Respected City clerk,

I am writing to express my strong opposition to the proposed housing development in our neighbourhood. While I understand the need for affordable housing in our city, I believe that this project would have a detrimental impact on our community.

The proposed projects would exacerbate these issues, adding to the already built up traffic, our privacy, increasing the risk of accidents and contributing to a high level of noise pollution.

Traffic and Safety : Hwy 50 is already busy in weekday if city approve more 346 residential units and approve the project than traffic situation will exacerbate in the near future, increase higher traffic volumes on streets, increase accident. Recently, there have been multiple accidents in the area, highlighting the dangers that increased traffic can bring. Resulting increase our car insurance premiums. Our family safety also in the risk. These proposed development is simply too large for this area, that`s resulting significantly environmental damage, destroying natural habitats and putting wildlife at risk.

These projects also increase the load on overcrowded schools and streets.

It is essential to work towards finding sustainable solutions that address house shortages while considering the needs and concerns of the local community. it is important to encourage responsible and equitable development in the appropriate location that benefits all members of the community.

I believe that this project is simply not the right fit for our neighbourhood. Thank you for your attention to this matter.

Sincerely,  
Girish Ahir
