Dear CanSTEM Education;

**Re: A Phase I Environmental Site Assessment at 350 Rutherford Road South, Unit 10, Brampton, Ontario**

Please find enclosed our Phase I ESA report completed in accordance with O. Reg. 153/04 as amended. Our investigation did not identify potentially contaminating activities that would be expected to create areas of potential environmental concern at 350 Rutherford Road South, Unit 10, Brampton, Ontario.

A Phase II ESA is not required prior to applying for a Record of Site Condition (RSC).

Sincerely,

A handwritten signature in black ink, appearing to be "Ali Rasoul", written in a cursive style.

Dr. Ali Rasoul, Ph.D., P. Geo, Q.P.  
Senior Environmental Consultant

## **1.0 EXECUTIVE SUMMARY**

CanSTEM Education Private School Inc., (the client) retained the services of A & A Environmental Consultants Inc. (A&A) to conduct a Phase I Environmental Site Assessment (ESA) on Unit 10 at 350 Rutherford Road South, Brampton, Ontario (hereinafter referred to as the “subject site” or the “Phase I property”). The Phase I property is current zoned SC – service commercial. It is understood that the client wants to ensure that institutional use within the building would be permitted by the Ministry of the Environment, Conservation and Parks (MECP), therefore a Record of Site Condition under Ontario Regulation 153/04 (revised December 2009 and implemented July 1<sup>st</sup>, 2011) is required. This report has been prepared to meet the requirements of the regulation.

The Phase I property consists of one parcel and consisting of an area of approximately 0.3342 hectares. The subject site is located within Unit 10 of the Plaza 1 building of the larger site. The municipal address of the larger site is 350 Rutherford Road South, Plaza 1, Unit 10 Brampton, Ontario. The site is bounded by commercial office to the north, Steeles Avenue East to the east, Rutherford Road South to the south, and light industrial to the west. It’s located in an urban area and is currently owned by Soneil Mississauga Inc.

Searches of the environmental, historical and physical records regarding the subject study area (a 300 m buffer area around site boundaries) were made. A site investigation and interviews with knowledgeable persons were conducted to confirm the findings of the records search. An examination for potentially contaminating activities (PCAs) was conducted on the subject site and in the subject study area (SSA). Historical and environmental records for the subject site that were reviewed during the Phase I ESA indicated that the Phase I property was historically undeveloped land from approximately 1828 to 1979. The subject site has remained a commercial office building since development in 1979.

No PCAs as defined in Table 2 of Schedule D of O. Reg. 153/04 (as amended) were identified on the Phase I property, or within the Phase I study area, that would create Areas of Potential Environmental Concern (APECs).

The information gathered is as complete as possible to the best of the knowledge of A&A. A Phase II Environmental Site Assessment in accordance with Schedule E of O. Reg. 153/04 is not required for the subject site at 350 Rutherford Road South, Brampton, Ontario prior to application for a Record of Site Condition.

This report meets the requirements for a Phase I ESA under O. Reg. 153/04 (as amended).

## **2.0 INTRODUCTION**

CanSTEM Education Private School Inc., (the client) retained the services of A & A Environmental Consultants Inc. (A&A) to conduct a Phase I Environmental Site Assessment (ESA) in Unit 10 of 350 Rutherford Road South, Brampton, Ontario (hereinafter referred to as the “subject site” or the “Phase I property”). The Phase I property is current zoned SC – service commercial. It is understood that the client wants to ensure that institutional use within the building would be permitted by the Ministry of the Environment, Conservation and Parks (MECP), therefore a Record of Site Condition under Ontario Regulation 153/04 (revised December 2009 and implemented July 1<sup>st</sup>, 2011) is required. This report has been prepared to meet the requirements of the regulation.

This report describes the Phase I ESA activities and is of a legal and confidential nature and its use by third parties is discouraged. There is no relationship between the client and A&A other than third party independent assessor.

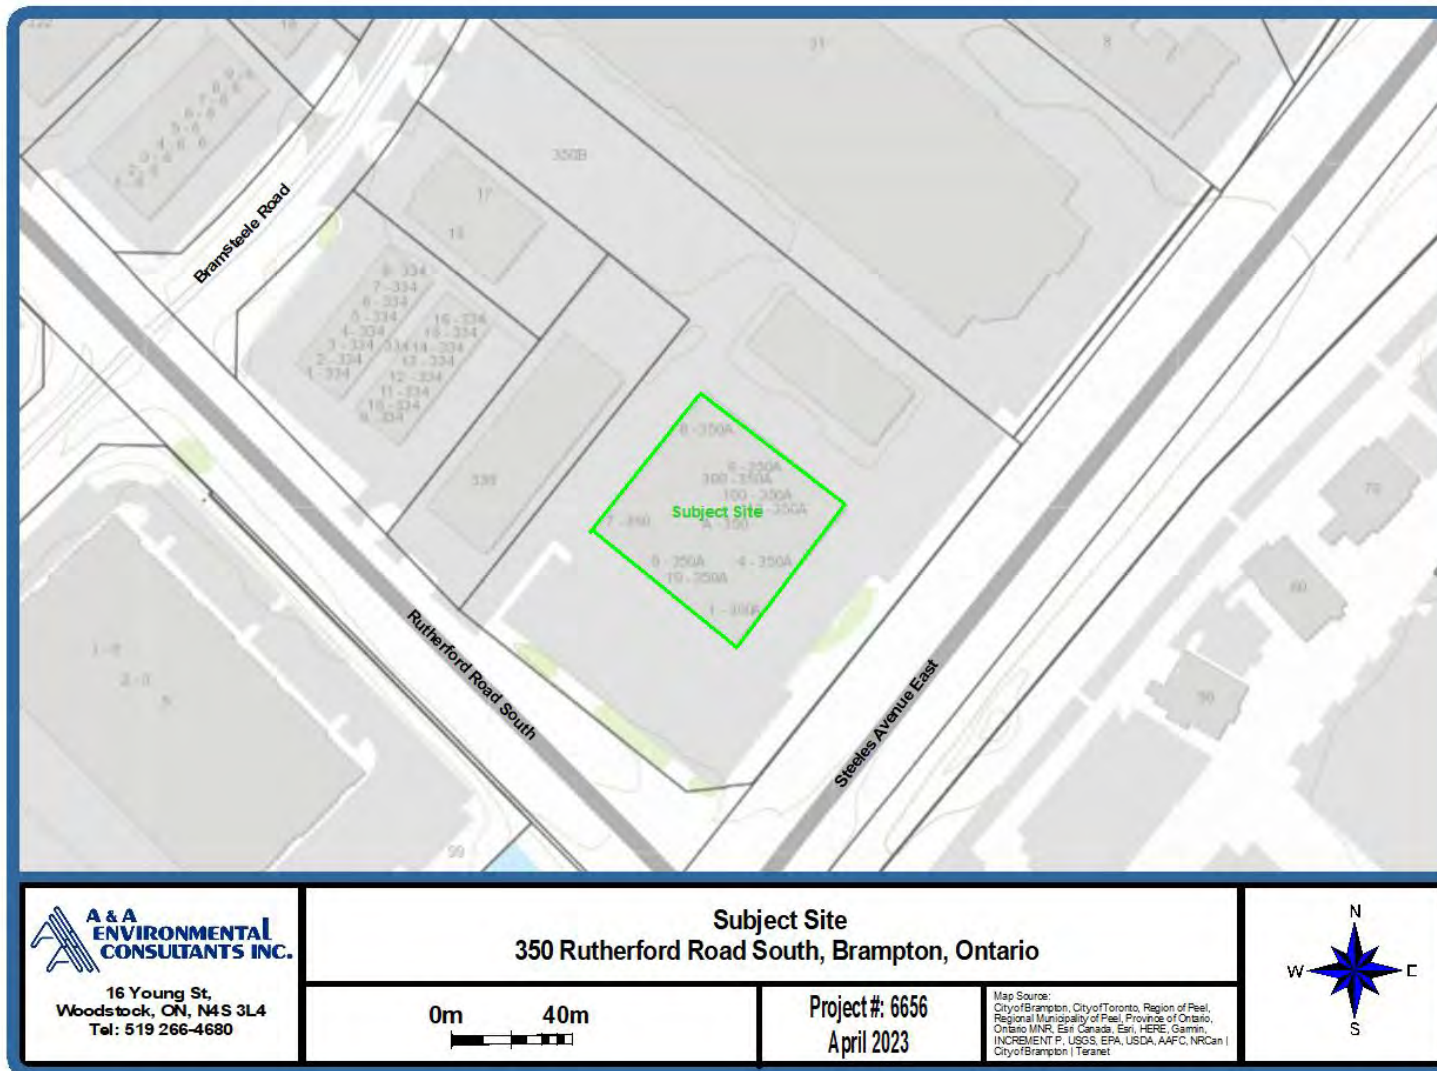

### **2.1 Phase I Property Information**

The Phase I property consists of one parcel and consisting of an area of approximately 0.3342 hectares. The subject site is located within Unit 10 of the Plaza 1 building of the larger site. The municipal address of the larger site is 350 Rutherford Road South, Plaza 1, Unit 10 Brampton, Ontario. The site is bounded by commercial office to the north, Steeles Avenue East to the east, Rutherford Road South to the south, and light industrial to the west. It’s located in an urban area and is currently owned by Soneil Mississauga Inc. A site location map is shown in Figure 1.

Figure 1 – Site Location Figure

### 3.0 SCOPE OF INVESTIGATION

The Phase I Environmental Site Assessment included the following:

- Perform a Site History investigation to establish the previous uses of the property. The site history study will be conducted by interviewing knowledgeable persons, searching the records as far back as the available records allow. This will include a search at the Land Titles Office and contacts with the MECP. An “ERIS” (Environmental Risk Information Services) report will be requested which examines over sixty government and private databases for environmental issues related to your site;

The following records will be reviewed:

- i. National Pollutant Release Inventory information maintained by Environment Canada;
- ii. PCB information maintained by the Ministry;
- iii. Certificates of approval, permits to take water, certificates of property use or similar instruments related to the environmental condition of the Phase one property and any property on, under or adjacent to the Phase one property and issued pursuant to an Act administered by the Ministry, whether in force or not;
- iv. The inventory of coal gasification plants that is maintained by the Ministry;
- v. Records concerning environmental incidents, orders, offences, spills, discharges of contaminants or inspections maintained by the Ministry where the incident, order, offence, spill, discharge or inspection affects the Phase one property and any property on, under or adjacent to the Phase one property;
- vi. Waste management records, including current and historical waste storage locations and waste generator and waste receiver information maintained pursuant to Regulation 347 of the Revised Regulations of Ontario, 1990 (General – Waste Management) made under the Act, or its predecessors with respect to the Phase one property and any property on, under or adjacent to the Phase one property;

- vii. Reports submitted to the Ministry related to the environmental conditions of the Phase one property and any property on, under or adjacent to the Phase one property;
- viii. Retail fuel storage tanks information maintained by the Technical Standards and Safety Authority;
- ix. Notices and instruments, including records of site condition, posted in the Registry;
- x. Identification of areas of natural significance maintained by the Ministry of Natural Resources, and
- xi. Landfill information maintained by the Ministry;
- xii. Obtain a series of aerial photographs of the Phase one study area that, as a whole:
  - a. illustrate as much as possible of the period from the Phase one property's first developed use to the time of the Phase one environmental site assessment,
  - b. identify the buildings and structures that were present on the Phase one property from time to time throughout this period,
  - c. identify potentially contaminating activities within the Phase one study area from time to time throughout this period, and
  - d. identify areas of potential environmental concern.
- xiii. Obtain one or more topographic maps (Ontario Base Map series), which illustrate the location of the Phase one property in relation to any water bodies in the Phase one study area and document regional topography;
- xiv. Make all reasonable inquiries to obtain one or more physiographic maps or other similar documents in order to define regional physiography in the Phase one study area and to obtain information about the surficial soil and bedrock in the Phase one study area;
- xv. Make all reasonable inquiries to obtain one or more geological maps or

other similar document in order to define the regional geology in the Phase one study area and to obtain information about the stratigraphy of the overburden, from ground surface to bedrock, including approximate depth to bedrock and type of bedrock;

xvi. Make all reasonable inquiries to obtain well records and other relevant data for any operating or abandoned wells, including all wells described or defined under the *Ontario Water Resources Act*, in the Phase one study area in order to identify the presence of such wells and to make appropriate use of the records and data to help determine the hydrogeological and geological characteristics of the Phase one study area and describe;

- a. the location of any such wells,
- b. the stratigraphy of the overburden, from ground surface to bedrock,
- c. approximate depth to bedrock, and
- d. approximate depth to the water table.

xvii. Determination of area subject study area;

xviii. Determination of area geology, physiography and topography;

xix. Perform a visual/olfactory inspection of the property including the interior of any buildings to look for signs of environmental issues such as oil-stains, asbestos-containing materials, etc.;

xx. Determination of the current operations at the site;

xxi. Identification of all hazardous materials used and wastes produced;

xxii. Confirmation of any activities that require environmental permits, or are otherwise covered by environmental legislation and regulations;

xxiii. Determination of the existence of environmental orders and compliance with environmental Provision of a reasonable conclusion regarding the environmental condition of the site;

xxiv. Development of recommendations for follow-up investigations if needed.

- Perform a visual/olfactory inspection of the property to look for signs of environmental issues such as oil-stains, etc.
- Assess the potential environmental impact of the surrounding properties on the subject property;
- Determine the current activities at the site;
- Identify all hazardous materials used and wastes produced;
- Confirm any activities that require environmental permits, or are otherwise covered by environmental legislation and regulations;
- Determine the existence of environmental orders and compliance with environmental regulations;
- Identify any “Potentially Contaminating Activities” (PCA) on or off site and use these to determine the existence of any “Areas of Potential Environmental Concern” (APEC) on site;
- Develop recommendations for follow-up investigations if needed.

### 3.1 Records Reviewed

### **3.2 Limiting Conditions**

No difficulties were encountered in the performance of this ESA. Complete access and relevant details were provided by the site owner or their agents. It should also be noted, however, that any ESA of this nature relies to a large extent on information provided by others who are often “non-technical” and unfamiliar with environmental terminologies. Thus, the use of this report by third parties is discouraged.

This Phase I ESA was conducted in accordance with the substance and intent of Schedule D of Ontario Regulation 153/04 as amended. As such, this report is based on visual observations made during the site visit, interviews with persons familiar with the property, a review of the historical records concerning the current and past use of the property. This investigation is limited in scope and is not intended to be a definitive investigation of any contamination or other environmental concerns at the property. The conclusions presented in this report represent our professional opinion, in light of the terms of reference, scope of work, and any limiting conditions noted herein.

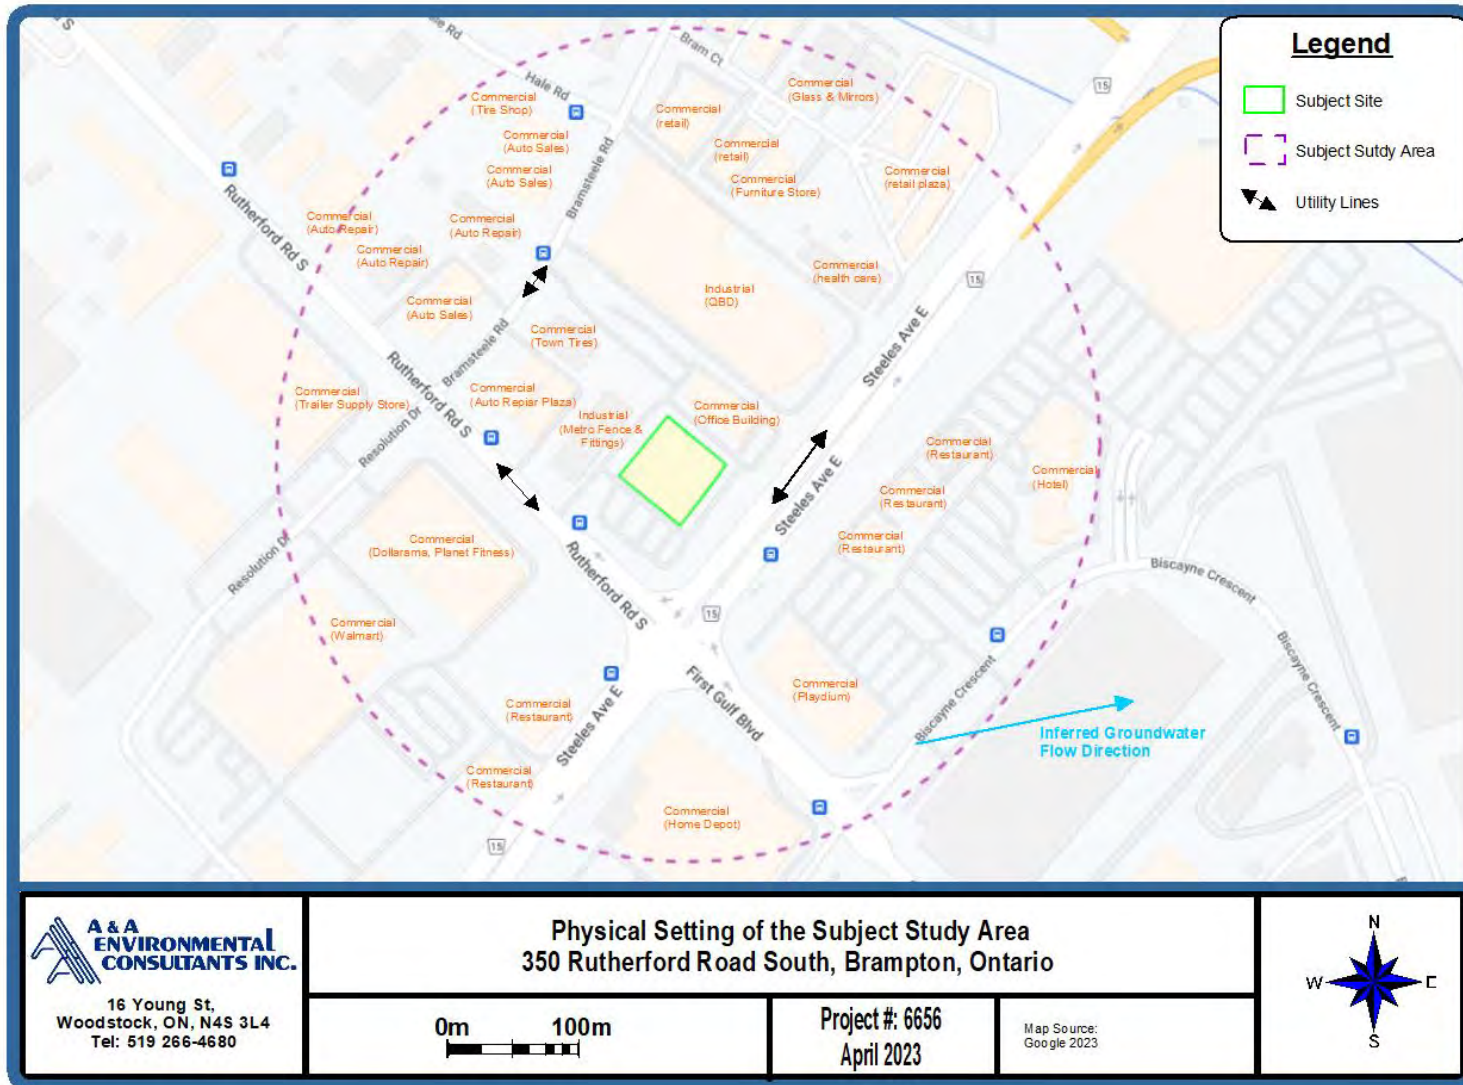

## **4.0 RECORDS REVIEW**

### **4.1 General**

#### **4.1.1 Phase I Study Area Determination**

Based on records review and site reconnaissance there is no basis for extending the subject study area beyond 300 meters. There are no local, provincial or nationally significant woodlots data listed with the municipality or the MNR within 2 km of the subject site. No areas of natural and scientific interest (ANSI) were listed within 2 km of the subject site. No significant PCAs affecting the subject site were observed to be in operation outside of the standard 300-metre study area. A map of the subject study area is shown in Figure 2.

Figure 2 – Subject Study Area

**4.1.2 First Developed Use Determination**

According to Section 22(1) of O. Reg. 153/04 (as amended), the first developed use is defined as “the earlier of (1) the first use of a phase one property in or after 1875 that resulted in the development of a building or structure on the property; and (2) the first potentially contaminating use or activity on the phase one property.”

The historical chain of title search (Section 4.1.4) indicates that the Phase I property was first owned by Kings College in 1828 after which it was privately owned by individuals and remained undeveloped until 1979. The site was developed with a multi-tenant commercial office building which still remains on site. No other buildings have every been developed on site.

**4.1.3 Fire Insurance Plans**

A search was conducted through EcoLog ERIS and Opta Information Intelligence Inc., for Fire Insurance Plans (FIPs) for the subject site and SSA. No FIPs were located, for the subject site or SSA; however, three Inspection reports were located and provided to A&A. The inspection reports indicated the following:

**Table 3 – ENVIROSCAN Reports**

<b>Year</b>	<b>Comments</b>
1987 Site Plan Report	The 1987 site plan indicates that it was prepared for Jurian Investments Ltd., the owner at the time. There are 16 suites of various sizes present in the building. The building is split into four quadrants with two corridors separating the quadrants. The north quadrant is occupied by Suites 3, 10, 14, and 15 along with the electrical room and hydrdo room. The eastern quadrant is occupied by Suites 2 and 6, where as the southern quadrant is occupied by Suites 1, 4, 5, 11, and 12. The western quadrant is occupied by Suites 7, 9, and 16.
2000 Inspection Report	The 2000 Inspection Report indicates that the building was constructed in 1979. There have been no additions. The building is a single storey, no basement building. The total area of the building is 3,128.1 m <sup>2</sup> . The heating system is a natural gas fired combination heating and air conditioning unit on the roof. This report noted the following occupants of the building: Unit 2 & 6: Old Beef Market Unit 14-A- A&M Transport (office) Unit 3, 10, 14 &15: Century 21 Real Estate Unit 7 & 16: Coldwell Pinnacle Real Estate Unit 9: Vacant Unit 1: Safety Superstore

	Unit 4, 5, 11 & 12: Sleep Country Canada
2000 COPE Report	The 2000 COPE (Construction, Occupancy, Protection, Exposure) Report, notes that the building is comprised of concrete block walls, steel frame, concrete on grade flooring, and a steel deck roof. The building is recorded to have been built in 1979 and is in good condition. The building is heated with central heat warm air gas and cooled with central air conditioning. The occupancy in the units was as follows: Unit 2: Old Beef Market Unit 14A: A & M Transport (offices) Unit 3: Century 21 Real Estate Unit 7: Coldwell Pinnacle Real Estate Unit 9: Vacant Unit 1: Safety Superstore Unit 4, 5: Sleep Country Canada

No PCAs were identified during the inspection of the reports.

#### 4.1.4 Chain of Title

A historical title search was made at the land titles office and the following information was obtained as shown in the table below. The information obtained from the title search was checked against other historical information from aerial photos and interviews to gain an understanding of the site history.

**Table 4 – Chain of Title**

Deed#	Date	Owner

#### 4.1.5 Previous Environmental Reports

No previous environmental reports were made available to A&A.

## 4.2 Environmental Source Information

### 4.2.1 City Directory

A request was made to Ecolog ERIS to perform a city directory search for the subject site. City Directory records for the larger property from 1958-2000 were provided to A&A. From the

records provided by ERIS, it appears that the subject site and surrounding area has been mainly commercial since it was first developed. The property located at 334 Rutherford Road South, to the west of the subject site, has records indicating that it has been occupied with automotive services since the 1983 listing. This would be considered a PCA.

-All listings for businesses were listed as they are in the city directory.

-Listings that are residential are listed as "residential" with the number of tenants. The name of the residential tenant is not listed in the above city directory.

#### 4.2.2 The Ministry of the Environment, Conservation, and Parks

The MECP no longer responds to enquiries regarding site investigations but refers the enquirer to apply under the Freedom of Information (FOI) Act. A request for FOI at the MECP

Environmental Registry was made. The FOI agent has indicated that there were no records in their database for the subject site.

#### **4.2.3 Technical Standards and Safety Authority (TSSA)**

The TSSA was contacted for information on any fuel records relevant to 350 Rutherford Road South, Brampton, Ontario. The TSSA representative indicated there were no records in their database for the larger property.

#### **4.2.4 ERIS Report (Environmental Risk Information Services Ltd.)**

An ERIS report was obtained for the subject property which included a review of PCAs within a 300 m radius of the site. EcoLog Environmental Risk Information Services Ltd. has searched the following databases back to the oldest dates available and is current as far as what is publicly available. The extent of historical information varies with each database and current information is determined by what is publicly available to EcoLog ERIS at the time of update. The ERIS Report is attached in Appendix 10.2 and includes the following databases:

**Federal Databases:**

- Environmental Effects Monitoring
- Environmental Issues Information System
- Federal Convictions
- Indian & Northern Affairs Fuel Tanks
- National Defence & Canadian Forces Fuel Storage Tanks
- National Analysis of Trends in Emergencies System (NATES)

- TSSA Variances for Abandonment of Underground Storage Tanks
- Certificates of Approval
- Aggregate Inventory
- Abandoned Mine Information System

**Table 6 – Summary of ERIS Records**

Type of Record	# of Records	Comment
<b>Records on the Subject Site</b>		
ERIS Historical Searches <b>EHS</b>	1	ERIS has compiled a database of all environmental risk reports completed since March 1999. ERIS searches are not considered to be PCAs.
Scott’s Manufacturing Directory <b>SCT</b>	3	This database provides information on over 200,000 manufacturers across Canada. These records refer to Domtar Inc., (Weyerhaeuser Company Limited) Fine Paper Division for operating a stationery and office supply wholesale distribution area in 1900 -2000. This would not be considered a PCA, as the manufacturing of the paper products did not occur on site.
<b>Records within 0.30 km of the Subject Site</b>		
Automobile Wrecking & Supplies <b>AUWR</b>	3	This database provides an inventory of known locations that are involved in the scrap metal, automobile wrecking/recycling and auto parts and supplies industry. These records refer to 334 Rutherford Rd S and 322 Rutherford Rd S for auto wrecking and recycling. These records would be considered PCAs, however, due to their distance from the subject site, no APECs are created.
Borehole <b>BORE</b>	5	A borehole is the generalized term for any narrow shaft drilled in the ground, either vertically or horizontally. Boreholes are not considered PCAs.
Certificates of Approval <b>CA</b>	8	This database contains the following approvals: Air & Noise, Industrial Sewage, Municipal & Private Sewage, Waste Management Systems and Renewable Energy Approvals. These records refer to municipal sewage, municipal water, air, and industrial air throughout the subject study area. No APECs are created.
Environmental Activity and Sector Registry <b>EASR</b>	10	The EASR allows businesses to register certain activities with the ministry rather than apply for an approval. These records refer to heating systems, three automotive refinishing facility, and air emissions. The automotive refinishing facilities would be considered PCAs. They are located at 308 Rutherford Rd S (298 m upgradient), 21 Hale Rd (296 m upgradient), and 15 Hale Rd (289 m cross gradient). Due to the significant

Type of Record	# of Records	Comment
		distance to the subject site, none of these PCAs would create APECs.
Environmental Registry <b>EBR</b>	5	The EBR lists proposals, decisions and exception regarding policies, Acts, instruments, or regulations that could significantly affect the environment. These records refer to discharges to the air and an environmental compliance approval for air. As all of the records are discharges to the atmosphere and are over 200 m away from the subject site, no APECs are created.
Environmental Compliance Approval <b>ECA</b>	12	A single ECA addresses all of the business' emissions, discharges and wastes. These records refer to municipal drinking water systems, municipal and private sewage, industrial sewage, air, and industrial air approvals throughout the subject study area. No APECs were created.
ERIS Historical Searches <b>EHS</b>	21	ERIS has compiled a database of all environmental risk reports completed since March 1999. ERIS searches are not considered to be PCAs.
Ontario Regulation 347 Waste Generators Summary <b>GEN</b>	182	<p>Regulation 347 of the Ontario EPA defines a waste generation site as any site, equipment and/or operation involved in the production, collection, handling and/or storage of regulated wastes. These records refer to various generators in the SSA. The only records located within a close proximity at a higher or equal elevation of the site are:</p> <ul style="list-style-type: none"> <li>• Metro Fence &amp; Fittings Limited at 338 Rutherford Rd S (59 m) from 1992-2014 for generating emulsified oils, and waste oils and lubricants in association with fabricated wire product manufacturing. This would be considered a PCA.</li> <li>• Xtreme Towing at 17 Bramsteele Rd (107 m) from 2020 to present, registered for waste oils and lubricants. This would be considered a PCA.</li> <li>• QBD Cooling Systems Inc at 31 Bramsteele Road (116 m) from 2002-2021, registered for waste oils, resins, and paints in association of commercial machinery manufacturing. This would be considered a PCA.</li> <li>• Tiny Tots Knitting Mills Inc at 31 Bramsteel Rd (116 m) from 1986-1998 registered for petroleum distillates associated with textiles. This would be considered a PCA.</li> </ul>

Type of Record	# of Records	Comment
		All other records identified in the database are located over 130 m from the subject site with multiple preferential pathways diverting any possible contaminants away from the subject site.
Fuel Oil Spills and Leaks <b>INC</b>	3	This database is a list of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen reported to the Spills Action Centre. These records refer to a diesel fuel spill from contractors' storage tank on a construction site at First Golf Drive and Steeles Ave in 2013 with no environmental impacts occurring, a CO releases from a radiant propane heater used inside a commercial building at 2 Bram Court in 2016, and a natural gas inspection at 100 Biscayne Cres., in 2012. None of these records would create APECs.
Pesticide Register <b>PES</b>	17	The MECP maintains a database of licensed operators and vendors of registered pesticides. These records all refer to vendors of pre-packaged fertilizers for retail sales in their respective businesses. These would not be considered PCAs.
Private and Retail Fuel Storage Tanks <b>PRT</b>	1	This database contains a list of pipeline incidents (strikes, leaks, spills). This record refers to the Home Depot located at 49 First Gulf Blvd, in 1995 for a 0 L capacity retail tank. This would not create an APEC.
Retail Fuel Storage Tanks <b>RST</b>	1	This database includes an inventory of retail fuel outlet locations that have tanks on their property. This record refers to a service station gasoline oil & natural gas at Brampton Auto Repair located at 18 Bramsteel Rd. This would be considered a PCA; however, as the site is located over 195 m from the subject site, no APEC is created.
Scott's Manufacturing Directory <b>SCT</b>	56	This database provides information on over 200,000 manufacturers across Canada. These records refer to various businesses in the SSA. The only records within a close proximity to the site are: <ul style="list-style-type: none"> <li>• Metro Fence &amp; Fittings Ltd, located at 338 Rutherford Rd S for manufacturing fabricated structural metal</li> <li>• QBD Modular Systems Inc., located at 31 Bramsteel Rd for heating equipment and commercial refrigeration equipment manufacturing</li> <li>• Iron Dukes Inc., located at 334 Rutherford Rd S, for metal products manufacturing</li> </ul>

Type of Record	# of Records	Comment
		These would be considered PCAs, however, due to the distance, elevation, and preferential pathways, no APECs are created on site.
Ontario Spills SPL	18	<p>This database contains a list of spills and incidents made available by the MECP. These records refer to various spills in the SSA. The only records within close proximity to the site are:</p> <ul style="list-style-type: none"> <li>• 30 L diesel fuel to the ground following a transport truck accident at 342 Rutherford Rd S in 1997.</li> <li>• Unknown quantity of raw sewage to the storm sewer from a sanitary sewer back up at 334 Rutherford Rd S in 2009.</li> <li>• 30 L transmission oil to the sewer being cleaned from a transport accident at the corner of Steeles Ave E and Rutherford Rd S in 2005</li> <li>• 50 L diesel leak to road and sewer from a transport truck at Rutherford Rd S &amp; Steeles Ave E, in 1993</li> <li>• 10-15 L engine oil to the catch basin at the SE corner of Hwy 15 and Rutherford Rd S in 2005.</li> <li>• Diesel fuel to the ground from a transport truck at 329 Rutherford Rd S in 1997</li> <li>• Unknown quantity of diesel to the lot and catch basin from a transport truck at 329 Rutherford Rd S in 1998</li> </ul> <p>Due to the nature of the spills, locations, and time that has elapsed, no APECs are created from these records.</p>
Water Well Information System WWIS	22	This database describes locations and characteristics of water wells found within Ontario in accordance with Regulation 903. Water wells are not considered PCAs.

The EcoLog ERIS database reported four records pertaining to the subject site and 364 records within 0.30 km of the subject site. No PCAs that would create APECs were identified through this review.

#### 4.2.5 Historical Buildings on Site

The Phase I property was first owned by Kings College in 1828 after which it was privately owned by individuals and remained undeveloped until 1979. The site was developed with a multi-tenant

commercial office building which still remains on site. No other buildings have every been developed on site.

#### **4.2.6 Zoning Information for Subject Site**

The Phase I property is current zoned SC – service commercial. The surrounding area is zoned industrial to the north, east, south, and west.

#### **4.2.7 Summary of Records Review**

An extensive historical search was conducted pertaining to the Phase I property at 350 Rutherford Road South, Brampton, Ontario. As previously discussed, the Phase I property has only ever been developed as a commercial office building. PCAs were identified in the historical review; however, none of the identified PCAs would create APECs on the subject site.

### **4.3 Physical Setting Sources**

#### **4.3.1 Aerial Photographs**

The available historical aerial photographs of the subject study area were reviewed. Specific details are discussed in the table below and are attached in Appendix 10.6 of this report.

**Table 7 – Aerial Photographs**

Date	Comments
1954	The aerial image indicates that the site is part of undeveloped lands. The surrounding area is also undeveloped agricultural lands.
1963	The aerial image depicts the subject site as undeveloped lands, with the surrounding area also undeveloped.
1973	The aerial image depicts the site and surrounding area as undeveloped.
1981	The aerial image depicts the site as occupied by the commercial building currently seen on site. The surrounding area to the north, south, and west is developed with industrial/commercial type buildings, with the land to the east remaining undeveloped.
2000	The air photo from the spring of 2000, shows the site is developed with the commercial building seen today. The surrounding area is mainly developed with industrial/commercial type buildings on all sides.
2015	The 2015 air photo depicts the site and surrounding area as it is seen today.

No additional PCAs were identified through the aerial images.

### **4.3.2 Topography, Hydrology, Geology**

#### **4.3.2.1 Topography**

The topography on the Phase I property was observed to have a slight slope to the northwest. The Phase I property is recorded as approximately 200 metres above sea level (masl) on the topographic map. The surrounding study area is sloping northeast towards a tributary of Etobicoke Creek (Figure 3). Surface water within the surrounding properties is expected to flow to the catchment basins located throughout the site and surrounding roadways.

#### **4.3.2.2 Hydrology**

Groundwater and surface water are expected to flow toward the natural slope of the ground surface. Although the surface topography typically exerts a significant influence on the groundwater flow it has been observed, in several areas, that bedrock topography also has a significant influence on the flow, in some cases more so than surface topography. In the latter case, this is believed to be due to relatively impermeable bedrock underlying a much more permeable sand overburden. Based on the regional topography, groundwater is inferred to be flowing northeast towards a tributary of Etobicoke Creek, located approximately 520m northeast of the subject site.

The groundwater flow direction may also be influenced by utility trenches and other subsurface structures and may migrate in the bedding stone of the subsurface utility trenches. Groundwater flow direction can only be confirmed with the measurement of groundwater elevation through the site.

#### **4.3.2.3 Geology**

The surface deposit in this region, like all of Ontario, was once covered by massive glaciers during the late Wisconsin glacial period. The grinding action of the moving ice masses produced a considerable amount of rock materials, ranging in size from boulders to rock flour which was distributed over the landscape. EcoLog ERIS provided several maps showing the geology and soils of the subject study area which is summarized as:

- The Bedrock Geology of Ontario Map (Figure 4) indicates that the Phase I property is located within the Queenston Formation, characterized as shale, limestone, dolostone, and siltstone.
- The Physiography of Southern Ontario Map (Figure 5) depicts the Phase I property as part of the bevelled till plains landform within the Peel plain region.
- The Surficial Geology of Southern Ontario Map (Figure 6) depicts the Phase I property to be located within Halton till, characterized as red to brown gritty silt to clayey silt till with medium carbon content and low permeability.

Figure 3 – Topographic Map of Subject Site and Study Area

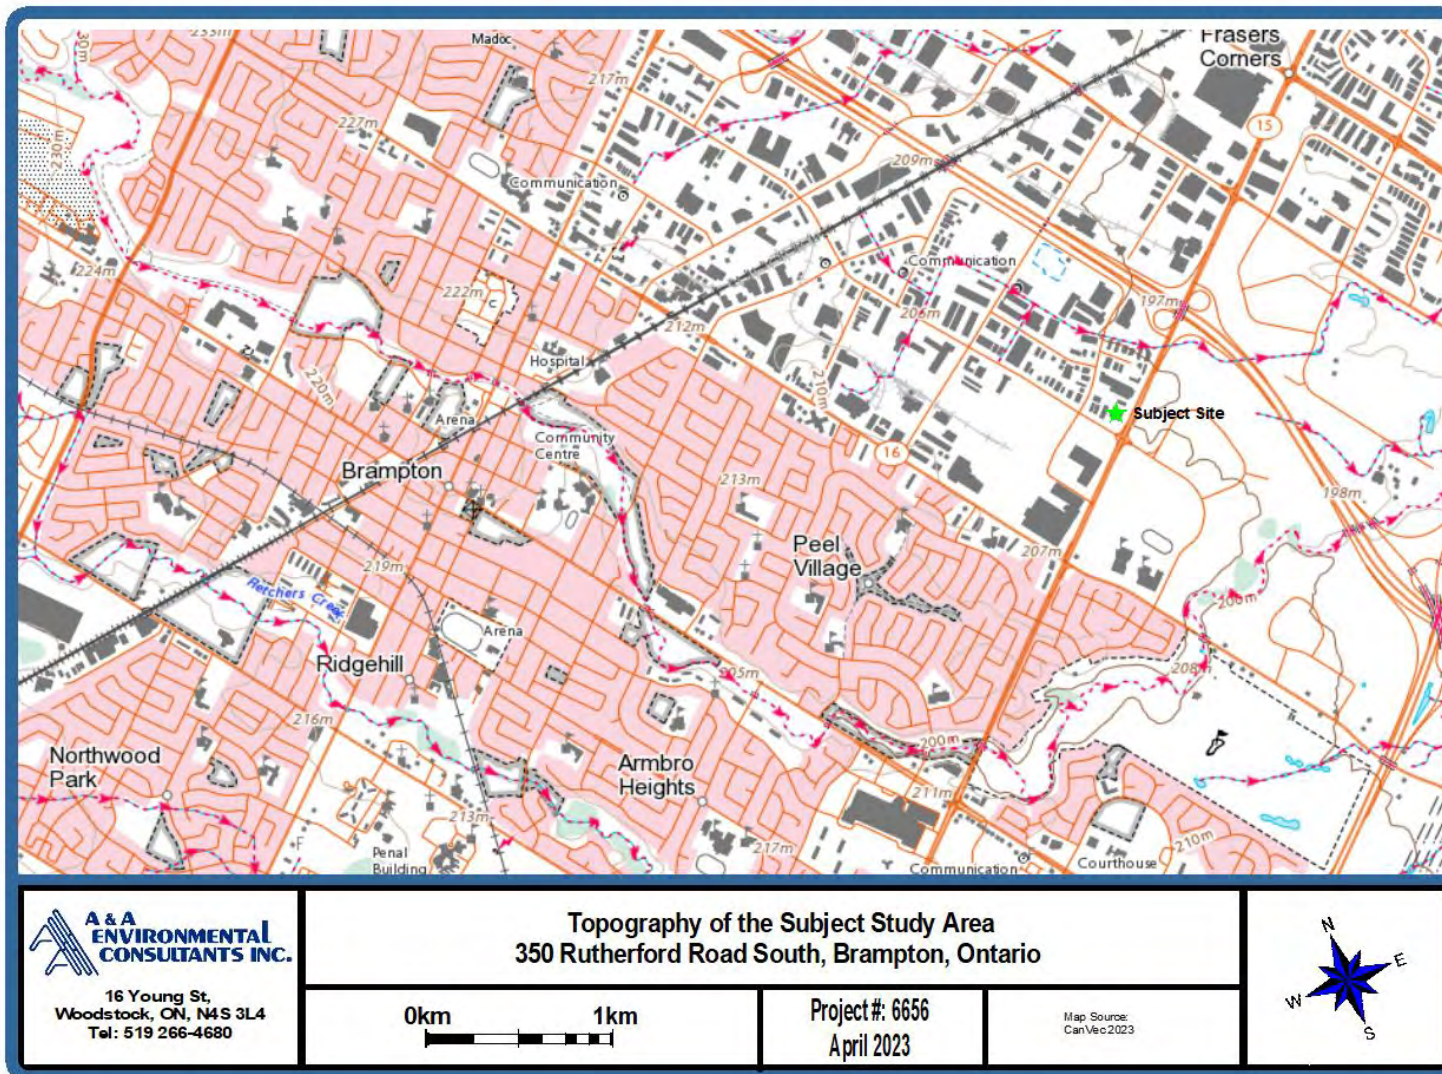

Figure 4 – Bedrock Geology of Ontario

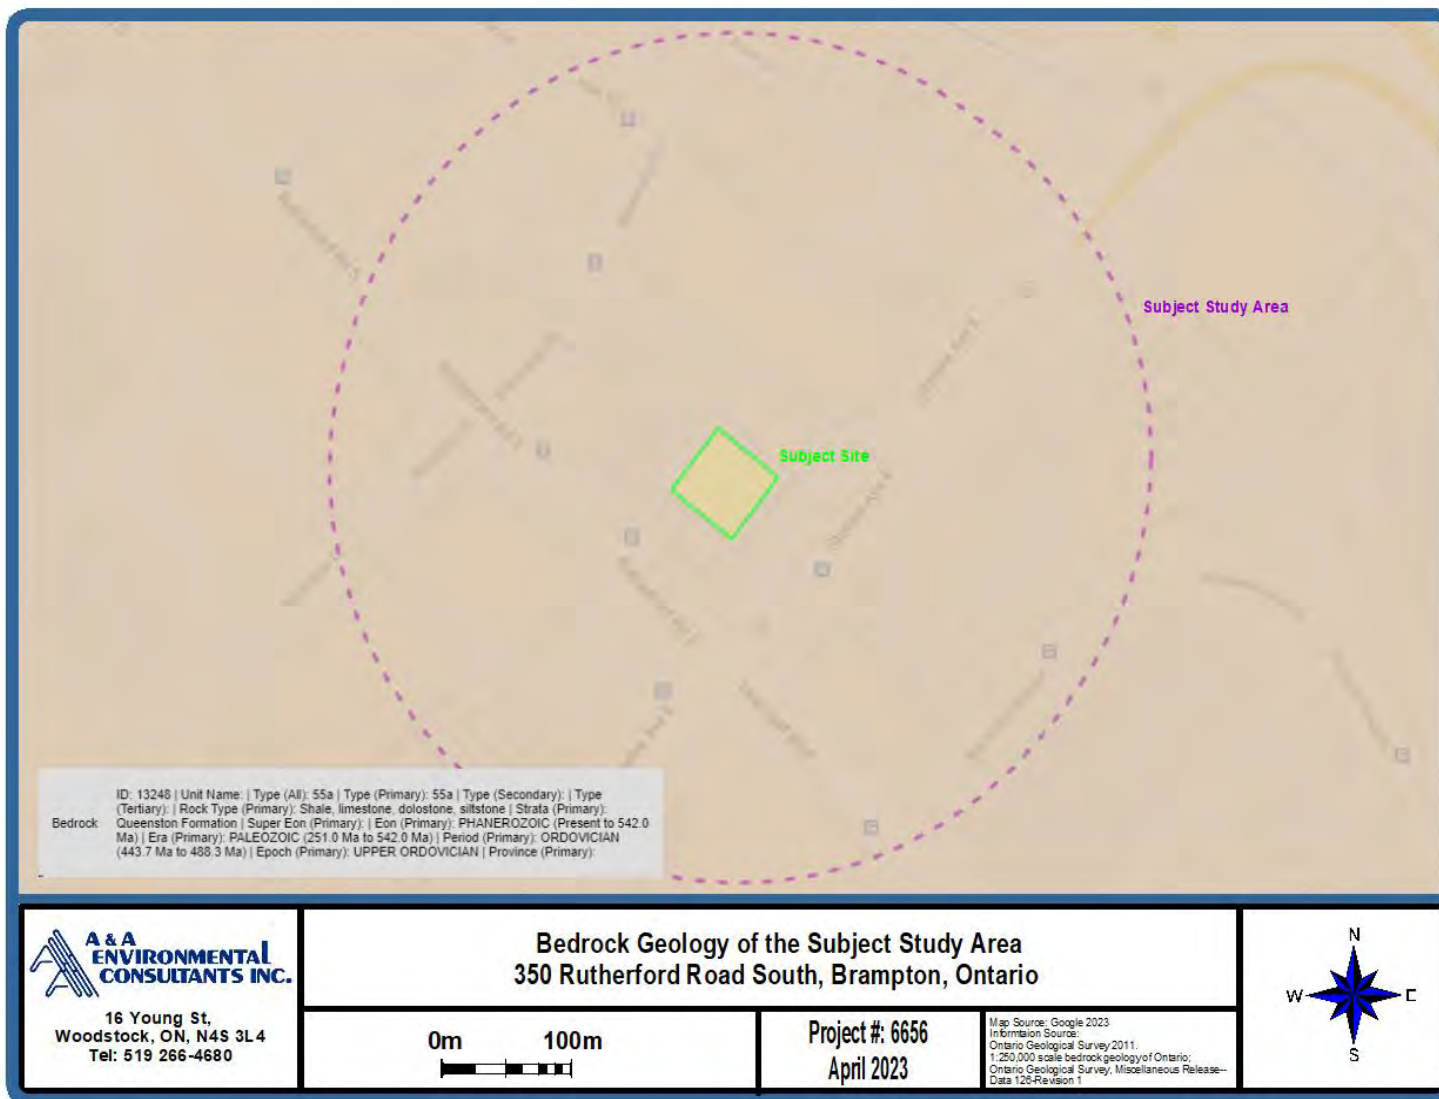

Figure 5 – Physiography of Southern Ontario

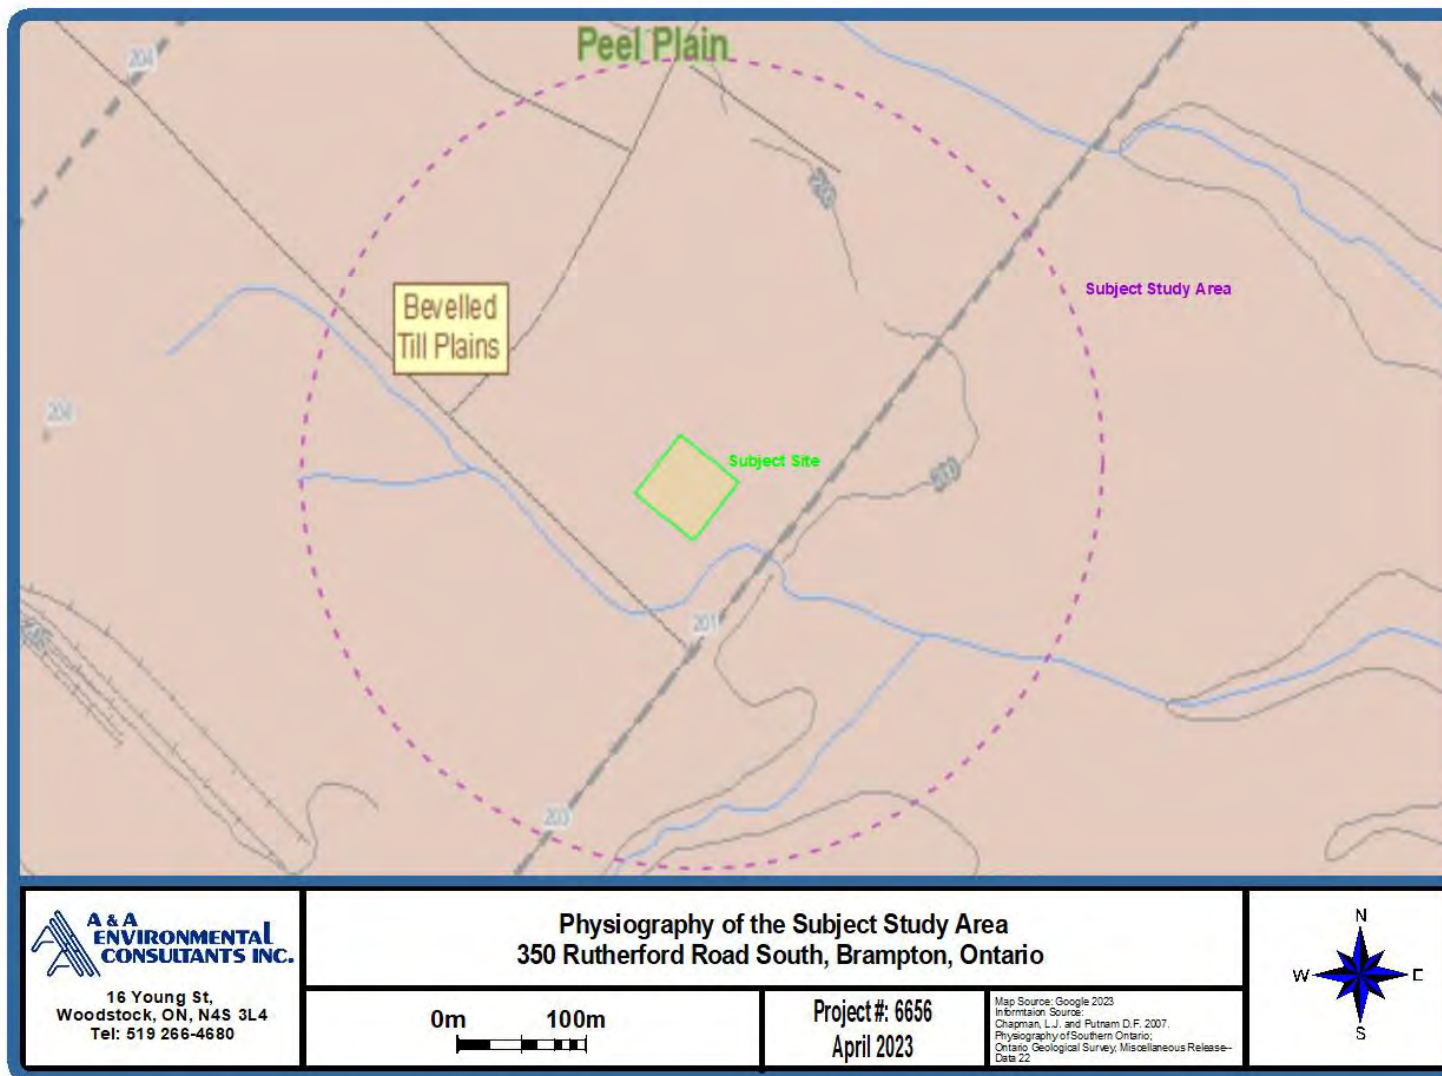

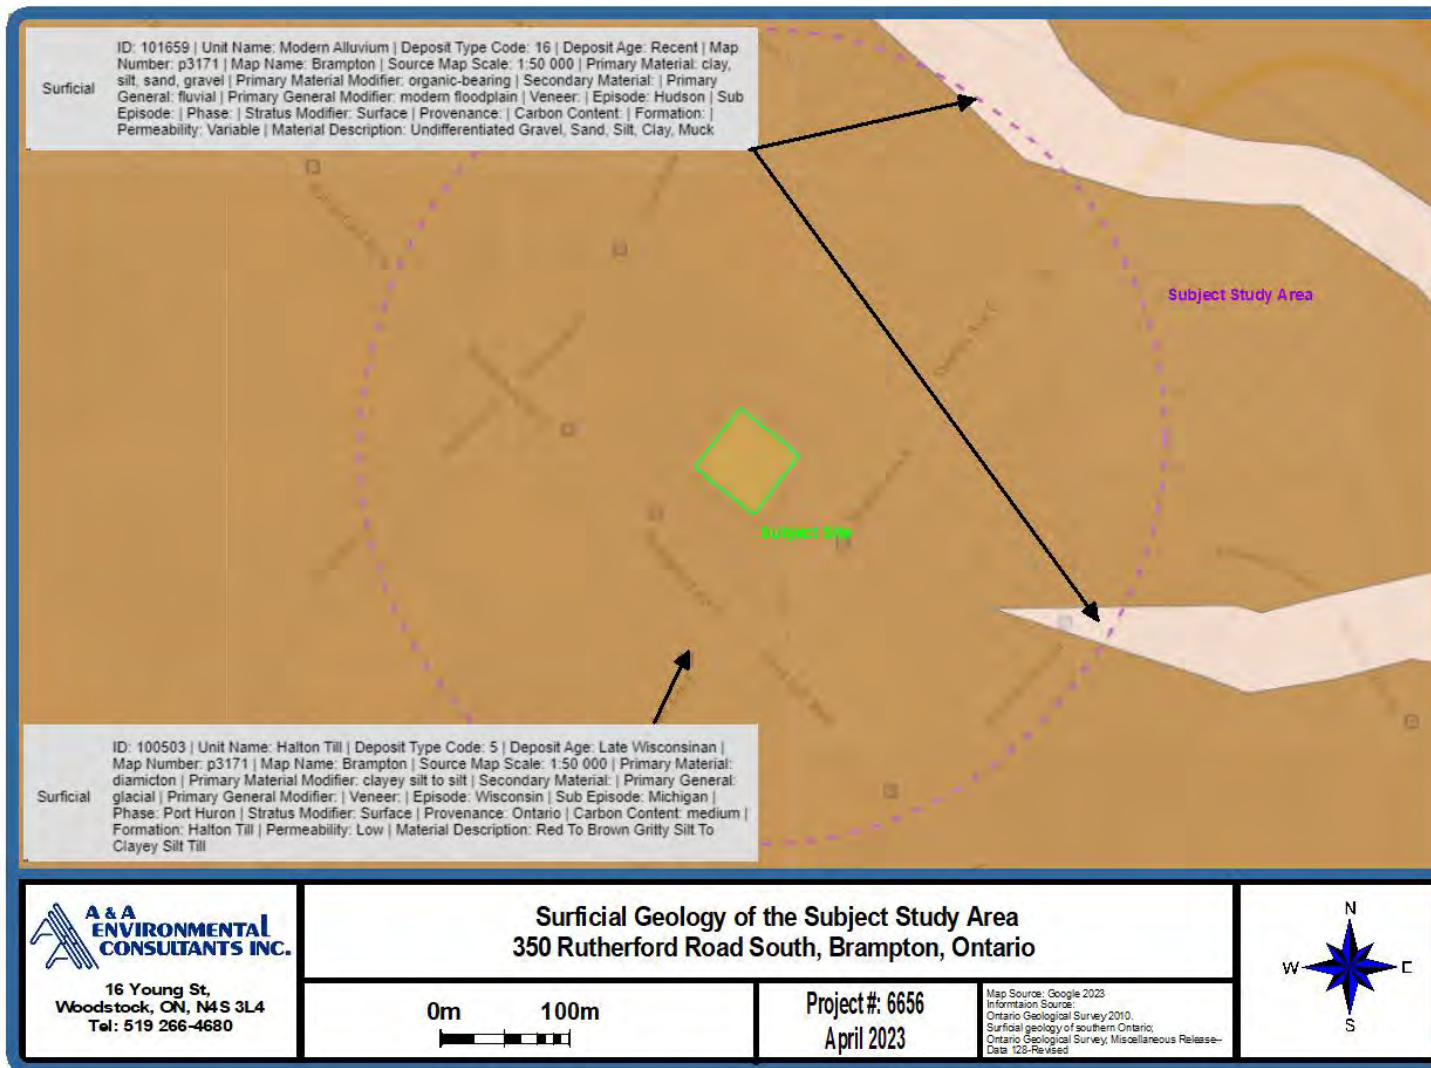

Figure 6 – Surficial Geology of Southern Ontario

### **4.3.3 Fill Materials**

No fill materials were observed on site.

### **4.3.4 Water Bodies and Areas of Natural Significance**

The closest surface water body in the area is an unnamed tributary of Etobicoke Creek, located 520 m to the northeast of the site. There was no standing water on the site at the time of the Phase I environmental site assessment. According to the ANSI report compiled by the Ministry of Natural Resources and Forestry GIS Imaging and provided by Ecolog ERIS, there are no ANSI unit within 2 km of the Subject Site, and no other areas of natural significance as defined in Subsection 1(1) of O. Reg. 153/04.

### **4.3.5 Well Records**

The MECP's Water Well Information System (WWIS) database was checked for the locations of any wells within 500 m of the subject site. The database has 27 well records within this area.

These are discussed below:

- 5 Unidentified wells installed in 2006 and 2011.
- 6 Monitoring wells installed in 2008, 2010, and 2012.
- 6 Monitoring test holes installed in 2012, 2013, and 2016.
- 2 Wells not used installed in 2004 and 2005.
- 8 Test holes installed in 2008 and 2013.

Brampton is serviced by a municipal supply; however, the site is located within the Toronto Source Protection Area. Therefore, the groundwater is considered potable at this time. No wells currently exist on the subject site itself.

#### **4.3.5.1 Location of Wells**

The wells identified by WWIS are located within 500 m of the Phase I property. No wells were identified on the subject site. The well closest to the subject site (well #7144756) is located approximately 57 m southwest of the subject site, being used for monitoring purposes and installed in 2010.

**4.3.5.2 Stratigraphy**

Within the limited MECP well records information, overburden material extends to approximately 15.8 mbgs, and is primarily composed of sand and silt materials. The soil stratigraphy for well #7144756 located approximately 57 m to the southwest is as follows:

Colour	Most Common Material	Other Materials	General Description	Depth From (m)	Depth To (m)
Well #7144756					
BLACK	GRAVEL		HARD	0.00	0.00
BROWN	SILT	GRAVEL/SAND		0.00	4.27
GREY	SILT		DENSE	4.27	9.14
GREY	SILT	SAND	LAYERED	9.14	14.94
GREY	SHALE	LIMESTONE	HARD	14.94	15.24

**4.3.5.3 Approximate Depth to Bedrock**

Based on the limited MECP WWIS database records, bedrock is at an average depth of 15.8 mbgs. As seen in well #7144756 bedrock was encountered around 14.94 mbgs.

**4.3.5.4 Approximate Depth to Water Table**

The MECP WWIS database indicated that groundwater was reported from wells drilled into the unconfined aquifer at an average depth of 7.82 mbgs. The database does not indicate that a confined aquifer or bedrock aquifer exists within the subject study area.

**4.4 Enhanced Investigation Property**

A site is considered an enhanced investigation property if it is being used or has been used, in whole or in part, in a manner described in clause 32 (1) (b) to which subsection 32 (2) does not apply. Under O. Reg. 153/04, an “enhanced investigation property” means a property that is being used or has been used, in whole or in part, in a manner described in clause 32 (1) (b) to which subsection 32 (2) does not apply. Clause 32 (1) (b) states:

(1) For the purposes of submitting a record of site condition for filing under subsection 168.4(1) of the Act in respect of a property, a phase two environmental site assessment is required,

- (b) If the property is used, or has ever been used, in whole or in part for an industrial use or for any of the following commercial uses,
- (i) As a garage,
  - (ii) As a bulk liquid dispensing facility, including a gasoline outlet, or
  - (iii) For the operation of dry-cleaning equipment. O. Reg. 511/09, s. 14.

Subsection 32 (2) states:

Clause (1) (b) does not apply if,

- (a) The property is currently used for an agricultural or other use, or a community use, an institutional use, a parkland use or a residential use; and
- (b) Since the latest date on which the property stopped being used for any of the types of property uses described in clause (1) (b), a record of site condition has been filed in the Registry under section 168.4 of the Act for the use described in clause (a). O. Reg. 511/09, s. 14.

Section 32 (1) does not apply to the property; therefore, it is not considered an Enhanced Investigation Property.

## **4.5 Site Operating Records**

The phase I property is currently a multi-tenant commercial/institutional building. A review of historical imagery and data suggests that remained undeveloped until 1979. The site was developed with a multi-tenant commercial office building which still remains on site. No other buildings have every been developed on site.

### **4.5.1 Regulatory Permits and Records**

The subject site is currently a multi-tenant commercial/institutional building. No regulatory permits or records are available.

#### **4.5.2 Material Safety Data Sheets (MSDS)**

The subject site is currently a multi-tenant commercial/institutional building. No MSDS are available.

#### **4.5.3 Chemical Use and Storage**

The subject site is currently a multi-tenant commercial/institutional building. No chemical storage was formerly or currently taking place. No record of chemical use or storage was identified.

#### **4.5.4 Inventory of USTs and ASTs**

The subject site is currently a multi-tenant commercial/institutional building. No records of USTs or ASTs were observed.

#### **4.5.5 Environmental Monitoring Data**

The subject site is currently a multi-tenant commercial/institutional building. No record of monitoring data was observed.

#### **4.5.6 Waste Management**

The subject site is currently a multi-tenant commercial/institutional building. No wastes are produced at the site.

#### **4.5.7 Process, Production and Maintenance Documents related to APECs**

The subject site is currently a multi-tenant commercial/institutional building. No process, production and maintenance documents related to APECs were observed.

#### **4.5.8 Records of Spills and Discharges of Contaminants**

The subject site is currently a multi-tenant commercial/institutional building. No record of spills and/or discharge of contaminants relating to the subject site are available.

#### **4.5.9 Emergency Response and Contingency Plans**

The subject site is currently a multi-tenant commercial/institutional building. No emergency response and contingency plans were observed.

#### **4.5.10 Environmental Audit Reports**

The subject site is currently a multi-tenant commercial/institutional building. No environmental audits were observed.

#### **4.5.11 Site Plan of Facility**

The phase I property is currently a multi-tenant commercial/institutional building. A review of historical imagery and data suggests that remained undeveloped until 1979. The site was developed with a multi-tenant commercial office building which still remains on site. No other buildings have every been developed on site.

## 5.0 INTERVIEWS

Attempts were made to contact persons knowledgeable about the history of the Phase I property. The following successful interview was conducted.

### 5.1 Interview #1

<b>Name of person being interviewed:</b>	Ravesh Tiwari
<b>Interview Method:</b>	In person
<b>Relation to the site:</b>	CEO of Unit 10
<b>Years known the property:</b>	~20 years
<b>Previous Land use of the property:</b>	Always an office complex
<b>Have equipment or vehicle maintenance ever occurred on site?</b>	No
<b>Have manufacturing or processing ever occurred on site?</b>	No
<b>Have any pesticides or herbicides been used or stored in large quantities on site?</b>	No
<b>Have there been any spills, fires or leaks on the site?</b>	No
<b>Have there ever been ASTs or USTs on the site or on the neighbouring properties?</b>	No
<b>Have there ever been any drycleaner operations on site or in the surrounding area?</b>	No
<b>Has there been any dumping that has occurred on site? (historically or currently)</b>	No
<b>Are you aware of any previous environmental reports that have been prepared for the property?</b>	No
<b>Additional Details:</b> N/A.	
<b>Assessment of Reliability</b>	Moderate

**5.2 Interview #2**

<b>Name of person being interviewed:</b>	Avneed Kaur
<b>Interview Method:</b>	In person
<b>Relation to the site:</b>	Employee @Steeles Health Clinic
<b>Years known the property:</b>	1.5 years
<b>Previous Land use of the property:</b>	Unknown
<b>Have equipment or vehicle maintenance ever occurred on site?</b>	No
<b>Have manufacturing or processing ever occurred on site?</b>	No
<b>Have any pesticides or herbicides been used or stored in large quantities on site?</b>	No
<b>Have there been any spills, fires or leaks on the site?</b>	No
<b>Have there ever been ASTs or USTs on the site or on the neighbouring properties?</b>	No
<b>Have there ever been any drycleaner operations on site or in the surrounding area?</b>	No
<b>Has there been any dumping that has occurred on site? (historically or currently)</b>	No
<b>Are you aware of any previous environmental reports that have been prepared for the property?</b>	No
<b>Additional Details:</b> N/A	
<b>Assessment of Reliability</b>	Low

**5.3 Interview #3**

<b>Name of person being interviewed:</b>	Venustus Bruke
<b>Interview Method:</b>	In person
<b>Relation to the site:</b>	Employee @ Universal Staffing Inc.
<b>Years known the property:</b>	Since March 2021
<b>Previous Land use of the property:</b>	Unknown
<b>Have equipment or vehicle maintenance ever occurred on site?</b>	No
<b>Have manufacturing or processing ever occurred on site?</b>	No
<b>Have any pesticides or herbicides been used or stored in large quantities on site?</b>	No
<b>Have there been any spills, fires or leaks on the site?</b>	No
<b>Have there ever been ASTs or USTs on the site or on the neighbouring properties?</b>	No
<b>Have there ever been any drycleaner operations on site or in the surrounding area?</b>	No
<b>Has there been any dumping that has occurred on site? (historically or currently)</b>	No
<b>Are you aware of any previous environmental reports that have been prepared for the property?</b>	No
<b>Additional Details:</b> N/A.	
<b>Assessment of Reliability</b>	Low

## **6.0 SITE RECONNAISSANCE**

### **6.1 General Requirements**

The site inspection was carried out by A&A consultant, Jennifer Osborne, on February 9, 2023, under cool rainy conditions.

#### **6.1.1 Site Photographs**

A photographic record of the site inspection and a plan with photo directions are shown in the figure below.

Figure 7 – Plan of Site Photographs

## 6.2 Specific Observations at Phase I Property

### 6.2.1 Buildings on Site

The site is currently occupied with a multi-tenant commercial/institutional building. The single-storey building was constructed approximately 50-60 years ago, with brick walls, corrugated metal roofing, and a wooden frame. The interior finishings included drywall and brick walls, vinyl floor tiles, and acoustic ceiling tiles. The building is heated and cooled through a roof-top HVAC system.

### 6.2.2 Designated Substances

Due to the age of the buildings, it is possible that designated substances may be present on site.

### 6.2.3 Suspected Asbestos-Containing Materials (ACMs)

As the building was reportedly built 50-60 years ago, it can be presumed that ACM may be present in some of the building materials. A designated substances survey (DSS) is recommended prior to any major renovations, or demolition.

#### **6.2.4 Lead-Based Paint**

As the building was reportedly built 50-60 years ago, it can be presumed that lead based paint may be present in some of deeper layers of paint. A DSS is recommended prior to any major renovations, or demolition.

#### **6.2.5 Mould**

No mould growth was observed at the time of the site visit.

#### **6.2.6 PCBs on Site**

No transformers were noted on site. As the building was reportedly built 50-60 years ago, it can be presumed that PCBs may be present in some of the building's electrical equipment. A DSS is recommended prior to any major renovations, or demolition.

#### **6.2.7 Air Conditioning/Ozone Depleting Substances**

The building is cooled through a roof-top HVAC system. If the building is to be demolished, or the HVAC units to be updated, these must be handled by a licensed professional.

#### **6.2.8 Radon**

A radon survey was conducted by the Peel Regional Health Unit (Region #3553), on 89 homes within their health district. Of the 89 homes 100% were below the 200 Bq/m<sup>3</sup> standard for Radon. This would classify the radon rank within the Peel Regional health district to be moderate.

#### **6.2.9 Mercury**

No mercury containing electrical equipment, or thermostats were observed.

#### **6.2.10 Underground Storage Tanks (UST) on Site**

No evidence of current USTs was observed. No records indicate the presence of USTs on the subject site.

#### **6.2.11 Above-ground Storage Tanks (AST) on Site**

No evidence of historic or current ASTs were observed.

#### **6.2.12 Oil/Water Separators on Site**

No OWS were observed.

#### **6.2.13 Potable/Non-Potable Water Supply on Site**

Brampton is serviced by a municipal supply; however, the site is located within the Toronto Source Protection Area. Therefore, the groundwater is considered potable at this time. No wells currently exist on the subject site itself.

#### **6.2.14 Underground Utilities**

Underground utility lines are present running northeast-southwest along Steeles Avenue East, and northwest-southeast along Rutherford Road South. As catchment basins were observed in the parking area surrounding the subject site, it is presumed that underground utilities run below the surface of the subject site.

#### **6.2.15 Hydraulic Lifts on Site**

No hydraulic lifts were observed during the site visit.

#### **6.2.16 Exit/Entry Points**

There is access to the site off of Rutherford Road South, to the southwest of the site, and off of Bramsteele Road to the northwest of the site.

#### **6.2.17 Heating System**

The building is heated through a roof-top HVAC unit.

#### **6.2.18 Drains and Sumps**

Drains were observed in the bathrooms. No sumps were observed on the subject site.

#### **6.2.19 Unidentified Substances on Site**

No unidentified substances were observed on the subject site.

#### **6.2.20 Hazardous Materials on Site**

No hazardous materials were observed on the subject site.

#### **6.2.21 Wastes/By-products**

Regular commercial office waste is produced on site. Waste is placed in a dumpster and hauled off-site by Miller Waste, a private waste contractor.

#### **6.2.22 Liquid Discharge/Waste on Site**

No liquid discharges or waste is left on site.

#### **6.2.23 Materials Handling and Storage Containers on Site**

No storage containers were observed on site.

#### **6.2.24 Stains and Odours on Site**

No odours were detected, nor stains observed at the time of site investigation.

#### **6.2.25 Current and Former Wells on Site**

No wells were observed on the subject site.

#### **6.2.26 Sewage Works on Site**

The subject property is connected to the municipal sewer system.

#### **6.2.27 Yard Areas**

The entire subject site is occupied by the building. The area around the building is occupied by an asphalted parking lot.

#### **6.2.28 Current/Former Railway Lines**

No current or former railway lines were observed within 300 m of the subject site.

#### **6.2.29 Stained Yard Areas**

No unusual stains were observed on or within the yard areas.

### **6.2.30 Stressed Vegetation**

No stressed vegetation was observed on the subject site.

### **6.2.31 Fill Materials**

No evidence of recent fill material was observed on the subject site.

## **6.3 Potentially Contaminating Activities**

Under O. Reg. 153/04, a potentially contaminating activity is defined as follows: a potentially contaminating activity (PCA) means a use or activity set out in Column A of Table 2 of Schedule D that is occurring or has occurred in a Phase I study area. No PCAs were identified on site during the site visit.

## **6.4 Summary of Investigation**

Access was provided to A&A to conduct the Phase I investigation. The site is currently by a multi-unit commercial building. No PCAs were identified on site or in the subject study area during the site visit.

## **7.0 REVIEW AND EVALUATION OF INFORMATION**

### **7.1 Current and Past Uses**

The historical chain of title search indicates that the Phase I property was first owned by the Kings College in 1828 after which it was privately owned by individuals and remained undeveloped until 1979. The site was developed with a multi-tenant commercial office building which still remains on site. No other buildings have every been developed on site. The current registered owner, Soneil Mississauga Inc., took possession of the property in May 2017.

**Table 8 – “TABLE OF CURRENT AND PAST USES OF THE PHASE ONE PROPERTY”**

(Refer to clause 16(2)(b), Schedule D, O. Reg. 153/04)

Year	Name of Owner	Description of Property Use	Property Use <sup>1</sup>	Other Observations from Aerial Photographs, Fire Insurance Plans, Etc.
<b>Chain of Title: PT LT 1 CON 2 EHSCH AS IN RO1129939; S/T VS193858 BRAMPTON; PIN: 14031-0017 (LT)</b>				
January 3, 1828- November 6, 1834	Kings College	Assumed undeveloped lands	Agricultural or Other Use	Land title entry Patent from the Crown
November 6, 1834- May 8, 1873	Robert Broddy	Assumed undeveloped lands	Agricultural or Other Use	Land title entry Deed 635
May 8, 1873-April 26, 1875	James Broddy	Assumed undeveloped lands	Agricultural or Other Use	Land title entry Deed 1534
April 26, 1875- February 20, 1892	Robert P. Broddy	Assumed undeveloped lands	Agricultural or Other Use	Land title entry Deed 2133
February 20, 1892-July 30, 1903	Robert J. Broddy	Assumed undeveloped lands	Agricultural or Other Use	Land title entry Deed 6861
July 30, 1903-July 13, 1905	George Broddy	Assumed undeveloped lands	Agricultural or Other Use	Land title entry Deed 521
July 13, 1905-May 2, 1911	James Duncan & Margaret Duncan	Assumed undeveloped lands	Agricultural or Other Use	Land title entry Deed 9937
May 2, 1911-March 11, 1915	James F. Cook	Assumed undeveloped lands	Agricultural or Other Use	Land title entry Deed 11281
March 11, 1915- October 11, 1918	Laird M. Ingram	Assumed undeveloped lands	Agricultural or Other Use	Land title entry Deed 12278
October 11, 1918- October 31, 1923	Henry Robinson	Assumed undeveloped lands	Agricultural or Other Use	Land title entry Deed 13336
October 31, 1923- November 1, 1923	James Wardlaw	Assumed undeveloped lands	Agricultural or Other Use	Land title entry Deed 14970
November 1, 1923- April 1, 1924	William L. Wilkinson	Assumed undeveloped lands	Agricultural or Other Use	Land title entry Deed 14972
April 1, 1924-July 9, 1925	Edmund H. Wilson & John A. Armstrong	Assumed undeveloped lands	Agricultural or Other Use	Land title entry Deed 15095
July 9, 1925-May 28, 1928	John A. Armstrong	Assumed undeveloped lands	Agricultural or Other Use	Land title entry Deed 15430
May 28, 1928-June 7, 1939	Charles E. Wardlaw	Assumed undeveloped lands	Agricultural or Other Use	Land title entry Deed 16301

Year	Name of Owner	Description of Property Use	Property Use <sup>1</sup>	Other Observations from Aerial Photographs, Fire Insurance Plans, Etc.
June 7, 1939-August 9, 1966	Donald C. Armstrong	Undeveloped Lands	Agricultural or Other Use	Land title entry Deed 18365. The 1954 and 1963 aerial images indicate the site is undeveloped.
August 9, 1966-August 3, 1972	Bramsteele Industrial Estates Limited	Undeveloped Lands	Agricultural or Other Use	Land title entry Deed 17266VS
August 3, 1972-January 30, 1975	Eglinton Heating & Air Conditioning Limited	Undeveloped Lands	Agricultural or Other Use	Land title entry Deed 223837VS. The 1973 aerial image indicates that the site is undeveloped.
January 30, 1975-June 1, 1988	C&C Investments Inc.	Multi-tenant commercial office building	Commercial Use	Land title entry Deed 341703VS. Historical documents indicate the building was constructed in 1979. The 1981 aerial image depicts the site as occupied by the commercial building seen on site today. The 1983 city directory listing indicates the site is a multi-tenant commercial office building. The 1987 site plan indicates that there are 16 units.
June 1, 1988-November 29, 1996	Q& G Masonry Company Limited	Multi-tenant commercial office building	Commercial Use	Land title entry Deed 848045. The 1990 and 1994 city directories indicated the site was a commercial office building.
November 29, 1996-November 10, 2005	Maple Hill Properties Ltd.	Old Beef Market A&M Transport Office Century 21 Real Estate Coldwell Pinnacle Real Estate Safety Superstore Sleep County Canada	Commercial Use	Land title entry Deed RO1129939. The 2000 inspection report noted occupants of each of the units.
November 10, 2005-May 2, 2017	Q&G Group Inc.	Multi-tenant commercial office building	Commercial Use	Land title entry Deed PR960806. Name Change from Q&G Masonry Company Limited to Q&G Group Inc., in July 2013 (PR960806)

Year	Name of Owner	Description of Property Use	Property Use <sup>1</sup>	Other Observations from Aerial Photographs, Fire Insurance Plans, Etc.
May 2, 2017-present	Soneil Mississauga Inc.	Brampton Skin Care Academy Inc EXIS Employment Hayatn Ayurveda Liason College Universal Staffing Inc McClelland Insurance Century 21 Canadian Association of Accredited Mortgage Professionals State Farm Insurance Steeles Health Centre CanSTEM	Commercial Use	Land title entry Deed PR3120613. Name change from Soneil Steeles Inc., to Soneil Mississauga Inc. in January 2022 (PR3972919). The 2023 site visit confirms the site is still operating as a multi-tenant commercial building.

Notes:

1 - for each owner, specify one of the following types of property use (as defined in O. Reg. 153/04) that applies:

- Agriculture or other use
- Commercial use
- Community use
- Industrial use
- Institutional use
- Parkland use
- Residential use

2 - when submitting a record of site condition for filing, a copy of this table must be attached

## 7.2 Potentially Contaminating Activities (PCAs)

No on-site PCAs relating to the subject site were identified. Ten off-site PCAs were identified in the subject study area as detailed in the table below.

**Table 9 – Potentially Contaminating Activities**

Location of PCA	PCA	Potential APEC (yes/no)	Justification
334 Rutherford Road South	PCA #52 – Storage, maintenance, fuelling and repair of equipment, vehicles, and material used to maintain transportation systems	No	The 1983-2000 city directories indicate the site as 334 Rutherford Rd S has an automotive repair tenant. As this record is over 70 m cross gradient, with two preferential pathways between the site and this record; no APEC is created.
	PCA #49 – Salvage Yard, including automobile wrecking		The AUWR records indicate that 334 Rutherford Rd S (Affordable Automotive Repairs) is registered as a car wrecker and recycling. As this record is over 70 m cross gradient, with two preferential pathways between the site and this record; no APEC is created.
322 Rutherford Road South	PCA #49 – Salvage Yard, including automobile wrecking	No	The AUWR records indicate that 322 Rutherford Rd S (Mega City Auto Recycling Inc) is registered as an automobile wrecker and recycling. As this record is over 245m, with multiple preferential pathways between the site and this record; no APEC is created.
308 Rutherford Road South	PCA #10 – Commercial Autobody Shops	No	The EASR records indicate that 308 Rutherford Rd S is registered as an automotive refinishing facility. As this record is located over 298 m from the subject site, no APEC is created.
21 Hale Road	PCA #10 – Commercial Autobody Shops	No	The EASR records indicate that 21 Hale Road is registered as an automotive refinishing facility. As this record is located over 296 m from the subject site, no APEC is created.

Location of PCA	PCA	Potential APEC (yes/no)	Justification
15 Hale Road	PCA #10 – Commercial Autobody Shops	No	The EASR records indicate that 15 Hale Road is registered as an automotive refinishing facility. As this record is located over 289 m from the subject site, no APEC is created.
338 Rutherford Road South	PCA #34 – Metal Fabrication	No	Metro Fence & Fittings Limited was registered from 1992-2014 for generating wastes associated with fabricated wire products manufacturing. As the record is located over 59 m cross gradient from the subject site, with a preferential pathway in between the site and the record, no APEC is created.
17 Bramsteede Road	PCA #52 – Storage, maintenance, fuelling and repair of equipment, vehicles, and material used to maintain transportation systems	No	Xtreme Towing located at 17 Bramsteede Rd is registered as generating waste oils and lubricants as an automobile towing company. As the site is located over 107 m cross gradient from the subject site, with multiple preferential pathways between the site and the record, no APEC is created.
31 Bramsteede Road	PCA #57 – Vehicle and Associated Parts Manufacturing	No	QBD Cooling Systems is registered from 2002-2021 as generating wastes associated with commercial machinery manufacturing. As the record is located over 116 m downgradient from the subject site, no APEC is created.
	PCA #54 – Textile Manufacturing and Processing		Records indicate that Tiny Tots Knitting Mills Inc, was located at 31 Bramsteede Rd between 1986-1998. As the record is located over 116 m downgradient from the subject site, no APEC is created.

### 7.3 Areas of Potential Environmental Concern (APECs)

No APECs were created on the subject site from the PCAs identified above.

### **7.3.1 Uncertainty or Absence of Information**

The Phase One ESA research pertaining to the study area was completed in full. There were no deviations from the Phase One ESA requirements specified in Ontario Regulation 153/04 or absence of information that have resulted in uncertainty that would affect the validity of the Phase I conceptual site model. There is no uncertainty or absence of information noted in the Phase I ESA. The Phase One ESA is considered accurate and valid.

## **7.4 Phase I Conceptual Site Model (CSM)**

An extensive historical search pertaining to the Phase I property at 350 Rutherford Road South, Brampton, Ontario (hereinafter referred to as the “subject site” or the “Phase I property”) was conducted. The Phase I property is current zoned SC – service commercial. It is understood that the client wants to ensure that institutional use within the building would be permitted by the Ministry of the Environment, Conservation and Parks (MECP), therefore a Record of Site Condition under Ontario Regulation 153/04 (revised December 2009 and implemented July 1<sup>st</sup>, 2011) is required. This report has been prepared to meet the requirements of the regulation. Through this review, no on- or off-site PCAs that would create APECs were identified.

### **7.4.1 Site Plan of Facility**

The phase I property is currently a multi-tenant commercial/institutional building. A review of historical imagery and data suggests that remained undeveloped until 1979. The site was developed with a multi-tenant commercial office building which still remains on site. No other buildings have every been developed on site.

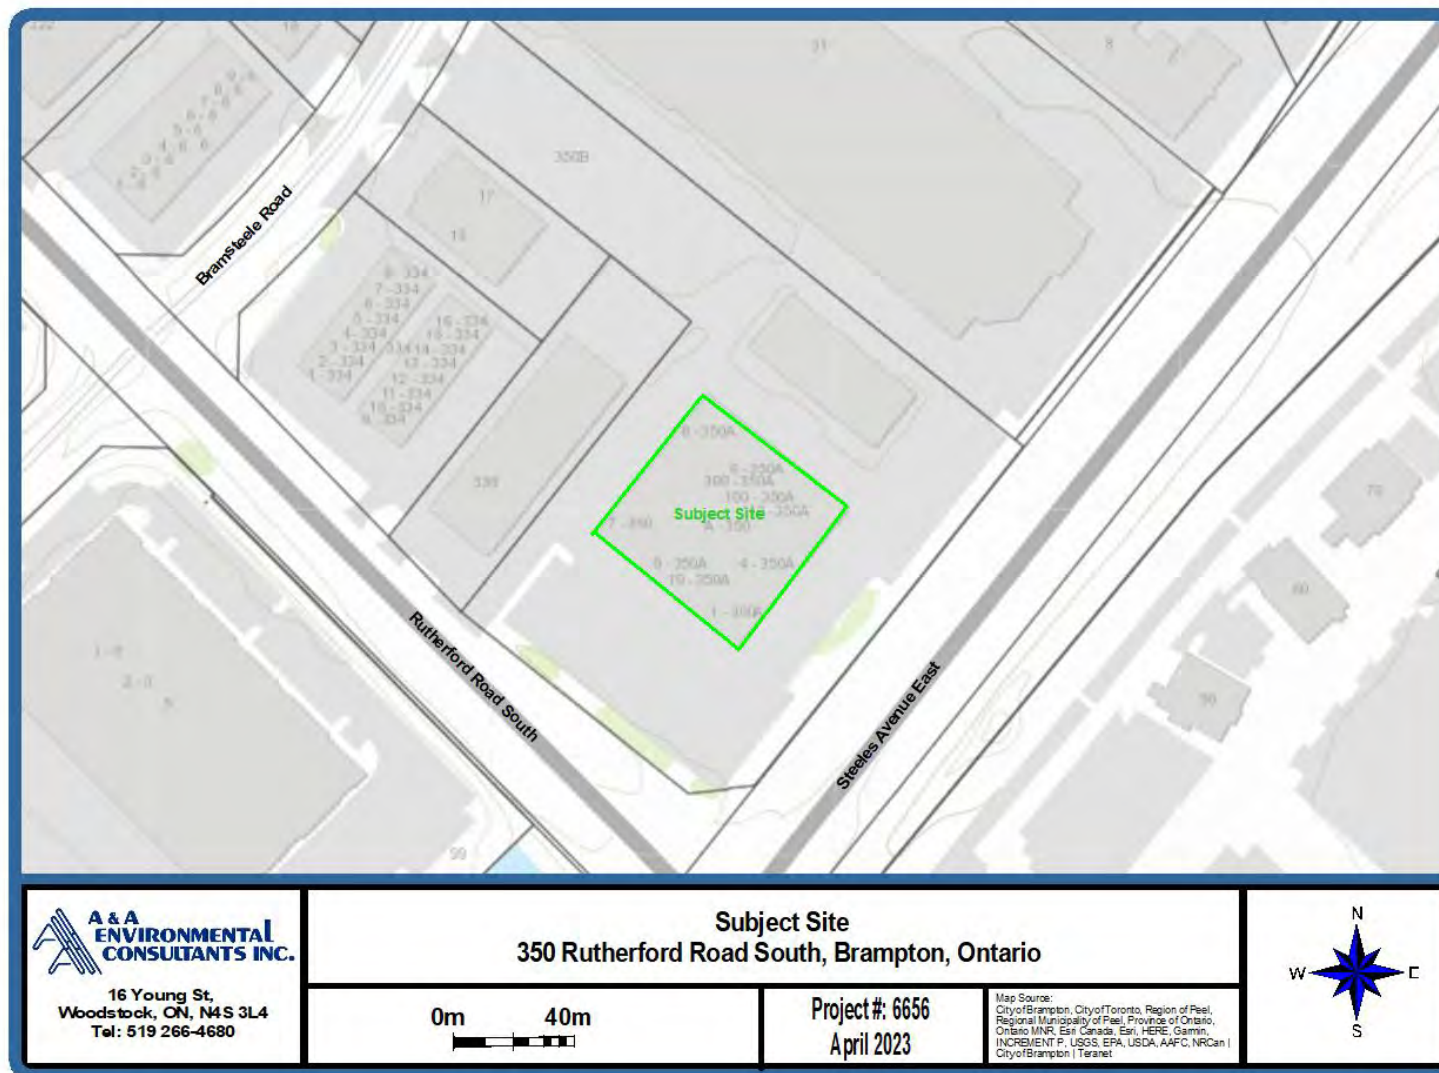

### **7.4.2 Surface Water Bodies in the Subject Study Area**

The closest surface water body in the area is an unnamed tributary of Etobicoke Creek, located 520 m to the northeast of the site. There was no standing water on the site at the time of the Phase I environmental site assessment.

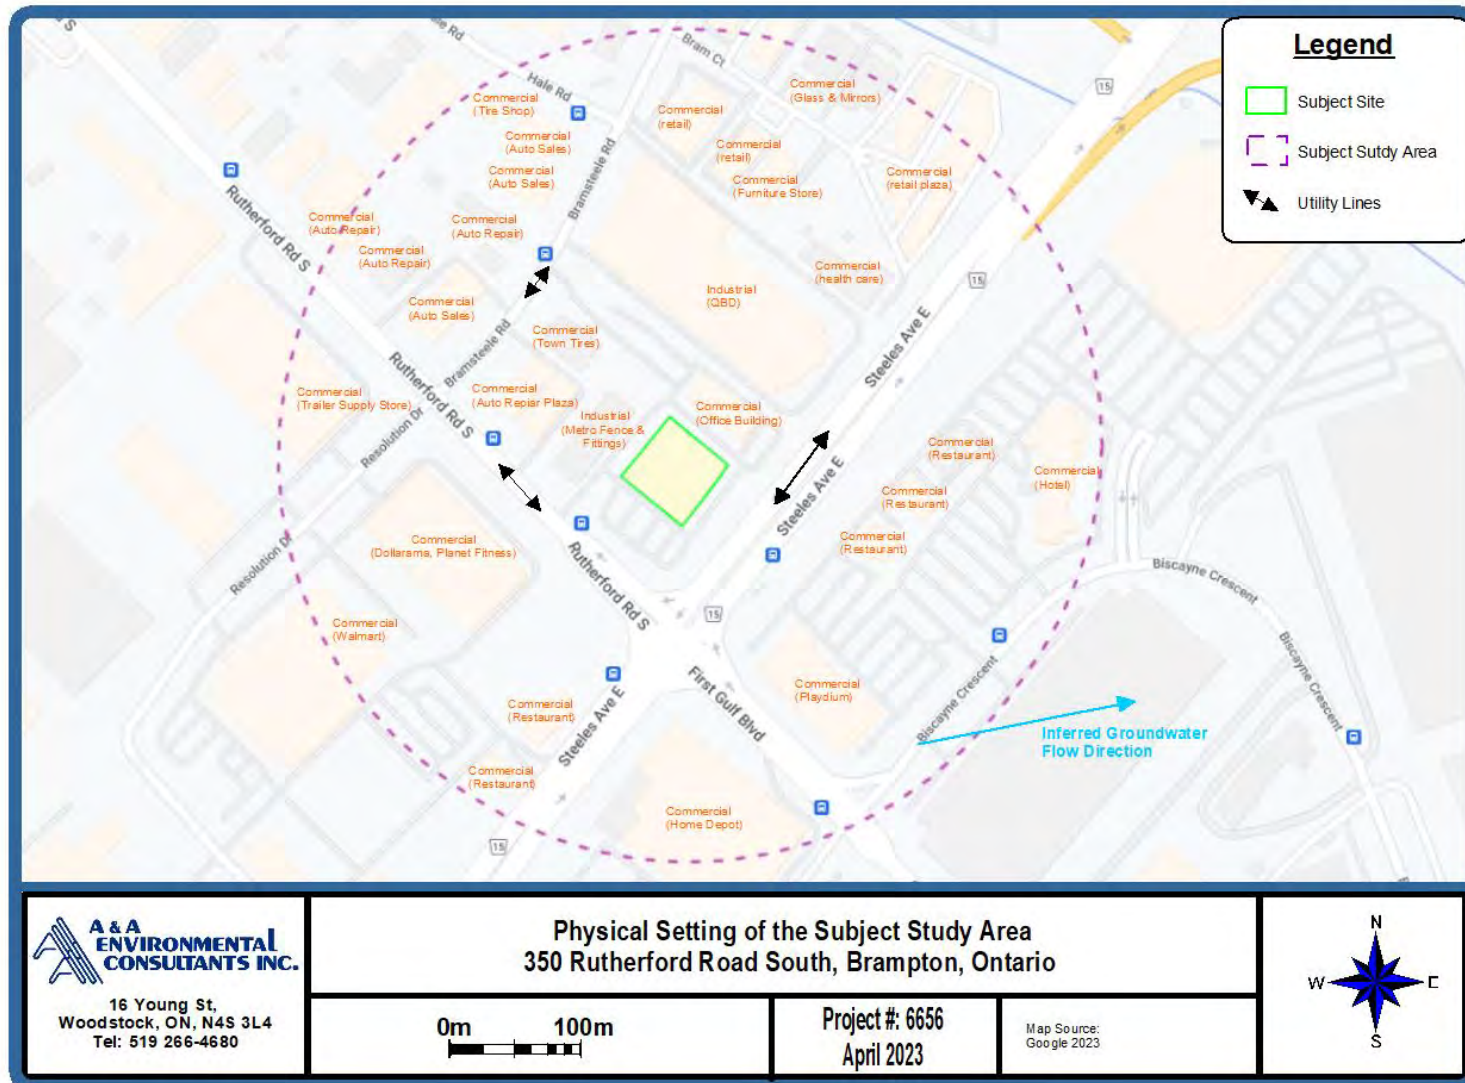

### **7.4.3 Areas of Natural Significance in the Subject Study Area**

According to the ANSI report compiled by the Ministry of Natural Resources and Forestry GIS Imaging and provided by Ecolog ERIS, there are no ANSI unit within 2 km of the Subject Site, and no other areas of natural significance as defined in Subsection 1(1) of O. Reg. 153/04.

CSM Figure 1 – Subject Site Location

CSM Figure 2 – Physical Setting of Subject Study Area

#### **7.4.4 Drinking Water Wells in the Subject Study Area**

The MECP's Water Well Information System (WWIS) database was checked for the locations of any wells within 500 m of the subject site. The database has 27 well records within this area.

These are discussed below:

- 5 Unidentified wells installed in 2006 and 2011.
- 6 Monitoring wells installed in 2008, 2010, and 2012.
- 6 Monitoring test holes installed in 2012, 2013, and 2016.
- 2 Wells not used installed in 2004 and 2005.
- 8 Test holes installed in 2008 and 2013.

Brampton is serviced by a municipal supply; however, the site is located within the Toronto Source Protection Area. Therefore, the groundwater is considered potable at this time. No wells currently exist on the subject site itself.

#### **7.4.5 Roads within the Phase I Study Area**

The Phase I property is bounded by Rutherford Road South to the South, and Steeles Avenue East to the east. Commercial/ light industrial buildings bound the site on the north and west. All roads within the subject study area can be seen in CSM Figure 2.

#### **7.4.6 Adjacent Neighbours and Operations**

The Phase I property is located in an urban area surrounded by:

- North: Industrial (QBD a commercial refrigerator supplier);
- South: Rutherford Road South, followed by a parking lot;
- East: Steeles Avenue East, followed by commercial (Playdium and restaurants)
- West: Light industrial (Metro Fence & Fittings Ltd.)

#### **7.4.7 Discussion of PCAs on Site and In the Subject Study Area**

Under O. Reg. 153/04, a potentially contaminating activity is defined as follows: a potentially contaminating activity (PCA) means a use or activity set out in Column A of Table 2 of Schedule D

that is occurring or has occurred in a Phase I study area. No on-site PCAs relating to the subject site were identified. Ten off-site PCAs were identified in the subject study area.

Location of PCA	PCA	Potential APEC (yes/no)	Justification
334 Rutherford Road South	PCA #52 – Storage, maintenance, fuelling and repair of equipment, vehicles, and material used to maintain transportation systems	No	The 1983-2000 city directories indicate the site as 334 Rutherford Rd S has an automotive repair tenant. As this record is over 70 m cross gradient, with two preferential pathways between the site and this record; no APEC is created.
	PCA #49 – Salvage Yard, including automobile wrecking		The AUWR records indicate that 334 Rutherford Rd S (Affordable Automotive Repairs) is registered as a car wrecker and recycling. As this record is over 70 m cross gradient, with two preferential pathways between the site and this record; no APEC is created.
322 Rutherford Road South	PCA #49 – Salvage Yard, including automobile wrecking	No	The AUWR records indicate that 322 Rutherford Rd S (Mega City Auto Recycling Inc) is registered as an automobile wrecker and recycling. As this record is over 245m, with multiple preferential pathways between the site and this record; no APEC is created.
308 Rutherford Road South	PCA #10 – Commercial Autobody Shops	No	The EASR records indicate that 308 Rutherford Rd S is registered as an automotive refinishing facility. As this record is located over 298 m from the subject site, no APEC is created.
21 Hale Road	PCA #10 – Commercial Autobody Shops	No	The EASR records indicate that 21 Hale Road is registered as an automotive refinishing facility. As this record is located over 296 m from the subject site, no APEC is created.
15 Hale Road	PCA #10 – Commercial Autobody Shops	No	The EASR records indicate that 15 Hale Road is registered as an automotive refinishing facility. As this record is located over 289 m from the subject site, no APEC is created.

Location of PCA	PCA	Potential APEC (yes/no)	Justification
338 Rutherford Road South	PCA #34 – Metal Fabrication	No	Metro Fence & Fittings Limited was registered from 1992-2014 for generating wastes associated with fabricated wire products manufacturing. As the record is located over 59 m cross gradient from the subject site, with a preferential pathway in between the site and the record, no APEC is created.
17 Bramsteele Road	PCA #52 – Storage, maintenance, fuelling and repair of equipment, vehicles, and material used to maintain transportation systems	No	Xtreme Towing located at 17 Bramsteele Rd was registered as generating waste oils and lubricants as an automobile towing company. As the site is located over 107 m cross gradient from the subject site, with multiple preferential pathways between the site and the record, no APEC is created.
31 Bramsteele Road	PCA #57 – Vehicle and Associated Parts Manufacturing	No	QBD Cooling Systems is registered from 2002-2021 as generating wastes associated with commercial machinery manufacturing. As the record is located over 116 m downgradient from the subject site, no APEC is created.
	PCA #54 – Textile Manufacturing and Processing		Records indicate that Tiny Tots Knitting Mills Inc, was located at 31 Bramsteele Rd between 1986-1998. As the record is located over 116 m downgradient from the subject site, no APEC is created.

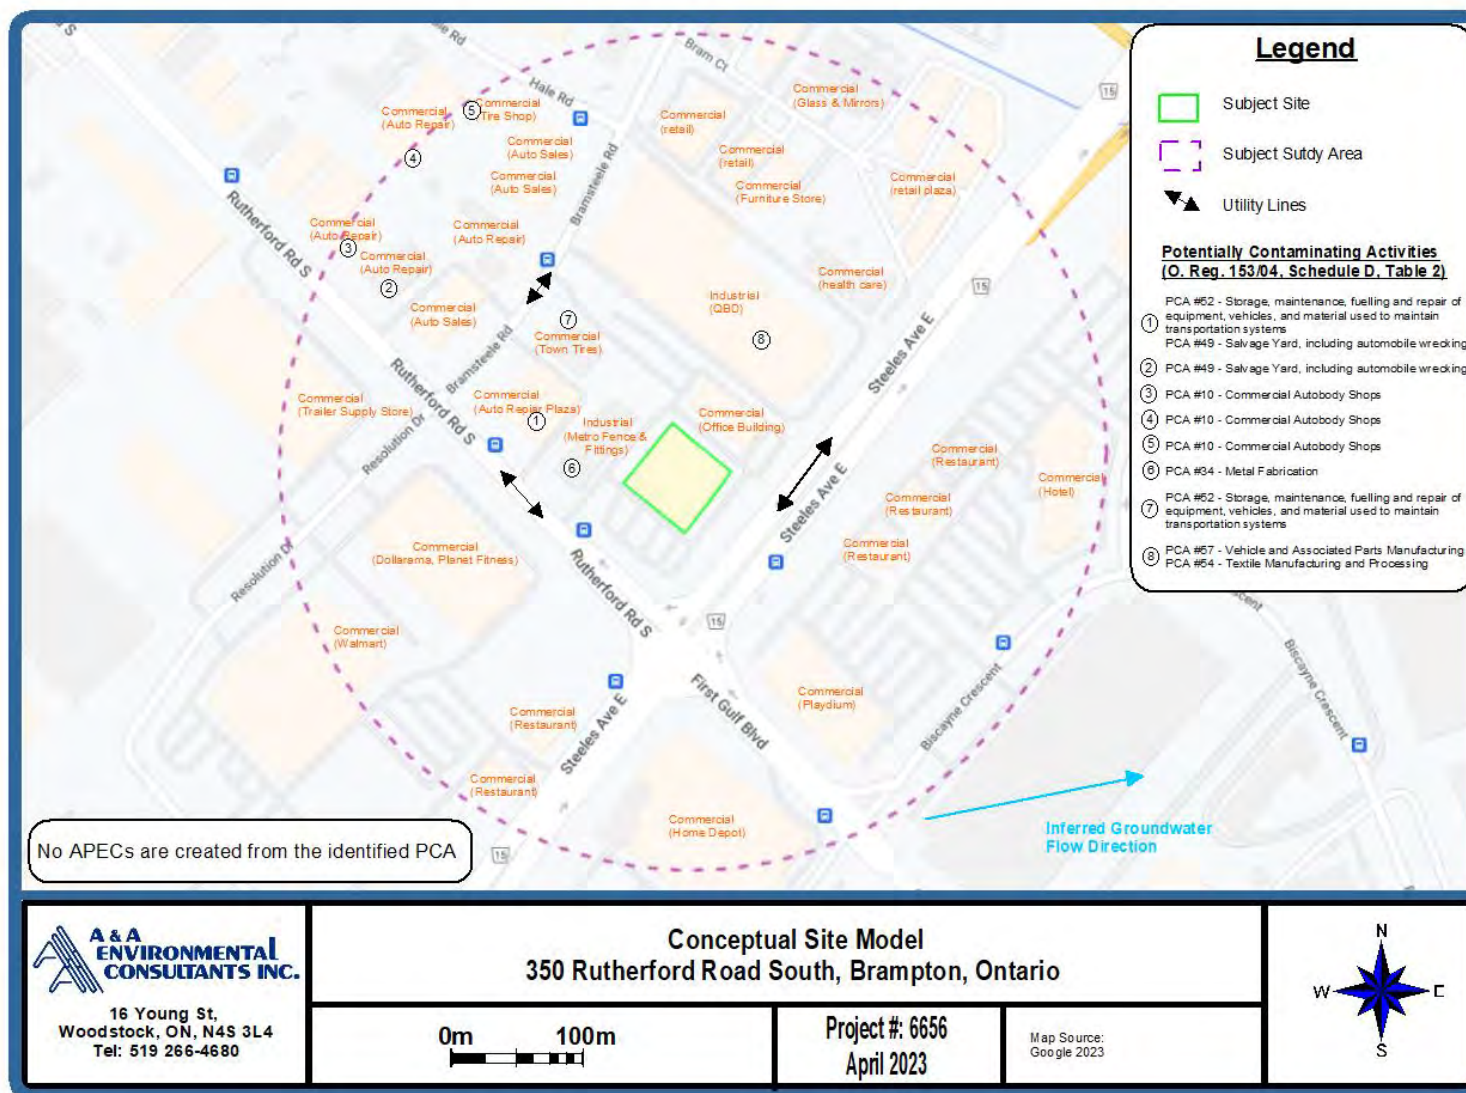

#### 7.4.8 Discussion of APECs

No APECs were created on the subject site from the PCAs identified above.

#### 7.4.9 Contaminants of Potential Concern

No contaminants of potential concern were identified on site.

CSM Figure 3 – Phase I Conceptual Site Model

#### **7.4.10 Underground Utilities Affecting Potential Contaminant Distribution and Transport**

Underground utility lines are present running northeast-southwest along Steeles Avenue East, and northwest-southeast along Rutherford Road South. As catchment basins were observed in the parking area surrounding the subject site, it is presumed that underground utilities run below the surface of the subject site. (CSM Figure 3). There are no PCAs present in areas that would create an increased risk from the utility lines acting as a preferential pathway for contaminant distribution or transport.

#### **7.4.11 Topography, Geology and Hydrogeology**

##### **7.4.11.1 Topography**

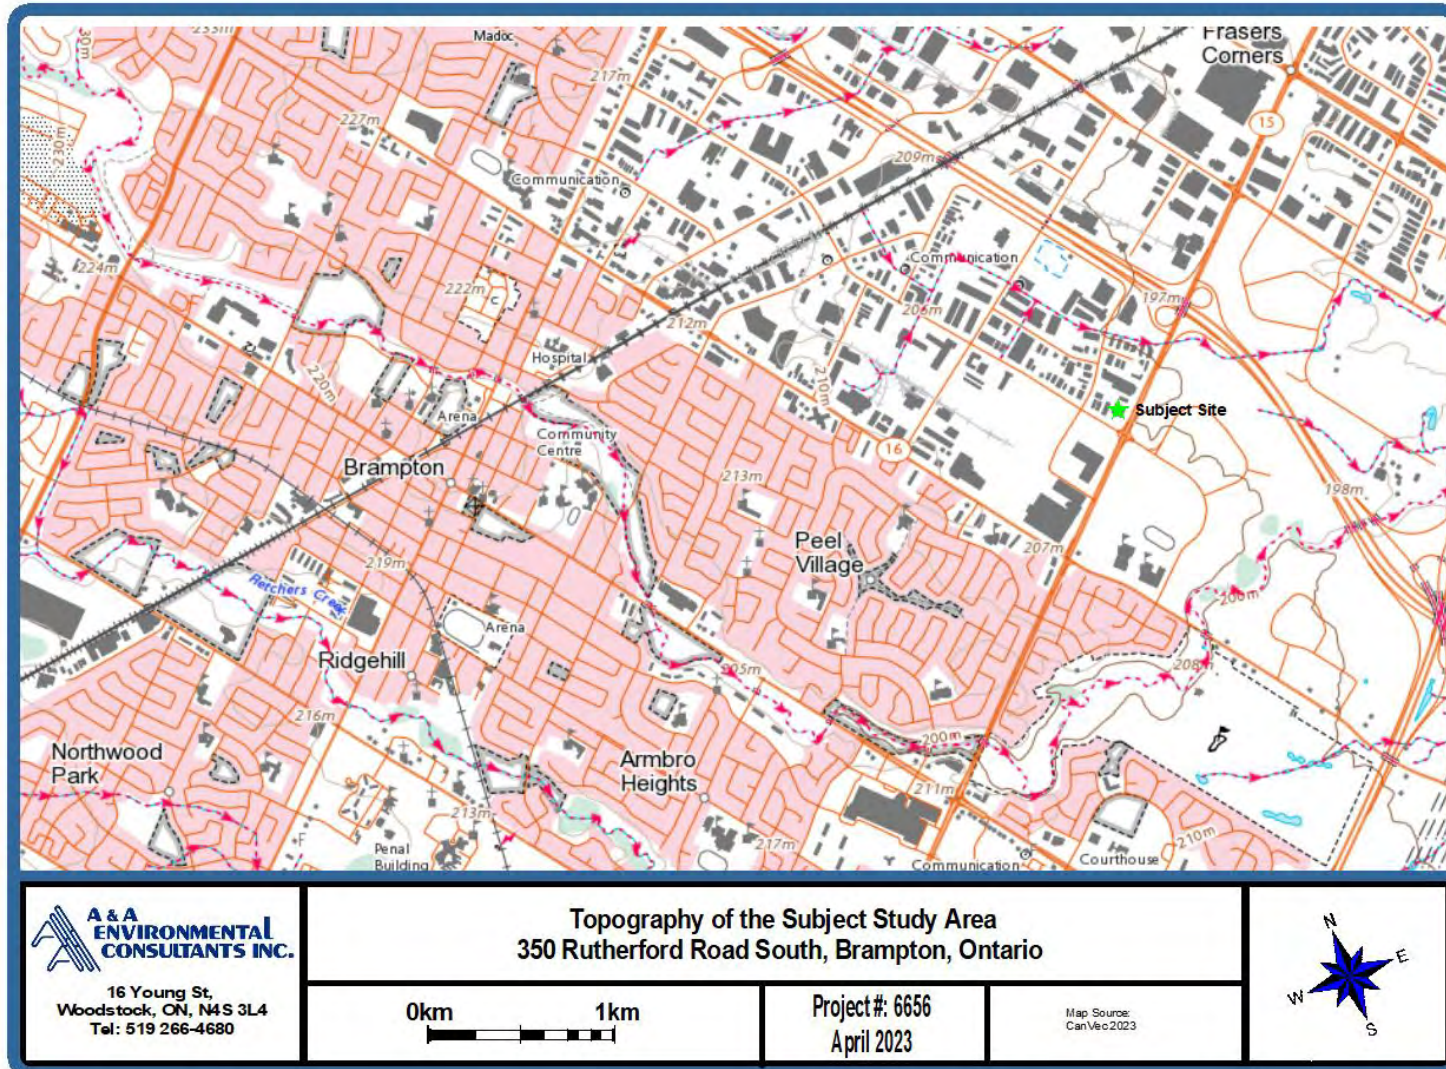

The topography on the Phase I property was observed to have a slight slope to the northwest. The Phase I property is recorded as approximately 200 metres above sea level (masl) on the topographic map. The surrounding study area is sloping northeast towards a tributary of Etobicoke Creek (CSM Figure 4). Surface water within the surrounding properties is expected to flow to the catchment basins located throughout the site and surrounding roadways.

##### **7.4.11.2 Hydrology**

Groundwater and surface water are expected to flow toward the natural slope of the ground surface. Although the surface topography typically exerts a significant influence on the groundwater flow it has been observed, in several areas, that bedrock topography also has a significant influence on the flow, in some cases more so than surface topography. In the latter case, this is believed to be due to relatively impermeable bedrock underlying a much more permeable sand overburden. Based on the regional topography, groundwater is inferred to be flowing northeast towards a tributary of Etobicoke Creek, located approximately 520m northeast of the subject site.

CSM Figure 4 – Topographic Map

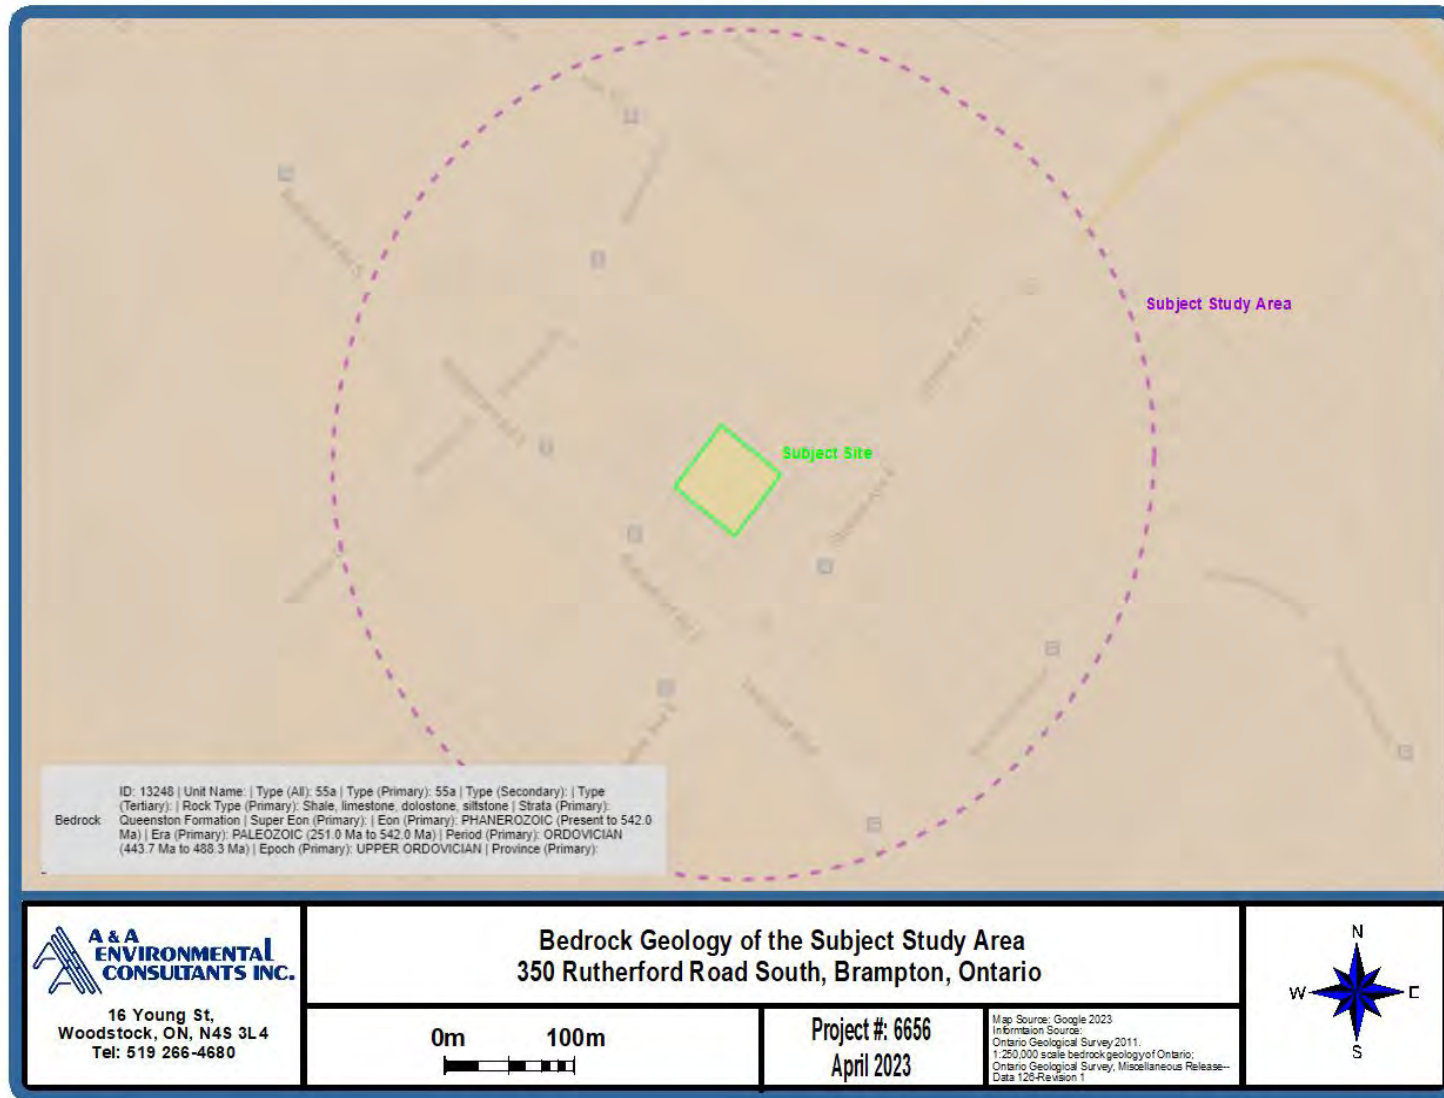

#### **7.4.11.3 Geology**

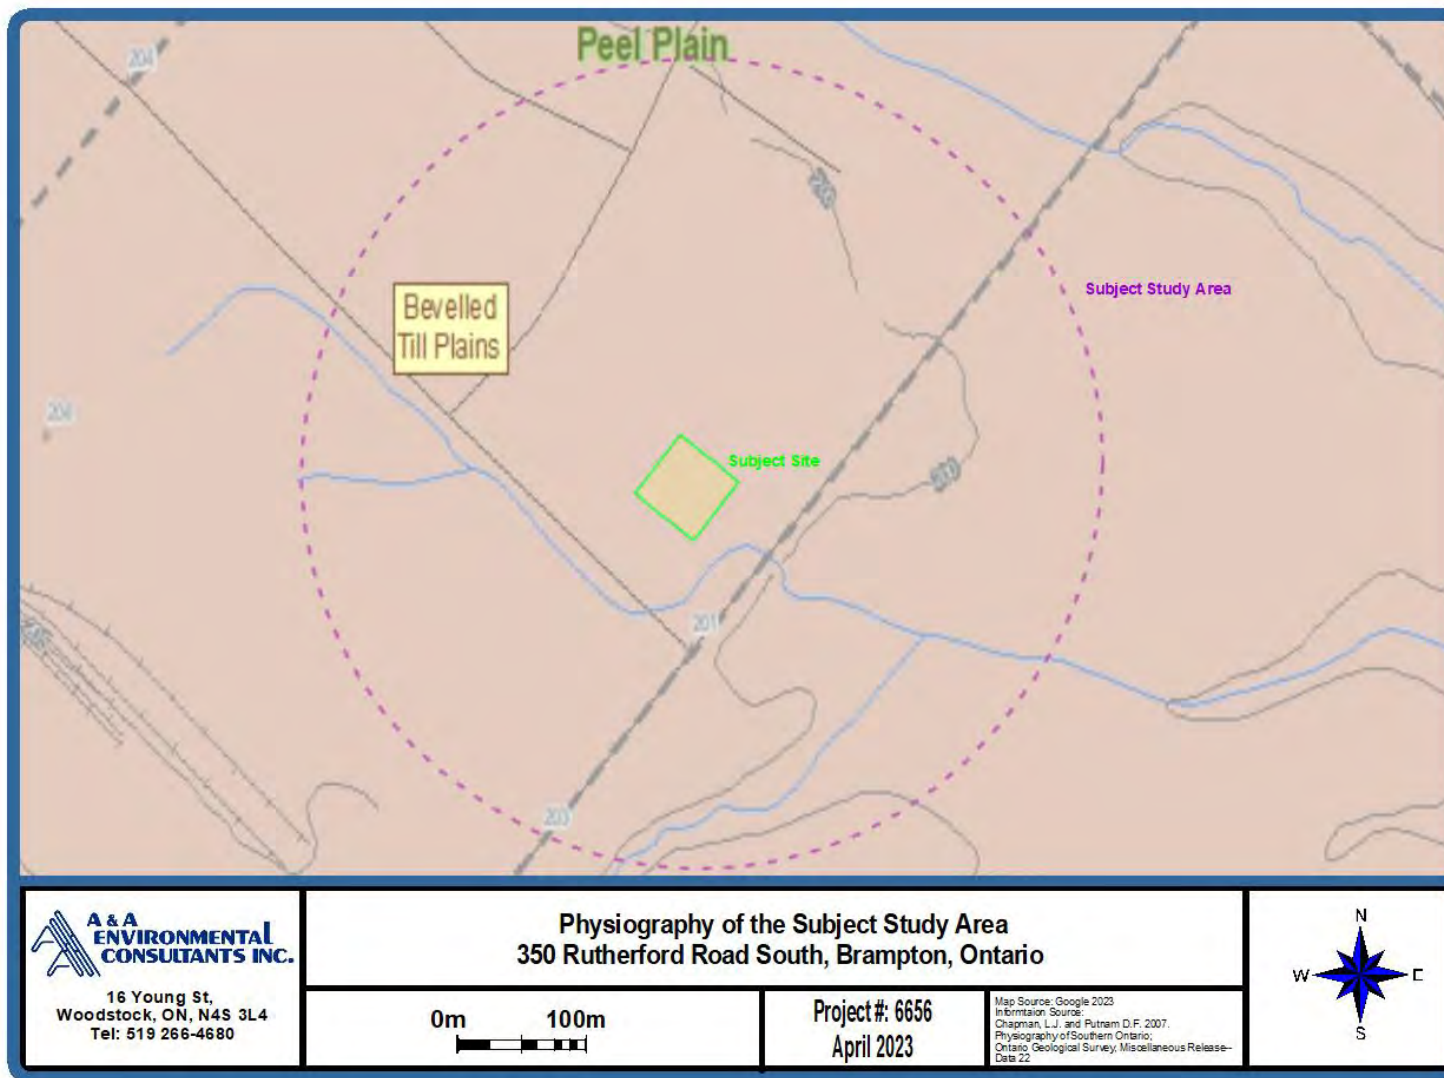

The surface deposit in this region, like all of Ontario, was once covered by massive glaciers during the late Wisconsin glacial period. The grinding action of the moving ice masses produced a considerable amount of rock materials, ranging in size from boulders to rock flour which was distributed over the landscape. EcoLog ERIS provided several maps showing the geology and soils of the subject study area which is summarized as:

- The Bedrock Geology of Ontario Map (CSM Figure 5) indicates that the Phase I property is located within the Queenston Formation, characterized as shale, limestone, dolostone, and siltstone.
- The Physiography of Southern Ontario Map (CSM Figure 6) depicts the Phase I property as part of the bevelled till plains landform within the Peel plain region.
- The Surficial Geology of Southern Ontario Map (CSM Figure 7) depicts the Phase I property to be located within Halton till, characterized as red to brown gritty silt to clayey silt till with medium carbon content and low permeability.

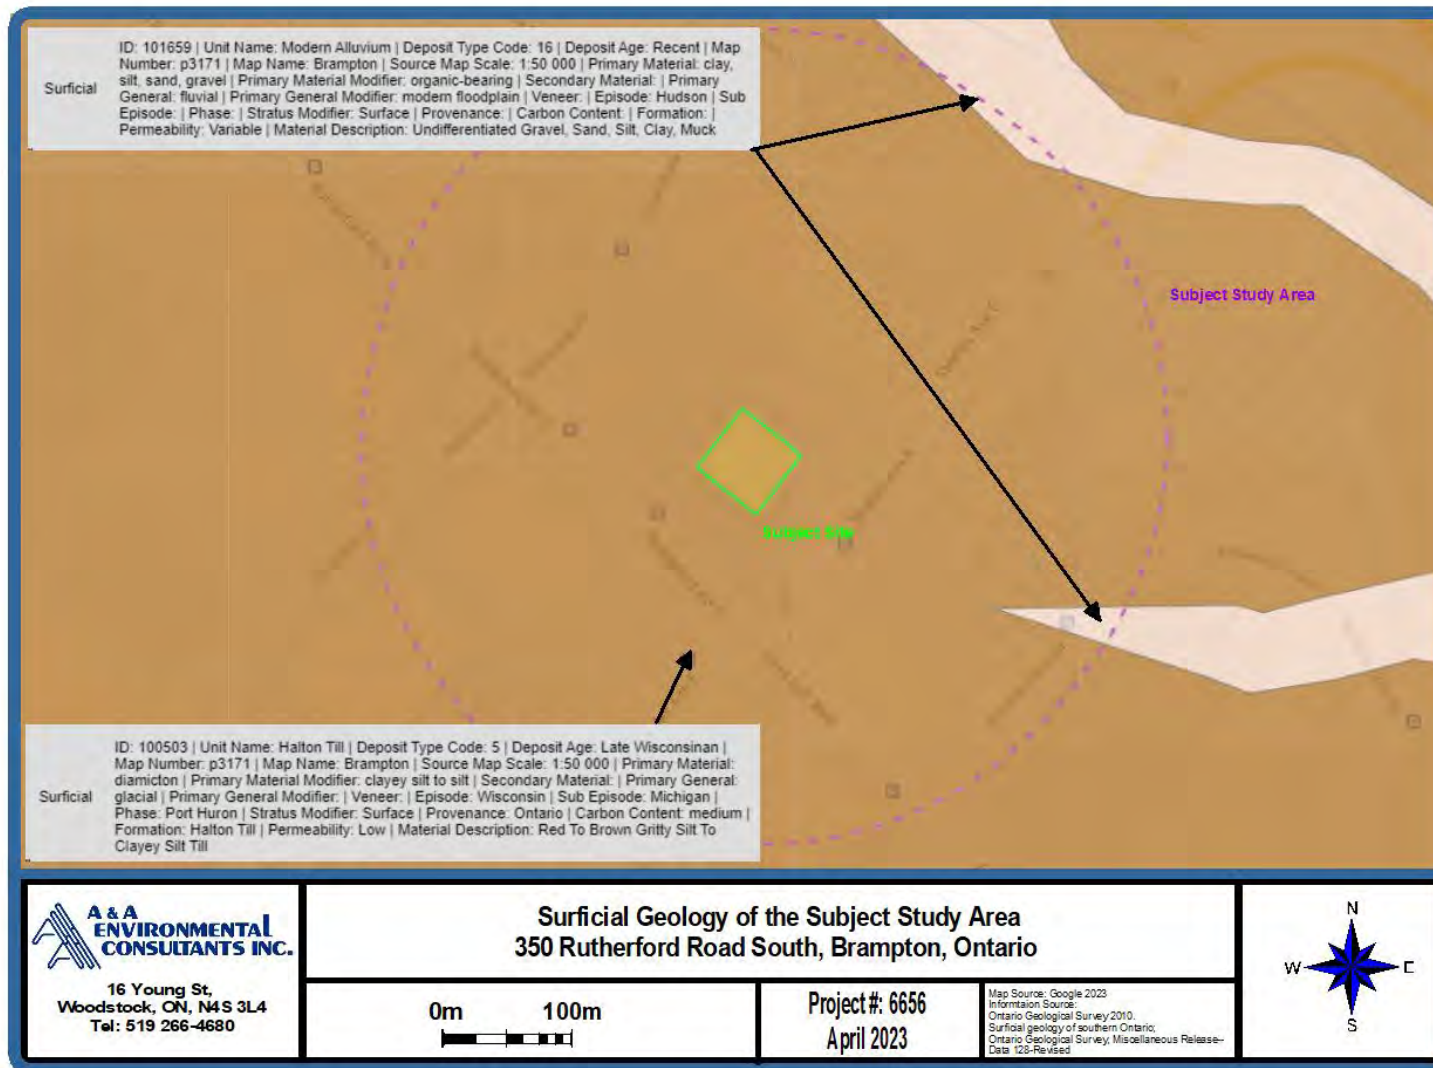

CSM Figure 5 – Bedrock Geology of the Subject Study Area

CSM Figure 6 – Physiography Map of Subject Study Area

CSM Figure 7 – Surficial Geology of Subject Study Area

#### **7.4.12 Uncertainty or Absence of Information**

The Phase One ESA research pertaining to the study area was completed in full. There were no deviations from the Phase One ESA requirements specified in Ontario Regulation 153/04 or absence of information that have resulted in uncertainty that would affect the validity of the Phase I conceptual site model. There is no uncertainty or absence of information noted in the Phase I ESA. The Phase One ESA is considered accurate and valid.

## 8.0 CONCLUSIONS

The information gathered is as complete as possible to the best of the knowledge of A&A. As no APECs were identified on the Phase I property; a Phase II Environmental Site Assessment is not required for the property at 350 Rutherford Road South, Brampton, Ontario.

This report meets the requirements for a Phase I ESA under O. Reg. 153/04 (as amended).

**Table 10 – Table of Areas of Potential Environmental Concern**  
(Refer to clause 16(2)(a), Schedule D, O. Reg. 153/04)

Area of Potential Environmental Concern <sup>1</sup>	Location of Area of Potential Environmental Concern on Phase One Property	Potentially Contaminating Activity <sup>2</sup>	Location of PCA (on-site or off-site)	Contaminants of Potential Concern <sup>3</sup>	Media Potentially Impacted (Ground water, soil and/or sediment)
No APECs identified					

Notes:

1 - Area of Potential Environmental Concern means the area on, in or under a phase one property where one or more contaminants are potentially present, as determined through the phase one environmental site assessment, including through,

(a) identification of past or present uses on, in or under the phase one property, and

(b) identification of potentially contaminating activity.

2 - Potentially Contaminating Activity means a use or activity set out in Column A of Table 2 of Schedule D that is occurring or has occurred in a phase one study area

3 - when completing this column, identify all contaminants of potential concern using the Method Groups as identified in the "Protocol for in the Assessment of Properties under Part XV.1 of the Environmental Protection Act, March 9, 2004, amended as of July 1, 2011, as specified below:

ABNs	PCBs	Metals	Electrical Conductivity	SAR
CPs	PAHs	As, Sb, Se	Cr (VI)	
1,4-Dioxane	THMs	Na	Hg	
Dioxins/Furans,PCDDs/PCDFs	VOCs	B-HWS	Methyl Mercury	
OCs	BTEX	Cl-	high pH	
PHCs	Ca, Mg	CN-	low pH	

4 - when submitting a record of site condition for filing, a copy of this table must be attached

## 8.1 Whether a Phase II ESA is Required Before a Record of Site Condition is Submitted

Based on the findings of this Phase I ESA investigation, a Phase II ESA is not required for the property at 350 Rutherford Road South, Brampton, Ontario prior to submitting an application for a record of site condition.

## 8.2 Signatures

Victoria Sowden, HBSc. (Geo), Cert. Env. Mgt.  
Senior Project Manager

I have reviewed Report #6656 – CanSTEM Brampton and concur with the findings therein.

SIGNED:

Dr. Ali Rasoul, Ph.D., EP, P. Geo., Q.P.  
Principal Consultant

## 9.1 Authors’ Background

### **Dr. Ali A. Rasoul, Ph.D., EP, P. Geo., QP**

Dr. Ali A. Rasoul is a Senior Environmental Consultant and water resources specialist with A & A Environmental Consultants Inc. He has over twenty years experience in his field. He has completed hundreds of environmental projects including Phase I/II/III Environmental Site Assessments, mould assessments, hydrogeological investigations and water management plans. Dr. Rasoul is licensed by the Ministry of the Environment as a well contractor (License #7324). He is a licensed Professional Geoscientist with the Association of Professional Geoscientists of Ontario and a licensed Well Technician in the Province of Ontario (Ministry of the Environment). He is registered as a “Qualified Person” for conducting environmental site assessments as defined under Ontario Regulation 153/04.

## **Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY**

**Reliance on information in Report:** This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as a database review of environmental records.

**License for use of information in Report:** No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

**Your Liability for misuse:** Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

**No warranty of Accuracy or Liability for ERIS:** The information contained in this report has been produced by ERIS Information Limited Partnership ("ERIS") using various sources of information, including information provided by Federal and Provincial government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

**Trademark and Copyright:** You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report (s) are protected by copyright owned by ERIS Information Limited Partnership. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

<b>Project Description:</b>	This application is for an air Certificate of Approval for three Burg Cooling Towers. The site will include blow moulding facilities for the manufacture of beverage containers. The cooling towers will be used to supply cooling water to the blow moulding process, compressors and other auxiliary equipment. Each cooling tower will have an air flowrate of 39, 500 cfm or 18 m3/s. The cooling tower water will be treated with Biosperse 250 and CSW 825 to control biological growth and the corrosion inhibitor Performax 4401. To control the buildup of solids within the cooling tower water, the manufacturer recommends a bleed off rate of 3.2 US gallons pr minute or 12.1 litres per minute.

**Crown Brief No:**  
**Court Location:**  
**Publication City:**  
**Publication Title:** Brampton Towing Company and Owner fined \$2,400 for Environmental Protection Act Violations  
**Act:** Environmental Protection Act (EPA)  
**Act(s):**  
**First Matter:**  
**Second Matter:**  
**Investigation 1:**  
**Investigation 2:**  
**Penalty Imposed:**

**Description:** On December 6, 2016, 1873537 Ontario Inc. was fined a total of \$2,000 plus a total victim fine surcharge of \$485 for not immediately notifying the ministry of any change of the vehicle status and registration and for failing to comply with a Provincial Officer's Order Number requiring the company to confirm that the terms of the order had been complied with. The company was given one year to pay the fine.

On the same date, Gurvinder Singh Biring was convicted for failing to take all reasonable care to prevent the corporation from contravening an order as a director of the company. He was fined \$400 plus a victim fine surcharge of \$85 and was given one year to pay the fine.

1873537 Ontario Inc. and Gurvinder Singh Biring pleaded guilty to three offences and were fined a total of \$2,400 for failing to comply with a ministry order, contrary to the Environmental Protection Act (EPA).

**Background:** 1873537 Ontario Inc. (the company) is a towing services company operating out of Hale Road in Brampton. Gurvinder Singh Biring is a Director of the company.

On September 22, 2015, a vehicle formerly owned by the company was subject to a routine inspection by ministry staff.

On the same date, a ministry order was issued to the company requiring work to be done on the vehicle, in order to achieve compliance with the Drive Clean program.

**Location:** Brampton  
**Region:**  
**Ministry District:**

As of January 18, 2016, the company had not taken the necessary actions to comply with the ministry order. The matter was referred to the Ministry's Investigations and Enforcement Branch and following an investigation charges were laid.

# Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. **Note:** Databases denoted with " \* " indicates that the database will no longer be updated. See the individual database description for more information.

## **Abandoned Aggregate Inventory:**

Provincial [AAGR](#)

The MAAP Program maintains a database of abandoned pits and quarries. Please note that the database is only referenced by lot and concession and city/town location. The database provides information regarding the location, type, size, land use, status and general comments.\*

**Government Publication Date: Sept 2002\***

## **Aggregate Inventory:**

Provincial [AGR](#)

The Ontario Ministry of Northern Development, Mines, Natural Resources and Forestry (ONDMNRF) maintains this database of pits and quarries. The database provides information regarding the registered owner/operator, location name, operation type, approval type, and maximum annual tonnage.

**Government Publication Date: Up to Oct 2022**

## **Abandoned Mine Information System:**

Provincial [AMIS](#)

The Abandoned Mines Information System contains data on known abandoned and inactive mines located on both Crown and privately held lands. The information was provided by the Ministry of Northern Development and Mines (MNDM), with the following disclaimer: "the database provided has been compiled from various sources, and the Ministry of Northern Development and Mines makes no representation and takes no responsibility that such information is accurate, current or complete". Reported information includes official mine name, status, background information, mine start/end date, primary commodity, mine features, hazards and remediation.

**Government Publication Date: 1800-Mar 2022**

## **Anderson's Waste Disposal Sites:**

Private [ANDR](#)

The information provided in this database was collected by examining various historical documents which aimed to characterize the likely position of former waste disposal sites from 1860 to present. The research initiative behind the creation of this database was to identify those sites that are missing from the Ontario MOE Waste Disposal Site Inventory, as well as to provide revisions and corrections to the positions and descriptions of sites currently listed in the MOE inventory. In addition to historic waste disposal facilities, the database also identifies certain auto wreckers and scrap yards that have been extrapolated from documentary sources. Please note that the data is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

**Government Publication Date: 1860s-Present**

## **Aboveground Storage Tanks:**

Provincial [AST](#)

Historical listing of aboveground storage tanks made available by the Department of Natural Resources and Forestry. Includes tanks used to hold water or petroleum. This dataset has been retired as of September 25, 2014 and will no longer be updated.

**Government Publication Date: May 31, 2014**

## **Automobile Wrecking & Supplies:**

Private [AUWR](#)

This database provides an inventory of known locations that are involved in the scrap metal, automobile wrecking/recycling, and automobile parts & supplies industry. Information is provided on the company name, location and business type.

**Government Publication Date: 1999-May 31, 2022**

## **Borehole:**

Provincial [BORE](#)

A borehole is the generalized term for any narrow shaft drilled in the ground, either vertically or horizontally. The information here includes geotechnical investigations or environmental site assessments, mineral exploration, or as a pilot hole for installing piers or underground utilities. Information is from many sources such as the Ministry of Transportation (MTO) boreholes from engineering reports and projects from the 1950 to 1990's in Southern Ontario. Boreholes from the Ontario Geological Survey (OGS) including The Urban Geology Analysis Information System (UGAIS) and the York Peel Durham Toronto (YPDT) database of the Conservation Authority Moraine Coalition. This database will include fields such as location, stratigraphy, depth, elevation, year drilled, etc. For all water well data or oil and gas well data for Ontario please refer to WWIS and OOGW.

**Government Publication Date: 1875-Jul 2018**

**Certificates of Approval:**

Provincial CA

This database contains the following types of approvals: Air & Noise, Industrial Sewage, Municipal & Private Sewage, Waste Management Systems and Renewable Energy Approvals. The MOE in Ontario states that any facility that releases emissions to the atmosphere, discharges contaminants to ground or surface water, provides potable water supplies, or stores, transports or disposes of waste, must have a Certificate of Approval before it can operate lawfully. Fields include approval number, business name, address, approval date, approval type and status. This database will no longer be updated, as CofA's have been replaced by either Environmental Activity and Sector Registry (EASR) or Environmental Compliance Approval (ECA). Please refer to those individual databases for any information after Oct.31, 2011.

**Government Publication Date: 1985-Oct 30, 2011\***

**Dry Cleaning Facilities:**

Federal CDRY

List of dry cleaning facilities made available by Environment and Climate Change Canada. Environment and Climate Change Canada's Tetrachloroethylene (Use in Dry Cleaning and Reporting Requirements) Regulations (SOR/2003-79) are intended to reduce releases of tetrachloroethylene to the environment from dry cleaning facilities.

**Government Publication Date: Jan 2004-Dec 2020**

**Commercial Fuel Oil Tanks:**

Provincial CFOT

Locations of commercial underground fuel oil tanks. This is not a comprehensive or complete inventory of commercial fuel tanks in the province; this listing is a copy of records of registered commercial underground fuel oil tanks obtained under Access to Public Information.

Note that the following types of tanks do not require registration: waste oil tanks in apartments, office buildings, residences, etc.; aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

**Government Publication Date: Feb 28, 2022**

**Chemical Manufacturers and Distributors:**

Private CHEM

This database includes information from both a one time study conducted in 1992 and private source and is a listing of facilities that manufacture or distribute chemicals. The production of these chemical substances may involve one or more chemical reactions and/or chemical separation processes (i.e. fractionation, solvent extraction, crystallization, etc.).

**Government Publication Date: 1999-Jan 31, 2020**

**Chemical Register:**

Private CHM

This database includes a listing of locations of facilities within the Province or Territory that either manufacture and/or distributes chemicals.

**Government Publication Date: 1999-May 31, 2022**

**Compressed Natural Gas Stations:**

Private CNG

Canada has a network of public access compressed natural gas (CNG) refuelling stations. These stations dispense natural gas in compressed form at 3,000 pounds per square inch (psi), the pressure which is allowed within the current Canadian codes and standards. The majority of natural gas refuelling is located at existing retail gasoline that have a separate refuelling island for natural gas. This list of stations is made available by the Canadian Natural Gas Vehicle Alliance.

**Government Publication Date: Dec 2012 -Sep 2022**

**Inventory of Coal Gasification Plants and Coal Tar Sites:**

Provincial COAL

This inventory includes both the "Inventory of Coal Gasification Plant Waste Sites in Ontario-April 1987" and the Inventory of Industrial Sites Producing or Using Coal Tar and Related Tars in Ontario-November 1988) collected by the MOE. It identifies industrial sites that produced and continue to produce or use coal tar and other related tars. Detailed information is available and includes: facility type, size, land use, information on adjoining properties, soil condition, site operators/occupants, site description, potential environmental impacts and historic maps available. This was a one-time inventory.\*

**Government Publication Date: Apr 1987 and Nov 1988\***

**Compliance and Convictions:**

Provincial CONV

This database summarizes the fines and convictions handed down by the Ontario courts beginning in 1989. Companies and individuals named here have been found guilty of environmental offenses in Ontario courts of law.

**Government Publication Date: 1989-Nov 2022**

**Certificates of Property Use:**

Provincial CPU

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include CPU's on the registry such as (EPA s. 168.6) - Certificate of Property Use.

**Government Publication Date: 1994 - Nov 30, 2022**

**Drill Hole Database:**

Provincial [DRL](#)

The Ontario Drill Hole Database contains information on more than 113,000 percussion, overburden, sonic and diamond drill holes from assessment files on record with the department of Mines and Minerals. Please note that limited data is available for southern Ontario, as it was the last area to be completed. The database was created when surveys submitted to the Ministry were converted in the Assessment File Research Image Database (AFRI) project. However, the degree of accuracy (coordinates) as to the exact location of drill holes is dependent upon the source document submitted to the MNDM. Levels of accuracy used to locate holes are: centering on the mining claim; a sketch of the mining claim; a 1:50,000 map; a detailed company map; or from submitted a "Report of Work".

**Government Publication Date: 1886 - Oct 2022**

**Delisted Fuel Tanks:**

Provincial [DTNK](#)

List of fuel storage tank sites that were once found in - and have since been removed from - the list of fuel storage tanks made available by the regulatory agency under Access to Public Information.

**Government Publication Date: Feb 28, 2022**

**Environmental Activity and Sector Registry:**

Provincial [EASR](#)

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. The EASR allows businesses to register certain activities with the ministry, rather than apply for an approval. The registry is available for common systems and processes, to which preset rules of operation can be applied. The EASR is currently available for: heating systems, standby power systems and automotive refinishing. Businesses whose activities aren't subject to the EASR may apply for an ECA (Environmental Compliance Approval), Please see our ECA database.

**Government Publication Date: Oct 2011- Nov 30, 2022**

**Environmental Registry:**

Provincial [EBR](#)

The Environmental Registry lists proposals, decisions and exceptions regarding policies, Acts, instruments, or regulations that could significantly affect the environment. Through the Registry, thirteen provincial ministries notify the public of upcoming proposals and invite their comments. For example, if a local business is requesting a permit, license, or certificate of approval to release substances into the air or water; these are notified on the registry. Data includes: Approval for discharge into the natural environment other than water (i.e. Air) - EPA s. 9, Approval for sewage works - OWRA s. 53(1), and EPA s. 27 - Approval for a waste disposal site. For information regarding Permit to Take Water (PTTW), Certificate of Property Use (CPU) and (ORD) Orders please refer to those individual databases.

**Government Publication Date: 1994 - Nov 30, 2022**

**Environmental Compliance Approval:**

Provincial [ECA](#)

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. In the past, a business had to apply for multiple approvals (known as certificates of approval) for individual processes and pieces of equipment. Today, a business either registers itself, or applies for a single approval, depending on the types of activities it conducts. Businesses whose activities aren't subject to the EASR may apply for an ECA. A single ECA addresses all of a business's emissions, discharges and wastes. Separate approvals for air, noise and waste are no longer required. This database will also include Renewable Energy Approvals. For certificates of approval prior to Nov 1st, 2011, please refer to the CA database. For all Waste Disposal Sites please refer to the WDS database.

**Government Publication Date: Oct 2011- Nov 30, 2022**

**Environmental Effects Monitoring:**

Federal [EEM](#)

The Environmental Effects Monitoring program assesses the effects of effluent from industrial or other sources on fish, fish habitat and human usage of fisheries resources. Since 1992, pulp and paper mills have been required to conduct EEM studies under the Pulp and Paper Effluent Regulations. This database provides information on the mill name, geographical location and sub-lethal toxicity data.

**Government Publication Date: 1992-2007\***

**ERIS Historical Searches:**

Private [EHS](#)

ERIS has compiled a database of all environmental risk reports completed since March 1999. Available fields for this database include: site location, date of report, type of report, and search radius. As per all other databases, the ERIS database can be referenced on both the map and "Statistical Profile" page.

**Government Publication Date: 1999-Jul 31, 2022**

**Environmental Issues Inventory System:**

Federal [EIIS](#)

The Environmental Issues Inventory System was developed through the implementation of the Environmental Issues and Remediation Plan. This plan was established to determine the location and severity of contaminated sites on inhabited First Nation reserves, and where necessary, to remediate those that posed a risk to health and safety; and to prevent future environmental problems. The EIIS provides information on the reserve under investigation, inventory number, name of site, environmental issue, site action (Remediation, Site Assessment), and date investigation completed.

**Government Publication Date: 1992-2001\***

**Emergency Management Historical Event:**

Provincial **EMHE**

List of locations of historical occurrences of emergency events, including those assigned to the Ministry of Natural Resources by Order-In-Council (OIC) under the Emergency Management and Civil Protection Act, as well as events where MNR provided requested emergency response assistance. Many of these events will have involved community evacuations, significant structural loss, and/or involvement of MNR emergency response staff. These events fall into one of ten (10) type categories: Dam Failure; Drought / Low Water; Erosion; Flood; Forest Fire; Soil and Bedrock Instability; Petroleum Resource Center Event, EMO Requested Assistance, Continuity of Operations Event, Other Requested Assistance. EMHE record details are reproduced by ERIS under License with the Ontario Ministry of Natural Resources © Queen's Printer for Ontario, 2017.

**Government Publication Date: Apr 30, 2022**

**Environmental Penalty Annual Report:**

Provincial **EPAR**

This database contains data from Ontario's annual environmental penalty report published by the Ministry of the Environment and Climate Change. These reports provide information on environmental penalties for land / water violations issued to companies in one of the nine industrial sectors covered by the Municipal Industrial Strategy for Abatement (MISA) regulations.

**Government Publication Date: Jan 1, 2011 - Dec 31, 2021**

**List of Expired Fuels Safety Facilities:**

Provincial **EXP**

List of facilities and tanks for which there was once a fuel registration. This is not a comprehensive or complete inventory of expired tanks/tank facilities in the province; this listing is a copy of previously registered tanks and facilities obtained under Access to Public Information. Includes private fuel outlets, bulk plants, fuel oil tanks, gasoline stations, marinas, propane filling stations, liquid fuel tanks, piping systems, etc; includes tanks which have been removed from the ground.

Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

**Government Publication Date: Feb 28, 2022**

**Federal Convictions:**

Federal **FCON**

Environment Canada maintains a database referred to as the "Environmental Registry" that details prosecutions under the Canadian Environmental Protection Act (CEPA) and the Fisheries Act (FA). Information is provided on the company name, location, charge date, offence and penalty.

**Government Publication Date: 1988-Jun 2007\***

**Contaminated Sites on Federal Land:**

Federal **FCS**

The Federal Contaminated Sites Inventory includes information on known federal contaminated sites under the custodianship of departments, agencies and consolidated Crown corporations as well as those that are being or have been investigated to determine whether they have contamination arising from past use that could pose a risk to human health or the environment. The inventory also includes non-federal contaminated sites for which the Government of Canada has accepted some or all financial responsibility. It does not include sites where contamination has been caused by, and which are under the control of, enterprise Crown corporations, private individuals, firms or other levels of government. Includes fire training sites and sites at which Per- and Polyfluoroalkyl Substances (PFAS) are a concern.

**Government Publication Date: Jun 2000-Sep 2022**

**Fisheries & Oceans Fuel Tanks:**

Federal **FOFT**

Fisheries & Oceans Canada maintains an inventory of aboveground & underground fuel storage tanks located on Fisheries & Oceans property or controlled by DFO. Our inventory provides information on the site name, location, tank owner, tank operator, facility type, storage tank location, tank contents & capacity, and date of tank installation.

**Government Publication Date: 1964-Sep 2019**

**Federal Identification Registry for Storage Tank Systems (FIRSTS):**

Federal **FRST**

A list of federally regulated Storage tanks from the Federal Identification Registry for Storage Tank Systems (FIRSTS). FIRSTS is Environment and Climate Change Canada's database of storage tank systems subject to the Storage Tank for Petroleum Products and Allied Petroleum Products Regulations. The main objective of the Regulations is to prevent soil and groundwater contamination from storage tank systems located on federal and aboriginal lands. Storage tank systems that do not have a valid identification number displayed in a readily visible location on or near the storage tank system may be refused product delivery.

**Government Publication Date: May 31, 2018**

**Fuel Storage Tank:**

Provincial **FST**

List of registered private and retail fuel storage tanks. This is not a comprehensive or complete inventory of private and retail fuel storage tanks in the province; this listing is a copy of registered private and retail fuel storage tanks, obtained under Access to Public Information.

Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

**Government Publication Date: Feb 28, 2022**

**Fuel Storage Tank - Historic:**

Provincial

[FSTH](#)

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks. Public records of private fuel storage tanks are only available since the registration became effective in September 1989. This information is now collected by the Technical Standards and Safety Authority.

**Government Publication Date: Pre-Jan 2010\***

**Ontario Regulation 347 Waste Generators Summary:**

Provincial

[GEN](#)

Regulation 347 of the Ontario EPA defines a waste generation site as any site, equipment and/or operation involved in the production, collection, handling and/or storage of regulated wastes. A generator of regulated waste is required to register the waste generation site and each waste produced, collected, handled, or stored at the site. This database contains the registration number, company name and address of registered generators including the types of hazardous wastes generated. It includes data on waste generating facilities such as: drycleaners, waste treatment and disposal facilities, machine shops, electric power distribution etc. This information is a summary of all years from 1986 including the most currently available data. Some records may contain, within the company name, the phrase "See & Use..." followed by a series of letters and numbers. This occurs when one company is amalgamated with or taken over by another registered company. The number listed as "See & Use", refers to the new ownership and the other identification number refers to the original ownership. This phrase serves as a link between the 2 companies until operations have been fully transferred.

**Government Publication Date: 1986-Oct 31, 2022**

**Greenhouse Gas Emissions from Large Facilities:**

Federal

[GHG](#)

List of greenhouse gas emissions from large facilities made available by Environment Canada. Greenhouse gas emissions in kilotonnes of carbon dioxide equivalents (kt CO<sub>2</sub> eq).

**Government Publication Date: 2013-Dec 2019**

**TSSA Historic Incidents:**

Provincial

[HINC](#)

List of historic incidences of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen recorded by the TSSA in their previous incident tracking system. The TSSA's Fuels Safety Program administers the Technical Standards & Safety Act 2000, providing fuel-related safety services associated with the safe transportation, storage, handling and use of fuels such as gasoline, diesel, propane, natural gas and hydrogen. Under this Act, the TSSA regulates fuel suppliers, storage facilities, transport trucks, pipelines, contractors and equipment or appliances that use fuels. Records are not verified for accuracy or completeness. This is not a comprehensive or complete inventory of historical fuel spills and leaks in the province. This listing is a copy of the data captured at one moment in time and is hence limited by the record date provided here.

**Government Publication Date: 2006-June 2009\***

**Indian & Northern Affairs Fuel Tanks:**

Federal

[IAFT](#)

The Department of Indian & Northern Affairs Canada (INAC) maintains an inventory of aboveground & underground fuel storage tanks located on both federal and crown land. Our inventory provides information on the reserve name, location, facility type, site/facility name, tank type, material & ID number, tank contents & capacity, and date of tank installation.

**Government Publication Date: 1950-Aug 2003\***

**Fuel Oil Spills and Leaks:**

Provincial

[INC](#)

Listing of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen reported to the Spills Action Centre (SAC). This is not a comprehensive or complete inventory of fuel-related leaks, spills, and incidents in the province; this listing is a copy of incidents reported to the SAC, obtained under Access to Public Information. Includes incidents from fuel-related hazards such as spills, fires, and explosions. Records are not verified for accuracy or completeness.

**Government Publication Date: Feb 28, 2022**

**Landfill Inventory Management Ontario:**

Provincial

[LIMO](#)

The Landfill Inventory Management Ontario (LIMO) database is updated every year, as the Ministry of the Environment, Conservation and Parks compiles new and updated information. Includes small and large landfills currently operating as well as those which are closed and historic. Operators of larger landfills provide landfill information for the previous operating year to the ministry for LIMO including: estimated amount of total waste received, landfill capacity, estimated total remaining landfill capacity, fill rates, engineering designs, reporting and monitoring details, size of location, service area, approved waste types, leachate of site treatment, contaminant attenuation zone and more. The small landfills include information such as site owner, site location and certificate of approval # and status.

**Government Publication Date: Mar 21, 2022**

**Canadian Mine Locations:**

Private

[MINE](#)

This information is collected from the Canadian & American Mines Handbook. The Mines database is a national database that provides over 290 listings on mines (listed as public companies) dealing primarily with precious metals and hard rocks. Listed are mines that are currently in operation, closed, suspended, or are still being developed (advanced projects). Their locations are provided as geographic coordinates (x, y and/or longitude, latitude). As of 2002, data pertaining to Canadian smelters and refineries has been appended to this database.

**Government Publication Date: 1998-2009\***

**Mineral Occurrences:**

Provincial

[MNR](#)

In the early 70's, the Ministry of Northern Development and Mines created an inventory of approximately 19,000 mineral occurrences in Ontario, in regard to metallic and industrial minerals, as well as some information on building stones and aggregate deposits. Please note that the "Horizontal Positional Accuracy" is approximately +/- 200 m. Many reference elements for each record were derived from field sketches using pace or chain/tape measurements against claim posts or topographic features in the area. The primary limiting factor for the level of positional accuracy is the scale of the source material. The testing of horizontal accuracy of the source materials was accomplished by comparing the plan metric (X and Y) coordinates of that point with the coordinates of the same point as defined from a source of higher accuracy.

**Government Publication Date: 1846-Feb 2022**

**National Analysis of Trends in Emergencies System (NATES):**

Federal

[NATE](#)

In 1974 Environment Canada established the National Analysis of Trends in Emergencies System (NATES) database, for the voluntary reporting of significant spill incidents. The data was to be used to assist in directing the work of the emergencies program. NATES ran from 1974 to 1994. Extensive information is available within this database including company names, place where the spill occurred, date of spill, cause, reason and source of spill, damage incurred, and amount, concentration, and volume of materials released.

**Government Publication Date: 1974-1994\***

**Non-Compliance Reports:**

Provincial

[NCPL](#)

The Ministry of the Environment provides information about non-compliant discharges of contaminants to air and water that exceed legal allowable limits, from regulated industrial and municipal facilities. A reported non-compliance failure may be in regard to a Control Order, Certificate of Approval, Sectoral Regulation or specific regulation/act.

**Government Publication Date: Dec 31, 2020**

**National Defense & Canadian Forces Fuel Tanks:**

Federal

[NDFT](#)

The Department of National Defense and the Canadian Forces maintains an inventory of all aboveground & underground fuel storage tanks located on DND lands. Our inventory provides information on the base name, location, tank type & capacity, tank contents, tank class, date of tank installation, date tank last used, and status of tank as of May 2001. This database will no longer be updated due to the new National Security protocols which have prohibited any release of this database.

**Government Publication Date: Up to May 2001\***

**National Defense & Canadian Forces Spills:**

Federal

[NDSP](#)

The Department of National Defense and the Canadian Forces maintains an inventory of spills to land and water. All spill sites have been classified under the "Transportation of Dangerous Goods Act - 1992". Our inventory provides information on the facility name, location, spill ID #, spill date, type of spill, as well as the quantity of substance spilled & recovered.

**Government Publication Date: Mar 1999-Apr 2018**

**National Defence & Canadian Forces Waste Disposal Sites:**

Federal

[NDWD](#)

The Department of National Defence and the Canadian Forces maintains an inventory of waste disposal sites located on DND lands. Where available, our inventory provides information on the base name, location, type of waste received, area of site, depth of site, year site opened/closed and status.

**Government Publication Date: 2001-Apr 2007\***

**National Energy Board Pipeline Incidents:**

Federal

[NEBI](#)

Locations of pipeline incidents from 2008 to present, made available by the Canada Energy Regulator (CER) - previously the National Energy Board (NEB). Includes incidents reported under the Onshore Pipeline Regulations and the Processing Plant Regulations related to pipelines under federal jurisdiction, does not include incident data related to pipelines under provincial or territorial jurisdiction.

**Government Publication Date: 2008-Jun 30, 2021**

**National Energy Board Wells:**

Federal

[NEBP](#)

The NEBW database contains information on onshore & offshore oil and gas wells that are outside provincial jurisdiction(s) and are thereby regulated by the National Energy Board. Data is provided regarding the operator, well name, well ID No./UWI, status, classification, well depth, spud and release date.

**Government Publication Date: 1920-Feb 2003\***

**National Environmental Emergencies System (NEES):**

Federal

**NEES**

In 2000, the Emergencies program implemented NEES, a reporting system for spills of hazardous substances. For the most part, this system only captured data from the Atlantic Provinces, some from Quebec and Ontario and a portion from British Columbia. Data for Alberta, Saskatchewan, Manitoba and the Territories was not captured. However, NEES is also a repository for previous Environment Canada spill datasets. NEES is composed of the historic datasets ' or Trends ' which dates from approximately 1974 to present. NEES Trends is a compilation of historic databases, which were merged and includes data from NATES (National Analysis of Trends in Emergencies System), ARTS (Atlantic Regional Trends System), and NEES. In 2001, the Emergencies Program determined that variations in reporting regimes and requirements between federal and provincial agencies made national spill reporting and trend analysis difficult to achieve. As a consequence, the department has focused efforts on capturing data on spills of substances which fall under its legislative authority only (CEPA and FA). As such, the NEES database will be decommissioned in December 2004.

**Government Publication Date: 1974-2003\***

**National PCB Inventory:**

Federal

**NPCB**

Environment Canada's National PCB inventory includes information on in-use PCB containing equipment in Canada including federal, provincial and private facilities. Federal out-of-service PCB containing equipment and PCB waste owned by the federal government or by federally regulated industries such as airlines, railway companies, broadcasting companies, telephone and telecommunications companies, pipeline companies, etc. are also listed. Although it is not Environment Canada's mandate to collect data on non-federal PCB waste, the National PCB inventory includes some information on provincial and private PCB waste and storage sites. Some addresses provided may be Head Office addresses and are not necessarily the location of where the waste is being used or stored.

**Government Publication Date: 1988-2008\***

**National Pollutant Release Inventory:**

Federal

**NPRI**

Environment Canada has defined the National Pollutant Release Inventory ("NPRI") as a federal government initiative designed to collect comprehensive national data regarding releases to air, water, or land, and waste transfers for recycling for more than 300 listed substances.

**Government Publication Date: 1993-May 2017**

**Oil and Gas Wells:**

Private

**OGWE**

The Nickle's Energy Group (publisher of the Daily Oil Bulletin) collects information on drilling activity including operator and well statistics. The well information database includes name, location, class, status and depth. The main Nickle's database is updated on a daily basis, however, this database is updated on a monthly basis. More information is available at [www.nickles.com](http://www.nickles.com).

**Government Publication Date: 1988-Nov 30, 2022**

**Ontario Oil and Gas Wells:**

Provincial

**OOGW**

In 1998, the MNR handed over to the Ontario Oil, Gas and Salt Resources Corporation, the responsibility of maintaining a database of oil and gas wells drilled in Ontario. The OGSRLibrary has over 20,000+ wells in their database. Information available for all wells in the ERIS database include well owner/operator, location, permit issue date, and well cap date, license No., status, depth and the primary target (rock unit) of the well being drilled. All geology/stratigraphy table information, plus all water table information is also provide for each well record.

**Government Publication Date: 1800-Aug 2021**

**Inventory of PCB Storage Sites:**

Provincial

**OPCB**

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of PCB storage sites within the province. Ontario Regulation 11/82 (Waste Management - PCB) and Regulation 347 (Generator Waste Management) under the Ontario EPA requires the registration of inactive PCB storage equipment and/or disposal sites of PCB waste with the Ontario Ministry of Environment. This database contains information on: 1) waste quantities; 2) major and minor sites storing liquid or solid waste; and 3) a waste storage inventory.

**Government Publication Date: 1987-Oct 2004; 2012-Dec 2013**

**Orders:**

Provincial

**ORD**

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include Orders on the registry such as (EPA s. 17) - Order for remedial work, (EPA s. 18) - Order for preventative measures, (EPA s. 43) - Order for removal of waste and restoration of site, (EPA s. 44) - Order for conformity with Act for waste disposal sites, (EPA s. 136) - Order for performance of environmental measures.

**Government Publication Date: 1994 - Nov 30, 2022**

**Canadian Pulp and Paper:**

Private

**PAP**

This information is part of the Pulp and Paper Canada Directory. The Directory provides a comprehensive listing of the locations of pulp and paper mills and the products that they produce.

**Government Publication Date: 1999, 2002, 2004, 2005, 2009-2014**

**Parks Canada Fuel Storage Tanks:**

Federal

**PCFT**

Canadian Heritage maintains an inventory of known fuel storage tanks operated by Parks Canada, in both National Parks and at National Historic Sites. The database details information on site name, location, tank install/removal date, capacity, fuel type, facility type, tank design and owner/operator.

**Government Publication Date: 1920-Jan 2005\***

**Pesticide Register:**

Provincial PES

The Ontario Ministry of the Environment and Climate Change maintains a database of licensed operators and vendors of registered pesticides.

**Government Publication Date: Oct 2011- Nov 30, 2022**

**Pipeline Incidents:**

Provincial PINC

List of pipeline incidents (strikes, leaks, spills). This is not a comprehensive or complete inventory of pipeline incidents in the province; this listing in an historical copy of records previously obtained under Access to Public Information. Records are not verified for accuracy or completeness.

**Government Publication Date: Feb 28, 2021**

**Private and Retail Fuel Storage Tanks:**

Provincial PRT

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks and licensed retail fuel outlets. This database includes an inventory of locations that have gasoline, oil, waste oil, natural gas and/or propane storage tanks on their property. The MCCR no longer collects this information. This information is now collected by the Technical Standards and Safety Authority (TSSA).

**Government Publication Date: 1989-1996\***

**Permit to Take Water:**

Provincial PTTW

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include PTTW's on the registry such as OWRA s. 34 - Permit to take water.

**Government Publication Date: 1994 - Nov 30, 2022**

**Ontario Regulation 347 Waste Receivers Summary:**

Provincial REC

Part V of the Ontario Environmental Protection Act ("EPA") regulates the disposal of regulated waste through an operating waste management system or a waste disposal site operated or used pursuant to the terms and conditions of a Certificate of Approval or a Provisional Certificate of Approval. Regulation 347 of the Ontario EPA defines a waste receiving site as any site or facility to which waste is transferred by a waste carrier. A receiver of regulated waste is required to register the waste receiving facility. This database represents registered receivers of regulated wastes, identified by registration number, company name and address, and includes receivers of waste such as: landfills, incinerators, transfer stations, PCB storage sites, sludge farms and water pollution control plants. This information is a summary of all years from 1986 including the most currently available data.

**Government Publication Date: 1986-1990, 1992-2019**

**Record of Site Condition:**

Provincial RSC

The Record of Site Condition (RSC) is part of the Ministry of the Environment's Brownfields Environmental Site Registry. Protection from environmental cleanup orders for property owners is contingent upon documentation known as a record of site condition (RSC) being filed in the Environmental Site Registry. In order to file an RSC, the property must have been properly assessed and shown to meet the soil, sediment and groundwater standards appropriate for the use (such as residential) proposed to take place on the property. The Record of Site Condition Regulation (O. Reg. 153/04) details requirements related to site assessment and clean up.

RSCs filed after July 1, 2011 will also be included as part of the new (O.Reg. 511/09).

**Government Publication Date: 1997-Sept 2001, Oct 2004-Nov 2022**

**Retail Fuel Storage Tanks:**

Private RST

This database includes an inventory of retail fuel outlet locations (including marinas) that have on their property gasoline, oil, waste oil, natural gas and / or propane storage tanks.

**Government Publication Date: 1999-May 31, 2022**

**Scott's Manufacturing Directory:**

Private SCT

Scott's Directories is a data bank containing information on over 200,000 manufacturers across Canada. Even though Scott's listings are voluntary, it is the most comprehensive database of Canadian manufacturers available. Information concerning a company's address, plant size, and main products are included in this database.

**Government Publication Date: 1992-Mar 2011\***

**Ontario Spills:**

Provincial SPL

List of spills and incidents made available the Ministry of the Environment, Conservation and Parks. This database identifies information such as location (approximate), type and quantity of contaminant, date of spill, environmental impact, cause, nature of impact, etc. Information from 1988-2002 was part of the ORIS (Occurrence Reporting Information System). The SAC (Spills Action Centre) handles all spills reported in Ontario. Regulations for spills in Ontario are part of the MOE's Environmental Protection Act, Part X. The Ministry of the Environment, Conservation and Parks cites the coronavirus pandemic as an explanation for delays in releasing data pursuant to requests.

**Government Publication Date: 1988-Sep 2020; Dec 2020-Mar 2021**

**Wastewater Discharger Registration Database:**

Provincial

[SRDS](#)

Information under this heading is combination of the following 2 programs. The Municipal/Industrial Strategy for Abatement (MISA) division of the Ontario Ministry of Environment maintained a database of all direct dischargers of toxic pollutants within nine sectors including: Electric Power Generation; Mining; Petroleum Refining; Organic Chemicals; Inorganic Chemicals; Pulp & Paper; Metal Casting; Iron & Steel; and Quarries. All sampling information is now collected and stored within the Sample Result Data Store (SRDS).

**Government Publication Date: 1990-Dec 31, 2020**

**Anderson's Storage Tanks:**

Private

[TANK](#)

The information provided in this database was collected by examining various historical documents, which identified the location of former storage tanks, containing substances such as fuel, water, gas, oil, and other various types of miscellaneous products. Information is available in regard to business operating at tank site, tank location, permit year, permit & installation type, no. of tanks installed & configuration and tank capacity. Data contained within this database pertains only to the city of Toronto and is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

**Government Publication Date: 1915-1953\***

**Transport Canada Fuel Storage Tanks:**

Federal

[TCFT](#)

List of fuel storage tanks currently or previously owned or operated by Transport Canada. This inventory also includes tanks on The Pickering Lands, which refers to 7,530 hectares (18,600 acres) of land in Pickering, Markham, and Uxbridge owned by the Government of Canada since 1972; properties on this land has been leased by the government since 1975, and falls under the Site Management Policy of Transport Canada, but is administered by Public Works and Government Services Canada. This inventory provides information on the site name, location, tank age, capacity and fuel type.

**Government Publication Date: 1970 - Apr 2020**

**Variations for Abandonment of Underground Storage Tanks:**

Provincial

[VAR](#)

Listing of variances granted for storage tank abandonment. This is not a comprehensive or complete inventory of tank abandonment variances in the province; this listing is a copy of tank abandonment variance records previously obtained under Access to Public Information. In Ontario, registered underground storage tanks must be removed within two years of disuse; if removal of a tank is not feasible, an application may be sought for a variance from this code requirement.

Records are not verified for accuracy or completeness.

**Government Publication Date: Feb 28, 2022**

**Waste Disposal Sites - MOE CA Inventory:**

Provincial

[WDS](#)

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of known open (active or inactive) and closed disposal sites in the Province of Ontario. Active sites maintain a Certificate of Approval, are approved to receive and are receiving waste. Inactive sites maintain Certificate(s) of Approval but are not receiving waste. Closed sites are not receiving waste. The data contained within this database was compiled from the MOE's Certificate of Approval database. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number. All new Environmental Compliance Approvals handed out after Oct 31, 2011 for Waste Disposal Sites will still be found in this database.

**Government Publication Date: Oct 2011- Nov 30, 2022**

**Waste Disposal Sites - MOE 1991 Historical Approval Inventory:**

Provincial

[WDSH](#)

In June 1991, the Ontario Ministry of Environment, Waste Management Branch, published the "June 1991 Waste Disposal Site Inventory", of all known active and closed waste disposal sites as of October 30th, 1990. For each "active" site as of October 31st 1990, information is provided on site location, site/CA number, waste type, site status and site classification. For each "closed" site as of October 31st 1990, information is provided on site location, site/CA number, closure date and site classification. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number.

**Government Publication Date: Up to Oct 1990\***

**Water Well Information System:**

Provincial

[WWIS](#)

This database describes locations and characteristics of water wells found within Ontario in accordance with Regulation 903. It includes such information as coordinates, construction date, well depth, primary and secondary use, pump rate, static water level, well status, etc. Also included are detailed stratigraphy information, approximate depth to bedrock and the approximate depth to the water table.

**Government Publication Date: Jun 30 2022**

# Definitions

**Database Descriptions:** This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

**Detail Report:** This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

**Distance:** The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

**Direction:** The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

**Elevation:** The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

**Executive Summary:** This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

**Map Key:** The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

**Unplottables:** These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

## Radon Information

Detailed radon information for the project property is provided below.

### Radon Zone Information

---

**ID:** 144851 **Radon Rank:** MOD

### Health Canada Radon Information

---

**Health Region:** 3553  
**Health Region Name:** Peel Regional Health Unit  
**Province or Territory:** ON  
**Number Homes in Survey:** 89  
**% Below 200 Bq/m3:** 100  
**% Above 200 Bq/m3:** 0  
**200 to 600 Bq/m3:** 0  
**% Above 600 Bq/m3:** 0

## 10.5 TSSA Response

**From:** Public Information Services <publicinformationservices@tssa.org>  
**Sent:** January 18, 2023 8:07 AM  
**To:** Shirley Cairns  
**Subject:** RE: TSSA Request #6656

**Please refrain from sending documents to head office. The Public Information (PI) team works remotely, mailing in applications will lengthen the overall processing time.**

**NO RECORD FOUND IN CURRENT DATABASE**

Hello,

Thank you for your request for confirmation of public information. TSSA has performed a preliminary search of TSSA's current database.

- We confirm that there are no records in our current database of any fuel storage tanks at the subject address(es).

This is not a confirmation that there are no records in the archives. For a further search in our archives, please submit an application for release of public information (PI Form) through TSSA's new Service Prepayment Portal. The associated fee must be paid via credit card (Visa or MasterCard) through a secure site.

Please follow the steps below to access the new application(s) and Service Prepayment Portal:

1. Click Release of Public Information - TSSA and click "need a copy of a document";
2. Select the appropriate application, download it and complete it in full; and
3. Proceed to page 3 of the application and click the link TSSA Service Prepayment Portal under payment options (the link will take you the secure site to pay for the release via credit card).

Accessing the Service Prepayment Portal:

1. Select new or existing customer (\*if you are an existing customer, you will need your account # & postal code to access your account);
2. Select the program area: AD (Amusement Devices), BPV (Boilers and Pressure Vessels), ED (Elevating Devices), FS (Fuels Services), OE (Operating Engineers) or SKI (Ski Lifts) and click continue;
3. Enter the application form number (obtained from bottom left corner of application form) and click continue;
  - a. When selecting the application form number from the drop-down menu, please make sure you select the application that begins with "PI" (i.e. PI-FS, PI-BPV etc.);
4. Complete the primary contact information section;
5. Complete the fees section;
6. Upload your completed application; and
7. Upload supporting documents (if required) and click continue.

Once all steps have been successfully completed, you will receive your receipt via email.

Questions? Please contact TSSA's Public Information Release team at [publicinformationservices@tssa.org](mailto:publicinformationservices@tssa.org).

Although TSSA believes the information provided pursuant to your request is accurate, please note that TSSA does not warrant this information in any way whatsoever.

Kind Regards,  
Kim

Hello,

Can you please tell me if you have any records for fuel tanks for the property located at 350 Rutherford Road South, Brampton ON?

Please let me know and I will order accordingly.

Thank you,

**Shirley Cairns**
