Raj G	Brampton, Canada	2020-06-24	"Completely unacceptable. It will turn a very quiet neighbourhood into a very busy area making it unsafe for the children in the area. It's time the city of Brampton stood with the residents and not behind any developer That wants to destroy our neighbourhood."

Ishatpal Arora	Brampton, Canada	2020-06-25	"Apart of all the privacy and safety reasons.1. How is the city planning to address overcrowded schools? Are we planning to add additional buildings to replace the outside overflowing containers that our kids are already using.2. This area can use extension of commercial place to make rents more affordable on commercial side. The cost of commercial is very high in Brampton and adding more capacity encourages more business. Unless we really want to become a sleeper city where major folks travel to Toronto, missisuaga or markham for jobs then we should encourage a private company to modify plans for higher profits then meeting demands of local residents and improving business competition."

Brampton Matters	Canada	2020-06-25	"The reasons our family decided to invest and purchase our family home in L6P 2L6 is for the fact Brampton is known as the Flower City. Especially the Castlemore area, because of its greenbelt around this surrounding area which includes our two beautiful ponds. When one says Castlemore or Castlemore & Goreway area, the first thing that comes to mind is the beautiful conservation area that wraps the community and the green space in all corners. Quality of life is different in our postal code. We feel we are more connected to nature. Our elders love to go for long walks, bicycle rides and the children enjoy their nature walks etc. This area is beautiful in every season. As residents, we pay increment of property taxes, car insurances etc. If we desired the Toronto downtown lifestyle with high rises and skyscrapers, we would have invested there. Our schools and parks are already over-crowded; kids are placed in portables under uncomfortable weather conditions during winter and hot summer months. Also, t"
