> I would like to know the reason why they're applying for another walk up basement entrance when they already have one in the back. This property already has tenants living in the basement and this property according to Brampton. Is not registered for a finished basement nor have tenants living in basement. I have called Brampton 311 multiple times to look into this property and I was given the number and info of property standards officer Kyle Smith. I emailed him back on Oct 2023 a few times and he said he's been trying to get a hold of owner and he's not returning his calls. Three months later fill is still open and he can't be reach from officer however owner is applying for another entrance. There is already no parking on the street and upstairs is already rented out with 6 cars on driveway. Please allow me to understand the reason why applying for another entrance. Thanks Anthony
