Hello,

I am writing to express my STRONG OPPOSITION to the proposed housing development in our neighbourhood. City's existing infrastructure cannot support this large scale housing development.

First and foremost, the proposed development is simply too large for our area. The increase in population density would put a strain on our already overburdened infrastructure, leading to increased traffic congestion, noise pollution, and strain on our public services. Additionally, the construction of this project would result in significant environmental damage, destroying natural habitats and putting wildlife at risk.

Furthermore, the type of housing being proposed is simply not in keeping with the character of our neighbourhood. This development would bring in a large number of residents so we will have economic inequalities along with high inflation ,which could lead to increased crime rates and other negative social effects.

Please find attached my completed delegatiom form, i will like to attend the call remotely.

Thanks  
Amith Gujjula
