

BRAMPTON. THE FLOWER CITY.

In 1873 Brampton was incorporated as a town just at the intersection of Hurontario and Queen Streets on a flood plain of the Etobicoke Creek.

"GROUND LEVELS ARE PARTICULARLY SUSCEPTIBLE to SEASONAL fluctuations."..

Terraprobe Inc.,

- The Geo-technological Laboratory Test results shows in the Mass chart, a composition of the soil with 40% of sand Borehole 5 (sample 10), and 39% of sand on the Borehole 2 (sample 6).

Removal of 19 mature trees

Trees promote scenic beauty, provide habitat for birds and small species, **increase property values**, counteract air pollution, noise from neighboring streets, provide shade, minimizing the heat and decrease **wind impact** in our heritage homes, reduce soil erosion and ground water contamination.
