Brampton.

To whom it may concern

Re: Minor variance for Vanessa and Stark
Viveiros for relief from By-law 270-2004 concerning the
fence.

These are
my concerns regarding the 2.0m (6'6 ft) fence on 2 Duncan
Bull Drive and Bartley Bull Parkway.

Pre covid and eventually post covid, the corner at
Bartley Bull Pkwy and Duncan Bull Drive is a busy
intersection with car, school bus, pedestrian traffic
and school children traffic from the 3 nearby
schools.

I am concerned over sight lines at the stop
sign at Duncan Bull Drive. It will make it
more dangerous for vehicle safety edging forward to
see and for pedestrian safety crossing the street.

I am also concerned ~~of~~ over the number of schoolchildren
walking, biking skateboarding to and fro and their safety

Kids will be kids and may take unsafe
chances if unable to see clearly as well as
vehicles

Thank you for your attention to this concern.
