Subject: [EXTERNAL]Fwd: \$12K CoA Fee for driveway extension applications

Caution: This email originated from outside the organization. Do not click links or open attachments that you do not trust or are not expecting.

Mayor Brown and Council Members,

I wanted to express my support of the increased fee structure that was passed a few months back with regards to applications for variances. I specifically want to express my strong support for the \$12,000 fee for driveway extensions. In my opinion, the \$12,000 fee should have been implemented years ago.

The existing bylaws with regards to driveway widths are more than adequate for what is required for a residential property in our family neighbourhoods. Thank you for putting this \$12,000 fee in place to support maintaining the landscape of our communities, we are seeing a positive impact.

We see way too many driveways that are across the entire fronts of properties that eliminate the majority of green space and eliminates the opportunity for proper water absorption and our infrastructure is already maxed out with this run off going into our sewers. As a result of what has been done to date, we are suffering from too much hardscape.

I understand that there has been discussions with regards to lowering the fee for driveway extensions. PLEASE do not lower this fee, this would be disastrous for the City of Brampton to reverse course.

The community strongly supports keeping the \$12,000 fee in place.

Furthermore, I wanted to add that this would increase the RISK of more rental properties coming to existence in Brampton (we already have enough!!). The state of our neighbourhoods are starting to look like ghettos with these rooming houses that house at times 10-30 people, an unlivable amount. The result is parking infractions on a daily basis on streets and driveways on lawns. Any form of deterrence against these slum houses sprouting in Brampton would help reduce this epidemic in what was once a beautiful flower city with maintained single family homes being the norm.

Thank you,

Kasia Poplawski

Brampton Resident
