**Subject:** [EXTERNAL]APPLICATION NUMBER A-2024-0286 - 1 Barr Crescent, Plan M537, Lot 86, Ward 2

**Caution: This email originated from outside the organization. Do not click links or open attachments that you do not trust or are not expecting.**

Regarding the Application for Minor Variance A-2024-0286 (1 Barr Crescent) pursuant to Section 45 of the planning act, R.S.O. 1990 c.P.13, we, along with many of the neighbours, feel that granting such a variance would significantly and negatively impact the character of our neighborhood. For this and other reasons, we are opposed to the granting of the requested variance.

We are witnessing changes to our single- family dwelling designation and are seeing significant increases in traffic impacting our local children and families.

Brampton already had the municipally-approved density of the nearby development on Sandalwood Parkway west of Kennedy overridden and significantly increased by the OMB. Considering that this portion of the city already participated in densification above planned levels.

We do not recognize any urgent need to deviate from our current **single-family dwelling designation** or to allow other variations to by-laws which would facilitate more vehicles and increase traffic on our neighbourhood streets.

Please feel free to post my correspondence on the agenda, and to contact us for additional feedback.

Please also provide me with the WebEx meeting information for the meeting on Tuesday, August 20, 2024 at 9:30 AM.

Regards,

Mr & Mrs Huddleston

3 Esker Drive, Brampton
