**Re: Region of Peel Consolidated Comments
City of Brampton Committee of Adjustment Hearing
March 25th, 2025**

In accordance with Bill 185 which received Royal Assent on June 6, 2024, as of July 1, 2024, the Region has become an upper tier municipality without planning responsibilities. As such, lower-tier municipalities have assumed planning policy and approval responsibilities of the regional municipality, including primary responsibility for all planning in their geographies, except for matters requiring provincial approval. Per section 70.13(2), the Region's official plan will be deemed to constitute the official plan of the City of Brampton, and conformity will still be required until such time as Brampton amends Peel's Official Plan and approval is provided by the Province. Therefore, on July 1, 2024, the current Region of Peel Official Plan became the City of Brampton Official Plan and shall be implemented by the City of Brampton.

Notwithstanding the above, at this time it is anticipated that beyond July 1, 2024, the Region's mandate will continue to include the provision of hard and soft services to the community, including but not limited to servicing, transportation, waste management, affordable housing, health services, emergency services, etc. To this end the Region will continue to have an interest in community building to ensure the efficient, financially sustainable, and effective delivery of infrastructure and services.

These comments will continue to serve as crucial inputs intended to inform the deliberations and decision-making of the Committee members.
