Minor Variance

Metrolinx is in receipt of the Minor Variance application for 130 Fandango Drive to permit a below grade entrance for the purposes of adding a basement unit. This item was circulated on January 24th, 2025, and is to be heard at Public Hearing on February 25th, 2025. Metrolinx's comments on the subject application are noted below:

- The subject property is located within 300m of the Canadian National (CN) Halton Subdivision, which carries Metrolinx's Kitchener GO rail services.

GO/HEAVY RAIL - CONDITIONS OF APPROVAL

- As per section 3.9 of the Federation of Canadian Municipalities and Railway Association of Canada's Guidelines for New Development in Proximity to Railway Operations, the Owner shall grant Metrolinx an environmental easement for operational emissions. The environmental easement provides clear notification to those who may acquire an interest in the subject property and reduces the potential for future land use conflicts. The environmental easement shall be registered on title of the subject property. A copy of the form of easement is included for the Owner's information. The applicant may contact jenna.auger@metrolinx.com with questions and to initiate the registration process. (It should be noted that the registration process can take up to 6 weeks).
- The Proponent shall provide confirmation to Metrolinx, that the following warning clause has been inserted into all Development Agreements, Offers to Purchase, and Agreements of Purchase and Sale or Lease of each unit:
 - **Warning:** Metrolinx and its assigns and successors in interest operate commuter transit service within 300 metres from the subject land. In addition to the current use of these lands, there may be alterations to or expansions of the rail and other facilities on such lands in the future including the possibility that Metrolinx or any railway entering into an agreement with Metrolinx or any railway assigns or successors as aforesaid may expand their operations, which expansion may affect the environment of the occupants in the vicinity, notwithstanding the inclusion of any noise and vibration attenuating measures in the design of the development and individual units. Metrolinx will not be responsible for any complaints or claims arising from use of such facilities and/or operations on, over or under these lands.

Should you have any questions or concerns on the above , please contact jenna.auger@metrolinx.com.
