Subject: [EXTERNAL]Objection to Application A-2024-0126

Caution: This email originated from outside the organization. Do not click links or open attachments that you do not trust or are not expecting.

Hello,

My name is Abhi Bhoite, resident [of 43 Merrimac Drive, Brampton L6Y6K4](#). This email is with regards to **application number A-2024-0126** application for construction on [16 Ixworth circle, Brampton](#). I would like to communicate **an objection to the application** to the large structure in the backyard. I believe that all residents in the community **should stay within permitted city limits of construction** in the backyard. It is important to adhere to it, as large structures result in risk of large gatherings in the backyard and noise pollution and nuisance to neighbours. Some of us have aging and sick parents we care for and young children whose health & wellbeing might be impacted by the loud noise created by large gatherings. Also, risk of fire-hazard and blocking of neighbours view due to a structure higher than fence length are additional reasons to object to this application. As a responsible resident of this community one should adhere to the permitted city guidelines for construction. As a fellow resident, I have an objection to Application A-2024-0126.

Thank you for your consideration and please feel free to reach out if you have any further questions or concerns.

Kind Regards

Dr. Abhi Bhoite MD, MBA
