In support of the application, please find enclosed the following:

- One (1) digital copy of the Consent Application Form;
- One (1) digital copy of the Severance Sketch outlining the parcels conveyed and retained prepared by MHBC Planning;
- One (1) digital copy of the Draft Reference Plan prepared by Speight, Van Nostrand & Gibson Limited;
- One (1) digital copy of the Site Plan prepared by MHBC Planning Limited;

PROPOSAL DESCRIPTION

The Subject Lands consist of an existing 2-storey industrial building fronting onto Summerlea Road to the east, a parking lot and approximately $8,271 \, \text{m}^2$ of lawn area to the south of the building. A driveway with access to the parking lot from Summerlea Road exists to the south of the building. The owner is seeking approval to sever the Subject Lands into two (2) separate parcels in order to allow the owner separate ownership for the future development from the existing industrial building on the Subject Lands.

As shown in the severance sketch as part of this cover letter, the land to be severed consists of the southerly portion of the Subject Lands, which the retained lot consists of the northerly portion of the Subject Lands. The proposed severance will result in the following:

Lot Measurements	Severed (PART 1, PLAN 43R-15650; PART 1, PLAN 43R-13542; PART 2, PLAN 43R-13542)	Retained (PART 1, PLAN 43R- 14828; PART 1, PLAN 43R- 13485)
Lot Area	+/- 9,794 m²	+/- 15,425 m²
Lot Frontage	+/- 67.79 m	+/- 64.80 m
Lot Depth	+/- 190.20 m	+/- 190.20 m

CONSENT EVALUATION

We have reviewed the proposed consent against the development criteria of Section 51 (24) of *Planning Act* as well as those of the Official Plan and are of the opinion that the proposed consent request is appropriate, reasonable and meets the relevant development criteria.

SUMMARY

In conclusion, we believe the requested consent application to permit the severance of the property are appropriate and represent good planning. The proposed consents would maintain the general pattern of the existing lotting fabric within the areas and will allow the opportunity for separate ownerships for future development within the City.

If holding an electronic/hybrid rather than an oral hearing is likely to cause a party significant prejudice a written request may be made to have the Committee consider holding an oral hearing on an application at some future date. The request must include your name, address, contact information, and the reasons for prejudice and must be received no later than 4:30 pm the Friday prior to the hearing to cityclerksoffice@brampton.ca or jeanie.myers@brampton.ca. If a party does not submit a request and does not participate in the hearing, the Committee may proceed without a party's participation and the party will not be entitled to any further notice regarding the proceeding.

NOTE Personal information as defined in the *Municipal Freedom of Information and Protection of Privacy Act* (*MFIPPA*), collected and recorded or submitted in writing or electronically as related to this planning application is collected under the authority of the *Planning Act*, and will be used by members of the Committee and City of Brampton staff in their review of this matter. Please be advised that your submissions will be part of the public record and will be made available to the public, including posting on the City's website, www.brampton.ca. By providing your information, you acknowledge that all personal information such as the telephone numbers, email addresses and signatures of individuals will be redacted by the Secretary-Treasurer on the on-line posting only. Under the authority of the Emergency Management and Civil Protection Act and the Municipal Act, 2001, City Council approved Committee Meetings to be held electronically and/or as a hybrid meeting (both inperson and electronically).

For the **December 6**, **2022** hearing, the Committee of Adjustment will conduct its meeting with concurrent electronic and in-person attendance.

How to Participate in the Hearing:

All written comments (by mail or email) must be received by the Secretary-Treasurer no later than **4:30 pm**, **Thursday**, **December 1**, **2022**.

- Advance registration for applicants, agents and other interested persons is required by one or two options:

The request must include your name, address, contact information, and the reasons for prejudice and must be received no later than 4:30 pm the Friday prior to the hearing to cityclerksoffice@brampton.ca or jeanie.myers@brampton.ca. Two Applications for Consent

8917 Heritage Road

Part of Lot 5, Concession 5 WHS

East of Heritage Road, south of Embleton Road

Owner: Top End Construction Inc.

City of Brampton, Regional Municipality of Peel

We are pleased to submit two applications for Consent for the above-noted property on behalf of our client, Top End Construction Inc. The property (herein referred to as "Subject Property") is municipally known as 8917 Heritage Road, legally described as:

PART LOT 5 CONCESSION 5 WEST OF HURONTARIO STREET CHINGUACOUSY, PARTS 6.7 AND 8 43R39980 CITY OF BRAMPTON

The Subject Property has an area of 0.08 hectares (0.21 acres), with a depth of approximately 30.52 metres and a width of approximately 27.59 metres. The Subject Property has current access to Bermondsey Way by way of an existing temporary public access easement. The Subject Property is designated as "Low/Medium Density Residential" in the Bram West Secondary Plan Area 40 (d) and "Low/Medium Density" in the approved Riverview Heights Community Block Plan (Sub Area 40-3) permitting detached dwellings. The Subject Property has been rezoned (City file: C05W05.008) from Agricultural (A) to Residential Single Detached (R1E-12.0-2876 and R1E-10.4-2427) which also permits single detached dwellings. The Subject Property was the retained lot in previous consent applications (under City Files: B-2021-001 and B-2021-002), approved by the Committee of Adjustment in January 2021, which severed two new lots adjacent to Heritage Road. The Subject Property is currently vacant.

The Subject Property is now proposed to be divided into three parcels, in accordance with the lotting fabric of the surrounding Approved Draft Plan of Subdivision (City file 21T-06026B) which is expected to be registered this week. These lands are owned by Kendalwood Land Developments Inc. and the subject consent applications are required to facilitate a land exchange between Kendalwood Land Developments Inc. and our client. The retained parcel and two severed parcels will merge with future residential blocks

10 Kingsbridge Garden Circle, Suite 700, Mississauga, ON L5R 3K6 • Tel. 905-568-8888 • www.gsai.ca

(part lots) from the Kendalwood Plan of Subdivision to create full lots, which will all comply with the respective Zoning By-law provisions. Please see "Consent Sketch – Parcel A" and "Consent Sketch – Parcel B" prepared by Glen Schnarr & Associates Inc., included with this submission for further detail.

Parcel	Zone	Parcel Size	Ultimate Lot Area (Once merged with future residential block)	Ultimate Lot Depth (Once merged with future residential block)	Ultimate Lot Width (Once merged with future residential block)
Retained Parcel (To merge with Block 458 on Draft Plan 21T-06026B)	R1E-12.0- 2876	0.09 acres	0.10 acres	+/- 31 metres	+/- 12.28 metres
Parcel A (To merge with Block 459 on Draft Plan 21T-06028B)	R1E-12.0- 2876	0.09 acres	0.10 acres	+/- 35 metres	+/- 12.29 metres
Parcel B (To merge with Block 460 on Draft Plan 21T-06026B)	R1E-12.0- 2876 and R1E-10.4- 2427	0.03 acres	0.09 acres	+/- 35 metres	+/- 12.05 metres

As per Zoning By-law 66-2019, the R1E-12.0-2876 zone applies to the proposed retained lands and the proposed Severed Parcel 'A', whereas both R1E-12.0-2876 and R1E-10.4-2427 zones apply to the northernmost proposed severed parcel, Parcel 'B'. The 3 resultant lots (once merged with associated part lots) will meet the minimum Zoning By-law requirements and therefore we do not anticipate any minor variances being required. We understand that the parcels created through the subject Consent applications can merge with the respective part lots by way of the consent certificate.

Please find attached the following documents in support of our two consent applications:

- One (1) copy of completed Consent Application Forms Parcel A dated November 7, 2022
- One (1) copy of completed Consent Application Forms Parcel B dated November 7, 2022;
- Twenty (20) copies of Consent Sketch A prepared by Glen Schnarr & Associates Inc., dated November 8, 22;
- Twenty (20) copies of Consent Sketch B prepared by Glen Schnarr & Associates Inc., dated November 8, 2022;
- One (1) copy of the Approved Draft Plan of Subdivision 21T-06026B prepared by Malone Given Parsons dated September 10, 2020; and,
- Cheque in the amount of \$8,238.00 made payable to "Treasurer, City of Brampton", in payment of two consent application fees.

We trust that this submission is sufficient for circulation and request to be placed on the agenda for the December 6th 2022 hearing. Please do not hesitate to contact the undersigned at 905-409-1825 or jennifers@gsai.ca if you have any questions.

Yours very truly,

1.0 Introduction

1.1 Overview

Powell Planning & Associates (PPA) has been retained by Manupriya Sharma (the Landowner) to provide a request for consideration for Consent (Severance) for the purpose of creating one new residential lot, and Minor Variance to provide relief for the minimum lot area as well as the minimum lot frontage on the lands municipally known as 43 David Street, City of Brampton, and legally described as Lot 24, Plan BR-32, Part2, Plan 43R-9448, City of Brampton, Region of Peel. See Figure 1: Context Map

This Report will review the merits of the proposed development in accordance with Provincial and Municipal land use policy to establish how the proposal demonstrates good planning. The following documents have been reviewed in this regard:

- Planning Act, R.S.O., 1990
- Provincial Policy Statement (2020)
- A Place to Grow (2020)
- Region of Peel Official Plan (2021)
- City of Brampton Official Plan (2020)
- City of Brampton Zoning By-laws (204-2010) (253-2021)

2.0 Site Description & Surrounding Land Uses

2.1 The Site

Generally rectangular in shape, the site, sloping to the north east, is located west of Main Street North, on the south side of David Street, in Brampton's central Urban Growth Centre. See Figure 2: Aerial Photo for site specific context. The total site area is approximately 876.5 m² (0.22 ac) and has 18.3 m (60 ft) of frontage on David Street, a Local Road, bordered by a Collector Road, Mill Street North, and a Major Arterial (City) Road, Main Street North, in accordance with Figure 3: City of Brampton Official Plan Schedule B: City Road Hierarchy.

In accordance with the City of Brampton's Official Plan, 2020, the lands are designated as 'Central Area' (See Figure 4: City of Brampton Official Plan Schedule A: General Land Use Designations) and zoned as 'Residential Single Detached B- R1B Zone' in accordance with the City of Brampton's Zoning By-laws (204-2010) (253-2021) See Figure 5: City of Brampton Zoning By-law (204-2010) and (253-2021). The property currently has a 2-storey singledetached house on it with a shed located to the rear of the site. The lands are immediately surrounded by low to medium density residential uses as well as service commercial. Located on the periphery of the Mobility Hub- Anchor in accordance with Figure 6: Region of Peel Official Plan Schedule G: Rapid Transit Corridor, the lands are well serviced by transit, including Routes #2 and 502 Zum, while also being within a .5 km radius from the Downtown Brampton Terminal & Main Street Zum Stations, that are serviced by Routes 1, 1A, 2, 24, 25, 52, 501, 501A 502, 561 GO Train and Bus Connections and Via Rail. The subject lands are also located within the Urban Growth Centre as per the Region of Peel's Official Plan, see Figure 7: Region of Peel Official Plan Schedule D4: The Growth Plan Policy Areas in Peel. The lands are serviced with full municipal water and sewer, as well as waste collection services. The subject site is located outside of the Toronto Region Conservation Authority Regulated Area and is outside of the City of Brampton's Downtown Floodplain Regulations. No environmental or natural heritage features are identified on the subject lands.

The specific land uses surrounding the subject site are as follows:

North:

Low to medium density residential, public green space

East:

Low to medium density residential, institutional uses

South:

Low to medium density residential, Downtown Brampton (Transit) Terminal

West:

Low to medium density residential, industrial uses

3.0 Proposed Development

3.1 The Development

The proposed development would result in the creation of one new R1B Residential lot located on the northern portion of the subject lands through a Severance, under Section 53 of the *Planning Act*. Minor Variances under Section 45 of the *Planning Act* are also required to allow for a reduced lot area of 438.2 square metres and a reduced lot frontage of 9.1 metres. This development will allow for the creation of two new, two-storey, singe-detached residential units with private rear yard amenity space in accordance with the current RB1 zoning provisions. See **Appendix A** for the proposed Consent sketch detailing the proposed Severance and Minor Variances. All existing structures on the land would be removed to facilitate future development.

The Severed lands are anticipated to be developed for residential uses permitted within the existing designation 'Central Area', however a Minor Variance would be required to provide relief for the minimum lot size and the front yard setback in order for the development to be brought into fruition. Both the Severed and Retained lands would be approximately 438.2 m² (0.1 ac) in size each with 9.1 m frontage onto David Street. Please see **Appendices B and C** for the respective Minor Variances required and the proposed future building envelopes on each site. Separate access would be required for each site via a private drive way serving each lot. Please see **Appendix D** for the Existing Dwelling Plan.

It is anticipated that the severed lot will be serviced by pubic water, wastewater and waste collection. The proposed development will be an opportunity to contribute to an under-supplied housing market, increase density and population targets, and aims to enhance the neighbourhood while respecting the existing character.

4.0 Planning Analysis

This section of the Planning Justification Report provides a detailed analysis of the proposed development in the context of the following provincial, regional and local policy.

4.1 The Planning Act

The *Planning Act*, R.S.O, 1990 (the "*Planning Act*"), as amended, is the legislative document that controls land use planning and development approvals in the Province of Ontario. Section 2 in the *Planning Act* outlines matters of Provincial Interest, which municipalities shall have regard to when making land use planning decisions, including the orderly development of safe and healthy communities, the appropriate location of growth and development, and the promotion of built form that is well designed and encourages a sense of place.

The subject proposal particularly aligns with the following Provincial Interests as outlined in the Planning Act:

(a) the protection of ecological systems, including natural areas, features and functions;

The proposed development does not negatively impact the ecological system nor its natural areas, features and functions as it is being proposed on a lot that is absent of said features.

(b) the protection of the agricultural resources of the Province;

The proposed development does not affect agricultural resources as it is being proposed on a lot that is absent of said features.

(f) the adequate provision and efficient use of communication, transportation, sewage and water services and waste management systems;

The proposed development aims to make efficient use of the existing transportation network, infrastructure, water and wastewater services and waste management systems by allowing for appropriately scaled density to an urban area, and better developing an underutilized site.

(h) the orderly development of safe and healthy communities;

The proposed development would allow for an additional urban residential lot to be created, fostering urban regeneration as well as the potential for diversified densities to the corridor. The

subject site also benefits from an existing sidewalk therefore is connected to the municipality's existing active transportation network, that will be better utilized through the creation of additional housing. Through adding more housing on the subject lands, there is a greater contribution to 'eyes on the street' therefore aiming to enhance neighbourhood safety.

(p) the appropriate location of growth and development;

By creating a lot on lands that are already serviced and located in an Urban Growth Centre, this proposal is successful in fostering growth and development where it is meant to occur.

 (q) the promotion of development that is designed to be sustainable, to support public transit and to be oriented to pedestrians;

The subject site is located on a Local Road that is within close proximity to a Collector and Major (City) Arterial Road, is within a five-minute walk from a Regional Mobility Hub – Anchor, within the Urban Growth Centre, abuts active transportation infrastructure and benefits from its proximity to Downtown Brampton. This proposal offers to make better use of the existing site by allowing for greater density into this urban area, increasing transit use and ideally contributing to growth targets.

- (r) the promotion of built form that,
 - (i) is well-designed,
 - (ii) encourages a sense of place, and
 - (iii) provides for public spaces that are of high quality, safe, accessible, attractive and vibrant;

With the creation of the severed lot and the required relief, there is an opportunity for the promotion of a new built form that is sympathetic to the existing character of the neighbourhood, attractive and enhances the streetscape while maintaining the present built form.

The proposed development aligns with the aforementioned Provincial Interests therefore represents good planning in accordance with the *Planning Act*.

4.2 The Provincial Policy Statement, 2020

The 2020 Provincial Policy Statement (PPS) is a broad-range policy document that provides direction for managing and directing land use to achieve efficient development and land use patterns across Ontario. The PPS promotes the focus of urban growth to settlement areas and away from significant or sensitive resources. Growth is to be obtained through efficient development patterns which optimize the use of land, resources public investment in infrastructure and public service facilities. The PPS promotes intensification within the urban area and the efficient use of municipal services in order to create sustainable living environments.

Part V of the PPS identifies the following sections that align with the objectives of the proposed development:

- 1.1 Managing and Directing Land Use to Achieve Efficient and Resilient Development Patterns
- 1.4 Housing
- 1.6 Infrastructure and Public Service Facilities
- 1.8 Energy Conservation, Air Quality and Climate Change; and
- 2.2 Water

The following PPS policies are of particular relevance to the redevelopment of the subject lands:

Section 1.1.1 states that "healthy, liveable and safe communities are sustained by:

- a) promoting efficient development and land use patterns which sustain the financial wellbeing of the Province and municipalities over the long term;
- b) accommodating an appropriate ... range and mix of residential types (including singledetached housing) ... and other uses to meet long-term needs;
- c) avoiding development and land use patterns which may cause environmental public health and safety concerns; ...
- d) avoiding development and land use patterns that would prevent the efficient expansion of settlement areas in those areas which are adjacent or close to settlement areas; and
- e) promoting the integration of land use planning, growth management, transit supportive development, intensification and infrastructure planning to achieve cost effective

development patterns, optimization of transit investments, and standards to minimize land consumption and servicing costs;..."

The proposed development meets these broad policies of the PPS. The proposed development seeks to implement an efficient land use pattern, provides additional residential housing, and makes efficient use of land and resources through the desired development. Finally, the proposal supports existing public transit and active transportation as it is located within walking distance of existing higher-order transit services. The proposal also fosters active transportation and connectivity as the subject site benefits from an existing sidewalk.

The proposed development offers opportunities for intensification of an underutilized site that is consistent with the policies of the PPS. It promotes the efficient and intensified use of land located in an urban area, where municipal services are available, as directed by the PPS. The proposed development contributes to the overall density targets within the Urban Growth Centre and does not require an expansion to the built boundary.

The proposed residential development is located in an appropriate area to accommodate additional growth, as evidenced by the designation of the lands within Regional and Local Official Plans. The proposed development will not have impact on the natural environment, as there are no natural heritage features identified on the subject property. Similarly, due to both the subject land's location and current state, the development is not anticipated to have an impact on stormwater management or groundwater resources.

The proposed development aligns with many provincial policies and the overall direction of the province as to how and where growth is to occur. Therefore, the proposal represents good planning in accordance with the 2020 Provincial Policy Statement.

4.3 A Place to Grow, 2020

The Growth Plan for the Greater Golden Horseshoe (the "Growth Plan") 2020 provides a policy framework for implementing Ontario's vision for building stronger communities by better managing growth in the Greater Golden Horseshoe, which includes the City of Brampton. The Growth Plan directs growth to settlement areas, the utilization of existing infrastructure, prioritizes intensification and a compact built form.

Similar to the PPS, the Growth Plan contains land use planning objectives which must be considered when planning decisions are being made within the Greater Golden Horseshoe Area. The Growth Plan identifies how a change in direction for land use planning is necessary as traditional means of analysis and approval have led to an unhealthy population and environment with inefficient land use patterns. Below is an analysis of the policy statements from this key provincial policy document that are relevant to the proposed development.

The subject property is located within the City of Brampton's built boundary. Urban development is permitted within the built boundary, based on the principle of supporting the achievement of forecasted growth within 'Complete Communities'. These communities are defined as "Places such as mixed-use neighbourhoods or other areas within cities, towns, and settlement areas that offer and support opportunities for people of all ages and abilities to conveniently access most of the necessities for daily living, including an appropriate mix of jobs, local stores, and services, a full range of housing, transportation options and public service facilities. Complete communities are age-friendly and may take different shapes and forms appropriate to their contexts." The City of Brampton's Urban Growth Centre is successful at being a complete community, with plans to enhance these features.

The subject application aligns well with the broad policies of the Growth Plan. Specifically, the directions of the following sections are evident in the proposed development:

- 1.2.1 Guiding Principles
- 2.2.1 Managing Growth
- 2.2.2 Delineated Built-up Areas
- 2.2.3 Urban Growth Centres
- 2.2.4 Transit Corridors and Station Areas

- 2.2.6 Housing
- 3.2.2 Transportation General; and
- 3.2.3 Moving People

The proposed development would abide by the policies detailed within the aforementioned sections in the Growth Plan by adding much needed residential intensification (housing) within the Urban Growth Centre, better utilizing existing infrastructure, including water and wastewater servicing, waste collection and multi-modal transit services. The proposed development aligns with many provincial policies and the overall direction of the province as to how and where growth is to occur. Therefore, the proposal represents good planning in accordance with the 2020 Growth Plan.

4.4 Region of Peel Official Plan, 2021

The consolidated Peel Region Official Plan, 2021 contains policies and related schedules that guide the type and location of land uses in the Region until 2031. These policies serve as refinements to the policies found within the PPS, the Growth Plan and are specific to the context of the Region and the composition of its lands. The subject lands are located in the 'Urban Growth Centre' according to the Region of Peel's Official Plan, where population growth and development, are meant to occur; the proposed use also aligns with the subject designation. Land uses are meant to be compact and efficient in form while maximizing available municipal services to reduce their overall costs, which aligns with the objectives of the proposed Consent and supporting Minor Variance.

The following Sections within the Region of Peel's Official Plan are of particular relevance to the redevelopment of the subject lands:

- 1.3.6 General Goals of the Plan
- Chapter 2: The Natural Environment
- Chapter 3: Resources
- Chapter 4: Regional Forecasts
- Chapter 5: Regional Structure
- Chapter 6: Regional Services
- Chapter 7: Implementation

The proposed development would align with the polices in the aforementioned Sections of the Region of Peel's Official Plan by:

- · Supporting sustainable growth and development
- Not directing growth towards or within natural or cultural heritage features
- Promoting efficient land use and development patterns, efficient transportation and new,
 more efficient housing development
- Wisely managing the Region's resources
- Implementing growth management that improves lifestyle quality through appropriate intensification, the efficient and cost-effective utilization of land uses and existing services
- · Offering additional housing in an under-supplied market, better meeting a community need

- Promoting orderly growth that is sympathetic to the existing neighbourhood character
- Offering redevelopment that will better utilize, revitalize and reuse the existing site with a
 use that aligns with the direction and goals of the Regional Official Plan
- Intensifying a site that benefits from an active transportation network via its sidewalk
- · Adding to Urban Growth Centre Targets for population and household growth
- Directing growth to where it is meant to occur in the Urban Growth Centre to better achieve a complete community, that is also within close proximity to the Downtown Area where density benefits from mixed-uses and commercial land uses
- Fostering development that offers diversity in housing stock urban areas
- Supporting the integration of the transportation system
- Making better use of the existing sewers, watermains, utilities, municipal water, wastewater and waste disposal collection services
- Fostering the development of healthy communities

The proposal is compatible, makes better use of existing municipal services and creates a more urban compact form, while adding needed housing. The proposed development represents good planning in accordance with the policies of Region of Peel's Official Plan.

4.5 City of Brampton Official Plan, 2020

The City of Brampton's Official Plan offers policy context for the continuation of a sustainable community planning for growth and development to the year 2031. This plan is designed to assist with growth management through diverse land uses, guide strategic development and infrastructure and preserve the environment, to the benefit of existing and future residents. The City of Brampton's Official Plan designates the subject lands as 'Central Area' where the proposed use is permitted alongside encouraged mixed activities/uses. The proposed development aligns with the following Sections of the City of Brampton's Official Plan:

- 1.1 Purpose of the Official Plan
- 2.1 Physical and Environmental Considerations
- 2.2 Social and Cultural Considerations
- 2.4 The Strategic Plan: Six Pillars Supporting Our Great City
- 2.5 Policies of Other Levels of Government
- 3. Sustainable City Concept
- 4.1 Central Area
- 4.2 Residential
- 4.5 Transportation
- 4.6 Natural Heritage and Environmental Management
- 4.8 Infrastructure and Utilities

The proposed development fosters the policies in the aforementioned Sections of the City of Brampton's Official Plan by:

- Offering a development that meets the current and future needs of residents through appropriate growth management
- Directing development away from environmental features and functions and aiming to make efficient of water systems
- Diversifying and adding to the existing housing stock
- Increasing potential participation/ridership on the City's existing transportation network including active transportation

- Achieving the objectives of Provincial and Regional direction for how and where growth is meant to occur and in what form
- Encouraging development that respects the City's resources, natural systems and growth management
- Adding to the existing complement of healthy community development
- Increasing density and compatible land uses within the Central Area
- Promoting appropriately scaled residential growth
- Providing the opportunity for better utilization of the City's active transportation network
- Making more efficient use of existing and planned for infrastructure and utilities
- Complying with the requirements for Consent including, but not limited to, being serviced by public water and sanitary sewers

The proposed development represents good planning in accordance with the policies of City of Brampton's Official Plan.

4.6 City of Brampton Zoning By-law (204-2010) and (253-2021)

The purpose of the Zoning By-law is to implement the policies and objectives of the Official Plan, by regulating the use of land, buildings, and structures. The subject lands are currently zoned "Residential Single Detached B (R1B)" The R1B Zone allows for the following uses:

- a) Residential
 - a. A single detached dwelling
 - b. Supportive Housing Residence Type 1
- b) Non-Residential
 - a. A place of worship
 - b. Purposes accessory to the other permitted purposes

The proposed development for the creation of an additional R1B lot on the subject parcel therefore aligns with the permitted uses in the applicable zone. Two standards for the proposed development do not conform with the R1B Zone, whereas relief of the minimum lot area and minimum lot width are being sought through this proposal, however relief in this regard overall is minor in nature. The proposed development and any future development following the pending decision of the Consent, are expected to align with the majority of the standards in the R1B zone including:

- Minimum Lot Depth
- Minimum Front Yard Depth
- Minimum Interior Side Yard Width
- Minimum Read Yard Depth
- Maximum Building Height
- Minimum Landscaped Open Space

Overall, the subject proposal aligns well with the City of Brampton's Zoning By-laws (204-2010) and (253-2021) and therefore represents good planning.

4.7 Four Tests of a Minor Variance

When evaluating the merits of a Minor Variance application, the *Planning Act*, under Section 45 establishes Four Tests that are required to be satisfied, which are:

- 1- Does the proposal meet the intent of the Zoning By-law;
- 2- Does the proposal meet the intent of the Official Plan
- 3- Is the proposal desirable
- 4- Is the proposal, in fact, minor in nature.

Test #1 - Does the proposal meet the intent of the Zoning By-law

In review of the Four Fests, the requested relief from the minimum lot area and minimum lot frontage would meet the intent of the Zoning By-law. The subject lands are currently zoned 'Residential Single Detached B-R1B Zone' where single-detached dwellings are permitted. It is anticipated that future development on the subject lands would result in the creation of a single-detached structure on each lot. The proposed lot areas and frontages closely align with other frontages in the immediate and surrounding area with the same R1B zoning. These standards require very minor relief in accordance with the proposed development. As noted in Section 4.6 of this Report, the vast majority of the standards for the R1B zone have been respected by the subject proposal and demonstrate good planning in accordance with the City of Brampton's Zoning.

Below is a Table that demonstrates the relief that is required for the subject development:

Table 1: Minor Variance Requested Relief in Accordance with the R1B Zone

Standard	R1B	Required	Relief
Minimum Lot Size	450	438.3	11.7
(m²)			
Minimum Lot	15	9.1	5.9
Frontage (m)			

Test #2 – Does the proposal meet the intent of the Official Plan

The development proposal would meet the intent of the Official Plan, as outlined earlier in this report. The proposed development provides an opportunity for residential intensification which is compatible with the existing area; is located in an area on full municipal services and in proximity to transit services; provides adequate off-street parking; and is appropriate in terms of scale and massing.

Test #3 – Is the proposal desirable

The proposal is desirable, as it provides an attainable housing option in a currently under-supplied market, in a stable, residential neighbourhood. The proposal would also contribute to the development of a healthy, attractive, complete and sustainable community and offers a higher and better use of fully serviced lands in the Urban Area. The proposed lot fabric is similar to that on adjacent streets such as Market Street where urban residential uses are within close proximity. Having nominally smaller lot frontages and areas in order to accommodate a larger-scale public benefit, like additional housing, represents good planning. The greater public good is being achieved through the creation of additional housing and better utilization of existing municipal infrastructure and services on the subject lot. The proposal's strategic design will enhance the neighbourhood, without impacting its character or streetscape.

Test #4 – Is the proposal minor in nature

Finally, the impact of the variances from the Zoning By-law requirements would be considered to be minor as they are within the general requirements of the Residential Zones and the single detached residential use proposed is permitted as of right in this zone category. The proposed development only requests 11.7 square metres relief for the minimum lot size of 450 square metres and 5.9 metres relief for the minimum lot frontage of the required 15 metres; therefore, the relief being sought is minor in nature.

Overall, the proposed development meets the Four Tests of a Minor Variance as it aligns with:

- 1- The intent of the Zoning By-law
- 2- The intent of the Official Plan
- 3- Being desirable for the subject lands and the neighbourhood; and
- 4- Being minor in nature

Therefore, in accordance with Section 45 of the *Planning Act*, the proposed development represents good planning.

5.0 Conclusion

The subject lands are located at 43 David Street, Brampton, and are legally described as Lot 24, Plan BR-32, Part2, Plan 43R-9448. The lands are located within the Urban Growth Centre, where growth and development are meant to occur. Applications for Consent (Severance) and Minor Variance are being made to facilitate the development for one new Singe Detached residential lot on the subject lands.

In order to develop a professional opinion regarding the consistency and conformity of the proposed development and to determine if the proposal represents good planning, a review of all relevant planning policy documents was undertaken in this report, including the *Planning Act*, the Provincial Policy Statement (2020), A Place to Grow (2020), the Region of Peel's Official Plan (2021), the City of Brampton Official Plan (2020), the City of Brampton Zoning By-laws (204-2010) and (253-2021) and the Four Tests of a Minor Variance in accordance with Section 45 of the *Planning Act*.

The proposed development of an under-utilized residential property within an urban area offers a higher and better use of the subject property. It also offers an opportunity to intensify the land uses within the neighbourhood, while respecting its existing character, which aligns with the Provincial Policy Statement. The proposed development conforms to the intent of the Regional and City Official Plans for the development of Urban Growth Centres. The proposed development also conforms to the City's Zoning By-laws (204-2021) and (253-2021). The proposed development will be designed to be compatible with the adjacent properties and will make efficient use of existing municipal water and sewer services.

Through this analysis it has been determined that:

- The proposed development is appropriate within the Urban Growth Centre as these boundaries are where growth and development are meant to occur;
- The subject lands are and will be serviced by transit, full municipal water and sewer services and regional waste collection services; and
- iii. The proposed development is in character with and compatible to the surrounding area.

Based on the detailed analysis contained within this report, it is my professional opinion that the proposed development:

- has regard to matters of provincial interest as detailed in Section 2 of the *Planning Act*,
 R.S.O., 1990, as amended;
- ii. is consistent with the Provincial Policy Statement (2020);
- iii. conforms to the Provincial Growth Plan, A Place to Grow (2020);
- iv. conforms to the Region of Peel's Official Plan (2021);
- v. conforms to the City of Brampton's Official Plan (2020)
- vi. conforms to the City of Brampton's Zoning By-laws (204-2021) and (253-2021)
- vii. meets the Four Tests of a Minor Variance in accordance with Section 45 of the *Planning Act* R.S.O., 1990, as amended; and
- viii. has substantial merit, is within the best interest of the public and represents good planning

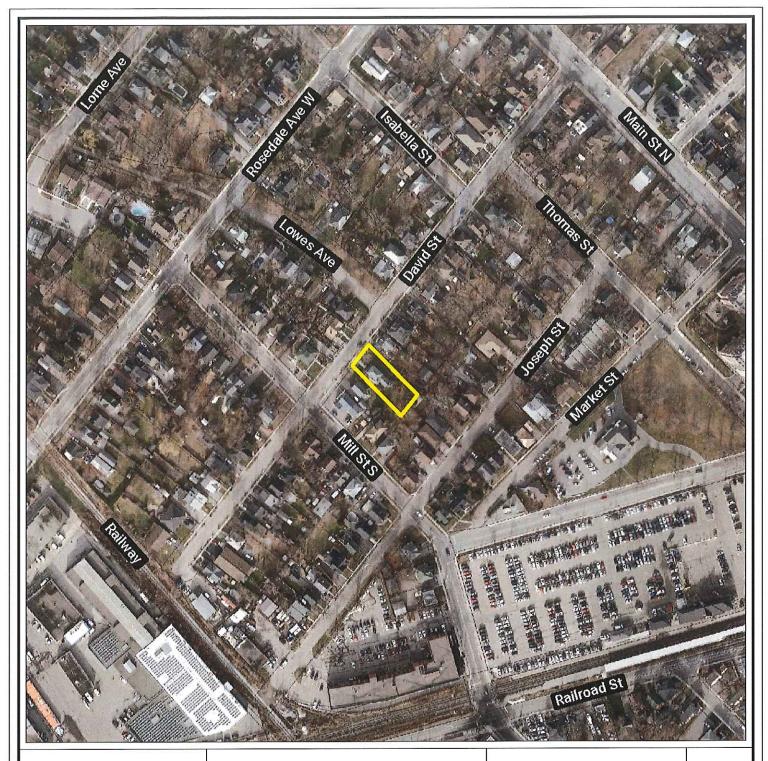

Respectfully submitted,

City of Brampton, Regional Municipality of Peel

Glen Schnarr & Associates Inc. (GSAI) would like to formally submit this amendment to our previous Consent and Minor Variance applications to the Committee of Adjustment with regard to the lands municipally addressed as 9224 Creditview Road (hereafter the 'Subject Property') on behalf of our client, 13172589 Canada Inc. (c/o Tejinder Singh). Our applications have been deferred by the Committee of Adjustment during the October 25th, 2022 hearing, to the December 6th, 2022 hearing.

Our original Consent sketch for application B-2022-0013 has been amended to remove the buffer block located at the southeast corner of the Subject Property from the Consent Sketch. This decision was concluded based on a conversation with Francois Hemon-Morneau from Development Services regarding concerns related to the daylight triangle, road widening, and noise barriers within the proposed Buffer Block. We will address these issues through the Draft Plan of Subdivision and Zoning By-law Amendment Application currently being processed by the City under the City File Number OZS-2022-0013.

Amendments to our Minor Variance application (A-2022-0319), also deferred during the October 25th hearing, are required due to changes in the corresponding consent application noted above.

The minor variances sought for the severed lot are now as follows:

10 Kingsbridge Garden Circle, Suite 700, Mississauga, ON LSR 3K6 • Tel. 905-568-8888 • www.gsai.ca

- 1. (REVISED) To permit a minimum lot width of 20.3 metres (measured at 6 metres back from front lot line), whereas the by-law requires a minimum lot width of 45.0 metres;
- 2. (REVISED) To permit a minimum front yard depth of 4.50 metres, whereas the by-law requires a minimum front yard depth of 12.0 metres;
- 3. (UNCHANGED) To permit a minimum side yard depth of 2.0 metres, whereas the by-law requires a minimum side yard depth of 7.5 metres;
- 4. (REVISED) To permit a minimum rear yard depth of 7.5 metres whereas the by-law requires a minimum rear yard depth of 15.0 metres. Please note this variance has been revised to be consistent with the proposed zoning on the balance of the Draft Plan; and,
- 5. (REVISED) To permit a minimum lot area of 0.07 hectares whereas the by-law requires a minimum lot area of 0.40 hectares.

Please find attached the following documents in support of our amended applications:

- Revised Consent application forms (pages 2 and 3 revised) dated October 26, 2022;
- Revised Consent Sketch prepared by Glen Schnarr & Associates Inc., dated October 31, 2022;

- Revised Lot 1 Citing Plan prepared by Glen Schnarr & Associates Inc., dated October 31, 2022;

Glen Schnarr & Associates Inc. (GSAI) would like to formally submit this amendment to our previous consent to sever application to the Committee of Adjustment with regard to the lands municipally addressed as 9224 Creditview Road (hereafter the 'Subject Property') on behalf of our client, 13172589 Canada Inc. (c/o Tejinder Singh). Our application has been deferred by the Committee of Adjustment on the October 25th, 2022, Hearing to the December 6th, 2022, Hearing.

Amendments to our original consent application include removing the Buffer Block located at the southeast corner of the Subject Property from the Consent Sketch. This decision was concluded based on a conversation with Francois Hemon-Morneau from Development Services regarding concerns related to the daylight triangle, road widening, and noise barriers within the proposed Buffer Block. We will address these issues through the Draft Plan of Subdivision and Zoning Bylaw Amendment Application currently being processed by the City under the City File Number OZS-2022-0013.

10 Kingsbridge Garden Circle, Suite 700, Mississauga, ON L5R 3K6 • Tel. 905-568-8888 • www.gsai.ca

We trust that this letter is sufficient in satisfying the approval of the amendment to our application. Please do not hesitate to contact the undersigned at 416-459-2424 or colinc@gsai.ca if you have any questions.

OZS-2022-0013

City of Brampton, Regional Municipality of Peel

Glen Schnarr & Associates Inc. (GSAI) is pleased to submit this Consent to Sever and Minor Variance Applications with regard the lands municipally addressed as 9224 Creditview Road (herein referred to as the "Subject Land") on behalf of our client, 13172589 Canada Inc. (c/o Tejinder Singh) (herein referred to as the "Owner").

The Subject Land is bound by Creditview Road to the east, Innismore Road to south, existing residential to the west and north. The Subject Land is approximately 0.7 hectares (1.74 acres) in size with a frontage of 62.93 metres (206 feet) along Creditview Road and a frontage of 111.99 metres (367 feet) along Innismoor Road. The Subject Land has an existing two-storey house and are legal described is as follows:

PT LT 7 CON 4 WHS CHINGUACOUSY DES PT 4 PL 43R-30530; BRAMPTON.

10 Kingsbridge Garden Circle Suite 700 Mississauga, Ontario L5R 3K6 Tel (905) 568-8888 Fax (905) 568-8894 www.gsgi.cg

Background

The Subject Land is one of two properties that is subject to Draft Plan of Subdivision and Zoning By-Law Amendment under the *City File Number: OZS-2022-*0013 being processed by the City to facilitate the creation of twenty-three (23) new single detached residential dwellings (herein referred to as the "Proposed Development").

The Proposed Development is intended to develop the Subject Land and the lot to the north of the Subject Land (9230 Creditview Road) by ultimately demolishing the two (2) existing residential dwellings and constructing twenty-three (23) new residential dwellings as shown in the Draft Plan of Subdivision included with this application. The Subject Land is one of four (4) single detached dwelling lots proposed along Innismoor Road and is labelled as 'Lot 1' on the attached Draft Plan of Subdivision.

We have been diligently working with City staff to advance the Draft Plan of Subdivision and Zoning By-law applications and these applications are at the stage of resolving all technical and planning issues. We anticipate Draft Plan approval and Zoning By-law enactment in early 2023 with the registration of the subdivision in 2024.

While the typical process for the creation of these single detached dwelling lots is through the registration of the subdivision, the two owners who are together advancing the Draft Plan of Subdivision have a private agreement and our client (Tejinder Singh) is obligated to deliver Lot 1 to enable the owner of 9224 Creditview Road to vacate his current home on the Subject Land and to build a new home by May 24, 2023. The purpose of this private agreement is to enable the current house on 9224 Creditview Road to be demolished to facilitate the subdivision development without the hardship of the owner on 9224 Creditview Road to vacate and move elsewhere temporarily. By allowing Lot 1 to be created and the new house to be built, the owner of 9224 Creditview Road can build his new home and move into Lot 1 while the rest of the subdivision is graded, serviced and houses constructed.

It is unrealistic to create Lot 1 through the Draft Plan of Subdivision registration since even after Draft Plan Approval, at least 12-18 months is needed to clear the necessary conditions of Draft Plan Approval to register Lot 1.

As such, we are pursuing the Consent to Sever and Minor Variance Applications to facilitate the creation of 'Lot 1' by May 2023. This strategy for creating 'Lot 1' through a consent application has been discussed through various email and phone communications as well as one meeting with the relevant City Planning staff.

Planning Approvals

A Draft Plan of Subdivision and Zoning By-law Amendment application has previously been submitted on January 27, 2022 with a complete resubmission submitted in September 2022. Based on the initial circulation comments from the City and agencies, Lot 1 to be created through the Draft Plan of Subdivision process is identical to Lot 1 proposed to be created through the Consent Application process.

The Proposed Development will continue to go through the Zoning By-law Amendment and Draft Plan of Subdivision process for the creation of the remaining proposed twenty-two (22) single detached residential dwelling lots. The lands to be severed will consist of 0.07 hectares (0.17 acres) while the lands to be retained will consist of 0.63 hectares (1.57 acres). Attached for reference is an excerpt of the lot dimensions and potential setbacks that will meet the proposed Zoning By-law for the Draft Plan of Subdivision proposal.

Submission Deliverables

In support of the Consent application, please find enclosed the following:

- One (1) copy of the Draft Plan of Subdivision prepared by Glen Schnarr and Associates Inc., dated September 2022;
- One (1) copy of the Lot 1 house citing concept prepared by Glen Schnarr and Associates Inc., dated September 2022;
- One (1) copy of the City of Brampton Consent to Sever and Minor Variance Application Forms; and
- One (1) copy of a Consent Sketch, prepared by Glen Schnarr and Associates Inc., dated September 20th, 2022.

We trust that the enclosed material is sufficient in satisfying the requirements for an application for Consent. Please do not hesitate to contact the undersigned at 416-459-2424 or colinc@gsai.ca if you have any questions related to the request.

Yours very truly,

Minor Variance Application 2418851 Ontario Ltd

159 Rutherford Road South Part of Lot 3, Concession 2 EHS

City of Brampton, Ontario

Glen Schnarr & Associates Inc. (GSAI) is pleased to submit this Application for a Minor Variance on behalf of our client 2418851 Ontario Ltd, owner of the property municipally addressed as 159 Rutherford Road South. The subject property is legally described as Part lot 3, Concession 2 EHS and is located on the northwest corner of Rutherford Road and Stafford Drive.

The subject property has a lot area of approximately 0.70 ha (1.73 ac), with a lot frontage of approximately 50 metres on Rutherford Road South and a lot depth of approximately 94 metres. The property is designated "Industrial" in the City of Brampton Official Plan (Schedule A - General Land Use Designations) and zoned Industrial 2 (M2) under City of Brampton Zoning by-law 270-2004. The subject property is currently occupied by a single two-storey building.

The two-storey building is currently occupied by Aviron Law, Brampton Kitchen and Cabinets Ltd and Ali Baba Motors, respectively. Brampton Kitchen and Cabinets Ltd (identified as "Brampton Kitchen and Cabinets Ltd." on the Minor Variance sketch) is a use permitted as of right under the Industrial 2 (M2) zone, whereas the Ali Baba's Motors (identified as "Existing Automotive Use" on the Minor Variance sketch) was permitted through Minor Variance Application A10-180. The subject of this Minor Variance Application is the existing "Aviron Law Office Use" as identified on the Minor Variance sketch provided.

We confirm for staff that Aviron Law Office had been previously granted a conditional approval to permit the use under minor variance A-2020-0044, approved in August of 2020. One of the conditions of the approval was that the Law Office Use occupy a maximum Gross

10 Kingsbridge Garden Circle, Suite 700, Mississauga, ON L5R 3K6 • Tel. 905-568-8888 • www.gsai.ca

Floor Area of 77 square metres. While the owner did begin the process to satisfy the conditions of approval stipulated under the previous application, the owner has since chosen to pursue an additional expansion to the Law Office Use. As such, the purpose of the application before staff today is to request a permission for a further enlargement or expansion, of the law office use, beyond that which was permitted under the original application (City File No. A-2020-0044). This would effectively render the previous approval for the smaller Law Office Use as null and void and put into place a new approval for a Law Office Use occupying a greater GFA than that which was previously approved. We would be agreeable to those same conditions imposed through the original approval, to carry over as conditions of approval for the application before staff today.

To summarize, in order to permit for the Law Office Use, our client will require relief from the relevant zoning law requirements for the Industrial 2 (M2) zone as outlined under the City of Brampton Zoning by-law 270-2004. The requested variance is as follows:

Relief from the City of Brampton Zoning by-law 270-2004 to permit for an Office use on the subject site, whereas the Industrial 2 (M2) zone does not permit for an Office use on site that is not accessory to a permitted use.

For complete clarity, our client is seeking permission for a Law Office use of approximately 130 square metres (whereas 77 square metres was previously approved under file No. A-2020-0044), as shown on the attached Minor Variance Sketch submitted in support of this application.

As a part of this application, and for staff information, GSAI has conducted a review of the parking requirements for the Brampton Kitchen and Cabinets Ltd, defined in the Zoning Bylaw as: Industrial-Manufacturing, Cleaning, Packaging, Processing, Repairing, Assembling or Printing, as well as the Aviron Law (defined in the Zoning By-law as Other Office use).

The required parking ratios are as follows:

Brampton Kitchen and Cabinets Ltd: a. If the associated office, retail, and educational gross floor

areas are 15% or less of the total gross floor area: Up to 5,000 square metres: 1 parking space per 60 square metres

gross floor area or portion thereof

Aviron Law:

Other office: 1 parking space for each 25 square metres of gross commercial floor area or portion thereof

Based on the Gross Floor Area definition as outlined under the City of Brampton Zoning Bylaw 270-2004, the Gross Floor Area for each use is as follows:

USE	GFA	PARKING REQUIRED	PARKING PROVIDED
Brampton Kitchen	$2,314 \text{ m}^2$	41	41
Aviron Law	214m ²	9	9
	•	50	50

Based on the above, the subject site provides sufficient parking in order to accommodate for both uses currently on site per the requirements of City of Brampton Zoning by-law 270 - 2004.

We wish to note for staff that the existing automotive use was not considered as part of this application beyond its delineation on the Minor Variance sketch. As shown on the Minor Variance sketch, the automotive use operating area is restricted by an existing chain link fence where it interfaces with the Brampton Kitchen & Cabinets Ltd./Aviron Law Office Use parking lot. This chain link fence prohibits use by employees /customers of the Brampton Kitchen & Cabinets Ltd./Aviron Law Office Use. On this basis, the existing automotive use was found not necessary or relevant to this application.

We have reviewed relevant Official Plan policies and Zoning By-law provisions in the context of the prescribed criteria to authorize a minor variance under Section 45(1) of the Planning Act and we are of the opinion that the variance, in this case, is minor in nature, is desirable for the development of the property and maintains the general intent of both the relevant Official Plan and Zoning By-law.

Supporting Information

The following are enclosed in support of this application:

- One (1) cheque in the amount of \$2,662.00 made payable to the "City of Brampton" in payment of the Minor Variance Applications fee;
- One (1) completed Application for Minor Variance; and,
- One (1) sketch prepared by Glen Schnarr & Associates Inc. dated October 7, 2022.

We trust this information is sufficient for the submission of the Application for Minor Variance and look forward to appearing before the Committee of Adjustment on the first available meeting agenda. Please do not he sitate to contact us if you have any questions or require any additional information.

Yours very truly,

GLEN SCHNARR & ASSOCIATES INC.

Appendix 1 includes aerial photography of the subject site.

Overview of the Proposal

CanSTEM operates a Commercial, Technical or Recreation School from Unit 10 – Plaza 1 which provides private tutoring, computer and language services for students at elementary, secondary, college and university levels. In addition it operates a small Private School featuring both in-person and on-line instruction. The Private School, which is registered with the Ministry of Education and limited to forty (40) in-person students, provides education to students enrolled between Grades 1 through 12.

Appendix 2 includes a Site Plan (A01) and Existing Floor Plan (A02) prepared by Technoarch Inc.

The subject site's zoning does not permit a Private School use. On April 22, 2021 a Pre-Application Consultation Request seeking the City's preliminary comments, observations and recommendations was filed (City File: PRE-2021-0080). A meeting was held by the City Planning & Development Services Department on May 26, 2021 and thereafter a consolidated report inclusive of comments from City Departments/Divisions was issued. It was determined that a Committee of Adjustment Minor Variance was most appropriate planning approvals process to legalize the Private School in conjunction with the Commercial, Technical or Recreation School.

Minor Variance Application

GWD is pleased to submit the attached Application to the Committee of Adjustment to permit the following Variance:

1. To permit a Private School in Unit 10 – Plaza 1 whereas the By-law does not permit a Private School.

In support of the Application, we submit the following:

- · Completed Application Form;
- · Covering Letter;
- Variance Plan (8½"x14") highlighting the requested Variance;
- Transportation Impact and Parking Brief; and
- One (1) cheque in the amount of \$2,662.00 payable to the "City of Brampton".

The Four Tests

Pursuant to Section 45(1) of the *Planning Act*, a Minor Variance Application must satisfy all 'Four Tests' as follows:

- 1. Does the Variance conform to the intent of the Official Plan?
- 2. Does the Variance conform to the intent of the Zoning By-law?
- 3. Is the proposal desirable for the appropriate development or use of the lands?
- 4. Is the proposal minor in nature?

Gagnon Walker Domes Ltd.

Test 1 – Does the Minor Variance Conform to the Intent of the Official Plan?

The subject site is designated '<u>Business Corridor</u>' in the City of Brampton Official Plan. This designation permits a broad range of business, service, and institutional uses to serve the general public and adjacent employment areas (Official Plan – Section 4.4.1).

The subject site is designated '<u>Service Commercial</u>' and '<u>General Employment Two</u>' in the Highway 410 and Steeles Secondary Plan (Area 5). The General Employment Two designation applies to the northeast limits of the subject site used as a vehicular parking area. The Service Commercial designation applies to the southern half of the subject site coinciding with the two (2) buildings and its abutting parking areas.

The Service Commercial designation permits service commercial uses comprising of small-scale retail and convenience stores, service uses, restaurants, recreation facilities, and small offices (Secondary Plan – Section 1.2.1). While the Private School use is not permitted outright, City Staff indicated during the Pre-Application Consultation process that a Municipal Comprehensive Review (MCR) is not required as the designation is a non-employment category.

The subject site is predominately utilized for office uses along with seven (7) Commercial/Technical Schools. The Private School is similar to the aforementioned schools and is compatible with the office uses.

The requested Variance is considered to conform to the general intent of the City Official Plan and Secondary Plan.

Test 2 – Does the Minor Variance Conform to the Intent of the Zoning By-Law?

Zoning By-law 270-2004 zones the subject site 'Service Commercial – Special Section 3098 (SC-3098)' and 'Industrial Two (M2)'. The M2 Zone applies to the northeast limits of the subject site whereas the SC-3098 Zone applies to the southern half.

The SC-3098 permits a range of uses; including, but not limited to:

- 1. Office Uses (excluding medical);
- 2. Commercial, Technical or Recreation Schools;
- 3. Retail Establishment (having no outside storage);
- 4. Bank, Trust and Finance Company; and
- 5. Health or Fitness Centre.

SC-3098 includes several restrictions and minimum requirements related to structural setbacks, parking, building height, lot coverage, gross leasable floor area, and landscaped open space.

Variance #1 - Private School

CanSTEM is desirous of allowing a Private School whereas the By-law does not permit the use. The request is specific to Unit 10 – 'Plaza 1' having a total area of approximately 346m² (3,724ft²).

The intent of restricting institutional uses is to protect against conflicting land uses. Institutional uses typically operate under specific hours and restrictions, and have their own set of safety and regulatory concerns. Commercial uses can offer a very broad list of services, and typically generate several trips to the site from vehicles and oversized deliveries. Commercial uses also do not have permissions for outdoor amenity areas and are open to the public.

According to Zoning By-law 270-2004, a Private School provides the same services as a Public School, whereas, a Commercial, Technical or Recreational School provides training in trades skill, languages skills, etc. To allow a Private School use will not be a significant departure from the By-law's permissions for a Commercial, Technical or Recreational School given their similar operations in a classroom-style setting. The Private School is not anticipated to adversely impact the subject site and should not pose any incompatibility concerns. Lease restrictions with the Registered Owner do not allow for the provision for an outdoor recreation area.

At present the subject site consists of 385 parking spaces which are accessed by driveways fronting onto Rutherford Road and Bramsteele Road. The general intent and purpose of the Zoning By-law in regulating the minimum number of parking spaces is to ensure that the parking provided on a site can accommodate the demand generated by the existing and future uses on the site..

For Private Schools that are located within commercial plazas utilization of the existing parking spaces is a common arrangement. A Traffic Impact and Parking Brief, which is to be read in conjunction with this letter, was commissioned by a qualified transportation consultant in support of the Variance (**Appendix 3**). The Brief concluded that CanSTEM's Private School will have a negligible impact on the area road network and the 385 parking spaces are sufficient to accommodate the needs of all uses combined on site.

The Variance is considered to conform to the general intent of Zoning By-law No. 270-2004.

Test #3 – Is the Minor Variance Desirable and Appropriate for the Area?

The subject site is located on the periphery of the greater Employment Area with commercial uses to the west and south. Permitting the Private School in conjunction with Commercial, Technical or Recreation School is not anticipated to adversely affect the existing uses operating on site or on neighbouring properties nor will it jeopardize the character or function of the surrounding area. CanSTEM does not propose to renovate the interior or exterior of the building or site.

The Variance is considered desirable and appropriate for the area.

Gagnon Walker Domes Ltd.

Test #4 - Is the Minor Variance Minor in Nature?

The Variance does not pose a departure from the intended or historical use of the lands. CanSTEM's schools are complimentary to one another will not interfere with the daily operations of other uses on-site. No building alterations, expansions, or additional accessory structures are proposed. No significant on-site or off-site impacts are anticipated.

The requested Variance is considered to be minor in nature.

Conclusions

The requested Variance has been reviewed in the context of the relevant provisions of the *Planning Act*. We are of the opinion that the Variance satisfies the four (4) tests and can be supported from a land use and policy perspective and represent good planning. We respectfully request that it be approved by the Committee of Adjustment.

Proposed Private School Redevelopment

Our Project No. NT-21-336

1.0 INTRODUCTION

Nextrans Consulting Engineers (A Division of NextEng Consulting Group Inc.) was retained by CanSTEM Education Private School Inc. (the Client) to prepare a Traffic Brief in support of a Minor Variance application for a proposed private school use within Unit 10 of 350 Rutherford Road South. The subject property is located northeast of the intersection of Steeles Avenue East and First Gulf Boulevard/Rutherford Road South municipally addressed as 350 Rutherford Road South, in the City of Brampton.

The location of the proposed development is illustrated in ${\bf Figure~1-1}.$

TRAFFIC & TRANSPORTATION | ROADS AND HIGHWAYS | URBAN DEVELOPMENT | ENVIRONMENTAL

The subject site is currently occupied by two (2) buildings, a single storey commercial building and an existing three (3)-storey office building. Based on the preliminary site plan prepared by Technoarch dated July 28, 2020, the development proposal is to develop Unit 10 of the commercial building into a private school, with Unit 10 having a gross commercial floor area (GFA) of 346 m² (3,724 ft²). A total of 385 parking spaces are located on the subject site to serve the existing buildings. Vehicular access to the site is proposed via a full movement entrance onto Rutherford Road South and via a full movement entrance onto Bramsteele Road.

The proposed site plan is provided in Figure 1-2, and Appendix A provides the site plan in full detail.

2.0 EXISTING CONDITIONS

2.1 Existing Road Network

As previously indicated, the proposed development is located northeast of the intersection of Steeles Avenue East and First Gulf Boulevard/Rutherford Road South, in the City of Brampton. The existing road network, lane configuration and existing traffic control for the study are illustrated in **Figure 2-1** and detailed below:

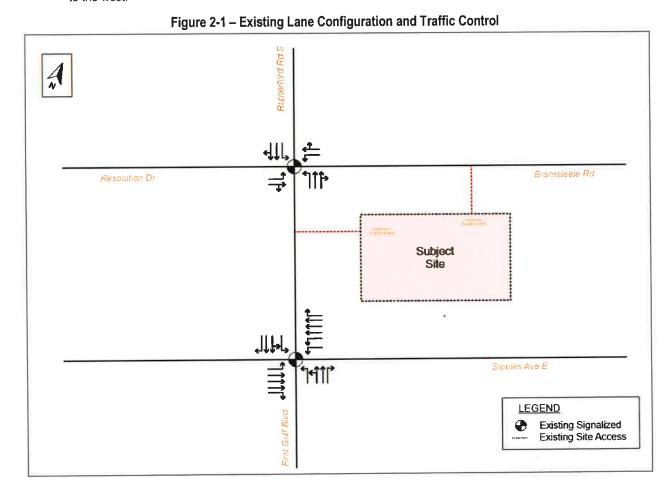

• Rutherford Road South / First Gulf Boulevard is a generally north-south minor arterial road consisting of a five (5) lane cross-section (two (2) travel lanes per direction and one (1) center left turn lane), north of Steeles Avenue East and a four (4) lane cross-section (two (2) travel lanes per direction), south of Steeles Avenue East and

- maintains a posted speed limit of 60 km/h near the subject site. Within the City, Rutherford Road South/First Gulf Boulevard run to and from Kennedy Road.
- Steeles Avenue East is an east-west major arterial road consisting of an existing six (6) lane cross-section (three (3) travel lanes per direction) and maintains a posted speed limit of 70 km/h near the subject site. Within the City, Steeles Avenue runs from City limits to the west and from City limits to the east.
- **Resolution Drive** is a generally east-west local road consisting of an existing two (2) lane cross-section (one (1) travel lane per direction) and maintains an assumed and unposted speed limit of 50 km/h near the subject site. Within the City, Resolution Drive runs from Steeles Avenue East to the southwest and to Rutherford Road South to the northeast.
- Bramsteele Road is a generally east-west local road consisting of an existing two (2) lane cross-section (one (1) travel lane per direction) and maintains an assumed and unposted speed limit of 50 km/h near the subject site. Within the City, Resolution Drive converges into Heart Lake Road South to the east and to Rutherford Road South to the west.

Sidewalks

Currently, concrete sidewalks available as follows:

- On both sides of First Gulf Boulevard;
- On both sides of Steeles Avenue East, west of Rutherford Road South;
- On the north side of Steeles Avenue East, east of Rutherford Road South;
- On both sides of Rutherford Road South;
- On the south side of Resolution Drive; and
- On the north side of Bramsteele Road.

Sidewalks are adequately maintained, and no improvements are required at this time.

Cycling

There are currently no dedicated cycling facilities within the immediate area of the subject site.

3.0 SITE TRAFFIC

3.2 Site Trip Generation

Trip rates and site generated trips were derived from the information contained in the Trip Generation Manual, 10th edition, published by the Institute of Transportation Engineers (ITE) for "Private School" (LUC 532). The trip generation summary is shown in **Table 3.2**.

Table 3.2 – Site Traffic Trip Generation

17F1 441-	Downwater	Morr	ing Peak	Hour	Afternoon Peak Hour			
ITE Land Use	Parameter	In	Out	Total	In	Out	Total	
Private School (LUC 532)	Gross New Trips	20	12	32	8	12	20	
	Gross Rate	0.50	0.30	0.80	0.20	0.29	0.49	
·	Net New Trips	20	12	32	8	12	20	

The proposed development is expected to generate 32 new auto trips (20 inbound and 12 outbound) during the AM peak period, and 20 new auto trips (eight (8) inbound and 12 outbound) during the PM peak period. Based on the expected number of trips that the proposed development is expected to generate, it is our opinion that the proposed development will have a negligible impact on the adjacent road network.

In accordance with by-law 270-2004, the subject site requires 24 vehicular parking spaces for the proposed private school and 293 vehicular parking spaces for all uses on-site, including the proposed private school. In comparing the parking requirement for all uses on-site with the current existing supply of 385 vehicular parking spaces, there is a surplus of 92 parking spaces. Thus, the proposed parking supply can adequately accommodate the parking demands of all uses on-site.

5.0 CONCLUSION

The findings and conclusions of this analysis are as follows:

- The subject site is currently occupied by two (2) buildings, a single storey commercial building and an existing three (3)-storey office building. Based on the preliminary site plan prepared by Technoarch dated July 28, 2020, the development proposal is to develop Unit 10 of the commercial building into a private school, with Unit 10 having a gross commercial floor area (GFA) of 346 m² (3,724 ft²). A total of 385 parking spaces are located on the subject site to serve the existing buildings. Vehicular access to the site is proposed via a full movement entrance onto Rutherford Road South and via a full movement entrance onto Bramsteele Road.
- The proposed development is expected to generate 32 new auto trips (20 inbound and 12 outbound) during the AM peak period, and 20 new auto trips (eight (8) inbound and 12 outbound) during the PM peak period. Based on the expected number of trips that the proposed development is expected to generate, it is our opinion that the proposed development will have a negligible impact on the adjacent road network.

Under the authority of the Emergency *Management and Civil Protection Act* and the *Municipal Act, 2001*, City Council approved Committee Meetings to be held electronically and/or as a hybrid meeting (both inperson and electronically).

Electronic/Hybrid Hearing Procedures How to get involved in the Hybrid Hearing

In-person attendance at Committee of Adjustment Hearings is now available at this time, along with a virtual participation option. Brampton City Council and its Committees will continue to meet electronically and in-person. For the **December 6, 2022** hearing, the Committee of Adjustment will conduct its meeting with concurrent electronic and in-person attendance.

How to Participate in the Hearing:

All written comments (by mail or email) must be received by the Secretary-Treasurer no later than **4:30 pm**, **Thursday**, **December 1**, **2022**.

- Advance registration for applicants, agents and other interested persons is required by one or two options:
 - Participate remotely in the electronic hearing using a computer, smartphone or tablet by emailing the Secretary-Treasurer at <u>cityclerksoffice@brampton.ca</u> or <u>jeanie.myers@brampton.ca</u> by 4:30 pm Thursday, December 1, 2022.
 - To participate in-person, please email the Secretary—Treasurer at <u>cityclerksoffice@brampton.ca</u> or <u>jeanie.myers@brampton.ca</u> by 4:30 pm Thursday, December 1, 2022.

City staff will contact you and provide you with further details.

You will be contacted by the City Clerk's Office before the hearing date to confirm your attendance. Confirmation of in-person attendance will be subject to any in-person capacity limits that may be in place for Council Chambers at City Hall and prevailing public health orders and guidance.

 All Hearings will be livestreamed on the City of Brampton YouTube account at: https://www.brampton.ca/EN/City-Hall/meetings-agendas/Pages/Welcome.aspx or http://video.isilive.ca/brampton/live.html.

If holding an electronic/hybrid rather than an oral hearing is likely to cause a party significant prejudice a written request may be made to have the Committee consider holding an oral hearing on an application at some future date. The request must include your name, address, contact information, and the reasons for prejudice and must be received no later than 4:30 pm the Friday prior to the hearing to cityclerksoffice@brampton.ca or jeanie.myers@brampton.ca. If a party does not submit a request and does not participate in the hearing, the Committee may proceed without a party's participation and the party will not be entitled to any further notice regarding the proceeding.

- Advance registration for applicants, agents and other interested persons is required by one or two options:
 - Participate remotely in the electronic hearing using a computer, smartphone or tablet by emailing the Secretary-Treasurer at <u>cityclerksoffice@brampton.ca</u> or <u>jeanie.myers@brampton.ca</u> by 4:30 pm Thursday, December 1, 2022.
 - To participate in-person, please email the Secretary-Treasurer at <u>cityclerksoffice@brampton.ca</u> or <u>jeanie.myers@brampton.ca</u> by 4:30 pm Thursday, December 1, 2022.

 the application you wish to speak to by Thursday, December 1, 2022. City staff will contact you and provide
 you with further details.

You will be contacted by the City Clerk's Office before the hearing date to confirm your attendance. Confirmation of in-person attendance will be subject to any in-person capacity limits that may be in place for Council Chambers at City Hall and prevailing public health orders and guidance.

All Hearings will be livestreamed on the City of Brampton YouTube account at:
 https://www.brampton.ca/EN/City-Hall/meetings-agendas/Pages/Welcome.aspx or
 http://video.isilive.ca/brampton/live.html

The request must include your name, address, contact information, and the reasons for prejudice and must be received no later than 4:30 pm the Friday prior to the hearing to cityclerksoffice@brampton.ca or jeanie.myers@brampton.ca. If a party does not submit a request and does not participate in the hearing, the Committee may proceed without a party's participation and the party will not be entitled to any further notice regarding the proceeding.

For the **December 6, 2022** hearing, the Committee of Adjustment will conduct its meeting with concurrent electronic and in-person attendance.

How to Participate in the Hearing:

All written comments (by mail or email) must be received by the Secretary-Treasurer no later than 4:30 pm, Thursday, December 1, 2022.

- Advance registration for applicants, agents and other interested persons is required by one or two options:
 - 1. Participate remotely in the electronic hearing using a computer, smartphone or tablet by emailing the Secretary–Treasurer at cityclerksoffice@brampton.ca or jeanie.myers@brampton.ca by 4:30 pm Thursday, December 1, 2022.

 you with further details.

You will be contacted by the City Clerk's Office before the hearing date to confirm your attendance. Confirmation of in-person attendance will be subject to any in-person capacity limits that may be in place for Council Chambers at City Hall and prevailing public health orders and guidance.

 All Hearings will be livestreamed on the City of Brampton YouTube account at: https://www.brampton.ca/EN/City-Hall/meetings-agendas/Pages/Welcome.aspx or http://video.isilive.ca/brampton/live.html.

The request must include your name, address, contact information, and the reasons for prejudice and must be received no later than 4:30 pm the Friday prior to the hearing to cityclerksoffice@brampton.ca or jeanie.myers@brampton.ca. If a party does not submit a request and does not participate in the hearing, the Committee may proceed without a party's participation and the party will not be entitled to any further notice regarding the proceeding.

For the **December 6, 2022** hearing, the Committee of Adjustment will conduct its meeting with concurrent electronic and in-person attendance.

How to Participate in the Hearing:

All written comments (by mail or email) must be received by the Secretary-Treasurer no later than **4:30 pm, Thursday, December 1, 2022.**

- Advance registration for applicants, agents and other interested persons is required by one or two options:
 - Participate remotely in the electronic hearing using a computer, smartphone or tablet by emailing the Secretary-Treasurer at <u>cityclerksoffice@brampton.ca</u> or <u>jeanie.myers@brampton.ca</u> by 4:30 pm Thursday, December 1, 2022.

You will be contacted by the City Clerk's Office before the hearing date to confirm your attendance. Confirmation of in-person attendance will be subject to any in-person capacity limits that may be in place for Council Chambers at City Hall and prevailing public health orders and guidance.

 All Hearings will be livestreamed on the City of Brampton YouTube account at: https://www.brampton.ca/EN/City-Hall/meetings-agendas/Pages/Welcome.aspx or http://video.isilive.ca/brampton/live.html.

The request must include your name, address, contact information, and the reasons for prejudice and must be received no later than 4:30 pm the Friday prior to the hearing to cityclerksoffice@brampton.ca or jeanie.myers@brampton.ca. RE: Request for Deferral (Committee of Adjustment)

City File No.: A-2022-0022 8940 Creditview Road

City of Brampton, Regional Municipality of Peel

Glen Schnarr & Associates Inc. (GSAI) are the authorized agents and planning consultants for Branthaven Creditview Inc., owners of the property municipally addressed as 8940 Creditview Road (herein referred to as the "subject property"). As per conversations with City Staff and understanding the published Staff Report, we receive staff's recommendation for deferral for our application for Minor Variance and respectfully request a deferral for the application which was to proceed to the Committee of Adjustment on March 8, 2022 (A-2022-0022).

This deferral will provide the opportunity for staff to review the recently submitted development proposal (OZS 2022-0014) and provide opportunity for the surrounding community to be notified. Granting the deferral request, the related development application can be reviewed in order for staff to gain a better understanding of the issues relating to the overall development of the land. This additional time will give staff an opportunity to have greater discussions with the public prior to the approval and construction of a temporary sales pavilion on the property.

We hope to be on agenda in the near future to seek a Minor Variance to permit a temporary sales office on the subject property.

Yours very truly, GLEN SCHNARR & ASSOCIATES INC.

RE:

Minor Variance Application Branthaven Creditview Inc.

8940 Creditview Road

Part Lot 5, Concession 5, WHS

City of Brampton, Regional Municipality of Peel

Glen Schnarr & Associates Inc. (GSAI) are the authorized agents and planning consultants for Branthaven Creditview Inc., owners of the property municipally addressed as 8940 Creditview Road (herein referred to as the "subject property"). As such, we are pleased to submit this application for Minor Variance to permit a temporary sales office.

Site Description

The subject property is municipally addressed as 8940 Creditview Road, located on the west side of Creditview Road, generally south of the intersection of Queen Street West and Creditview Road in the City of Brampton. The subject property is legally described as Part Lot 5, Concession 5, WHS. The subject property has a frontage of approximately 49.79m (163.18ft) along Creditview Road, a depth of 89.21m (292.68ft) and a total site area of approximately 3.49ha (8.62ac).

The subject property is designated 'Residential' in the City of Brampton Official Plan and Executive Residential' in Credit Valley Secondary Plan (SPA45). Additionally, the subject property is zoned 'Agricultural (A)' in the City of Brampton Zoning Bylaw (270-2004) and is currently occupied by eight freestanding structures: a residential dwelling, a small timber frame barn, a large timber frame barn with a cement silo, a concrete block milk house, a modern fabric Quonset hut, two (2) horse stables, and a modular home.

10 Kingsbridge Garden Circle Suite 700 Mississauga, Ontario L5R 3K6 Tel (905) 568-8888 Fax (905) 568-8894 www.gsgi.cg

We note for staff that there is a recently submitted Draft Plan of Subdivision and Official Plan and Zoning By-law Amendment Application (PRE-2021-0055) application which proposes the redevelopment of the subject property. Under this application, the applicant is proposing to redevelop the subject property with sixty-two (62) lots comprised of single detached residential dwellings. Three (3) of the proposed lots will front onto Creditview Road and the remaining fifty-nine (59) lots are proposed along the internal road network, fronting along the extension of Classic Drive as well as the proposed street, Street 'A'. The Official Plan and Zoning By-law Amendment propose to redesignate the lands as 'Low Density 2' in the Credit Valley Secondary Plan and rezone the lands 'Residential Single Detached F - 11.6 - Special Exception (R1F-XX)'. The application is currently undergoing a completeness review and we anticipate it will be presented at a public meeting in short order.

The Proposed Development

Branthaven Creditview Inc. is proposing to develop a portion of the subject property for a single-storey temporary sales office with a gross floor area of approximately 103.1 m² (1,109.8 ft²) along with eight (8) on-site parking spaces. One vehicular access point is proposed on Creditview Drive, adjacent to George Robinson Drive. The portion of the subject property intended to be used for the proposed temporary sales office comprises 0.12 ha (0.52 ac) of the overall property. A 1.5 m walkway is proposed along the periphery of the sales office and will context to the asphalt parking area. Further, a barrier free portable washroom is also proposed adjacent to the sales office for customer use. The existing red brick house is proposed to be maintained as part of the development of the sales office.

As per the submitted Minor Variance Sketch, prepared by GSAI dated February 2, 2022, the proposed sales office meets all the setback requirements of the 'Agricultural (A)' zone. A minimum front yard depth of 12.0m is required and 12.0m is provide. A minimum side yard depth of 7.5m is required and 20.3m is provided. A minimum rear yard depth of 15m is required and 168m is provided. The subject property also meets the minimum lot width requirement of 45m, having a lot width of 49.4m. Parking is required at the 'Other Office' rate of 1 space per 30m² for a total of four (4) spaces. Eight (8) spaces are provided, including a required Type 'A' accessible space.

The sales office is intended to be used for the sale of homes proposed under the above-noted Draft Plan of Subdivision, Official Plan and Zoning By-law Amendment application.

In order to permit the proposed sales office, we are proposing a Minor Variance to request relief from the Zoning By-law to permit a temporary sales office use whereas the zoning by-law does not permit the use in this instance. The temporary use is being requested for a period of three (3) years from date of opening.

The Proposed Variance

We propose the following variance in order to permit the proposed temporary sales office:

1. To permit the use of a temporary sales office for a period of three (3) years, whereas Zoning By-law 270-2004 does not permit this use in an *Agricultural (A)* zone.

Planning Rationale for Proposed Variances

Section 45(1) of the Planning Act, as amended, identifies the four tests which must be satisfied in order for the Committee to approve this application. The following section provides an analysis demonstrating how the variances satisfies these tests.

1. The variance maintains the general intent and purpose of the Official Plan.

The subject property is designated 'Residential' in the City's Official Plan and 'Executive Residential' in the Credit Valley Secondary Plan (SPA45). The 'Residential' designation of the Official Plan is intended to permit predominantly residential land uses (Policy 4.2.1.1) with an objective to provide opportunities for the development of a broad mix of housing. The 'Executive Residential' designation of the Secondary Plan also intends to permit residential uses, but those with larger lot sizes and frontages. As previously mentioned, an Official Plan Amendment has been applied for to amend the Secondary Plan designation to 'Low Density 2', which permits residential uses with smaller lot sizes and frontages than the "Executive Residential" designation.

In light of the submitted Official Plan Amendment and given the current land use designations, the temporary home sales office will permit the sale of a new residential development within an establish residential area. The sales office is only proposed on the lands for a temporary basis, until the sale of the units is complete while the Draft Plan, Official Plan and Zoning By-law Amendment applications are being processed. As such, the proposed variances to permit a temporary sales office is consistent with the land use intent and purpose of the Official Plan.

2. The variance maintains the general intent and purpose of the Zoning By-law.

The subject property is zoned 'Agricultural (A)' in the City of Brampton Zoning By-law 270-2004. Similar to the justification above, while the Zoning By-law allows for agricultural uses, the temporary nature of the proposed sales office does not preclude the long-term use of the property for agricultural purposes. As previously mentioned, a Zoning By-law Amendment application has been submitted to the City to rezone the subject lands for single-detached residential uses and the temporary sales office is required to facilitate the sales of the future residential lots.

Further, the proposed temporary sales office maintains all other zoning requirements of the 'Agricultural (A)' zone, including setback requirements, lot width requirements and parking requirements. The variance simply seeks the permission of the sales office use on a temporary

basis. Based on the temporary nature of the proposed variance, the general intent and purpose of the Zoning By-law is maintained.

3. The variance is desirable for the appropriate development or use of the land.

The proposed sales office will not interfere with the achievement of the City's future land use objectives of the long-term viability of agricultural uses as per the existing zoning. Further, as the Official Plan and Secondary Plan designate the lands for residential purposes, the temporary sales office will also not interfere in the long-term viability of its residential use. Instead, the variance seeks to uphold that use by facilitating the sale of the upcoming residential units. The proposed sales office is therefore minor in nature by virtue of being temporary.

4. The variance is minor in nature.

The subject property is subject to forthcoming residential construction activity where it is common to find new home sales offices. As such, the proposed temporary sales office will be appropriate in terms of compatibility with surrounding land uses. Further, the proposed location for the temporary sales office is desirable as it is located at prominent and highly visible intersection in close proximity to the lands within which the units to be sold from this sales office.

City of Brampton, Regional Municipality of Peel

Glen Schnarr & Associates Inc. (GSAI) would like to formally submit this amendment to our previous Consent and Minor Variance applications to the Committee of Adjustment with regard to the lands municipally addressed as 9224 Creditview Road (hereafter the 'Subject Property') on behalf of our client, 13172589 Canada Inc. (c/o Tejinder Singh). Our applications have been deferred by the Committee of Adjustment during the October 25th, 2022 hearing, to the December 6th, 2022 hearing.

Our original Consent sketch for application B-2022-0013 has been amended to remove the buffer block located at the southeast corner of the Subject Property from the Consent Sketch. This decision was concluded based on a conversation with Francois Hemon-Morneau from Development Services regarding concerns related to the daylight triangle, road widening, and noise barriers within the proposed Buffer Block. We will address these issues through the Draft Plan of Subdivision and Zoning By-law Amendment Application currently being processed by the City under the City File Number OZS-2022-0013.

Amendments to our Minor Variance application (A-2022-0319), also deferred during the October 25th hearing, are required due to changes in the corresponding consent application noted above.

The minor variances sought for the severed lot are now as follows:

10 Kingsbridge Garden Circle, Suite 700, Mississauga, ON L5R 3K6 • Tel. 905-568-8888 • www.gsai.ca

- 1. (REVISED) To permit a minimum lot width of 20.3 metres (measured at 6 metres back from front lot line), whereas the by-law requires a minimum lot width of 45.0 metres;
- 2. (REVISED) To permit a minimum front yard depth of 4.50 metres, whereas the by-law requires a minimum front yard depth of 12.0 metres;
- 3. (UNCHANGED) To permit a minimum side yard depth of 2.0 metres, whereas the by-law requires a minimum side yard depth of 7.5 metres;
- 4. (REVISED) To permit a minimum rear yard depth of 7.5 metres whereas the by-law requires a minimum rear yard depth of 15.0 metres. Please note this variance has been revised to be consistent with the proposed zoning on the balance of the Draft Plan; and,
- 5. (REVISED) To permit a minimum lot area of 0.07 hectares whereas the by-law requires a minimum lot area of 0.40 hectares.

Please find attached the following documents in support of our amended applications:

- Revised Consent application forms (pages 2 and 3 revised) dated October 26, 2022;
- Revised Consent Sketch prepared by Glen Schnarr & Associates Inc., dated October 31, 2022;
