Subject: [EXTERNAL]City Of Brampton Application fo Minor Variance #A-2024-0446

Caution: This email originated from outside the organization. Do not click links or open attachments that you do not trust or are not expecting.

To whom it concerns,

I received a Public Meeting Notice in the mail regarding an application for a minor variance (A-2024-0446). I wish to provide

my written comments regarding this notification. I have no objections to their application for a minor variance as they have a

beautifully maintained property and quite frankly raises the value of houses on our street. The fence does not hinder anyone on

our court and helps provide security to our very private court. In fact the city many years ago built a hill behind their houses

that allows people walking on said hill to look directly into their windows. The added height provides them with much needed

privacy and security. Great neighbours and are liked and respected by everyone on the court.

Please feel free to call me directly in you need any further feedback!

Regards

Barry Helm
