COVER LETTER

Date:

2023-11-13

To:

City Of Brampton

Department of Planning 2 Wellington Street West

Brampton

Attention:

Francois Hemon-Morneau, Principal Planner

On behalf of our client, I would like to submit the application for Minor Variance for a Retained Lot - 1 at 0 Creditview Road, Brampton, Part of West ½ of Lot 2 Concession 3 West of Hurontario street.

Currently the Lot is vacant, zoned under Agriculture A zone, it's under CVC and Consent application is submitted for Severance out of which this application is for retained lot no. 1. The owner wants to propose 2 storey single detached dwelling having an area of 650.32 sq.mt.

Below are the possible variances that we would like to propose:

- 1. Lot Width: The required Lot width of the lot 1 is 45 mts. Since the existing lot having width 41.99 mt is severed into two so the lot width is reduced to 20.62 mts which becomes possible variance.
- 2. Interior Side yard setback: East side-3.76 mt, West side-2.0 mt

East side is abutting neighboring property having an existing house. Proposed house will be 13.7 mts away from the existing house on the neighboring lot. The client will provide a heavy buffer of trees along the fence line to reduce any possible visibility and sound.

West Side is abutting a severed lot which belongs to the owner's relative and because of the family closeness, kids easy move ability, play area and mutual understanding they would prefer to keep the house having closer setbacks. Attached is a supporting letter from the neighbor.

3. Lot Area: The required Lot area of the lot-1 is 0.2 ha. as per special section 910. The existing Lot area is 0.36 ha which is severed into two equal parts having 0.18 ha. for each lot, which becomes the possible variance.

Below are the attachments:

- 1. Cover Letter
- 2. Minor Variance Form
- 3. Authorization Form
- 4. Permit to Enter form
- 5. Survey Plan
- 6. Site plan
- 7. Conceptual Elevations

Since the Lot falls under CVC, we contacted them (contact planner Trisha Hughes) and they did the site visit. All the reference emails with cvc are attached as pdf.

Kindly accept the application for Minor Variance Application for Lot - 1. Please let me know if you need any other information from our side.

Harperdah

To whom it may concern

We, as an owner for both of the Lots 1 & 2, are writing this letter to support our application for minor variation for our property Lot 1 & Lot 2 at 0 Creditview Road.

Since both Lot 1 and 2 have been acquired through a severance of land we are not left with a lot of place to work with. After much discussion with our partners and subsequently soon to be neighbours for each other (Mr. Harmandeep Gill & Mrs. Kulbir Gill and Mr. Iqbal Dhindsa & Mrs. Harpreet Dhindsa) we have collectively decided to apply for these variances (Reduced Interior side yard setbacks in between the houses), in hopes to be able to build the properties we have envisioned for our families.

Our families have a long lasting relationship which is why we also decided to partner together to acquire this property in an effort to build our dream houses. As such we don't see the minor variance of space between our properties being an issue going forward. This will allow us to use the space to its fullest potential.

We hope you can take this letter of support into consideration as you review our applications for the minor variances.

Thank you,

Heart Kulbir Gill
Harmandeep & Kulbir Gill

Hello Harpreet,

Thanks for your inquiry and your patience.

Based on our mapping and information available, the subject property at 0 Creditview Road in Brampton (vacant property between 8307 and 8375 Creditview Road) is located within the Credit River valley. The subject property is also in proximity to floodplain and wetland (Provincially Significant Churchville-Norval Wetland Complex). As such, the property is subject to the Development, Interference with Wetlands, and Alterations to Shorelines & Watercourses Regulation (Ontario Regulation 160/06). This regulation prohibits altering a watercourse, wetland or shoreline and prohibits development in areas adjacent to the Lake Ontario shoreline, river and stream valleys, hazardous lands and wetlands, without the prior written approval of CVC (i.e. the issuance of a permit). A copy of our mapping is attached.

The subject property is also within an area designated as Core Greenlands by the Region of Peel. Please contact the Region of Peel for any questions or requirements associated with this designation.

Your email noted that your client considering a potential severance on the property. CVC policy does not support the creation of a new lot within or fragmenting the natural hazards or natural heritage features. Therefore, it would need to be demonstrated that any new lot is located outside of the natural hazards and natural heritage features, with an appropriate buffer. Generally, a minimum 10m buffer is added to the greatest constraint. It would also need to be demonstrated that there is a sufficient building envelope on the proposed lot to be created and the lot to be retained to incorporate all necessary infrastructure (e.g. dwelling, driveway, parking, septic, etc.) in accordance with our policies. Further, it would need to be demonstrated that safe access in accordance with our policies is available.

In order to provide more specific comments, a conceptual site plan drawing showing the location and dimensions of any proposed severance and any proposed development (e.g., buildings/structures, grading, access, etc.) should be submitted for review. This can be hand drawn on a piece of paper or aerial image of the property. The actual limits of the regulated features may need to be reviewed and surveyed through a site visit once a plan has been proposed. Further study may also be required to confirm feasibility of a proposal.

Should you have any questions, please let me know.

Kind regards,

Hi Harpreet,

Thank you for your property inquiry. Could you please confirm the lot by sending a PIN map, screenshot of CVC's mapping with the lot highlighted, ARN number, or on google maps? This will assist with ensuring that we are discussing the correct lot location during our review of your request for potential development and lot severance.

Kind Regards,

Ryan Pierce | he/him/his

Hi Harpreet,

In follow-up to our discussion last week, we just wanted to confirm if CVC staff have permission to enter the site to take a look this week (either Tuesday morning or Thursday afternoon). We do not need to meet with anyone at this time. We just want to take a look at the site and take some photos, and can follow-up by phone or email after the site visit.

Thanks,

Hello Raman and Harpreet,

In follow-up to our site visit on October 24, 2023, we provide the following preliminary comments:

1. There appears to have been disturbance on the property (e.g., grading, placing fill). Please note that the entire property is regulated by CVC. As such, prior to any development, including but not limited to site grading and/or placing of fill, a CVC permit will be required. Please clarify what has been occurring on the property and if you have had any consultation with CVC prior to initiating the works. Any development should stop until all appropriate permits/approvals are received.

- 2. There appears to have been tree cutting on the property as well. If you haven't already, we recommend consultation with the City regarding any tree cutting, as well as the proposed severance. Please note that the property is mapped within the Peel Greenlands.
- 3. Based on our preliminary review of the current proposal, the proposed severance does not appear to impact the natural hazards. As such, CVC staff do not have concerns with the current proposal. We will still review and provide comments on any planning application(s) to the City and CVC approval/permitting will be required prior to any development on the property. Please note that CVC has separate fees associated with Plan Review and Permit Review.

As a next step, we recommend further consultation with the City to confirm their requirements and process.

Should you have any questions, please let me know.

Kind regards,

Hello Trisha,

Thanks for going on site for site visit and reviewing and sending an email.

As per your email, I have talked to the lot owners and they have no knowledge regarding the grading fills etc but they will keep a watch and definately will not do anything on site until we get all the approvals.

So, we will be submitting the proposal to the City through pre consultation and will update you once we do the submission.

Thanks,
