NOTICE: In consideration of the current COVID-19 public health orders prohibiting large public gatherings and requiring physical distancing, in-person attendance at Council and Committee meetings will be limited to Members of Council and essential City staff.

As of July 16, 2021, limited public attendance at meetings will be permitted by preregistration only (subject to occupancy limits). It is strongly recommended that all persons continue to observe meetings online or participate remotely. To register to attend a meeting in person, please <u>complete</u> this form.

For inquiries about this agenda, or to make arrangements for accessibility accommodations for persons attending (some advance notice may be required), please contact: Sonya Pacheco, Legislative Coordinator, Telephone 905.874.2178, TTY 905.874.2130 or e-mail <u>cityclerksoffice@brampton.ca</u>

Note: Meeting information is also available in alternate formats upon request.

1. Call to Order

2. Approval of Agenda

3. Declarations of Interest under the Municipal Conflict of Interest Act

4. Consent

In keeping with Council Resolution C019-2021, agenda items will no longer be premarked for Consent Motion approval. The Meeting Chair will review the relevant agenda items during this section of the meeting to allow Members to identify agenda items for debate and consideration, with the balance to be approved as part of the Consent Motion given the items are generally deemed to be routine and noncontroversial.

5. Announcements

- 8.1. Staff Presentations
- 8.2. Reports
- 8.2.1. Staff Report re: Continuing Partnership with the Founder Institute, Start-up Accelerator

Recommendation

- 8.3. Other/New Business
- 8.3.1. Notice of Motion re: Collaborative action to address issues related to International Students in Brampton

(See Items 6.7 and 8.4.1)

Moved by: Regional Councillor Santos

Seconded by: Regional Councillor Vicente

Whereas Brampton has experienced and will continue to experience a significant increase in the number of international students residing in the city due to increased enrolment from public and private post-secondary institutions;

And whereas with an increase in international students and lack of affordable student housing, the City of Brampton has experienced an increase in complaints related to illegal lodging homes and numerous complaints related to inappropriate behaviour in local neighbourhoods;

And whereas given the September 8th and 22nd, 2021 delegations from Punjabi Community Health Services (PCHS), Indus Community Services (Indus), the Davis Centre for Families (representing 18 community partners), and other local stakeholders who have expressed serious concern and experienced an increased demand for support services related to international students;

And whereas a report entitled "Invited and Forgotten: International Students in Crisis", authored by PCHS and Indus details the significant issues facing Peel's International Students and include:

- Labour exploitation and financial difficulty
- Access to legal support
- Human trafficking and sexual exploitation
- Lack of housing supports on campus
- Drug trafficking
- Mental health, addiction, and suicide

And whereas during the delegations mentioned above had asked the following as next steps:

- Do educational institutions acknowledge these issues?
- How can we all work together to solve this problem?
- Consider writing a letter to the IRCC and the Ministry of Colleges and Universities
- City of Brampton host a roundtable with community stakeholders and post secondary institutions to begin a collaborative discussion that is solutions oriented
- Indus and PCHS have offered to lead the roundtable discussion as authors of the research report titled "Invited and Forgotten: International Students in Crisis"

And whereas it has been acknowledged by the Mayor, Councillors, Community Organizations, Peel Regional Police, and post secondary institutions that collaboration is key in addressing the many issues related to the growing number of international students residing and studying in Brampton;

And whereas The City of Brampton is working on growing post secondary opportunities for residents in its current negotiations with an University (upcoming Medical School), University of Guelph Humber, and Brampton U proposal and continues to work with Sheridan, Algoma and University regarding cybersecurity;

And whereas private colleges (68 possibly in Peel), with Trios College expanding to 1,300 in Brampton, must also be part of the conversation and solution regarding International Students in Brampton;

And whereas existing public institutions providing programming in Brampton, who have requested and/or received funding from the City of Brampton: Sheridan (6,800 international students), Algoma University, and University partner (Medical School) should play a collaborative role as part of the solution;

And whereas The City of Brampton has re-instated the Town and Gowns Committee that has been currently limited to city representatives and staff, Sheridan College, Algoma University, and University partner (Medical School), and Peel Regional Police,

Therefore be it resolved that:

- 1. The Mayor, on behalf of the City of Brampton write a letter to existing post secondary partners, including those currently in negotiations, requesting a report to include the following:
- Support services provided to domestic students and international students especially with respect to the issues identified by the delegations on Sept 8th and 22nd;
- How they are collaborating with community partners;
- Identifying upstream solutions to ensure that students are successful when they study in Brampton;

- Data and accountability measures related to the success of international students in Brampton
- Commitment to take a collaborative approach with the city, other postsecondary institutions, and community stakeholders in Brampton
- 1. The Mayor, on behalf of the City of Brampton write a letter to the IRCC and the Ministry of Colleges and Universities to:
- Share our significant concerns related to international students, lack of data, and the city and community support services required to address the issues faced by international students
- Attach the presentation from the delegation on Sept 8th, 2021 and report titled "Invited and Forgotten: International Students in Crisis"
- Attach this motion
- Cc: Local MPs and MPPs and Party Leaders
- 1. In the spirit of understanding and taking a collaborative approach, Council invite the University of Guelph Humber, Trios College, Indus and PCHS to be part of the Town and Gowns committee and city staff report back on the achievements of the previous Town and Gowns Committee;
- The City of Brampton, host or co-host a roundtable discussion on the issue of International Students and include community agencies, post secondary institutions (public and private), Region of Peel, Peel Regional Police, in Q1 2022, with a focus on collaborative solutions to address prioritized issues related to International Students.
- 8.4. Correspondence
- 8.4.1. Correspondence from Janet Morrison, President & Vice Chancellor, Sheridan College, dated September 17, 2021, re: International Students in Brampton

(See Items 6.7 and 8.3.1)

Kitchener GO Rail Expansion

KITCHENER EXPANSION OVERVIEW

- Through the Kitchener GO Rail Expansion project, the Province committed to extending GO Rail service through City of Brampton to Kitchener.
- With this investment, two-way all day GO train service achieves competitive travel times to Kitchener, compared to Hwy 401. The program brings 10.9M annual by 2041 riders, reduces journey time by up to 20 min¹, generates over \$1,377.1M in economic benefits and aligns with the five goals outlined in the Transportation Plan for Southwestern Ontario.
- Metrolinx currently offers limited off-peak and counter-peak trips on the Kitchener corridor. CN owns the Halton subdivision, a key segment of the Kitchener corridor, which has restricted GO rail service expansion to date. Metrolinx owns the Weston and Guelph subdivisions on the east and west ends of the corridor.

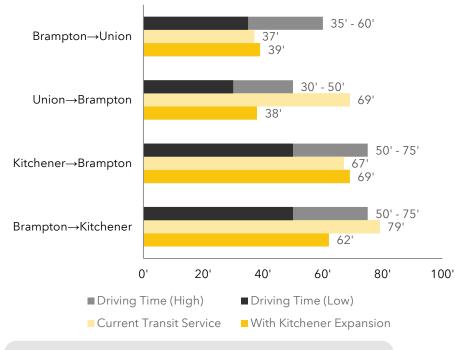

• To achieve the proposed service level, key capital infrastructure investments are needed on the Guelph and Halton Subdivisions including expanded tracks, platforms, bridges, signaling, and fleet storage.

¹ End-to-end journey times between Toronto and Kitchener, as compared to 2018 run times

KEY PROGRAM BENEFITS

FASTER, MORE FREQUENT, TWO-WAY SERVICE

Nearly 500 additional trips per week to Brampton and Mount Pleasant GO stations

Competitive transit times especially in the counter peak direction, with a **31 minute reduction** for Union to Brampton trips

SUPPORT ECONOMIC **GROWTH & NEW RIDERSHIP**

Downtown Downtown

Directly connecting

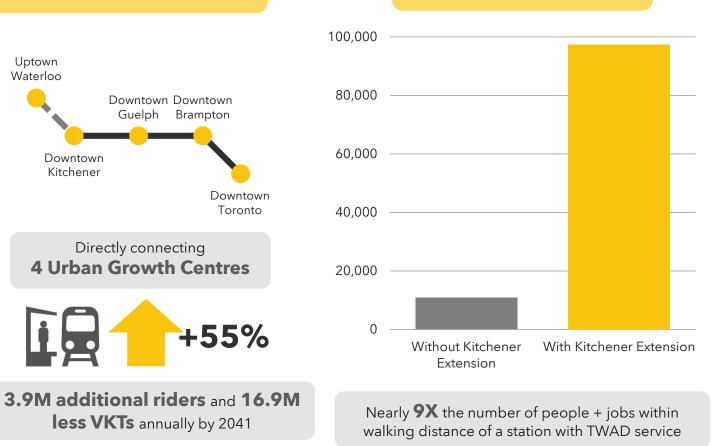

Guelph Brampton

Uptown Waterloo

Downtown

Kitchener

MORE CONNECTED & ACCESSIBLE

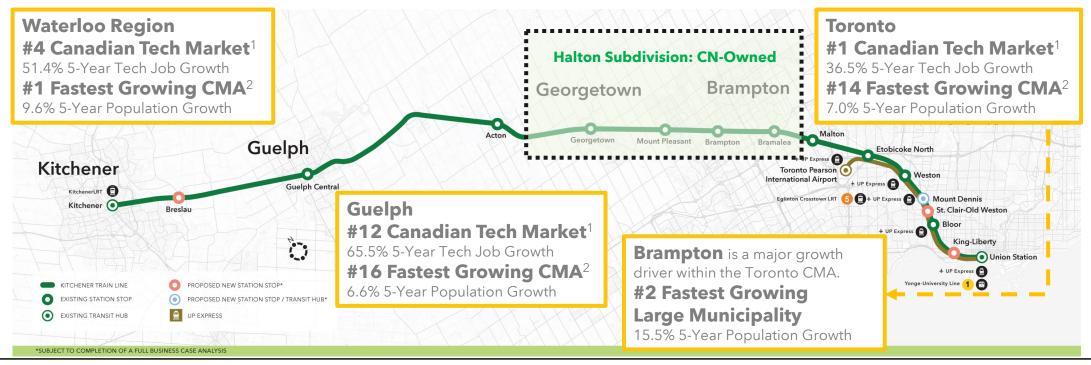

PROGRAM OPPORTUNITY

The Kitchener GO Rail Expansion project will deliver more trips at every point along the line - from Kitchener-Waterloo, Guelph, Halton Hills, Brampton, Mississauga, and Toronto and will achieve the long-awaited goal of two-way, all-day service to Kitchener.

This constrained rail corridor is an essential transportation connection to the labour markets of the Greater Golden Horseshoe (GGH). Counter-peak service before 9am, with regular arrivals from Toronto through to Kitchener, is critical growing labour markets along the line.

The capital infrastructure delivered through the Kitchener GO Rail Expansion program will realize travel time, frequency and reliability benefits for GO Rail services to Brampton and other communities along the corridor.

Service levels will continue to be refined as the program advances

KITCHENER CORRIDOR OWNERSHIP

- Metrolinx owns the Guelph and Weston Subdivisions
- CN owns the Halton Subdivision

ACTIVE KITCHENER LINE PROJECTS: IMPROVING THE CUSTOMER EXPERIENCE

KITCHENER EXTENSION PROGRAM	 Additional track and signal infrastructure to manage both CN and GO rail traffic Modifications to bridges and station platforms, as needed, to accommodate the expanded corridor
BRAMPTON GO	 Temporary parking lot is under construction and will be ready this Fall 2021. Planned addition of 3rd track and new platform in downtown Brampton. Collaborating with Brampton staff and Transit Hub team.
BRAMALEA GO	 New parking structure (2000+ spots) and station building is to be opened to customers in Fall 2021 with work to complete the bus loop continuing. Additional platform works under way for GO Expansion. Commissioning in 2022.
MOUNT PLEASANT GO	Site upgrades planned to parking lot, elevators, platforms and bus loop.
HERITAGE ROAD LAYOVER FACILITY	 Metrolinx retained a consultant for design and environmental assessment, and work began in August 2021.
PROPOSED STATION AT HERITAGE ROAD	 Metrolinx Planning staff is engaged in conversations to explore a potential new station at this location.
QUEEN ST - HIGHWAY 7 BRT	 RFP for PDBC targeted for tender in Early 2022.

NEXT STEPS

- Metrolinx will continue to work with CN and the City of Brampton to confirm an infrastructure solution and operation plan for the Halton Subdivision; especially within Downtown Brampton.
- Capital investments would be directed towards alleviating the key constraints and bottlenecks on both the Halton and Guelph Subdivisions to maximize service frequency and reliability.
- Metrolinx will advance design and construction of improvements on the Kitchener corridor, with phase 1 construction procurements on the Guelph Subdivision already underway.
- Metrolinx will also explore opportunities to incrementally introduce additional services within construction timeframe as enabling works are completed.

- Library Contribution to Pandemic Recovery
- Facilities Master Plan Update
- 2021-22 Achievements and Plans

Brampton Library Mission

- Brampton Library is a
- world-class destination
- that creates opportunities
- for everyone to discover
- their full potential through
- literacy, learning and
- building community.

Brampton Library Contribution to Pandemic Recovery

Page 30 of 477

Library Contribution to Pandemic Recovery

- The Library provides crucial social infrastructure to support pandemic recovery efforts:
 - Supports economic opportunity
 - Facilitates academic success
 - Deepens equity, reduces the "digital divide"
 - Provides safe and accessible public space
 - Serves as an access point to marginalized groups
 - Connects newcomers to their community
 - Helps alleviate social isolation

Brampton Library During the Pandemic

- The Library was uniquely positioned to pivot to a remote environment:
 - Digital Library
 - Curbside borrowing
 - Library app / virtual library card
 - Online Chat assistance
 - Virtual programs
 - Makerspace on demand
 - Care Call check-ins with seniors

To Brampton library staff-Thank you, thank you, Thank you for having books available during this pandemic. Reading has helped the time pass by more pleasureably. A very satisfied pation

Brampton Library Piloted Fines Free

- During pandemic, BL temporarily removed all fines to reduce barriers
- Part of a North American-wide trend to remove fines permanently; more than 40 in Ontario alone
- Fines are increasingly at odds with the Library's mission, impacting those least able to pay, most vulnerable, and often racialized

https://www.urbanlibraries.org/resources/fine-free-mapa.org

Facilities Master Plan Update

Page 34 of 477

Facilities Master Plan Milestones

- Procured Services of Monteith Brown Planning Consultants to support update of Library Facilities Master Plan
- Insights Report Completed
 - Surveyed ~1000 residents, held public and stakeholder workshops
 - Draft vision: "World class libraries at your doorstep"
- Facility Tours completed assessing opportunities and challenges
- Currently Gaps and Needs assessment underway
- Draft report to Library Board in the fall

According to the Facilities Master Plan survey...

 87% of Residents surveyed said that Brampton Library is <u>important</u> to their household

According to the Facilities Master Plan survey...

Square Footage Gap

- Ontario public library standard is to provide 0.6 sq. ft. of library space per resident
- At current population, Brampton Library should be operating with ~400,000 sq. ft., a gap of ~200,000 square feet and growing
- The Facilities Master Plan will help support the Boards growth plan over the next ten years

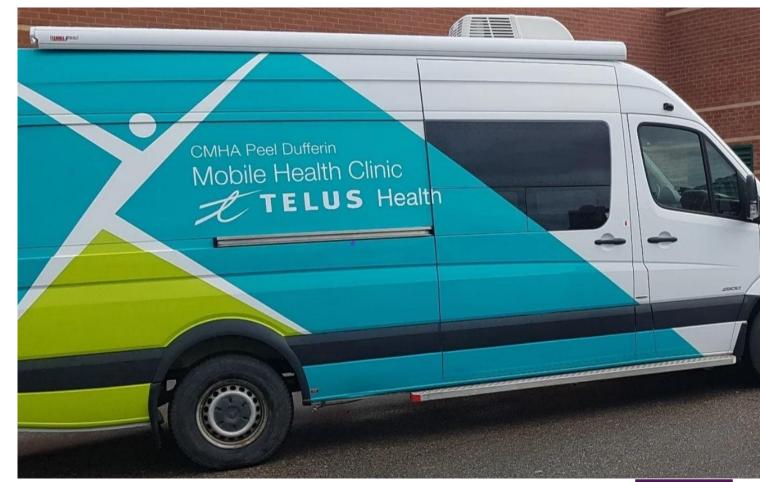

Brampton Library 2021-22 Achievements and Plans

Page 39 of 477

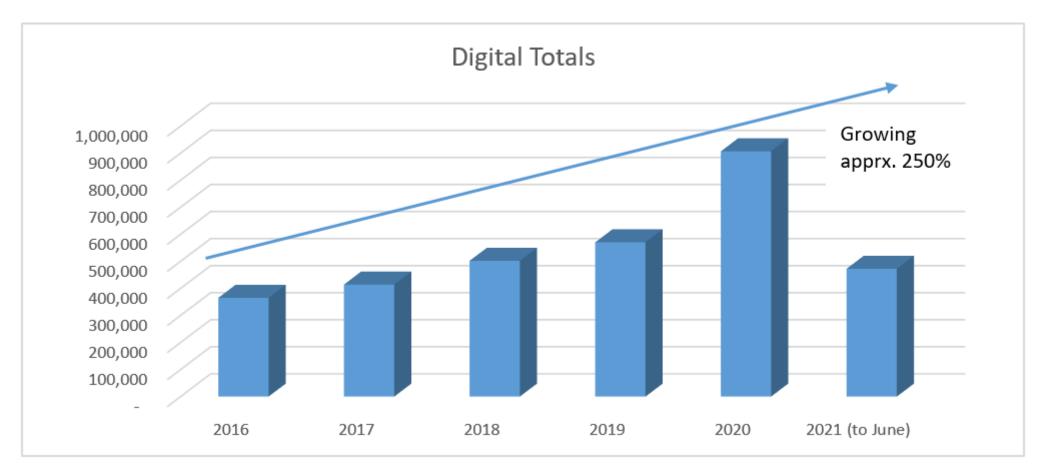

2021 Achievement Highlights

- Continue growth of Digital Library demand
- Introduced Online Chat and integrated virtual program/registration platform
- Partnership with CMHA Peel Dufferin to provide a Mobile Health Clinic at Four Corners
- Social connections through Care Calls, Visiting Library Services (VLS), and Virtual programming
- IDEA (Inclusion, Diversity, Equity, Accessibility) strategy launch

Digital Materials Growth Since 2016

Library Growth Opportunities

Centre for Innovation

- Work is underway on planning a City Library as a key anchor
- Internal Library team working with the chosen architect

Page

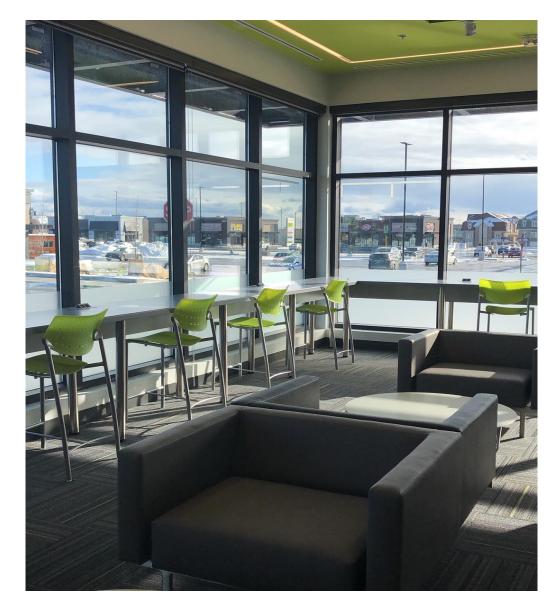

Urban Community Hubs

- Actively engaged and in the planning of
 - Uptown Brampton Hub
 - Queen Street East Hub

Library Growth Opportunities

South West

- Planning on an increase to staffing compliment to support additional branch hours at existing South West Branch
- Looking for opportunities for a greater presence in this rapidly growing development

Fund Development

- Priority of the Library Board
- Objective is to seek resources, funds and grants that enhance library programs and support services outside Library core model.
- Common function in North American public libraries to connect with the community and explore innovative partnerships
- Seeking permanent resources to support this in 2022

Post-Pandemic Library Plans

- Support economic opportunity
 - Expand Makerspaces to contribute to the creative economy
 - Introduce new Digital Library learning and creativity services
- Facilitate academic success
 - Expand After-Hours Study spaces to more locations
 - Introduce new Digital Library tutoring service
- Deepen equity and reduce the digital divide
 - Permanently remove overdue fines as endorsed by the Library Board
 - Pilot a program to loan WiFi hotspots and mobile devices

Another positive resident comment

As regular library users and residents of Brampton, we wish to express our profound thanks for the excellent curbside pickup services as well as all the different Grab-and-Go packs that were offered throughout the summer.

With so much generous library services that were continually offered, it was much easier to keep kids engaged in productive activities during the summer. Our kids also enjoyed the BrainGames activities very much.

During the summer, due to her great interest in reading and the English language, our child... participated for the first time and won this year's Brampton Chapter of the regional Spelling Bee Junior Category (9 - 11 years) competition .

Due to the very significant role played by the Brampton Library's book collections and other services in our children's overall development and the recent success in the Spelling Bee competition, we wanted to share this news with the library and thank you for the role the library continually plays in our lives.

CONCERNS **OUTLINED IN** THE PCR PAPER

• Intimate Partner Violence in the LGBTQ2+ Community

• Police-Public Relations, Policy and Legislation

Meet the Presenters

Richelle Furtado, Legislative Committee Delegate

Noordeep Cheema, Legislative Committee Delegate

Our Principles

Principles serve as the foundation and guiding statements behind our recommedations.

Principle: All people have th all its forms.

Principle: All people must has support systems.

Principle: Policies that address intimate partner violence must be intersectional, considering key factors like socioeconomic status, race, gender, culture, sexuality, and ability.

Principle: Policies should consider intimate partner violence in all its forms, including but not limited to physical, mental, psychological, and financial violence.

Principle: Policies that address intimate partner violence must use a harm reduction framework and approaches to intimate partner violence should be gender-informed, trauma-informed, anti-oppressive, and anti-colonialism.

Principle: Policies that address intimate partner violence should recognize that these situations are nuanced and multidimensional.

Principle: All people have the right to be protected from intimate partner violence in

Principle: All people must have equitable access to intimate partner violence

Our Concerns

Our concerns highlight key facets of the issue where we believe he most reform is required.

Concern: Policies relating to intimate partner violence do not offer support to those affected in secondary and tertiary forms like children.

Concern: Existing awareness campaigns contribute to the racialization of intimate partner violence and do not focus enough on the voices of marginalized peoples or the concept of consent.

Concern: Currently, there is little to no policy or programming available for LGBTQ2+ Bramptonians who are survivors of intimate partner violence.

Concern: Intimate partner violence services, particularly those available during the pandemic do not consistently consider the needs of diverse populations. These services are also severely underfunded.

Concern: Police-Public relations, particularly in racialized communities and existing legislation are both deterrents to the reporting of intimate partner violence.

Seconmendations

and an and the second second

Intimate Partner Violence in Education Recommendations

• Existing intimate partner violence awareness campaigns should continue, however, statistical data about the impacts of these campaigns should also be collected

• The City of Brampton should attempt to offer specific programming for consent education marketed particularly towards City youth

Intimate Partner Violence in the LGBTQ2+ Community Recommendations

• Increased representation of the LGBTQ₂₊ community in intimate partner violence services

• Increased representation of the LGBTQ₂₊ community in campaigns that aim to eliminate intimate partner violence

• Include resources for members of the LGBTQ2+ community seeking aid for intimate partner violence

• Have specific policies that ensure women's shelters are safe spaces for trans women

• Provide police officers with the necessary training to handle cases involving LGBTQ2+ people

Indigenous and Racialized Communities Recommendations

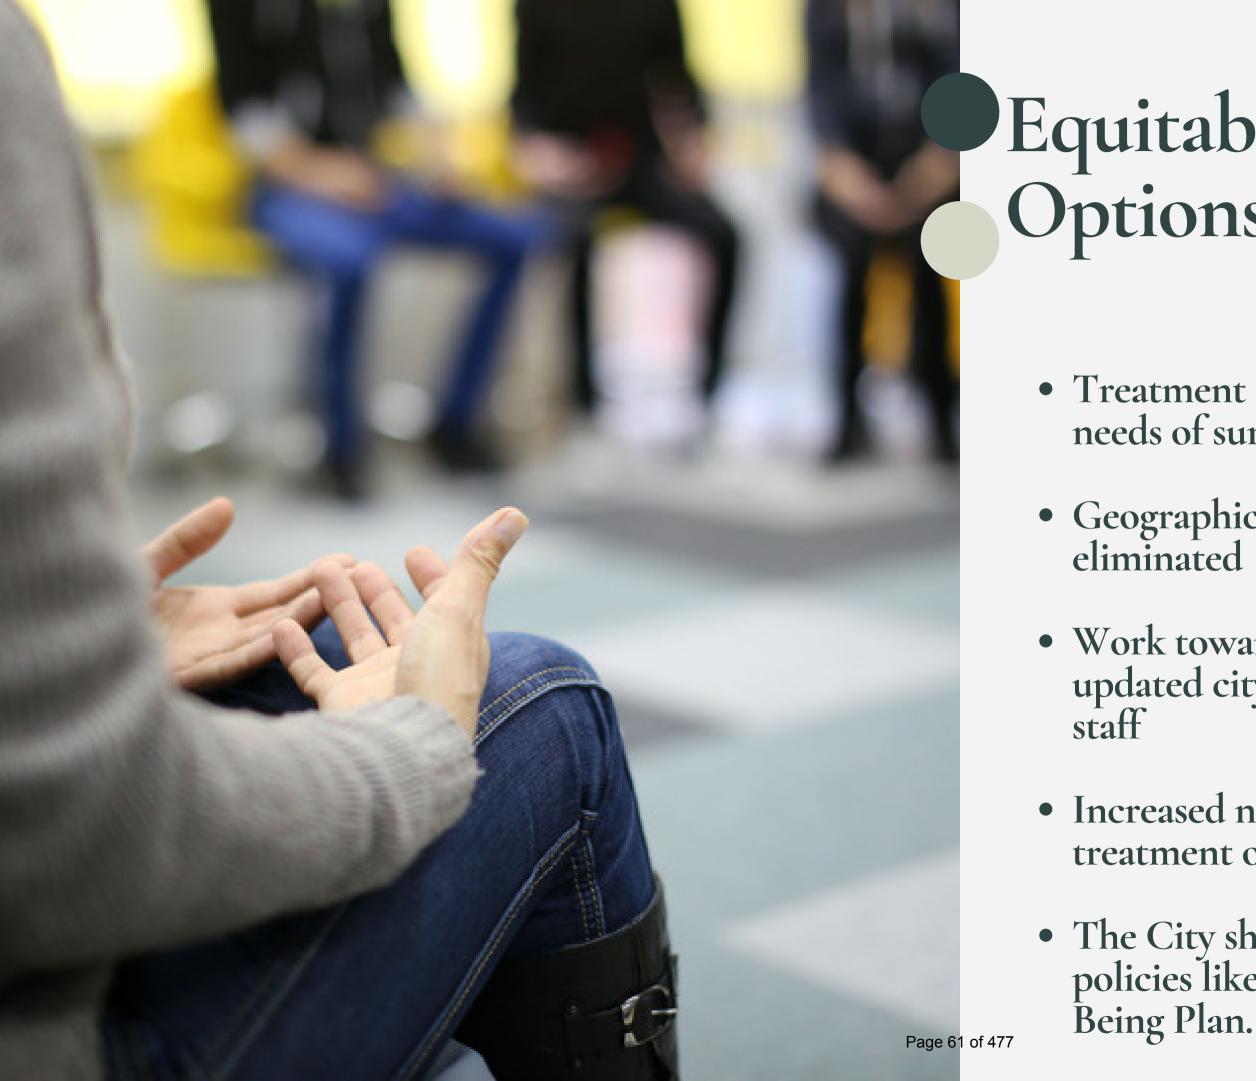

Page 60 of 477

• The City of Brampton should place emphasis on the steps outlined by the Federal Truth and Reconciliation Commission

• The City should collaborate with grassroots and community leaders to create a direct liaison between the community and the authorities

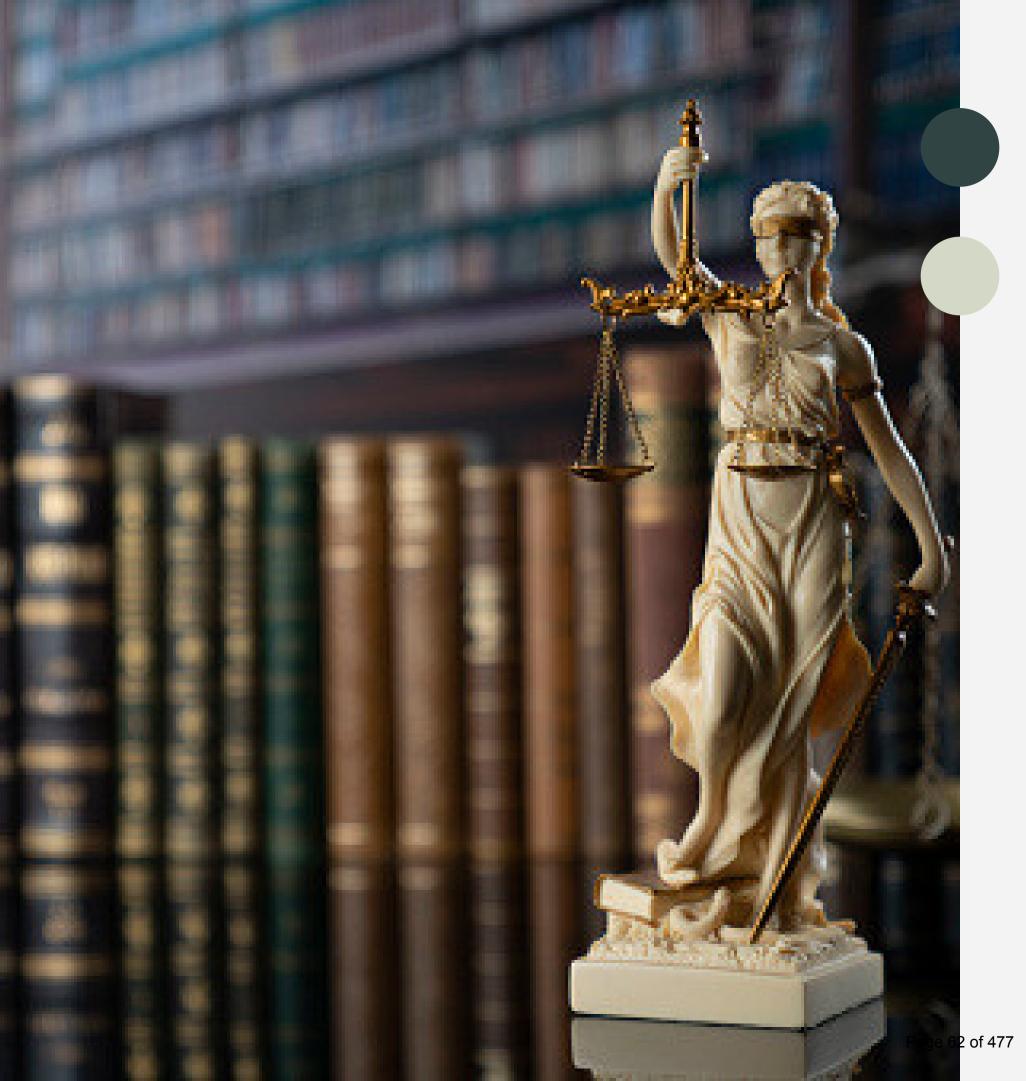

• Educational workshops and guest speakers should be strategically placed at accessible locations like schools, colleges and community recreation centres

• Efforts to combat the racialization of domestic violence should be led by professionals from the racial communities

Equitable Treatment Options Recommendations

- Treatment options should genuinely reflect the needs of survivors
- Geographical barriers to treatment should be eliminated
- Work towards developing and implementing updated city-wide training programs for treatment
- Increased number of shelters and various treatment options throughout the City
- The City should evaluate the success of recent policies like the Community Safety and Well-Being Plan.

Police-Public **Relations and Policy** Recommendations

- communities

• Have City-wide townhalls and consultation events to discuss important subjects relating to police intervention and its impact on racialized

• City should continue to improve relations between police officers and the community

Policy Paper

Intimate Partner Violence Prevention and Response in the City of Brampton

Summer 2021

Prepared by:

Eyitade Kunle-Oladosu, Co-Chair Take A Stand Lohit Kaushik, Co-Chair Take A Stand Shivohum Nar, Director of Legislative Committee Arham Ali, Legislative Committee Delegate Chenuka Arachchige, Legislative Committee Delegate Noordeep Cheema, Legislative Committee Delegate Richelle Furtado, Legislative Committee Delegate Shelby Ndongwa, Legislative Committee Delegate Fatima Panchbhaya, Legislative Committee Delegate Karanpreet Raja, Legislative Committee Delegate Gurpartap Thap, Legislative Committee Delegate Charu Unni, Legislative Committee Delegate

About Take A Stand

Take A Stand is a youth-led policy provision organization composed of more than fifty students across the City of Brampton. Our team is passionate about politics and the stories of our community that can be expressed through public policy. We believe that communities are built on the backbone of storytelling. Take A Stand is founded on the idea that the stories of our community are multidimensional and multifaceted and therefore deserve to be told. Through our partnership with the City of Brampton and the Mayor's office, our vision is to provide research briefs and policy recommendations that assist in writing a new, nuanced, and representative story for constituents of the City of Brampton. As dedicated youth from across the City, we have come together to voice our concerns, engage in meaningful dialogue, and most importantly, take a stand on issues that we are passionate about.

This policy paper follows the same structure and formatting guidelines as the OUSA Gender-based and Sexual Violence Prevention & Response Policy Paper by the Ontario Undergraduate Student Alliance.

Executive Summary

Intimate partner violence is a community issue and should be addressed as such. The alarming rise in intimate partner violence cases across the Municipality of Brampton reaffirms the need for comprehensive frameworks that consider key demographic, social, and economic factors. This policy paper looks to offer recommendations focused on a trauma-informed, gender-informed, anti-oppressive, and anti-colonialism approach to both intimate partner violence response and prevention. The recommendations were formulated through community consultations with key stakeholders over four months and accessing important secondary data. Although admittedly not an exhaustive examination of the issue, the Take A Stand team seeks to provide recommendations that address the pressing concerns of youth across the City.

Glossary

- 1. *Anti-Colonization*: Anti-Colonialism is defined as the strategies, theories, actions, and practices that actively challenge systems of oppression faced by those impacted by colonialism. The anti-colonial theory looks to uproot all political, historical, social, and economic societal structures rooted in Eurocentric ideology while simultaneously reaffirming the rights of Indigenous populations (Hart, 2009, p. 37). The intimate partner violence PCR paper provides principles, concerns, and recommendations from an anti-colonization approach.
- 2. Anti-Oppression: Anti-Oppression is defined as the strategies, theories, actions, and practices that actively challenge systems of oppression by acknowledging the oppression and working to minimize its harm. An anti-oppression approach seeks equity by not only acknowledging and celebrating our differences but also challenging systems that contribute to marginalization ("LibGuides: Anti-Oppression: Anti-Oppression"). The intimate partner violence PCR paper provides principles, concerns, and recommendations from an anti-oppression lens.
- 3. Domestic Violence: According to the United Nations (UN), domestic violence can be defined as a "pattern of behaviour in any relationship that is used to gain or maintain power and control over an intimate partner" (United Nations). Domestic violence may manifest in physical, sexual, emotional, economic, or psychological abuse. Domestic violence affects people regardless of class, gender, race, sexuality, religion, or education level (United Nations). The intimate partner violence PCR paper uses the term domestic violence as an umbrella term that includes family violence and intimate partner violence.
- 4. *Family-Violence*: Family Violence is a specific category of domestic violence where the survivors of the abuse/violence may also include a child, relative, or any other member of the household outside of the intimate partner. Similar to domestic violence, family violence can also be mental, physical, economic, sexual, or cultural/spiritual.

- 5. *Gender-informed*: A gender-informed approach acknowledges the role of gender in everyday life and seeks to respond to the challenges and strengths that this creates appropriately. This approach reflects on the role of misogyny in society and incorporates this knowledge framework into the response ("Gender-Informed Treatment"). The intimate partner violence PCR paper uses a gender-informed approach to address the role of gender and the patriarchy when providing recommendations for the issue.
- 6. *Intersectionality*: Intersectionality is a framework that attempts to deepen our understanding of oppression by taking into account the overlaps in people's identities and the prejudices that are created as a result of the intersections (Chandler). This framework acknowledges that people are often challenged by multiple systems of oppression like race, class, gender, sexual identity, and religion (Chandler). The intimate partner violence PCR paper uses the intersectionality framework to highlight how this issue affects certain disadvantaged people differently and thereby provide equitable recommendations for our concerns.
- 7. *Intimate-Partner Violence*: Intimate-Partner Violence (IPV) is a specific category of domestic violence that encompasses all of the same abusive or violent behaviours like domestic violence. However, domestic violence can also include family violence whereas intimate partner violence refers specifically to romantic partners (Moorer). For the sake of creating a specific focus, this paper focuses on intimate partner violence rather than domestic violence.
- 8. *Survivor*: A survivor is any person who has experienced domestic violence in any of its forms, including family or intimate partner violence. The term was adapted to de-stigmatize and de-traumatize domestic violence while simultaneously reducing victim-blaming ("Gender-Based & Sexual Violence Prevention & Response"). Survivor is a very personal term and a person who has experienced domestic violence may choose to identify with a different term. Therefore, the term 'survivor' is used throughout the intimate partner violence PCR paper, however, we acknowledge that this is not a universal term.

- 9. *Trauma-informed*: The goal of a trauma-informed approach is to avoid re-traumatizing someone (SMI Adviser). This approach understands the implications of trauma and uses this knowledge when developing policies, procedures, and policies (SMI Adviser). The intimate partner violence PCR paper uses a trauma-informed approach when providing recommendations.
- 10. *Violence*: According to *World Report on Violence and health* (WRVH), Violence is defined as "the intentional use of physical force or power, threatened or actual, against oneself, another person, or against a group or community, that either result in or has a high likelihood of resulting in injury, death, psychological harm, maldevelopment, or deprivation"(World Health Organization). The WRVH distinguishes four modes in which violence may be inflicted: physical, sexual, psychological attack, and deprivation. Moreover, WRVH further divides the general definition of violence into three sub-categories (based on survivor-perpetrator relationship), namely: self-directed violence, interpersonal violence, and collective violence. The intimate partner violence PCR paper uses the term per the WRVH definition of violence.

Principles, Concerns, and Recommendations

Principle: All people have the right to be protected from intimate partner violence in all its forms.

Principle: All people must have equitable access to intimate partner violence support systems.

Principle: Policies that address intimate partner violence must be intersectional, considering key factors like socioeconomic status, race, gender, culture, sexuality, and ability.

Principle: Policies should consider intimate partner violence in all its forms, including but not limited to physical, mental, psychological, and financial violence.

Principle: Policies that address intimate partner violence must use a harm reduction framework and approaches to intimate partner violence should be gender-informed, trauma-informed, anti-oppressive, and anti-colonialism.

Principle: Policies that address intimate partner violence should recognize that these situations are nuanced and multidimensional.

Concern: Policies relating to intimate partner violence do not offer support to those affected in secondary and tertiary forms like children.

Concern: Existing awareness campaigns contribute to the racialization of intimate partner violence and do not focus enough on the voices of marginalized peoples or the concept of consent.

Concern: Currently, there is little to no policy or programming available for LGBTQ2+ Bramptonians who are victims of intimate partner violence.

Concern: Intimate partner violence services, particularly those available during the pandemic do not consistently consider the needs of diverse populations. These services are also severely underfunded.

Concern: Police-Public relations, particularly in racialized communities and existing legislation are both deterrents to the reporting of intimate partner violence.

Recommendation: Existing intimate partner violence support systems should be expanded to include preventative measures such as early on-set consent education and awareness campaigns.

Recommendation: The City of Brampton should evaluate its performance in strategies one, two, and three of the Community Well-Being Plan as it relates to intimate partner violence.

Recommendation: The City of Brampton should use the equity office to evaluate the number of racialized professionals required to effectively run intimate partner violence programming.

Recommendation: A framework should be established to ameliorate relations between the public and police, particularly for racialized communities.

CONCERNS AND RECOMMENDATIONS *The COVID-19 Pandemic*

On March 17th, 2020, the Government of Ontario declared a state of emergency in response to the outbreak of a novel virus formally known as COVID-19 (Nielsen). Since the initial outbreak, a report by StatsCanada found that 54% of the surveyed victim services centers experienced a rise in the number of intimate partner abuse victims that they currently serve (Allen and Jaffray). The victim services centers attributed the increase to many factors, including the Stay At Home Orders, which may have increased the frequency of violence or made it difficult for survivors to report their abuse. For many, the isolation of the Stay At Home Orders was reminiscent of the violence they endured under their abuser (Trudell and Whitmore). Changes in the operations of traditional sources of support such as shelters, local police, and health services have also hindered the ability to report abuse. However, it is important to note that shelters, transitional housing, and health services that provide support to survivors of intimate partner violence have been severely underfunded for years - the pandemic has only exacerbated existing issues. As a result, there was a lack of resources to appropriately address the increase in call volume or increase in those seeking shelter. Many survivors have been turned away due to a lack of space or an inadequate supply of personal protective equipment (PPE) (Trudell and Whitmore). In the instances where there was a transition to an online platform, these resources often lacked provisions for survivors who did not have any or consistent access to technology (Trudell and Whitmore).

As a result of the COVID-19 pandemic, violence took on unconventional forms. Financial violence gained prominence as job loss and general financial difficulty became a major concern. Survivors also feared contracting the virus which may have made them hesitant to seek out help (Peterman et al.). Additionally, the perpetrator of violence may have controlled the media to induce fear or make the survivors feel as though they are a 'burden' if they do seek out help (Peterman et al.). All of these factors were compounded with the inherent strain on mental health and wellness that came with the COVID-19 pandemic. The stress of a pandemic coupled with the trauma of experiencing violence in any form places strain on mental health, potentially exacerbating existing problems.

Some communities were at a higher risk for experiencing domestic violence due to the COVID-19 pandemic. Older women and minorities were far more likely to be affected by intimate partner violence. Minorities were shown to have an increased risk due to the increase of stressors that they already experienced before the pandemic. Women with disabilities were also found to be more endangered due to the pandemic.

Intimate Partner Violence Education

The three pillars of education are the home, schools, and other learning institutions. It is therefore the conjoined responsibility of all three to educate the average young person of the patriarchal systems, institutions, and power divides that create conditions leading to intimate partner violence. It is also necessary to educate youth on the signs and implications of intimate partner violence. Oftentimes, intimate partner violence education does not acknowledge the patriarchal structures that contribute to the issue. Educational programming that does not analyze the impacts of the male gaze, gender roles, hypermasculinity, and misogynoir as it relates to IPV fails to address the root of the issue.

The Role of Consent in Sex Education

Consent is an important concept to acknowledge when analyzing intimate partner violence. It is permission for something to occur between two parties (Alberta Health Services), usually having sexual connotations. Consent includes respecting the boundaries of others and ensuring that one is not engaging in activities with someone who does not feel comfortable. However, consent is not limited to just respecting the wishes of others, it includes respecting one's boundaries. This means understanding the extent to which one is comfortable and having the skills to leave a situation where they experience discomfort (Alberta Health Services).

Consent must be given, it cannot be implied. Concerning intimate partner violence, all sexual contact without consent is a form of violence and is a crime (Department of Justice). It is imperative to consider aspects like gender roles, ability, intoxication, and mental disabilities when looking at consent. Consent is something that can never be assumed, and irrespective of *"body language, romantic relationships, marriage, previous sexual activity, lack of resistance, or familial relationship"* consent must be present and a clear yes (Innocent Lives Foundation). Moreover, children cannot give consent to any sexual activity (Innocent Lives Foundation). From a youth perspective, various factors come into play when examining consent, including peer pressure, social dynamics, and the impacts of sexual assault.

Recommendations Concerning Intimate Partner Violence Education

Existing intimate partner violence awareness campaigns should continue, however, statistical data about their impacts should also be collected. The City of Brampton should attempt to offer specific programming for consent education marketed particularly towards City youth. The education offered by the City of Brampton should highlight dynamics of oppression, power, systematic violence, and inequalities. The City of Brampton should evaluate its awareness and educational campaigns against strategies one and two of the Community Safety and Well-Being Plan.

Intimate Partner Violence in the LGBTQ2+ Community

LGBTQ2+ relationships are not equitably represented in policies concerning intimate partner violence which contributes to their marginalization and ostracization. Youths across the City of Brampton are concerned that institutional homophobia has contributed to the recent spike in violence against queer people, especially queer people of colour. In addition, trans people particularly face unique challenges in the context of violence. On both a social and political level, trans people, in particular trans women, have been historically excluded from protections offered to other members of society. Existing domestic violence and intimate partner support are overwhelmingly tailored for women thereby leaving gender-diverse people underserved, excluded, or invalidated. To effectively address these concerns, public policy must also acknowledge the inherent fear that comes with seeking out aid that is often worsened by inappropriate responses to calls for assistance and aid.

Fear in Seeking out Aid

Policy discussions designed to address the impacts of intimate partner violence have traditionally taken a heteronormative narrative, therefore leaving out members of the LGBTQ2+ community, even though they are impacted by intimate partner violence in rates equal to or even higher than those in heterosexual relationships (National Coalition Against Domestic Violence). Despite the severe under-representation and underfunding in public services, the rate of violence in heterosexual and same-sex relationships remains relatively the same, one in four (Canadian Women's Health Network, 2). Moreover, survivors of intimate partner violence that belong to the LGBTQ2+ community are often fearful of seeking aid, as there are systemic homophobic sentiments in health and human services. LGBTQ+ community members may also fear being outed or social repercussions as a result of seeking help (Canadian Women's Health Network, 2). Members of the LGBTQ2+ community are also at risk of being harassed by healthcare professionals while trying to seek support (Harvey et al.).

Inappropriate Responses to Calls for Assistance and Aid

In addition, LGBTQ2+ members are more likely to be denied access to intimate partner violence support systems and resources since these support systems have been designed to cater primarily, to heterosexual relationships. In instances where bias is not conscious, many women's shelters do not have specific policies that make them safe spaces for trans women. There are significantly fewer services that aid the members of the LGBTQ2+ community, and the services that exist are not given adequate funding or other necessary resources to combat the staggering statistics. Furthering the discrepancies between heterosexual and LGBTQ2+ cases of intimate partner violence is police intervention. Police officers receive minimal training on how to recognize and address intimate partner violence in same-sex relationships. Resultantly, there are instances when the police end up arresting both the parties involved, including the survivor (Canadian Women's Health Network, 2).

Recommendations Concerning Intimate Partner Violence in the LGBTQ+ Community

The Take A Stand Committee recommends the following: to have increased representation of LGBTQ2+ members in intimate partner violence services, to increase the representation of LGBTQ2+ members in campaigns that aim to eliminate intimate partner violence, to include resources for members of the LGBTQ2+ community seeking aid from intimate partner violence, have specific policies that ensure women's shelters are safe spaces for trans women, and to provide police officers with the necessary training to handle cases involving queer people. The identities of LGBTQ2+ people must also be protected. These cases should be handled with the option for anonymous reporting and public events should have regulations in place to ensure anonymity, especially as it relates to the collection and dispersion of data.

Indigenous and Racialized Communities

Stereotypes and Misconceptions

In many ways, intimate partner violence has been racialized through the use of stereotypes and misconceptions. The stereotype of black men as 'predatory', 'aggressive', or 'animalistic' creates a misconception that they are more prone to violence than other racial groups. The stereotype of black women as 'lazy', and 'ghetto' means their trauma is less likely to be believed and as a result, they may find additional barriers and challenges when seeking assistance through the legal system. Misconceptions that portray men from racialized communities as inherently abusive ignores the reality that men can also be affected by abuse. These stereotypes play into a culture of toxic masculinity and prevent male survivors from seeking assistance.

Given the high proportion of immigrant communities in Brampton, there is also a stereotype that people from ethnic cultures are inherently more prone to intimate partner violence because they do not come from Westernized liberal democracies (Tabibi et al). This stereotype "culturalizes" violence and attributes it to culture rather than acknowledging violence as a structural inequality promoted by the patriarchy in conjunction with other systems of oppression (Tabibi et al.). The stereotype also leads to the ostracization of immigrant people by depicting them as inherently more violent. Both of these notions are harmful and must be dismantled.

Importance of Indigenous and Marginalized Led Treatment Services

It is imperative that Indigenous groups and other marginalized groups, facilitate and dictate their treatment services. To increase the efficacy of treatment and implement an anti-colonization and anti-oppressive approach to intimate partner violence, the affected communities should be able to make decisions about their own needs.

Implications of Race and Culture

Intimate Partner violence in racialized communities is quite different compared to some other communities (Native Women's Association of Canada). A study conducted by the Indian and Northern Affairs Canada (INAF) called Stolen Sisters: Discrimination and Violence Against Indigenous Women in Canada clearly illustrates how Indigenous women are at high risk of death due to intimate partner violence. Their research discusses how Indigenous women with Indian Status between the ages of 25 to 44 are five times more likely to die from violence compared to other women in the age group. Despite the rate being unbelievably high, such cases are more likely to go unresolved. Their study indicates that only 53% of cases reported related to homicides with Indigenous Women have been solved, compared to the national average of 84% in Canada.

Moreover, Statistics Canada also has reported that Indigenous women are more likely to undergo hazardous forms of family violence compared to non-Indigenous women. Over 27% of Indigenous women have reported that they faced 10 or more results from the same offender whereas only 18% of non-Indigenous women reported such a situation. Over 44% of Indigenous women have said that they "fear for their lives" in some cases of violence whereas only 33% of non-Indigenous women reported the same. Taking all these facts into consideration, we must analyze why the violence against Indigenous women is ignored.

According to the Ontario Native Women's Association, within Indigenous communities, 75% of sexual violence survivors are young females under the age of 18 (Ontario Native Women's Association). Additionally, the percentage of Indigenous women in Ontario is a mere 1.2% and yet they account for 6% of total female homicide victims. For racialized women, frequent exposure to continuously occurring racism and poverty puts them at a higher risk for intimate partner violence in their everyday life (Abban). According to NWAC, 54% of Indigenous women reported encountering severe forms of intimate partner violence compared to 37% of non-aboriginal women. These disturbing figures will not decrease unless there is the implementation of policy frameworks.

Recommendations Concerning Indigenous and Racialized Communities

The City of Brampton should emphasize the steps outlined by the Federal Truth and Reconciliation Commission, assessing their ability to meet each of these goals through a comprehensive framework. The City should also collaborate with grassroots and community leaders to create a direct liaison between the community and the authorities. Educational workshops and guest speakers should be strategically placed at accessible locations like schools, colleges, and community recreation centers. Efforts to combat the racialization of intimate partner violence should be led by professionals from the racial communities.

Equitable Treatment Options

Treatment programs for survivors of intimate partner violence are openly available throughout Canada, however, the treatment options aren't always equitable nor do they always consider the genuine needs of survivors. These services are often severely underfunded and prejudiced towards, but not limited to survivors with disabilities and Indigenous peoples'. In this section, treatment refers to the necessities survivors require to heal from their abuse and create autonomy for themselves. This can include but is not limited to, access to mental health support, income, housing, and food.

Challenges Facing Shelters and Transitional Homes

In recent years, many forms of treatment, such as relief shelters have been facing severe underfunding. According to a 2019 report done by Women's Shelters Canada, violence against women (VAW) shelters could not meet rising operating expenses without fundraising, and 10% still could not, even with fundraising. 86% of these shelters do not have any fundraising staff, meaning that staff is left overworked to take on fundraising responsibilities just to keep the doors open ("More Than a Bed: A National Profile of VAW Shelters and Transition Houses." Women's Shelters Canada, 4). Another burden shelters encounter is capacity issues. Four in ten VAW shelters reported operating at capacity "almost always". Many shelters take in more people than the number of available beds, at the cost of pushing capacity guidelines.

As a result of shelters facing over-capacity issues, 26% of VAW shelters are "difficult to access" for those who use wheelchairs and other mobility devices. 81% of these shelters are not often able to provide culturally appropriate programs to members of the Indigenous community. 79% of respondents that treated women with complex mental health and substance use issues concluded that sufficient treatment for these individuals was a "major challenge" for their shelters. *("More Than a Bed: A National Profile of VAW Shelters and Transition Houses." Women's Shelters Canada, 2*).

Limited Access

Legal aid can be very expensive. In the case of survivors dealing with things such as the custody of children and restraining orders, it is inevitable. A large demographic of survivors are aware that it is difficult to find affordable legal services, and they may not have the necessary finances to afford good quality services otherwise.

Many intimate partner violence survivors also have the responsibility of caring for children. This can cause a problem for them when leaving their abusers, as it may be difficult to find accommodations for both them and their children in treatment centers such as shelters and transitional homes. They may also not feel comfortable with admitting their children into programs like Child Protection Services, or foster home care. Also, programs specifically for

children that have been exposed to family violence are significantly underfunded (*Department of Justice "Final Report of the Ad Hoc Federal-Provincial-Territorial Working Group Reviewing Spousal Abuse Policies and Legislation" 9*).

Additionally, many communities do not have access to proper treatment. Those in rural and Indigenous communities may not have sufficient access to transportation to seek treatment. There is a desperate need for an increase in the number of second-stage shelters, particularly in rural, remote, northern and Indigenous communities. Many individuals also have concerns about not wanting to seek medical access, for fear of a breach of confidentiality *(Department of Justice "The Ontario Rural Woman Abuse Study" 25)*. As well, limited access to emergency services is a pressing issue. In areas such as Indigenous communities, large amounts of transportation, weather conditions and response times are important factors in understanding why the emergency services available are very constrained.

The INAC (Indigenous and Northern Affairs Canada) recognized that its FVPP (Family Violence Prevention Program) can not come close to supporting the vast number of people who require its protection and prevention services; these over-capacitated services include shelters and other essential services. There are also many limitations within the program, including but not limited to the lack of child services and the lack of services once they leave the shelters (*Indigenous and Northern Affairs Canada "Evaluation of the Family Violence Prevention Program" 41*). The Canadian Human Rights Tribunal discovered that the Government of Canada underfunds on-reserve agencies focused on children up to 38%, this statistic includes treatment options for family violence services (*Indigenous and Northern Affairs Canada "Evaluation of the Family Canada" "Evaluation of the Family Violence Prevention Program" 18*).

Recommendations Concerning Equitable Treatment Options

Training for Treatment Staff

For various groups, treatment options currently in place cannot meet their needs. As mentioned in the concern section, many facilities find it difficult to accommodate certain groups, due to a lack of proper training and information on how to do so. Specifically, the government should work towards developing and implementing city-wide training programs for treatment staff (such as shelter staff) which help to better equip them with the necessary skills needed to accommodate those in the LGBTQ2+ community, people from varying ethnic backgrounds, and those with mental health/substance abuse concerns. ("More Than a Bed: A National Profile of VAW Shelters and Transition Houses." Women's Shelters Canada).

Examples of elements in this type of training can include education on counselling, access to a wider variety of language services, etc. This type of training may consist of a month-long course, run by the city. It should be mandatory for anyone working with intimate partner violence survivors and completed immediately after the hiring process.

The implementation of such programs will have a great effect. It helps to ensure that services are non-restrictive and survivors seeking treatment face fewer barriers and have more access to equitable treatment options. This also means that treatment facilities will be able to treat more diverse groups, as opposed to having to turn such groups away from treatment as is currently happening.

More Services

One of the largest issues for intimate partner violence treatment programs is underfunding. Such facilities have a constant struggle of both being over-capacity, and not having the necessary resources for any form of expansion. ("More Than a Bed: A National Profile of VAW Shelters and Transition Houses." Women's Shelters Canada). This issue can be combated through an increased number of shelters and various treatment options throughout the city. This way, those in smaller areas can still access adequate services and do not have to travel a very far distance to achieve them.

One method to go about this is to use a location system already in place. This can be via the Municipal Ward Boundaries. An effective way to implement this would be to have at least one (if not, more) facility per ward, and multiple in the areas with a greater population density. The result of this will be equitable access to treatment for everyone within the city. It means that intimate partner violence survivors will be able to seek treatment, regardless of where they live. Overall, it would expand the option for treatment to everyone within the city of Brampton.

The creation of new facilities may be a difficult task, but it will have a positive long-term effect. If this is not possible, a similar recommendation that would be helpful is to increase funding to already existing shelters and various treatment options. This way, issues like overcapacity can be dealt with through expansions, and these centers will continue to provide their services and keep up with the rising cost of necessities.

As well, lack of accessibility turns many survivors away from seeking much-needed help. The implementation of more accessible services, such as ramps and handrails both within and around treatment facilities is a much-needed addition. This way, it can be ensured that treatment options are available to all people, and there is no discrimination based on not being able-bodied.

To start, this can be implemented through a required number of specific services (such as a ratio of handrails per exit). This way, buildings will be accessible from all sides. As well, options for at least one ramp per facility should be mandated.

Monitoring Equitability

Policies put in place are not evaluated frequently enough for advocacy groups to understand the needs of the communities that they serve. This lack of data makes it almost impossible to fully grasp how intimate partner violence has changed over time. To address this, an equity report should be created by the City of Brampton's Equity Office that evaluates the success of recent policies like the Community Safety and Well-Being Plan. This data should be made available to the general public and consultations should be held with key community organizers.

Police-Public Relations, Policy, and Legislation

Police-public relations in policy, legislation, and regulatory compliance are appreciated and recognized throughout Canada, however, factors like mandatory arrests, relationships with racialized communities, and lack of training create certain areas of disappointment in police-public relations. These factors are often seen as severely affecting the public and police relations, creating severe trust issues, and widening the problem of intimate partner violence in the community.

The Problem with Mandatory Arrests

The policy of mandatory charging was introduced in 1994 by the Solicitor General of Ontario in the Ontario Policing Standards Manual. (*"What Does Mandatory Charging Mean?"*) Mandatory charging is defined as the police officer's response to laying criminal charges in intimate partner violence cases if they have reasonable reasons for the abuse to have taken place. This policy has been a major source of controversy as many times the survivors of abuse have to suffer in many ways. Many survivors are placed at a higher risk of retaliation from their abuser as when the charges are laid the perpetrator can be more violent. Moreover, many survivors in a single-income household lose their only financial support if their partner is charged and/or arrested. As a result, survivors find reasonable ground to not inform the authorities or the first responders in cases of high risk to their living stability.

According to Public Health Canada, all forms of family violence are underreported. The experts say, "*In 2014, fewer than one in five (19%) who had been abused by their spouse reported the police abuse*" (Public Health Agency of Canada). The reason behind people not reporting intimate partner violence cases is that when the abused lives in the same household as the perpetrator or is in a relationship with the perpetrator and his family, it becomes hard to report the violence because of societal/cultural stigma and financial instability associated with it.

Based on the study done on 39 women victims of intimate partner violence, there is an inconclusive result in whether the survivors find the mandatory charging in benefit or not. The results of the study show that 38 out of 39 women participants (97%) listed at least one categorizable advantage, which was that mandatory arrest reduced the violence and/or increased their safety. However, 29 out of 39 participants (74%) listed at least one disadvantage of mandatory arrest: an increase in violence or anger when the perpetrator comes back from police custody. The study provided the view that the open-ended response of the participants in this study echoed the inconclusiveness of the past research done on the survivors. The study shows, *"Violence may decrease initially because the situation is defused, and the batterer is removed from the home; 13 participants mention this kind of a decrease... Violence may then increase when the abuser returns because he may be angry and seek revenge for being arrested"* (Barata, Paula C., and Frank Schneider). The study concludes that it would be misguided to use an increase or decrease of violence as the only measure of the success or failure of the policy

(Barata, Paula C., and Frank Schneider). Therefore, this policy provides the public with both the positive and negative aspects of mandatory arrest and can be concluded by saying that there are still survivors of intimate partner violence that are vulnerable in face of mandatory charging.

Police-Public Relationships with Marginalized Communities

The City of Brampton is home to many immigrants and marginalized communities. According to the 2016 census, 73.31% of Brampton's population is reported as being a visible minority ("Census Profile: Immigration & Ethnocultural Diversity"). Many family violence cases in these minority communities go unreported due to hesitance regarding police involvement. According to New Canadian Media, *"Marginalized groups, such as racialized communities and newcomers to Canada, may particularly be less inclined to seek police involvement"* (Hasan). One of the factors that contribute towards such a mindset is language barriers and lack of culturally and linguistically appropriate services that are easy to access ("Issue 26: Intimate Partner Violence Against Immigrant and Refugee Women"). Ninu Kang, an Anti-Violence expert, and Associative Executive Director at Ending Violence B.C., advocates that another deterrent to reporting intimate partner violence (for immigrants) is concern about entering an unfamiliar legal system, does not speak their language, is fraught with systemic racism, culturally insensitive, and sometimes dismissive ("Issue 26: Intimate Partner Violence Against Immigrant and Refugee Women").

Therefore, although Brampton is a city with varied immigrants and marginalized communities, it still needs to work on improving the police-public relations and justice system, which fails to provide equal resources and information to the immigrants and the marginalized community.

Take A Stand City of Brampton Mayor's Youth Advisory Council Brampton, Ontario

RE: Take A Stand Delegation - Written Remarks (Intimate Partner Violence)

One in three women worldwide are survivors of intimate partner violence. Everyday, 137 women are killed by a member of their family. Fewer than 40 percent of the women who experience violence seek help of any sort. Intimate partner violence is not an issue that stays behind closed doors. It seeps into the lives of our children and challenges our communities. A 2019 report by statistics Canada details the alarming rise in family violence over the past three years. Coupled with the COVID-19 pandemic, we have seen the emergence of what UN Women describes as a *'shadow pandemic'*.

For the past year, the Take A Stand team (as an extension of the Mayor's Youth Advisory Council) has been examining existing public policy, consulting past research, and meeting with young people across the city to create a comprehensive report that provides policy recommendations focused on a trauma-informed approach, a gender-informed approach and an anti-colonization approach to both intimate partner violence response and prevention. To supplement our presentation, we have submitted our policy paper which contains extensive details on our methodology, research and recommendation framework.

Our policy paper is divided into three sections; the principles, concerns, and our recommendations. Our principles serve as the foundation and guiding statements behind each of our recommendations. Each of the recommendations has been evaluated against how well it allows us to achieve our principles. Our concerns section highlights the key facets of the issue, specifically focusing on the sectors where we believe the most reform is required. Lastly, our recommendations use our research and the prior two sections to discuss what we believe the most effective policy to address the issue would look like. To address some of the gaps in our paper, we have also included a limitations section.

The policy paper focused on six areas of concern. The COVID-19 pandemic, intimate partner violence education, intimate partner violence in the LGBTQ2+ community, Indigenous and racialized communities, equitable treatment options, and police-public relations, policy and legislation.

A full list of our principles can be found in the policy paper however we would like to highlight the principle that all people have the right to be protected from intimate partner violence in all its forms. Similarly, a full list of our concerns can be found in the policy paper however we would like to highlight the concern that policies relating to intimate partner violence do not offer support to those affected in secondary and tertiary forms like children. We would now like to present our recommendations.

We recommend that existing awareness campaigns like the "It's Not Okay" campaign should continue, particularly expanding the number of languages the campaign is translated into. We also recommend that additional statistical evidence be collected by the City and that this data is shared with community organizers and leaders such that they can better understand the needs of their communities

To address intimate partner violence in the LGBTQ2+ community, we recommend that the City's equity office evaluates the number of LGBTQ2+ organizers required to increase representation in domestic violence services and intimate partner violence prevention.

To address the racialization of domestic violence and the increased rates of domestic violence in racialized communities, the City of Brampton should place emphasis on achieving the steps outlined by the Federal Truth and Reconciliation Commission by auditing their efforts and progress against the demands of the commission. Media created by the city should actively avoid the racialization of domestic violence and should be made in conjunction with equity seeking groups.

In order to address the lack of equitable treatment options, we recommend City-wide training programs specifically designed for treatment staff like shelter staff. This will equip them with the necessary skills to accommodate queer people, people from varying ethnic backgrounds, and those with mental health or substance abuse concerns. Lastly, police-public relations, policy, and legislation can be better by having town halls and consultation events concerning mandatory charging, particularly what mandatory charging means for racialized communities.

We would also like to briefly highlight the key limitations of our policy paper. The first limitation is that we do not place heavy emphasis on people with disabilities who also experience domestic violence. This is largely because of the very limited data that exists for such groups. The second limitation is that we were not able to receive input from Indigenous community organizers during our community consultations, therefore their perspective is not as represented as we would have liked.

Thank you for your time and your engagement with the youth of the City of Brampton. We hope our presentation provided meaningful and comprehensive information on some of the steps the City can take in order to rectify the issue.

Welcome!

Thank you to everyone who has taken the time to participate.

- pertinent social issues
- Today's agenda includes:
 - format overview
 - recommendations

• For the past year, an entirely youth-led team of 35 students has been researching and writing policy recommendations for two

Our Approach to the Policy Paper

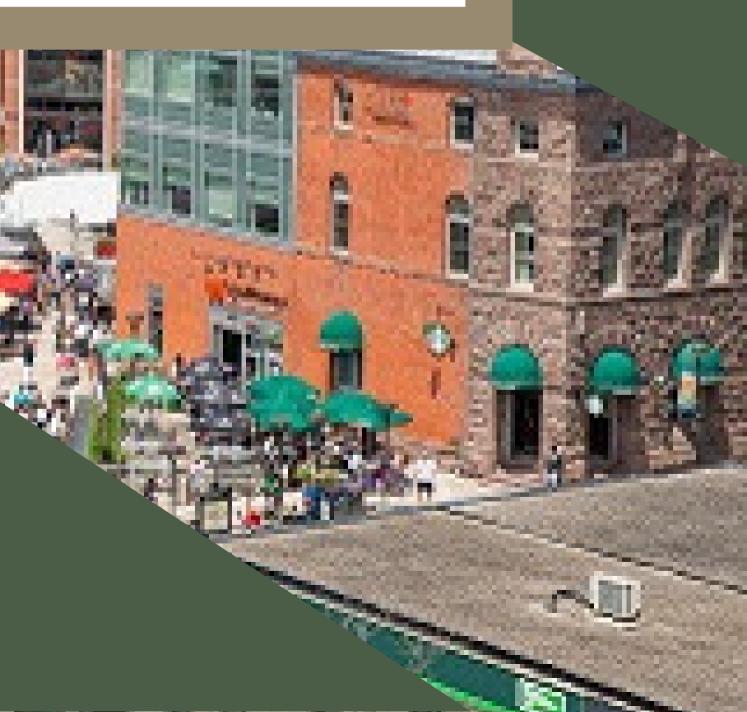

• Anti-oppressive

Gender-informed

• Harm reduction

Page 95 of 477

• The COVID-19 Pandemic

CONCERNS **OUTLINED IN** THE PCR PAPER

- Barriers to Employment
- Geography and Youth Unemployment

- Medium Enterprises (SME's)

• Youth Employment Programs and Career Readiness Programming Available to Youth

• Implications of Mentorship and Support on Youth Unemployment

• Costs of Employing Youth and the Investment into Youth Employment for Small-

Recommendations

Our Principles

Principles serve as the foundation and guiding statements behind our recommedations.

Principle: Youth should not face undue barriers such as discrimination based on gender, ability, race, sexuality or socioeconomic class when looking for employment.

Principle: All youth should be protected by legislation that demands equal and fair wages, safe working environments and equitable hiring and firing processes.

Principle: Community services and programming for youth should aim to maximize youth employability and address existing barriers to youth employment.

Principle: Youth should have equal employment opportunities.

Principle: Youth should have access to peer and industry support systems that increase mentorship and minimize the underutilization of labour.

Principle: Policies that address youth unemployment should recognize that these situations, are nuanced and multidimensional.

Our Concerns

Our concerns highlight key facets of the issue where we believe he most reform is required.

Concern: Marginalized communities are disproportionately affected by youth unemployment and more likely to be victims of discrimination, which can be reflected in hostile work environments, pay disparities or impaired career mobility.

Concern: Programming that does exist to address youth unemployment is severely underfunded, ineffective or lacking in representation.

Concern: Current labour policy does not address the undue barriers to youth unemployment that exist like geographical location. The declined use of public transportation due to COVID-19 has exacerbated the geographical barriers of youth.

Concern: Youth workers do not receive the necessary mentorship or support from the education system and other public services to match their skills with the current labour demand.

Concern: The stigmatization of specific career fields like the trades and the inaccessibility of others like STEM has resulted in a skills gap that has the most detrigental effects for marginalized young people.

Lecommendations

and a second section of the second second

and the second in the second of the second second

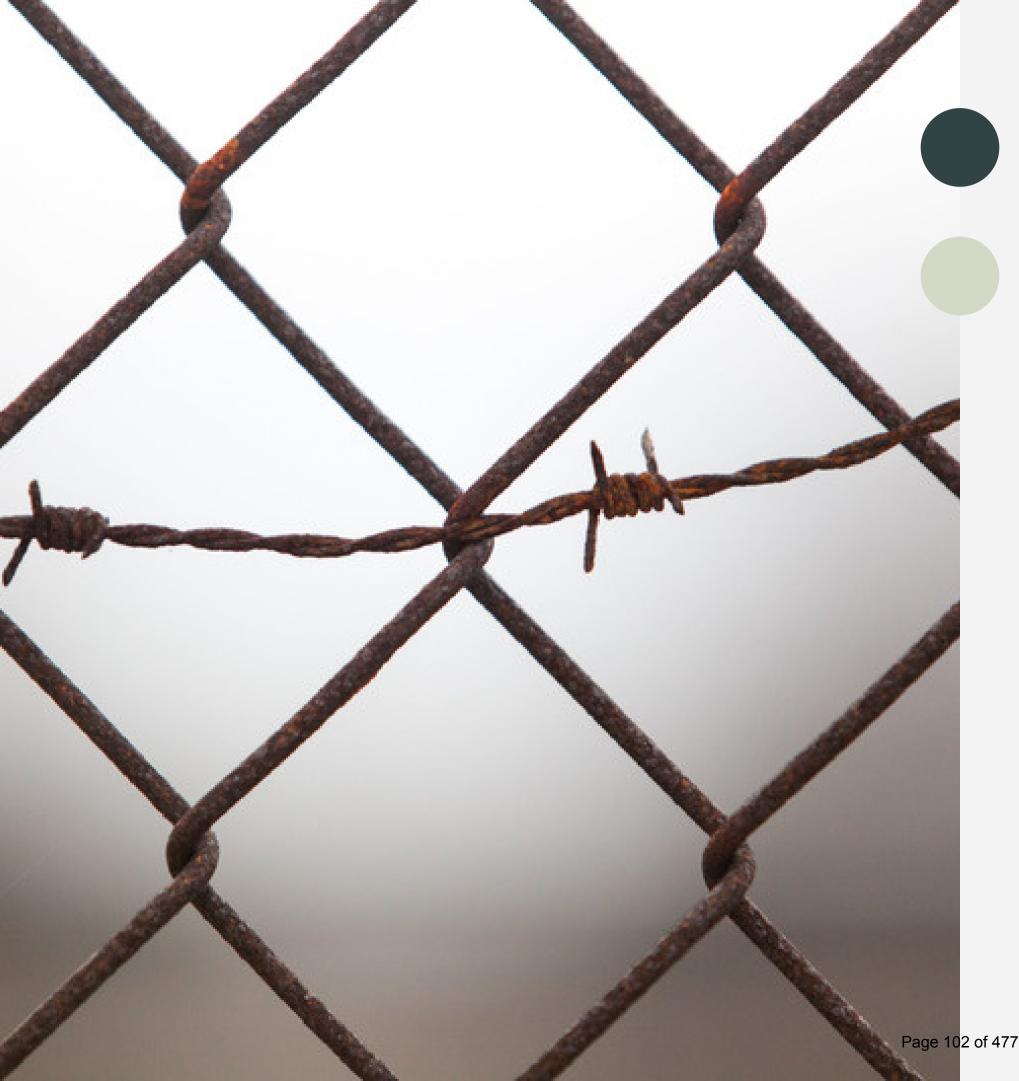

COVID-19 Pandemic Recommendations

• Immediate action must be taken to rectify the effects of COVID-19 on youth unemployment

• This action can include increasing investment into youth programming and mentorship.

• To address the gender disparities, existing labour policy must be examined and equitable work conditions maintained

• The hiring of youth should be made a priority in economic recovery plans

Barriers to Youth Unemployment Recommendations

• Undue barriers including lack of awareness, the stereotyping of youth, the absence of transferable skills and various forms of discrimination must be addressed

• Programming and advertising for workshops should be increased

• Young people should be provided certifications to mark their progress

• Programming should also focus on the development of soft-skills

Geography and Youth Unemployment Recommendations

- unemployment
- same

• Public transportation should be expanded and there should be an increase in remote job opportunities for young people

• A program that focuses on alleviating the costs of transit for youth job seekers would help resolve the geographical concerns that come with youth

• Increasing the number of online or remote job opportunities for youth through government programs and incentives for businesses to do the

• The City should move from auto-oriented urban planning to people-oriented urban planning

Youth Employment Programs and Career Readiness Programming Available to Youth Recommendations

Policy Paper

Youth Unemployment Prevention and Response in the City of Brampton

Summer 2021

Prepared by:

Eyitade Kunle-Oladosu, Co-Chair Take A Stand Lohit Kaushik, Co-Chair Take A Stand Shivohum Nar, Director of Legislative Committee Arham Ali, Legislative Committee Delegate Chenuka Arachchige, Legislative Committee Delegate Noordeep Cheema, Legislative Committee Delegate Jashanpreet Dhaliwal, Legislative Committee Delegate Richelle Furtado, Legislative Committee Delegate Shelby Ndongwa, Legislative Committee Delegate Fatima Panchbhaya, Legislative Committee Delegate Karanpreet Raja, Legislative Committee Delegate Gurpartap Thap, Legislative Committee Delegate Charu Unni, Legislative Committee Delegate Take A Stand is a youth-led policy provision organization composed of more than fifty students across the City of Brampton. Our team is passionate about politics and the stories of our community that can be expressed through public policy. We believe that communities are built on the backbone of storytelling. Take A Stand is founded on the idea that the stories of our community are multidimensional and multifaceted and therefore deserve to be told. Through our partnership with the City of Brampton and the Mayor's office, our vision is to provide research briefs and policy recommendations that assist in writing a new, nuanced and representative story for constituents of the City of Brampton. As dedicated youth from across the City, we have come together to voice our concerns, engage in meaningful dialogue and most importantly, take a stand on issues that we are passionate about.

This policy paper follows the same structure and formatting guidelines as the OUSA Gender-based and Sexual Violence Prevention & Response Policy Paper by the Ontario Undergraduate Student Alliance.

Executive Summary

The United Nations Universal Declaration of Human Rights affirms that "everyone has the right to work, to free choice of employment, to just and favourable conditions of work and to protection against unemployment. Everyone, without any discrimination, has the right to equal pay for equal work." The current rate of youth unemployment and existing work conditions for young people across the Municipality of Brampton demonstrates a flagrant disregard for this international principle. Young people must receive the same access to employment and labour protections afforded to other workforce members. The historic lack of support for youth employment has resulted in the loss of millions of dollars in revenue and prevented young people from acquiring the skills necessary to close the skill gap. This policy paper combines the concerns and voices of more than 50 young people across the City of Brampton with scholarly economic and labour policy research to offer recommendations that acknowledge the nuances and dimensions of the issue of youth unemployment. The recommendations were formulated through intensive primary and secondary research over four months. Although admittedly not an exhaustive examination of the issue, the Take A Stand team seeks to provide recommendations that address the pressing concerns of youth across the City of Brampton.

Note: For this report, youth unemployment refers to the proportion of young people between the ages of 15-24 who are currently looking for work but unsuccessfully in attaining employment.

Principles, Concerns and Recommendations

Principle: Youth should not face undue barriers such as discrimination based on gender, ability, race, sexuality or socioeconomic class when looking for employment.

Principle: All youth should be protected by legislation that demands equal and fair wages, safe working environments and equitable hiring and firing processes.

Principle: Community services and programming for youth should aim to maximize youth employability and address existing barriers to youth employment.

Principle: Youth should have equal employment opportunities.

Principle: Youth should have access to peer and industry support systems that increase mentorship.

Principle: Policies that address youth unemployment should recognize that these situations are nuanced and multidimensional.

Concern: Marginalized communities are disproportionately affected by youth unemployment and more likely to be victims of discrimination, which can be reflected in hostile work environments, pay disparities or impaired career mobility.

Concern: Programming that does exist to address youth unemployment is severely underfunded, ineffective or lacking in representation.

Concern: Current labour policy does not address the undue barriers to youth unemployment that exist like geographical location. The declined use of public transportation due to COVID-19 has exacerbated the geographical barriers of youth.

Concern: Youth workers do not receive the necessary mentorship or support from the education system and other public services to match their skills with the current labour demand.

Concern: The stigmatization of specific career fields like the trades and the inaccessibility of others like STEM has resulted in a skills gap that has the most detrimental effects for marginalized young people.

Recommendation: Immediate action must be taken to rectify the effects of COVID-19 on youth unemployment. This action can include increasing investment into youth programming and mentorship.

Recommendation: Undue barriers to youth unemployment must be addressed including geographical barriers. Public transportation should be expanded and there should be an increase in remote job opportunities for young people.

Recommendation: The City of Brampton should continue establishing programs that create job opportunities for young people in traditionally inaccessible industries. One of such programs includes the Rogers Cybersecure Catalyst and the Community Benefits Policy.

Recommendation: The City of Brampton should partner with small businesses to connect students with industry professionals, job opportunities and foster mentorship relationships. Such relationships can be established using the Brampton Entrepreneur Centre and similar programs.

Recommendation: The City of Brampton should regularly evaluate the effectiveness of their existing programming targeted towards addressing youth unemployment.

CONCERNS AND RECOMMENDATIONS

The COVID-19 Pandemic and Youth Unemployment

According to Statistics Canada, "Youth employment was severely impacted by the shutdowns – the percentage of 15 to 24 years old workers declined from 58% in February to just over 38% in April – by August, it had partly rebounded to just over 49%" (Statistics Canada). For young people who were able to keep their job, there was a significant decrease in working hours. A survey from the International Labour Organization (ILO) reported a 23% decrease in working hours for the average young person (Wilson). With fewer hours comes lower wages; 43% of young workers also reported a decrease in their earnings since the beginning of the pandemic (Wilson). As economic recovery from the pandemic begins, part-time youth workers have seen a significant increase in job availability whereas Statistics Canada reports that full-time work among young Canadians is still down almost one-quarter from pre-pandemic levels (Statistics Canada).

Gender Disparities in the COVID-19 Pandemic and Youth Unemployment

Youth unemployment has the potential to affect a young adult's cumulative earnings and also has effects on their flow of education, debt-payment, and living conditions. According to Statistics Canada, *"The Class of 2020 could lose between \$23,000 to \$44,000 in cumulative earnings over the next five years if this year's annual youth unemployment hits 28.0%. Losses are estimated to be between about \$8,000 to \$15,000 if the youth unemployment rate is at 19.0%. This could have impacts on the ability of graduates to repay their debts" (Statistics Canada). Women are at a greater likelihood of being affected by this loss than men. According to Statistics Canada, the percentage of earning loss of women in 2022 could be as high as 10% whereas men would face a 5-6% earning loss (Statistics Canada). A major contributing factor to this is the societal expectation of women as the caretaker both at home and in the workforce. If someone in their household became sick, women were more likely to take time off to take care of them. A report from the International Labour Organization showed from February to April 2020, the unemployment rate increased by only 6% (Goldin and Hobson). Women also occupy a disproportionate number of service roles and the vast majority of these jobs dissipated once lockdown was enforced (The Canadian Women's Foundation et al.).*

These inequities are exacerbated dramatically for women living on low incomes and women who have faced pre-existing inequities based on race, class, ability, education or immigration status (The Canadian Women's Foundation et al.). For example, the existence of medical racism in the Canadian healthcare industry meant female-identifying people from racialized communities may have to take indefinite leaves of absence because their concerns were not heard initially. For others, the issue was a lack of local public transportation or a hesitancy to visit the doctor because of historic injustices against their community. As a result of the COVID-19 pandemic, women were also more likely to be responsible for unpaid care work and poor emergency responses to the pandemic made the mental and emotional labour of this unpaid care work overwhelming (UN Women). These issues have a disproportionate effect on people with intersectional identities and should be addressed accordingly.

Recommendations Concerning the COVID-19 Pandemic and Youth Unemployment

The existing Brampton economic recovery plan focuses on innovation, arts, culture and tourism, infrastructure and investment, however it does not outline how the plan will prioritize the interests of women, in particular those whose identities have been affected by compounded marginalization. These women are business owners, artists, and local organizers, therefore their welfare must be a cause of concern. Although labour policy is mandated provincially by the Ministry of Labour, the City must bring areas of concern to the Province, particularly as it relates to equitable working standards. Existing regional policy plans like the Community Safety and Well-Being Plan should be expanded to include investments into care sectors most likely to impact women (The Canadian Women's Foundation et al.).

Part-time work must be reexamined to increase the number of paid sick leave days made available to workers, particularly those who work in essential services. Job security for part-time workers should also be evaluated to minimize labour protection disparities between full-time and part-time workers. The concerns of young workers should be heard and addressed.

Childcare can transform the career trajectory of young parents. The City of Brampton should advertise the Child Care Subsidy offered by the Region of Peel and ensure parents are aware of this option.

Above all, the City of Brampton must prioritize hiring young people especially those who already faced systemic barriers to employment before the beginning of the pandemic. The City of Brampton's economic revitalization plan does not acknowledge the need for increased training and investment into youth employment opportunities. The economic recovery strategy should collaborate with existing organizations like the Brampton Entrepreneur Centre to focus more heavily on the needs of young people.

Barriers to Employment for Youth

The barriers in question refer to the aspects of the current employment system that work against youth in their search for job opportunities. The Government of Canada has acknowledged these barriers which include the lack of awareness, the stereotyping of youth, the absence of transferable skills within younger populations, various forms of discrimination and barriers specific to Indigenous populations (Government of Canada).

Youth are oftentimes oblivious to the employment opportunities that are available to them. This is the result of the poorly created government websites/applications that showcase jobs. They are difficult to navigate and hard to understand, which makes it challenging for youth. Moreover, there is an issue with when these websites/applications are updated with more opportunities, youth are usually unaware. Resultantly, only those that can regularly access the websites/applications know about any updates.

Youth have long been associated with negative stereotypes which deter employers from hiring them. Stereotyping youth to be lazy, or immature impacts the opportunities available to them. Employers would rather hire older populations because they are viewed in a better light which undoubtedly contributes to fewer opportunities. These stereotypes must be addressed for youth to have access to further places of employment.

An absence of transferable skills within youth is another facet that needs to be considered when examining youth unemployment. As a result of inexperience, most youths do not have the necessary soft skills to succeed in a work environment. Without these transferable skills, employers are reluctant to hire youth and without employment, it is difficult for youth to develop these skills.

There is also significant discrimination that exists, impacting the employment of youth. Approximately 12% of respondents to the Government of Canada's Panel have stated that discrimination is what made it difficult for them to get a good job (Government of Canada). The youths most likely to face discrimination were "Indigenous youth, recent immigrant youth, LGBTQ2+, those who have disabilities, those with mental illnesses, racialized youth, those with criminal backgrounds and youth experiencing homelessness" (Government of Canada). Irrespective of one's background, all youth deserve the opportunity to work and it is unacceptable for this discrimination to exist.

Indigenous youth "continue to face a disproportionate number of barriers to training, education and employment compared to the non-Indigenous population" (Government of Canada). These include but are not limited to the gaps in funding for education, the need to travel extensively for jobs and education as well as discrimination from employers. The intergenerational trauma of colonization has also severely impacted Indigenous youth hence impacting their ability to obtain employment.

Recommendations Concerning Barriers to Employment for Youth

The barriers mentioned above are limiting youth from reaching their full potential. They need to be addressed for youth to be employed. Existing initiatives like the City of Brampton's Summer Company Program should be continued.

The City of Brampton should create a user-friendly website that makes it easier for youth to navigate. The City can also create a mobile app for Apple and Android, making it easier for youth to apply. In addition, the City should publicize when their website/app is being updated with more job opportunities, which will help youth be aware of the forms of employment available to them.

To address the negative stereotypes surrounding youth, the City should expand on the number of workshops on transferable skills they hold for youth and provide certificates upon completion. This will allow youth to not only have a certification that proves that they are not lazy or immature, but have the much-needed soft skills that are demanded in the workforce.

The discrimination that exists when youth are seeking employment is a major factor that needs to be resolved. The City can take certain steps to provide the most marginalized communities further opportunities to find work and aim to improve the hiring process. The City must also take firm action when an applicant feels that they are being discriminated against by a possible employer.

Geography and Youth Unemployment

A significant barrier keeping youth out of the workforce is the distance to places of employment. Young workers often will not have access to a reliable car, since they may have less economic stability than their older counterparts (Scholars.org, 2018). Additionally, they may have to share their vehicle with other family members as well, making the vehicle an unreliable method of transport for a regularly occurring job. With this in mind, youth often find the places they can work confined within a small area of walking or bussing distance from their homes. This limits the job opportunities available to them.

Youth often rely on public transportation to reach workplaces. A 2015 study found that youth were about twice as likely to use public transportation compared to older workers (Scholars.org, 2018). However, due to the COVID-19 pandemic, public transportation is no longer a viable option for many young people. The average ridership of people using Brampton Transit in 2021 is almost 50% less than it was before the pandemic (City of Brampton). This lack of public transport use exacerbates the geographical barriers faced by young workers, as their range of feasible workplaces shrinks to just locations within walking distance.

Recommendations Concerning Geography and Youth Unemployment

The City of Brampton has an ongoing partnership with the Region of Peel and the City of Mississauga to enact the Affordable Transit Program. This allows low-income families to receive a 50 percent discount on their bus passes. Considering the impact transportation has on youth employment, a similar program that focuses on alleviating the costs of transit for youth job seekers would help resolve the geographical concerns that come with youth unemployment. This subsidy would also help jumpstart the return to public transit after the risk of contracting COVID-19 has become minimal (Brampton Transit).

Another recommendation that would resolve the concerns above would be to increase the number of online job opportunities for youth through government programs and incentives for businesses to do the same. This solution would be a great way to overcome the geographical problems that youth encounter in their search for a job. Statistics Canada has found that after a 28% increase in employees who work from home, 76.9% of people from the age demographic of 15 to 34 years of age wish for at least half of their work to be from home (Mehdi and Morissette). Such a change would positively impact productivity since Statistics Canada has shown that only 8.6% of employees aged 15 to 34 accomplish less work, while 29.1% accomplish more work than usual (Mehdi and Morissette).

In addition, future planning of the city and its services must move away from auto-oriented decision making and instead, aim to be people-centric, focusing on addressing the needs of the people of Brampton. This includes an emphasis on making the city more accessible and traversable to its populace without the use of motor vehicles. If the city was more accessible through alternative means of transportation, such as through walking and biking, then it would be easier for youth without a reliable means of transportation to find employment throughout the city. This can be achieved by planning communities in the city to have all essential amenities and businesses closer to communities. Finally, city-wide initiatives to implement alternative methods of transportation, like biking, would help make these means of transportation more realistic for many.

Youth Employment Programs and Career Readiness Programming Available to Youth

According to Statistics Canada, the unemployment rate for Ontario youth (below 25) has consistently been about double the unemployment rate of adults (since 1978). Throughout the years, the Ontario government has implemented programs in an attempt to counteract this issue. For unemployed youth, there are currently very few training and support programs in place. However, these programs face a variety of challenges. For instance, many of these programs are severely underfunded, under-advertised, and not accessible to a wide variety of youth.

The first issue concerning youth employment programs and programming available to youth is underfunding. According to a report done by the international organization S4YE (Solutions for Youth Employment), services for youth employment currently tend to be underfunded and poorly utilized. (S4YE). This is a large concern as underfunding means that such programs are likely not able to last for a long time, due to the increasing costs of running them and a lack of funding to make up for it. This will go on to reduce the number and/or quality of programs available to youth for this issue soon.

Secondly, a large challenge for youth employment programs is under advertising. Currently, there is a large focus on digital media, especially amongst today's youth. With the changing times, it is important for advertising to evolve. While there are certain programs in place for youth, many of them take a more dated approach with traditional advertising techniques. However, this can mean that many youths are not aware of the resources that are made available to them, such as internships and several other forms of programs. ("13 Ways to Modernize Youth Employment in Canada") Therefore, under advertising can be the basis of various other issues, most specifically the underutilization of the programs and resources available, on both the perspectives of the youth and potential employers.

Recommendations Concerning Youth Employment Programs and Career Readiness Programming Available to Youth

To combat these issues, there are a variety of possible responses. First, the City of Brampton could invest more into the existing and the creation of more training and support programs. This would positively affect Brampton youth, as it would allow the programs to be updated, better fitting current needs and concerns. It could also be helpful to those youth facing barriers such as geographical unemployment. Secondly, the city could focus more on advertising such programs by increasing their frequency on platforms such as social media and being advertised to schools. This would allow a wider range of youth to access, learn and benefit from these programs. With these adaptations, the youth employment opportunities in Brampton youth would significantly improve.

The Implications of Mentorship and Support on Youth Unemployment

The high demand for youth with specific skills in industries like the trades, social services, and sales is often matched with an alarmingly small supply of young people. This misalignment is known as the "skills gap" and it is a leading cause of youth unemployment. The disparity in the supply and demand of youth skills is a result of several factors, the most prominent being a systemic lack of structural support for young people seeking employment. Young people are oftentimes not given practical career assistance services during their elementary or secondary education and existing public services suffer from inaccessibility. The question then becomes; "how do we match young people with the industries, skills, and technologies of the future?" and the answer is mentorship.

In this context, mentorship refers to pairing a young person with a non-parental adult or older peer to establish a positive interpersonal relationship (Root Cause for MENTOR: The National Mentoring Partnership and Open Society Foundations). Positive mentor-mentee relationships have the potential to not only create better-equipped workers but to also shape youth into successful adults. A 2011 joint study evaluated 73 various mentorship programs and found that mentoring has the potential to improve a young person's social-emotional, cognitive and academic outcomes. When these mentoring relationships are introduced during early childhood education, they also serve as a means of prevention and promotion (DuBois et al., 57-91). Mentors who positively shape their mentee's behaviour or social identity can provide one-on-one support in areas of career difficulty like leadership, interviewing skills, or educational resources. The approaches to mentoring also determine the nature of the relationship and its efficacy. Instrumental mentorship offers programs centred around achieving a specific goal or cultivating a skill for example educational achievement. However, developmental mentorship is catered towards more general positive development and does not always occur in structured environments; developmental mentorship can also look like a peer-to-peer, group, or online support system (Root Cause for MENTOR: The National Mentoring Partnership and Open Society Foundations).

The benefits of youth mentorship include promoting academic engagement and achievement, improving youth employability, and assisting in the development of non-cognitive skills. Students who are mentored are more likely to have higher levels of self-esteem and believe in the importance of formal education. These young people have a smoother school-to-work transition and feel a greater sense of career readiness (Linnehan 40-54). Mentors provide guidance, confidence and if necessary they can coordinate interventions for youth who they believe are at risk of being left behind. These relationships allow young people to set meaningful goals, experience career exploration, and perhaps most importantly, a mentor provides a sense of reliability for the mentee. So long as the mentor is present, the mentee knows that they have someone on their team, advocating for their success. In a recent study, 51% of respondents reported that their mentor-mentee relationship was "very helpful" and 28% reported that it was "fairly helpful" (Bruce et al.).

Concerns for Youth Mentorship

Young people from marginalized communities face youth unemployment at a disproportionate rate, with this disparity being alarmingly high for Black, Indigenous, and disabled young people. In the Peel Region, 30% of Black youth from the ages of 15-24 are unemployed and for Indigenous youth of the same demographic, the rate is 35% (Trillium Health Partners and Healthy City Stewardship Centre).

While mentoring can remove the barriers to career opportunities this is only meaningful if mentorship programs are invested in and made easily accessible. Young people of colour and youth workers from other marginalized backgrounds including those with disabilities or queer youth, face barriers to employment that must be accounted for when offering mentorship services.

Youth mentorship programs are also severely underfunded and as a result, the quality of these programs suffers. The most glaring problem is the severe lack of available mentors for such programs. The mentor recruitment process should be focused on finding individuals from a variety of diverse fields who will best reflect the cultural, environmental, or lived experiences of the young people in the program. These recruitment programs should also be coupled with training programs so that the standards relating to cultural competency, diversity, and inclusivity are sufficiently clear. The second problem is the insufficient funding provided to these types of programs. Mentorship programs are not just a social service but an investment into the future of the young people in our City. The grant and subsidy application process for organizations seeking to establish or better their mentorship programs can be extremely convoluted and this is worsened by the fact that such subsidies or grants are few and far between. The lack of funding contributes to the inaccessibility of such programs.

The effectiveness of mentorship programs increases by 32% when they occur for one year as opposed to just six months (Bruce et al.). In short-term mentorship programs, young people do not have the time to build a meaningful relationship with their mentor which can decrease the effectiveness of the program.

Recommendations Concerning the Implications of Mentorship on Youth Unemployment

The City of Brampton must invest in its existing youth mentorship programs. For example, existing partnerships with youth mentorship organizations like the HammerHeads program should be expanded and there should be a focus on encouraging young people who are underrepresented in these industries like women and racialized youth to participate. This can occur through media campaigns, pushing the program via local recreation centers or other locations where members of the community frequent. Subsidy and grant programs should be established to increase the accessibility and the quality of youth mentoring. Local organizations working at the grassroots level should be communicated with regularly to have a better understanding of their needs and how City funds can be used to fulfill these gaps.

There must be a greater emphasis on ensuring at-risk youth and marginalized youth have access to mentorship programs. This can be achieved by partnering with local businesses to provide research opportunities to young people from these groups. Partnerships with businesses should go beyond simply job training but instead, extend into character development and the creation of strong relationships. Young people should leave the mentorship sessions feeling a sense of emotional and career-related fulfillment. To track these developments, the City of Brampton should research the effectiveness of existing community programs, examining specific factors like graduation rate, employment rate, and gender. These reports should be released to the public.

Costs of Employing Youth and the Investment into Youth Employment for Small-Medium Enterprises (SME's)

Many businesses prefer to hire experienced individuals due to its efficiency to the business as a whole. Especially with Small Medium Enterprises, many prefer experienced individuals with real-time experience in the industry over inexperienced and young people who are just entering the industry. The reason behind this is that experienced individuals have an in-depth understanding of the true dynamics of the work environment and can execute their tasks at a greater efficiency rate compared to a new person just entering the industry. As a result, the experience appeals to SMEs and that's why they prefer experience over anything. For example, if they decided to go with an individual just entering the industry, they could potentially pay them less, but the work produced could be of a lower quality, take more time, or have more mistakes compared to if a person with lots of experience performing the same task. Thus, these are some costs that SMEs want to avoid and that is why youth may not be considered during the employment process. Due to this, the unemployment rate in Brampton has been on an upward trend, rising from 9.2% in Q4 of 2019 to 33.2% in Q4 of 2020. Not only this, but the government also expects that "*Peel's unemployment rates are expected to remain elevated in the medium term.*" The pandemic has a great responsibility for this rise but due to the cases reducing rapidly, we could expect the rates to stabilize again as Brampton was on a downward trend before the start of the pandemic¹.

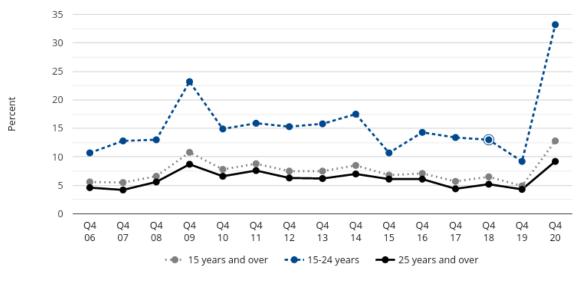

Recommendations Concerning the Costs of Employing Youth and the Investment into Youth Employment for Small-Medium Enterprises (SME's)

Probationary programs with subsidized wages: Such programs will be created to support youth and allow them to gain the experience they need to be successful in their work life. Additionally, having subsidized wages will support the youth financially and allow them to have some financial freedom. By gaining real work experience from these probationary programs, youth can excel in other aspects of life in the future as they are building relationships and learning constantly. This program can be implemented through requiring businesses to hire a specific number of youth members, as it will give youth the opportunity to gain real life work experience and allow businesses to grow as well. SMEs and also large corporations should be influenced to hire youth due to the lower cost for businesses and work experience for the youth, which makes this a win-win situation for both parties.

City of Brampton co-op programs (Brampton Entrepreneurship Office existing programs): By narrowing our focus and establishing partnerships with corporations or willing small and medium-sized businesses who are willing to hire youth will have many benefits. The government can work towards creating co-op programs for youth to be a part of while they are in high school or completing their education. By being a part of these programs, youth can gain real-life work experience, build strong relationships and also be prepared for the future. For instance, the City of Brampton currently has a program called "Summer Company," which allows youth to get funding for their business as well as mentorship and training. Similarly, additional programs like this can be created to support the youth and allow them to gain real-life work experience. By continuing to offer programs that maximize accessibility or professional programs and close the skill gap, we are taking one major step in the right direction for the future and this will allow youth unemployment rates to drop and actually give the youth a great opportunity to excel in life.

Take A Stand City of Brampton Mayor's Youth Advisory Council Brampton, Ontario

RE: Take A Stand Delegation - Written Remarks (Youth Unemployment)

We would like to extend our gratitude to the members of the City Council for engaging with young people. For the past year, the Take A Stand team (as an extension of the Mayor's Youth Advisory Council) has been examining existing public policy, consulting past research and meeting with young people across the city, to create a comprehensive paper that provides recommendations focused on eliminating youth unemployment within the city. To supplement our presentation, we have submitted our policy paper which contains extensive details on our methodology, research and recommendation framework.

Youth unemployment is as much of a social issue as it is an economic one. Therefore, our paper takes on an anti-oppressive, gender-informed, and harm reduction approach. The paper seeks to acknowledge historic systems of oppression that contribute to youth unemployment.

Our youth unemployment policy paper focused on six areas of concern. The COVID-19 pandemic, barriers to employment for youth, geographical limitations to youth employment, youth employment programs, mentorship support and the cost of employing youth in small-medium enterprises.

Our policy paper is divided into three sections; the principles, concerns and our recommendations. Our principles serve as the foundation and guiding statements behind each of our recommendations. Each of the recommendations has been evaluated against how well it allows us to achieve our principles. Our concerns section highlights the key facets of the issue specifically focusing on the sectors where we believe the most reform is required. Lastly, our recommendations use our research and the prior two sections to discuss what we believe the most effective policy to address the issue would look like. To address some of the gaps in our paper, we have also included a limitations section.

A full list of our principles can be found in the policy paper however we would like to highlight the principle that youth should not face undue barriers such as discrimination based on gender, ability, race, sexuality or socioeconomic class when looking for employment. Similarly, a full list of our concerns can be found in the policy paper and on the slide, however we would like to highlight the concern that marginalized communities are disproportionately affected by youth unemployment and are more likely to be victims of discrimination, which can be reflected in hostile work environments, pay disparities or impaired career mobility.

We would now like to present our recommendations.

The City of Brampton's existing economic recovery plan does not acknowledge the disproportionate effects of the COVID-19 pandemic on women nor does it account for intersectional identities like race, class, ability or immigration status. Therefore, we recommend that the execution of the plan prioritizes marginalized and racialized communities. The plan should focus on economic disparities faced by young people and create corresponding programming to develop transferable skills and build experience. The City of Brampton should continue communication with the Ministry of Labour to ensure equitable working standards and the protection of young workers.

To rectify barriers to youth unemployment the City should collaborate with interest groups like unions and the Ministry of Labour to advocate for hiring, and fight for policies that maximize equity and accessibility. This could manifest in the creation of a mobile app with job availability updates, or increasing the user experience of the existing website.

Geographical barriers serve as a major contributing factor to youth unemployment. The inaccessibility of public transportation and the fact that Brampton is not a walkable city means that youth are often confined to very short distances which limits their employment opportunities. The City of Brampton should continue the existing Affordable Transit Program and create a version that seeks to alleviate the transportation costs for youth. Another recommendation would be to increase the number of online job opportunities for youth through government programs and incentives for businesses to do the same

For unemployed youth, there are currently very few training and support programs in place. Additionally, these programs face a variety of challenges. For instance, many of these programs are severely underfunded, under-advertised and not accessible to a wide variety of youth.

Young people are oftentimes not given practical career assistance services during their elementary or secondary education and existing public services suffer from inaccessibility. The City of Brampton must invest in its existing youth mentorship programs. For example, existing partnerships with youth mentorship organizations like the HammerHeads program should be expanded and there should be a focus on encouraging young people who are underrepresented in these industries (like women and racialized youth) to participate.

The last aspect of youth unemployment that we will be discussing are the Costs of Employing Youth and the Investment into Youth Employment for Small-Medium Enterprises. To combat the unwillingness to hire young people, the City should implement Probationary programs with subsidized wages: This program can be implemented by requiring businesses to hire a specific number of youth members, as it will give youth the opportunity to gain real-life work experience and allow businesses to grow as well.

Our paper is not an exhaustive examination of the issue. Therefore we have also included a limitations portion to our delegation. The first limitation is that we do not analyze the links between urban planning and youth unemployment. We also do not heavily acknowledge the historic systems of oppression designed to prevent specific groups of youth from gaining

employment. To rectify this, we will attempt to reach out to organizations and groups that can provide us with data and guidance.

Thank you for your time and involvement with the youth of the City of Brampton. We hope our presentation provided meaningful and comprehensive information on some of the steps the City can take in order to rectify the issue.

Delegation to Brampton Committee of Council

Tom Wasik

- Canada's largest municipally-owned LDC delivering 22% of Ontario's electricity across 2,200 km² in the Greater Golden Horseshoe
- Serving 1.1MM customers in across 17 communities (20% of Ontario's electricity customers)
- Approximately 1,600 employees

Alectra Utilities (AUC) is responsible for distributing electricity to residents and businesses.

Alectra Energy Solutions and Services (AES) provides innovative energy solutions, such as microgrids, energy storage, solar PV, sub-metering, advanced metering infrastructure and street lighting.

Integrated Planning - Alectra, Municipalities, Regions, Utilities

- Brampton is a part of the IESO's GTA West Electricity Planning Region, which updated their Integrated Regional Resource Plan (IRRP) in July 2021
- At least once every five years, all relevant parties to Brampton (Alectra, Hydro One, the Region of Peel, and the city) come together under the IESO's IRRP to discuss population and electricity load growth forecasts and locations
 - Load growth in the area averaged 1.3% per year over the last five years
- This ensures that capacity exists to support expected summer peak demands in all parts of Brampton

Consultation and Collaboration to Support Brampton's Downtown

Community engagement

- In the *Downtown Revitalization Plan* area, the safe and reliable supply of electricity must be considered.
- Engaging residents and business owners on items such as infrastructure location is important in ensuring a timely and seamless process

Collaboration

- Alectra has been briefed on the Downtown Revitalization Plan and will work with city staff on streetscaping on Queen St and Main St
 - This includes the decision on the best way to supply the Brampton Farmer's Market, special events, and filming opportunities.
- Alectra will also take into account a potential LRT route on Main St in determining streetscape design

FAGE 1/2

1) ELIMINATE DEAD ZONE AGAINST SIDE NEIGHBOUR Page 149 of 4770 OPTIMIZE LOT WIDTH WITH POOL PAGE 2/2

Page 150 of 47 RESPECT 4' CLEARANCE AGAINST 2 REAR NEIGHBOULS

To the City of Brampton councillors and mayor,

I am communicating to you, my ward councillors and mayor, on a matter that has vexed our family for some time.

As several in our family have been from 'pool families', we have been planning and looking forward since the late winter to have a pool installed at our location on 66 Nickel Cr. in Brampton.

The process from that time to now, however, has not only been arduous but frustrating to a point of exasperation, dealing with permits, but more importantly, navigating through a never-ending cascade of bylaws.

We have gone through our due diligence to notify our neighbors by certified letter and cordial visitation of the impending construction and to respectfully request modifications to fencing to meet excessively stringent bylaws regarding pool enclosures.

Our rear neighbours (two of them) and one side neighbor have all refused to make any adjustments to their fencing, even when we offered to take care of the work.

The owner of the house of one rear neighbor was extremely belligerent and aggressive with my wife when she attempted to respectfully inquire to a fence adjustment and the other two neighbors have been cordial but totally uncooperative regarding our requests.

The other side neighbor is not an issue as they will share a new fence as part of the new pool enclosure.

As our new pool enclosure is a 6ft vinyl white fence, we were looking to optimize some space in our constrained back yard.

In this effort to optimize space, we appealed to the Property Standards Enforcement (see email string below) to at least allow the fence on the side neighbor to be placed against the existing fence and we respect the 4ft spacing to the rear neighbors.

I further offered to sign a waiver absolving responsibility as another solution.

The Property Standards Enforcement would not offer a reasonable compromise and are insisting on a 4ft spacing on two of the three sides of our pool enclosure.

As stated below, from my perspective this is now 'dead' space on our property and question the act of intent to climb a fence from our side neighbor, in which the probability is so low, it is negligible.

I further submit that:

- 1. The standards do not clearly define the type of person that would attempt to scale a fence (height, weight, stature) and only assume that this person somehow can scale the fence.
- 2. The standards offer no consideration of the fact that scaling a fence to enter a private property without consent is, by law, illegal. Therefore, the onus of risk must be assumed by the transgressor.

- 3. Further to submission 2, even if the fence was more difficult to scale, where does the standard prevent the transgressor from using some other device to scale the fence. At what point does this standard enter the realm of absurdity?
- 4. No mention is made with regards to the probabilities of attempts to scale a fence at a 6ft height or take into account abutting structures on the opposite side of the fence.

In my profession of designing high speed packaging equipment, I am aware of machine safety having to comply with industrial safety standard. In risk assessment, the probability of risk is evaluated with resulting consequences and mitigation is taken. To be very clear, this is weighed against a fine line between making a machine functional vs non-functional with extreme overengineering. Moreover, there is an onus of liability placed on the person intentionally defeating the safety in place.

In the case of this fencing situation, I see the same where onus of liability is assumed by the individual intentionally defeat the purpose of the fence.

Therefore, I am appealing to my city representatives for a reasonable solution which I had asked the Property Standards Enforcement from initially.

If the City cannot offer any assistance in this matter, then the City needs to absolutely clear as to the reasons I should be paying City property taxes on 'dead' space as a result of a stringent city bylaw.

In my mind, my property taxes should be adjusted down to the lost space resulting from no compromise with the City on this matter.

Respectfully Robert Seles

Brampton ON

Invited and Forgotten: International Students in Crisis

Roundtable/Nucleus Discussion

September 7, 2021

Page 154 of 477

Framing the Problem

 Invited and Forgotten: the scope of the ongoing International Student crisis in Canada

1. Labour Exploitation and Financial Difficulty

- Exorbitant tuition costs and immigration agent/consultant fees
- Insufficient resources to last the school year while in Canada
- Working under the table and getting paid less than minimum wage
- Uninsured employment and inadequate training can lead to extremely dangerous working conditions (e.g., in warehouses, trucking)
- Continuous pressure to support families back home
- Impact of COVID-19 for students relying on part-time jobs

2. Human Trafficking and Sexual Exploitation

- Unrealistic expectations and general lack of awareness about struggles in Canada
- Debt bondage (from partner, friends, or employer) leads to sexual abuse and violence
- Exploitation by employers who demand sexual favours in exchange for paying the students' rent, food, or tuition
- Overall higher vulnerability due to financial constraints

3. Lack of Housing and Supports on Campus

- Overcrowded basement rentals and unaffordable accommodation, especially in major cities
- Exploitation by local landlords (often with connections to the students' village)
- Unaccredited private colleges end up scamming the students who end up without a proper degree or job
- Local colleges have granted diplomas without providing sufficient English language classes

4. Drug Trafficking and Legal Issues

- As their financial situation worsens, some students are forced into crimes such as drug trafficking, theft, burglary, carjacking, etc.
- Some students are promised cash jobs and used as drug mules
- Common cases include those of truck drivers crossing the Windsor-Detroit border
- CBSA has detained international students or work permit holders attempting to traffic drugs over the Canada/US border
- Difficulty in accessing interpreters or affording legal counsel

5. Mental Health, Addiction, and Suicide

- Lack of culturally appropriate counselling and support services on campus
- Social isolation, language barriers, discrimination, and culture shock
- High stress levels affect both physical and mental health
- Lack of awareness and stigma around sexual health education resulting in rise of unwanted pregnancies
- Debt bondage and precarious immigration status are often leading causes of suicide

Next Steps

- 1. Do educational institutions acknowledge these issues?
- 2. How can we all work together to help solve this problem?
- 3. Consider writing a letter to IRCC and the Ministry of Colleges and Universities

Invited and Forgotten: International Students in Crisis

Delegation to the City of Brampton

September 15, 2021

Framing the Problem

- Dramatic increase in difficulties faced by international students:
 - 1. Labour exploitation and financial issues
 - 2. Human trafficking and sexual exploitation
 - 3. Lack of affordable housing or resources on campus
 - 4. Drug trafficking and legal issues
 - 5. Mental health, addictions, and suicide

Persistent Institutional Denial

- This issue involves several stakeholders, including the various levels of government, as well as educational institutions
- We need to collectively acknowledge this problem and work together to support our international students

Call to Action

• Who is going to take responsibility and solve this problem?

Our Action Plan includes:

• Convening a roundtable with social service agencies, institutions, community partners, and government bodies

Report Staff Report The Corporation of the City of Brampton 2021-09-22

Date: 2021-09-01

Subject: Accelerator	Continuing partnership with the Founder Institute, Start-up		
Contact:	Devin Ramphal, Sector Manager, Innovation & Technology, devin.ramphal@brampton.ca, 416-606-1308		
Report Number:	Planning, Bld & Ec Dev-2021-948		

Recommendations:

- THAT the report from Devin Ramphal, Sector Manager, Innovation & Technology, dated September 1, 2021 to the Committee of Council Meeting of September 22, 2021 re: Continuing partnership with the Founder Institute, Start-up Accelerator (2021-948, File CE.x) be received; and
- 2. **THAT** Council direct staff to process the payment for year two of the three-year agreement in the amount for \$30,000, to the Founder Institute funded from the approved 2021 Economic Development operating budget.
- 3. **THAT** the Director of Economic Development be authorized to approve the remaining payment to Founder Institute for future year(s) within the framework of the existing agreement between the City of Brampton and Founder Institute.
- 4. **THAT** staff reports to Council on the results of the partnership with the Founder Institute on an annual basis.

Overview:

- The Founder Institute (FI) is a global pre-seed accelerator providing support to high potential, early-stage companies.
- FI provides support to companies through specialized programming, training courses, access to funding and introductions to a world-class mentor network.
- FI has graduated over 4,300 companies that have raised in excess of \$950M and has helped create approximately 25,000 jobs globally.
- In 2020, Council passed a motion directing staff to enter a 3-year agreement between the City of Brampton and Founder Institute. Year 1 of the agreement is complete as of Sept 2021

- The purpose of this report is to approve payment for year two of the three-year agreement.
- FI is an important part of Brampton's Innovation District.

Background:

The Founder Institute (herein referred to as "FI") is a global pre-seed start-up accelerator for highly scalable businesses. The FI program enables entrepreneurs to graduate into seed-accelerators, generate early sales traction, recruit a team, build a product, and/or transition from employee to entrepreneur. Founded in 2009, FI has grown into over 200 cities across 75 countries and 6 continents. Since its founding, FI has graduated over 4,300 companies, which have gone on to raise in excess of \$950M and have helped create approximately 25,000 jobs. One of the most notable companies that has started out of FI is a learning platform called Udemy, which provides access to thousands of online courses and has raised over \$173M in funding.

Sunil Sharma, most recently credited with his work in attracting the popular Collision Conference to Toronto from Las Vegas where it was formerly held, is a prominent figure in the Toronto tech scene and leads the Toronto FI chapter as well as TechStars Toronto as the Executive Director.

Current Situation:

In September of 2020, through Council Resolution CW168-2020, staff was directed to enter into a 3-year agreement with Founder Institute. FI is an important part of Brampton's Innovation District. The first year of the partnership is complete and Founder institute played a critical role in growing the Brampton Innovation District. In summary during the first year:

- 1195 people participated in FI events virtually throughout the first year.
- 9 new industry partners were engaged through FI including venture capitalists and tech companies.
- 23 Brampton Founders participated in the FI program
- 22 new introductions were made to City staff from FI including entrepreneurs, tech companies and leads.
- 3 virtual international missions were supported by FI.
- 5 FI fellowships were granted to Brampton Founders.
- A total of 434.5 hours of mentorship and office hours were available for Brampton Founders in the FI program

The detailed KPI's can be reviewed in Appendix A. Some additional examples of the Brampton specific collaboration with FI include:

High quality leads- The FI team consistently supply Brampton with high quality leads for tech companies looking to expand and relocate. Two examples are listed below.

<u>Lead #1</u>- The Economic Development team is currently exploring collaboration opportunities with a high potential start-up based in Lagos Nigeria that provides technology companies access to highly skilled and vetted, international tech talent.

<u>Lead #2-</u> This tech company from Lagos Nigeria has raised a seed round of over \$1M USD and has just acquired a small transit company of Aug 2021. City of Brampton staff is currently working closely with this company on expanding their business to Brampton from Lagos.

Micro mobility- The FI team have made warm introductions with growing tech companies in the micro mobility space with the intention of elevating the Brampton Innovation District through technology adoption.

<u>Zygg</u>- City of Brampton staff have had preliminary discussions with Zygg, an innovative tech start-up that has introduced electric bikes on a subscription basis.

<u>Roll Scooters</u>- City of Brampton staff have had preliminary discussions with Roll Scooters, a tech start-up with a unique approach to bringing e-scooters to cities around Canada. Roll Scooters also delegated to council in June 2021 regarding a micro mobility pilot in the City.

Brampton Entrepreneurs- The FI team have been able to connect City of Brampton staff with new entrepreneurs in Brampton and connect them into the Innovation District.

<u>Ellerca Health</u> – The FI team introduced Economic Development to the founder of Ellerca Health, Daniel Yeboah, who is a Brampton Entrepreneur, has a health tech start-up and raised six figures in his seed round. Upon completion of Founder Institute Daniel joined the RVZ.

<u>Vent IQ-</u> The FI team introduced Economic Development to the founder of Vent IQ, Shaival Desai, who is a newcomer to Canada, a mechanical engineer and Brampton Entrepreneur that has developed a SMART home Internet of Things tech start-up and is currently raising an investment round.

Promoting the Brampton Innovation District- Sunil Sharma has collaborated with the City of Brampton in providing opportunities to showcase the Brampton Innovation District.

<u>Speaking opportunities-</u> FI has provided speaking opportunities for Mayor Brown at major FI events such as graduation ceremonies and opening ceremonies.

<u>Brampton Ecosystem Canvas-</u> The FI team in California has independently researched and developed a preliminary ecosystem map of the Brampton Innovation Ecosystem. This ecosystem map may be used as a marketing tool in the future.

<u>Marketing videos-</u> Sunil has participated in the creation of marketing videos as an ambassador for Brampton and the Brampton Innovation District.

Corporate Implications:

Financial Implications:

The City of Brampton and Founder Institute are entering into year 2 of a 3-year agreement (\$30,000 per year for three years, for a total commitment of up to \$90,000). Sufficient funding is available within the Economic Development 2021 operating budget to cover the \$30,000 funding requirement for year 2. Departmental staff will ensure there is sufficient funding in place for future years of this contract, subject to Council approval.

Communications:

Following Council approval, the Executive Director of The Founder Institute shall be notified of Council's decision.

Founder Institute will be invited to provide an update to Council on the status and progress of this partnership on an annual basis.

Staffing Impact

City staff shall continue to work with FI on an as-needed basis to identify and nurture the leads generated from this partnership.

Term of Council Priorities:

This report achieves the Term of Council Priorities laid out by the current term of council.

Living the Mosaic – 2040 Vision:

A partnership with Founder Institute fulfills the 2040 Vision Goal of leveraging community partnerships to build relationships with local organizations.

2019-2022 Council Term of Direction: A Compass for Our Community:

Create Complete Communities

Revitalize existing neighborhoods like the Downtown Core to encourage work, live, and play.

Attract Investment and Employment

Public sector investments like this are vital to the work of the Economic Development team in attracting jobs to Brampton.

Conclusion:

This report recommends that the City of Brampton continue to invest in the Innovation Ecosystem in Brampton by continuing its partnership with Founder Institute to expand its programming into Brampton.

Sheridan

Friday, September 17, 2021

Members of Brampton City Council:

Further to my delegation on Wednesday, September 15, 2021, I'm writing to provide a written summary of my remarks on the urgent matter of positioning all post-secondary learners in Brampton and Peel to flourish.

International students are an integral and valued part of Sheridan's diverse learning community. They choose us for our reputation, commitment to quality, and graduate outcomes – all of which are publicly reported. There is no shortage of international demand for admission to Sheridan and our standards remain high. Over the last three years, however, the percentage of international students at Sheridan has decreased from 35% to 32% across our three home communities. In Brampton specifically, the percentage of international learners has decreased by 5% of total campus enrolment. This was intentional and responsive to concerns from our city and municipal partners about social infrastructure.

In that same time period, however, international enrolment across the City's 65+ post-secondary providers – at private institutions and through private/public partnerships in particular -- has skyrocketed. The numbers, however, are only part of the equation.

Drawing on my three decades of experience as a leader wholly focused on positioning all students to flourish, here is what I know about this learner demographic:

- international students typically come to Canada with big dreams and a lot of courage -- I'm routinely awed by their resilience;
- many carry an incredible burden of expectation;
- they all face obstacles that are atypical of the domestic student experience and are often wary of accessing resources; and,
- there is a solid body of research that can and should inform best practices for supporting international student success inside and beyond the classroom.

Further to the delegation made last week at Committee of Council by Punjabi Community Health Services (PCHS) and Catholic Family Services Peel Dufferin, the challenges faced by international students are complex and laden with interdependencies. As a consequence, effective solutioning demands a deep understanding of the issues and the stakeholders. The only path forward is one grounded in innovative, creativity and collaborative problem solving

Brampton and Peel can lead social and policy innovation in this space – a view that is shared by our colleagues at Punjabi Community Health Services, Catholic Family Services Peel-Dufferin and Indus Community Services. I had very constructive, collegial calls with Gurpreet Malhotra, Baldev Mutta and Sharon Mayne Devine about how we can more effectively drive systemic change across federal, provincial, municipal, and institutional jurisdictions. To correct any misperception -- this level of collaboration with community partners including PCHS and Indus is not new. In fact, we've long worked

Brampton | Mississauga | Oakville

The Sheridan College Institute of Technology and Advanced Learning 1430 Trafalgar Road Oakville, Ontario L6H 2L1 T 905 845 9430

closely on crucial initiatives like the CommUNITY vaccine clinic. Many of you visited the clinic and saw that collaboration in action. Those and other agencies were on a call with our teams as recently as August 26 to talk about Sheridan's services and facilitating effective referrals.

Sheridan's orientation towards radical engagement and reciprocity is central to its Strategic Plan: Galvanizing Education for a Complex World. The Plan codifies our commitment to contribute to local economies and society by offering programs that reflect labour market needs and a unique blend of teaching excellence, hands on learning, research, innovation and exceptional creativity. The Plan also underscores our unwavering commitment to equity and inclusion. A piece of this puzzle is a shift towards ensuring our leadership reflects the diversity of our learning community. In terms of positive gains, we have exceeded the federal 50:30 Challenge targets regarding gender parity and significant representation on both our Board of Governors and senior management team. I'm equally proud to report that a quarter of our Board came to Canada as international students; their lived experience and perspectives continue to inform our planning and priorities.

Above all else, Sheridan's central mission is to cultivate resourceful, highly skilled and creative people and communities through cross-pollinated, active learning and the relentless incubation of new ideas. The good news is we have evidence that our formula for driving those outcomes is working. We collect, for example, a tremendous amount of data about our students through benchmarked surveys. Sheridan's key performance indicators attest to things like student satisfaction and graduate outcomes; the National College Health Assessment provides insight into our students' mental and physical health; the National Survey on Student Engagement provides us with data about how degree students spend their time and what they gain from attending Sheridan.

We collect data to inform our practice and ensure that we're delivering on the promise of postsecondary education. This is demonstrative of the responsibility we accept for ensuring that all students at Sheridan are positioned to flourish. We know that the obstacles to success for international students are significant. That's why we have developed and implemented purposeful, custom designed, evidencebased and data-informed programming to meet their needs: we distributed over \$2.2M through our COVID Emergency Bursary; supported over 4000 international students in 2020-21 via immigration workshops; served 1,560 hot meals to international students from November 2020 to May 2021; provided \$69,750 in grocery gift cards since April 1, 2020, delivered 642 mental health/counselling appointments to international students; increased international student use of the our student health centres by 150% in 2020-2021; delivered 14 week pre-arrival orientations to 6,700 international students; and provided free tutoring, English-language support and legal advice to all international students.

We actively assess the efficacy of our work. We host 5-10 graduate students annually from York, UofT/OISE, and/or the University of Guelph who conduct research on the impact of these interventions.

Sheridan invests to address mental health, food insecurity, housing, immigration matters and genderbased violence (including sex trafficking). In addition, we've launched targeted, special hiring processes to better meet our community's needs. Sheridan employs five South Asian doctors in the student health centre, one of whom provides culturally-specific cognitive/behavioral therapy for South Asian students. There are also four nurses and one nurse practitioner who identify as South Asian; the latter was herself an international student from India. All of our services can be provided in multiple languages including Hindi, Punjabi and Gujrati.

Brampton | Mississauga | Oakville

The Sheridan College Institute of Technology and Advanced Learning 1430 Trafalgar Road Oakville, Ontario L6H 2L1 T 905 845 9430

sheridancollege.ca

Our work is fueled by collaboration. Many international students, for example, do not reach out for help due to shame and stigma; they need to develop mental health literacy and help-seeking behaviour before they are in crisis. In partnership with SOCH mental health and the Centre for Campus Innovation in Mental Health, Sheridan created five videos about mental health geared towards our South Asian student population on topics like depression, risky behaviours and suicide. The videos were produced in Punjabi and English.

We take a comprehensive approach to healthcare and wellness. All international students at Sheridan are required to purchase comprehensive health insurance through Guard.Me International Insurance. Recognizing that international student mental health and wellness needs are deeply rooted in cultural values systems, Sheridan also procured "keep.meSAFE", a mental wellness international student support app designed specifically for international students. This app provides multilingual culturally-based mental wellness support to international students no matter where they are in the world. It provides self-help resources in the form of articles, podcasts and videos as well as real time phone, chat or video based mental wellness counselling in the language of the students' preferences. In the 2020 – 2021 school year there were 2,310 downloads of the keep.meSAFE app by Sheridan International students, 4,587 self-help articles/podcasts/videos were accessed and there were 204 counselling appointments for international students.

Even with all of these supports in place, however, some students at Sheridan still fall through the cracks. As an educator, a researcher and leader deeply invested in the transformational power of post-secondary education, I'm concerned about *every* international learner – regardless of their institutional affiliation.

Certain things are foundational to learning: personal safety, food security, safe and affordable housing, and the senses of purpose and belonging. Recent tragedies and a spate of media coverage has brought this again to the forefront, but this has been a growing issue in Canada for some time. Every leader at Sheridan is horrified to hear that a student has been exploited, hurt, or is hungry, facing extreme financial insecurity or unbearable stress and anxiety. We are committed to doing whatever we can to provide support, prevent tragedy and put people on the track to thriving. I believe that Sheridan is living its commitment to all our students but more and better is always possible. What I've outlined to this point however is just one piece of the solution – it's what Sheridan brings to the table.

As a recent report issues by One Voice Canada suggests, larger scale reforms are needed; specifically, Sheridan supports the call to improve the integrity of the international student program and the welfare of international students, through three specific actions:

- Conduct a comprehensive evaluative study of the international student program, examining the period between 2014 and 2020.
- Regulate and reduce tuition fees for international students.
- Increase funding and training for specialized services within postsecondary international student offices.

Similarly – we support calls by the World Sikh Organization for the federal government to:

- Crack down on employers and immigration consultants engaged in illegal and harmful practices.
- Be aware and vigilant of exploitative practices and ensure other levels of government and partners are committed to a zero-tolerance policy.

Brampton | Mississauga | Oakville

The Sheridan College Institute of Technology and Advanced Learning 1430 Trafalgar Road Oakville, Ontario L6H 2L1 T 905 845 9430

sheridancollege.ca

- Review and revise the criteria of federal permanent residency programs to reflect the current economic hardships.
- Urge provincial governments and post-secondary institutions to address the significant and growing inequities in tuition fees.
- Pressure the provincial ministries to enhance existing and develop tailored settlement supports.
- Work diligently and quickly to address the backlog of visa applications.

Little of this is new for Sheridan. We've been advocating for years on the urgent need for government investment in student mental health. I chaired a national committee that worked with Bell Canada and the Mental Health Commission of Canada to establish a new Standard for Psychological Health and Safety for all Post-Secondary students. This work recognizes that postsecondary students are particularly vulnerable – and that they need access to timely, effective, culturally relevant and flexible on-campus mental health care that responds appropriately to their unique needs. I also sat on a federal advisory committee aimed at addressing gender-based violence – including sexual assault, sex trafficking and harassment – on Canadian campuses. The resultant framework is impacting practice and will have an impact.

Sheridan and other partners must now, however, turn our attention to addressing these issues through *more* collaboration, *more* creative problem-solving, and *more* constructive dialogue.

Following from consultations with key partners and community leaders, Sheridan has offered to co-host a roundtable with the City of Brampton that would be convened immediately. In that small group discussion forum, senior leaders will come together to plan a large summit to be held this winter. Our shared goal is to position Peel Region as the best practice model for international students in Canada. I believe that is achievable. Sheridan will cover convening and hosting costs; we would ask two esteemed colleagues from the services sector to co-chair. Together, we will collect data, relevant reports, and conduct applied research to better understand the lived experiences of international students, hear community concerns and incorporate feedback from service providers on the front lines.

Sheridan has been a proud pillar of the Brampton community, growing in step alongside the City, for over 50 years. We're eager to continue to play a leadership role and help those who need us the most. We hope you'll join us in this important effort.

Sincerely,

Janet Morrison, PhD President & Vice Chancellor

cc: Hazel McCallion, Chancellor, Sheridan City Clerk

Report Staff Report Committee of Council The Corporation of the City of Brampton 2021-09-22

Date: 2021-09-13

Subject: Purchasing Activity Quarterly Report – 2nd Quarter 2021

Contact: Gina Rebancos, Director, Purchasing, Corporate Support Services 905-874-3435

Report Number: Corporate Support Services-2021-988

Recommendations:

- That the report titled: Purchasing Activity Quarterly Report 2nd Quarter 2021, (2021-988) to the Committee of Council Meeting of September 22, 2021, be received.
- 2. That the Purchasing Activity Quarterly Report includes a summary of contracts with a value of \$100,000 and greater with upcoming renewal options, prior to contract renewal execution.

Overview:

- The City's Purchasing By-law 19-2018, prescribes reporting requirements with respect to the City's Purchasing activities.
- This report provides a summary of the City's purchasing activities with a total value of \$78,883,428 during the 2nd quarter of 2021. Specific procurement details are provided in Appendix 2.
- As per Council direction, Appendix 2 has been updated to include a brief description as Supplementary Information for each procurement activity.
- Appendix 3 of this report provides a summary of upcoming Contract Renewals from April 1, 2022 to June 30, 2022. Although Contract Renewal options are available, these options will need to be reviewed by the Lead Department and Purchasing to determine whether it is in the City's best interest to exercise the renewal of a Contract.

Background:

In accordance with the Purchasing By-law, the Director of Purchasing is required to provide quarterly reports to Council summarizing the City's purchasing activity as follows:

- New Contracts with a value of \$100,000 and over;
- Contract Extensions and Renewals with a value of \$100,000 and over;
- Exceptions;
- Emergency Purchases; and
- Disposal of assets.

Definitions are noted in Appendix 1.

On June 16, 2021 Council received the Report on Council Intimation of Purchasing Contract Extensions and Renewals (\$200,000 or greater, or if equal or greater value than the original contract) (RM 74/2020). Although staff recommended the current reporting requirements remain unchanged, the report did include the following recommendation that could have been adopted by Council, which reads:

That staff provide the quarterly Purchasing Activity Report so that it includes a summary of contracts with a value of \$100,000 and greater with upcoming renewal options, prior to contract renewal execution.

Current Situation:

This report includes Contract Renewal options for the period April 1, 2022 to June 30, 2022 (refer to Appendix 3). Although Contract Renewals are available, these options will be reviewed by the responsible Lead Department, in consultation with Purchasing, to determine whether it's in the City's best interest to renew the contract or conduct a procurement process.

In response to Council's request for additional information, Appendix 2 is updated to include a brief description for each procurement activity.

The following table provides a synopsis of the purchasing activities during the 2nd quarter ending June 30, 2021.

	2n	2nd Quarter 2021	
New Contracts	\$	55,371,566	
Limited Tendering	\$	1,719,492	
Emergency Purchases	\$	386,575	
Exceptions	\$	-	
Consulting Services	\$	-	
Contract Extensions	\$	12,850,964	
Contract Renewals	\$	8,554,831	
Total Purchasing Activity	\$	78,883,428	
Proceeds from the disposal of assets	\$	59,894	

A detailed listing for each category is provided in Appendix 2.

Corporate Implications:

Funds required for procurement are verified through the City's Corporate Financial System to confirm budget availability. Purchase orders are issued after confirmation of budgeted funds in order to commit and allocate the funds to the specific procurements.

Term of Council Priorities:

This report has been prepared in full consideration of the Term of Council Priority of "Brampton is a Well-Run City", demonstrating value for money of City Programs and services through open, fair and transparent procurement processes.

Conclusion:

This report provides a summary of the City of Brampton's purchasing activities as required by the Purchasing By-law for the 2nd quarter, April 1 to June 30, 2021 in accordance with the reporting requirements set out in the Purchasing By-law 19-2018. In addition to the reporting requirements, this report provides a summary of upcoming contract renewal options from April 1, 2022 to June 30, 2022 for review and consideration by the City. The staff is also requesting Council approval to continue to add to the Purchasing Activity Quarterly Report the summary of contracts with a value of \$100,000 and greater with upcoming renewal options, prior to contract renewal execution.

Appendix 1: Definition of Terms Referenced in this Report Appendix 2: Specific Procurement Details Appendix 3: Potential Contract Renewals

<u>Appendix 1</u>

Purchasing terms referenced in this report are:

Competitive means a Public Procurement Process.

Consulting Services means a Procurement Process for the acquisition of expertise or strategic advice not including architects and engineers.

Contract Amount is the original contract value and any previously approved contract extensions and renewals.

Contract Extension means an amendment increasing the value, changing the scope of work or extending the term, where the terms of the Contract do not include the option for such amendment.

Contract Renewal means an amendment extending the term and increasing the value, where the terms of the Contract include the option for such amendment, including preapproved contingency funds.

Disposal means the sale, exchange, transfer, destruction or donation of assets.

Emergency Purchases means a Procurement Process where the usual competitive process is suspended due to the prevailing Emergency Circumstances.

Exceptions means exclusion from a competitive Procurement Process in the circumstances as set out in Section 2.3 of the Purchasing By-law.

Limited Tendering means a Procurement Process where negotiations are entered into with one or more Vendors based on the conditions as set out in Schedule C of the Purchasing By-law and includes Direct Negotiations where there is no competitive process.

22	Public Works & Engineering	4	T2021-019 REMOVE AND REPLACE EXISTING OVERHEAD DOORS AND MISCELLANEOUS BUILDING ENVELOPE AT FLOWER CITY COMMUNITY CAMPUS	Competitive	S.A.B BUILDING RESTORATION LTD.	\$ 111,604			The following building envelope and interior finish deficiencies are to be rectified by this project: 1) Some areas of the brick facades have been previously repointed; however, approximately 30% of the façades currently require repointing including localized areas of interior brick partitions. 2) The exposed concrete block foundation along the south and east elevations of the lunch room and both sides of the north elevation overhead door have disintegrated. The condition of most of the exposed concrete block foundation on the north elevation was not visible as they appear to have been covered with asphalt when the asphalt surface was replaced. 3) The plywood infilled overhead door on the north elevation is deteriorated. 4) Three overhead doors that have exceeded their life expectancy are recommended to be replaced with insulated aluminium replacements complete with two rows of lites each. 5) The finish on the three pedestrian doors and door frames are worn. It is anticipated to be competed by August 30, 2021.
23	Public Works & Engineering	ALL	T2021-022 ELEVATOR MAINTENANCE SERVICES FOR A THREE YEAR PERIOD	Competitive	TK ELEVATOR (CANADA) LIMITED	\$ 406,860			The contract is for Elevator PM/DM Service for City wide facilities for a three year period with 2-1 year optional renewal period.
24		1,2,3,4,6,7,8 ,9	T2021-024 ROAD RESURFACING	Competitive	SANSCON CONSTRUCTION LTD	\$ 15,067,147			Contract for Road Resurfacing Program was awarded through competitive bidding process. The contract is awarded to the lowest bidder. It is anticipated to be completed by December 31, 2021.
25	Engineering	ALL	T2021-032 STORM SEWER SYSTEM MAINTENANCE AND CATCH BASIN MATERIAL RECYCLING SERVICES FOR A TWO YEAR PERIOD	Competitive	FLOW-KLEEN TECHNOLOGY LTD	\$ 1,468,700			This is a City-wide storm sewer system maintenance contract for a two year period with 3-1 year optional renewal periods. Maintenance includes vacuum cleaning catch basins, preventative maintenance of storm network and routine maintenance of end-of-line treatment devices throughout the City. Additional services include are: transportation of street sweeping material for processing and the resolution of urgent calls for storm sewer related issues.
26	Public Works & Engineering	4	T2021-050 PAVILION METAL ROOF REPLACEMENT AT ELDORADO PARK	Competitive	APPLEWOOD ROOFING AND SHEET METAL LTD	\$ 296,126			A recent comprehensive roof audit was commissioned that revealed several active water leaks at various locations, standing water within the box gutter, and potentially concealed substrate deterioration. In light of the audit findings, it was recommended that the entire roofing system be replaced to address the leakage and prevent further deterioration to the roof substrates and underlying structure. It is anticipated to be completed by November 30, 2021.
27	Public Works & Engineering	7	T2021-051 ROOF REPLACEMENT AND ELASTOMERIC COATING AT ANIMAL SHELTER AND ENFORCEMENT SERVICES BUILDINGS	Competitive	SUNRISE ROOFING CONTRACTORS INC	\$ 684,728			The contract is for complete roof replacement at both 475 & 485 Chrysler Dr. Due to delays from suppliers of crucial roofing materials, the contractor is not able to mobilize prior to September.

#	Lead Department	Ward #	Bid Call No. and Description	Procurement Type	Vendor	Contract Amount (Includes total contract value at the start of the reporting quarter)	Current Quarter Contract Renewal (In Scope)	Current Quarter Contract Extensions	Supplementary Information
28	Public Works & Engineering	ALL	T2021-078 SUPPLY AND DELIVERY OF PAINT & PAINT SUPPLIES FOR VARIOUS LOCATIONS FOR A THREE YEAR PERIOD	Competitive	PPG ARCHITECTURAL COATINGS CANADA, INC.	\$ 202,571			The contract is for the supply of Paint & Paint Supplies for City wide facilities for a three year period with 2-1 year optional renewal period.
29	Public Works & Engineering	7	T2021-089 REFRIGERATION UPGRADES AT CHINGUACOUSY CURLING CLUB AND EARNSCLIFFE RECREATION CENTRE		CIMCO REFRIGERATION, DIVISION OF TOROMONT INDUSTRIES LTD.	\$ 335,110			The contract is for the replacement of older refrigeration equipment which has reached its life expectancy. A competitive procurement was issued and Cimco Refrigeration is the successful bidder on the project. Work is proceeding with some demolition of piping and concrete bases. It is anticipated to be completed by September 10, 2021.
30	Public Works & Engineering	3	T2021-090 ROOF AND MECHANICAL EQUIPMENT REPLACEMENT AT CORPORATE TRAINING CENTRE	Competitive	PROTECK ROOFING & SHEET METAL INC.	\$ 233,177			Complete roof replacement, along with replacement of a single RTU and interior mechanical equipment, including wall mounted and baseboard electric heaters. Anticipated completion date of August 31, 2021. Bid call was issued for competitive pricing, to list of pre- qualified roofing contractors. Ten (10) bids were received; PO awarded to lowest compliant bidder.
31	Public Works & Engineering	ALL	T2021-096 MISCELLANEOUS GUIDE RAIL REPAIR SERVICES FOR A TWO YEAR PERIOD	Competitive	PENINSULA CONSTRUCTION INC.	\$ 236,441			The contract is to provide demand maintenance on guard rail for a two year period, with 2 1-year optional renewal period.
32	Public Works & Engineering	7	T2021-099 REPLACEMENT OF APRON SLAB AND PARTIAL ASPHALT PAVEMENT AT FIRE STATION 202	Competitive	LAKESIDE CONTRACTING COMPANY LIMITED	\$ 173,616			There are cracked and spalled areas of concrete present throughout the exterior concrete apron slab-on-grade adjacent to the apparatus bay. At some locations, parallel cracks and corrosion stains are present. The spacing of the parallel cracks is consistent with the spacing of the top steel reinforcement bars. Therefore, the cracks appear to be propagating along the steel reinforcement bars at these locations, likely attributed to the corrosion of the bars. In addition to the deterioration of the concrete slab-on-grade, the asphalt pavement adjacent to the slab-on-grade is also exhibiting localized areas of deterioration, particularly on the south side of the slab. According to information provided, the aerial fire truck housed at this facility frequently drives over/makes turns over the asphalt pavement on the south side of the slab-on-grade. The large amount of friction produced by the heavy turning load of the aerial is likely causing/contributing to the deterioration at this location. It was recommended to replace both the concrete appron slab and the adjacent asphalt pavement with a new concrete slab- on-grade. It is anticipated to be completed by the end of September, 2021.
33	Public Works & Engineering	4	T2021-103 ROOF REPLACEMENT AT FLOWER CITY COMMUNITY CAMPUS	Competitive	EILEEN ROOFING INC	\$ 112,000			General contractor services to conduct roof repairs at FCCC Dormitory E and F. The scope of work includes replacement of the asphalt roof shingles at both buildings. It is anticipated to be completed by mid September, 2021.

4	Lead Department	Ward #	Bid Call No. and Description	Procurement Type	Vendor	Contract Amount (Includes total contract value at the start of the reporting quarter)	Current Quarter Contract Renewal (In Scope)	Current Quarter Contract Extensions	Supplementary Information
34	Public Works & Engineering	3	T2021-115 REPLACEMENT OF EXISTING REFRIDGERATION PLANT EQUIPMENT AT BRAMPTON MEMORIAL ARENA	Competitive	CIMCO REFRIGERATION, DIVISION OF TOROMONT INDUSTRIES LTD.	\$ 232,813			TSSA visited the site following the award of the Construction contract and issued a number of orders relating to the existing condition of the refrigeration room and the systems currently serving it. As per the TSSA orders, the following need to be addressed/rectified as part of this project: Extensive revisions to the exhaust and ventilation systems, relocation of ammonia vent piping, relocation of ammonia purge apparatus, fire proofing of all wall penetrations, removal and replacement of all combustible base building systems within the refrigeration room. All orders issued by TSSA go above and beyond the original scope of this project and <u>must</u> be completed as part of the project.
35	Public Works & Engineering	3	T2021-127 ROOF REPLACEMENT AT CLARK TRANSIT FACILITY	Competitive	T HAMILTON & SON ROOFING INC	\$ 704,937			The contract is to provide roof replacement for 185 Clark Transit Facility: 1. The complete roof replacement of approximately 31,792 square feet. 2. Replacement of fourteen (14) domed skylights 3. Replacement of three (3) exterior ladders 4. Installation of a new, approx. 840-linear foot patio stone (24" x 24") walkway leading to all serviceable equipment It is anticipated to be completed by December 31, 2021.
36	Public Works & Engineering, Transit	ALL	RFP2021-061 REPAIR AND REPLACEMENT OF GLASS ON VEHICLES AND VARIOUS EQUIPMENT FOR A TWO YEAR PERIOD	Competitive	505217 ONTARIO LIMITED O/A SURE AUTO GLASS/ BRAMPTON RUST CHECK	\$ 213,668			Repairs and replacement of auto glass on various City vehicles (Transit buses and Fleet vehicles) for a two year period with 2 1-year optional renewal terms. The contract is shared among several depts., to increase purchasing power and provide best value for the City.
37	Transit	ALL	RFP2021-084 BRANDING, MARKETING AND LAUNCH EVENTS FOR HURONTARIO LIGHT RAIL TRANSIT	Competitive	BARRETT AND WELSH INC.	\$ 232,500			In partnership with the City of Mississauga, the scope includes the branding, marketing and launch events for the Hurontario Light Rail Transit (HuLRT) project. Phase 1 and 2 include research, brand name and visual identity development with an estimated completion date of October 2021. Phase 3 includes a marketing campaign promoting the service launch of the HuLRT through outreach, advertisements, digital and social media promotions, The estimated completion date is end of 2024 with the launch of the HuLRT in service.
38	Transit	ALL	T2021-013 SUPPLY AD DELIVERY OF ELECTRICAL COMPONENTS FOR TRANSIT	Competitive	WURTH CANADA LIMITED	\$ 221,840			Supply and delivery of various electrical components for Transit buses for a three year period with 2-1 optional renewal period. Components are supplied by the vendor to the 2 Transit garages.
39	Transit	ALL	T2021-111 RENTAL SERVICES OF SUBCOMPACT CARS AND PASSENGER MINIVAN FOR BRAMPTON TRANSIT FOR A THREE YEAR PERIOD	Competitive	SOMERVILLE NATIONAL LEASING & RENTALS LTD. O/A ZEEMAC LEASING	\$ 739,404			Rental vehicles used to shuttle transit bus operators to and from their routes for a three year period. The previous contract had 2 options to exercise, however, Transit staff opted to go out to market instead to seek best pricing.

40	Corporate Support Services	ALL	LT2021-125 ADVERTISING SPACE FOR BOTH NEWSPAPER AND DIGITAL ADS IN METROLAND MEDIA	Limited Tendering	METROLAND MEDIA GROUP LTD.	\$ 400,000			Metroland Media to secure advertising space both print and digital for the Corporation for a one year period, with 1-1 year optional renewal period.
41	Public Works & Engineering	1,3,5,6,7,8	LT2021-141 PROVIDE ALL LABOUR, MATERIALS AND EQUIPMENT NECESSARY FOR THE MAINTENANCE OF THE RAILWAY CROSSING AND SIGNALS ALONG THE CN RAIL LINE FOR A FIVE YEAR PERIOD	Limited Tendering	CANADIAN NATIONAL RAILWAY COMPANY	\$ 245,676			The required maintenance of the crossing signals and railway can only be provided by CN. The cost and cost sharing associated with said maintenance between the City and CN has been pre-determined by transport Canada Via Orders at the time of the crossing construction. Updated nationwide maintenance costs are published by the Canadian Transportation Agency.
42	Public Works & Engineering	ALL	LT2021-157 SUPPLY AND DELIVERY OF OEM (ORIGINAL EQUIPMENT MANUFACTURER) PARTS AND SERVICE FOR METRO FREIGHTLINER VEHICLES FOR A THREE YEAR PERIOD	Limited Tendering	METRO FREIGHTLINER HAMILTON INC.	\$ 540,000			To supply all wards with parts and services for city owned and operated Freightliner vehicles for a three year period with 2-1 year optional renewal period. December 2020 the City publicly tendered a contract for parts and services which included Freightliner vehicles. No bidders satisfied the public bid. As the need was still a requirement of the City, Metro Freightliner was awarded as the only OEM supplier of this brand.
43	Public Works & Engineering	ALL	LT2021-159 SUPPLY AND DELIVERY OF ONE HOLDER SIDEWALK TRACTOR SWEEPER	Limited Tendering	HOLDER TRACTORS INC	\$ 133,816			A replacement was required of an all season enclosed tractor. The only available make and model physically fit the Brampton downtown areas, based on the specification advertised and required is the Holder X45i. The contract is now complete.
44	Public Works & Engineering	ALL	LT2021-160 SUPPLY AND PICKUP OF SUMMER HOT MIX ASPHALT FOR A THREE YEAR PERIOD	Limited Tendering	AECON CONSTRUCTION AND MATERIALS LTD	\$ 400,000			The contract is for the supply & pickup of Summer Hot Mix Asphalt to perform asphalt repairs to roadways and City assets for a three year period, with 2 1-year optional renewal period. Given the nature of the requirement, the product needs to be supplied by vendors within a close proximity of City facilities because the product must retain the heat in order to be used effectively. Aecon Construction and Materials Ltd has a plant in Brampton.
45	Corporate Support Services	ALL	COMPREHENSIVE INVESTIGATION INTO P1 SECURITY INCIDENT	Emergency Purchase	FIREEYE, INC., D/B/A MANDIANT	\$ 90,000			Engaged Mandiant to assist in investigation of a potential security incident.
46	Public Works & Engineering	4	EMERGENCY WORK TO RESTORE POWER AT POA	Emergency Purchase	HOLLEY ELECTRIC LIMITED	\$ 46,575			Main electrical feed from the transformer on the street broke down causing a disruption of power supply to POA. We ordered a generator through Holley Electric to restore power to the court house. New wiring had to be pulled through the duct bank from the street to the building. ESA inspection was completed. UPS invertor that was damaged during this incident needs to be replaced and has been ordered.
47	Corporate Support Services	ALL	COVID VACCINE MARKETING CAMPAIGN	Emergency Purchase	BT/A ADVERTISING	\$ 250,000			As per Council direction, this contract was issued to help promote the COVID vaccine marketing campaign. It is anticipated to be completed by August 31, 2021.

The Contract Extension was required as a result of Building Division to complete a scan project and final destruction.
49	Corporate Support Services	ALL	ANNUAL MAINTENANCE OF THE HASTUS SOFTWARE (TRANSIT SCHEDULING SOFTWARE)	Contract Extension	GIRO INC	\$ 1,044,114		\$ 147,344.00	The Hastus software by Giro runs all aspects of Transit's daily operations from routes to driver scheduling. The contract extension was required as a result of the final payment for the annual maintenance and support required to keep the system operational.
50	Corporate Support Services	ALL	LT2019-007 ADVERTISING SPACE FOR BOTH NEWSPAPER AND DIGITAL ADS IN THE BRAMPTON GUARDIAN	Contract Extension	METROLAND MEDIA GROUP LTD.	\$ 725,000		\$ 40,000.00	Metroland provides ads within Brampton Guardian city wide. A contact extension was required to facilitate the payment of outstanding invoices dated prior to the expiry date of Feb 28, 2021. A procurement process for a new contract with Metroland commenced and a new contract is now in place.
51	Corporate Support Services	ALL	LT2020-121 COVID19 WEEKLY TELE TOWN HALL; COVID19 TASK FORCE TELE TOWN HALLS; COVID19 WEEKLY PRESS CONFERENCES	Contract Extension	7514433 CANADA CORP O/A BELLWETHER TECHNOLOGIES	\$ 425,170		\$ 147,550.00	Bellwether Technologies facilitates the weekly COVID Press conferences; COVID 19 Task Force Tele Town Halls and other scheduled Tele Town Halls as required. A contract extension was required to allow sufficient time for a new procurement process to commence. The new contract will be in effect for August 2021.
52	Services	ALL	N2015-028 SUPPLY END USER TECHNOLOGY PRODUCTS AND SERVICES FOR DESKTOP	Contract Extension	COMPUCOM CANADA CO	\$ 6,000,000			The contract is for supply and delivery of End User Technology Products (Desktops, Laptops, Executive Laptops, Tablets, Monitors, Docking Stations and Al-In-Ones) and Desktop Management Services. A contract extension was required to support the purchase of equipment for year 2021. Year 2021 budget (\$1,150.000.00) has been approved. Funding for 2021 will be used to support the yearly computing hardware Refresh Program, support for the council approved positions and provide hardware for several new business/project requests. Due the current COVID-19 emergency we are being asked to support the transition from traditional desktop computing to Laptops to meet the demand for staff that are working remote/home. The \$900,000.00 ask is sufficient to cover the 2021 Refresh normal business process. Any additional devices asks will need to be reviewed as to funding availability as part COVID- 19 emergency. The province of Ontario has extended the current agreement with CompuCom by 18 months ending Nov 7, 2021. All purchases pertaining to 2021 have been approved by Council through the annual budget cycle.
53	Fire & Emergency Services	ALL	T2014-030 SUPPLY, DELIVERY, INSTALLATION AND TRAINING OF "SCOTT" OPEN CIRCUIT SELF-CONTAINED BREATHING APPARATUS AND RELATED COMPONENTS	Contract Extension	3635112 CANADA INC. O/A M&L SUPPLY, FIRE & SAFETY	\$ 1,206,093		\$ 80,000.00	This Contract is to supply the Fire Fighters with SCBA, Masks, packs, bottles, etc. The contract extension was required to cover any misc. items that are not covered by warranty as well as any new units for net new staff or replacement of staff. All Fire Fighters must have the same SCBA across the department.

	Lead Department	Ward #	Bid Call No. and Description	Procurement Type	Vendor	Contract Amount (Includes total contract value at the start of the reporting quarter)	Current Quarter Contract Renewal (In Scope)	Current Quarter Contract Extensions	Supplementary Information
54	Fire & Emergency Services	ALL	VCOM PARTNER'S RADIO REQUIREMENTS	Contract Extension	MOTOROLA SOLUTIONS CANADA INC	\$ 1,822,500		\$ 50,000.00	The contract was for the initial acquisition, maintenance and support for user radio equipment and accessories. A contract extension was required as a result of additional radio equipment for a new fire apparatus. Equipment was required from this vendor to match all other radio equipment in the fleet.
5!	Public Works & Engineering	9	BID CALL NO. T2015-097 CONSTRUCTION OF THE NEW SPRINGDALE LIBRARY AND NEIGHBOURHOOD PARK AT 10705 BRAMALEA ROAD, BRAMPTON, ONTARIO.	Contract Extension	AQUICON CONSTRUCTION CO LTD	\$ 16,722,515		\$ 245,681.11	A contract extension was required for time extension and to cover the costs of change orders that occurred during construction involving unforeseen issues and design corrections. Contract is in closeout stage.
50	Public Works & Engineering	ALL	LT2019-014 SUPPLY AND DELIVERY OF OEM PARTS AND SERVICE FOR VARIOUS LAWN MAINTENANCE EQUIPMENT	Contract Extension	G.C. DUKE EQUIPMENT LTD	\$ 250,000			For the supply and delivery of parts and services to City owned Jacobsen lawnmower equipment. The contract extension was required as a result of unforeseen additional repairs. Additional funds were required to meet current invoices and future expenses necessary to carry the contract to term April 2022.
5	Public Works & Engineering	8	RFP2009-064 DETAILED ENGINEERING DESIGN FOR THE IMPROVEMENTS TO GOREWAY DRIVE (STEELES AVENUE TO BRANDON GATE DRIVE)		STANTEC CONSULTING LTD	\$ 1,031,725			A contract extension was required as a result of recent changes in the permitting process and requirements needed to comply with the new environmental compliance process mandated by the approval authorities to accommodate the new access road required by the Region of Peel. There are also other revisions not related to the new Region access road but were requested by various stakeholders such as the streetlighting and Alectra new requirements on the already completed electrical design, the contract documents review to comply with the new Ontario Regulation for Excessive Soil Management, the changes to the property plans and storm design etc. The contract extension was required as a result of the review and update to the tender package completed in 2018 to incorporate new changes in standards, code reference and the City of Brampton latest version of tender package requirements. Consultant is also claiming cost escalation for works included in the original 2009 fees but have yet to be completed due to delay in the project.
58	Public Works & Engineering	8	RFP2013-028 RETAINING A CONSULTANT TO PROVIDE DETAILED ENGINEERING DESIGN FOR THE WIDENING OF TORBRAM ROAD FROM QUEEN STREET TO SOUTH CITY LIMIT	Contract Extension	MORRISON HERSHFIELD LTD	\$ 1,381,108		\$ 112,379.00	A contract extensions was required as a result of a design for two new interim right turn lanes to 8450 Torbram Road as identified and requested by the City Traffic Engineering Services.

60	Public Works & Engineering	ALL	RFP2018-007 PREVENTATIVE AND DEMAND MAINTENANCE SERVICES FOR HVAC EQUIPMENT AT VARIOUS CITY OF BRAMPTON FACILITIES - PART A PREVENTATIVE MAINTENANCE - GROUP ONE RECREATION	Contract Extension	SMITH AND LONG MECHANICAL LIMITED	\$ 879,000		\$ 140,000.00	HVAC services to City of Brampton Facilities was awarded to four (4) separate Contractors two for Group One - Recreation (one for Preventative Maintenance Services and one for Demand Maintenance Services) and two for Group Two - Works, Facility Operations and Maintenance (FOM), Transit & Fire (one for Preventative Maintenance Services and one for Demand Maintenance Services) for a three year period with 2- 1 year optional renewal period. Smith & Long Mechanical was awarded Group One Part A - Preventative Maintenance Services. A contract extension was required due to service calls placed with this contractor for demand maintenance service. Staff was limiting the amount of contractors/vendors in their facilities in 2020 due to COVID-19 and therefore deficiencies identified during the preventative maintenance visit would be rectified by the same preventative maintenance vendor.
61	Public Works & Engineering	ALL	RFP2018-008 JANITORIAL SERVICES	Contract Extension	KLEENZONE LTD	\$ 3,295,012		\$ 1,234,000.00	The contract was for Janitorial cleaning services. A contract extension was required to extend the contract for a few months to allow for a procurement process to be completed for a new two year contract.
62	Public Works & Engineering	ALL	RFP2019-009 PHYSICAL SECURITY SERVICES	Contract Extension	PALADIN SECURITY GROUP LTD.	\$ 11,689,538			The contract provides physical security services to various City of Brampton properties for a three period with 2-1 year optional renewal terms. A contract extension was required due to an unforeseen increased demand for security guard services. As a result of direction for Security Services to provide services in-kind for corporate events, and increased number of social activism events requiring guard coverage, additional services resulting from COVID-19, and all city wide security guard requests and coverage. This increased funding is required to cover the last year of the contract between March 1, 2021 to March 31, 2022.
63	Public Works & Engineering	ALL	SUPPLY AND DELIVERY OF PARTS AND SERVICE FOR JOHN DEERE HEAVY EQUIPMENT	Contract Extension	BRANDT TRACTOR LTD	\$ 55,000			The contract is for the the supply and delivery of parts and service for John Deere heavy equipment for a three year period with 2-1 year optional renewal terms. A contract extension was required due to unforeseen additional repairs required to City owned John Deere Tractor equipment. The initial term of the contract is anticipated to be completed by June 2022.
64	Public Works & Engineering	10	T2012-032 HIRING OF AN ARCHITECT FOR DESIGN AND CONTRACT ADMINISTRATION SERVICES FOR THE BRAMPTON EAST COMMUNITY CENTRE (PHASE 2) - AQUATICS AND FITNESS	Contract Extension	ZAS ARCHITECTS INC	\$ 3,484,448		\$ 90,000.00	This contract is for the design and contract administration services for the Gore Meadows Recreation Centre Phase 2 Expansion project. The original contractor's right to complete the work was terminated on this project, and the City continued with another contractor. This contract extension is related to the additional services required from the consultant.
65	Public Works & Engineering	ALL	T2019-064 SUPPLY AND DELIVERY OF COARSE BULK HIGHWAY SALT AND MAGNESIUM CHLORIDE TREATED SALT	Contract Extension	COMPASS MINERALS CANADA CORP.	\$ 8,807,523		\$ 354,000.00	A contract extensions was required due to a number of unforeseen orders for Sandalwood Works Yard. A procurement process for a new contract has commenced and will be in effect for October 1, 2021.

Report Staff Report Committee of Council The Corporation of the City of Brampton 2021-09-22

Date: 2021-09-13

Subject: Active Consulting Service Contracts

Contact: Gina Rebancos, Director, Purchasing, Corporate Support Services 905-874-3435

Report Number: Corporate Support Services-2021-989

Recommendations:

1. That the report titled: **Active Consulting Service Contracts**, (2021-989) to the Committee of Council Meeting of September 22, 2021, be received.

Overview:

• This report provides a summary of active consulting service contracts as of July 31, 2021. Specific contract details are provided in Appendix 1 & 2.

Background:

On June 16, 2021, Council directed Staff to report on a quarterly basis all active consulting services engaged by the City.

The Purchasing Activity Quarterly Report defines consulting services as a Procurement Process for the acquisition of expertise or strategic advice not including architects and engineers.

Current Situation:

This report includes active consulting services with a City Purchase Order with a value greater than \$25,000 (refer to Appendix 1) and, those directly purchased by the business unit with a value up to \$25,000 for which a Purchase Order is not required, but instead a Purchasing card or other payment method is used (refer to Appendix 2).

The report provides the following information:

- Purchase Order Number (if applicable);
- Procurement Process;

- Description of Service;
- Name of Consulting Firm;
- Responsible Department/Division;
- Contract Value;
- Spend to Date;
- Consulting Service Status; and
- Completion Timeline.

Corporate Implications:

Financial Implications:

There are no financial implications from reporting basic information about consulting services on a quarterly basis.

Term of Council Priorities:

This report has been prepared in full consideration of the Term of Council Priority of "Brampton is a Well-Run City", demonstrating value for money of City Programs and services through open, fair and transparent procurement processes.

Conclusion:

This report provides a summary of the City of Brampton's active consulting service contracts up to July 31, 2021.

Report Staff Report Committee of Council The Corporation of the City of Brampton 2021-09-22

Date: 2021-08-25

Subject: Consulting Service Contracts with a Value up to \$25,000 from December 1, 2014 to July 31, 2021

Contact: Gina Rebancos, Director, Purchasing Corporate Support Services

Report Number: Corporate Support Services-2021-990

Recommendations:

 That the report titled Consulting Service Contracts with a value up to \$25,000 from December 1, 2014 to July 31, 2021 to the Committee of Council meeting of September 22, 2021 be received.

Overview:

• The following recommendation from the Committee of Council Meeting of June 9, 2021 was approved, as amended, by Council on June 16, 2021:

That staff be requested to report to Council with periodic summaries of the consulting service contracts of value less than \$25,000, since 2014.

• This report provides the number of consulting service contracts with a value up to \$25,000 in the previous and present terms of Council.

Background:

On June 16, 2021, Council directed staff to report back on the total number of consulting service contracts entered into by the City of Brampton for the previous term of Council from December 1, 2014 to November 30, 2018 (48 months) and the current term of Council from December 1, 2018 to July 31, 2021 (32 months).

Current Situation:

During the previous term of Council, direct purchases were permitted for acquisitions with a value up to \$5,000. As part of the changes to the current Purchasing By-Law that came into effect March 1, 2018, the direct purchase threshold was amended to \$25,000. These low-value procurements do not require a competitive process and Departments are authorized to execute. There are no Purchase Orders issued, but instead a purchasing card or cheque requisition may be used for payment.

The table below summarizes the number of consulting service contracts with a value up to \$25,000 from December 1, 2014 to July 31, 2021.

	Previous Term of Council Dec 1, 2014 to Nov 30, 2018 (48 months)			Current Term of Council Dec 1, 2018 to July 31, 2021 (32 months)		
	QTY	TOTAL COST	AVERAGE COST PER CONTRACT	QTY	TOTAL COST	AVERAGE COST PER CONTRACT
Up to \$5k	41	\$132,861	\$3,241	25	\$73,443	\$2,938
Above \$5k to \$25k	21	\$368,902	\$17,567	50	\$946,511	\$18,930
TOTAL	62	\$501,763	\$8,093	75	\$1,019,953	\$13,599

Corporate Implications:

There are no corporate implications from reporting this information.

Term of Council Priorities:

This report has been prepared in full consideration of the Term of Council Priority of "Brampton is a Well-Run City", demonstrating value for money of City programs and services through open, fair and transparent procurement processes.

Conclusion:

This report provides a summary of the consulting service contracts with a value up to \$25,000 that were procured through direct purchases during the previous term of Council (December 1, 2014 to November 30, 2018) and during the current term of Council (December 1, 2018 to July 31, 2021).

Report Staff Report Committee of Council The Corporation of the City of Brampton 2021-09-22

Date: 2021-08-30

Subject:Capital Project Financial Status Report – Q2 2021Contact:Maja Kuzmanov, Manager Accounting, Corporate Support Services
(905) 874-2259

Report Number: Corporate Support Services-2021-994

Recommendations:

- 1. That the report titled **Capital Project Financial Status Report Q2 2021**, to the Committee of Council Meeting of September 22, 2021, be received;
- 2. That the Treasurer be authorized to amend budget for Capital Projects listed in Schedule D of this report with no net impact on City budget.

Overview:

- The purpose of this report is to provide City Council with an update on the financial status of the City's Capital Program as at June 30, 2021.
- The City's Capital Program at June 30, 2021 included 550 (2020: 484) active capital projects with a total approved budget of \$2.4 billion.
- \$1.2 billion of the approved budget has been spent as of June 30, 2021.
- The remaining capital budget stands at \$1.2 billion as at June 30, 2021 (2020: \$751.7 million). Of this amount, \$144.9 million has been committed through purchase orders (contracted work underway) for specific projects, leaving \$1.1 billion not yet committed or spent. The increase is primarily a result of the addition of the approved 2021 Capital Budget and budget amendments throughout 2021.
- Staff continues to review all active capital projects and return funds no longer required to their original funding sources. As such, \$9.9 million of funding has been returned and made available for future allocation to other priorities.

 As per Council direction, in 2020 KPMG reviewed City's open capital projects (pre-2016) as well as its project management practices. One of the key recommendations was the establishment of an enterprise-wide Project Management Office (PMO). Council subsequently approved \$390,000 in the 2021 operating budget to address KPMG's recommendation and included this initiative in their refreshed Term of Council Priorities.

Background:

The Capital Project Financial Status Report provides a financial update of the City's Capital Program that includes analysis compiled from submissions made by departments managing their various capital programs. This report keeps Council informed on the use of financial resources and supports senior leaders by providing information to assist with project oversight and delivery.

Although there are a number of methods used to measure progress in Capital Program delivery, level of spending on projects compared to the approved budget is a key performance indicator that is common to all projects. The information reported helps generate discussion at the senior levels of departments with responsibility for project delivery and to draw attention to project areas that might require course correction. It is not meant to replace project management and the related reporting requirements.

As per Council direction, in 2020 KPMG reviewed City's open capital projects (pre-2016) as well as its project management practices. One of the key recommendations was the establishment of an enterprise-wide Project Management Office (PMO). Council subsequently approved \$390,000 in the 2021 operating budget to address KPMG's recommendation and included this initiative in their refreshed Term of Council Priorities. This function resides within Organizational Performance team reporting to the CAO and is responsible for leading the development, implementation and maintenance of corporate standards for the City's project management methodology, processes, tools and training within the Corporation, in order to ensure consistent results in the delivery of capital projects. This function will work collaboratively with corporate project and policy teams in establishing standardized governance, competency and related policies.

Current Situation:

As of June 30, 2021, the City had 550 active projects with a total approved budget of \$2.4 billion. The City has spent \$1.2 billion towards completion of these projects, with \$1,206.2 million (2020: \$751.7 million) budget available to be spent in the coming years. Of this amount, \$144.9 million has been committed through purchase orders (contracted work underway) for various capital projects. This leaves \$1,061.3 million remaining in open capital projects not yet committed or spent.

Key projects comprising \$517.6 million (42.9%) of the unspent/uncommitted balance include:

- Transit Maintenance & Storage Facility \$187.1 million
- Centre for Education, Innovation and Collaboration \$129.9 million
- Fire Campus Design \$37.9 million
- Bus Purchases \$97.9 million
- Goreway Drive Widening \$33.7 million
- Cottrelle Boulevard (Humberwest to Goreway)- \$31.1 million

Schedule A provides a summary, by department, of capital spending and the budget remaining, which includes all committed and remaining budgets. Schedule C provides a detailed list of all open projects with the same information.

This report includes analysis of the following topics:

- Capital Budget Remaining
- Top 30 Projects by Ward Reporting
- 2021 Capital Budget Analysis
- Capital Expenditure Forecast
- Return of Financing and Budget Commitment Reduction

Budget Remaining (Appendix A)

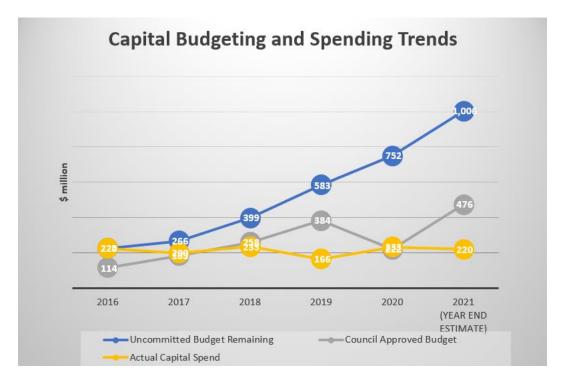

The total capital project budget remaining before commitments, through purchase orders, often referred to as unspent budget or money yet to be spent, as of June 30, 2021, is \$1,206.2 million. This amount is \$454.5 million higher than the amount reported as at December 31, 2020 (\$751.7 million).

The following schedule shows the 2021 financial activities of the Capital Program.

	\$ Million
Remaining Budget before Commitments as at December 31,	
2020	751.7
Less: 2021 Capital Spending	62.3
Less: 2021 Net Return of Financing and adjustments	9.0
Sub Total	680.4
Add: Council approved 2021 Capital Budget	475.6
Add: 2021 Budget Amendments	50.2

Remaining Budget before Commitments as at June 30, 2021	1,206.2
	\$ Million
Remaining Budget before Commitments as at June 30, 2021	1,206.2
Less: Purchase Orders (contracted works underway)	144.9
Remaining Budget, Uncommitted as at June 30, 2021	1,061.3

Following is capital budgeting and spending trend analysis:

Top 30 Projects by Ward Reporting (Appendix B)

For the purpose of this analysis, staff has identified 30 major Council approved capital projects, representing 5% of the number of all open projects and 69% of the uncommitted budget of the Capital Program. All of these projects are progressing in various stages of project management.

The status of the 30 major projects is as follows:

- 19 projects have an uncommitted budget of 90% or more.
- 1 projects was approved prior to 2015.
- Delivery status of the 30 projects
 - 7 of the projects are in construction stage
 - 13 are in various stages of planning, approval and design
 - 5 projects are in the procurement stage
 - o no projects are in either the close-out, litigation or warranty stage
 - 5 projects are comprised of multiple activities in various stages of completion

2021 Capital Budget Analysis

Council approved a Capital Budget of \$475.6 million for 2021 and an additional \$50.2 million in budget amendments. The following Table provides an analysis of the 2021 Capital Budget spending to June 30, 2021 and it highlights that \$40.4 million of the approved \$525.8 million has been either spent or procured on a year to date basis.

	\$ Million
Council Approved 2021 Capital Budget	475.6
2021 Budget Amendments	50.2
Less: YTD Spending Against 2021 Budget	15.9
Less: Purchase Orders Against 2021 Budget	24.5
2020 Capital Budget Remaining	485.4

2021 Capital Budget Spending to June 30, 2021

Capital Expenditure Forecast:

The City forecasted through the 2021 budget process that it would achieve \$200.0 million in capital spending (cash flow) during the 2021 fiscal year. This includes 2021 spending on projects approved in the 2021 budget and open projects approved in prior years. Actual spending as at June 30, 2021 on all capital projects was \$62.3 million comprised of \$15.9 million related to the 2021 Capital Budget and \$46.4 million related to projects approved prior to 2021.

Following are major contributors to capital spending in 2021:

- Transit bus purchases and refurbishment
- Technology program
- Property acquisition
- Facility construction, repair and replacement

Return of Financing and Budget Commitment Reduction:

As of June 30, 2021, \$9.9 million of funding has been returned to source or the budget commitment reduced and made available for future allocation to other priorities. 53 projects were determined complete and therefore closed and \$6.2 million of the budget remaining associated with these projects was returned to source. An additional \$3.7 million was returned to source for projects that remain active.

Following is summary of return of financing by department:

Corporate Support and Legislative Services	Community Services	Fire	Public Works	Transit	Total
0.1	2.7	0.0	7.1	0.0	9.9

Staff will continue to review the City's Capital Program regularly to determine which projects should remain open, with the goal of returning financing, that is no longer required for project completion, to the original funding sources (Reserve Funds).

Corporate Implications:

Financial Implications:

\$9.9 million of capital funding has been returned to source through return of financing and budget amendments and is available for allocation to other priorities, subject to Council approval.

Other Implications:

The semi-annual Capital Status report will serve to maintain focus on project delivery and as a tool to identify available financial resources to be reallocated to other City priorities.

Term of Council Priorities:

This report fulfils the Council Priority of a Well-Run City through strict adherence to effective financial management policies and supports Brampton's 2040 Vision by ensuring sustainable financial operations.

Conclusion:

This report provides Council with a financial status of the City's Capital Program and contributes to improved management oversight of the City's Capital Program. As of June 30, 2021, the City had spent \$1.2 billion on the 550 open projects with a further \$1,206.2 million remaining yet to be committed or spent to deliver the projects.

Schedule D

Report Staff Report The Corporation of the City of Brampton 2021-09-22

Date: 2020-09-10

Subject: Request for Approval: Temporary Art Activations Pursuant to the Integrated Downtown Plan Meanwhile Strategies

Contact: Jason Tamming Director, Strategic Communications, Culture and Events 905-874-2889 | jason.tamming@brampton.ca

Report Number: Corporate Support Services-2021-1015

Recommendations:

- 1. That the report titled: Request for Approval: Temporary Art Activations Pursuant to the Integrated Downtown Plan Meanwhile Strategies, dated September 10, 2021, to the Committee of Council meeting of September 22, 2021, be received;
- 2. That Council approve the installation of six temporary artworks by Bramptonbased artist, Meegan Lim, on six City-owned storefront locations on Main Street North in Downtown Brampton, as presented in Appendix A, with oversight and approval of the final artwork design delegated to STEPS, with the Director, Strategic Communications, Culture and Events, as an alternate delegate in the event STEPS is no longer in a position to act;
- That Council approve the installation of five temporary artworks from Bramptonbased artists proposed for installation on four City-owned Queen Street East traffic control boxes and, subject to obtaining the prior written approval of the Region of Peel, one Regionally owned Queen Street East traffic control box, as identified in Appendix B; and
- 4. That Council approve the exemption of each of the aforesaid installations from the requirement of a permit pursuant to subsection 8(15) of the Sign By-law 399-2002.

Overview:

 Temporary art activations was one of the strategies for downtown vibrancy outlined in the June 23, 2021, staff presentation to Committee of Council, titled: Downtown Revitalization – Integrated Downtown Plan (IDP) Meanwhile Strategies - Short-Term Initiatives (CW341-2021).

- Pursuant to this strategy, staff engaged Sustainable Thinking and Expression on Public Space Initiative ("STEPS") to support temporary art activations on City-owned buildings and assets in Downtown Brampton in Q4 2021.
- Implementation of the proposed temporary art activations is, however, subject to the City's Sign By-Law, as amended, which is includes murals under its purview. Section 8(15) of the City's Sign By-law exempts murals from the requirement for a permit, but requires that approval be obtained from City Council (By-Law 124-2005).
- As such, this report seeks Council approval of the following temporary art activations, or "murals", which have been developed and proposed in consultation with STEPS:
 - A. City-Owned Storefronts in Downtown Brampton
 - Installation of six temporary art activations on six City-owned storefront locations in Downtown Brampton, located on Main Street North.
 - Brampton-based artist, Meegan Lim, will create the six temporary artworks for installation on the storefront locations. These artworks will focus on the curatorial theme of food, in support of the Food Tourism Stream of the City's Tourism Strategy, and support the Downtown Brampton BIA's fall 2021 event, "Taste of Brampton".
 - As storefronts become reoccupied, artworks will be removed as needed.
 - B. City and Regionally-Owned Traffic Control Boxes on Queen Street East
 - Installation of five temporary art activations on four City-owned traffic control boxes and one Regionally-owned traffic control box, located on Queen Street East, pending written approval from the Region.
 - Five artworks from Brampton-based artists that participated in the Arts, Culture and Creative Industry Development Agency's (ACCIDA) *Postcard Project: Your Artist Story*, are proposed for installation on the traffic control boxes.
- In collaboration with STEPS and the Downtown Brampton BIA, staff will assess the success of these temporary art activations and consider future and/or ongoing opportunities to support downtown vibrancy through the IDP process.
- In addition to the temporary art activations, ACCIDA is collaborating with STEPS to offer public art learning workshops for local artists and the Downtown Brampton BIA.
- Pending Council approval of the recommendations in this report, staff will proceed with implementation of the temporary art activations and supplementary workshop programming.

Background:

On June 23, 2021, Committee of Council received a staff presentation titled: **Downtown Revitalization – Integrated Downtown Plan (IDP) Meanwhile Strategies - Short-Term Initiatives** (CW341-2021). This presentation was in response to a May 19, 2021 Council directive, that staff prepare a list of options to begin work on components of the previously named "Downtown Reimagined" as the first phase of the immediate implementation of the broader IDP process.

The presentation outlined a number of meanwhile strategies to support downtown vibrancy that could be implemented in the short-term (0-2 years). One such strategy was activating underused public spaces and assets with temporary public art activations. This approach is widely used in cities across the globe to increase place value, enhance civic pride, showcase local artist talent, and boost public morale throughout times of urban redevelopment and regeneration.

Current Situation:

Pursuant to this strategy, staff engaged Sustainable Thinking and Expression on Public Space Initiative ("STEPS") to support temporary art activations on City-owned buildings and assets in Downtown Brampton in Q4 2021. STEPS is a renowned Canadian charitable organization that fosters dynamic and inclusive communities through public art and creative placemaking. They transform urban spaces into vibrant places through cultural planning, community arts and artist capacity building programs.

Implementation of the proposed temporary art activations is, however, subject to the City's Sign By-Law 399-2002, as amended, which includes murals under its purview and defines them as follows: "a mural shall mean a painting, illustration or decoration applied or affixed directly to any external façade of a building or structure which may or may not include any words of advertisement or any other direct or indirect promotional message or content." Section 8(15) of the City's Sign By-law exempts murals from the requirement for a permit, but requires that approval be obtained from City Council (By-Law 124-2005).

As such, this report seeks Council approval and exemption from the Sign By-Law of the following temporary art activations, or "murals", which have been developed and proposed in consultation with STEPS:

A. City-Owned Storefronts in Downtown Brampton

- Installation of six temporary art activations on six City-owned storefront locations in Downtown Brampton, located on Main Street North.
- The artwork will be printed and installed using high quality vinyl material, with a UV and graffiti resistant coating. This provides the artwork with a one year warranty and a temporary lifespan of three to five years.
- Brampton-based artist, Meegan Lim, will create the six temporary artworks for installation on the storefront locations. These artworks will focus on the

curatorial theme of food, in support of the Food Tourism Stream of the City's Tourism Strategy, and support the Downtown Brampton BIA's fall 2021 event, "Taste of Brampton".

- STEPS will review and approve Meegan's final designs, ensuring they are of the highest artistic quality and appropriate for public display. The Director, Strategic Communications, Culture and Events, will serve as an alternate delegate in the event STEPS is no longer in a position to act.
- As storefronts become reoccupied, artworks will be removed as needed.

See Appendix A for location details and samples of Brampton-based artist, Meegan Lim's artistic work.

B. City and Regionally-Owned Traffic Control Boxes on Queen Street East

- Installation of five temporary art activations on four City-owned traffic control boxes and one Regionally-owned traffic control box, located on Queen Street East.
- Traffic Services staff has discussed the project with the Region of Peel, which has expressed interest in participating in this temporary art activation through the use of a Regionally-owned traffic control box on Queen Street East. Prior to beginning work, staff will obtain written approval from the Region of Peel to install a temporary artwork on the Regionally-owned traffic control box.
- The artwork will be printed and installed using high quality vinyl material, with a UV and graffiti resistant coating. This provides the artwork with a one year warranty and a temporary lifespan of three to five years.
- Five artworks from Brampton-based artists that participated in the Arts, Culture and Creative Industry Development Agency's *Postcard Project: Your Artist Story*, are proposed for installation on the traffic control boxes.

See Appendix B for location details and the proposed artworks by Brampton-based artists.

In collaboration with STEPS and the Downtown Brampton BIA, staff will assess the success of these temporary art activations and consider future and/or ongoing opportunities to support downtown vibrancy through the IDP process.

Supplementary Programming

In addition to the temporary art activations, ACCIDA is collaborating with STEPS to offer multiple 'Public Art 101' workshops, supporting local artists in developing their skills for public art professional opportunities. In addition, ACCIDA will collaborate with the Downtown Brampton BIA and local businesses on free community programming including a public art for businesses workshop, artist talks/art walks and more.

Next Steps

Pending Council approval of the recommendations in this report, staff and ACCIDA will proceed with:

- Providing municipal oversight and contract management for STEPS in implementing the two temporary art activations and supplementary programming in Q4 2021, before weather becomes prohibitive for installation.
- Facilitating approval from the Region of Peel to install temporary artwork on the Regionally-owned traffic control box.
- Issuing public communications and promotions of the temporary art activations and supplementary programming, in support of a vibrant downtown.

Corporate Implications:

Financial Implications:

Total estimated cost for this initiative is \$43,000. Sufficient funding is available through capital project 183866.001 Downtown Improvement.

Other Implications:

There are no other corporate implications associated with the recommendations in this report.

Term of Council Priorities:

This report supports the Term of Council Priorities of Brampton is a Mosaic, Brampton is a City of Opportunities, and Brampton is a Well-Run City, by providing paid opportunities to local artists, leveraging creative expression to support downtown redevelopment, and expediting project implementation to build trust and confidence in local government.

Culture Master Plan

This report aligns with the vision and definition of culture in Brampton and the strategic themes of Supporting Success, Developing a Creative Community of Practice, and Building Brampton's Identity.

Conclusion:

This report proposes the implementation of temporary art activations and supplementary programming to support downtown vibrancy, as part of the IDP Meanwhile Strategies. Pending Council approval of the recommendations in this report, staff will proceed with implementation, including consideration of future and/or ongoing opportunities to support the downtown throughout the IDP process. Proposed Brampton-Based Artist: Meegan Lim

About Meegan Lim:

Meegan Lim is an illustrator and emerging arts facilitator based in Brampton, Ontario. She is known for her detailed illustrations focusing on food and cultural identity, and the vast stories that exist within those intersections. Her mission is to create art that is inviting in its aesthetic, thoughtful in its research, and illuminating with its subject matter. From her detailed gouache illustrations to her personal risograph zines, Meegan's work provides a colourful and lighthearted entrypoint to topics that can be hard to digest.

She was born and raised in Brampton, where she often participated in art shows at the Peel Art Gallery Museum and Archives and the Alton Mill Art Centre. Meegan attended Mayfield Secondary School for their Regional Arts Program in Visual Arts, where she also engaged with prospective Peel students as a member of their Visual Arts Council. Whether it is through her illustration or community engagement efforts, she strives to nurture community growth and healing through visual arts.

Report Staff Report Committee of Council The Corporation of the City of Brampton 2021-09-22

Date: 2021-09-17

Subject: 2021 Second Quarter Operating Budget and Reserve Report

Contact: Mark Medeiros, Treasurer (Acting) mark.medeiros@brampton.ca 905-874-2520

Report Number: Corporate Support Services-2021-1029

Recommendations:

1. That the report titled "2021 Second Quarter Operating Budget and Reserve **Report**" to the Committee of Council Meeting of September 22nd be received;

Overview:

2021 Operating Budget

- Based on operating results as at June 30, the Corporation is forecasting a year-end operating deficit of \$38.2 million. This variance represents 5.0% of total budgeted expenditures of \$766.9 million.
- Of this deficit \$27.6 million is related to operational losses realized by Transit and the remaining \$10.6 million is as a result of all other City operations, deemed 'Municipal' losses to align with the Federal-Provincial streams of relief funding.
- The 2021 projected operating budget deficit of \$38.2 million is primarily due to revenue losses of \$78.2 million and additional COVID-19 emergency measure costs of \$10.7 million, partially offset by \$50.7 million in operational cost savings and mitigating measures.
- In comparison to the prior year, the pandemic impacted the City's finances for approximately 9 months, leading to a total deficit of \$52.3 million or \$5.8 million per month in 2020. The 2021 year-end forecast is projecting a monthly operating loss of \$3.2 million, which is an improvement of 45% or \$2.6 million per month over the prior year,

mostly as a result of recuperating revenues through increased planning and development fees and payment of property tax arrears penalty fees.

- Considering the Provincial and Federal Government's commitment to support municipalities through the pandemic, staff anticipate that relief funding committed and received to date will be sufficient to offset the projected 2021 deficit as illustrated in Table 4.
- In the event that final year end deficit surpasses the eligible availability of relief funding, the General Rate Stabilization Reserve (GRS) will be drawn upon to balance the operating budget.
- The General Rate Stabilization reserve (GRS) balance as at June 30, 2021 was \$89.6 million net of commitments, including \$16.1 million of relief funding provided by other levels of government to be used to offset future operational losses. Excluding the relief funding from the GRS balance results in an amount of \$73.5 million, which is \$3.2 million less than the Council approved target of \$76.7 million.
- Staff will continue to monitor the current situation and consider the impact and assumptions driving Q2 variances as part of developing the 2022 budget.

Reserves / Reserve Funds

- Historically, the City's quarterly financial reporting on reserves and reserve funds consisted of providing uncommitted balances that were available for future use, as at the date of the financial reporting period (Q1 - Q4).
- In an effort to improve transparency and provide forward looking guidance related to reserves and reserve funds, staff have initiated processes to forecast year-end reserve balances as part of the quarterly financial reports (Schedule A). In addition, Schedule A includes cash balances of each reserve, the commitments approved to-date by Council against those reserves and the uncommitted balances available for future use.

Background:

The City's financial management policies require staff to provide Council with periodic status updates related to the City's finances. This report is focused on updating Council on the status of the City's 2021 operating budget and reserves balances.

Since March 2020 when the COVID-19 pandemic was declared, the City of Brampton has responded to fluctuating impacts of the pandemic by aligning levels of service with the changing environment and ensure we are doing our part to limit the spread of COVID-19.

As at June 30th 2021, the City has experienced three waves of the pandemic and several lock down orders, including between the months of January and April of this year. On July 16, 2021 the City entered into Step 3 of Ontario's Roadmap to Reopen which guides the assumptions upon which the City's year-end projections are built on for the second-half of 2021.

Current Situation:

2021 OPERATING BUDGET

Based on operating results as at June 30, the Corporation is forecasting a year-end operating deficit of \$38.2 million. This variance represents 5.0% of total budgeted expenditures of \$766.9 million.

Of this deficit \$27.6 million is related to operational losses realized by Transit; (\$20.4 million as a result of base operating losses and \$7.2 million as a result of Covid-19 emergency measures costs). The remaining \$10.6 million is as a result of all other City operations, deemed 'Municipal' losses to align with the Federal-Provincial streams of relief funding.

The following tables summarize the 2021 Operating Budget forecasted year-end results, which includes a departmental breakdown of the deficit, along with highlighting specific variances that are deemed materially significant to the Corporation.

TABLE 1: 2021 OPERATING BUDGET FINANCIAL SUMMARY

OPERATING VARIANCE:	Annual Net Budget	Q2 YE Projection	(Favou Unfavourab	· · · · ·
Departments		(\$000s)		%
Public Works & Engineering	84,644	84,234	(410)	0%

NET CORPORATE DEFICIT	\$	-

Deficit Summary

The 2021 year-end results are projected to be in a deficit position of \$38.2 million; primarily based on revenue losses of \$78.2 million and additional COVID-19 emergency measure costs of \$10.7 million, partially offset by \$50.7 million in operational cost savings and mitigating measures.

Transit's anticipated revenue deficit of \$39.6 million which is 39% under budget is driven by reduced capacity on buses and lower ridership demand which resulted in 51% of pre-Covid (2019) ridership in the first half of 2021. An assumption of 60% ridership is anticipated in the second half of 2021 based on the anticipation of actual ridership uptake to 60% of pre-Covid (2019) levels in July and August of this year.

Recreation revenue losses are the second largest contributor of the deficit with a projected loss of \$27.0 million primarily driven by the City's obligation to close Recreation facilities during the Ontario wide lock downs imposed in 2021. This resulted in the inability to recoup user fee revenues from typically scheduled programs and facility rentals. With the province moving into Step 3 of the Roadmap to Reopen plan, recreation facilities are able to operate with a 50% capacity limit as of July 16 2021. Given this allowance, staff anticipate a 40% capacity rate on delivered programs for the second-half of 2021.

Emergency measures costs are anticipated to total \$10.7 million by 2021 year-end. These costs are attributable to the City's ongoing efforts to provide safe options for residents and staff through: enhanced cleaning and sanitization; personal protective equipment, additional rental of vehicles to maintain social distancing for support of city services and contracted janitorial and security services for city facilities and transit terminals. Overtime and COVID-19 sick credits provided to Transit frontline staff are also included.

\$50.7 million in operational savings and mitigating measures is projected to offset the significant revenue loss and additional costs incurred due to the pandemic. \$33.3 million is due to labour related savings throughout the Corporation, while the remaining \$17.4 million in non-labour expenditures savings is directly related to reduced operational capacity in response to the pandemic.

The 2021 Projected Deficit is anticipated to be \$38.2 million which is \$14.1 million less than the 2020 Year-End Deficit of \$52.3 million as illustrated in Table 3. The main driver is the recuperation of revenues and fees in 2021 vs. 2020 of \$14.1 million as a result of increased planning and development agreement fees and payment of property tax arrears penalty fees.

In order to compare and evaluate the degree of financial severity this pandemic has had over time; the monthly loss figures for both the 2020 and 2021 fiscal periods are provided. For 2021, the 2nd Quarter forecast translates to an anticipated loss of 3.2 million per month vs. \$5.8 million in 2020, which is an improvement of \$2.6 million or 45% year over year. Table 3 provides additional details regarding this comparison.

OPERATING VARIANCE:	2020 YEAR- END ACTUALS	2021 Q2 YEAR-END FORECAST	VARIANCE
Revenue Loss	92,337	78,190	(14,146)

Average Monthly Deficit	(5,809)	(3,183)	2,626

Deficit Management

To date, the total eligible funding to offset 2021 operational losses and pressures as a result of COVID-19 is \$61.9 million, approximately \$23.4 million for municipal pressures and \$38.5 million for transit specific pressures. Considering the Provincial and Federal Government's commitment to support municipalities through the pandemic, staff anticipate that relief funding committed and received to date will be sufficient to offset the projected 2021 deficit of \$38.2 million as illustrated in Table 4.

Table 4: 2021 COVID-19 Federal-Provincial Funding Relief

	ELIGIBILITY PERIOD	MUNICIPAL STREAM	TRANSIT STREAM	TOTAL
Announced Funding Eligibility or Future Receipt				
Safe Restart Agreement - Phase 2 Claim	2020-2021	-	13,043	13,043
Safe Restart Agreement - Phase 3 Receipt	2021	-	23,493	23,493
2021 COVID-19 Recovery Funding for Municipalities Eligibility	2021	14,698	-	14,698
Municipal Transit Enhanced Cleaning Fund Receipt	2021		602	602
Total Announced / Pending		14,698	37,138	51,836
2020 Funding in City Reserves		8,741	1,381	10,122
Total Relief Funding Eligibile for 2021		23,439	38,519	61,957

	MUNICIPAL	TRANSIT	TOTAL
2021 Deficit Management			
2021 Projected Deficit	(10,595)	(27,599)	(38,194)
2021 Available Relief Funding	23,439	38,519	61,957
Remaining Relief Funding (To remain in City Reserves)	12,844	10,920	23,763

Of the \$61.9 million in eligible 2021 relief funding; \$10.1 million was received in 2020 and is currently residing in City Reserves for use in 2021. The remaining \$51.8 million has been committed and anticipated to be received by the end of 2021.

As part of the Phase 2 Safe Restart Agreement Transit stream, the City was eligible to receive \$30.1 million, however only a portion of this was claimed at \$13.1 million representing transit operational losses between October 1 2020 and March 31 2021. Staff continue to advocate for the \$17.0 million unclaimed eligibility of Phase 2 in preparation of continued operational losses that Transit may incur as the pandemic continues into the future.

Assuming the 2021 deficit of \$38.2 million materializes and is offset by the \$61.9 million in Federal/Provincial funding, the City would have a remaining balance of \$23.8 million in reserves for 2022 and beyond, of which \$12.8 million would be earmarked for municipal stream operating pressures and \$10.9 million for transit.

In the event that final year end deficit surpasses the eligible availability of relief funding, the General Rate Stabilization Reserve (GRS) will be drawn upon to balance the operating budget.

The primary purpose of the GRS reserve is to smooth financial impacts in the event of an economic downturn or extraordinary situations. Council's commitment to maintain the General Rate Stabilization reserve balance at an industry best practice of 10% of operating expenditures, provides assurance to our residents and businesses that the City is well positioned to manage the financial impacts of this pandemic.

RESERVES AND RESERVE FUNDS (Schedule A)

Historically, the City's quarterly financial reporting on reserves and reserve funds consisted of providing uncommitted balances that were available for future use, as at the date of the financial reporting period (Q1 - Q4).

In an effort to improve transparency and provide forward looking guidance related to reserves and reserve funds, staff have initiated processes to forecast year-end reserve balances as part of the quarterly financial reports (Schedule A). In addition, Schedule A includes cash balances of each reserve, the commitments approved to-date by Council against those reserves and the uncommitted balances available for future use.

With respect to the stability and health of the City's reserves and reserve funds over time, the following chart illustrates the total year-end balances available for future use at the end of the prior two fiscal periods (2019 & 2020), in addition to the projected year-end balance for 2021.

	Net Balance Available				
	Year-End	Year-End	Q2	Year-End Projection	
	2019	2020	2021	2021	
Discretionary Reserve Funds	288,284	262,790	238,054	252,391	
Obligatory Reserves Funds	259,927	328,413	287,075	326,283	
Total Reserve Funds	548,211	591,203	525,129	578,673	
Less: Covid Relief Funding		(10,122)	(41,566)	(23,764)	
Net Total Reserve Funds	548,211	581,081	483,563	554,909	

Stormwater Reserve Fund

In the 2020 Operating Budget, the Stormwater Fund was established to manage the recently approved stormwater charge. The charge became effective on June 1, 2020 and is collected through the Region of Peel water/wastewater bill in response to the City's maintenance, renewal, replacement and Asset Management Plan for the City's \$1.2 billion of stormwater infrastructure.

The Stormwater Fund is projected to receive approximately \$22 million per year from the Stormwater Charge, growing at the rate of inflation. The balance as at June 30, 2021 is \$0.5 million, subsequent to funding the approved 2021 Capital Budget.

Debt Repayment Reserve

The Debt Repayment Reserve established in 2018, has a balance of \$11.1 million, as at June 30, 2021.

The 2021 Operating Budget included approval of \$2.8 million in annual debt repayments;

- \$1.7 million related to a 25-year debenture of \$26 million, for the Fire and Emergency Services Campus
- \$1.1 million as part of a three-year phase in approach to align tax supported debt repayments with the expected project delivery of the Transit Maintenance and Storage Facility. This is based on a 30-year debenture of \$60.1 million

To date the Region of Peel has issued debentures on the City's behalf in the amount of \$26 million to meet cash flow requirements for the construction of the Fire and Emergency Services Campus. The City is anticipating a further issuance of \$20 million in the third quarter of 2021 to support the design phase of the Transit Maintenance & Storage Facility.

Development Charge Reserve Funds

Development charges (DCs) are one-time fees levied on new growth to pay for growth-related City infrastructure. The current DC By-laws were approved by Council in 2019, and inputs into the DC Study were based on various master servicing plans and departmental input into how they would meet the needs of servicing new growth.

The use of development charges to fund growth-related capital projects is legislated by the *Development Charges Act, 1997.* DC funding of capital projects is evaluated on an annual basis through the City's Budget process, to ensure that the funds are utilized for the purposes for which they were collected. DC reserve funds are currently in a surplus position of \$37.4 million, as at June 30, 2021.

Building Rate Stabilization Reserve Fund

As at June 30, 2021, the balance in the Building Rate Stabilization Reserve Fund was \$40.1 million, which provides assurance against a future short-term downturn in building activity. The City is obligated to transfer any surplus resulting from building related operations to this reserve fund in accordance with the requirements of Bill 124 (*Building Code Statute Law Amendment Act, 2002*).

Cash In Lieu of Parkland

As at June 30, 2021, there was a balance in the Cash in Lieu of Parkland of \$89.3 million. Through the 2021 Capital Budget \$12.5 million was committed from this reserve to support Community Living and Park Land Over Dedication and has been drawn from the reserve as at March 31, 2021. Staff continues to work on strategies to secure and expedite the acquisition of strategic parkland to meet the future needs of residents.

Land Proceeds Reserve

As at June 30, 2021, there was a negative balance in the Land Proceeds Reserve of \$30.3 million. This reserve serves as a cash flow-through fund to support strategic opportunities under the Real Estate Modernization Strategy. As projects are developed to utilize the properties purchased through this strategy, permanent funding sources will be recommended to Council to replenish the Land Proceeds Reserve.

General Rate Stabilization Reserve (GRS)

Council has established a GRS reserve balance target at 10% of the annual approved operating budget. The 2021 Operating Budget has been approved at \$766.9 million, resulting in a GRS reserve target of \$76.7 million.

The General Rate Stabilization reserve (GRS) balance as at June 30, 2021 was \$89.6 million net of commitments. Within this balance is \$16.1 million of relief funding; \$8.7 million of which was carried over from Phase 1 and 2 of the Safe Restart Agreement municipal stream in 2020 and \$7.4 million (50%) of the \$14.7 million 2021 COVID-19 Recovery Funding for Municipalities program. Once this amount is excluded, the GRS balance sits at \$73.5 million, which is \$3.2 million less than the Council approved target of \$76.7 million.

Interest Rate Stabilization Reserve Fund

As at June 30, 2021, the uncommitted balance in the Interest Rate Stabilization Reserve Fund (IRS) is \$3.1 million.

The IRS was established from the portion of funds from the sale of Brampton Hydro in 2002 with the purpose of stabilizing fluctuations in interest rates.

At the time of the sale, it was estimated that approximately \$9.0 million in investment income would be earned from the Legacy and Community Investment Fund which had a reserve balance of \$200 million. Over time as internal loans were made against the Community Investment Fund and interest rates started to lower, the need to stabilize the fluctuations in investment income became more prevalent and larger draws were made from the IRS to minimize the impact to taxpayers or the GRS.

2020 was an unprecedented year as a result of the pandemic. In March 2020, Bank of Canada had cut interest rate three times, each time by 50 basis points moving from 1.75% to 0.25%. The 2021 budget estimated that interest rates would remain low and that the operating budget would again require stabilization from the IRS to minimize property tax impacts.

The IRS is projected to be fully exhausted in 2021 which will result in a funding pressure for the 2022 budget. Staff are currently reviewing alternative funding options and will advise through the 2022 operating budget for Council's consideration.

Legacy, Community Investment, and Community Development Reserve Funds

The <u>Legacy</u>, <u>Community Investment</u> and <u>Community Dividend</u> Reserve Funds were established in 2002 with contributions from the sale of Brampton Hydro. The Council approved objectives of these funds are as follows:

- <u>Legacy Fund</u>: Principal to be preserved and invested; investment income available for use
- <u>Community Investment Fund</u>: Principal for capital financing through internal borrowing; principal to be preserved over the long term; investment income available for use
- <u>Community Dividend Fund:</u> Principal available for direct spending on community orientated initiatives and other extraordinary, non-recurring expenditures; to be used only after consideration of all alternative funding sources; investment income available for use

TABLE 2: STRATEGIC RESERVES - FINANCIAL STATUS UPDATE

	AMOUNT \$ M	LEGACY	COMMUNITY INVESTMENT	COMMUNITY DIVIDEND
Original Balance (1)	230.0	100.0	100.0	30.0
Spending & Commitments, as at June 30, 2021	(100.5)	(7.1)	(63.4)	(30.0)
Uncommitted Balance, as at June 30, 2020	129.5	92.9	36.6	-
Pending Strategic Initiatives: \$46.4 M remaining for Ryerson University (including Cybersecure Catalyst) and \$2.4 M for Algoma University	(48.8)			
STRATEGIC RESERVES AVAILABLE BALANCE	80.7			

(1) Investment income from these strategic reserves is included as a reserve source in the operating budget at a rate of 4.5%. As these funds are utilized, investment income revenue is reduced from the operating budget. Alternative revenue sources, reduction in expenditures or increases in property taxes would be required to offset the reduction in investment income revenue

• Council has endorsed in principle \$50.0 million from the Legacy fund to support the Ryerson University initiative and \$7.3 million for the Algoma University

initiative. Subsequent to funding these commitments, the Legacy Fund is projected to have a remaining balance of \$42.7 million.

- Of the \$50.0 million for Ryerson University, Council has approved \$5.0 million over a 4 year period (2019-2022) for the Cybersecure Catalyst and \$3.6 million has been contributed by June 30, 2021. Of the \$7.3 million for Algoma University, \$4.9 million has been contributed by June 30, 2021.
- To date, the Legacy Fund has generated \$91.2 million in interest revenue since the inception of the fund. Of this, \$72.7 million has been transferred to the operating fund to offset tax levy requirements and the balance has been transferred to the Interest Rate Stabilization Reserve Fund.
- The Community Investment Fund has historically been used to provide internal loans for projects, with repayments funded through property taxes. Through the 2021 Budget this loan repayment mechanism was eliminated resulting in foregoing \$35.6 million in loan repayments to the CIF and in tandem reducing property tax pressures. \$10.2 million in outstanding internal loans to Development Charges remains. In addition the 2021 Capital Budget committed \$11.4 million through a project for the site servicing of the CAA lands, Council approved \$0.5 million for the Golden Age Village for The Elderly (GAVE) initiative and \$4.0 million for the Housing Catalyst Project. As at June 30, 2021 the balance in the reserve is \$36.6 million.
- The Community Dividend Fund has been fully drawn down for projects of citywide benefit and was closed out in 2009. Funding was committed towards initiatives such as the Rose Theatre, Downtown Revitalization and Sheridan College.

Corporate Implications:

N/A

Term of Council Priorities:

This report fulfils the Council Priority of a Well-Run City through strict adherence to effective financial management policies and supports Brampton's 2040 Vision by ensuring sustainable financial operations.

Conclusion:

As at June 30, the Corporation is forecasting a year-end operating deficit of \$38.2 million. This variance represents 5.0% of total budgeted expenditures of \$766.9 million.

To date, the total eligible funding to offset 2021 operational losses and pressures as a result of COVID-19 is \$61.9 million; \$23.4 million for municipal pressures and \$38.5 million for transit specific pressures.

Considering the Provincial and Federal Government's commitment to support municipalities through the pandemic, staff anticipate that relief funding committed and received to date will be sufficient to offset the projected 2021 deficit.

Staff continue to monitor the implications of the pandemic on the 2021 budget and will be conducting more detailed analysis and projections for the Second and Third Quarter Forecast reports, as a clearer picture of the annual variances become available.

Report Staff Report The Corporation of the City of Brampton 2021-09-22

Date: 2021-06-16

Subject: Initiation of Subdivision Assumption

Secondary Title: 1212949 Ontario Inc., Registered Plan 43M-2002 – (North of Steeles Avenue, East of Heritage Road), Ward 6 - Planning References – C05W01.005 and 21T-10001B

Contact: John Edwin, Manager, Development Construction, Environment & Development Engineering Division – 905-874-2538

Report Number: Public Works & Engineering-2021-751

Recommendations:

- That the report titled: Initiation of Subdivision Assumption; 1212949 Ontario Inc., Registered Plan 43M-2002 – (North of Steeles Avenue, East of Heritage Road), Ward 6 - Planning References – C05W01.005 and 21T-10001B, to the Committee of Council Meeting of September 22, 2021 be received;
- 2. That the City initiate the Subdivision Assumption of 1212949 Ontario Inc., Registered Plan 43M-2002; and
- 3. That a report be forwarded to City Council recommending the Subdivision Assumption of 1212949 Ontario Inc., Registered Plan 43M-2002, once all departments have provided their clearance for assumption.

Overview:

The maintenance period has expired and all works with respect to the subject subdivision have been completed to the satisfaction of the Environment & Development Engineering Division. It is now appropriate to initiate the subdivision assumption process in accordance with Council's procedures and policies. Other departments must provide clearance prior to a by-law being passed assuming the subdivision

Background:

The following development has been completed and the terms of the Subdivision Agreement have been satisfied insofar as the Environment & Development Engineering Division of the Public Works and Engineering Department is concerned. Prior to final release for assumption, all City departments will be circulated to ensure all requirements and conditions have been fulfilled.

Subdivision Name	Legal Description	Street Name
1212949 Ontario Inc.	43M-2002	Rivermont Road Brasstown Valley Trail Boundary Creek Path Prairie Creek Crescent Lightbeam Terrace Gladiolus Street Malaspina Close

Current Situation:

The Environment & Development Engineering Division is satisfied that the services completed within this development may be initiated for assumption.

Corporate Implications:

Upon assumption of this development, approximately 1.5 lane kilometers of roadway and associated municipal infrastructure will be added to the City of Brampton's system. There will be future costs associated with the operation and long-term maintenance of the additional inventory of lands and public highways that include infrastructure such as roads, sewers, streetlighting, streetscaping, stormwater management pond, etc.

Strategic Plan:

This report accomplishes the Strategic Plan priorities by supporting the benefits of sustainable growth to build a pre-eminent city with vibrant and connected communities.

Living the Mosaic – 2040 Vision

This report directly aligns with the vision that Brampton will be a mosaic of complete neighbourhoods and sustainable urban places.

Conclusion:

It is now appropriate that the municipal services within Registered Plan 43M-2002 be initiated for their assumption in accordance with Council's procedures and policies. Other departments must provide clearance prior to a by-law being passed assuming the subdivision.

Attachment 1: Subdivision Map Attachment 2: Registered Plan 43M-2002

Report Staff Report The Corporation of the City of Brampton 2021-09-22

Date: 2021-07-31

Subject: Initiation of Subdivision Assumption

Secondary Title: Fernbrook Homes (Castlemore) Limited, Registered Plan 43M-1918 – (North of Castlemore Road, East of Airport Road), Ward 10 - Planning References – C07E11.014 and 21T-07003B

Contact: John Edwin, Manager, Development Construction, Environment & Development Engineering Division – 905-874-2538

Report Number: Public Works & Engineering-2021-880

Recommendations:

- That the report titled: Initiation of Subdivision Assumption Fernbrook Homes (Castlemore) Limited, Registered Plan 43M-1918 – (North of Castlemore Road, East of Airport Road), Ward 10 - Planning References – C07E11.014 and 21T-07003B, to the Committee of Council Meeting of September 22, 2021 be received;
- 2. That the City initiate the Subdivision Assumption of Fernbrook Homes (Castlemore) Limited, Registered Plan 43M-1918; and
- 3. That a report be forwarded to City Council recommending the Subdivision Assumption of Fernbrook Homes (Castlemore) Limited, Registered Plan 43M-1918 once all departments have provided their clearance for assumption.

Overview:

• The maintenance period has expired and all works with respect to the subject subdivision have been completed to the satisfaction of the Environment & Development Engineering Division. It is now appropriate to initiate the subdivision assumption process in accordance with Council's procedures and policies. Other departments must provide clearance prior to a by-law being passed assuming the subdivision.

Background:

The following development has been completed and the terms of the Subdivision Agreement have been satisfied insofar as the Environment & Development Engineering Division of the Public Works and Engineering Department is concerned. Prior to final release for assumption, all City departments will be circulated to ensure all requirements and conditions have been fulfilled.

Subdivision Name	Legal Description	Street Name
Fernbrook Homes (Castlemore) Limited	43M-1918	Vanwood Crescent Bengel Road Fairlawn Boulevard Ricardo Road Relton Road Street Widening Block 89 to be part of Castlemore Rd.

Current Situation:

The Environment & Development Engineering Division is satisfied that the services completed within this development may be initiated for assumption.

Corporate Implications:

Upon assumption of this development, approximately .90 lane kilometers of roadway and associated municipal infrastructure will be added to the City of Brampton's system. There will be future costs associated with the operation and long-term maintenance of the additional inventory of lands and public highways that include infrastructure such as roads, sewers, streetlighting, streetscaping, stormwater management pond, etc.

Strategic Plan:

This report accomplishes the Strategic Plan priorities by supporting the benefits of sustainable growth to build a pre-eminent city with vibrant and connected communities.

Living the Mosaic – 2040 Vision

This report directly aligns with the vision that Brampton will be a mosaic of complete neighbourhoods and sustainable urban places.

Conclusion:

It is now appropriate that the municipal services within Registered Plan 43M-1918 be initiated for their assumption in accordance with Council's procedures and policies. Other departments must provide clearance prior to a by-law being passed assuming the subdivision.

Report Staff Report The Corporation of the City of Brampton 2020-09-22

Date: 2021-09-01

Subject: Request to Begin Procurement – Hiring of Construction Management Services for the Design and Construction of the Centre for Innovation

Contact: David Bottoni, Director, Building Design and Construction, Public Works & Engineering (437.881.4053)

Report Number: Public Works & Engineering-2021-986

Recommendations:

- THAT, the report from David Bottoni, Director, Building Design and Construction, Public Works & Engineering Department, dated September 1, 2021, to the Committee of Council Meeting of September 22, 2021, re: "Request to Begin Procurement – Hiring of Construction Management Services for the Design and Construction of the Centre for Innovation" be received; and
- 2. THAT, the Purchasing Agent be authorized to commence the procurement to hire a Construction Manager for the Centre for Innovation; and
- 3. THAT, the appropriate City staff be authorized and directed to take the necessary action to give effect thereto.

Overview:

• This report seeks Council approval to commence the procurement of Construction Management services for the Centre for Innovation, 11, 17 and 21 Nelson Street West and 20 and 24 George Street North, Brampton ON, Ward 1.

Background:

The Centre for Innovation project includes the following scope of work;

A 242,000 gross sq. ft. building (+/- 11 storeys) consisting of:

- 122,000 gross sq. ft. of public library space;
- 120,000 gross sq. ft. of additional floor space for academic space; event space; innovation space; ground floor retail space; and office and administration areas.
- Event, retail and innovation gallery/maker spaces are part of the library program.
- Interior fit up, furnishings, fixtures and equipment for public library space, remainder of space to be fitted up by future tenants.
- Design to LEED Gold Certification and Net Zero Carbon.
- Design to accommodate expansion for additional floors (subject to added funding)
- Design to accommodate flood mitigation measures to TRCA requirements

Current Situation:

The Centre for Innovation project has entered the conceptual design phase. It is recommended that a Construction Manager be engaged at the end of Schematic Design to support the integrated project team approach allowing the Construction Manager to provide constructability and market input prior to the Construction Documents phase.

Corporate Implications:

Purchasing Comments

A public Procurement Process will be conducted and the Proposal submissions shall be evaluated in accordance with the published evaluation process within the Bid Document.

Purchase approval will be obtained in accordance with the Purchasing By-Law.

All communications with Bidders involved in the procurement must occur formally, through the contact person identified in the Bid Document.

Financial Implications:

Sufficient funding is available for the current estimated Request to Begin Procurement value within the Public Works and Engineering approved Capital Budget for this initiative. Additional funding has been requested in 2022 Capital Budget, subject to council approval.

Strategic Plan:

This report achieves the Strategic Plan priorities by:

Brampton is a City of Opportunities:

• Construction of the Centre for Innovation supports the 2040 Vision as the new building will provide up to 120,000 gross square feet of academic space that would support a Brampton University campus.

Brampton is a Green City

• The Centre for Innovation shall be designed to achieve aggressive sustainability and energy targets including LEED Gold and Net Zero Carbon.

Brampton is a Mosaic

• The Centre for Innovation shall include a new downtown library branch that will effectively engage the community and support cultural events.

Conclusion:

It is recommended that the Purchasing Agent be authorized to commence the procurement for the scope of work described in this report.

Report Staff Report The Corporation of the City of Brampton 2021-09-22

- **Date:** 2021-09-02
- **Subject:** Request to Begin Procurement Design and Contract Administration Services for Century Gardens Youth Hub Ward 1
- **Contact:** Kaushal Patel, Project Coordinator, New Facilities Development Services Building Design and Construction, Public Works and Engineering 647-938-2191
- **Report Number:** Public Works & Engineering-2021-992

Recommendations:

- THAT the report from Kaushal Patel, to the Committee of Council meeting of September 22, 2021, re: Request to Begin Procurement – Design and Contract Administration Services for the Century Gardens Youth Hub - Ward 1, be received; and
- 2. THAT the Purchasing Agent be authorized to begin procurement to retain Prime Consultant to provide design and contract administration services for the Century Gardens Youth Hub.

Overview:

- In 2020, Council approved \$2 Million to begin the due diligence process and to engage consultants to provide design and contract administration services for the delivery of a 12,500 Square foot new Youth Hub Project located at the Century Gardens Recreation Centre site.
- BDC staff, along with Recreation staff, began site assessment and community program assessment to further develop project needs.
- This project will be partially funded by grant funding provided by the Region of Peel.
- In 2021, Staff have completed all the necessary due diligence work and technical work to identify project needs, develop and finalize the detailed functional program, site assessment, project schedule, budget, and grant funding through the Region of Peel.

• This report seeks Council's approval to begin procurement to hire a consultant for design and contract administration services for the proposed project.

Background:

In response for the need for safe spaces for youth, City of Brampton staff proposed two designated Community Youth Hub spaces to be partially funded and supported by the Region of Peel and further invested by the City. The City looks forward to creating a safe space for youth, from all walks of life, to connect with each other, and receive input from community consultation, inspire ideas and access community supports to develop to their fullest potential.

City staff carefully selected two locations for Brampton's Community Youth Hubs, based on the following criteria:

- Underutilized city-owned asset;
- Low neighbourhood index score;
- Low-income percentage;
- Proximity and access to transit;
- Adjacency to existing city assets

Century Gardens Lawn Bowling Clubhouse is one of the two potential locations that were selected.

These youth-centric spaces will be carefully designed to ensure a one-stop-shop for youth to access health care services, social services, education, employment and career services, and youth leadership opportunities.

The existing 3200 sq.ft, lawn bowling building and the lawn bowling pitch facility at the site are to be demolished and replaced with a new 12,500 sq.ft. Community Youth Hub Facility with supporting outdoor amenities.

City Staff will continue their diligence and work to identify project requirements, risks and mitigation measures for successful execution of the project.

Current Situation:

BDC Staff prepared the RFP documents in collaboration with purchasing and recreation staff and are ready to proceed with consultant procurement.

BDC staff anticipate engaging the consultant at the start of Q1-2022, and anticipate starting construction in Q1-2023. The facility is expected to be ready for occupancy by the end of Q3-2024. To meet the project schedule and the conditions of the grant funding agreement from Region of Peel, the Design RFP must be released by September 2021.

Corporate Implications:

Purchasing Comments:

A public Procurement Process will be conducted, and the Bid submissions shall be evaluated in accordance with the published evaluation process within the bid document. Purchase approval shall be obtained in accordance with the Purchasing By-law.

All communication with Bidders involved in the procurement must occur formally, through the contact person identified in the Bid Document.

Financial Implications:

Sufficient funding is currently available for the Design and Contract administration services under project number 205652.

Strategic Plan:

Brampton has one of the youngest population in Canada. The Century Gardens Youth Hub project is a key project that aligns with the City's strategic plan to support youth in Brampton.

The Youth Hub will allow Brampton's diverse and youthful population a venue for grassroots movements, creative expression, and Social and healthy interaction.

This Project supports "Brampton 2040 Vision" by committing to provide community partnership, a healthy and safe place for Brampton youth, sustainable growth through environmental innovation which also supports Term of Council Priorities.

This project seeks collaboration through funding from another tier of government which supports that Brampton is a well-run city.

Living the Mosaic – 2040 Vision

This report has been prepared in full consideration of the overall vision that the people of Brampton will 'Live the Mosaic.'

Conclusion:

It is recommended that Council authorize the Purchasing Agent to commence procurement as described in this report and move the project forward at this time.

Report Staff Report The Corporation of the City of Brampton 2021-09-22

Date: 2021-08-25

Subject: Electric Vehicle Charging Stations – Amendments to Traffic By-law 93-93, as amended and Administrative Penalty By-law – Parking (By-law 333-2013), as amended, to create Administrative Monetary Penalties for parking violations in Electric Vehicle Charging

Contact: Rajkaran Chhina, Manager Asset Management & Capital Planning, Energy Management

Report Number: Public Works & Engineering-2021-938

Recommendations:

Based on the following report, it is recommended:

- That the report from Rajkaran Chhina, Manager Asset Management & Capital Planning, Energy Management dated August 18, 2021, titled "Electric Vehicle Charging Stations- Amendments to Traffic By-law 93-93, as amended and Administrative Penalty By-law – Parking (By-law 333-2013), as amended" to the Committee of Council Meeting of September 22, 2021 be received; and
- 2. That Traffic By-law 93-93, as amended, be amended to add provisions addressing parking violations in Electric Vehicle Charging Stations; and
- That Administrative Penalty By-law Parking (By-law 333-2013), as amended, be amended to create administrative penalties for parking violations in Electric Vehicle Charging Stations.

Overview:

- Subsection 102.1 (1) of the *Municipal Act*, 2001, authorizes a municipality to pay an administrative penalty in respect of violations of by-laws relating to the parking, standing or stopping of vehicles
- On December 11, 2013 Council passed Administrative Penalty By-law Parking (By-law 333-2013) to designate portions of the City's Traffic Bylaw 93-93, as amended, that deal with the parking, standing or stopping of vehicles to be applicable to the administrative penalty system

- The Reserved Parking for Electric Vehicle Charging Act, 2019 (Bill 123) came into force on January 1, 2021 to amend the Highway Traffic Act to create parking offences for improperly parked vehicles in electric vehicle charging stations
- In order to enforce parking violations in Electric Vehicle Charging Stations by way of administrative monetary penalties, staff recommends amendments to the Traffic By-law 93-93, as amended, and to Administrative Penalty By-law-Parking (By-law 333-2013), as amended.

Background:

The *Reserved Parking for Electric Vehicle Charging Act, 2019* (Bill 123) came into force on January 1, 2021 to amend the *Highway Traffic Act* to create parking offences for improperly parked vehicles in electric vehicle charging stations. These changes help to protect Electric Vehicle (EV) charging infrastructure for use by those who need to charge their EVs.

These amendments to the *Highway Traffic* create offences that are enforced under Part II of the *Provincial Offences Act* by way of the issuance of a ticket. A person may be ticketed if they park in an EV charging space marked by a regulated sign in a non-electric vehicle, or if they park an electric vehicle that is not plugged in. Ticketed vehicle owners may be subject to a fine of \$125 under section 30.2 of the *Highway Traffic Act*.

As the City has opted to enforce all parking violations by way of administrative monetary penalties, enforcement of the provisions under the *Highway Traffic Act* is not possible. It is therefore recommended that the Traffic By-law 93-93, as amended, be amended to include a violation for parking in an EV charging station similar to those violations under the *Highway Traffic Act* and that the Administrative Penalty By-law-Parking (By-law 333-2013), as amended, be amended to allow for the enforcement of violations for improper parking in designated EV charging stations by way of administrative penalties. It is recommended that the administrative monetary penalty be \$125.00, which is the same as if a ticket were issued.

Current Situation:

The City currently has 50+ designated electric vehicle charging stations available across the City that are affected by this legislation. In March 2021, the City installed the prescribed signage from the Ministry of Transportation for these designated parking stations. This signage will be used to enforce the proposed requirements under the Traffic By-law by way of administrative penalty

Corporate Implications:

Financial Implications:

There are no financial implications. Any increases in revenue from potential tickets will offset enforcement activities.

Legal Implications

There are no legal implications.

Other Implications:

There are no other implications resulting from the approval of the recommendations of this report.

Term of Council Priorities:

This report achieves the "Brampton is a Well-Run City" Term of Council Priority by streamlining the public service delivery of our EV charging parking stations. This initiative will ensure service excellence by allowing these parking stations to be available for use by EV users only.

This report also achieves the "Brampton is a Green City" Term of Council Priority as the use of EV charging stations by the public will help to support the adoption of electric vehicles and reduction of community based GHG emissions.

Conclusion:

The aforementioned amendments to Traffic By-law 93-93, as amended and Administrative Penalty By-law - Parking (By-law 333-2013), as amended are recommended to enforce the City's parking regulations by administrative monetary penalties for designated EV charging stations.

THE CORPORATION OF THE CITY OF BRAMPTON

APPENDIX 1 - Draft By-law to amend Traffic and Parking By-law 93-93 and Administrative Penalty By-law-Parking 333-2013.docx

and to amend Adminsitrative Penalty By-law- Parking 333-2013, as amended

in relation to parking in electric vehicle charging stations

WHEREAS the Council for The Corporation of the City of Brampton has adopted the Traffic and Parking By-law No. 93-93, ("By-law 93-93") as amended, to regulate the use of highways and parking in the City of Brampton;

AND WHEREAS the Council for The Corporation of the City of Brampton has adopted the Administrative Penalty By-law – Parking (By-law 333-2013), as amended, to establish a system of Administrative Penalties in the City of Brampton to deal with parking, standing or stopping of vehicles;

AND WHEREAS pursuant to subsection 11 (3) 1 of the *Municipal Act 2001,* a bylaw may be passed by a council of a municipality relating to the regulation of highways and parking within the municipality;

AND WHEREAS Subsection 102.1 (1) of the *Municipal Act, 2001,* S.O. 2001, c. 25, as amended ("*Municipal Act, 2001*"), provides that a municipality may require a person to pay an administrative penalty if the municipality is satisfied that the person failed to comply with any by-laws respecting the parking, standing or stopping of vehicles;

AND WHEREAS the Council of The Corporation of the City of Brampton is desirous of adopting a by-law to further amend Traffic and Parking By-law 93-93, as amended to include offences for parking in an electric vehicle charging station when prohibited;

AND WHEREAS the Council of The Corporation of the City of Brampton is desirous of adopting a by-law to further amend Administrative Penalty By-law – Parking 333-2013, as amended, to create administrative penalties for parking in an electric vehicle charging station when prohibited;

NOW THEREFORE the Council of The Corporation of the City of Brampton ENACTS as follows:

1. That Section 2 of By-law 93-93, as amended, be amended to add the following definitions in alphabetical order:

""<u>electric vehicle</u>" means,

- (a) a battery electric vehicle that runs only on a battery and an electric drive train, or
- (b) a plug-in hybrid electric vehicle that runs on a battery and an electric drive train, and also uses an internal combustion engine;" and

""<u>electric vehicle charging station</u>" means a publicly or privately-owned parking space that provides access to equipment that supplies a source of electricity for charging Electric Vehicles;".

2. That the following section be added immediately following Section 48:

"ELECTRIC VEHICLE CHARGING STATION PARKING REGULATIONS

48.1 No person shall park a vehicle in an Electric Vehicle charging station that is identified by a sign prohibiting the parking or leaving of a vehicle in that parking spot, unless the vehicle is an Electric Vehicle and the Electric Vehicle is attached to the station's charging equipment."

That Schedule A to By-law 333-2013, as amended, Designated By-law Provisions

 Traffic By-law 93-93, Part VI – Parking, Stopping and Standing be amended by
 adding the following to the table, in numerical order:

25.1Sect. 48.1Park in electric vehicle charging station contrary to sign\$125.00

APPENDIX 2

Report Staff Report The Corporation of the City of Brampton 2021-09-22

Date: 2021-09-22

Subject: Approval for Authority to Sign the Youth Hubs Funding Agreement with the Region of Peel

Contact: Yvonne Sinniah, Manager Strategic Community Development and Program Partnerships, Recreation, 905.874.3371

Report Number: Community Services-2021-940

Recommendations:

- THAT the report from Yvonne Sinniah, Manager Strategic Community Development and Program Partnerships, Recreation, dated September 22, 2021, to the Committee of Council meeting of September 22, 2021, re: Approval for Authority to Sign the Youth Hubs Funding Agreement with the Region of PeelCommunity Services-2021-940 be received; and
- 2. That the Commissioner, Community Services, be delegated authority to execute a funding agreement with The Regional Municipality of Peel related to the development of the Century Gardens and Susan Fennell Youth Hubs, and any amendment(s) to such agreement, subject to the content of such agreements being satisfactory to the Director, Building Design and Construction (BDC), and the Director, Recreation, and in a form acceptable to the City Solicitor (or designate).

Overview:

- To secure Regional funding, City of Brampton Recreation Staff developed a feasibility study on the Brampton Community Youth Hubs and submitted this study to the Region of Peel on November 1, 2019see *Appendix* A).
- On November 14, 2019, City of Brampton staff presented to Regional Council on the Brampton Community Youth Hubs Feasibility Study (see *Appendix B*). This presentation and related discussions concluded with Regional Council requesting that the Commissioner of Human Services complete a Needs Assessment to validate the Youth Hub Feasibility Study proposed by the City of Brampton.
- On March 12, 2020, Janice Sheehy, Commissioner of Human Services provided an overview of the Brampton Community Data Summary Report,

regarding the City of Brampton's two proposed community youth hubs (see *Appendix C*). The Region's Community Data Summary report was in agreement with the City of Brampton's Youth Hub Feasibility Study confirming the multiple challenges youth are experiencing in the two proposed locations.

- The Region of Peel 2020 budget included a capital expenditure of \$6.0M allocated to the City of Brampton for the development of two Community Youth Hubs Project #205691 and #205651, attached as *Appendix D* to this report.
- The total estimated costs for the development of these youth hubs is \$15.41M. The City's 2020 Capital Budget included \$2.06M for the design of the youth hubs, with additional funding of \$1.35M approved in 2021 through a council report. The remaining \$12M for construction will be requested as part of the 2022 Capital Budget submission, subject to Council approval. The Region of Peel will provide \$6.0M to offset the City's design, development and construction budget for these hubs.
- Currently, the Region of Peel has drafted a funding agreement to transfer the \$6.0M over the course of the development of both hubs, after the completion of milestones agreed on by both the Region and the City staff.

Background:

The City of Brampton has one of the fastest growing populations in Canada with over 52% of Brampton residents born outside of Canada. In 2016, Brampton had a total population of 593,368, an increase of 13.3 per cent from 2011. The approximate amount of youth ages 14 to 29 in Brampton is 130,600, making Brampton one of the youngest cities in Canada.

In response to the need for safe spaces for youth and in order to establish resources and support that address the root causes of violence, the City of Brampton proposed two designated Community Youth Hub spaces. With an equitable and inclusive approach to developing and delivering programs and services, the City looks forward to creating a safe space for youth from all walks of life to connect with each other, inspire ideas and access community supports enabling them to develop to their fullest potential.

Community youth groups have expressed the gap in service and designated spaces for youth to participate, engage, and feel safe in the community. To fill these gaps, City staff carefully selected two locations for Brampton's Community Youth Hubs, based on the following criteria: underutilized city-owned assets; a low neighbourhood index score (according to the Region of Peel's Neighbourhood Information Tool); low-income percentage; accessibility via transit; adjacency to existing city assets to leverage the hub approach; and adjacency to existing city assets to gain operating economies of scale. The two proposed locations are the vacated Lawn Bowling Clubhouse adjacent to Century Gardens Recreation Centre (340 Vodden Street East), and a previously leased first floor space at Susan Fennell Sportsplex (500 Ray Lawson Boulevard).

On November 14, 2019, City of Brampton Recreation staff presented an overview of the Brampton Community Youth Hubs Feasibility Study to Peel Regional Council to secure capital funding. As a result of the presentation, Regional Council directed Regional staff to complete a needs analysis, similar in format to the one conducted for the City of Mississauga's Malton Community Hub.

Regional staff conducted stakeholder consultations with communities within the City of Brampton, and more specifically, in the areas surrounding the two proposed community youth hub locations. Staff identified and reviewed the best available quantitative and qualitative data along with existing information to provide an evidence-based overview of the City of Brampton's needs and a comprehensive picture of both study areas. Regional staff presented the needs analysis report in the form of a Community Data Summary, as shown in Appendix C, and confirmed that within both study areas, Brampton youth are experiencing multiple challenges related to economic factors, safety, health, resident engagement and community belonging. The report is validated and is in agreement with the City of Brampton Youth Hub Feasibility Study Report. Both reports confirmed that the investment in the two existing underutilized assets to develop spaces for youth will increase access to youth-specific programs and support services that aim to improve the wellbeing of Brampton's young people. More importantly, the reports established that the proposed youth hubs will set the foundation for the consideration of developing additional youth hubs in the City of Brampton based on need.

The 2020 Regional capital budget included a \$6M investment to support the City of Brampton's future Community Youth Hubs. In accordance with the Region's Community Hub Planning Framework, an operational or ownership role for the Region in community hubs is not recommended when considering future opportunities or the project execution.

The total estimated costs for the development of these youth hubs is \$15.41M. The City's 2020 Capital Budget included \$2.06M for the design of the youth hubs, with additional funding of \$1.35M approved in 2021 through a council report. The remaining \$12M for construction will be requested as part of the 2022 Capital Budget submission, subject to Council approval. The Region of Peel will provide \$6.0M to offset the City's design, development and construction budget for these hubs.

Current Situation (Project Status Update):

The City's project team comprises of staff from both the Recreation Division and the BDC Division. This team will provide ongoing direction and management of the design, public consultation and construction activities.

During the Fall of 2020, Recreation staff began robust consultations with youth, youth serving agencies and City staff to inform and discuss the design of both youth hubs.

Virtual sessions were held during the Fall of 2020 along with a survey. The sessions were well attended with 211 participants over 6 virtual sessions. In addition to these interactive sessions, the City had 185 individuals fill out the online survey and 1021 individuals respond to social media polls related to the youth hub. The summary of those consultation sessions and survey results are now posted on the City website. The website will be updated and will be utilized as a way to keep residents updated on the progress of this work.

Century Gardens and Susan Fennell Youth Hub Development Timelines

For the development of the Century Gardens Youth Hub and based on the projected timelines outlined by BDC, the procurement to hire an Architect will begin Q4 2021 and be awarded by year-end 2021. The Design Phase with the hired Architect will then begin with the completion of construction drawings by end of Q2 2022. The demolition of the current Lawn Bowling Clubhouse will also occur by Q3 2022. Construction on the new Youth Hub will begin Q1-2023. Project completion is anticipated to take place by Q3 2024, while the opening of the facility to the public is projected for August 2024.

The development of the Susan Fennell Youth Hub is currently in the Design Phase. The architectural drawings will be completed by the end of Q4 2021. Construction will begin Q2 2022 and be completed by Q4 2022. The results of the youth hub consultations will be integrated into the design and development of both the Susan Fennell Youth Hub and the Century Gardens Youth Hub.

The funding amount of \$6M from the Region of Peel towards these youth hubs are outlined in an agreement with scheduled payments aligned with the completion of specific milestones during the capital development and construction phases. Region of Peel staff and City of Brampton staff have been working collaboratively to finalize a funding agreement for the Region's contributions.

Corporate Implications:

Financial Implications:

The total cost for the development of both youth hubs is \$15.41M. The City's 2020 Capital Budget included \$2.06M for the design of the youth hubs, with additional funding of \$1.35M approved in 2021 through a council report. The remaining \$12M for construction will be requested as part of the 2022 Capital Budget submission, subject to Council approval. The Region of Peel will provide \$6.0M to offset the City's design, development and construction budget for these hubs. The table below provides a summary of the project financials:

DESCRIPTION	YEAR	CITY OF	REGION	TOTAL (\$)
		BRAMPTON		

Design for Two Youth Hubs	2020	2,060,000		2,060,000
Budget Amendment	2021	1,352,500		1,352,500
Construction of Youth Hubs	2022	6,000,000	6,000,000	12,000,000
TOTAL				15,412,500

Any operating costs would be the responsibility of the City and would be included by staff in the City's annual budget submissions for Council approval.

Other Implications:

Community Services is agreeable to signing the Region of Peel's agreement and any future agreements related to the renovation and operation of the subject.

Legislative Services - Legal Services is being consulted with respect to the funding agreement with the Region and will approve same as to form.

Strategic Implications:

In 2019 the City endorsed its first For Youth By Youth - Youth Engagement Strategy stating the need to engage Brampton youth aged 14-29.

In March 2020, the City of Brampton received the Platinum Youth Friendly Community designation from Play Works, a program supported by Parks and Recreation Ontario. This designation shows the City's commitment to local youth and ensuring youth feel safe, engaged and connected in Brampton.

During March 2020, due to the COVID-19 pandemic Mayor Brown established the COVID-19 Youth Support Task Force currently co-chaired by Councillor Harkirat Singh and Councillor Charmaine Williams. The focus of the Task Force has been to support youth with resources, tools and supports during the pandemic.

The development of the youth hubs will ensure the sustained engagement of individual youth, youth groups and youth serving organizations in alignment with the City of Brampton's approach to supporting youth in the community.

Term of Council Priorities:

This report achieves a number of the Term of Council Priorities to support the 2040 Vision and the Parks and Recreation Master Plan (2017) by demonstrating a continued commitment to collaborate with publicly funded agencies to provide integrated and seamless services for Brampton residents. By leveraging the strengths of local system partners, residents who are engaged in one program can easily connect to related programs and services, and the individual needs of the community can be met.

In 2018, the Committee of Council endorsed the Brampton 2040 Vision to guide what Brampton will become, with a focus on people. In March 2019, the City Council established multiple Term of Council Priorities to support the 2040 Vision. The proposed "Community Youth Hubs" support a number of the Priorities in different ways:

- Through *Brampton is a City of Opportunities,* the proposed youth hub directly addresses the action plan for integrated community facilities.
- Through *Brampton is a Mosaic,* the youth hub directly addresses embedding diversity and equity, promoting innovative youth engagement, supporting inclusive cultural expressions, and providing inclusive and flexible cultural spaces.
- Through *Brampton is a Well-Run City,* the youth hub provides opportunities and space for young people to meet, be engaged in and connect with their community.
- Through Brampton is *Healthy and Safe City,* youth hubs allows for local service providers to provide community/social services and programs.

Conclusion:

The City of Brampton is establishing two youth hubs and the Region of Peel is supporting the development of these youth hubs with \$6M of funding. Stakeholder consultations have been conducted to ensure the needs of youth are heard and built into the design and operating model of the youth hubs. This report provides an update to Council on the development of this project by staff. City staff also recommends that the Commissioner, Community Services be delegated authority to execute a funding agreement with The Regional Municipality of Peel related to the development of the Century Gardens and Susan Fennell Youth Hubs, and any amendments thereto, subject to the content of such agreements being satisfactory to the Director, BDC and the Director, Recreation, and in a form acceptable to the City Solicitor (or designate).

1. Executive Summary

The City of Brampton has one of the fastest growing populations in Canada with over 52% of Brampton residents being born outside of Canada. In 2016, Brampton had a total population of 593,368, an increase of 13.3 per cent from 2011. The approximate amount of youth ages 14 to 29 in Brampton is 130,600, also making Brampton one of the youngest cities in Canada. In response to the need for safe spaces for youth, and resources and supports that address the root causes of violence, the City of Brampton is proposing two designated Community Youth Hub spaces to be funded and supported by the Region of Peel. With an equitable and inclusive approach to developing and delivering programs and services, the City looks forward to creating a safe space for youth from all walks of life to connect with each other, inspire ideas and access community supports to develop to their fullest potential.

The development of Community Youth Hubs in Brampton achieves a number of the City of Brampton's Term of Council Priorities and the City's 2040 Vision to create a Healthy and Safe City. In addition, the City of Brampton has had multiple organizations and youth groups voice their perspectives on addressing the needs of youth in Brampton. These perspectives have been shared through delegations to City Council, the 2019 Youth Symposium, Age Friendly Strategy sessions and Vision 2040 sessions. These youth groups want to collaborate with the City to help fulfill the current service gaps in Brampton. To fill this gap, the City of Brampton has designated underutilized city-owned spaces as Community Youth Hub.

City staff carefully selected two locations for Brampton's Community Youth Hubs, based on the following criteria: underutilized city-owned asset; a low neighbourhood index score (according the Region of Peel's neighbourhood census scoring tool); a low-income percentage of census tract population greater than the city's average of 14%; accessibility via transit; adjacency to existing city assets to leverage the hub approach; and adjacency to existing city assets to gain operating economies of scale. The two proposed locations are the vacated Lawn Bowling Clubhouse adjacent to Century Gardens Recreation Centre (340 Vodden Street East), and a previously leased first floor space at South Fletchers Sportsplex (500 Ray Lawson Boulevard).

Youth Hub Business Feasibility Study

These youth-centric spaces will be carefully designed to ensure a one-stop-shop for youth to access health care services, social services, education, employment and career services, and youth leadership opportunities.

2. Project Rationale

The development of Community Youth Hubs in Brampton achieves a number of the City of Brampton's Term of Council Priorities and the City's 2040 Vision to create a Healthy and Safe City. Community Youth Hubs in Brampton also support the Region of Peel's Term of Council Priorities by enabling youth to Live, Thrive and Lead within Brampton. In addition, the development of Youth Hubs in Brampton aligns with the Community Safety and Well-Being Plan, which states the ideal state of a sustainable community is where everyone is safe, has a sense of belonging, opportunities to participate, and where individuals and families are able to meet their needs for education, health care, food, housing, income, and social and cultural expression. In alignment with the Region of Peel's Youth Violence Prevention initiatives and Community and Safety Wellbeing Plan, Brampton's Community Youth Hubs also address recommendations in Ontario's Youth Action Plan and the National Crime Prevention Strategy by aiding with and addressing the underlying issues and root causes of violent and anti-social behaviour.

The aim of the Ontario Youth Action Plan (OYAP) is to increase the support for youth initiatives and services with an emphasis on identifying and filling gaps in services, especially for marginalized and underserved groups in the community. Brampton's Community Youth Hubs intend to do just that by removing the barriers many young people face in accessing social or government services. Furthermore, the Community Youth Hubs will align with the four immediate actions of the OYAP:

- 1. **Early intervention:** The programs and services offered through the Hubs will act as a proactive investment in youth wellbeing.
- 2. **Greater opportunities for youth through positive alternatives and jobs:** The Hubs will provide a space for community groups to offer alternative education programs and skill-building opportunities to help youth in their search for employment. Additional employment opportunities may also be made available for youth to assist with the programs and initiatives that take place in the Hubs both through the City and external providers.

- - 3. **Supportive, safer communities:** The locations of the Hubs further support the OYAP, which suggests a, "coordinated place-based approach that focuses on those areas where there are concentrations of disadvantage." The Hubs will also act as a safe space for marginalized groups in the community to gather.
 - 4. **Tackling violence and victimization while helping youth get back on track:** To assist in the response to crime, the Hubs will allow for preventative programming such as reintegration services for young offenders.

In addition to aligning with the OYAP, the City of Brampton understands the need to identify and address the root causes of violence and antisocial behaviour. In consulting with the City's Youth Engagement Strategy, three root-causes were identified as priority areas for support by Brampton's Community Youth Hubs:

- 1. **Poor Support System:** Some youth have experienced domestic abuse, peer-to-peer intimidation, and a lack of positive role models and/or lack of supervision, which can lead them to behave negatively in the future. The Hubs will act as safe, multipurpose spaces that can provide tailored mentorship programs to build youth capacities.
- 2. **Poor Ability to Cope:** Some youth lack the proper tools to manage stress and other dayto-day difficulties. The Hubs will foster a sense of belonging for these youth, and give youth groups who specialize in coping mechanisms a space to expand their outreach.
- 3. Lack of Mental Health Support: There is a lack of mental health facilities in the Brampton area, which leads to long waitlists for many seeking access to these facilities. In addition, there is a stigma surrounding mental health, especially in more marginalized communities. The Hubs hope to provide a local space for community groups to provide mental health support and resources to those in need, as well as public events to raise awareness and decrease the stigma around mental health.

Youth Hub Feasibility Study

Youth in Brampton are diverse and full of potential. Engaging youth is critically important to improving academic performance, reducing substance abuse, building self-esteem, and strengthening mental health by lowering rates of depression and anxiety. Providing a wide variety of services and programs in an integrated manner, which addresses the aforementioned priorities and concerns of youth, is important in increasing youth engagement across the City. When these programs and services are offered in close proximity to one another through a community hub model, it provides youth with the ability to access the necessary services and programs in a safe space, and allows the potential for exposure to important new services, programs and community groups.

Currently, there are a wide range of community organizations that serve youth in Brampton and understand the needs of local youth (Appendix A). In addition to community organizations, Brampton also has a number of youth groups that are passionate about addressing specific issues and meeting to connect with each other and/or create youth-led initiatives (Appendix B). Over the past few years, these youth-oriented organizations and youth groups have been voicing their perspectives on addressing the needs of youth in Brampton through delegations to City Council and facilitated sessions and events hosted by staff (i.e. 2019 Youth Symposium, Age Friendly Strategy sessions, Vision 2040 sessions). Through these forums, there has been an expressed need and demand for a Brampton Youth Hub. These community providers and youth groups are keen to find space through which they can continue to serve Brampton youth, collaborate with the City, and work with each other in a coordinated and integrated way.

The City intends to work with and continue to build this network of service providers and youth groups through engagement and consultation, which will enable cross collaboration and the appropriate use of the Community Youth Hub locations.

3. Target Demographics

Brampton has one of the fastest growing populations in Canada, and one of the youngest communities in Canada. In 2016, Brampton had a total population of 593,368, an increase of 13.3 per cent from the 2011 Census. The approximate amount of youth ages 14 to 29 in Brampton is 130,600, making Brampton one of the youngest cities in Canada. Brampton's youth, therefore, play an important role in driving the economy and civic growth of this community. They are the future of Brampton.

Brampton is a diverse community. The percentage of the total population that identify as visible minorities is 73.31% (or 433,230 persons), and over 52% (308,790 residents of 593,638) of Brampton's population was born outside of Canada. Of the total immigrant population, the approximate number of immigrant youth aged 14 to 29 is 93,000. The diversity within the City's youth population is valued; the City recognizes the need to ensure an equitable and inclusive approach to planning and developing policies, services and programs within the proposed Community Youth Hub spaces.

In the 2016 Youthful Cities Youth Engagement Survey, Brampton youth ranked safety, education, health, affordability and good jobs as the five most important attributes of the City to them, personally. In addition, Brampton youth placed a high importance on the provision of "public space". The majority of responses to the Youthful Cities Youth Engagement Survey indicated that more entertainment options, including youth programs, and improved public spaces (indoor and outdoor) were key to Brampton becoming a better city for young people.

As stated in the City of Brampton's recently-drafted Youth Engagement Strategy, A Strategic Way Forward, Developed for Youth by Youth, it is important to understand who youth are and how they communicate for successful engagement. Brampton's Youth Engagement Strategy outlines a new, made-in-Brampton approach to defining our youth, not just by the broad age range of 14 to 29, but also through a Life Stage Lens, in order to better capture our youth's attention, and create clear and practical avenues for community engagement.

Youth Hub Feasibility Study

Young people are dynamic, complex and diverse. The term, "youth" is fluid, not fixed. In order to provide more clarity, the Life Stage Lens helps to determine the specific needs and interests of young people in a given community. This target age range of Brampton youth ages 14 to 29 has been further divided into the following Life Stage Lens of ages: 14 to 18 (High School Students), 18 to 24 (Young Adults), and 24 to 29 (Young Professionals). These life stages are characterized below:

1. Youth in High School (ages 14 to 18)

- Youth seeking opportunities for engaging experiences and authentic opportunities to connect with peers;
- Currently discovering their interests;
- Rely heavily on family and/or other support systems;
- Have access to social media and are tech savvy.

2. Young Adults (18 to 24)

- Youth seeking opportunities to explore varied facets of their immediate environment for entertainment purposes, sport, arts, and other personal development prospects;
- Value seeking;
- Still developing their interests and seeking to attain a sense of independence;
- Consume information using iPhone or other smart devices, including regular use of social media;
- Prefer to use mobile applications.

3. Young Professionals (24 to 29)

- Youth seeking tools and resources to set a path towards a new career, financial goal, or personal interest;
- Have a more developed sense of their interests and are looking to enhance and build on their skillsets;
- Have a greater awareness of the world and are looking for ways to become engaged;
- Consume information using iPhone or other smart devices, including regular use of social media.

The development and implementation of Brampton's Community Youth Hubs, and more importantly, the programming, activities, and marketing, will keep these life stages in mind to ensure the Hubs meet the evolving needs of Brampton's youth.

4. Potential Programs and Activities

The Community Youth Hubs will be youth-centric spaces designed in consultation with community organizations and health and social service agencies that serve Brampton youth. They will be one-stop shops for youth services and activities for ages 14 to 29. In alignment with the community hub framework, that the Region of Peel supports, there will be an array of services that support the physical, mental, and emotional wellbeing of youth in Brampton. The model will provide services on a wide spectrum such as employment, settlement, counselling, mental health, and recreation.

At the City of Brampton, the proposed Youth Hubs will incorporate the following programs and services:

1. Community Organizations Programs and Offerings

The City will assume a facilitator role by leveraging the expertise and resources of community organizations/service providers to offer a wide range of additional programs in areas such as:

Education, Employment and Career Services

Industry Specific Career and Job Search Support o Space for employment services and potential employers to support and recruit youth. Resume tailoring for different industries, skill building workshops, Q&A sessions, etc.

Access to Educational Supports o Support youth in applying for bursaries/grants, education alternatives o High school homework help

Skills Upgrading o Public speaking, coding and programming, pre-apprenticeship training, etc.

Financial Literacy and Planning

o Information sessions for first time home buyers, budgeting and saving tips for parents, etc.

(311) **If Y** O **D** brampton.ca/red age 324 of 477

Civic Engagement

o Engaging youth groups and organizations that ensure youth know their rights, how to get involved, o Keynote speakers and forums on topics relevant to youth such as conflict resolution, social philanthropy, inclusion and equity

Mentoring Services

o Formal mentoring programs, peer mentoring, industry specific (i.e. culinary) and situational specific (i.e. new parents)

Social Services

Affordable Housing

o Consultations to support youth in finding a home. Access and education to apply for financial support

Youth with Disabilities

o Services that support and enable physical, cognitive and independent living, and increase life skills

Individual and Family counselling

o Private consultation rooms for social workers and counsellors to meet with youth and families as necessary to enable peaceful and healthy relationships that surround each young person

Newcomer Youth

o Settlement and information/referral services, Canadian system navigation, language and mentoring

Health Care Services

Public Health and Wellness

o Having public health professionals use office space to integrate health and wellness services and programming to create an environment that enables healthy behaviours o Having Region of Peel staff work with City of Brampton staff to support the healthy development of

o Having Region of Peel staff work with City of Brampton staff to support the healthy development of Brampton youth

Mental Health and Counselling Services

o To address depression, anxiety, stress, bullying, relationships, substance abuse, crisis intervention

Health Promotion

o Space, programs and events will be created to provide diabetes education, cannabis education, substance abuse prevention and disease prevention

2. Dedicated Youth Space

The Youth Hubs will include a variety of unstructured spaces that will not be programmed in order to allow youth to freely socialize and connect. These spaces include:

Multi-Purpose Open Spaces	
Open space for group socializing space	
o Multimedia labs, computer rooms, and free Wi-Fi	
o Ability to host large events, presentations and a variety of pr	ogramming
Consultation Rooms	
Consultation/breakout rooms for small group or one-on-one programming is scheduled o A space for service providers to also have 1:1 consultations, a	
Bookable Space for Youth Groups	
To allow for youth-led and youth-based groups to gather and larger spaces o Will allow the Hub to be more responsive to the evolving nee	
Kitchen Facilities and Eatery Area	
To allow for a variety of food related activities o A space for youth to connect while learning how to cook and independent living	attend workshops that support

3. The City of Brampton's Programs and Offerings

The City of Brampton's various divisions and teams will also ensure a presence within the Community Youth Hubs by providing potential programs, activities and opportunities for youth engagement in the following areas:

Business/Entrepreneurship
Offer seminars and workshops on a variety of topics to increase business and financial acumen and support entrepreneurship.
Special Events
Increase youth engagement and youth advocacy through special events.
Arts and Culture
Offer programs that introduce youth to the arts and culture realm and promote diversity and inclusivity.
Creative Arts
Offer programs, seminars and workshops, which allow youth to explore and advance a variety of skills and interests.
Recreational Programs
Create opportunities for youth to engage in a variety of programs and activities to support health, wellness, leadership and team building.

The outlined programs and activities, amongst others, attempt to supplement the services and programs, which will be offered by external organizations, in order to meet the broad range of needs expressed by youth in Brampton.

In the 2016 Youthful Cities Youth Engagement Survey, Brampton youth placed a high importance on the provision of "public space" with the majority of responses indicating that more entertainment options, including youth programs, and improved public spaces (indoor and outdoor) were key to Brampton becoming a better city for young people. Dedicated space for Brampton's community youth service providers and youth to engage and interact, presents the opportunity to integrate broader youth programming and activities in close proximity to best engage Brampton's youth.

As the Hubs evolve, and staff connect with youth and community organizations to better understand the needs of youth in Brampton, new programs can be developed, some, in partnership with external service providers. The City of Brampton commits to ensuring these connections and networks remain vibrant and that all voices are heard to ensure that the Hubs remain flexible and safe places for youth to be themselves and receive the necessary support, tools and techniques to become successful individuals, alongside programs and services that allow them to explore a variety of interests and skills.

5. Service Delivery Options

The Community Youth Hubs will be designed in consultation with community organizations and health, social, education and youth leadership service agencies that serve Brampton youth. The model will provide services such as mental health, counselling, settlement, health promotion, employment, entrepreneurship, arts and culture and recreation as part of a suite of offerings for youth. Brampton's Community Youth Hubs will be interactive and vibrant spaces that will serve as one-stop shops for youth services and activities for ages 14 to 29. The Hubs will provide a safe place for youth to be themselves and receive the necessary support, tools and techniques to become successful individuals. There are a number of ways in which the City of Brampton can implement the delivery of the programs and activities for youth. The following outlines the service delivery options for consideration.

Option #1: City as the Lead Agency

In this option, the City of Brampton is the lead agency, owning, operating and maintaining the facilities/assets while also leading the delivery of youth based programming in collaboration with community service providers and engaging with youth in the community. As the lead agency, the City of Brampton will create the vision, governance, and model for the Hubs, in which all stakeholders will engage. In addition, City staff will actively engage service providers (especially in the health and social services sectors) to provide services within the Youth Hubs. The City will be responsible to seek the appropriate service providers and manage the agreements and the allocation of space to meet the evolving needs of youth. City staff will also work with service providers to encourage collaborations that maximize resources to support efficient Youth Hub programs. The City of Brampton will ensure internal City divisions are creating offerings for youth at the Hub sites (i.e. recreation, arts and culture, parks, transit, economic development). The City will also ensure the Hubs are dedicated vibrant spaces for youth to gather and be inspired to utilize the programs and services offered within the Hubs.

Option #2: External Youth Based Organization as the Lead Agency

In this model, City staff will seek a lead agency that will develop the vision for the Youth Hubs and ensure delivery of services and programs for Brampton youth. This model reduces the City's responsibilities in the planning, managing and facilitating discussions with service providers and youth. The City's internal divisions will be involved in offering City-based programming within the Hub during City allocated time as part of an agreement. In this model, the City will undergo a process to select a lead agency and will subsequently outline and manage the lease agreement with the chosen lead agency.

Option #3: City as the Lead Agency – Open Bookable Space

In this option, The City of Brampton is the owner and operator of the Community Youth Hub spaces. However, the City will act as a concierge/facilitator for external organizations to use the spaces, on an as-need basis. The rooms will be left as open, bookable space by youth groups and youth-focused service providers. The City will not be actively seeking out providers to book the space, leaving the Youth Hubs more responsive to community organizational needs. Criteria will be developed to ensure that those who book the space in the Youth Hubs are either youth, youth groups or providers that meet the needs of youth in Brampton.

	\rightarrow				\bigcirc	
--	---------------	--	--	--	------------	--

Service Delivery Option #	1: City as the Lead Agency
Advantages	Disadvantages
• City can directly ensure programs and activities are responsive and flexible to meet the evolving needs of youth	• City will have to ensure a process is in place to ensure equitable access to all youth groups and service provider agencies in Brampton
 Allows the City to develop and grow relationships with youth-serving community groups/partners City can ensure a continuum of services in a flexible and timely manner 	• City will have full operating costs related to hiring full-time and part-time staff to ensure the Hubs programming is of high quality and relationships with community providers and youth are strong
 City has direct responsibility to ensure a wide array of programming, activities and services are available for Brampton youth 	
• City can ensure programs and services align with internal corporate initiatives (i.e. 2040 vision) and Region of Peel's priorities	
• Ability to leverage the ease of internal collaboration within City of Brampton divisions	
Service Delivery Option #2: External Yout	h Based Organization as the Lead Agency
Advantages	Disadvantages
 City will have lower operating costs due to not having to hire a full complement of full-time and part-time staff Lead agency that is selected may have greater expertise in youth initiatives and relationship building than the City 	 Lack of city-wide coordinated planning and accountability, as the lead agency operates its own governance structure Lacks consistency compared to other corporate initiatives/programs
	 Less accountability and management of the quality of programming Does not support the City's ability to develop strong relationships with community providers and youth

|--|--|

Service Delivery Option #3: City as the	e Lead Agency – Open Bookable Space
Advantages	Disadvantages
Allows for the programming within the Hubs to be community driven due to open bookable spaces	 May allow for concentration of certain program types and organizations that may over utilize the space
Allows the City to build organic relationships with community groups/partners and youth groups	 Risk of not having programming that captures community needs at any one time
	Inconsistent offerings for youth that utilize the Hubs
	 Inability to broadly share and promote the services and programs ahead of time to Brampton youth

6. Proposed Locations

In determining the locations for potential Brampton Community Youth Hubs, staff examined a few key criteria to identify optimal locations. One of the primary determinants was to ensure there was an existing city-owned asset that could be revitalized and re-purposed for Brampton youth. In addition, the Region of Peel's Neighbourhood Information Tool (NIT) was utilized to review the Neighbourhood Index Scores of the city's census tracts. The Neighbourhood Index Score is a measure of well-being for each census tract, with higher scores representing higher well-being. Similarly, staff also reviewed the prevalence of low-income based on the after-tax low-income measure (LIM-AT), as reported by Statistics Canada in the 2016 Census. With the average of the City's low-income population being 14%, neighbourhoods, individuals and families with a higher percentage of low-income are considered in greater need of this investment.

The Century Gardens Lawn Bowling Clubhouse, and the space at South Fletcher's Sportsplex were the only two locations that met all of these criteria, as other areas in the City with low NIT scores and a prevalence of low-income population did not have an existing underutilized City-owned asset (Bramalea, Kennedy & Queen, etc.). In addition, in support of the notion of providing a central access point for a range of services, it makes sense to establish Youth Hubs within the community areas that are reachable by our youth.

Proposed Youth Hub Locations	Existing Underutilized City-Owned Asset	Low Neighbourhood Index Score	Low Income % of census tract population greater than the city's average of 14%	Accessible Via Transit	Adjacent to Existing City Assets to Leverage Hub Approach	Adjacent to Existing City Assets to Gain Operating Economies of Scale
Century Gardens Lawn Bowling Clubhouse	Ø	☑ 45	⊠ 16%		V	
South Fletcher's First Floor Leased Space	Ø	☑ 37	⊠ 21%		V	

Century Gardens Proposed Youth Hub Location #1

Century Gardens Lawn Bowling Clubhouse sits centrally within the City, making it available to serve not only its surrounding neighbourhood, but a larger parameter of surrounding communities as well.

The Century Gardens location aligns with the criteria determined by the City to establish a Community Youth Hub. First, it is a City-owned asset that can be renovated and remodeled, as it currently sits underutilized. Second, the area around Century Gardens has one of the lowest Neighbourhood Index Scores (45) out of the six sites that were evaluated for a proposed Community Youth Hub location. This neighbourhood indicates a lower well-being in the area as it falls within a NIT scoring range of 15 - 60.

In addition, the Century Gardens location is adjacent to both Gordon Graydon Public School and Century Gardens Community Centre. The former provides proximity to youth in the area who can benefit from the services available within a Youth Hub. The latter provides the ability to leverage operating and programming resources located at the community centre.

Finally, accessibility via public transportation exists from neighbouring communities through transit hubs and a Vodden Street bus route, which brings users almost directly to the doorsteps of the future Hub location.

South Fletcher's Proposed Youth Hub Location #2

The South Fletcher's Neighbourhood Index Score (37) was the lowest of the sites evaluated and is, therefore, proposed as a second site for a Community Youth Hub. The space, located within South Fletcher's Sportsplex, has been recently vacated and sits empty for renovations. Similar to the Century Gardens Lawn Bowling Clubhouse site, it too can leverage relationships of operations and program delivery.

The South Fletcher's space exists along a corridor of youth accessibility. There are many transit options to this site, making it easier for youth to access services, programs and resources. The fact that there are already a number of schools and youth in close proximity to this site will allow for youth in this neighbourhood to have a heightened awareness of the Hub space, in addition to potential program collaborations.

The Hub in this location will not only provide resources for the under-served youth in the area, it also allows for students in the area to gather and develop youth-led initiatives and solutions for some of the issues and gaps they see in their generation. Creating a space in this location will enable new partnerships and collaborations to support this area of Brampton.

Youth Hub Layout

In exploring options for Community Youth Hubs in Brampton, the proposed operational spaces would need to accommodate a variety of programs and activities, including, but not limited to:

- space for health and social service providers;
- small rooms for personal consultation and individual work;
- larger rooms for group activities and events;
- open flexible space for youth to study and socialize;
- office space for staff;
- and kitchen facilities.

Century Gardens Youth Hub Layout: Figure 1.0

The following illustrative concepts demonstrate the potential layout of a 12,000 square foot Youth Hub at Century Gardens Lawn Bowling Club.

The following concepts depict the potential layout of the smaller sized Youth Hub that would be located at South Fletcher's Sportsplex.

7. Capital Costs

8. Marketing Plan

The City of Brampton Community Youth Hub marketing efforts will be directed towards building awareness and driving traffic to a dedicated Community Youth Hub website and mobile application where youth can engage with relevant content (i.e. up-to-date event programming and launches, incentives, operating hours and public service announcements).

The City of Brampton expects to use a variety of marketing tools including traditional marketing, digital marketing, social media, public relations, and key strategic community partnerships to increase awareness of the Community Youth Hubs.

Social Media

A strong presence on social media will be incorporated into campaigns to ensure youth engagement and awareness is ongoing. Data shows that youth are the primary audiences engaging with content on social media, with Instagram, Snapchat, and Facebook as the most popular channels.

Digital Marketing

Campaigns will heavily rely on digital tactics, placing web banners and digital ads on sites frequented by youth to increase traffic and awareness. This advertising will be specifically aimed towards the targeted demographic. In addition, search engine optimization tactics will be employed to ensure local searches for words relating to youth programs yield brampton.ca/youth as a top result on popular search engines.

Traditional Marketing

All initiatives will include some aspect of traditional marketing. This may include paid advertising in areas that youth frequent, such as movie theatres and shopping malls, ads on public transit, print flyers and newsletters distributed to schools, and mobile or digital road signs.

Public Relations

On-going public relations campaigns will ensure messaging regarding the Hubs is circulated to the public via various partners and community resources, most notably local media.

Strategic Community Partnerships

Partnerships with key stakeholders in the community, particularly education or youth service providers, will ensure extensive co-marketing by both organizations with the goal of each entity driving traffic and awareness to enhance and enrich experiences for community youth.

9. Conclusion

The development of Brampton's Community Youth Hubs achieves a number of the City of Brampton's Term of Council Priorities and the City's 2040 Vision to create a Healthy and Safe City. The City's Parks and Recreation Plan (2017) also indicates that the primary goal is to: "Plan. Grow. Play. Together." The feasibility study for the Community Youth Hubs in Brampton supports the Region of Peel's Term of Council Priorities, by enabling youth to Live, Thrive and Lead within Brampton. More importantly, the Hubs are a strategic response to violence among youth by providing a safe space for youth to develop and grow to their fullest potential.

The City of Brampton has selected two locations ideal for the Youth Hubs, the vacated Lawn Bowling Clubhouse adjacent to Century Gardens, and a previously leased first floor space at South Fletcher's Sportsplex. These locations have been identified as geographies with under-utilized city assets, high-risk and low-income communities (according to the Region of Peel's Neighbourhood Index Tool) and where public transit is easily accessible. The successful implementation of Youth Hubs at these locations will help bring Brampton youth together in a safe space where they can access education, employment and career services, social services, youth leadership opportunities and public health services.

In order for the Youth Hubs to be successful, the City will need to forge strategic relationships with a variety of external stakeholders and youth service providers that will enable these locations to be thriving and vibrant Hubs for youth that assist in providing opportunities and reducing some of the detrimental societal influences that our youth face in the City of Brampton today. The successful implementation of Brampton's first Community Youth Hubs will prove to be a tangible way of investing in youth and providing them a community in which they can live, thrive and lead.

Brampton Community Youth Hubs

November 14, 2019

REGIONAL COUNCIL UPDATE

Table of Contents

- Brampton's Youth
- Community Youth Hubs
- Service Delivery
- Proposed Locations and Concepts
- Next Steps

Brampton's Youth

Brampton is one of the **youngest** cities in Canada with 130,600 youth within the ages of 14-29.

Brampton is one of Canada's **fastest growing** cities, with the second highest growth rate among Canada's 25 largest cities.

3

Brampton is a **diverse** City with 52% of residents born outside of Canada and 73% of residents identifying as visible minorities.

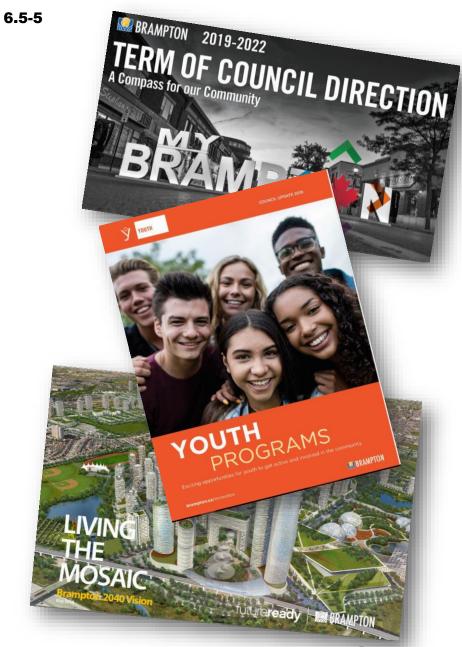

Page 363 of 477

Brampton City Council's Commitment to Youth

In 2018, the Committee of Council endorsed the Brampton 2040 Vision to guide what Brampton will become, with a focus on people. In March 2019, the City Council established multiple Term of Council Priorities to support the 2040 Vision. The proposed Community Youth Hubs support a number of the Priorities in different ways, namely:

- Brampton is a Healthy and Safe City
- Brampton is a City of Opportunities
- Brampton is a Mosaic

Page 364 of 477

Brampton is a City for Youth

In 2019 the City endorsed its first **Youth Engagement Strategy**: created by youth for youth. In November, the City will host its first "We The Future" event for youth 14-29.

In December 2018 the City hosted its first **Brampton 2040 Vision Youth Symposium**, giving youth the platform to develop an action plan for the City's future.

Brampton is currently designated as a platinum status **Youth Friendly Community**, and working towards reapplying for January 2020.

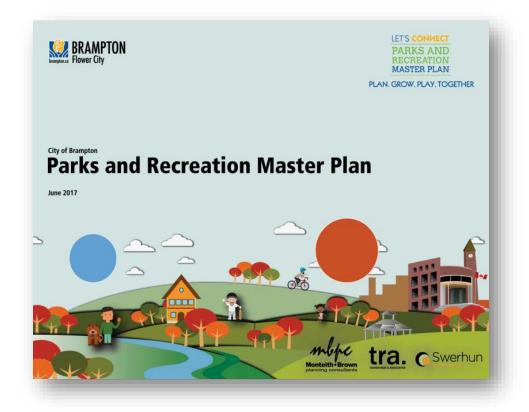

Page 365 of 477

Parks and Recreation Master Plan 6.5-7

In 2017, Brampton Council endorsed the Parks and Recreation Master Plan.

The proposed Community Youth Hubs support the Plan through:

- Partnering with **publicly funded agencies**
- Leveraging the strengths of local system partners
- Multi-use facility design to provide one-stop convenience to residents

Page 366 of 477

Regional Council's Priorities 6.5-8 and Strategic Plan

Community Youth Hubs in Brampton support the Region of Peel's Term of Council Priorities and "Community for Life" Strategic Plan by helping to create healthy, safe and connected communities in Brampton, where youth are enabled to:

Brampton's Community Youth Hubs

The Community Youth Hubs would be **youth-centric spaces designed in consultation** with community organizations and health and social services agencies that serve Brampton youth. They will be one-stop shops for youth services and activities for ages 14 to 29.

In alignment with the community hub framework, that the Region of Peel supports, there will be an array of services that support the physical, mental, and emotional wellbeing of youth in Brampton. The model will **provide services on a wide spectrum** such as employment, settlement, counselling, mental health, public health and additional programs

8

Page 368 of 477

Why a Community Youth Hub?

In the 2016 Youthful Cities Youth Engagement Survey, Brampton youth ranked **safety, education, health, affordability and good jobs** as the five most important attributes of City to them personally.

In addition, Brampton youth placed a high importance on the provision of "**public space**."

Providing a wide variety of services and programs in an integrated manner, which address the aforementioned priorities and concerns of youth, is important in increasing youth engagement across the City.

6.5-10

Page 369 of 477

Why a Community Youth Hub?

Currently, there exists a wide range of **community organizations that serve youth** in Brampton who are keen to find space through which they can continue to serve Brampton youth.

In addition, **youth groups** have shared their need for space to meet, host events, and create youth-led initiatives.

The City intends to continue to build this network through **engagement and consultation**, which will enable cross collaboration and the appropriate use of the youth hub locations by service providers.

6.5-11

Page 370 of 477

Target Demographics 6.5-12

Based on the recommendations set out in the City of Brampton's Youth Engagement Strategy, our target demographic is 14-29 and has been further divided using the life stage lens, characterized below:

YOUTH IN HIGH SCHOOL (14-18)

Currently discovering their interests, rely heavily on support systems and are seeking opportunities for connection.

YOUNG ADULTS (18-24)

Still developing their interests and seeking to gain independence. Looking for opportunities to explore their environment for entertainment purposes.

YOUNG PROFESSIONALS (24-29)

Have a more developed sense of interests and are looking to build skillsets and seek tools and resources towards a new career, financial goal or personal interest.

Service Delivery Options

CITY AS THE LEAD AGENCY

City operates and maintains the facility, while delivering programming in collaboration with community service providers and engaging youth in the community.

EXTERNAL ORGANIZATION AS THE LEAD AGENCY

An external lead agency ensures the delivery of services and programs for Brampton youth, in alignment with the City's vision for the hub. 12

OPEN BOOKABLE SPACE

City operates and maintains the facility, however space is available for rent by service providers and youth on demand.

BRAMPTON

Youth Hub Services

COMMUNITY ORGANIZATION PROGRAMS & SERVICES

- Education, Employment and Career Services
- Youth Leadership
- Social Services
- Health Care Services

DEDICATED SPACE FOR YOUTH

- Multi-Purpose Open Spaces
- Consultation Rooms
- Bookable Space for Youth Groups
- Kitchenette and Eatery

Page 373 of 477

CITY PROGRAMS

- Special Events
- Creative Arts
- Recreational Programs
- Business and Entrepreneurship

Proposed Amenities

INDIVIDUAL ROOMS

For one to one support or consultation and small group breakouts

BOOKABLE SPACE FOR YOUTH GROUPS

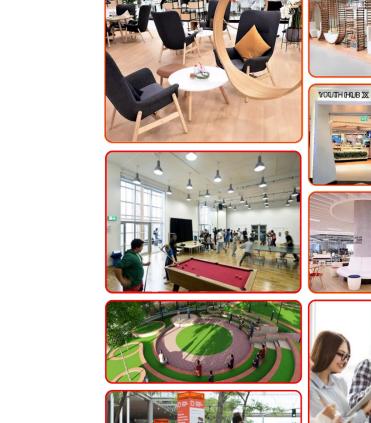

To allow for youth groups to gather and facilitate their own programming

OPEN MULTIPURPOSE SPACE

Open space for larger seminars, workshops, programs and events, or socializing and networking

KITCHENETTE & EATERY AREA

Opportunity for food and beverage, staff use, extended programming and services

Century Gardens Lawn Bowling Facility

- City-owned asset that is sitting vacant due to need for extensive renovations
- Located centrally within the City, and adjacent to Gordon Graydon Public School and Century Gardens Community Centre
- Lower well-being score according to the Region of Peel's Neighbourhood Information Tool
- Large youth population

BRAMPTON

Accessible via public transit

15

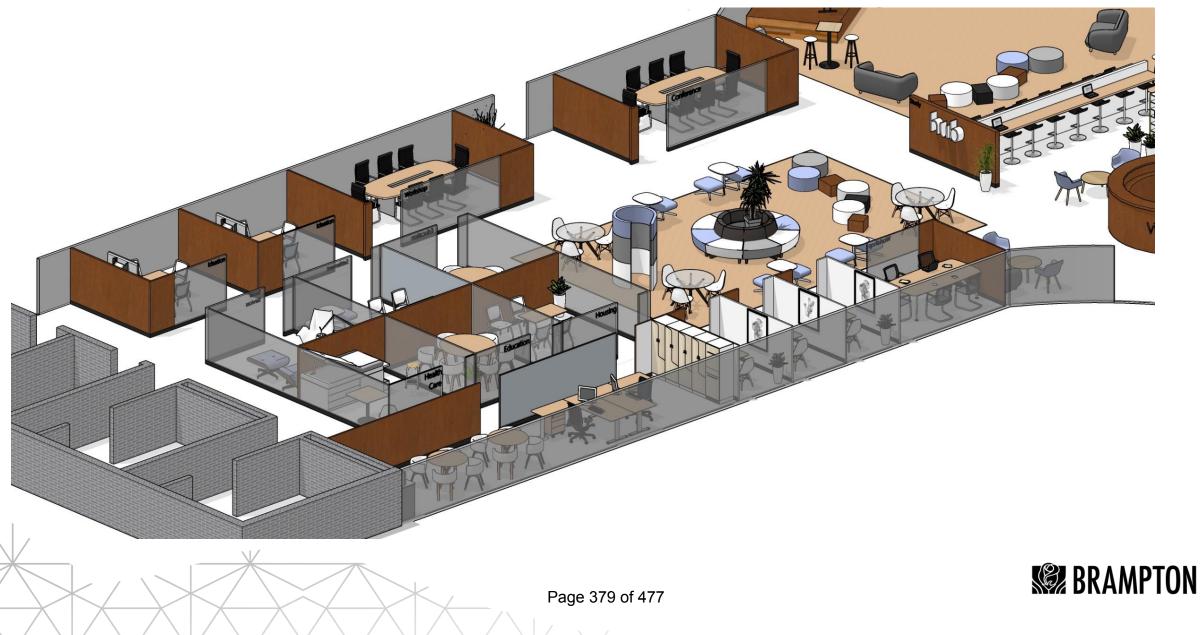

Page 376 of 477

South Fletcher's Lease Space

- 750 sq. ft. of space on the main floor of South Fletcher's Sportsplex currently sits vacant
- Located in a neighborhood with a large youth population
- Lowest well-being score of the sites evaluated, according to the Region of Peel's Neighbourhood Information Tool
- Accessible via public transit

REPORT Meeting Date: 2020-03-12 Regional Council

For Information

REPORT TITLE:	Community Data Summary Report
FROM:	Janice Sheehy, Commissioner of Human Services

OBJECTIVE

To provide an overview of the Brampton Community Data Summary Report, regarding the City of Brampton's two proposed community youth hubs.

REPORT HIGHLIGHTS

- For the Community Data Summary, two study catchment areas were identified by local municipal staff in relation to the proposed community youth hub locations the Lawn Bowling Clubhouse adjacent to Century Gardens, and South Fletcher's Sportsplex.
- The Community Data Summary was informed through quantitative and qualitative data from the Neighbourhood Information Tool, other sources (e.g. Peel Public Health and Peel District School Board) and a literature review. This information was then validated through community consultations.
- Each study area has unique considerations however, across both study areas youth was consistently identified as a priority population.
- The Community Data Summary analysis identified four themes for consideration in the development and implementation of the proposed community youth hubs: economic, safety, health, and resident engagement and community belonging.

DISCUSSION

1. Background

On November 14, 2019, the Director of Recreation, City of Brampton delegated to Regional Council as requested on the communication dated November 1, 2019, regarding the *Brampton Community Youth Hubs Feasibility Study* (Resolution 2019-1038).

The *Brampton Community Youth Hub Feasibility Study* document and delegation presentation provided an overview of the City of Brampton's plan to utilize city-owned assets to develop two youth-centric hubs for ages 14-29 years. The two proposed locations are the vacated Lawn Bowling Clubhouse adjacent to Century Gardens Recreation Centre (340 Vodden Street East) and the previously leased first floor space at South Fletcher's Sportsplex (500 Ray Lawson Boulevard).

After receipt of the communication and delegation, Regional Council requested that the Commissioner of Human Services report back to a future meeting upon completion of a needs study, with a report that is similar in format to the study conducted for the Malton Community Hub, and include previous reports to Council related to the Region's role in Community Hubs.

11.1-1

Community Data Summary Report

Since 2017, several reports outlining the evolving nature of the Region's role in developing, maintaining, and funding community hubs have been presented at Council. The report titled, "The Region's Role in Community Hubs" as received by Regional Council on October 24, 2019, Resolution 2019-966 is the most recent report, and outlines the current role of the Region in developing community hubs. The report is attached as Appendix I. All other reports are available through the Clerks office upon request.

The Community Hub Planning Framework as approved by Regional Council outlines the Region's role in supporting the development of strong community hubs based on the following standards:

- Understanding the evidence-informed needs of the community
- Developing strong partnerships with shared vision, priorities and outcomes
- Strong business planning that includes established governance, financial models and a mixture of services
- Integrated service delivery that builds upon the resources and expertise of the partners

The Region will continue to demonstrate a leadership role by enabling community stakeholders to identify and plan innovative service models through staff resources, the Community Investment Program and the Revolving Capital Loan program.

The Community Hub Planning Framework does not identify a Regional role in operations or ownership for community hubs. As outlined in the October 24, 2019 Regional Council report, all future community hub investments will be considered on a case-by-case basis, and require Regional Council approval, and a solid business plan.

2. Community Data Summary Report

a) Study Areas

The purpose of the Community Data Summary attached as Appendix II, is to provide information and a needs analysis of the City of Brampton and the areas surrounding the two proposed community youth hub locations. Study areas were identified in consultation with City of Brampton staff, which considered Statistics Canada Census Tract and Ward boundaries to inform data and information collection for this report. The two study areas are the Century Gardens Study Area, which includes Ward 1, the location of the vacant Lawn Bowling Clubhouse and Ward 5, and the South Fletcher's Study Area which includes Ward 4, the location of the South Fletcher's Sportsplex and Ward 3.

b) Data and Information Collection

In undertaking this needs analysis study, staff committed to identify and review the available quantitative and qualitative data from sources such as the Neighbourhood Information Tool, Peel Public Health and the Peel District School Board.

The Neighbourhood Information Tool (NIT) is a common data and mapping tool that combines quantitative data for twenty-one indicators grouped into six domains that contribute to a neighbourhood well-being index score at the census tract level. An analysis of the City of Brampton NIT well-being index scores was completed, which validated that Wards 3 and 4 in the South Fletcher's study area and Ward 1 in the Century Gardens study area have a greater number of low well-being census tracts.

Community Data Summary Report

3. Community Data Summary Themes

Although there are unique considerations within each study area, overall, youth was consistently identified as a priority population across both catchments. The analysis of data, literature and community consultations provided greater understanding of the specific service and community needs:

- 1. **Economic –** Youth require greater access to education and training programs leading to stable employment; this includes mentorship and apprenticeship opportunities.
- 2. **Safety –** Common desire to tackle violence and victimization through crime prevention and the creation of supportive and safe spaces.
- 3. **Health –** A consistent emphasis on the need for more mental health supports to deal with stress, depression, anxiety, family issues and substance abuse.
- Resident Engagement and Community Belonging Youth desire social connectivity, civic engagement through a dedicated space that supports tailored interventions and strategies for all youth with varying needs and interests.

The community consultation also identified the importance of intentionally engaging and including equity seeking groups such as the LGBTQ and racialized (visible minority) communities in future planning and implementation stages.

FINANCIAL IMPLICATIONS

There are no financial implications associated with this report; it is provided as information to inform Regional Council's decision regarding the two proposed Brampton community youth hubs.

CONCLUSION

The attached Community Data Summary report confirms that within both study areas, youth are experiencing multiple challenges related to economic, safety, health, and resident engagement and community belonging. It is important that future planning includes additional consultation and engagement, particularly of diverse community groups and stakeholders. This report is a resource to inform Regional Council's decision on future investments related to two proposed community youth hubs in the City of Brampton.

APPENDICES

Appendix I – Council Report on Region's Role in Community Hubs October 24, 2019 Appendix II - Community Data Summary

REPORT Meeting Date: 2019-10-24 Regional Council

For Information

DATE: October 17, 2019

REPORT TITLE: THE REGION OF PEEL'S ROLE IN COMMUNITY HUBS

FROM: Janice Sheehy, Commissioner of Human Services

OBJECTIVE

To provide an update on the Region's role in the development of community hubs.

REPORT HIGHLIGHTS

- Regional Council endorsed a Community Hub Planning Framework (the Framework) that provides standards for the development of strong and sustainable community hubs, and outlines Peel's role in supporting community agencies with the strategic design and planning of integrated service models.
- The Province promoted the development of hubs by offering several supports including a framework and action plan, hub resource portal, learning conference and some funding to support surplus property transition and facilitate hub planning, however, there was no commitment of operational funding to ensure ongoing sustainability.
- A jurisdictional scan of municipalities validated the importance of hubs to the community as well as the complexity in developing and sustaining hubs.
- The Region will continue to use the development standards as outlined in the Framework to guide its role, namely that hubs should: be based on needs of the community and evidence-informed; utilize strong partnerships with a shared vision, priorities and outcomes; encompass strong business planning, and result in an integrated service delivery model.
- Through Council direction, there is an opportunity to provide one-time capital grants to fund the development of community hubs, when supported by a solid business case, evidence of operational sustainability, and alignment with the outcomes of the Region's Strategic Plan. In accordance with the Framework, an operational or ownership role for the Region in community hubs is not recommended when considering future opportunities.

DISCUSSION

1. Background

On October 12, 2017 (Resolution 2017-809), Regional Council endorsed the Community Hubs Planning Framework report and directed staff to report back with an enhanced and more active role in the development of community hubs. On April 5, 2018, Regional Council endorsed the report titled, Community Hubs Development Update (Resolution 2018-251) which included an enhanced Framework, and standards and actions that support evidence

Appendix I Community Data Summary Report THE REGION OF PEEL'S ROLE IN COMMUNITY HUBS

informed business planning, strong partnerships with shared vision, and tailored integrated service models.

Through the January 31, 2019 Regional Council 2019 Budget meeting, Council approved the following Resolution (RBC-2019-36):

That Council supports the conversion of the abandoned Lincoln Alexander Secondary School Pool to a youth hub;

And further, that the \$6 million currently in a placeholder in the 2019 Budget be removed and deferred such that \$3 million be placed in the 2020 Regional Budget proposal and \$3 million into the 2021 Regional Budget proposal;

And further, that the Region and City of Mississauga staff jointly report at a future meeting of Regional Council, on the Malton Community Hub, including a full business plan, the services that will be offered and who the tenants will be;

And further, that the staff report back to a future meeting of Regional Council on community hubs and the Region's role in the development of hubs, from the perspective of ownership, capital development and operations.

This report outlines the Region's role in community hubs as requested in the January 31, 2019 resolution.

Further, a companion report provides an overview of the actions taken to date and the current project status for the Malton Community Hub as requested in the January 31, 2019 resolution.

2. Community Hub Jurisdictional Scan

To further inform the Region's role in the development of community hubs, a jurisdictional scan, which included outreach to the Province of Ontario and four municipalities, was undertaken.

a) Provincial Hub Position

In 2015, the former Provincial government released a report titled: *Community Hubs in Ontario: A Strategic Framework and Action Plan*, aimed at supporting the development of service models that are aligned with local needs and increase service access through community hub development. The Province offered an online resource portal, learning conference, and funding to support surplus property transition and facilitate hub planning, though, no long-term funding commitment was made for on-going operations.

The current Provincial Government supports the physical integration of services however, to date, has not committed to funding community hubs. The future Ontario Health Teams continuum of care model reinforces the Province's position on integrated services as outlined in the Health department report titled: The Region of Peel's Role in Local Ontario Health Teams (Resolution 2019-375).

b) Jurisdictional Scan

A jurisdictional scan was completed with the Regional Municipalities of Waterloo and York, and the Cities of Markham and Toronto. The scan confirmed the value of hubs as a model to facilitate integrated service delivery and improve residents' access to health, community and social services. The scan also identified the complexity of community hubs and the need for ongoing resources and investment to ensure continued effectiveness and sustainability.

To better address the complexity of integrated service models, some jurisdictions apply a case-by-case approach to determine support of potential new hubs. Success factors include utilizing existing, owned or surplus infrastructure when feasible; direct alignment to municipal service priorities; securing funding from other levels of government, foundations, etc. and establishing partnerships.

3. Region of Peel's Role in Community Hubs

The Region will continue to use the Community Hub Planning Framework to guide its leadership role in the development and support of hubs. This includes:

- Supporting the development of community agencies capacity to access and use evidence informed service planning tools (i.e.: Neighbourhood Information Tool) in order to create hubs that meet the needs of the community.
- Encouraging and facilitating coordinated, service integration through strong partnerships, a shared vision, priorities and outcomes.
- Providing funding through the Community Investment Program and the Human Services Revolving Capital loan program to the not-for-profit sector to facilitate strong business planning

There are two unique hubs being developed where the Region of Peel's role goes beyond capital development:

- a) The Region's Strategy to Address Human Sex Trafficking in Peel includes a service hub dedicated to serve individuals at-risk, engaged in and transitioning out of human sex trafficking. Regional Council approved the strategy and budget for a three-year pilot with the commitment that external funding sources be sought from other levels of government.
- b) The Seniors Health and Wellness Village at Peel Manor has a Council approved capital budget to support the redevelopment of 177 long-term care beds, with expanded Adult Day programing, overnight respite care as well as a service hub; all within this Regional asset. The service hub will feature health and social services available to residents of the centre and the surrounding community.

In addition, the proposed 2020 Regional capital budget will include a \$6 million investment to support the City of Mississauga's future Malton Community Hub. The City of Brampton has also recently requested a \$6 million capital grant to be included in the proposed 2020 budget. This grant will support two community youth hub locations as outlined in the resolution from the September 26, 2019 Regional Council meeting (Resolution 2019-855).

Should Regional Council approve the two capital grants (total \$12 million), for both the City of Mississauga and the City of Brampton, Council could direct that the allocation remains in

Appendix I Community Data Summary Report THE REGION OF PEEL'S ROLE IN COMMUNITY HUBS

the base budget as a source of capital funding to support the development of future community hubs. In accordance with the Framework, an operational or ownership role for the Region in community hubs is not recommended when considering future opportunities.

All future community hub investments will be considered on a case-by-case basis, and require Regional Council approval, and a solid business plan that demonstrates:

- A plan to secure multi-sources of funding and partnerships to achieve operational sustainability
- Utilize existing or surplus infrastructure, when feasible
- Alignment with the outcomes of the Region's Strategic Plan

CONCLUSION

Community Hubs play an important role in supporting residents through an integrated service delivery model. The Community Hub Planning Framework does not identify an operational or ownership role for the Region in community hubs. However, as outlined in the Framework, the Region will continue to demonstrate a leadership role by enabling agencies to strategically design and plan community hubs. Through Council direction, the Region may provide a one-time capital grant to fund the development of a community hub when supported by a solid business case, evidence of an operational sustainability plan, and alignment with the outcomes of the Region's Strategic Plan.

Summary

On November 14, 2019, the City of Brampton presented an overview of the *Brampton Community Youth Hubs Feasibility Study* to Peel Regional Council. Ultimately the proposed Hubs will be used as youth-centric spaces designed to ensure a one-stop-shop for youth (ages 14-29 years). The hubs would enable youth to access health care services, social services, education, employment and career services and youth leadership opportunities. As a result of the presentation, Regional Council directed staff to complete a needs study, similar in format to the one conducted for the Malton Community Hub.

The Region of Peel's Community Hub Planning Framework identifies the value of understanding the evidence-informed needs of a community as a standard for sustainable hub development. The purpose of this report is to provide information and a needs analysis of communities within the City of Brampton and the areas surrounding the two proposed community youth hub locations. Staff consulted with the City of Brampton and identified the Wards and Census Tracts to determine the geographical scope of the analysis; this report refers to the respective catchment areas as study areas. The two study areas are the Century Gardens Study Area that includes Ward 1, which is the location of the vacant Lawn Bowling Clubhouse, and adjacent Ward 5. The second is the South Fletcher's Study Area that includes Ward 4, the location of the South Fletcher's Sportsplex, and adjacent Ward 3.

3

Appendix II Community Data Summary Report

A mixed-method approach was used in the study areas with qualitative data collected from youth, agencies and other community members to highlight local priorities. Quantitative data and literature were collected from multiple sources including:

- Peel Public Health
- City of Brampton
- Peel District School Board
- Statistics Canada Census Tract
- Stakeholder Survey
- Community Validation meeting

The Neighbourhood Information Tool, with six domains and twenty-one indicators, was the main data source and laid the foundation for the review and analysis. Youth data from across Brampton is also included in the analysis as youth outside the study areas may also access the proposed community hubs.

In undertaking this needs analysis, Region of Peel staff committed to:

- Identify and review the best available quantitative and qualitative data and existing information to provide an overview of the City of Brampton evidence-informed needs and a comprehensive picture of both study areas
- Identify key themes that could inform planning by the Region of Peel, City of Brampton and community stakeholders

Community Data Summary Report Themes

South Fletcher's and Century Gardens Study Areas

Across the quantitative and qualitative data, consistent areas of youth needs were identified specific to economic opportunity, safety, health, resident engagement and community belonging. To achieve a greater understanding of the specific program and service needs, community consultations (stakeholder survey, community data validation meeting) were completed, and findings are noted in the following table.

Themes	Data	Community Consultation Input
Employment Opportunity	• High percentage of youth unemployment (Century Gardens 20.4%, South Fletcher's 20.2%), similar to the City of Brampton (20.3%) and Peel Region (19.7%)	 Identified need for greater access to education and training programs including mentorship and apprenticeships
	 Slightly higher unemployment rate (Century Gardens 6.6%, South Fletcher's 6.9%) than the City of Brampton (6.3%) and Peel Region (6.2%) 	 Increased local employment opportunities that pay a living wage
	• Sizable percentage of households experiencing high household shelter costs (Century Gardens 33.5%, South Fletcher's 35.4%), similar to the City of Brampton (33.6%) and in the range of Peel Region (31.8%)	 Identified affordable housing and access to foodbanks as high priorities
	 Large number of individuals experiencing low-income (Century Gardens 11.8%, South Fletcher's 15.2%) compared to the City of Brampton (11.3%) and Peel Region (12.8%) 	 Identified need for considerations during the redevelopment of areas such as Shoppers World and Hurontario LRT, related to youth employment, transit and housing

Themes	Data	Community Consultation Input
Safety	 Of the 5,283 crime activities across the City of Brampton, Century Gardens had 1,002 or 18.9% and South Fletcher's had 1,330 or 25.2% 	 Perception of increased crime (e.g. human sex trafficking, gang-related activities and youth drug use) across all socio- demographics and income levels Increased supports for international students who are often isolated Need for supportive and safe spaces that provide a non- judgmental approach
Health	 South Fletcher's study area has health and well-being concerns related to obesity (64.6%), physical inactivity (63.1%), healthy eating (63.6%), smoking (22.1%) and alcohol consumption (17.8%) The Early Development Index identified the Physical Health and Well-being domain the area of most vulnerability. (Century Gardens 16.4%, South Fletcher's 18.8%) Both study areas have considerable socioeconomic vulnerability of students in local public schools. <i>Note:</i> additional information appears later in the report under the "Socioeconomic Vulnerability Index". 	 Youth are often unable to afford recreation programs Need for more mental health supports to deal with stress, depression, anxiety, family issues and substance abuse Common acknowledgement of how technology can contribute to social isolation

Themes	Data	Community Consultation Input
Resident Engagement and Community Belonging	 Residents (12+ years) reported their sense of belonging to their community, as follows: Century Gardens 31%, South Fletcher's 34%, compared to the City of Brampton (31.9%) and Peel Region (32.6%). Recreation program usage in the South Fletcher's study area is less (Ward 3 – 17.41%, Ward 4-18.65%) than Century Gardens (Ward 1 – 17.55%, Ward 5-19.86%) and the City of Brampton (19.76%). 	 Increased desire for youth to have a voice and be heard Need for a dedicated space that supports tailored interventions and strategies for all youth with varying needs and interests Brampton youth are travelling outside of Brampton for entertainment and community participation Community stakeholders expressed value in a "system navigator" role to assist youth and youth serving agencies in connecting with social and health supports

The Community Data Summary confirms that within both study areas, youth are experiencing multiple challenges with insufficient access to supports. Given the high demand for youth social and health services across Brampton, it is anticipated that youth outside of the study areas would also access community hub services.

Planning Considerations

As resident needs, engagement and participation are not limited to the defined study area boundaries used within the Community Data Summary, community stakeholders expressed the importance of intentional engagement and inclusion of equity-seeking groups such as LGBTQ and racialized (visible minority) communities in future planning.

Introduction

City of Brampton

The City of Brampton is home to a very diverse and rapidly growing population. It is the ninth largest municipality in Canada with a population of 593,640 (2016 Census). From 2011 to 2016, Brampton's population increased by 13.3%; a substantial increase greater than the rate of Ontario at 4.6%, and the rate of Toronto at 6.2%. The City also has the youngest average population of 36.5 years compared to 38.3 years for Peel Region.

In addition to this, over 52% of City of Brampton residents are immigrants and over 73% of the City of Brampton's population identify as visible minorities (2016 Census). The City's demographics have influenced planning through the City of Brampton's 2040 Vision strategic plan, Youth Engagement Strategy and designation as a Youth Friendly Community. These are both important factors that make up Brampton's unique social fabric which is important to acknowledge during the planning process.

In 2017, the City of Brampton endorsed its Parks and Recreation Master Plan including proposed community youth hubs. In addition, the City has undertaken several initiatives to engage youth; including the 2016 Youth Engagement Survey. Respondents underscored the need for public safety and accessible space for youth to "hang out" as well as access programs and services related to health care, social services, education and employment. The Youth Engagement Strategy endorsed by the City in 2019 aims to create practical avenues for young people to participate in their community and improve access to the City of Brampton's youth programs, opportunities and initiatives.

As outlined in the City of Brampton's Community Youth Hub Feasibility Study, several factors were used to determine the locations for their proposed community youth hubs:

- Use of existing underutilized City-owned assets
- Neighbourhood Information Tool Well-Being Index Score
- Neighbourhoods with a higher percentage of Low-Income households
- Transit accessibility
- Adjacency to existing City assets

Region of Peel, Community Hubs Planning Framework

The Region of Peel's Community Hub Planning Framework outlines the Region's role in supporting the development of integrated hubs in Peel, by collaborating with community agencies to achieve a standard for sustainable development and identifying innovative service models aligned with Regional service plans. The Framework is based on the following standards:

- Understanding the evidence-informed needs of the community
- Developing strong partnerships with shared vision, priorities and outcomes
- Strong business planning that includes established governance, financial models and a mixture of services
- Integrated service delivery that builds upon the resources and expertise of the partners

Neighbourhood Information Tool: Well-being Index Scores

Peel's Neighbourhood Information Tool (NIT) is an important starting point for understanding Peel's neighbourhoods. The NIT was designed to assist with evidence-informed decisions about the types of support, resources and investments needed in neighbourhoods. It is important to note, that the NIT does not capture all of the nuances and issues in neighbourhoods. This type of qualitative information should be gathered in consultation with community stakeholders and residents. The NIT is a snapshot in time; currently the majority of indicators reflect the 2016 Statistic Canada Census data.

The Neighbourhood Information Tool assesses census tracts across six domains and twentyone indicators, which are combined to create a well-being index score. Index scores represent the measure of "well-being" for each neighbourhood (census tract)¹. Lower well-being index scores are a high-level indication of areas that may require more targeted supports to improve neighbourhood conditions.

¹ Neighbourhood Information Tool calculates well-being index score using census tracts, which is referred to as neighbourhoods in this section of the report.

International and the point of the poin

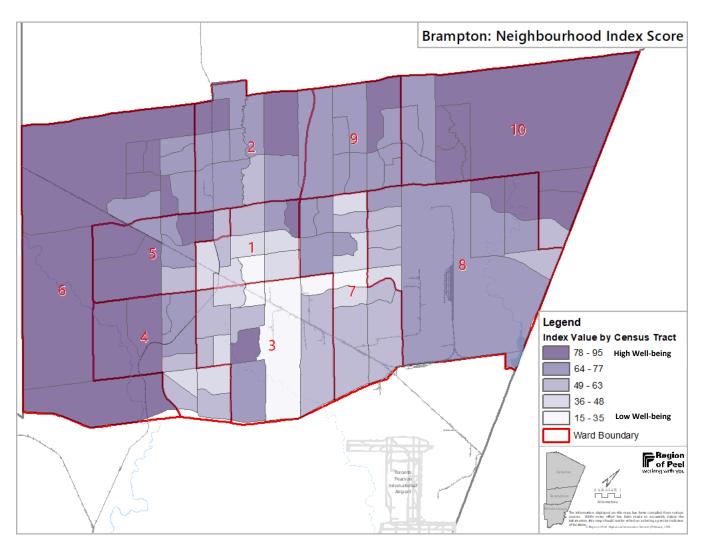

City of Brampton

Neighbourhood Well-being Index Scores

To identify neighbourhoods of greatest need, all 98 census tracts within the City of Brampton were reviewed. Based on the NIT, five neighbourhoods have a low well-being index score (15 to 22) and twelve neighbourhoods have a low/moderate well-being index score (37 to 48).

The City of Brampton well-being index score map displays a concentration of low and low/moderate neighbourhoods, two of which are within the South Fletcher's and Century Gardens study areas. Of note, Wards 7 and 8 also have a concentration of low well-being. Low and low/moderate well-being is displayed by the lightest shading on the map.

City of Brampton Neighbourhood Information Tool Well-being Score Map

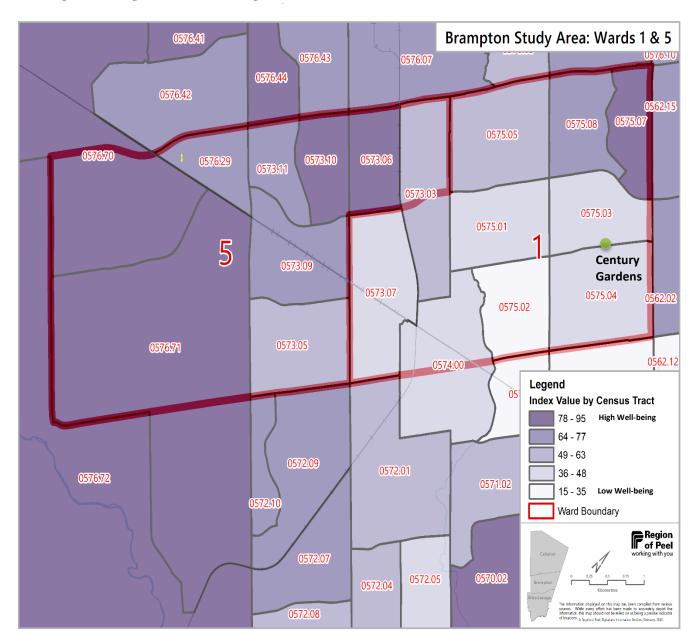

Note: Dark Shading = a high well-being index score Light Shading = a low well-being index score

Century Gardens Well-being Index Scores:

The Century Gardens study area is based on the boundaries of Ward 1 and 5, which includes nineteen census tracts in total. Of these, six neighbourhoods have low to low/moderate well-being.

Ward 1 and 5: Neighbourhood Information Tool Well-being Index Score Map

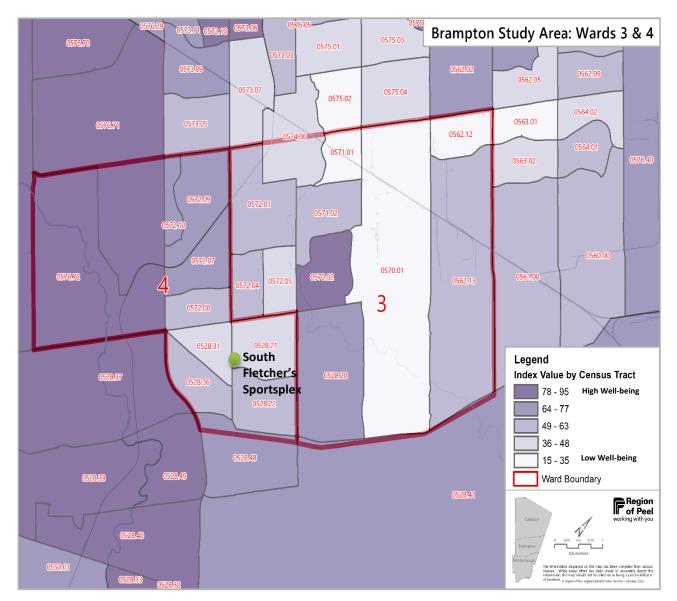

Note: Dark Shading = a high well-being index score Light Shading = a low well-being index score

South Fletcher's Well-being Index Scores:

The South Fletcher's study area is based on the boundaries of Ward 3 and 4, which includes twenty-one census tracts in total, of which seven neighbourhoods have low to low/moderate well-being.

Ward 3 and 4: Neighbourhood Information Tool Well-being Index Score Map

Note: Dark Shading = a high well-being index score Light Shading = a low well-being index score

Study Area Based Community Data

1. Socio-Demographic Information

Socio-Demographic information includes population information such as age, immigration, and ethnicity gathered through Statistics Canada.

QUICK FACTS....

While most of the surrounding municipalities have seen a decrease in the growth of the child/youth population, Brampton has experienced consistent growth.

City of Brampton:

The City of Brampton is one of the fastest-growing populations within the Greater Toronto Area. The child/youth population (0 to 19 years) accounts for 27.6% and youth (20 to 29 years) represents 13.9% of Brampton's total population. This is higher than Peel in both age groups (0-19 years, 25.3% and 20 to 29 years, 13.8%).

The chart below highlights some of the key population data. In addition to the high child/youth population, it should be noted that Brampton also contains a high immigrant population (52.3%) and visible minority population (73.3%) in comparison to the Peel Region's immigration population (51.5%) and visible minority population (62.3%).

Brampton Study Areas Socio-Demographic Information:

Century Gardens Study Area Socio-Demographic Information

The Century Gardens study area was defined in consultation with City of Brampton staff, it includes Wards 1 and 5 for the purpose of data and information collected within this report. The proposed community youth hub location is the vacated Lawn Bowling Clubhouse located at 340 Vodden Street East, Brampton in Ward 1.

***NOTE**: census tract data geography is different than wards, census tracts can cross ward boundaries. All census tracts that are part of a ward have been included in the report.

Century Gardens Study Area Socio-Demographic Information

Total Population: 107,675

Child-Youth Population: Similar to the City of Brampton (27.6%), the percentage of child/youth (0 to 19 years) is 27.1% or 29,240. The child-youth population is higher in Peel Region (25.5%). Older youth (age 20 to 29 years) represents 13.4% of the population.

Senior Population: The population of seniors (65 years plus) that reside within this study area is 11,550 (10.7%), in the range of the City of Brampton's senior population (11.2%) and lower than the Peel Region percentage (12.8%).

Lone-parent Families: The proportion of lone-parent families within this study area is 20.4% or 6,145. This exceeds the City of Brampton percentage (17.4%) and Peel Region (17%).

Visible Minority: The visible minority population within the study area is 70,265 or 65.3%. This is lower that the City of Brampton population (73.3%) and in the range of Peel Region (62.3%).

Immigration Status: There are 52,565 (48.8%) immigrants in this study area which is slightly lower than the City of Brampton (52.3%) and Peel Region (51.5%). Of the study area's total immigrant population, 6,370 are recent immigrants who have been in Canada for less than five years.

Mobility Status: The proportion of the population that have moved residences within the past year is 13.7% in this study area, this is similar to the City of Brampton (13.2%), however greater than Peel Region (12.1%).

Brampton Study Areas Socio-Demographic Information:

South Fletcher's Study Area Socio-Demographic Information

The South Fletcher's study area was defined in consultation with City of Brampton staff, it includes Wards 3 and 4 for the purpose of data and information collection within this report. The proposed community youth hub location is the first floor of the South Fletchers Sportsplex located at 500 Ray Lawson Boulevard, Brampton, within Ward 4.

***NOTE:** census tract data geography is different than wards, census tracts can cross ward boundaries. All census tracts that are part of a ward have been included in the report.

South Fletcher's Study Area Socio-Demographic Information

Total Population: 107,120

Child-Youth Population: This study area also has a high percentage of youth (0 to 19 years) at 25.1% or 26,890, slightly lower than the City of Brampton (27.6%) and Peel Region (25.5%). Older youth (age 20-29 years) represents 15.5% of the population.

Senior Population: Within this study area 13,980 (13.1%) seniors (65 years plus) reside, greater than the City of Brampton senior population (11.2%) and Peel Region (12.8%).

Lone-parent Families: The proportion of lone-parent families within this study area is 19.3% or 5,720, higher than the City of Brampton population percentage (17.4%) and Peel Region (17%).

Visible Minority: The visible minority population within the study area is 75,395 or 70.4%. This is lower than the City of Brampton population (73.3%) however higher than Peel Region 62.3%.

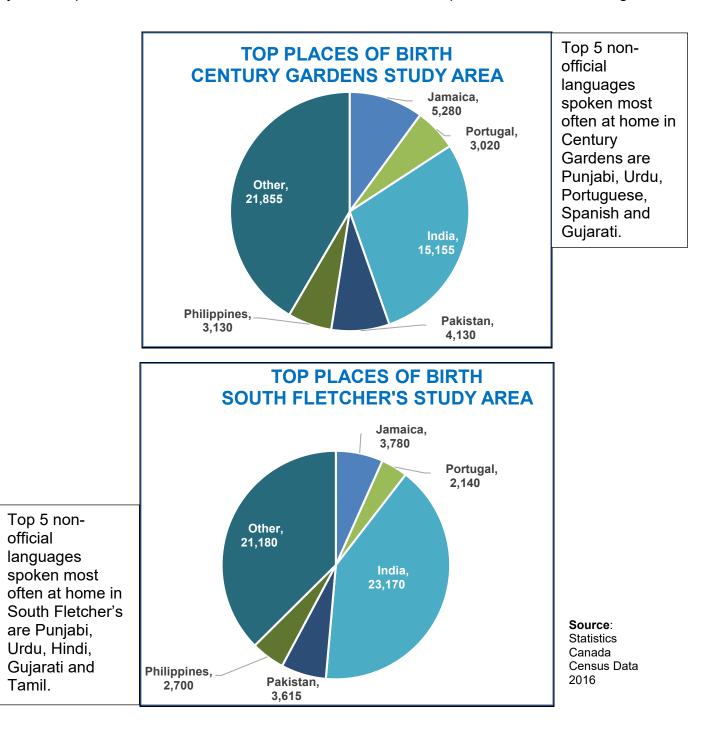

Immigration Status: There are 56,580 (52.8%) immigrants in this study area, higher than both the City of Brampton (52.3%) and Peel Region (51.5%). Recent immigrants (less than five years) totals 8,930.

Mobility Status: The proportion of the population that have moved residences within the past year is 14.7%, which is greater than the City of Brampton (13.2%) and Peel Region (12.1%).

Immigration Population Information:

Places of Birth by Study Area

The top place of birth across both study areas is India, however the representation within the South Fletcher's study area is greater. This is similar to the City of Brampton and Peel Region. Jamaica is the second most common place of birth in both study areas which is similar to the City of Brampton, however Pakistan is the second most common place of birth in Peel Region.

11.1-27

2. Economic Opportunity

Economic opportunities include data indicators for income, shelter costs, employment, and education that contribute to the economic opportunities of an individual and community.

QUICK FACTS....

For youth up to age 19 years, 66% can find employment within the City of Brampton; however, older youth (20-29 years) reported the need to travel outside of the City for employment (40%). City of Brampton, Youth Engagement Survey

Important issues facing Brampton Youth include affordable housing, food, entertainment, transportation and recreation programs. City of Brampton, Youth Engagement Survey & Region of Peel, Community Consultation

Prevalence of Low-Income Status by Study Area:

Residents who have low income or no income are some of the most vulnerable populations; they have difficulty meeting basic needs, which can affect their health and well-being. In the City of Brampton, 11.3% or 66,945 individuals have a low-income status based on the after-tax low-income measure (LIM-AT)*. In Peel Region, the percentage is higher at 12.8%.

Prevalence of Low-Income Status				
Study Area	Total Population	Number of Persons In Iow income	Percentage	
Century Gardens	107,675	12,680	11.8%	
South Fletcher's	107,120	16,330	15.2%	
City of Brampton	590,960*	66,945	11.3%	
Peel	1,372,640*	175,980	12.8%	

Source: Statistics Canada, Census of Canada 2016

NOTE: Low-income status is based on the after-tax low-income measure (LIM-AT) *Low income data is derived from 25% sample Census data and therefore population totals here may differ from those found in other sources.

South Fletcher's study area has a greater percentage (15.2%) of individuals experiencing low-income compared to the Century Gardens (11.8%) study area. However, both study areas have a higher percentage of individuals in low-income than the City of Brampton (11.3%) overall and South Fletcher's is higher than Peel (12.8%).

Household Income Spent on Shelter:

According to the Canada Mortgage and Housing Corporation (CMHC), housing costs are considered affordable if they are less than 30% of a household's pre-tax income. Both study areas have a sizable percentage of households spending greater than 30% of their income on shelter costs. Peel Region and the City of Brampton are similar.

Household Shelter Costs				
Total Owner and Tenant Household Spending (30% or more of income on shelter)		Percentage		
Century Gardens Study Area	33,070	11,090	33.5%	
South Fletcher's Study Area	33,950	12,025	35.4%	
City of Brampton	167,930	56,455	33.6%	
Peel Region	429,575	136,655	31.8%	

Source: Statistics Canada Census Data 2016

NOTE: Household shelter cost data is derived from 25% sample Census data and therefore totals may differ from those found in other sources.

Unemployment Rates:

The unemployment rate measures unemployment and is expressed as a percentage of the total labour force, which is the proportion of the population 25 years and over in the labour force who reported that they were unemployed in the reference period. Both study areas have a slightly higher unemployment rate than Peel Region and the City of Brampton.

Labour Force Participation & Unemployment					
Study Area Total Labour Total Unemployme Force Unemployed Rate					
Century Gardens Study Area	50,775	3,350	6.6%		
South Fletcher's Study Area	48,370	3,335	6.9%		
City of Brampton	272,940	17,090	6.3%		
Peel Region	644,480	40,200	6.2%		

Source: Statistics Canada Census Data 2016

Youth Labour Force Participation:

The number of unemployed youth ages 15 to 24 years in the City of Brampton and Peel Region is about 20%, with both study areas having approximately the same rate.

Youth (15-24 years) Labour Force Participation						
Study Area	Study Area Total Labour Total Unemploym Force Unemployed Rate					
Century Gardens Study Area	8,090	1,650	20.4%			
South Fletcher's Study Area	8,970	1,815	20.2%			
City of Brampton	46,680	9,465	20.3%			
Peel	108,620	21,425	19.7%			

Source: Statistics Canada Census Data 2016

Post-Secondary Education (15 years and older):

Post-secondary education refers to those whose highest level of educational attainment is an apprenticeship, trades certificate, diploma college, or other non-university certificate or diploma; university certificate or diploma below bachelor level; or a university degree at any level.

Post-Secondary Education*					
Study Area	Total Population with Post- Secondary	Percentage	Total Population with Study Outside Canada	Percentage	
Century Gardens	42,410	49.4%	15,805	18.4%	
South Fletchers	45,330	51.8%	18,940	21.6%	
City of Brampton	234,355	49.8%	93,630	19.9%	
Peel	612,040	54.7%	239,295	21.4%	

Source: Statistics Canada, Census of Canada 2016 ***NOTE**: 15 years and over

3. Community Belonging and Resident Engagement

Resident engagement and community belonging refers to information about how connected people feel to their neighbourhood.

QUICK FACTS....

The City of Brampton asked 911 youth, what makes them least proud of Brampton, and the two main themes that emerged were: boredom and a lack of entertainment followed by safety. City of Brampton, Youth Engagement Survey

There is an increase in international Students in both study areas attending local educational institutions. Youth-serving agencies expressed concern that these students are vulnerable and at greater risk of becoming victims of human trafficking, experiencing social isolation and mental illness. Region of Peel, Community Consultation

Sense of Belonging

The extent to which residents feel connected in their neighbourhood contributes to the overall well-being of an individual. According to Statistics Canada, a sense of belonging is highly correlated to physical and mental health, even when age, socio-economic status and other factors are considered.

The Canadian Community Health Survey (2017) indicate that 31% of Century Gardens residents (12+ years) self-reported a low sense of belonging to their community. Similarly, South Fletcher's residents also reported a low sense of belonging to their community (34%), which is higher than the City of Brampton (31.9%) and Peel Region (32.6%).

Resident Engagement Recreation Program Usage:

The City of Brampton offers a variety of recreation programming, the following chart demonstrates the proportion of population in a registered or a member of one or more recreation programs.

Recreation Program Usage*				
Study Area	Proportion of Population Accessing Programs			
Contury Cordona	1	17.55%		
Century Gardens	5	19.86%		
South Eletabor's	3	17.41%		
South Fletcher's	4	18.65%		
City of Brampton		19.76%		

Source: City of Brampton Community Services: Recreation Division (2017)

Recreation Program Subsidies: The City of Brampton's ActiveAssist program is a fee subsidy program designed to help low-income families and individuals participate in recreation programs. The program continues to grow annually; in 2019, 12,571 individuals were enrolled in the program.

Library Usage*: Over 20% of the population across both study areas access the Library, similar to City of Brampton (21.9%). The greatest usage is in Ward 3, within the Century Gardens study area (23.9%) which has the Four Corners Library Branch.

*NOTE: Recreation and Library comparative data is not available for Peel Region, as programs vary across municipalities.

4. Safety

Safety refers to criminal activity within the study areas. Resident perceptions of safety in their community is also an important indicator of community well-being and vitality.

011			07	
QU	ICK.	FA	6	۲ S

In 2019, the City of Brampton established the Brampton Community Safety Advisory Committee, which includes strong representation from residents, businesses and organizations. The Region of Peel also participates on this Committee.

Crime Activity (2019) *					
Study Area	Population	Total Crimes	Percentage of Brampton Crimes	Per Capita (per 100)	
Century Gardens	107,675	1,002	18.9%	.93	
South Fletchers	107,120	1,330	25.2%	1.2	
City of Brampton	593,640**	5,283	100 %	.89	
Peel Region	1,381,740**	11,944	n/a	.86	

Source: Peel Regional Police: Crime Data 2019

*NOTE: Includes the following crimes: auto theft, break-in, homicide, mischief, robbery and theft from a vehicle. The statistics provided are a brief summary of the criminal activity within the communities listed. Some extrapolation has been conducted to generalize the crime trends in those neighborhoods. These statistics do not reflect the detailed nature of some of the concerns, for official statistics please refer to the official statistics released in the Peel Regional Police Annual Statistical report.

**NOTE: Chart using Statistics Canada 2016 Census, 100 % population data and 2019 crime data.

Of the total number of reported crimes in the City of Brampton, 1,330 or 25.2% of those reported crimes occurred within the South Fletcher's study area. Century Gardens has a lower rate of Through a per capita perspective, South 18.9% or 1.002. Fletcher's had 1.2 crimes for every 100 people, Century Gardens is .93 crimes for every 100 people. South Fletcher's per capita crime rate is greater than the City of Brampton (.89) and Peel Region (.86)

Concerns about increased drug use by youth across all demographics and income. Region of Peel, Community Consultation

5. Health

Health data includes information related to how healthy people feel, children's readiness for school and general health and well-being.

QUICK FACTS....

Century Gardens Study Area (Data Zone B2): The leading causes of death among those 20 years and older are: ischemic heart disease. dementia and Alzheimer's disease and injuries or poisonings. Peel Public Health

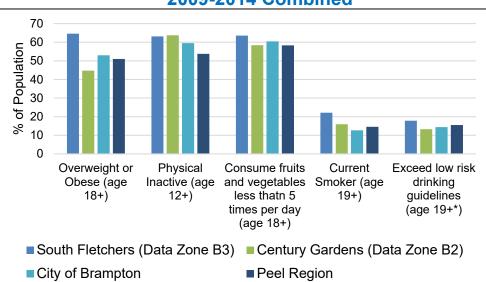

South Fletcher's Study Area (Data Zone B3): The leading causes of death among those 20 years and older are: ischemic heart disease, lung cancer and stroke. Peel Public Health

The problem of illness and unnecessary loss of life arises in large part because of conditions in which people are born, grow, work and age.² Good health is an important factor of overall well-being and quality of life.

General Health and Well-Being:

The 2009-2014 General Health and Well-being table below, shows that in comparison to Peel Region, adult residents in the neighbourhood consisting of South Fletcher's study area (*Data Zone B3/Wards 3 and 4) have significantly higher physical inactivity during leisure time, higher general fertility rate and higher infant mortality rate. The pre-term live births rate in the neighbourhood consisting of Century Gardens study area (Data Zone B2/Wards 1 and 5) is 1.5 times higher (12.4%) when compared to Peel (8.2%). Similarly, adult obesity, physical inactivity and smoking rates are significantly higher than that of Peel Region.

*Estimates for specific Peel Wards were not available therefore estimates by Data Zone were provided instead. The geographic boundaries of Data Zone B2 most closely align with the boundaries of Peel Wards 1 and 5 and Data Zone B3 most closely aligns with Wards 3 and 4. More information about the Peel Data Zones is available on the Health Status Data Website.

General Health and Well-Being Summary 2009-2014 Combined

* Use estimate with caution

Current smoker is defined as a person who currently smokes daily or occasionally, has smoked at least 100 cigarettes in their lifetime and some in the past 30 days. Low risk drinking includes females who have nine or less drinks in the past week, males who have 14 or less drinks in the past week and no more than two drinks on each day of the week for both males and females. Source: Canadian Community Health Survey File, 2009/2010, 2011/2012, 2013/2014, Statistics Canada, Ontario Ministry of Health and Long-Term Care

² Peel Health Data Zone Profiles [Internet]. Mississauga (ON): Peel Public Health, Population Health Assessment; [updated 2016 Jun 22; cited

Self-rated Health

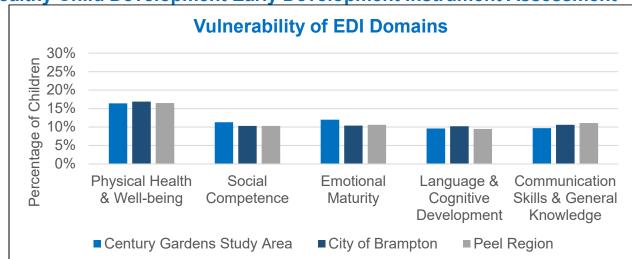

An additional health indicator is self-rated health, which is the proportion of population (aged 12+ years) that rate their health as fair or poor. Within the Century Gardens study area, 14.5% reported fair or poor health, South Fletcher's study area is lower at 12.3%. Both study areas have a greater proportion of self-rated fair or poor health than the City of Brampton (9.9%) and Peel Region (11.1%).

Healthy Child Development:

One of the ways to show healthy child development is through the Early Development Instrument (EDI), which assesses the child's readiness to learn and meet school demands such as holding a pencil, listening to the teacher and remembering to follow rules. The instrument focuses on several areas of school readiness: physical health and well-being; social competence; emotional maturity; language and cognitive development; and communication skills and general knowledge.

Century Gardens Study Area:

The physical health and well-being domain is the area of most vulnerability for the Century Gardens study area. This domain scored 16.4%, slightly lower than the City of Brampton (16.9%) and Peel Region (16.5%).

Healthy Child Development Early Development Instrument Assessment

EDI Domains	Century Gardens Study Area	City of Brampton	Peel Region
Physical Health & Well-being	16.4%	16.9%	16.5%
Social Competence	11.3%	10.3%	10.3%
Emotional Maturity	12.0%	10.4%	10.6%
Language & Cognitive Development	9.6%	10.2%	9.5%
Communication Skills & General Knowledge	9.7%	10.6%	11.1%

Source: Health Services, Region of Peel 2014 – 2015

Early Development Instrument Assessment - 2018

*NOTE: Vulnerability describes the children who score below the 10th percentile cut-off of the Ontario baseline population. Vulnerability data indicates a percentage of children who are struggling in comparison to the Ontario Baseline data.

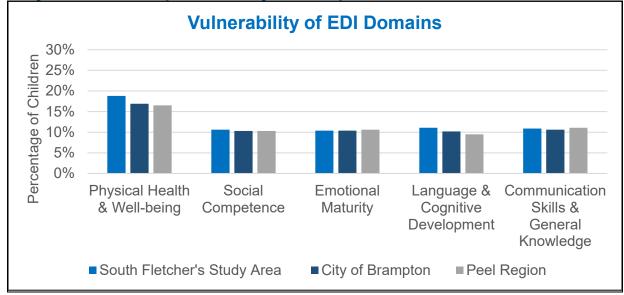

1-34

Healthy Child Development:

South Fletcher's Study Area

The South Fletcher's study area had a greater vulnerability in the Physical Health and Wellbeing domain (18.8%), higher than the City of Brampton (16.9%) and Peel Region (16.5%).

Healthy Child Development Early Development Instrument Assessment

EDI Domains	South Fletcher's Study Area	City of Brampton	Peel Region
Physical Health & Well-being	18.8%	16.9%	16.5%
Social Competence	10.6%	10.3%	10.3%
Emotional Maturity	10.4%	10.4%	10.6%
Language & Cognitive Development	11.1%	10.2%	9.5%
Communication Skills & General Knowledge	10.9%	10.6%	11.1%

Source: Health Services, Region of Peel 2014 - 2015

Early Development Instrument Assessment - 2018

***NOTE**: Vulnerability describes the children who score below the 10th percentile cut-off of the Ontario baseline population. Vulnerability data indicates a percentage of children who are struggling in comparison to the Ontario Baseline data.

Socioeconomic Vulnerability Index:

The chart below relies on the Peel District School Board's 2017 Socioeconomic Vulnerability Index (SVI), which replaces the Social Risk Index. The new index uses a six-step process, through which five variables were chosen (Median household Income, Percent Living in Poverty, Percent Homeowners, Percent without a High School Diploma, Percent with University Degree); to identify the most important neighbourhood-level factors affecting student success and academic achievement for Peel District School Board (note: index data only available from the Peel District School Board). Schools are categorized based on their scores into 6 clusters, with cluster 1 representing low vulnerability and cluster 6 very high vulnerability.

The most recent report was published in 2019 based on 2017 data. Both proposed hub locations have a total of seven Public elementary schools within a 3 km walking distance. All schools within both study areas are classified as having either a 'somewhat high' to 'high' socioeconomic vulnerability score, except for a secondary school in the South Fletcher's study area. The Century Gardens study area has two Public secondary schools within 3 kms that score 'moderate' and 'high' socioeconomic vulnerability. The South Fletcher's study area has one Public secondary school within proximity that has a 'high' socioeconomic vulnerability.

	Century Gardens		South Fletcher's	
	Number of Schools (within 3 kms)	SIV Cluster	Number of Schools (within 3 kms)	SIV Cluster
Elementary	5	5 – High	4	5 - High
Schools	2	4 - Somewhat High	3	4 - Somewhat High
Secondary	1	5 – High	1	3 – Moderate
Schools	1	3 – Moderate		

Source: Peel District School Board's 2017 Socioeconomic Vulnerability Index (2017)

These scores indicate that there is a considerable quantity of youth within proximity to the two proposed youth hubs that are experiencing poverty and lower than average household educational attainment rates. This specific demographic is traditionally marginalized and often face barriers to accessing services.

Dental Health:

The Region of Peel Public Health collects children's oral health data through dental screenings in all publicly-funded elementary schools.

Century Gardens Study Area

Screening data collected in the 2018-2019 school year in the Century Gardens study area showed that 66.6% of children in these schools had a dental need which is comparable to the dental need of all children screened in the same year in the City of Brampton (64.9%) and Peel Region (65.5%). Identified dental needs include urgent conditions such as infection and tooth decay that can cause pain, non-urgent conditions such as early tooth decay and preventive dental needs such as cleanings, topical fluoride applications and dental sealants. As for children with urgent dental needs in this area, 9.2% of children were identified. This is similar to the City of Brampton (9.9%) and Peel Region (10.1%) for all children screened. The preventive dental needs for children in the Century Gardens study area are 51.4%, which is similar to the proportion for all children screened in the City of Brampton (49.6%) and Peel Region (50.4%). Additionally, the non-urgent dental needs of children in the study area are (6%), comparable to those for all children screened in the City of Brampton (5.4%) and Peel Region (6%).

South Fletcher's Study Area

Screening data collected in the 2018-2019 school year in the South Fletcher's study area showed that 70.8% of children in these schools had a dental need. This is slightly higher than the proportion of children screened in the same year in the City of Brampton (64.9%) and Peel Region (65.5%). Identified dental needs include urgent conditions such as infection and tooth decay that can cause pain, non-urgent conditions such as early tooth decay and preventive dental needs such as cleanings, topical fluoride applications and dental sealants. In the South Fletcher's study area, a higher proportion (12.3%) of children were identified with urgent dental needs compared to the City of Brampton (9.9%) and Peel Region (10.1%). Additionally, 52.3% of children were identified with preventive dental need which is higher than all children screened in the City of Brampton (49.6%) and Peel Region (50.4%). Additionally, the non-urgent dental needs of children in the study area are (6.1%), comparable to those for all children screened in the City of Brampton (5.4%) and Peel Region (6%).

Oral Health				
Study Area	Dental Need (%)	Urgent Dental Needs (%)	Non-urgent Dental Needs (%)	Preventive Dental Needs (%)
Century Gardens	66.6%	9.2%	6.0%	51.4%
South Fletcher's	70.8%	12.3%	6.1%	52.3%
City of Brampton	64.9%	9.9%	5.4%	49.6%
Peel Region	65.5%	10.1%	6.0%	50.4%

Source: Ontario Oral Health Information Support System (OHISS), 2019, Ministry of Health.

NOTE: The data collected through dental screenings are not representative of the overall population of the regions stated. The Region of Peel-Public Health collects children's oral health data through dental screenings in all publicly funded elementary and secondary schools. Peel Public Health provides dental screenings in all publicly funded elementary schools and reports on the following dental needs outcomes: Urgent dental needs, Non-urgent dental needs, Preventive dental.

6. Physical Environment

This domain includes data on dwellings, infrastructure such as retailers, natural resources, proximity to neighbours, and how easily residents are able to access fresh food.

QUICK FACTS....

Programs need to be in an accessible safe space and free; where youth are not judged. Region of Peel, Community Consultation

Older youth (18-25years) want a dedicated youth space, not one shared with seniors. Joint occupied public spaces often deter youth from accessing. Region of Peel, Community Consultation

Century Gardens Study Area:

Century Gardens study area has several physical assets such as the Downtown Transit Terminal, Century Gardens Recreation Centre, Chris Gibson Recreation Centre, Algoma University and several parks. These assets contribute to the data indicator related to proximity to meeting spaces. Overall, there is good proximity to community meetings spaces however, Ward 1 has greater proximity to meeting spaces (54%), (Ward 5 - 5.7%). Both areas are lower than Peel Region (55.5%) however higher than the City of Brampton (49.9%).

Proximity to food retailers (fresh food retailers within a ten-minute walk) also varies across the two wards (Ward 1 - 47%, Ward 5 - 30%), compared to the City of Brampton (43.2%) and Peel Region (49.5%) This indicator does not consider the affordability of fresh food. It is important that factors such as food insecurity in relation to the low-income population be considered.

South Fletcher's Study Area:

South Fletcher's study area has a variety of physical assets such as the Gateway Transit Terminal, South Fletcher's Sportsplex and Library, Sheridan College, Peel Regional Police Division (22), several parks and the Fletcher's Creek Trail System, shopping centres as well as many faith organizations. As a result, the data indicator related to proximity to community meeting spaces (Ward 3 - 77%, Ward 4 - 56%) and the indicator related to proximity to food retailers (Ward 3 - 62%, Ward 4 - 52%) are both positive and higher than the City of Brampton and Peel Region percentages in the chart below.

	City of Brampton	Peel Region
Proximity to Food Retailers	43.2%	49.5%
Proximity to Community Meeting Places	49.9%	55.5%

Source: Combination of Association of Public Health Epidemiologists of Ontario and City of Toronto methods. 2017

Similar to Century Gardens, considerations around food insecurity and low-income are also important.

Types of Occupied Dwellings

A combination of dwellings can be found in both study areas, the majority are single detached. South Fletcher's has a greater number of apartments and Century Gardens has a greater number of semi-detached dwellings.

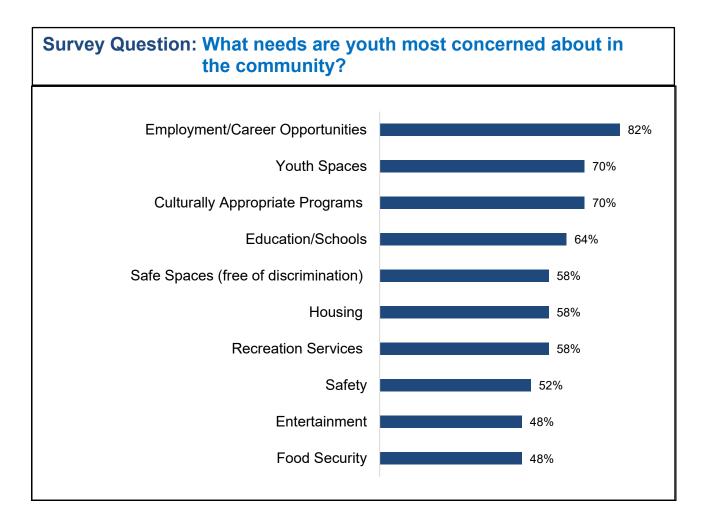

Source: Statistics Canada, Census of Canada 2016

Community Consultation Input

Stakeholder Survey:

As part of the needs analysis, Regional staff engaged youth and youth-serving stakeholders within the two study areas to participate in a survey to inform this report. A total of 53 stakeholders were invited to participate in a telephone or on-line survey of which 62% responded. The survey consisted of five questions as outlined in Appendix III.

The survey respondents identified the following top ten concerns for youth in the community:

In addition, surveyed respondents identified additional concerns related to access to newcomer settlement services (36%), healthcare services (30%), accessibility for individuals with disabilities (27%), childcare (21%) and mental health (15%).

Hours

Stakeholder Survey:

Survey respondents identified the following top five barriers youth face to access programs and services:

Survey Question: What are the barriers that youth face when trying to access programs and services in the identified areas in Brampton? Transportation Cost Lack of programs/services Waitlist for services

52%

In addition, barriers related to discrimination and age limits (both 39%) were also identified.

Community Validation Meeting:

Youth and youth-serving stakeholders were invited to a community validation meeting on January 14, 2020. A total of 22 individuals were provided with an overview of the preliminary data findings contained in this report and asked to validate the information and identify additional community assets to inform this report. Stakeholders were asked the following questions:

- 1. Does the data reflect what you know about the community?
- 2. Have there been any major changes over the last four years?
- 3. Is any information missing?

Through an asset mapping activity, stakeholders identified many community assets in both study areas including a large number of faith organizations, schools, accessible transit and other City services.

Stakeholders expressed concerns about increased drug use and substance abuse and social isolation of youth, especially international students. Many felt youth would benefit from a youth dedicated physical space that provides supports for a variety of needs including employment, training, recreation, mental health counselling, general life skills and access to information. Implementing a service system navigator model in the proposed community youth hubs could provide greater support for youth experiencing multiple barriers and youth-serving agencies providing referrals.

The community validation meeting reinforced initial findings and validated the report themes as outlined in the section titled Community Data Summary Themes.

Conclusion

In light of the diversity and needs demonstrated in the two study areas, hubs represent a service model that can address the growing needs of these communities in an integrated and efficient manner.

The Community Data Summary confirms that within both study areas, youth are experiencing multiple challenges with insufficient access to supports. It is noted in the report that seniors (65 years plus) are a population that is growing across the City of Brampton. Aside from the two identified study areas, neighbourhoods within Ward 7 and 8 are experiencing low well-being.

In summary, the analysis of data, literature and community consultations, identified the emerging themes:

- 1. Economic
- 2. Safety
- 3. Health
- 4. Resident Engagement and Community Belonging

As resident needs, engagement and participation are not limited to the defined study area boundaries used within the Community Data Summary, it is important that future planning include additional consultation and engagement of diverse community groups and stakeholders. Given the high demand for social and health services across the study areas and municipality, it is anticipated that youth outside of the study areas will also access and benefit from the community hubs.

Appendix I: Methodology Data Limitations and Literature Sources

Methodology

The qualitative aspect of the report was coded on the basis of a systematic coding; the data was processed for quality and then broken down to identify preliminary codes. The data was further analyzed for distinct themes and concepts. Both qualitative and quantitative approaches were applied to the report.

The literature review included the following sources from the City of Brampton:

- Age-Friendly Strategy and Action Plan (2019)
- Community Youth Hub Feasibility Study (2019)
- Recreation: Youth Programs Report (2019)
- Youth Engagement: A Strategic Way Forward Report (2019)
- Brampton Youth Friendly Designation Survey (2019)
- Brampton Council Youth Delegation presentation (I.C.O.N.I.C) (2019-07-10)
- Living the Mosaic Brampton 2040 Vision (2018)
- Parks and Recreation Master Plan (2017)

Additional literature was also reviewed as part of this report. This include:

- Region of Peel, Term of Council Priorities 2018-2022
- Overview of Direct Intervention Approaches to Address Youth Gangs and Youth Violence (2018)
- The Socioeconomic Vulnerability Index (2017)
- The Opportunity Equation in the Greater Toronto Area (2017)
- Ontario Youth Action Plan (2012)
- The Review of the Roots of Youth Violence report (2008)

Regional staff conducted an online/telephone survey with youth or youth-serving stakeholders to inform the report and a community validation meeting provided with an overview of the preliminary data findings contained in this report. Youth and youth serving-stakeholders were asked to validate the information and identify additional community assets to inform this report.

Data Limitations

As with all assessments, limitations and gaps exist that can inadvertently impact the ability to conduct an exhaustive analysis. The Region of Peel acknowledges that qualitative data may be subjected to self-reporting bias and demographic multiple-choice questions were mainly used to decrease attribution or exaggeration. Longitudinal effects also limit this report, as the data is at a point in time. The primary participants who administered the community survey, also collected, analyzed and interpreted the information presented.

The report relied on both quantitative and qualitative data from a small but sufficient sample size to identify the broader community's needs. Future analysis may be conducted, and additional data samples could be stratified from vulnerable, precariously housed and immigrant populations.

Much of the data in this report stems from Statistics Canada's 2016 Census. Ward level data as well as certain variables are derived from 25% sample data and therefore population totals used in some tables may differ from those found in other sources which are based on 100% sample.

Appendix II: Organizations and Groups Serving Study Areas

The following lists are intended to provide a snapshot of the organizations and groups within each study area that could be engaged to inform planning and service delivery.

Appendix III: Stakeholder Survey Questions

- 1. Are you a youth or youth stakeholder that live in or serve youth that live in?
 - South Fletcher's area and /or
 - Century Garden's area
- 2. Are you a part of or do you serve any of the following equity-seeking or marginalized youth populations?
 - o Indigenous
 - o LGBTQ2
 - Racialized
 - Newcomer
 - Homeless
 - Involved with the justice system
 - Dropped out of high school
 - o Living in poverty
 - o Teen parent
 - Other (please specify)
- 3. What needs are youth most concerned about in the community?
 - o Accessibility for people with disabilities
 - Arts and cultural programs
 - Childcare or daycare
 - Culturally appropriate programs
 - Safe spaces free of all forms of discrimination (e.g. ageism, sexism, homophobia, racism etc.)
 - Education and schools (e.g. quality, options)
 - o Employment and career opportunities
 - Entertainment (e.g. affordability, variety)
 - Food security (e.g. access, affordability, healthy options)
 - Health care services
 - Housing (e.g. quality, cost)
 - Newcomer and settlement programs/services
 - Recreation services
 - Safety (including crime and policing)
 - Youth spaces (e.g. age appropriate, accessible)
 - Other (please specify)

- 4. What are the barriers that youth face when trying to access programs and services in the identified areas in Brampton?
 - Transportation
 - o Cost
 - Discrimination (e.g. ageism, sexism, homophobia, racism etc.)
 - o Hours
 - Age limits
 - Waitlist for services
 - Lack of programs/services
 - Other (please specify):
- 5. Please feel free to share any additional comments on youth needs that were not reflected in the previous questions.

Appendix IV: Glossary of Terms

Apartment Consists of duplexes, triplexes, row-duplexes, apartments proper, and dwelling units over or at the rear of a store or non-residential structure.

Basement apartments building types are based on visual inspection i.e. if a single detached house has a side entrance door with a mailbox it would be noted as a duplex. If someone lives in a basement and uses the main house door, it would like to be marked as a single detached house, since there is nothing to suggest otherwise from the exterior. It should also be noted that in the Census, an apartment could be owned (condo) or rented, since the Census reports on the physical structure type rather than the ownership type.

Census According to Statistics Canada, the Census "<u>provides a statistical portrait of Canada</u> and its people". The Census enables the government to collect social and economic information, which is then used to measure changes in population and economic factors, as well as cultural and social trends. The Census gathers information every five years and was last conducted in 2016.

Census Tracts (CTs) are small, relatively stable geographic areas that usually have a population between 2,500 and 8,000 persons.

Dwelling is a place of residence which includes an apartment or home (semi-detach or detached).

Food security- The Peel Food Charter defines food security as existing when all people, at all times, have physical, social and economic access to sufficient, safe and nutritious food that meets their dietary needs and food preferences for an active and healthy life.

Labour Force

According to the standard definition employed by Statistics Canada, the employed are persons having a job or business, whereas the unemployed are without work, are available for work, and are actively seeking work. Together the unemployed and the employed constitute the labour force.

Persons not in the labour force are those who, during the reference week, were unwilling or unable to offer or supply labour services under conditions existing in their labour markets (this includes persons who were full-time students currently attending school).

Low-Income Cut-off Measure After-Tax (LIM - AT) is a fixed percentage (50%) of median adjusted after-tax income of households observed at the person level, where 'adjusted' indicates that a household's needs are taken into account.

Peel Public Health Profile-Neighbourhood Health Profiles consist of a series of reports which provide an overview of the demographics and health status of residents for the Region of Peel. The reports include information such as reported births, leading causes of deaths and hospitalization, as well as commonly reported communicable diseases.

Unemployed is a person without a paid job but available to work.

Region of Peel 2020 Budget

COMMUNITY INVESTMENT

Community Investment supports the not-for-profit sector to deliver a wide range of services to Peel residents. The focus is on increasing capacity and sustainability for community groups, to better meet resident needs and improve outcomes.

Service Pressures

- Implementation costs of the approved changes to the Community Investment Program
- Increasing demand on Affordable Transit Program in Brampton and Mississauga
- Growing need for providers to establish new, integrated service models for community hubs

How We are Investing to Serve Peel Residents Better

Operating Request **\$0.8M**

Key Highlights:

+\$0.8M Social Enterprise Pilot and Transitional Fund (funded from reserve)

+\$0.6M Affordable Transit Program

Capital Request \$12.0M

Report Staff Report The Corporation of the City of Brampton 2021-09-08

Date: 2020-08-19

Subject: Brampton Arts Walk of Fame Program Recommendation Report

Contact: Jason Tamming, Director, Strategic Communications, Culture & Events Jason.Tamming@brampton.ca

Report Number: Corporate Support Services-2021-922

Recommendations:

- That the report titled Brampton Arts Walk of Fame Program Recommendation Report to the Committee of Council meeting of September 8, 2021 be received; and
- 2. That the revised vision, mission and goals for the Brampton Arts Walk of Fame be approved;
- 3. That the Brampton Arts Walk of Fame Nomination Working Group Terms of Reference attached as Appendix A to this report be approved;
- 4. That staff be directed to undertake a call for expressions of interest for the Brampton Arts Walk of Fame Nomination Working Group and report to City Council for approval of the Working Group's composition;
- 5. That City Council identify a representative to sit on the Brampton Arts Walk of Fame Nomination Working Group;
- 6. That staff be directed to explore design options for the re-imagination of the Brampton Arts Walk of Fame legacy site, and report back to City Council with a recommended model; and
- 7. That staff be directed to present revised eligibility criteria for the Arts Acclaim award to the Citizen's Award Committee, to recognize achievements in the arts of provincial, regional and local significance; and
- 8. That the Director, Strategic Communications, Corporate Support Services, be delegated authority to approve and execute on behalf of the City of Brampton any required agreements and other documents deemed necessary for the

implementation of the Brampton Arts Walk of Fame program, including without limitation induction and all related agreements, on such terms and conditions as may be satisfactory to the Director, Strategic Communications, Corporate Support Services or designate, and in a form satisfactory to the City Solicitor or designate.

Overview:

- The Brampton Arts Walk of Fame is one of the City of Brampton's key recognition programs, celebrating and building connections with the extraordinary artistic and creative talent emerging from Brampton, while inspiring the next generation of artists and creators in Brampton to follow in their footsteps.
- As the Brampton Arts Walk of Fame has been in operation for more than five years, staff undertook a review of the program to evaluate its current status and to make recommendations to enhance its future direction in support of the City's strategic goals.
- As a result of the review, the following recommendations have been identified to clarify the purpose and value of the award within the industry landscape, enhance the meaning of such recognition with inductees, and strengthen the role of the program in building civic pride and Brampton's identity as a cultural hot spot and producer of creative talent:
 - 1. Re-Calibrate the Vision, Mission and Goals
 - 2. Update the Eligibility Criteria and Form a Nomination Working Group
 - 3. Set a Limit of One (1) Inductee Per Year
 - 4. Continue to Offer Personalized Induction Celebrations
 - 5. Reimagine the Legacy Site
 - 6. Refine the Arts Acclaim Citizens Award Eligibility Criteria
- Ian Williams and Denise Jones have been approved by City Council as the next inductees into the Brampton Arts Walk of Fame, and their inductions will take place in 2021 and 2022, respectively.
- It is anticipated that the Brampton Arts Walk of Fame Nomination Working Group may be established by early 2022, to support the process of identifying a Brampton Arts Walk of Fame nominee for 2023, using the new eligibility criteria.
- Pending City Council approval, staff will undertake the next steps in implementing the recommendations outlined in this report, for the advancement of the program.

Background:

Launched in 2014, the Brampton Arts Walk of Fame is one of the City of Brampton's key recognition programs, celebrating and building connections with the extraordinary artistic and creative talent emerging from Brampton, while inspiring the next generation of artists and creators in Brampton to follow in their footsteps. The Brampton Arts Walk of Fame currently features 21 inductees, including Russel Peters, Michael Cera, Rupi Kaur, Director X, Zarqa Nawaz, Othalie Graham, Trey Anthony, and more. The Brampton Arts Walk of Fame physical infrastructure, or "Legacy Site", is located in Garden Square in Downtown Brampton.

As the Brampton Arts Walk of Fame has been in operation for more than five years, staff undertook a review of the program to evaluate its current status and to make recommendations to enhance its future direction in support of the City's strategic goals. Bespoke Cultural Collective, a Toronto-based firm with extensive experience in arts and cultural award program development and public engagement both in Canada and internationally, provided consultative support for the review. The process included consultation with program staff and Members of City Council, industry stakeholders and collaborators, and Brampton Arts Walk of Fame inductees, as program perception within the creative sector is paramount to its value and success.

Current Situation:

The review found that the Brampton Arts Walk of Fame has established a solid base as a cultural award and recognition program in Brampton, and in recent years, has exceeded the expectations of inductees with the shift in delivery to individual induction celebrations. There is, however, opportunity to clarify the purpose and value of the award within the industry landscape, enhance the meaning of such recognition with inductees, and strengthen the role of the program in building civic pride and Brampton's identity as a cultural hot spot and producer of creative talent.

The recommendations for augmenting the program are as follows:

1. Re-Calibrate the Vision, Mission and Goals

Transitioning the current program to a prize of significant industry value requires a re-calibration of the vision, mission and goals, articulating the scale of achievement to be recognized and the commitment to celebrating these accomplishments in a sustained and relevant way.

Vision

The Brampton Arts Walk of Fame is the highest honour that can be given to a creative individual with a strong connection to Brampton, for outstanding work that has influenced arts and culture on a national to international scale.

Mission

The mission of this program is to celebrate, honour and nurture the extraordinary creative talent that comes from and resides in Brampton.

Goals

- To put Brampton on the map through an ever-evolving legacy project that reflects Brampton's character and brings visibility to the city's outstanding creative talent.
- To find imaginative, inspiring and personalized ways of sharing the recipient's creative work with the public.
- To share deeply personal and unique stories about outstanding creative talent from Brampton at a scale that reaches national attention.
- To encourage the next generation of emerging artists and cultural producers and to instil pride amongst the wider local community.
- To develop a dynamic award program that responds to the changing ways audiences engage with arts and culture today.
- To celebrate the highest calibre of contributions to arts and culture that speak to an international scale of ambition and is relevant to our present-day context.

2. Update the Eligibility Criteria and Form a Nomination Working Group

To support the vision, mission and goals of the program, a revised set of eligibility criteria is proposed that focuses on local connection, level of recognition for outstanding creative contribution, and recent impactful work. In addition to this, a broad and evolving definition of contemporary culture has been proposed that resonates with modern audiences, spans art forms, and encompasses high and popular culture.

It is also recommended that a Nomination Working Group be formed to monitor the career trajectories and achievements of Bramptonians in the sector and prepare annual induction recommendations. The Nomination Working Group would report to the Cultural Services Unit of the Strategic Communications, Culture and Events Division. The Cultural Services Unit would review and vet the Working Group's recommendations, and put forward final induction recommendations to City Council for approval.

The proposed composition of the Nomination Working Group includes emerging and established Brampton creatives, representation from the Arts, Culture and Creative Industries Development Agency, local cultural institutions, City Council and City staff. This approach would replace the current process of an open call for nominations and intends to foster a more intentional approach to holistic program and recognition planning.

In addition to the efforts of the Nomination Working Group in monitoring and identifying potential Brampton Arts Walk of Fame candidates, the Brampton Arts Walk of Fame webpage will host a nomination suggestion form, whereby members of the public can submit nomination suggestions for consideration by the Nomination Working Group, on an open and ongoing basis.

The proposed Brampton Arts Walk of Fame Nomination Working Group Terms of Reference (including updated eligibility criteria) is attached as **Appendix A** to this report.

3. Set a Limit of One (1) Inductee Per Year

To enhance the perceived value and prestige of the award, and to maximize available funds to support the program, it is proposed that the program limit inductees to one (1) per year. If no candidate exists that meets the eligibility criteria, the Nomination Working Group reserves the right to not recommend a nominee for the Brampton Arts Walk of Fame in a given year.

4. Continue to Offer Personalized Celebrations and Programming

Building on the success of recent induction events, staff should continue to work closely with inductees to plan and deliver personalized inductions, campaigns and programs throughout the year that celebrate their local connections and the unique attributes of their creative practice and careers. This includes involving sector stakeholders in the development of ancillary programming with inductees (i.e. exhibitions, masterclasses, networking events) that engages Bramptonians and cultivates the local creative community of practice.

5. Reimagine the Legacy Site

Due to pending downtown infrastructure updates, the inlay of granite stones for inductees in the Brampton Arts Walk of Fame Legacy Site was put on hold in 2016. Since then, the temporary provision of vinyl decals has been used as an interim measure, until a more permanent marker could be installed.

In alignment with the Integrated Downtown Plan, there is an opportunity to transform the Brampton Arts Walk of Fame Legacy Site, visibly advancing the programs recalibrated vision, mission and goals. It is recommended that staff be directed to explore and report back to City Council on design options for re-imagination of the Legacy Site in downtown Brampton, elevating the City's image, creative identity, and contributing to the City Council-approved Tourism Strategy.

6. Refine the Arts Acclaim Citizens Award Eligibility Criteria

As part of defining the Brampton Arts Walk of Fame as an award recognizing national or international achievements, it is recommended that staff present revised eligibility criteria for the Arts Acclaim award to the Citizen's Award Committee, to recognize achievements in the arts of provincial, regional and local significance. This approach positions the Arts Acclaim award as a valuable prize in its own right and a potential stepping stone to future Brampton Arts Walk of Fame recognition.

Upcoming Inductions and Implementation of New Eligibility Criteria and Nomination Working Group

The following individuals have been approved by City Council for induction into the Brampton Arts Walk of Fame, and have accepted their offers of induction:

Inductee	City Council Approval Date	Year of Induction Celebrations
Ian Williams	June 24, 2020	2021
Denise Jones	March 3, 2021	2022

Ian Williams will be inducted into the Brampton Arts Walk of Fame in Q4 2021 in an event at The Rose Theatre, currently planned to include in-person and virtual attendance options in alignment with COVID-19 protocols.

Staff is working with the Jones family to plan celebrations for the posthumous induction of Denise Jones into the Brampton Arts Walk of Fame in 2022; including the renaming of Daily Times Square and ancillary programming.

It is anticipated that the Brampton Arts Walk of Fame Nomination Working Group may be established by early 2022, to support the process of identifying a Brampton Arts Walk of Fame nominee for 2023, using the new eligibility criteria. As per the Terms of Reference for the Working Group, members will also:

- play an advisory role in the planning of Brampton Arts Walk of Fame induction events and ancillary programming; and
- attending Brampton Arts Walk of Fame events and acting as a positive ambassador for the program.

Next Steps

Pending City Council approval of the recommendations in this report, staff will:

- Deliver Ian Williams' 2021 Brampton Arts Walk of Fame Induction Event.
- Update the City's Brampton Arts Walk of Fame webpage to reflect the program's recalibrated vision, mission and goals.

- Undertake a call for applications for the Brampton Arts Walk of Fame Nomination Working Group and report back to City Council for approval of a recommended Nomination Working Group composition.
- Undertake exploration of design options for the re-imagination of the Brampton Arts Walk of Fame legacy site, and report back to City Council with a recommended model.
- Present revised eligibility criteria for the Arts Acclaim award to the Citizen's Award Committee, to recognize achievements in the arts of provincial, regional and local significance.
- Continue to work with the Jones family to plan celebrations for the posthumous induction of Denise Jones into the Brampton Arts Walk of Fame in 2022, including the renaming of Daily Times Square and ancillary programming

Corporate Implications:

Financial Implications:

There are sufficient funds in the 2021 Cultural Services operating and capital budgets to enact the recommendations in this report.

Legal Implications:

Legal Services will review and approve as to form any agreements executed pursuant to the delegation of authority recommended by this report.

Term of Council Priorities:

- Term of Council Priorities
 - This report supports the Term of Council Priorities of *Brampton is a Mosaic, Brampton is a City of Opportunities,* and *Brampton is a Well-Run City*, by effectively managing municipal assets, leveraging partnerships for collaboration, and celebrating Brampton's diversity and cultural heritage.
- Culture Master Plan
 - This report aligns with the vision and definition of culture in Brampton and the strategic themes of *Supporting Success*, *Developing a Creative Community of Practice*, and *Building Brampton's Identity*.

Conclusion:

This report provides a series of recommendations to enhance the industry value and public perception of the Brampton Arts Walk of Fame program, and in turn, support the City's image as a diverse and culturally vibrant city, producing some of the nation's best creative talent.

Pending City Council approval, staff will undertake the next steps in implementing these recommendations for the advancement of the program.

Appendix A - Brampton Arts Walk of Fame Nomination Working Group Terms of Reference

Appendix A

Brampton Arts Walk of Fame Nomination Working Group Terms of Reference

Name:	Brampton Arts Walk of Fame Nomination Working Group
Mandate:	The Brampton Arts Walk of Fame Nomination Working Group is responsible for monitoring the careers of creative talent emerging from Brampton and making recommendations for induction of artists and cultural producers into the City of Brampton's Brampton Arts Walk of Fame.
Term:	The term of appointment to the Nomination Working Group is four years.
Reporting Relationship:	The Nomination Working Group reports to the Cultural Services Section of the Strategic Communications, Culture and Events Division, Corporate Support Services Department of the City of Brampton.
Project Manager:	Manager, Culture
Appointment Process:	 The City will issue a call for applications will be issued in advance of each term to seek candidates for the Nomination Working Group. Following the review and evaluation of applications, a recommended composition for the Nomination Working Group will be presented to City Council for approval.
	City Council will also identify a representative to sit on the Nomination Working Group.
Composition:	 Composition should include and may not be limited to: 2 established artists 2 emerging and/or young artists, 1 representative from the Arts, Culture and Creative Industries Development Agency 2 representatives from local arts, cultural and creative institutions 1 representative from City Council 1 City staff member *Additional City staff may be present to lead meetings and facilitate process.
	The Nomination Working Group should include members who are deeply immersed in and aware of

Monting	Brampton's culture scene, possess knowledge and expertise in the arts and creative industries, and can speak in an informed manner about the Canadian awards landscape and its impact on the sector. Nomination Working Group members should also reflect the cultural diversity of Brampton, provide gender equity and include indigenous representation.
Meeting Frequency:	Quarterly or at the call of the Project Manager.
Member Absenteeism:	Members of the Nomination Working Group who miss three consecutive meetings without prior authorization from the Project Manager will be deemed to have resigned. A vacancy will be declared and a call for applications will be issued to seek a replacement.
Eligibility Criteria for Considering Potential Inductees:	 The Nomination Working Group will consider artists and cultural producers practicing in, and not limited to, the following disciplines: Visual Arts—from sculpture to street art Performing Arts—from opera to stand-up Dance—from ballet to Bhangra Decorative Arts—from ceramics to fashion Creative Writing—from non-fiction to spoken word Music—from classical to throat singing Moving Image—from music videos to motion picture Digital—from video games to YouTube sensation 1. Local Connection The inductee must be a previous or current resident of Brampton for a minimum of two years and must have spent their formative or creative years living in Brampton. 2. National to International Recognition The inductee must have achieved national or international acclaim within their respective arts and culture field.

	The inductee must be an acclaimed individual who has recently made outstanding and creative work that has had an impact on their field and/or on the public.
	 4. Other Criteria There are no age limits. Individuals, groups or collectives can be honored. Posthumous candidates will be considered within the criteria above.
	The Project Manager may facilitate consultation with additional industry advisors as required on behalf of the Nomination Working Group to inform the process of consideration of potential inductees.
Maximum Number of Annual Inductees:	There is a maximum of one inductee to the Brampton Arts Walk of Fame per year. If no candidate exists that meets the eligibility criteria, the Nomination Working Group reserves the right to not recommend a nominee for the Brampton Arts Walk of Fame in a given year.
Approval of Inductees:	 Recommendation established by Nomination Working Group.
	 Recommendation reviewed and vetted by the Cultural Services Section of the Strategic Communications, Culture and Events Division.
	 Recommendation report to Committee of Council from the Strategic Communications, Culture and Events Division.
	4. Council Resolution and Confirming Bylaw by City Council.
Roles and Responsibilities:	 Establishing and updating a "Creative Watch List" to monitor the career trajectories of potential future nominees.
	 Gathering supporting information and media about the artists on the Creative Watch List and submitting this to the Project Manager for program files to inform nomination discussions.

 Preparing nomination recommendations to the Cultural Services Section of the Strategic Communications, Culture and Events Division.
 Staying informed, and participating in an advisory capacity where requested by the Project Manager, in the planning of Brampton Arts Walk of Fame induction events and ancillary programming.
 Attending Brampton Arts Walk of Fame events and acting as a positive ambassador for the program.

Report Staff Report The Corporation of the City of Brampton 2021-09-22

Date: 2021-08-24

Subject: Medical Grade Masks for Transit Employees

Secondary Title: Review on the continued use of medical grade masks for all Transit Employees that include employees behind the bus operator shield.

Contact: Alex Milojevic, General Manager, Transit Alex.milojevic@brampton.ca 905.874.2750 ext. 62332

Report Number: Brampton Transit-2021-995

Recommendations:

1. That the report from Alex Milojevic, General Manager, Transit, dated August 24, 2021, to the Committee of Council meeting of September 22, 2021 titled **Medical Grade Masks for Transit Employees** be received.

Overview:

- Brampton Transit Operators are currently required to wear medical grade masks as PPE to help reduce the spread of COVID-19.
- This was implemented in consultation and recommendations from the city's Occupational Health and Safety team, PPH and BEMO and in response to the pandemic in Brampton.
- At the City of Brampton Council meeting on August 11, 2021, a motion was passed directing staff to report back on whether Transit Operators should be permitted to wear a mask of their choosing while operating a transit bus.
- Transit leadership has conferred with PPH and with the ATU 1573 and the results of those meetings are contained in this report, which is being presented to Council for informational purposes.

Background:

Brampton Transit has been in full operation since the start of the pandemic, moving frontline and essential workers and providing critical service throughout the city. Transit employees continue to move thousands of customers daily, which poses a greater risk for potential exposure to COVID-19. As the pandemic continues, so does the ongoing risks to transit employees. Transit staff continue to seek guidance from the Occupation Health and Safety team, Brampton Emergency Management Office (BEMO), Peel Public Health (PPH) and the Ministry of Labour, Training and Skills Development (MLTSD), as well as consultation with ATU (Amalgamated Transit Union) 1573, and other stakeholders as the COVID-19 restrictions continue to be in place.

Due to the increase in positive cases at Brampton Transit during the pandemic, PPH investigated COVID-19 exposures and clustering of cases at certain routes to determine whether there was a risk of additional transmission of infections to staff and or customers.

Several inspections were conducted by PPH and MOL at various times throughout the pandemic to review the infection prevention and control practices of BT. Each inspection has resulted in additional safety measures being implemented based on orders and recommendations received by both MOL and PPH.

During all active investigations, PPH directed the mandatory use of medical grade masks when employees are unable to maintain distance at all times to further protect the health and safety of all employees, customers and the community as stipulated in the <u>Class Section 22 order</u>. These measures are consistent with the MLTSD recommendations for the use of personal protective equipment in situations where other measures are not sufficient to protect the employees.

On March 2, 2021, the use of medical grade masks were made mandatory by Brampton Transit as Personal Protective Equipment (PPE) for Transit employees including when behind the bus operator shield. This mandatory requirement came in effect following the on-site inspection conducted by PPH to investigate a suspected outbreak on March 1, 2021. Due to the suspected outbreak, mandatory testing was required on-site for certain employee groups. After the mandatory on-site testing and the conclusion of the suspected outbreak, the use of medical grade masks was maintained based on the recommendation made by city's Occupational Health and Safety team, PPH, BEMO and Human Resources. The high-level summary of the recommendations by PPH are summarised below.

Medical grade masks worn as PPE are meant to help prevent exposure. Regular masks are for source control purposes and do not provide protection to the person who wears them. Considering the nature of the work and work environment it was deemed appropriate to provide the highest level of protection for our employees. This includes items such as establishing protocols with the intention of reducing the risk of illness and injury within the workplace.

Brampton Transit has continued to make the use of medical grade masks as PPE mandatory for all Transit Operators and employees, including when behind the bus operator shields based on the recommendation made by Peel Public Health.

Since the inception of the pandemic a total of 144 Brampton Transit employees have contracted COVID-19 at the time of writing this report.

Motion:

Whereas the provisions of the City's Face Masks By-law 135-2020, as amended, include a mandatory requirement for all persons entering onto and while riding in a Brampton Transit Vehicle to wear a Face Mask, as defined within the by-law;

Therefore Be It Resolved That staff be requested to report back on solutions, in consultation with Peel Public Health, Amalgamated Transit Union, and Brampton By-law Enforcement staff, with regard to concerns articulated by Brampton Transit Operators.

ATU 1573 Consultation:

Transit Leadership met with the ATU Local 1573 Union President regarding the issue of the on-going use of medical grade masks worn by operators while operating a transit bus. The union is proposing that operators be permitted to select the type of masks, in compliance with the City of Brampton Mask By-law, that the operators are comfortable wearing while operating a bus behind the on-board safety shield. Those comfortable wearing the medical grade masks provided by the corporation would continue to do so.

PPH Consultation:

In late August, City staff met with Peel Public Health, to review issues surrounding the use of masks. The following key points were brought forward by the Associate Medical Officer of Health and the Peel Public Health team:

- Bus operator shields on Transit buses are not an impermeable barrier and so allow them to share the same air as the customers onboard and cannot be taken as full protection (Reopening Ontario (A Flexible Response to COVID-19) Act, 2020 Section 2, Subsection 7 of O. Reg. 364/20).
- A Transit Operator must wear a medical mask while assisting customers as they are within 6 feet distance. Putting on various mask types throughout their shift can result in cross contamination. Wearing a non-medical mask behind the bus operator shield and switching to a medical grade mask if assisting a customer outside of the shield can pose a greater risk due to cross-contamination, improper donning and doffing of the mask and improper storage of the mask.
- There was a high refusal rate for COVID-19 testing for Brampton Transit employees while under a suspected outbreak, and there is potential risk of attending the work while infectious if the infection was developed at the later stage of the incubation period after the employees was released from isolation.

• Outside of an investigation, PPH recommends the continuous use of medical grade masks if the work environment and the nature of the work justifies the use of the highest level of protection.

Conclusion:

Brampton, along with the rest of the Province are in the midst of a 4th wave as more contagious variants are emerging at an alarming rate in Ontario and around the world. Continuing with the use of mandatory medical grade masks for Transit Operators as PPE while driving behind the bus operator shield provides a level of enhanced protection to Transit Operators that is consistent with recommendations from PPH.

Based on the discussions with PPH, BEMO and Occupational Health and Safety, the current measures, including wearing a medical grade mask, remain critical to ensure transmission is minimized. The current measures in place will assist in reducing the number of positive cases within the workplace and maintain the health and safety of all employees and customers.

Brampton Transit will continue to seek guidance from PPH, the MOL, BEMO and Occupational Health and Safety to review the current measures in anticipation of potential future changes as the pandemic continues.

- **Report Number:** Community Services-2021-996

Recommendations:

- 1. THAT the report titled "Budget Amendment and Request to Begin Procurement for the Design, Contract Administration and Advisory Services of a Cricket Stadium" to the Committee of Council Meeting of September 22, 2021 be received;
- THAT a budget amendment be approved in the amount \$5,000,000 for the design, contract administration and cricket advisory services of a Cricket Stadium at CAA Centre lands, Ward 3, with funding to be transferred from Reserve #134 – Recreation Development Charges; and
- 3. THAT the Purchasing Agent be authorized to begin the procurement to hire an architect for the design and contract administration services of a Cricket Stadium at CAA Centre lands, subject to Council's approval of the budget amendment.

Overview:

- The City of Brampton will build a new state of the art fully-lit cricket stadium to International Cricket Council (ICC) standards and propose it be located at the CAA Centre and Sports Park, a 110 acre athletics park.
- The new cricket stadium at the CAA Centre lands will be used for local, national and international tournaments, drawing national and international audiences, providing great economic and community benefits, and solidifying the City of Brampton as the "Cricket Capital of Canada".
- The CAA Centre is one of the larger City-owned complexes available for major indoor and outdoor athletic use and recreational programming. The

lands have enhanced amenities to serve the City-wide needs of all residents and organizations. Its central location in the City and proximity to major traffic arteries and Toronto Pearson International Airport makes it a preferred location for local, national, regional, and international events.

- The addition of a cricket stadium to the City of Brampton field inventory at the CAA Centre site will allow the City to accommodate a variety of tournaments, including the Global T20 Canada (GT20), a 20-over cricket internationally recognized tournament sanctioned by the International Cricket Council (ICC), other international and national tournaments and events, as well as adult and youth cricket programs, pending availability of the facility. The ability to accommodate more cricket programs for training and competition is a major ancillary benefit, while also providing for additional revenue opportunities from the new stadium and field.
- Staff recommends consideration to construct the cricket stadium as a multi-use facility with cricket as the main use while having the ability to accommodate the hosting of other sport tournaments or special events.
- The total project cost of a cricket stadium including design, construction, contract administration and advisory services is estimated to be \$35,500,000. It is anticipated that the design will begin in 2021 and the construction is planned to start in 2022.
- Construction funding has been requested by way of capital budget ask that has been submitted for approval in the 2022 capital budget request.
- This budget amendment report seeks approval of \$5,000,000 to hire the architect for the design and contract administration services, and to retain cricket advisory services.

Background:

The cricket stadium was originally proposed to be located at the same site of Gore Meadows Community Centre, which allows for large outdoor use and local recreation programming. However, as the cricket stadium is a highly sport focused facility with the potential for up to 20,000 spectators to attend internationally recognized tournaments, it was found that the CAA Centre lands, as a sport hub, would be a much better location for a new cricket stadium rather than Gore Meadows, which is a residential area where the current infrastructure (traffic congestion, lack of parking, lack of transit etc.) cannot sustain the high traffic volume associated with international events. Existing parking at the Gore Meadows site is limited and in high demand already with the use of Community Centre amenities. Staff note that a new fully-lit full-size cricket field will be built in place of the stadium at Gore Meadows to accommodate the demand for the sport while being mindful of the capacity and residential nature of the area. The CAA Centre, built in 1998, located at the intersections of Kennedy Road, the 407 and the 410 Highway, is one of the busiest, all-season sports and entertainment complexes in the GTA. It features four NHL size rinks, including a spectator bowl with a seating capacity of 5,000 and a full service 250-seat restaurant that overlooks the three community rinks. The main arena is part of larger community complex that includes three smaller ice pads.

The CAA Centre, with its multi-purpose arena, was home to the East Coast Hockey League's Brampton Beast and OHL Brampton Battalion. When the facility is not being used for hockey, it features concerts, trade shows, film shoots, graduation ceremonies as well as many other major sporting events. Outside the CAA Centre and surrounding main parking lot, the complex has 5 baseball diamonds, 5 parking lots, a kabaddi field, and 2 cricket pitches. Over 1.2 million people visit the CAA Centre each year. The existing kabaddi field hosted the Canadian International Kabaddi tournament, also called the Canada Kabaddi World Cup. The cricket pitch was used to host the 2019 Global T20 Canada tournament and it is anticipated it will continue to host this tournament annually until a stadium is built. In 2020, the City invested in significant improvements to the cricket pitch at the CAA Centre, including grading and the installation of appropriate natural wickets to make this site a premier outdoor cricket pitch in the GTA, and also expanding the field of play.

Cricket is a sport that is enjoyed by a great number of youth and adults in the City of Brampton. In fact, the growth of the sport has outgrown the fields available for rent to our user groups. This decision to build a new cricket stadium was necessitated by the increased demand for cricket field use by the Brampton community.

Current Situation:

The City of Brampton is a leader in supporting the sport of cricket, with the most pitches per capita in the GTA. The City's investment in the sport remains unmatched. The construction of the stadium at the CAA Centre will put Brampton on the world stage as a sports and entertainment host, bringing broader sporting tourism and economic development to the City.

The addition of a new cricket stadium at CAA Centre, to the City of Brampton field inventory, will enhance the City's ability to accommodate a variety of tournaments, including the GT20, and possibly additional events. The stadium will be able to accommodate additional adult and youth cricket programs that serve the residents of Brampton and provide development opportunities within the sport.

While the due diligence process is ongoing, the project is now at the stage to commence the procurement to hire the design consultant. It is anticipated that the facility will provide for an up to 5,000 fixed-seat stadium that will allow for hosting additional events with up to an additional 20,000 temporary seating. The facility will be designed to have an International Cricket Council (ICC) sanctioned pitch capable of

hosting international level tournaments and events. Detailed facility specifications will be further developed once the architect and cricket advisory consultant are retained.

Staff proposes constructing the cricket stadium as a multi-use facility to maximize its use and to diversify revenue sources. The stadium will be reserved mainly for cricket with the ability to turn over to host other sport tournaments or special events. While modifying the stadium to a multi-use facility may have some operational impacts resulting from the changeover between sports, it will have no bearing on the project budget or scope of work. Staff will take this into consideration when determining the operating budget, including maintenance and labour, for the stadium, which will be requested through a future annual budget submission, subject to Council approval.

Corporate Implications:

Financial Implications:

A budget amendment is required in the amount of \$5,000,000 to proceed with the procurement to hire the architect for the design and contract administration services and cricket advisory services.

Subject to Council approval, a new capital project would need to be established in the aggregate amount of \$5,000,000 for the Design, Contract Administration and Advisory Services of a Cricket Stadium at CAA Centre lands, with funding to be transferred from Reserve #134 – Recreation Development Charges. Sufficient funding is available.

Additional funding in the aggregate amount of \$30,500,000 will be requested as part of the 2022 Capital Budget submission for costs to complete construction. All operating costs relating to this cricket stadium will be included in future budget submissions, subject to Council approval.

Total funding is anticipated to be \$35,500,000.

The Cricket Stadium was not part of the previous Development Charges Study. Accordingly, staff will review included projects, funding available, as well as potential impacts for the next Development Charges Study.

Other Implications:

Purchasing Implications:

Design and Contract Administration Services of the Cricket Stadium:

A public Procurement Process will be conducted and the Bid submissions shall be evaluated in accordance with the published evaluation process within the bid document. Purchase approval shall be obtained in accordance with the Purchasing By-law.

All communication with Bidders involved in the procurements must occur formally, through the contact person identified in the Bid Documents.

Term of Council Priorities:

The Cricket Stadium at CAA Centre project will be a key project in reflecting the **Term of Council Priorities** and the City's **Strategic Plan** as it will support and achieve:

A **Healthy and Safe City**, by enhancing recreation and sports facilities to increase access to programs for residents and also by adding new activity hubs to provide accessible spaces and play elements for residents of all ages and abilities.

A **Mosaic**, by providing additional sport facilities that enable diversity and equity through developing a holistic framework to embed diversity across the City.

A **Well-Run City**, by leveraging partnerships for collaboration, advocacy, and dynamic expansion in activities to bring national and international events to the City.

Living the Mosaic – 2040 Vision

This report has been prepared in full consideration of the overall vision that the people of Brampton will 'Live the Mosaic.'

Conclusion:

The project to construct a new state of the art fully-lit cricket stadium at CAA Centre will add an active facility to this multi-purpose sports precinct, solidify the City as the "Cricket Capital of Canada" and be a testament to the City's leadership and commitment to the game and community.

Locating the stadium at the CAA Centre in close proximity to major traffic arteries and Toronto Pearson International Airport will provide an opportunity to draw audiences to the City from across the GTA and internationally, positively impacting sports tourism and economic development.

This project provides a solution to the recommendation made in the Parks and Recreation Master Plan for more cricket fields. The new construction of a cricket stadium for the increase in demand will also provide new programming and revenue opportunities for the City of Brampton.

The collaborative work of City of Brampton Departments to create the program for this new outdoor facility provides an efficient use of expertise and resources for the development of what will become a premier sports destination and another heavily

utilized sports facility in the City.

It is recommended that a budget amendment be approved in the amount of \$5,000,000 for the design and contract administration services, and cricket advisory services and that the Purchasing Agent be authorized to commence the procurement as described in this report.

Minutes

Brampton Sports Hall of Fame Committee

The Corporation of the City of Brampton

Thursday, September 9, 2021

- Members Present: Carmen Araujo Beth Cooper Norman DaCosta Don Doan Ken Giles Frank Juzenas Dave Middaugh Ziggy Musial Mohammad Shoaib Ron Noonan City Councillor J. Bowman
- Members Absent: Dean McLeod (Co-Chair) Glenn McClelland (Co-Chair) Bryan Steve Kerr Randy Osei City Councillor D. Whillans
- Staff Present: Teri Bommer, Coordinator, Sport Liaison Ashlyn Gladman, Events Specialist Chandra Urquhart, Legislative Coordinator

1. <u>Call to Order</u>

The meeting was Chaired by Beth Cooper, Member.

The meeting was called to order at 7:03 p.m. and adjourned at 7:48 p.m.

2. <u>Approval of Agenda</u>

SHF011-2021

That the Agenda for the Brampton Sports Hall of Fame Committee meeting of September 9, 2021 be approved as published and circulated.

Carried

3. Declarations of Interest under the Municipal Conflict of Interest Act

Nil

4. <u>Previous Minutes</u>

4.1 Minutes - Brampton Sports Hall of Fame Committee - May 6, 2021

The minutes were approved by Council on June 2, 2021 and provided for Committee's information.

5. <u>Presentations\Delegations</u>

5.1 Presentation by Teri Bommer, Coordinator, Sport Liaison, Recreation Services, re: Sports Hall of Fame - Victoria Park Update

Teri Bommer, Coordinator, Sport Liaison, presented renderings of the proposed floor plan of the New Victoria Park Arena and Sports Hall of Fame. The following was highlighted:

- Site plan in relation to existing amenities on site
- Ground floor conceptual drawings
- Second floor seating capacity
- Aerial view from south east and south west
 - o conceptual renderings of the facility from different perspectives
- Main entrance images

In response to questions, Ms. Bommer noted that the building has been demolished, start of construction is anticipated in 2022 and the timing of future functions to be held at the site depends on construction completion date.

SHF012-2021

That the presentation from Teri Bommer, Coordinator, Sport Liaison, Recreation Services, to the Brampton Sports Hall of Fame Committee meeting of September 9, 2021, re: **Sports Hall of Fame - Victoria Park Update** be received.

Carried

6. <u>Reports</u>

Nil

7. <u>Sub-Committees</u>

7.1 Minutes - Building Sub-Committee - July 8, 2021

In response to a question with respect to the cost of interactive display boxes, Ms. Bommer advised that additional information will be provided at a future meeting.

The following motion was considered:

SHF013-2021

That the **Minutes of the Building Sub-committee Meeting – July 8, 2021**, to the Brampton Sports Hall of Fame Committee meeting of September 9, 2021 be received.

Carried

8. <u>Other/New Business</u>

8.1 Update by Ashlyn Gladman, Events Specialist, Strategic Communications, re: Class of 2021 Campaign-based Recognition Program

Ashlyn Gladman, Events Specialist, Strategic Communications, provided an update on the 'Class of 2021 Campaign-based Recognition Program', noting the success of the campaign. Highlights included the following:

- Development of the new branding
- Communication campaign social media

- suggestion that social media be integrated in the communication strategy for future induction events
- benefits of social media with the proposed opening of the Sports Hall of Fame at Victoria Park Arena

Committee discussion on this matter included the following:

- Question on the follow-up communication to inductees after the induction
 - biographies, commemorative books, gift boxes and other materials will be mailed to inductees

The following motion was considered:

SHF014-2021

That the verbal update by Ashlyn Gladman, Events Specialist, Strategic Communications, to the Brampton Sports Hall of Fame Committee meeting of September 9, 2021, re: **Class of 2021 Campaign-based Recognition Program** be received.

Carried

8.2 Update by Teri Bommer, Coordinator, Sport Liaison, re: Nominations Received and Next Steps

Teri Bommer, Coordinator, Sport Liaison, provided an update on the nominations received and outlined the next steps of the process that included the following:

- Due to COVID-19, the nomination window to receive applications was open all year in 2020 for the CLASS of 2020 event
- Current nomination period ended on June 15, 2021
- A total of 17 nominations were received
- Next steps include:
 - arrangements for the review of nominations by Nomination Sub-committee to determine eligibility
 - communication with Sub-committee to determine the preferred format to receive copies of nomination packages for review

In response to questions, Ms. Bommer advised that a variety of sports were represented in the nominations received and a date for the induction ceremony has not been confirmed for the 2022 event.

The following motion was considered:

SHF015-2021

That the update by Teri Bommer, Coordinator, Sport Liaison, to the Brampton Sports Hall of Fame Committee meeting of September 9, 2021, re: **Nominations Received and Next Steps** be received.

Carried

9. <u>Correspondence</u>

Nil

10. Information Items

Ken Giles, Member, provided information on potential Sports Hall of Fame athletes.

Due to technical issues, Committee suggested that Mr. Giles forward the information by email to Ms. Bommer, who advised that the information would be shared with the Nomination Sub-committee.

Frank Juzenas, Member, provided additional information on the accomplishments of various athletes with respect to football and basketball.

11. <u>Question Period</u>

Nil

12. <u>Public Question Period</u>

Nil

13. Closed Session

Nil

14. Adjournment

SHF016-2021

That Brampton Sports Hall of Fame Committee do now adjourn to meet again for on October 2, 2021 at 7:00 p.m.

Carried

Glenn McClelland (Co-Chair)

Dean McLeod (Co-Chair)
