

Protecting Brampton: The Role of Residential Bollards

Presenter: Deep Toor

Content

1. Understanding the Rise in Car Thefts
2. Introducing Residential Bollards Systems
3. Collaborative Approach

A blurred black and white photograph showing a person walking past a car. The person is in the center-right of the frame, wearing a light-colored jacket and dark pants. The car is on the left side of the frame. The background is out of focus, suggesting an outdoor setting like a parking lot or street.

Section 1

Understanding the Rise in Car Thefts

Car Theft Statistics

01

Increasing Trend

Car thefts in Brampton, Ontario, have been on the rise, posing a significant threat to public safety and security.

02

Targeted Areas

Certain neighborhoods and communities within Brampton are experiencing a higher frequency of car theft incidents, leading to concerns among residents.

03

Impact on Community

The surge in car thefts has created a sense of vulnerability and fear among the residents, necessitating proactive measures to address the issue.

Analyzing the Modus Operandi

Sophisticated Techniques

Car thieves are employing advanced methods to bypass traditional security measures, making it imperative to adopt innovative solutions.

Vulnerable Entry Points

The vulnerability of residential parking areas and driveways has made them prime targets for car theft, highlighting the need for enhanced security.

Lack of Deterrents

The absence of effective deterrents has emboldened criminals, emphasizing the urgency of implementing robust security measures.

Section 2

Introducing Residential Bollard Systems

Example Image: Automatic Bollard

Source: *'Toronto.citynews.ca'*

Image showcasing the practical application of an automatic bollard system, effectively safeguarding a vehicle positioned within a residential driveway. These bollards are retractable for easy access for the property owner only.

Types of Bollards

Removeable Bollards:

these can be removed and reinstalled as needed.

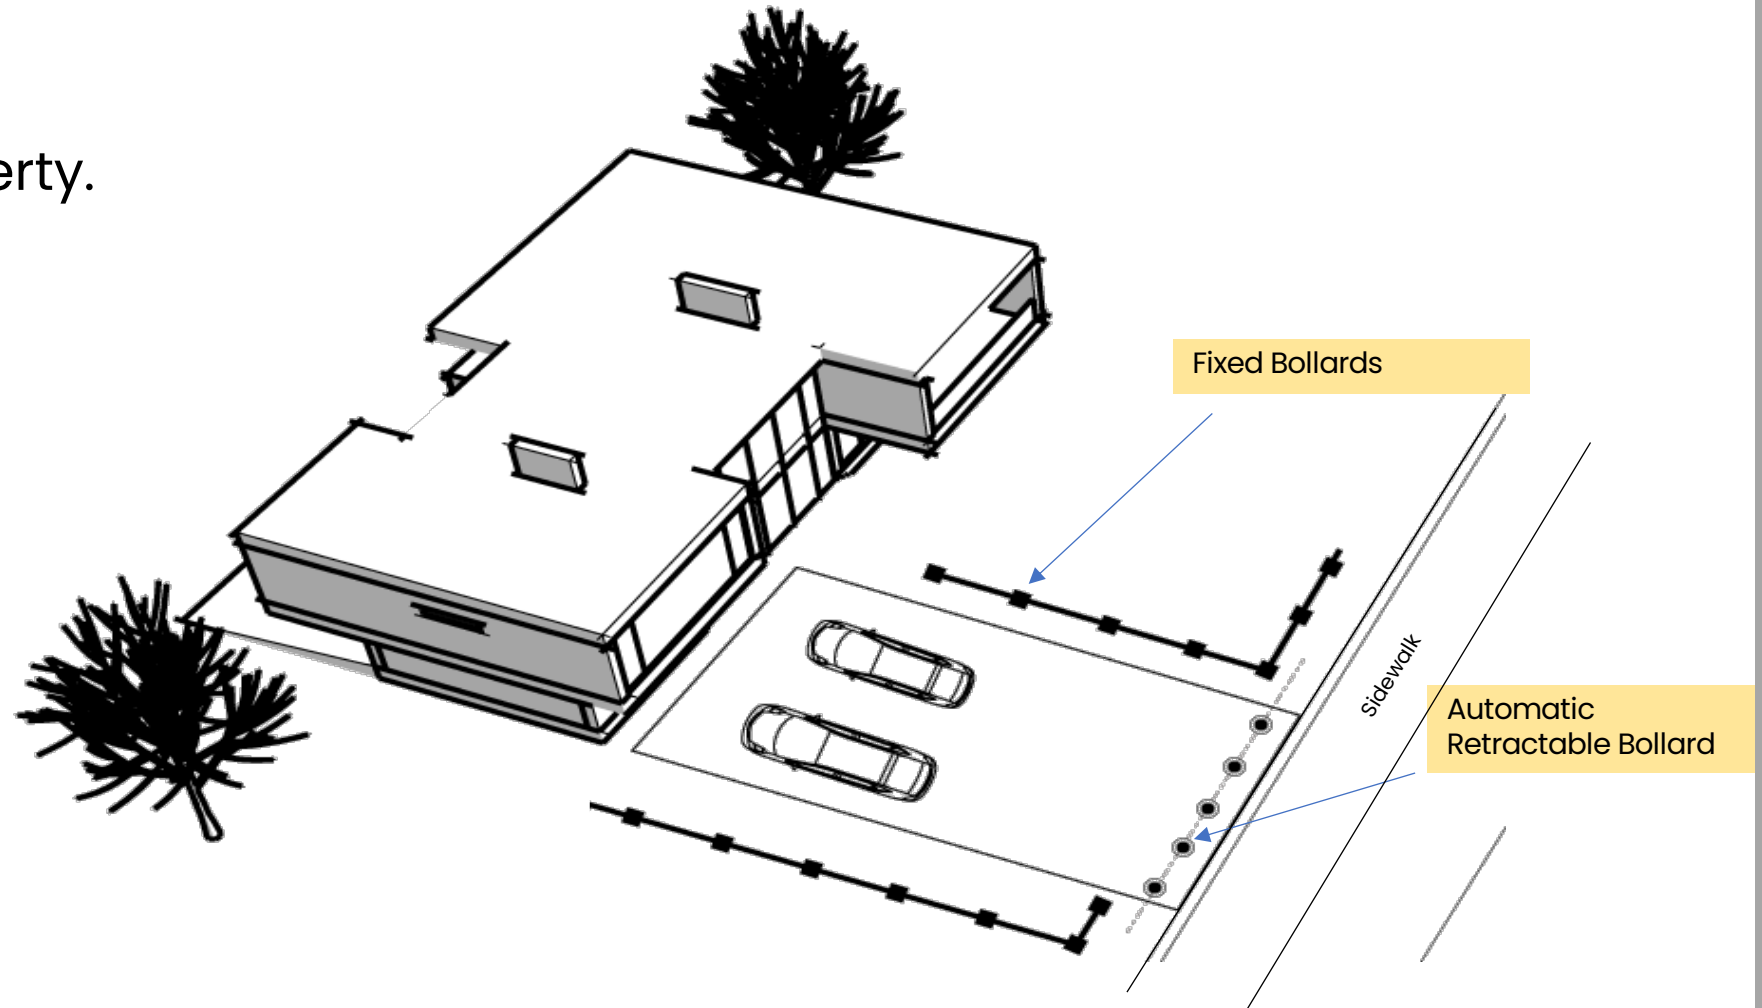

Retractable Bollards:

comes in automatic, semi-automatic and manual.

Fixed Bollard: Permanently installed in the ground.

Example of Bollard Placement with reference to a residential property.

Section 3

Collaborative Approach

Collaborative Partnership

Shared Responsibility

Establishing a collaborative approach to fighting car thefts in Brampton.

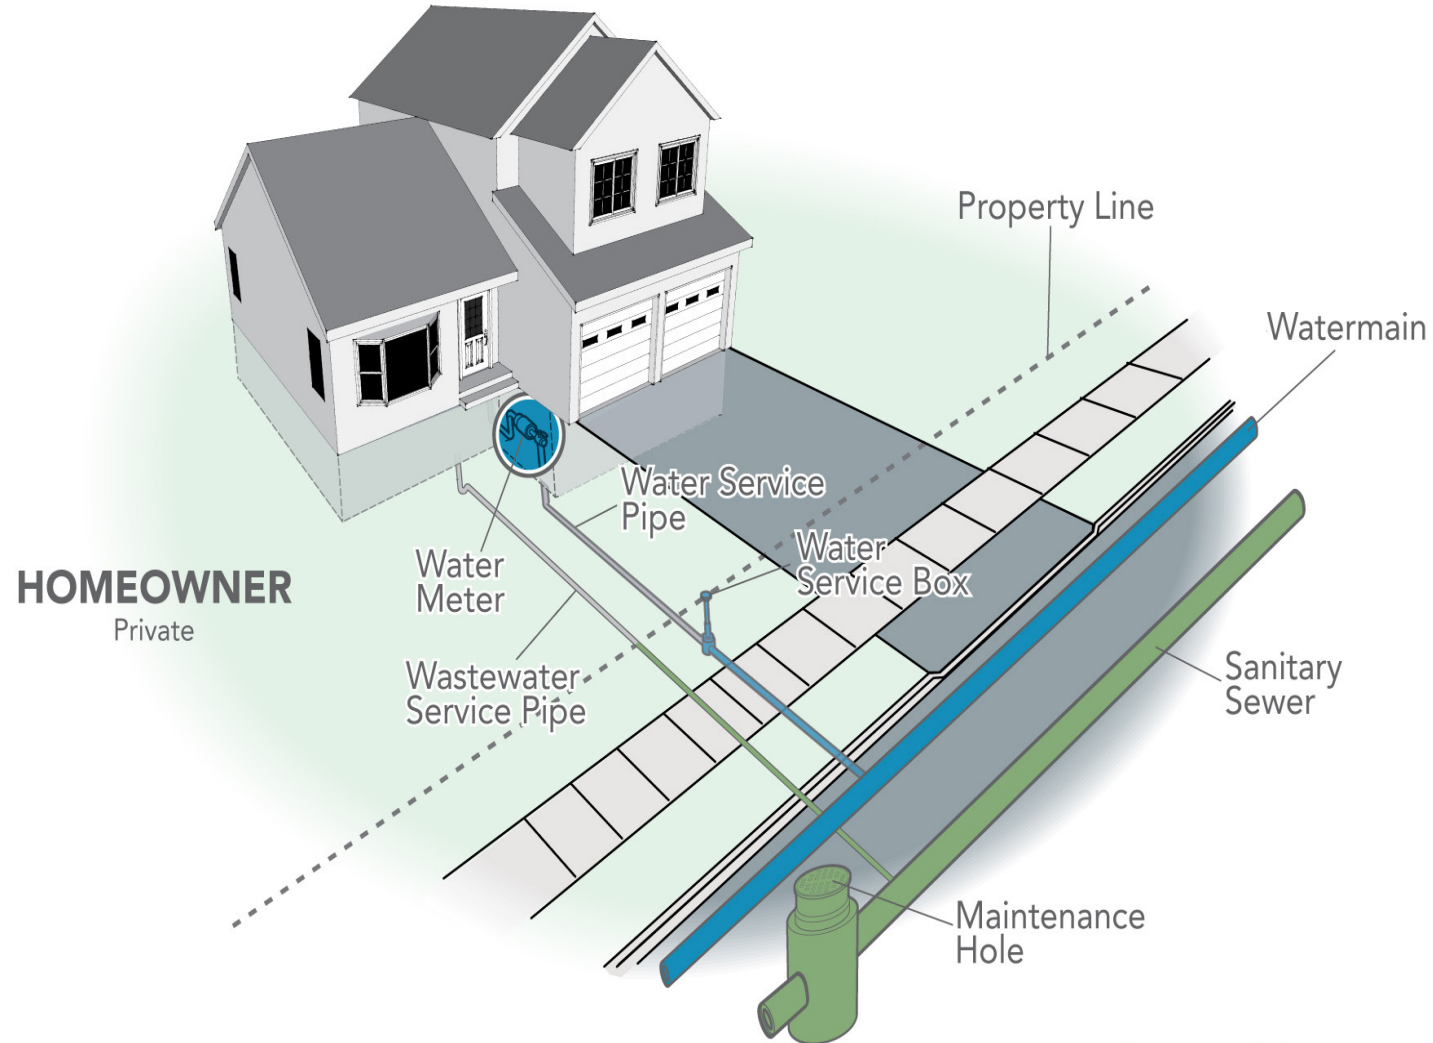

Policy Support

Advocating for policies and regulations that promote the installation of residential bollards as a proactive measure against car thefts.

Community Engagement

Encouraging community involvement in security initiatives, fostering a sense of ownership and vigilance in safeguarding residential communities.

Ownership

- Region of Peel
- Homeowner

Policy Support – Current Restrictions for Bollard Placement.

- Brampton and Peel Region property surveys confirm that the property line starts at the ‘water shutoff valve’, thereby limiting the placement of bollards in close proximity to the sidewalk.
- Image shows property line with reference to the driveway and sidewalk.
