Hello,

I OPPOSE THIS PROJECT because it's a massive residential and commercial project in a matured neighborhood. Parking Spaces are limited vs. the number of residential units and the commercial units which is going to overflow in the nearby streets. Today, on the first day of school at the Castle Oaks intersection many parents got the parking tickets because there was no parking available. This situation is going to worsen over the years and this needs to stop. Schools nearby are overloaded and streets are facing massive parking overflow everyday. Yesterday there was an accident at Bellchase X Clarkeway, which created a chaos.

I humbly deny and do not support this development.

Thanks,

Akash Adhvaryu
