Dear Clara,

My name is Laura Jonozzo and I own the property at 36 Clarence Street, which backs up to 37 Guest Street.

This variance directly effects me as I am unable to erect a fence as the structure at 37 Guest has encroched on the property line.

When the hole diggers were here for the new fence, they looked at the survey and said they could not dig because the structure was impeding the property line.

I had been in conversation over the years with many representatives from the city, mostly Melvin Ramkissoon.

Just over the weekend, i was made aware of this upcoming procedure. I had not been notified at all.

Please let me know what my next steps are.

Thank you,

LAURA JONozzo
