

# Howden Boulevard and Dixie Road Physical barriers on bike lanes create a safe intersection for everyone.

Separated bike lanes with cones carved out a space for people of all ages and abilities to **move** along our only east-west cycling corridor.

Over 90% of drivers turning right from Howden to Dixie do so illegally... from the bike lane- Even when the proper lane is empty.

# Driver Education-was not effective

**BIKE LANES**

STREETS FOR PEOPLE  
Bike Lane

The City of Brampton is making it easier for cyclists to get around safely. Bicycle lanes are reserved for people on bikes and are typically marked by a solid white line and a bicycle symbol.

**Here are some safety reminders:**

**Bicycle Lanes at Intersections**

**Bike Box**

Certain intersections in Brampton have green "bike boxes," which allow cyclists to proceed ahead of vehicles at traffic signals.

**Bike Lanes and Transit Stops**

**If you are driving a vehicle,** you may sometimes need to enter or cross a bicycle lane to turn right at an intersection or driveway. Take extra care when you do this.

- For bike lanes that have a solid line extending to the intersection, vehicles are not allowed to enter the bike lane and drivers must yield to cyclists before they can complete their right turn.
- For bike lanes that have a dashed line leading to the intersection, drivers are allowed to enter the bike lane when it is safe and clear of cyclists.

Buses are allowed to stop in a bike lane briefly at transit stops.

When riding in a bike lane approaching a stopped bus that is loading and/or unloading passengers, you must yield right-of-way to the bus. Do not attempt to pass the bus on its right hand side until it has completely cleared the bike lane.

**SHARE THE ROAD. STAY SAFE!**
