Note: The program years 2013 - 2018 are not included in the table as applications pre-2019 are maintained in hard copy and do not have a digital record. References to the archives are required for applications pre-2019. Application Status are based on Accela application statuses. The definitions for these statuses are as follows:

-In Review: A formal application has been submitted and is currently undergoing the preliminary review process.

-Council Approved: A formal application has been submitted, the initial review process is complete, and the grant amount has been approved by Council. The applicant is in progress to completing works and demonstrating compliance to the requirements of the grant.

-Complete (Closed): The application has been approved by Council, applicant has completed their renovations and have demonstrated compliance to the requirements of the grant. The application is closed and complete, and grant has been dispersed.
