Hi

Regarding application id - A2022-0373, I wanted to raise a concern as a resident of Brampton and also a regular to the temple which is on the lot under review.

As a devotee, i have aware that the ownership of the temple premises are under litigation and court case is ongoing. Unless the ownership is decided by the court, no changes to the lot should be permitted. Also the temple building which is a heritage site, i do not want someone to make changes to it in a sense that in future whoever the owner is can use it for commercial purpose. i just want the temple/church to remain as it is forever.

I would also like my comments to be part of the Adjustment Committee.

Thanks,
Biren Jana
