Hello,

It was brought to my attention that there is a proposal for official plan amendment and rezoning around the Lionhead Golf Club Rd in Brampton (Draft plan 21T-06024B and 21T-04008B).

I would like to voice my concern as a property owner in the area and say that I am completely against this plan and rezoning. This is going to hurt my property value and it will affect all the home owners in the area for different reasons.

I would like to petition against this proposal and would like to see the city and the developer go back to original plans and build executive residential homes.

Dhruv
