Subject: [EXTERNAL]Re Landlord Tenant Act meeting

I totally in favour of the Landlord and Tenant Act being discussed on Wednesday, January 31st.

Living on a street that has many, many renters and very bad landlords in the past and present, we know the circumstances of these situations. There needs to be some control over scum landlords taking advantage of renters, living in poor and dangerous conditions. Also, the landlords DO NOT take care of the outside of the properties and expect their renters to do it - which does not happen.

Thanks to Councillor Santos and Mayor Brown and others who are working to bring this act to fruition to make a better cleaner safer City of Brampton.
