

## Attachment H - 2025 Brampton Active Transportation Advisory Committee Update

The following are highlights from the Brampton Active Transportation Advisory Committee in 2025:

- Helped plan and deliver 11th annual Bike the Creek event – approximately 2,000 registered. Helped promote Brampton's Ride with GPS Tourism account for maps and turn-by-turn instructions for participants. Participated in planning, route check rides, stencilling and signing routes. Assisted in volunteer training. Encouraged Parks to staff booth for Brampton - Orangeville Rail Trail project to update residents on progress of project.
- Planned and led 16 Community Rides from May to September. Designed routes, posted on Brampton's Ride with GPS Tourism account. Offered 5km, comfort 15km and faster 15km rides, staffed by 10 volunteers per event. Two rides with more than 60 participants, averaging 35 riders. Created and delivered pre-ride safety briefing. Ward rides were supplemented with themed rides collaborating with other city departments: Brampton Forestry for 'Tour the Trees', Parks Maintenance for 'Tour the Bees' pollinator garden, and Peel Waste 'Community Recycling Centre'. Themed rides also included BikeFest at Chinguacousy Park, Diwali Glow Ride, and 'Bramptons do Brampton'. Toronto folding bike cyclists travelled to Brampton via GO train. A tourism route followed with optional lunch downtown. Toronto group requested another ride in 2026.
- Volunteered at 3-day Outdoor Adventure Show. Interacted with 576 attendees from across southern Ontario. Promoted Bike the Creek, Community Rides, and bike hub programming. Positive comments about the quality of these programs.
- Assisted Staff at Brampton Bicycle Festival (BikeFest) at Chinguacousy Park, to kick off Bike Month (Community Ride #0).
- Volunteer Ambassadors for Ontario by Bike weekend tour through Brampton.
- Created Carabram bike route between pavilions on Brampton's Ride with GPS Tourism Account.
- Assisted Brampton Recreation with promotion of the summer Bike Basics programs for children.
- Provided staff with updates on Brampton bike parking
- Provided transit damage to bike lane pavement adjacent to bus stops
- Provided review of winter maintenance
- Provided review of bikes parked at 7 Brampton secondary schools (262 on random autumn days)
- Recommended signalized pedestrian crossovers at specific locations on 4-lane arterial roads in Brampton.
- Presented research on right-turning and left-turning vehicles intersection safety – effect of on pedestrians and cyclists

- Presented potential for using Ride with GPS Tourism Account for secondary school bike to school routes
- Presented research on how to reach the 60% “interested but concerned” to achieve increased AT mode share
- Recommended proposal to use more hydro corridors for AT trails.
