I am voting against this application as I see it as a way to increase the rooming house problem in our neighbourhood. This decreases the value of our homes; turns the area into a poorly rundown property and adds unnecessary noise and too many cars. I am really surprised that a vote is really necessary for this situation. I would have thought that the mayor and council would recognize that this is not a means of solving the housing crisis. We are within the 60 meter area of this property but I feel very sorry for the next door neighbours. I believe this practice has to be stopped.

I am giving my permission to post this correspondence on the agenda.
