Subject: [EXTERNAL]TRCA clearance on A-2024-0064 at 26 Kenview Boulevard (April 23, 2024 meeting agenda)

Caution: This email originated from outside the organization. Do not click links or open attachments that you do not trust or are not expecting.

Hello,

The subject property at 26 Kenview Boulevard is partially within Toronto and Region Conservation Authority's (TRCA) Regulated Area of the Mimico Creek watershed due to the Regulatory flood plain on the rear of the property. TRCA staff have reviewed the circulated materials and have determined the proposed outdoor storage, at the rear (south) side of the property, does not fall within TRCA's definition of development and as such is not regulated and does not require a permit from TRCA. However, TRCA staff should be contacted prior to future development or site alteration.

I trust this is of assistance.

Regards,

Marina Janakovic, BES (Hons)
