

Appendix 2 – Terms of Reference – Ward Boundary Review

Objective

The City of Brampton will undertake a Ward Boundary Review to arrive at an effective and equitable system of representation across all wards, and present to Council options for a new ward system to be in place for the 2026 Municipal Election.

The review shall consider the following:

- History of previous ward boundary changes in the city
- Legal proceedings and outcomes of relevant Ontario Land Tribunal (OLT) hearings and Supreme Court case decisions
- Future growth with the intent that any ward boundary changes will be relevant for the next 2-3 elections
- Public input
- Political representation at both the City and the Region of Peel

Review Criteria and Guiding Principles

In reviewing ward boundaries, the following criteria shall be considered:

- 1) Effective representation
Voters should be equally represented to the greatest extent possible.
- 2) Representation by population
Population numbers should be relatively equal in each ward. The review should consider both the present inconsistency in population numbers and forecasted figures.
- 3) Population trends and growth
The review should consider the impact of development and intensification on population.
- 4) Physical boundaries
The review should consider physical boundaries, both natural and built.
- 5) Protection of established neighbourhoods and communities
The review should endeavour to preserve established neighbourhoods.

Project Team

It is recommended that the following departments/divisions participate as members of a Ward Boundary Project Team, which will be overseen by a committee of Council:

Steering Committee Oversight

It is recommended that a political steering committee be established to guide the review process. The Governance and Council Operations Committee could serve as the steering committee, as the ward boundary review is within the mandate of the Committee. It is recommended that this committee provide the necessary oversight.

Public Consultation

A public consultation period will form an important part of the ward boundary review. Members of the public will have the opportunity to participate in the review and provide their opinions on proposed changes.

An engagement strategy will be developed with the assistance of Strategic Communications and will include:

- Steering committee meetings
- Open houses
- Online engagement

If no appeal is submitted during the appeal period, the by-law stands and the new ward system would come into effect the first meeting of the newly elected Council in 2026.

Appendix 3 includes an extract from Sections 217, 222 and 223 of the *Municipal Act, 2001*, which includes the legislated timelines.

Potential Delays

- Appeal to OLT – any appeal to the by-law(s) (commencing potentially in February 2025), may impact the timelines for work that staff is required to complete.
- Use of an external consultant – If Council decides to engage an external consultant to conduct the review, the timelines would be adjusted to include a 70-day RFP process. In addition, the consultant would likely suggest changes to the timeline based on their experience and expertise. For example, some ward boundary reviews have included two separate phases of public consultation.
