# 50 Years in Review

## Dream Team Journey in Brampton

- 1974: Zinc Oxide production comes to Brampton, ON
- 1998: First level of machinery expansion with larger muffle furnaces is implemented
- 2013: \$21M (USD) used to expand capacity from 40,000mt to 65,000mt (largest single site in globally)
- 2017: Zochem successfully divested to U.S. strategic ownership group in Central Tennessee
- Present: 35 high paying jobs supporting the larger dual site organization (Brampton, ON & Dickson, TN)

## Growth Opportunities Identified

- Educate Customer: **French Process** versus **American Process** Zinc Oxide. Safe & Environmentally friendly
- Global Expansion: Purchased 40% stake in IEQSA, Peruvian Zinc Materials business. Focusing on product expansion for energy storage and geographic expansion for improved global reach
- Local Support Req'd: Competitive disadvantages to imports from Mexico, Latin America, and Asia (Carbon Tax, HR/Employment Standards, Environmental standards)  
**Brampton 2017 = 55,000mt production, 47 FTE**  
**Brampton 2024 = 35,000mt production, 35 FTE**
