4. Delegations

4.1 Delegations from:

Dr. Lawrence Loh, Peel Medical Office of Health

Dr. Naveed Mohammad, William Osler Health System

Mayor Brown provided a brief overview of the situation, and introduced Drs Loh and Mohammad, who provided details of the pandemic response locally and measures to be taken, which included information on the following topics:

Dr. Mohammad:

- Ongoing issue of resources – thanks to Mayor Brown for his advocacy.
- Number of cases continues to rise – have seen corresponding number of patients seeking care at our health system.
- Space requirements for patient isolation.
- Number of positive and suspected cases at Brampton Civic.
- Impacts from ongoing flu season, managing a few outbreaks on the wards.
- Increase in other patients for other illnesses – ambulance volumes up at both sites.
- As an interim measure made proactive decision to partner with other hospitals in GTA and beyond - to date 25 patients have been transferred.
- Have had to postpone non urgent surgeries – will be rescheduled as soon as possible - urgent and time sensitive surgeries will continue.
- If need emergency care continue to call 911 or come to the nearest emergency department and care will be provided.
- The measures indicated by Dr. Loh are critical in slowing the spread of the virus, and must be followed.

Dr. Loh:

- Thank you to the entire Osler System for the support provided.
- Support a tailored approach to ensuring the pandemic is brought under control.
- Understand there are potential well-being health hazards and harms, but there are also hazards and harms to letting the virus spread out of control.
- Mixing and interaction is what drives the infection.
- Currently in situation of increasing cases and a definite second wave, essentially a Thanksgiving and Halloween surge.
- Likely to get worse before it gets better.
- Situation now one of increasing cases, but also about tracing and hospital capacity, both of which are continually challenged - need to continue to be able to trace.
- There are those deciding between getting tested and working.
- Supporting workplaces to continue in safe manner.
- Life celebrations – social gatherings continue to drive infection.
- Faith and religious observance is important to life – asking to consider virtual worship, and attendance caps in places of worship.
- Banquet halls to be closed as their sole purpose is bringing people together.

- Need to limit close contact to our households, and focus on minimizing interaction to only the most essential.
- If the whole community can come together and do their part, we can reach goal of bringing this back to something manageable.
- If this gets out of control, have the example of western Europe to look to.
- Currently at the threshold – if it gets out of control, will need to consider further closures.

Council discussion on this matter included the following:

- Hospital triage systems and shortage of rooms for single occupants.
- Transmission in schools - beyond a cohort is declared a school outbreak.
- Current situation compared to first wave - more targeted measures.
- Need to exercise control in household mixing - choices matter - move responsibly.
- Discrepancy between Peel Public Health website numbers and those on the Ontario epidemiology site - provincial numbers not being reported in real time (drawn from 8:00 a.m. to 8:00 a.m. on the same day versus 3:00 p.m. to 3:00 p.m. of the previous two days) - should match, leads to COVID-19 fatigue and raises the question of who to listen to and who has the right numbers.
- Targeted approach, also need targeted communications.
- Celebrate but don't congregate - for next two to four weeks limit to only essential contacts, discretionary contact is a choice.
- Also a need to ensure employers are taking precautions.

The following motion was considered.

REFERRAL TO _____

RECEIPT RECOMMENDED ☒

Dear Minister Hajdu:

RE: IMMEDIATE FUNDING REQUIRED FOR SAFE, VOLUNTARY COVID-19 ISOLATION SITE

Over the course of the COVID-19 pandemic, Peel has been particularly challenged as a region, facing one of the highest numbers of cases in Ontario and an upward trend. Despite several measures put in place to protect public safety, Peel has continued to experience unique challenges with the transmission of COVID-19, especially within households. Household transmission comprises the most significant proportion of likely exposure settings observed in Peel since the beginning of the pandemic. Given these trends, resourcing and supports must be directed to our most vulnerable populations that aren't able to safely self-isolate and contain the spread of COVID-19.

We are pleased that the Public Health Agency of Canada (PHAC) is considering Peel Public Health's application to create a voluntary and supportive self-isolation site through the *Communicable Disease and Infection Control: Regional and Community Supports for COVID-19 Self-Isolation in Peel* initiative. This program is critical to our Region's efforts to reduce the risk of COVID-19 transmission in households, specifically targeted at Peel residents who are unable to self-isolate at home. Timely funding to support the implementation and delivery of this critical intervention is imperative to reducing infection rates and associated disparities due to COVID-19. We ask that the review of the Region's funding request be expedited to support our efforts to slow the increasing number of COVID-19 cases in Peel.

Further, we recognize that other interventions may be necessary to support households who are most vulnerable and unable to self-isolate due to COVID-19. In some cases, self-isolation at home is the only acceptable option and would only be attainable with community supports to meet basic needs, as well as policy changes to address income and employment precarity. Federal and provincial funding for community-based targeted supports and supportive public policies will be important to mitigate barriers to home self-isolation, such as food insecurity and lack of employer paid sick leave.

Together, as the Mayors of Brampton, Caledon and Mississauga and the Chair of Peel Regional Council we are committed to working with our Medical Officer

of Health and dedicated public health staff to mitigate risks for COVID-19 transmission to keep our communities safe and businesses open. We can't do this alone; we need your government's assistance to implement a safe, voluntary isolation site in our region. We look forward to PHAC's timely decision regarding Peel Public Health's application and continuing to work with the federal government to curtail the current COVID-19 trajectory seen in Peel.

1. That the report titled; **Request to Begin Procurement for Advertising Rights on Brampton Transit's Bus Fleet**, (CG.x 2020), to the Council meeting of November 25, 2020, be received;
2. That the Purchasing Agent be authorized to begin procurement for Advertising Rights on Brampton Transit's Bus Fleet and;
3. That the General Manager, Transit or designate, be delegated authority to act as the Authorized Representative of the City and to execute on behalf of the City any agreements, or other documentation as may be required to execute the contract noted in recommendation two (2) of this report, under key business terms and conditions acceptable to the General Manager, Transit or designate and in a form acceptable to the City Solicitor or designate.

Overview:

- **This report seeks to obtain Council approval to begin procurement for Advertising Rights on Brampton Transit Buses for a Five (5) Year Period.**
- **Advertising Rights on Brampton Transit buses will be in exchange for revenue sharing opportunities, including minimum annual guaranteed revenues and excess revenue-sharing provisions as defined in the resulting contract.**

Background:

Transit advertising revenues are generated through third party contracts for advertisements placed on the exterior and interior of buses, bus benches and transit shelters throughout the Brampton Transit network.

The City of Brampton is guided by the general principles set out in the Canadian Code of Advertising Standards in determining the acceptance of advertising. All vendors contracted by the City to provide advertising services, must adhere to the City of Brampton's Advertising on City Property Policy and all amendments made to this Policy.

Current Situation:

A bus advertising vendor with the City would be responsible for all costs related to fabrication, installation, maintenance and removal of the advertising, as well as all costs incurred in marketing and administration of the advertising rights on Brampton Transit buses. This includes interior and exterior advertising on the conventional (non-Züm) buses, and interior only advertising on the Züm fleet.

With other transit advertising revenue contracts expiring on May 31, 2026, Transit staff are seeking a new bus advertising contract that aligns with the above date.

It is common within the transit industry to engage in longer-standing partnerships. This is strategic in that longer contracts typically attract a larger number of competitive bids, as contract longevity helps offset any upfront investments required by the vendor. Any vendor synergies leveraged by a lengthy contract, may lead to a more attractive financial proposal for the City. This approach is also consistent with other municipalities and transit agencies that generate transit advertising revenues. Longer terms also provide opportunities for vendors to negotiate longer, more stable contracts with their larger clients, which may benefit the City.

With a current fleet of 327 conventional buses and 133 Züm buses¹, covering all areas of the City, these ads provide substantial ad space and revenue potential. Based on the forecasted quantities of bus purchases over the next several years (replacement and growth), Brampton Transit will be seeing year-over-year increases in fleet numbers, yielding additional ad space. While exterior ads are currently limited to conventional buses due the unique branding elements on Züm buses, staff are exploring the possibility of placing exterior ads on the rear of Züm buses, to maximize revenue potential through the future contract.

Under the previous contract, all marketing was facilitated by conventional static ads placed on the interior and exterior surfaces of the bus. Subject to Council approval to begin procurement, staff may encourage prospective suppliers to incorporate any alternate or innovative advertising mediums into their proposals, which may offer incremental benefits to the City and/or our customers, to be included in their proposals

¹ Quantity reflective of Brampton Transit's Conventional Bus Fleet as at the end of 2019.

as supplementary options. Subject to the outcome of the procurement, Brampton Transit may then have the ability to phase in new advertising technologies (i.e. electronic/digital ads) into the contract scope, as they become available or become a new standard in Transit advertising. This will provide future opportunities to take advantage of new technology that may become available through the Smart City digital ecosystem.

Corporate Implications:

Having a new bus advertising contract in place will ensure Brampton Transit continues to have a dedicated revenue stream to help offset a portion of operating costs.

Furthermore, by displaying a wide range of local businesses' ads to the citizens of Brampton, the City will help promote economic growth and stability in our community, as we enter 2021.

Lastly, staff from Transit and Corporate Projects, Policy and Liaison have been working closely together on the strategy for all transit advertising opportunities, including bus advertising. Continuing the third-party sales model for bus advertising is aligned with the City's overall advertising and sponsorship programs. Given the unique market that transit advertising entails, it is agreed by staff that transit advertising, including bus advertising, is best approached in the manner recommended in this report.

Purchasing Comments:

A public Procurement Process will be conducted and submissions shall be evaluated in accordance with the published evaluation process within the procurement document.

Purchase approval will be obtained in accordance with the City's Purchasing By-law. All communication with Bidders involved in the procurement will occur formally through the contact person identified in the procurement document.

Financial Implications:

Future estimates of revenue will be based on the existing number of advertisements City-wide, revenues accrued to date through the previous contract and the estimated annual inflation rates throughout the future contract term.

Funds received will be recognized as a source of transit revenues. Transit staff will ensure future budgets are reflective, subject to Council approval.

Term of Council Priorities:

By requesting Council approval of continued advertisements of local services, programs and job investment strategies in our community, this report is aligned with the Council established priority that Brampton is a City of opportunities.

Living the Mosaic – 2040 Vision

This report directly aligns with the vision that Brampton will be a mosaic of vibrant centres with quality jobs, a rich range of activities and integrated living. The City will provide effective stewardship of municipal assets and services.

Conclusion:

In conclusion, this report recommends that the Purchasing Agent be authorized to begin procurement for Advertising Rights on Brampton Transit's Bus Fleet.

- Characteristics of the surrounding residential area

He encouraged Committee to select one of the four-lane options, which enhances active transportation, is more cost effective and improves health and air quality.

Sylvia Roberts, Brampton Resident, expressed support for Option #3 and highlighted the need for separate bicycle facilities, noting that e-bikes are increasingly popular and can pose a danger on shared paths with pedestrians.

 - Most residents were not in support of Option #1 (widening Williams Parkway to six lanes)
 - Greenery and landscaping were highlighted as a priority

- Possibility of implementing active transportation facilities on Franceschini Bridge over Highway 410

9.1 Staff Report re: Councillor Usage of Consultants – Follow up (RM 60/2020)

Committee consideration of this matter included:

- preference for discussions in Open Session, rather than Closed Session
- review of discussions on this topic at the Committee meeting of November 4, 2019 and the subsequent Council Meeting on November 20, 2019
- Concerns about:
 - staff not following the intent of Committee's recommendation (GC044-2019), which was approved, as amended, by Council on November 20, 2019 pursuant to Resolution C422-2019
 - amount for the cancellation fee and related HST
 - dates on which the consultant invoices for services and the invoice for cancellation fees were received, relative to Council's decision on November 20th
 - amount of time that elapsed between Council's decision on November 20th and receipt of the invoices from the consultant
 - transmission and validation method of the consultant's invoices, i.e. PDF format via e-mail
 - Committee not being consulted in advance of payment of the cancellation fee
 - discrepancies in information related to the contract submission timelines and the method (verbal versus written)
- potential need for the e-mail chain between the Member of Council and consultant regarding the provision of consultant services and related fees

- potential referral of this matter to the Integrity Commissioner for review of the dates of the invoices relative to the date of Council's resolution
- suggestion that a third party forensic audit be procured

In response to questions from Council, staff provided the following:

- details on Closed Session materials provided for Committee's reference, and confirmation that the discussion on this topic could take place in Open Session, but that the Closed Session materials should remain as part of the Closed agenda
- information on decision-making at the staff level as it relates to payments to the consultant after the passing of Council Resolution C422-2019 on November 20, 2019
- clarification that the payment after this date was for cancellation fees for termination of contract, including HST, and not for consulting services provided
- timelines related to receipt of the consultants invoices for services and the invoice for cancellation fees
- role of the Integrity Commissioner as it relates to potential review of this matter

The following motion, moved by Regional Councillor Medeiros, was introduced.

Subject: Congratulations on passing CEERP and Williams Parkway Widening

Mayor Brown and Councillors,

I would like to congratulate you on the steps you are taking to address the climate emergency that we face.

As discussed in the Williams Parkway workshop with councillors, “we cannot continue to do things the same way”.

According to Brampton’s 2040 vision passed by council , and presented in the workshop, "Brampton will be a mosaic of safe, integrated transportation choices and new modes, contributing to civic sustainability, and emphasizing walking, cycling, and transit."

Road widening is **not** compatible with addressing the climate emergency or the prioritizing of walking, cycling and transit.

This year I have seen a remarkable number of road narrowings (Vodden, North Park, Guru Nanak) with respect to motor vehicle lanes, and have experienced firsthand how it slows down the cars to speeds closer to the limit, does **not** cause congestion, and creates space for cyclists. I regularly see more cyclists on these routes compared to prior years. I feel safer in these spaces.

I encourage you to choose option 3 which most closely fits the 2040 vision and best addresses the climate emergency.

Widening to six lanes, even if two lanes are reserved for high occupancy vehicles will simply create induced demand.

Brent Toderian, former Chief Planner for Vancouver, shared this very funny, but very true video, about what induced demand means. I encourage you to take 90 seconds to follow this link and watch the video._

<https://twitter.com/brenttoderian/status/1192568535009988608?s=21>

Finally, once Brampton develops their final large tracts of land, Development Charges will decline dramatically. Choosing Option 1 because most of the funding will come from DC instead of property tax is a shortsighted false economy, and should not be considered a good reason to support that option.

Thank you in advance for choosing Option 3, which most closely aligns with the vision that this Council is already moving towards.
