Good Afternoon,

I hope this email finds you well. I wanted to reach out and share some concerns that I, along with other residents on our street have regarding the construction of the condo that is supposed to be built behind our houses.

First and foremost, our neighborhood has always been known for its peace and quiet. The construction of the condo might disrupt that tranquility and we're worried about the impact it will have on our daily lives.

It seems like the concerns and opinions of the residents haven't been taken into consideration. We believe it's crucial for the builders to listen to the community's voice and address any worries we may have.

Another major issue we foresee is the potential increase in traffic and congestion. Our street is already quite busy, and the addition of the condo could exacerbate the problem. This could not only affect our safety but also make it more difficult for us to navigate the area.

Furthermore, there was an agreement with the builders that no obstructions would be built behind our houses. However, the construction of the condo goes against this agreement, which is a significant breach of trust. We value our privacy, and having a condo right behind our homes would greatly compromise that.

I kindly request that you take these concerns into serious consideration and engage in a dialogue with us, the residents, before proceeding further with the construction. It's important for us to work together to find a solution that is fair and satisfactory for everyone involved.

Thank you for your attention to this matter. We look forward to hearing from you soon.

[REDACTED]

Best regards,  
Denise Robinson
