Nature of Problem: Review of Traffic Safety Concerns/Parking Issues and Traffic congestion and Crossing Guard inquiry at Ebenezer Road and Alfonso Crescent

Observers Present:

8:40 a.m.: Janice Gordon, Member; Will Davies, Trustee; Violet Skirten, Crossing Guard Supervisor

3:25 p.m.: Will Davies, Trustee; Don Harberer, Member; Charles Gonsalves, Member

Observations:

1. Claireville Public School is located at 97 Gallucci Crescent. A pathway leads from Alfonso Crescent to the school.
 2. Traffic signals were installed at the intersection of Ebenezer Road and Alfonso Crescent in January 2025. The signals are complete with pedestrian push buttons and the pedestrian timing is sufficient to cross the roadway. Due to the traffic signals being installed in the winter the pavement markings and pedestrian crosswalks are not painted.
 3. During the site inspection there were no students crossing and no traffic congestion at the intersection of Ebenezer Road and Alfonso Crescent. There were a few pedestrians and no conflicts were observed.
 4. Members of the Committee walked along the pathway from Alfonso Crescent to Claireville School and on the bridge the surface seemed to need repair.

Recommendations:

1. That the site inspection report for Claireville Public School be received;
 2. That the principal continue to educate the school community and students on safety procedures in and around the school at start and dismissal times;
 3. That the Manager of Parks Operation and Community Services arrange for the bridge on the pathway that leads to Claireville Public School between Alfonso Crescent and Gallucci Crescent to be inspected and repaired if needed; and,
 4. That the Manager of Transportation Right of Way and Safety arrange for the completion of the pavement markings at the intersection of Ebenezer Road and Alfonso Crescent.
