Hi Harjit, Thank you for providing owner's authorization.

I believe this is it (as attached). You will require to keep 10m back from the dripline.

I hope this helps. I look forward to commenting through the minor variance process.

Subject: Minor Variance Application Submission – (Lot-1) 66 Marysfield Drive, Brampton

On behalf of our client, I would like to submit the application for Minor Variance for a severed Lot 1 at 66 Marysfield Drive, Brampton. For details and reference, the key plan is shown in the drawings for the location of lot.

The Lot is 0.43 hec and currently zoned under RE2(2919) Zone. Our client wants to build Custom house for his family approx. 645.63 sq.mt (Gross Floor Area) and would like to request for possible Minor Variances as listed below along with reason for not able to comply with the few zoning regulations:

1. Min. Interior Side yard setback: East side-3.0 mt (till Garage wall) & 5.92m (till Building), West side-4.45 mt

East side is abutting neighboring residential property and proposed garage will be at 3 mts and proposed house will be at 5.92m from the neighboring existing house with complete landscape and tree buffer to reduce noise and visibility.

West Side is abutting a lot which belongs to our owner's friend and it a retained lot. The house will be 4.45mt from lot line.

2. Max. Lot Coverage proposed is 11.86% (5602.71 sq.mt) in which along with house and garage areas, the front porch area and rear deck area are also included whereas the permitted Maximum lot coverage is 10%.
3. Min. Dwelling Separation: East Side – Garage to Garage Distance = 10.64m (approximately) & House to House distance = 17.77m (approximately), West Side – Vacant Property

Below are the attachments:

2. Minor Variance Form
3. Authorization Form
4. Permit to Enter Form
5. Survey Plan
6. Site plan
7. Conceptual Elevations

Since the Lot falls under TRCA, we contacted them, and they did the site visit earlier. All the reference emails with TRCA are attached as pdf.
