Hi I am owner of house at [REDACTED]. I had received a notice regarding this proposed high rise behind my backyard. This is a project I vehemently oppose As this directly affect security, safety, and the calm environment we are living in this locality. This neighbourhood is not a place to erect high rise buildings as there are no other high rise buildings around this area. It does not make sense for multiple reasons:

This locality is comprised of detached homes neighbourhood.

Only 1 school is located nearby and this will have significant detrimental effect on my and my neighbourhood children's education Risk to structural damage to my property is going to be high as this directly is going to be erected behind my backyard Noise pollution due to construction Loss of privacy as my calm private environment for my girls is lost as people will be staring at our backyard from this high rise.

Loss of property value in this area

Increased risk for theft due to likely low income unit occupation in this building.

We pay such high taxes and this area will likely see exodus of current home owners and may become a hot bed for crimes.

Sincerely
Parminder Nizran
