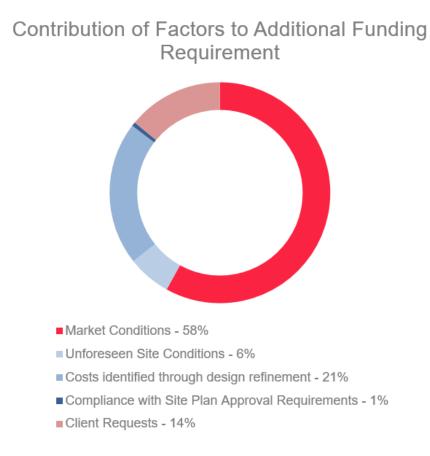

Current Situation:

The Purchasing Agent issued a tender to eight (8) prequalified General Contractors on May 26th, 2021. The tender closed on June 23, 2021. A total of seven (7) bids were received. The lowest compliant bid is \$6,484,000 including \$210,000 in Cash Allowance and excluding taxes and contingencies.

The lowest bid received is higher than the estimated construction cost included in the project budget which was \$4,800,000 including Cash Allowance and excluding taxes and contingencies. It should be noted that the four (4) lowest bids were within less than 3% cost variance.

In addition to the increase in the cost of construction of the new facility, cost increases have been observed in demolition and utility connection fees.

The increase in the required budget can be attributed mostly to market conditions and some project scope improvements, which are detailed as follows:

Market Conditions:

The cost of construction has experienced a high and steady increase since the beginning of the COVID-19 Pandemic. This increase in costs can be attributed to:

- Material and labour shortages due to market pressures as a result of a large volume of projects previously deferred due to the COVID-19 Pandemic proceeding and infrastructure stimulus spending by all levels of government.
- Increased risks to availability of materials and supply chain disruptions. The cost of these risks are reflected in higher General Contractor bids.
- The cost of compliance with COVID-19 related regulations, including reduced productivity due to the implementation of COVID-19 prevention measures on construction sites and direct costs including the cost of Personal Protective Equipment (PPE) needed for COVID-19 prevention.

The impact of market conditions in the additional budget required is \$1,100,000.

These market conditions are expected to persist in the near term and affect the future Fire Station 201 which is expected to be issued for construction tender in the coming months.

Project Scope Improvements:

The project scope has increased due to unforeseen site conditions, additional urban design requirements mandated during the Site Plan Approval process, required changes identified during the design refinement process and Client's requests. These contributing factors are further described as follows:

- Unforeseen Site Conditions
 - Geotechnical investigations identified poor soil conditions that required ground improvement measures to be part of the project's design and construction.
 - Designated substances and contaminated soils were identified during the demolition of existing structures which increased the cost of demolition.
- Costs Identified Through Design Refinement
 - Electrical and data utility connection costs are projected to be higher than budgeted due to distance to tie-in locations.
 - Increase in floor area of the facility due the addition of an accessible washroom at the Peel Paramedic Satellite Station; side by side ambulance bay instead of a tandem ambulance bay; general increases in room and circulation space areas following detailed design analysis and increase in sizes of mechanical, electrical and I.T. rooms following equipment selection. As a result, the gross floor area of the facility has increased by approximately 70 sq. m or 750 sq. ft. compared to the area used to establish the original project budget.
- Compliance with Site Plan Approval Requirements

 Additional decorative fencing requested by Planning / Urban Design had to be incorporated in the design to be granted Site Plan Approval, which resulted in increased costs.

Client Requests

- The project budget was based on a rack system for drying firefighting hoses.
 The Client advised that, due to health and safety concerns, a separately vented Hose Tower is required for drying hoses.
- The Client requested that concrete driveways are provided along the travel path of firetrucks to avoid premature failure of asphalt paving.

The impact of scope improvements in the additional budget required is \$800,000.

In total, the factors described above, resulting in increased project costs will require \$1,900,000.00 in additional project funding.

Corporate Implications:

Legal Implications:

Aside from making a decision on whether to cancel this project or approve a budget amendment based on the current project requirements and market pricing, as outlined in this Staff Report, because this an active procurement section 3.1 of the Purchasing Bylaw otherwise applies and provides that Council shall have no involvement in specific procurements until a contract has been entered into.

Purchasing Comments:

See Legal Implications.

Financial Implications:

Subject to Council approval of the recommendation # 2, a budget amendment will be required to increase capital project #182530-003 – Fire Station 214 and Peel Regional Paramedic Service Satellite Station in the amount of \$1,900,000; with funding of \$1,425,000 to be transferred from Reserve #91 - Federal Gas Tax and \$475,000 from Account 601305 - Cost recovery – Region, as per the executed MOU and the Cost Sharing Agreement to be executed between the City of Brampton and the Regional Municipality of Peel.

The 2021 Budget included approval of a 3-year capital program and funding plan, which maximized the allocation of anticipated funding availability across planned projects. With respect to Reserve 91 – Federal Gas Tax, the Federal Government announced a one-time doubling of the annual allocation to Brampton in 2021, which is estimated to result in an additional \$34 million above the amount expected at the time of developing the 2021 budget.

Given this increase in funding, there is sufficient funding in Reserve 91-Federal Gas Tax to proceed with this initiative without impacting the forecasted capital program.

Term of Council Priorities:

This report supports the Term of Council Priorities and the 2040 Vision.

<u>Brampton is a Green City</u>: Fire Station 214 is designed to achieve a low overall total energy density index that will contribute to the City of Brampton's increasing family of sustainable infrastructure projects, helping to realize the sustainability goals of The Brampton 2040 Vision.

Brampton is a Safe & Healthy City: Fire Station 214 will provide emergency response services to the central west sector of Brampton, positively impacting emergency response times and thereby improving the safety of the City's residents.

<u>Brampton is a Mosaic</u>: This project will allow for the implementation of elements of universal design strategies in tandem with the City's Accessibility Technical Standards to serve visitors of the Fire Station.

Conclusion:

This report is seeking a budget amendment of \$1,900,000.00 to address identified cost shortfalls, and to proceed with issuing a Purchase Order to a General Contractor. It is recommended that Council approve this Budget Amendment, failing which, the construction of Fire Station 214 and Peel Regional Paramedic Satellite Station facility cannot proceed.

Subject: Brampton Tennis Clubhouse - Budget Amendment and Request to

Begin Procurement

Contact: Dawn Walsworth, Project Manager (Acting), Building Design and

Construction, Public Works & Engineering, 416-606-1911

Dawn.Walsworth@brampton.ca

Report Number: Public Works & Engineering-2021-861

Recommendations:

- That the report from Dawn Walsworth, Project Manager (Acting), Building Design & Construction, to the Council Meeting of August 11, 2021, re: Brampton Tennis Clubhouse - Budget Amendment and Request to Begin Procurement, be received; and
- 2. That a budget amendment be approved for project #201518-002 Brampton Tennis Clubhouse, to increase the project by the amount of \$780,000, with funding to be transferred from Reserve #91 Federal Gas Tax: and
- 3. That a budget amendment be approved for project #201518-002 Brampton Tennis Clubhouse, to replace the original funding of \$450,000 from Reserve # 4 Repair and Replacement with funding from Reserve #91 Federal Gas Tax; and
- That the Purchasing Agent be authorized to commence the procurement for General Contracting services for the demolition and new construction for the Brampton Tennis Club.

Overview:

 The Brampton Tennis Club is located at 38 Union Street at Roselea Park, owned by the City of Brampton and operated by the Brampton Tennis Club organization. This project includes demolition of the existing building, construction of a new modular clubhouse, relocation of one tennis court and minor site work.

- This site may be impacted by a number of projects in this area, including the Riverwalk project, Ken Whillans Drive extension, and Roselea Park development, as such this building is to be designed and constructed so that it is modular and can be relocated to a new property in the future.
- The initial high-level working budget was approximately \$520,000 and accounted for an "off the shelf" pre-fabricated modular unit (similar to a construction trailer) to replace the existing clubhouse. Unfortunately, the "off the shelf" pre-fabricated modular unit was not feasible or acceptable, and a custom solution needed to be designed. The current forecasted project cost is \$1,300,000. This is based on two different third party cost estimates. The increased costs are due to current market conditions and volatility, and the need for a custom modular building that has a higher level of design compared to an "off the shelf" unit.
- Staff conducted a value engineering exercise to reduce the forecasted project cost by approximately \$200,000, this has already been taken into consideration with the updated budget request.
- With previously approved funds and potential reallocations, a budget amendment in the amount of \$780,000 is required in order to proceed with this project. The project tender can be released in summer 2021.

Background:

The existing Brampton Tennis Club is located at 38 Union Street and is over 40 years old. Significant capital expenditure would be required to bring it up to a state of good repair, and overall the facility is at the end of its life span. In addition, significant funding is needed for major interior and exterior alterations and renovations to meet the City of Brampton Accessibility Standards.

Due to the significant work required, the facility does not warrant the investment to renovate the existing structure. Several other projects may also impact the future of the 38 Union Street site, and require relocation of the tennis club. Projects in the area include the Riverwalk, Ken Whillans Drive extension and Roselea Park redevelopment. As such, any new buildings on this property should be designed and constructed as modular so that they can be relocated.

In the 2020 Capital Budget, Council approved \$520,000 to reconstruct the existing tennis club facility at the existing property. This estimated value assumed that the new clubhouse would be an "off the shelf" modular building to accommodate potential future relocation to another site.

A consulting firm was retained in October 2020 to conduct project design and contract administration. The Consultant has since completed design to facilitate a fully accessible clubhouse with engagement from City's Accessibility, Planning and Urban Design staff.

The BTC operates the facility and site, where the group imparts tennis lessons, plays tournaments, and has a tennis league, among other activities. The City owns the Brampton Tennis Club facility and property and cuts grass only outside the fence; all other maintenance is completed by the Brampton Tennis Club.

Current Situation:

When the Brampton Tennis Club project was submitted in the 2020 Capital Budget, the funding amount was determined with the information available in 2019. Once the consultant was retained and the project advanced through the design stage, the consultant advised that an "off the shelf" modular building (similar to a construction trailer) would not be sufficient to address the needs of the Brampton Tennis Club, City Accessibility Standards, City Planning and Urban Design. The consultant has prepared a project design for a custom modular building that meets these requirements and can be relocated.

In addition to an increased level of design, there is also significant pricing volatility in the construction market. These two factors have resulted in increased project costs.

The City retained two separate third party cost estimators, and both priced the project with a similar construction value. Approximately half of the costs are for the construction of a new building, and half are for demolition and site work, which includes utilities, pathways, lighting and relocating a tennis court. With the project soft costs of future escalation, consultant fees, project management fees, permits and taxes, this results in an overall project cost of \$1,300,000. In collaboration with the consultant, a value engineering exercise was conducted to minimize cost increases.

Market Conditions:

The cost of construction has experienced a high rate of escalation since the beginning of the COVID-19 Pandemic. This increase in costs can be attributed to:

- Material and labour shortages combined with a busy construction market.
- Increased risks to availability of materials and supply chain disruptions.
- The cost of compliance with COVID-19 related regulations including reduced productivity due to social distancing requirements on construction sites and direct costs including the cost of Personal Protective Equipment (PPE) needed for COVID-19 prevention.

Project Design Refinements:

The project scope has increased due to additional requirements identified during the Site Plan Approval process. These required changes have been captured in the final design as well as the additional Client and stakeholder requirements. The contributing factors are:

- Clay court, lighting and sprinkler system relocation and replacement.
- Modifications to existing fencing and new fencing where the existing building is to be demolished.
- Custom modular building design and construction.
- Site Plan Approval requirements as identified below.
- Client and stakeholder requests as outlined below.

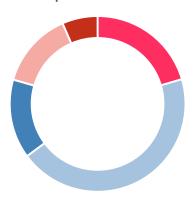

Compliance with Site Plan Approval Requirements:

- Heritage review requested engagement of the Mississauga's of the Credit First Nation, for a complete Stage 2 Archeological Assessment.
- A higher level of facility exterior design to address City urban planning standards.
- Accessibility of all pathways, deck and interior spaces.
- All City of Brampton's Accessibility technical Standards.
- Open Space review to submit a Tree evaluation and preservation plan. Ensure compliance with site specific protection measures during construction.

Client requests:

- Large glazed partitions for viewing of courts from the inside as well as for security and safety purposes.
- Larger viewing deck to view final match games on court #5.
- Glass handrail on east deck for unobstructed views of final match games.
- Storage requirements for grounds and court maintenance equipment.

- Market Conditions 20%
- Costs Design Refinement 44%
- Regulatory Requirements 15%
- Client Requests 14%
- Additional Professional Design Services 7%

Given current funding sources available and possible reallocations, a budget amendment of \$780,000 is required to proceed with the project. Pending approval of the requested budget amendment, the project is to be released for tender in summer 2021.

If a budget amendment is not approved, then current programming for the Brampton Tennis Club would continue to be accommodated within the existing facility or in a rental trailer (similar to a construction trailer) on a short term basis. In the event the tennis club is to be relocated to another property, the new clubhouse could be permanently constructed in the new location, rather than built at 38 Union Street for future relocation.

Corporate Implications:

Purchasing Implications:

The pre-qualified General Contractors will be invited to submit a Bid and the lowest compliant Bid will be eligible for contract award. Purchase approval will be obtained in accordance with the Purchasing By-Law.

All communication with Bidders involved in the procurement must occur formally, through the contact person identified in the Bid Document.

Financial Implications:

Subject to Council approval of the recommendations in this report, capital project #201518-002 – Brampton Tennis Clubhouse will be amended to include \$1,230,000

funded from Reserve #91 - Federal Gas Tax to account for the required increase of \$780,000 in project funding and to replace the original \$450,000 funded from Reserve #4-Repair and Replacement.

The 2021 Budget included approval of a 3-year capital program and funding plan, which maximized the allocation of anticipated funding availability across planned projects. With respect to Reserve 91 – Federal Gas Tax, the Federal Government announced a one-time doubling of the annual allocation to Brampton in 2021, which is estimated to result in an additional \$34 million above the amount expected at the time of developing the 2021 budget.

Given this increase in funding, there is sufficient funding in Reserve 91-Federal Gas Tax to proceed with this initiative without impacting the forecasted capital program.

Legal Implications:

The Legal Department will be able to support this purchasing activity from bid until close. The request for additional funds up front before any competitive bid has gone to market does not result in any legal impacts.

Term of Council Priorities:

This report supports the Term of Council Priorities and the 2040 Vision.

<u>Brampton is a Safe & Healthy City:</u> this project encourages healthy physical activity through tennis programming at the site.

<u>Brampton is a Well-Run City:</u> this project reinforces collaboration and advocacy in the community by leveraging the City's relationship with the Brampton Tennis Club.

Conclusion:

This report seeks Council approval of a \$780,000 budget amendment to proceed with the procurement and construction of the Brampton Tennis Club. Authorization to begin construction procurement is also requested in this report. Increased project costs are attributable to the need for a custom modular building as opposed to an "off the shelf" unit, as instructed by the consultant. Significant market volatility is also a contributor to project cost increases. Approval of the budget amendment would allow for the construction tender to be released in summer 2021.

Agenda Number: 7.1

Date: July 8, 2021

Moved by Councillor Ras
Seconded by Councillor Downey

Whereas the safety of students in Peel Region is of paramount concern;

And whereas, Peel Regional Council recognizes the need to work collaboratively with its community partners to support and increase safety for children travelling to and from school;

And whereas, Peel Regional Council unanimously endorsed Resolution 2019-1134, supporting the development of an Automated School Bus Stop Arm Camera program which upholds the principles of Vision Zero;

And whereas, the Automated School Bus Camera Working Group guided staff to work towards the development of a program that has no net financial losses when considering the Region and the local Municipalities, as outlined in the Working Group's recommendations endorsed through Resolution 2020-446;

And whereas, Peel Regional Council unanimously endorsed Resolution 2020-867 that directed staff to work directly with Student Transportation of Peel Region's (STOPR) and their selected vendor to implement a full-fleet rollout of an Automated School Bus Stop Arm that meets or exceeds current and future regulatory and legislative requirements, for September 2021 in accordance with the Procurement By-law 30-2018, as amended;

And whereas, STOPR selected BusPatrol Inc. to provide a full suite of school bus modernization technologies, with the expectation that it would be paid for by a Regional enforcement program;

And whereas, Resolution 2020-867 also directed staff to prioritize the pursuit and development of a Peel Region Central Processing Centre, critical for an Automated School Bus Stop Arm Camera program;

And whereas, Peel Regional Council unanimously endorsed Resolution 2021-564 that requested the Province to enact legislation to allow the use of Administrative Monetary Penalties System to process Automated Enforcement violations, which is expected to reduce reliance on the local Municipal Courts;

Therefore be it resolved, that the "Modified BusPatrol Program Model-for a Peel Regional Automated School Bus Stop Arm Camera enforcement program, modified through negotiations where ticket revenues are used to fund enforcement program technology and services as well as school bus modernization technology and services, operated in a manner that ensures separation of public and private roles and responsibilities as required by law, scaled to match current and evolving existing Court capacity, addressing legal compliance and projecting no financial losses, and anticipating new contracts or amendments to existing contracts to align with forthcoming Administrative Monetary Penalties System legislation once in force, as outlined in the joint in camera report of the Commissioner of Public Works, the Chief Financial Officer and Commissioner of Corporate Services, and the Regional Solicitor, listed on the July 8, 2021 Regional Council in camera agenda, titled "Automated School Bus Stop Arm Camera — Program Implementation and Processing Centre Recommendations", be endorsed;

And further, per the direction in Resolution 2020-867, that legal staff work directly with STOPR's selected vendor, which has been identified as BusPatrol Inc., that the Chief Financial Officer and Commissioner of Corporate Services be authorized to award the Direct Negotiation to BusPatrol Inc. for the camera technology and services necessary to implement the "Modified BusPatrol Program Model for an Automated School Bus Stop Arm Camera program, as described in the subject in camera report, upon the successful completion of without prejudice negotiations;

And further, that in authorizing a Direct Negotiation with BusPatrol Inc., Regional Council hereby directs in accordance with section 3.1.1 of the Procurement By-law 30-2018, as amended, that the procurement be carried out in a manner other than in accordance with the provisions of the Procurement By-law, and confirms, in accordance with section 3.2.2 of the Procurement By-law, that it is necessary to do so in the public interest in order to ensure an implementation timeline that supports public safety;

And further, that the Commissioner of Public Works be authorized to execute an agreement with BusPatrol Inc., the City of Brampton, the Town of Caledon, the City of Mississauga, and STOPR, represented by the Peel District School Board and the Dufferin Peel Catholic District School Board, and any related amendments and extensions thereto, for the enforcement technology and services necessary for the "Modified BusPatrol Program Model", that meets or exceeds current regulatory and legislative requirements, as well as for the technology and services necessary for STOPR's school bus modernization program, together with such further agreements and documents as deemed necessary or advisable for the implementation of and participation in the Automated School Bus Stop Arm Camera program as described in the subject in camera report, including the 'Automated School Bus Camera Agreement' with the Ministry of Transportation of Ontario, provided such agreements and documents are on business terms satisfactory to the Commissioner of Public Works and on legal terms satisfactory to the Regional Solicitor, and provided the program projects no net financial losses when considering the Region of Peel, the City of Brampton, the Town of Caledon, and the City of Mississauga;

And further, that to reinforce Regional Council's requirement to ensure a cost neutral program, that it be a term of the agreement with Bus Patrol Inc. that in no case will the Region or any of the local municipalities incur any net financial losses in support of the automated school bus camera system program, including enforcement costs, court costs and non-enforcement technology costs;

And further, any agreement between STOPR and the Region or its lower tier partners, shall not bind the Region or participating Municipalities to any future costs for any other Safety features or elements on School Buses, not related and beyond the scope of the proposed Modified Bus Patrol Program Model, as described in the subject report;

And further, that the Commissioner of Public Works be delegated the authority to approve the financial and human resources needed to implement the "Modified BusPatrol Program Model" for an Automated School Bus Stop Arm Camera program as described in the subject in camera report;

And further, that the Commissioner of Public Works be delegated the authority to approve the financial resources needed to appropriately upgrade existing office space at a Region of Peel facility to the standard required for a preliminary Peel Regional Processing Centre, as required by the Ministry of Transportation of Ontario (MTO) for the execution of an 'Automated School Bus Camera Agreement' and access to license plate data in a timeline that anticipates MTO's pending updated certificate of offence and offence notice forms for the Highway Traffic Act section 175 (19.1) and (20.1) owner liability offences;

And further, that staff be directed to develop a formal business case in consultation with local municipalities in Peel Region ("local Municipalities") for a Peel Region Joint Processing Centre to serve municipalities outside of Peel Region and/or other automated enforcement programs under a future Administrative Monetary Penalties System, and that the Commissioner of Public Works be delegated authority to approve the financial and human resources needed to implement this direction as described in the subject in camera report;

And further, that the subject in camera report be provided in confidence to staff at the Cities of Mississauga and Brampton and the Town of Caledon and be available to their respective Councils.

RECOMMENDATION

That a publicly run fee-for-service program approach for a Peel Regional Automated School Bus Stop Arm Camera enforcement program, operated in a manner similar to existing automated enforcement programs in Peel Region, and implemented through a phased approach that contemplates forthcoming Administrative Monetary Penalties System legislation, as outlined in the joint report of the Commissioner of Public Works, the Chief Financial Officer and Commissioner of Corporate Services, and the Regional Solicitor, listed on the June 24, 2021 Regional Council agenda, titled "Automated School Bus Stop Arm Camera – Program Implementation and Processing Centre Recommendations", be endorsed;

And further, per the direction in Resolution 2020-867 that staff work directly with STOPR's selected vendor, which has been identified as BusPatrol Inc., that the Chief Financial Officer and Commissioner of Corporate Services be authorized to award the Direct Negotiation to BusPatrol Inc. for the minimum camera technology and services necessary to implement Phase I of the Automated School Bus Stop Arm Camera Program, which excludes additional school bus modernization technology and privatized enforcement services, as described in the subject report, upon the successful completion of without prejudice negotiations;

And further, that in authorizing a Direct Negotiation with BusPatrol Inc., Regional Council hereby directs in accordance with section 3.1.1 of the Procurement By-law 30-2018, as amended, that the procurement be carried out in a manner other than in accordance with the provisions of the Procurement By-law, and confirms, in accordance with section 3.2.2 of the Procurement By-law, that it is satisfied that it is necessary to do so in the public interest in order to ensure an implementation timeline that supports public safety;

And further, that the Commissioner of Public Works be authorized to execute an agreement with BusPatrol Inc., and any related amendments and extensions thereto, for the enforcement technology and services necessary for Phase I of an Automated School Bus Stop Arm Camera program that meets or exceeds current rsegulatory and legislative requirements, together with such further agreements and documents as deemed necessary or advisable for the implementation of and participation in the Automated School Bus Stop Arm Camera program, including the 'Automated School Bus Camera Agreement' with the Ministry of Transportation of Ontario, provided such agreements and documents are on business terms satisfactory to the Commissioner of Public Works and on legal terms satisfactory to the Regional Solicitor, provided the program projects no net financial losses when considering the Region of Peel, the City of Brampton, the Town of Caledon, and the City of Mississauga;

And further, that should BusPatrol Inc. be unable or unwilling to enter into an agreement with the Region for Phase I of the Automated School Bus Stop Arm Camera program implementation, as proposed, staff be authorized to seek a qualified vendor for a scoped Phase 1 Peel Regional Automated School Bus Stop Arm Camera enforcement program, operated in a manner similar to existing automated enforcement programs in Peel Region, through a competitive procurement process, in accordance with Procurement By-law 30-2018, as amended;

And further, that the Commissioner of Public Works be delegated the authority to approve the financial and human resources needed to implement Phase I of an Automated School Bus Stop Arm Camera program as described in the subject report;

And further, that the Commissioner of Public Works be delegated the authority to approve the financial resources needed to appropriately upgrade existing office space at a Region of Peel facility to the standard required for a preliminary Peel Regional Processing Centre, as required by the Ministry of Transportation of Ontario (MTO) for the execution of an 'Automated School Bus Camera Agreement' and access to license plate data in a timeline that anticipates MTO's pending updated certificate of offence and offence notice forms for the Highway Traffic Act section 175 (19.1) and (20.1) owner liability offences;

And further, that staff be directed to develop a formal business case in consultation with local municipalities in Peel Region ("local Municipalities") for a Peel Region Joint Processing Centre to serve municipalities outside of Peel Region and/or other automated enforcement programs under a future Administrative Monetary Penalties System, and that the Commissioner of Public Works be delegated authority to approve the financial and human resources needed to implement this direction as described in the subject report;

And further, that the subject in camera report be provided in confidence to staff at the Cities of Mississauga and Brampton and the Town of Caledon and be available to their respective Councils.

REPORT HIGHLIGHTS

 Peel Regional Council has demonstrated strong support for a school bus camera enforcement program to promote the safety of Peel students and their families.

- In October of 2020, Regional staff were directed to work with Student Transportation of Peel Region's (STOPR's) selected vendor, BusPatrol Inc. ("BusPatrol"), to implement a full-fleet rollout of an Automated School Bus Stop Arm Camera Program for September 2021 and to prioritize the development of a Peel Region Central Processing Centre.
- Since that time, staff have undertaken without-prejudice negotiations with BusPatrol for a
 program that is legally compliant, consistent with the Region's Procurement By-law, and
 has no net financial losses when considering the Region and the local Municipalities.
- BusPatrol has proposed an incomplete turnkey program model with unprecedented private oversight where revenue is tied to the number of violations and redirected from the local Municipal Courts toward BusPatrol and to STOPR's school bus modernization technology program.
- Based on these risks and feedback from local Municipal staff, STOPR, and Provincial Ministries, some changes have been negotiated to BusPatrol's original proposal; however, risks and challenges remain.
- To acknowledge and respond to Council's direction, staff have developed a framework
 for a phased rollout of a school bus camera program with STOPR's selected vendor that
 meets all current regulatory and legislative requirements, and is cost-neutral or revenuegenerating.
 - Phase I is proposed to operate under the *Provincial Offences Act* similar to existing automated enforcement programs on a specified number of school buses.
 - Phase II is proposed to operate under AMPS, unconstrained by local Court capacity, with the investment in school bus modernization technology set to ensure a cost-neutral program.
- The recommended phased program model carries significantly fewer financial, regulatory, and legal challenges and risks.
- Acknowledging that Council may wish to proceed with BusPatrol's program model, staff
 have undertaken a parallel process to negotiate a model with BusPatrol, STOPR, and
 local Municipalities that would allow the vendor's proposed program to proceed while
 mitigating risk to the extent possible.
- Staff have further identified the framework for establishing a School Bus Camera Processing Centre. Should Council wish to proceed with expansion to a Peel Region Joint Processing Centre, staff would propose to develop a formal business case, in consultation with local Municipalities, for Council's consideration.

BACKGROUND

1. Regional Council Direction

Peel Regional Council has demonstrated strong support for a school bus camera enforcement program.

In December 2019, Regional Council approved Resolution 2019-1134 indicating support for the implementation of cameras on school buses to promote the safety of Peel Region students and their families. A working group was formed to provide recommendations to

Regional Council on how best to proceed with a school bus camera program. Councillors Downey, Fonseca, Palleschi, and Ras were appointed to the School Bus Stop Arm Cameras Working Group, as per Resolution 2019-1140, along with staff representatives from the Region of Peel, City of Brampton, Town of Caledon, City of Mississauga, Student Transportation of Peel Region ("STOPR"), Peel Regional Police, and Ontario Provincial Police.

Based on the recommendations of the Working Group (Resolution 2020-436), Regional Council passed Resolution 2020-446, directing Regional staff to report back with options, scope, and costs for implementing a Peel school bus camera program, to investigate the feasibility of a Peel-led Administrative Monetary Penalties System ("AMPS") processing centre, to support STOPR's procurement process, and to maintain the option to leverage it for an enforcement program with compatible technology. The Working Group Councillors further guided staff to work towards the development of a program that has no net financial losses when considering the Region and the local Municipalities, as outlined in the Working Group's Council-endorsed recommendations.

Regional staff provided an interim update report to Regional Council on October 22, 2020. Regional Council provided additional direction for Regional staff to work with STOPR's selected vendor, Bus Patrol Inc. ("BusPatrol"), to implement a full-fleet rollout of a school bus camera program for September 2021 and to prioritize the pursuit and development of a Peel Region Central Processing Centre. Regional Council's conditions were that it must be implemented in accordance with the Procurement By-law 30-2018, as amended, and that all equipment and services meet or exceed current and future regulatory and legislative requirements. Additionally, staff were instructed to report to Regional Council with any requisite vendor, financial, and other agreements, as well as budget implications, that require Council approval (Resolution 2020-867). The Working Group Councillors noted above subsequently expressed support for a cost-neutral program.

PROGRAM UPDATE

1. BusPatrol's Original Proposal

Bus Patrol's original proposal differs significantly from existing electronic enforcement programs

On November 9, 2020, BusPatrol provided Regional staff with a draft sample contract. Comments collected from Regional, local Municipal, and STOPR staff indicated that the contract was largely incomplete with little description of a school bus camera program. On January 25, 2021, BusPatrol provided a 'Program Guide & Technical Manual' which contained more information about how the proposed program would work, but not enough to identify key roles, responsibilities, and costs that would be identified under a program agreement, or to assess regulatory compliance.

Based on further discussions with BusPatrol, it was determined that BusPatrol's original proposal differs from existing electronic enforcement programs in three key respects:

BusPatrol's proposed profit model of revenue splitting between themselves and the local Municipal Courts is directly tied to the number of violations and associated ticket revenue; however,
 BusPatrol proposes to fund a non-enforcement related school bus modernization program using the revenue, which creates a dependency on the enforcement revenue.

BusPatrol's originally proposed program model would increase local Court costs, is not expected to be cost-neutral for our local Municipal partners,

By comparison, the Region's current electronic enforcement programs (Red Light Camera and Automated Speed Enforcement) operate on a fee-for-service model.

- The Region pays a monthly fee to a vendor for the use of camera technology and software.
- 100% of ticket revenues are directed to the local Municipalities.
- Activities related to laying charges are performed by Provincial Offences Officers ("POOs").
- Activities related to collecting ticket revenue and the Courts are performed by Court staff.
- These programs operate at a net surplus considering both upper tier and lower tier costs and revenues.

2. Without Prejudice Negotiations

As directed by Regional Council, staff have been working with BusPatrol towards the full-fleet rollout of a school bus camera program that is both legally compliant and implemented in accordance with the Region's Procurement By-law.

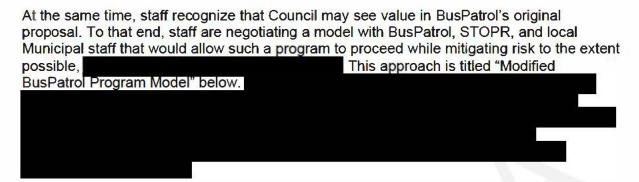

Staff have been working together with BusPatrol to define the proposed program model and identify/negotiate roles and responsibilities such that legislative requirements are met. The funding model has also been discussed at length, with staff targeting a cost-neutral program. Finally, staff have worked closely with the local Municipalities in connection with their administration of the local Courts to ensure that any agreement with the vendor will result in a program that can successfully process tickets, thereby meeting the program objective of improving safety for Peel families.

Throughout these discussions, BusPatrol has made several concessions but has generally retained the original program proposal.

nd the proposal is broader than one for a camera program alone,

staff are recommending a

phased approach that will better address Council's requirements and conditions. This recommendation is set out in the section below titled "Recommended Program Model".

For a simple comparison of the Recommended Program Model and the Modified BusPatrol Program Model, see Appendix I.

PROPOSED DIRECTION

1. Recommended Program Model

A two-phase program model supports Council's direction and conditions, the feedback provided by the local Municipal staff, and comments from the Ministries.

The phased approach will provide an eventual full-fleet rollout of a school bus camera program with STOPR's selected vendor (should BusPatrol participate), meeting all current regulatory and legislative requirements, and result in a cost-neutral or revenue-generating program. Although it may be possible to deploy cameras on the full fleet by September 2021, staff recommend a phased deployment to match Court capacity and note that Provincially-approved forms are yet to be developed, which prevents POOs from processing tickets under this program at present.

Phase I would be designed to work under the POA similar to other existing electronic enforcement programs in Ontario, scaled to available Court capacity and administered as a cost-neutral or revenue-positive program.

Phase II would be designed to work under an AMPS¹ and would see full program deployment unconstrained by local Court capacity. Using Peel-specific data gathered in Phase I, the investment in school bus modernization technology (non-enforcement technology) can be scaled to ensure a cost-neutral program.

For Phase I, enforcement technology would be installed on a prescribed number of school buses, selected, and scheduled in collaboration with the local Municipalities, Police Services, and STOPR. School bus modernization technology would not be included as part of Phase I, unless paid for by BusPatrol or STOPR. The Region would pay a set monthly fee for the enforcement program technology and BusPatrol's services. The information collected during Phase I regarding violation rates and challenge rates would determine the level of investment in school bus modernization technology that could be supported in Phase II to

¹ The Province has signaled in the course of consultative discussions with the Association of Municipalities of Ontario and the Ontario Traffic Council that AMPS regulations are expected to be in place between 2021 and 2023

achieve program cost-neutrality. Implementation of Phase I would require an agreement between Peel Region and BusPatrol, as well as a separate agreement with STOPR to ensure access to the buses.

Phase II, operating under AMPS, would remove reliance on the local Municipal Courts. The scope of Phase II is envisioned to invest in school bus modernization technology across STOPR's full bus fleet, with a scaled investment that ensures program cost-neutrality. Roles and responsibilities under AMPS will be determined once the regulations are written; an amending contract (or new contract) would be developed based on these future regulations to govern the program over the long term. Various funding models could be considered for Phase II, depending on what is permitted under AMPS.

Local Municipal staff have expressed support for the recommended phased program model as it respects their capacity constraints and mitigates risks.

2. Modified BusPatrol Program Model

Staff are negotiating a model based on BusPatrol's original proposal; it should be noted that this model still involves risks discussed later in this report.

Staff are negotiating many details of an agreement with BusPatrol, STOPR, and local Municipal staff that would allow the Modified BusPatrol Program Model to proceed while mitigating risks to the extent possible. This approach would require three contracts; one with each local Municipality, the Region, BusPatrol, and, STOPR (represented by the Peel District School Board and the Dufferin Peel Catholic District School Board).

3. Peel Region Joint Processing Centre

Under either the Recommended Program Model or the Modified BusPatrol Program Model, a Peel Regional Processing Centre for school bus camera and other offences could be established.

In June 2020, Regional Council directed staff to explore the feasibility of the Region of Peel taking the lead in the implementation of an AMPS processing centre (Resolution 2020-436). Further direction in October 2020 directed staff to prioritize the pursuit and development of a school bus camera processing centre that can provide efficient program delivery, effective enforcement, and increased employment and economic opportunities (Resolution 2020-867).

Regional staff have identified the framework and requirements for establishing a school bus camera processing centre that could later be expanded to other Municipalities and automated enforcement programs under AMPS. As part of this work, several important considerations came to light, including:

- As per the POA and the Highway Traffic Act and its regulations, virtually all processing
 centre tasks must be undertaken by Regional POOs, including reviewing evidence,
 certifying evidence, and issuing offence notices. For that reason, the timeframe for
 implementing a school bus camera processing centre is largely dependent on the
 Region's ability to hire and train POOs, and to obtain Ministry designation of POOs. Staff
 have not received a detailed estimate from MTO, however, the designation could take
 between six weeks to three months.
- At present, violations for school bus camera programs cannot be processed by POOs in a processing centre until MTO completes standard offence violation forms. In the absence of Provincially-approved violation forms, only Police Services can process these tickets.
- In the future, a school bus camera violation processing center could be expanded to a
 Peel Region Joint Processing Centre to serve municipalities outside of Peel Region
 and/or other automated enforcement programs such as Red Light Camera or Automated
 Speed Enforcement, under AMPS, provided the processing centre falls under public
 ownership.

The current use of the Toronto Processing Centre is not limiting the number of violations for any type of automated enforcement for the Region of Peel except by reason of the current COVID response and related physical distancing requirements. Rather, expansion of electronic enforcement programs is limited by Provincial Offences Court capacity as administered by local Municipalities. As such, the timing for implementation of a Peel Region Joint Processing Centre would need to be aligned with the introduction of AMPS for automated enforcement infractions.

To proceed with the development and implementation of a Peel Region Joint Processing Centre as described above, the next step is for staff to develop a formal business case, in consultation with local Municipalities, for Council's consideration.

STRATEGIC CONSIDERATIONS AND CONSULTATION

To work towards a successful program, Staff have consulted with a broad range of parties which would be either affected by a school bus camera enforcement program or called upon to make decisions relative to the program. Their feedback is summarized below.

1. Local Municipalities and POA Courts

Local Municipal staff support the Recommended Program Model (the two-phase model)

The City of Brampton, the Town of Caledon, and the City of Mississauga are key program partners in the development of a school bus camera program and are necessary contract parties in the Modified BusPatrol Program Model.

Local staff note that the violation and challenge rates provided by BusPatrol do not reflect local conditions. BusPatrol estimates violation rates up to 35 times higher than Ontario pilot studies, and estimates challenge rates at up to 75 times lower than those experienced under other local automated enforcement programs. This is important because the violation rate determines program revenue,

Further, local Municipal Court costs are largely tied to the challenge rate. A low violation rate together with a high challenge rate could result in costs being incurred by the local Municipal Courts to support the program. More importantly, a high challenge rate will put additional pressure on very limited Court capacity.

Other key concerns with BusPatrol's program

While local Municipal staff have expressed support for the Recommended Program Model, they are also providing comments to assist Regional staff in mitigating risk and negotiating the Modified BusPatrol Program Model should that be Regional Council's direction.

2. Student Transportation of Peel Region

STOPR favours any program that funds school bus modernization technology as quickly as possible.

STOPR is also a key program partner in the development of a school bus camera program and is also a contract party in the Modified BusPatrol Program Model, represented by the Peel District School Board and the Dufferin Peel Catholic District School Board.

STOPR provided comments on BusPatrol's draft sample contract and 'Program Guide & Technical Manual'. STOPR's focus is the inclusion of the school bus modernization technology in the program, as they do not have funding to support the program in the absence of BusPatrol's collection of ticket revenue through the enforcement program.

In the Recommended Program Model, during Phase I there would be no funding for school bus modernization technology; in Phase II, this would depend on AMPS legislation and the amount of additional revenue available to fund it.

3. Provincial Ministries

Provincial Ministries caution that programs must align with legislated and Court requirements.

Regional staff have consulted with staff from both MTO and MAG to collect their feedback on the program approach. Provincial entities, such as MTO, MAG, Ministry of the Solicitor General ("SOLGEN"), and the Information and Privacy Commissioner of Ontario ("IPC") must indirectly approve of the program model in order for there to be access to license plate data, designation of POOs, and successful prosecution of violators.

MTO indicated that when establishing a school bus camera program, best practice would be to follow the existing framework deployed under the other automated enforcement programs. Municipalities can choose to deploy different program models as long as they conform with the legislation and Court requirements for evidence. These rules specify the persons who can be designated a POO, restrictions on third-party enforcement, and data sharing agreements that specify only the municipality or police can receive plate registrant data.

Both MTO and MAG advised consulting with the SOLGEN and IPC after the program model is finalized and before program launch to promote judicial acceptability and privacy compliance.

RISK CONSIDERATIONS

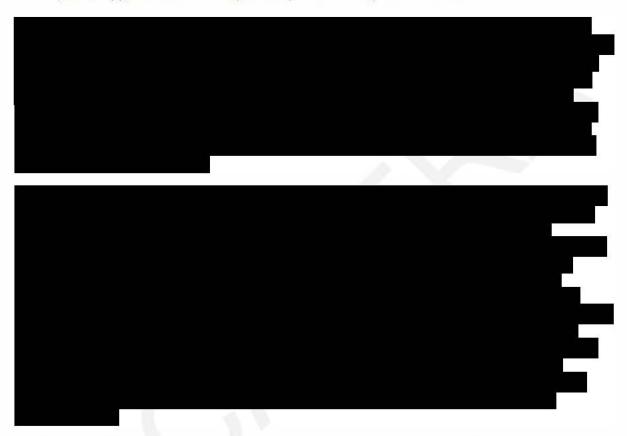

These risks relate to the Modified BusPatrol Program Model.

	tomated School Bus Stop Arm Camera – Program Implementation and Processing ntre Recommendations
2.	Privacy
	BusPatrol has been provided with the Region's Technology Selection Guidelines on privacy.
	a Privacy Impact Assessment ("PIA") has been initiated and will be completed by Regional staff after a program contract is executed but before the program is launched. MTO guidelines strongly recommend a PIA and Regional policies require it. MTO and MAG have recommended that the IPC be consulted for the PIA. Any contract with a vendor should ensure that the recommendations of a PIA are followed as a condition to ensure the program meets Provincial and Regional privacy requirements.
3.	Proposed Financial Model
	Local Municipal net costs related to the Modified BusPatrol Program Model are estimated in the order of
	Although the Modified BusPatrol Program Model proposes that we of program revenue be directed to local Municipalities, BusPatrol proposes to deduct a technology fee
	By utilizing the Recommended Program Model employing a fee-for-service model similar to existing automated enforcement programs under the POA, local Municipalities retain 100% of the fine revenue to offset Court costs.

4. STOPR's Direct Negotiation Process

On September 3, 2020, the Region of Peel was notified by STOPR that they had selected a vendor, BusPatrol, through Peel District School Board to procure a suite of modern school bus technologies that includes items such as internal cameras, tablets, GPS tracking tools, and a parent app, as well as the option to purchase stop arm cameras.

Further, STOPR's sole source procurement identified that the program is to be zero cost to STOPR and that equipment is to be paid for through the Region of Peel school bus camera enforcement program. Prior to the procurement process, it had been identified to STOPR's governance committee that the initiative would save them \$40,000/year, as BusPlanner (partner to BusPatrol) agreed to no longer charge STOPR their annual software fee if STOPR agrees to the initiative.

5. Public Perception

The Modified BusPatrol Program Model may be seen as tying profit to violation rates, as their revenue would increase as violation rates increase. This is compounded by combining the enforcement program with STOPR's school bus modernization technology suite, which gives the appearance that the program must generate a large amount of revenue to pay for this additional technology.

6. Agreement of Other Parties

With the Modified BusPatrol Program Model, all six contract parties (BusPatrol, Region of Peel, City of Brampton, Town of Caledon, City of Mississauga, and STOPR) must agree before a program can be implemented. This introduces the risk that an agreement will not be executed with sufficient time for a September 2021 program launch. The Recommended Program Model (the two-phased model, recommended by Regional staff), reduces these risks by reducing to two the number of contract parties that must agree (BusPatrol and Region of Peel). Both the Recommended Program Model and the Modified BusPatrol Program Model carry the additional risk that BusPatrol and STOPR may decline to participate; however, staff could mitigate this risk by seeking a qualified vendor through a competitive procurement process in accordance with Procurement By-law 30-2018, as amended, and have the option of working directly with the school boards to implement the program.

FINANCIAL IMPLICATIONS

1. Recommended Program Model Financial Impacts

Phase I of the recommended two-phase model involves installing cameras on a select number of buses to be funded by the Region and directing 100% of ticket revenue to the local Municipalities, similar to existing enforcement programs operating under the POA. This approach requires Regional financial resources to be approved to retain one Project Manager and one POO, to adjust the Regional workspace to meet MTO requirements, and to pay for camera technology and services. Ticket revenues will be collected by local Municipalities and the net program outcome is anticipated to be cost-neutral or revenue-generating.

Staff may be required to adjust existing office space at 10 Peel Centre Drive to meet the standard required for a preliminary Peel Regional Processing Centre, as required by MTO.

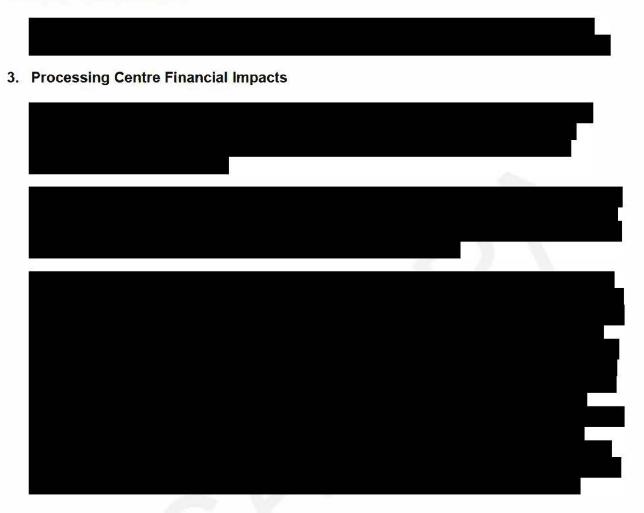

2. Modified BusPatrol Program Model Financial Impacts

Regional Costs The Region will also upgrade existing office space at a Region of Peel facility to the standard required for a preliminary Peel Regional Processing Centre, as required by MTO for the execution of an 'Automated School Bus Camera' agreement and access to license plate data. **Local Municipal Costs** this proposed model is likely to cause the local Municipalities to substantially subsidize the school boards to support this program. Staff estimate that the fees will consume the entire local Municipal revenue portion in perpetuity, with no remaining revenue to offset local Court costs (pre-AMPS) or dispute adjudication costs (post-AMPS). Further, it is estimated that the fees will exceed revenues each month, accruing program debt In future, AMPS will likely provide the opportunity for a revenue-neutral or revenue-positive

7.1-16

program when Court capacity is no longer limited and program revenues increase.

CONCLUSION

Regional and local Municipal staff recommend a two-phase program model in response to Council direction to implement a Peel Region school bus camera program. This includes a Phase I approach designed to work under POA together with a Phase II approach designed to work under AMPS will ensure the program meets current and future regulatory and legislative requirements. Phase I would equip a fixed number of school buses with enforcement technology and provide data on violation/challenge rates until the AMPS legislation comes into force, estimated by the Province between 2021 and 2023. Phase II is envisioned as full deployment operating under AMPS, which will remove the reliance on the local Municipal Courts and their current capacity issues. The scope of school bus modernization technology investment will be set by Council based on data collected in Phase I and the funding model will be dependent on what is permitted under AMPS legislation.

The Region of Peel continues to advocate the Province for the necessary Provincially-approved school bus camera 'Certificate of Offence' and 'Offence Notice' forms and AMPS regulations. A copy of the letter the Regional Chair sent to the Minister of Transportation regarding automated enforcement programs, including these advocacy items, is listed as Item 12.2 on the June 24, 2021 Regional Council agenda.

In consideration of feedback received from the Working Group Councillors, this report also includes the Modified BusPatrol Program Model that is more closely aligned with BusPatrol's original proposal but aims to mitigate the risk incurred under BusPatrol's original proposal to the extent possible.

Comparison of the Recommended Program Model and the Modified BusPatrol Program Model

	Recommended Program Model	Modified BusPatrol Program Model
Details		
Model Description	Two-phase program model. Phase I (under POA), rollout on approximately 30 buses of enforcement cameras with BusPatrol paid a monthly technology fee by the Region. Phase II (under AMPS), full fleet rollout on 1,500 buses of enforcement cameras and internal school bus modernization technology.	 Full fleet rollout on 1,500 buses of enforcement cameras and internal schoo bus modernization technology. A turn-key program where enforcement revenue is split between BusPatrol and local Municipalities. A technology fee is then deducted
Scope at Launch	Enforcement could start after program launch through Police services.	 Limited to data collection until MTO completes required forms for processing violations. Once forms are complete and POOs are designated, program activation is still limited by Court capacity until AMPS.
School Bus Modernization Technology	Scale of investment in school bus modernization technology in Phase II is chosen based on available revenues.	Scale of investment in school bus modernization technology is chosen for the Region by STOPR and BusPatrol in advance of testing program revenues.

AMENDMENT NO. OP2006-_____ TO THE OFFICIAL PLAN OF THE CITY OF BRAMPTON PLANNING AREA

1.0 Purpose:

The purpose of this Amendment is to change the land use designation of the lands shown on Schedules A and B to this amendment to permit low/medium density residential units by removing a portion of the 'Upscale Executive Housing Special Policy Areas' lands north of Embleton Road and east of Heritage Road and re-designating these lands from 'Executive Residential' to 'Low/Medium Density Residential'.

2.0 Location:

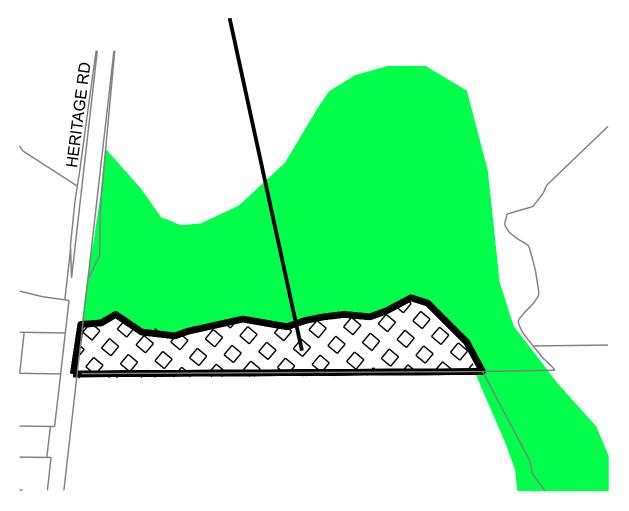

The lands subject to this amendment are located on the east side of Heritage Road, north of Embleton Road, and west of the village of Huttonville. To prevent the application of part lot control

Number _____- 2021

to part of Registered Plan **43M – 2092**

WHEREAS subsection 50(5) of the *Planning Act*, R.S.O. c. P.13, as amended, has imposed part lot control on all lands within registered plans within the City;

AND WHEREAS pursuant to subsection 50(7) of the *Planning Act*, the Council of a municipality may, by by-law, provide that subsection 50(5) of the *Planning Act* does not apply to land within such registered plan or plans of subdivision or parts thereof, as are designated in the by-law;

AND WHEREAS the application for an exemption from part lot control pursuant to subsection 50(7) of the *Planning* Act, on the lands described below, for the purpose of creating maintenance easements and townhouse units, is to the satisfaction of the City of Brampton;

NOW THEREFORE The Council of The Corporation of the City of Brampton **ENACTS AS FOLLOWS:**

1. THAT subsection 50(5) of the *Planning Act* does not apply to the following lands within the City of Brampton, Regional Municipality of Peel:

The whole of Lots 25 to 36, inclusive; 39 to 46, inclusive; 48, 49, 51, 52, 71, 73, 74, 75, 76, 77, 80, 83, 88 to 97, inclusive; and Blocks 114, 115, 116, 117, 122, 123, 124, 125, 129, 130, and 137, all on Registered Plan 43M-2092.

- 2. THAT pursuant to subsection 50 (7.3) of the *Planning Act*, this By-law shall expire THREE (3) years from the date of its registration.
- 3. THAT this By-law shall not become effective until a certified copy or duplicate of this By-law has been registered in the proper land registry office.

Number _____- 2021

To confirm the proceedings of Council at its Regular Meeting held on August 11, 2021

The Council of The Corporation of the City of Brampton ENACTS as follows:

- THAT the action of the Council at its Regular Meeting of August 11, 2021 in respect to each report, motion, resolution or other action passed and taken by the Council at its meeting, is hereby adopted, ratified and confirmed, as if each resolution or other action was adopted, ratified and confirmed by its separate by-law; and
- 2. THAT the Mayor and the proper officers of the city are hereby authorized and directed to do all things necessary to give effect to the said action, or to obtain approvals where required, and except where otherwise provided, the Mayor and the Clerk are hereby directed to execute all documents necessary in that behalf and to affix the corporate seal of the City to all such documents. Where the subject matter of any such action is within a sphere or jurisdiction assigned to The Corporation of the City of Brampton pursuant to section 11 of the Municipal Act, 2001, the authority granted by this section includes the use of natural person powers under section 8 of the Municipal Act, 2001; and
- 3. THAT this by-law, to the extent to which it provides authority for or constitutes the exercise by the Council of its powers to proceed with, or to provide any money for, any undertaking, work, project, scheme, act, matter or thing which requires an approval in addition to the approval of the Council, shall not take effect until the additional approval has been obtained.

Dated at the City of Brampton this 11th day of August, 2021.

 Patrick Brown, Mayor
Peter Fay, City Clerk
