Subject: [EXTERNAL]proposed commercial development at 4037 Countryside Drive

Caution: This email originated from outside the organization. Do not click links or open attachments that you do not trust or are not expecting.

Dear Harjot Sra,

I am representing my mother in law who lives in the residential areas that you have sent this notice to (city file # OZS-2024-0068) . I was asked by her to write this email because she is very concerned and distraught on the purposed development at 4037 Countryside Drive.

She has been living here for almost 45 years and is opposed of this proposed plan. When her and her husband bought their land they were told that there would be no commercial development and it would only be residential. They would have never bought this land and built their home if this was the case. She is now widowed and cannot afford to move because of this proposal that will be build almost right in her backyard.

Over the years she has seen dramatic change. Crime has gone up and the traffic is unbearable. This was supposed to be her sanctuary and now it has been turned into a downtown city. With this new development there will be more chaos. Traffic will be at a all time high in what was supposed to be only residential. She is against this development and says NO to any commercial plaza. I hope you take her concerns into consideration.

Sincerely,
A very concerned resident
