The undersigned hereby applies to the Committee of Adjustment for the City of Brampton under section 45 of the Planning Act, 1990, for relief as described in this application from By-Law **270-2004**.

3. **Nature and extent of relief applied for (variances requested):**
- To permit a side yard setback for a single family dwelling unit and attached garage of 7.20m, where 7.50m is required.

4. **Why is it not possible to comply with the provisions of the by-law?**
A previous variance and building permit were issued for a detached garage, which complied with the required setbacks for detached structures. After the foundation was poured, the owners saw the possibility of connecting it to the house, changing it into an attached garage. Therefore, the proposal would now fall under the 7.50m setback requirement for dwellings and attached structures. This removes the need for the other variances granted for the detached structure previously applied for.
