Reg: 10829 McVean Dr & 00 McVean Dr – Consent application – Cover letter

Hi,

My client/s is/are the owner/s of the property located above mentioned address. Currently there is a house constructed on 10829 McVean Dr lot and adjacent lot on the north side, i.e. 00 Mcvean Dr, is currently vacant. Lot 10829 has an access from the McVean Dr.

The intent of the application is to reconfigure these lots such that both the lots after severance get access from Bowman Ave.

Since these properties are under TRCA jurisdiction, an application was made to TRCA for supporting the proposed severance application. During review the process, TRCA requested EIS (Environmental Impact Study) and HDF (Headwater Drainage Feature) studies, which were prepared by a specialist and submitted to TRCA. After review, TRCA has issued a letter, attached herewith, supporting the proposed severance application.

Accordingly, please find herewith

- 1 Application form duly completed,
- 2 sketch drawing
- 3 Fees – by cheques for \$ 3883.00

On behalf of my client/s, I request the Committee to approve the Consent application.
Looking forward to hearing from you soon.

Thank you,
Sincerely,

Laxman Patel - For Laxman Patel Architect

Dear Mr. Laxman:

**Re: TRCA Concept Development Application
10829 McVean Drive
Part Lot 15, Concession 9
City of Brampton
Owner: Balbir Bharwalia**

Further to our correspondence dated July 11, 2019 and November 29, 2019, this letter acknowledges receipt of additional materials associated with the above noted Concept Development Application in the City of Brampton. Toronto and Region Conservation Authority (TRCA) staff reviewed a revised submission received September 9, 2020 and October 7, 2020. We offer the following comments based on this review:

Purpose of the Application

It is our understanding that the purpose of this application is to determine the feasibility of a lot line adjustment in order to create two new lots that front onto Bowman Avenue.

Application Specific Comments

TRCA staff is supportive of repositioning the HDF to be located within one lot thus ensuring the HDF feature is not bisected through the severance and/or future development. TRCA staff recommends shrub whips at start/end of the HDF, as well as, a delineation of a no mow zone along the HD, if possible.

Please be advised that TRCA staff has an interest regarding any future works on the subject properties as they may be subject to TRCA permit pursuant to Ontario Regulation 166/06.

Recommendation

Based on the materials submitted to date, TRCA staff are supportive of the proposed lot line adjustment and would have no objection to the general proposal proceeding as submitted.

Conclusion

We thank you for the opportunity to review the subject application and provide our comments as per our commenting and regulatory role. I trust these comments are of assistance. Should you have any questions, please do not hesitate to contact the undersigned.

Yours truly,

Lina Alhabash
