Electronic Hearing Procedures How to get involved in the Virtual Hearing

Brampton City Hall is temporarily closed to help stop the spread of COVID-19. In-person Committee of Adjustment Hearings have been cancelled since mid-March 2020. Brampton City Council and some of its Committees are now meeting electronically during the Emergency. The Committee of Adjustment will conduct its meeting electronically until further notice.

How to Participate in the Hearing:

- All written comments (by mail or email) must be received by the Secretary-Treasurer no later than **4:30 pm, Thursday, July 29, 2021.**
- Advance registration for applicants, agents and other interested persons is required to
 participate in the electronic hearing using a computer, smartphone or tablet by emailing the
 Secretary—Treasurer at cityclerksoffice@brampton.ca or jeanie.myers@brampton.ca by
 4:30 pm Thursday, July 29, 2021.
 - Persons without access to a computer, smartphone or tablet can participate in a meeting via telephone. You can register by calling 905-874-2117 and leave a message with your name, phone number and the application you wish to speak to by Thursday, July 29, 2021. City staff will contact you and provide you with further details.
- All Hearings will be livestreamed on the City of Brampton YouTube account at: https://www.brampton.ca/EN/City-Hall/meetings-agendas/Pages/Welcome.aspx or http://video.isilive.ca/brampton/live.html.

If holding an electronic rather than an oral hearing is likely to cause a party significant prejudice a written request may be made to have the Committee consider holding an oral hearing on an application at some future date. The request must include your name, address, contact information, and the reasons for prejudice and must be received no later than 4:30 pm the Friday prior to the hearing to cityclerksoffice@brampton.ca or jeanie.myers@brampton.ca. If a party does not submit a request and does not participate in the hearing, the Committee may proceed without a party's participation and the party will not be entitled to any further notice regarding the proceeding.

NOTE Personal information as defined in the *Municipal Freedom of Information and Protection of Privacy Act (MFIPPA)*, collected and recorded or submitted in writing or electronically as related to this planning application is collected under the authority of the *Planning Act*, and will be used by members of the Committee and City of Brampton staff in their review of this matter. Please be advised that your submissions will be part of the public record and will be made available to the public, including posting on the City's website, www.brampton.ca. By providing your information, you acknowledge that all personal information such as the telephone numbers, email addresses and signatures of individuals will be redacted by the Secretary-Treasurer on the on-line posting only. RE:

Minor Variance Application

Planning Justification Brief

Branthaven Development Corporation

8884 Creditview Road

City of Brampton, Regional Municipality of Peel

Glen Schnarr & Associates Inc. has been retained as a planning consultant by Branthaven Development Corporation, who represent Kuljeet Kaur Ubhi and Gurpreet Singh Ubhi, the registered owners of the above noted property (herein described as the 'subject property'). The subject property is generally located south of the intersection of Queen Street West and Creditview Road, on the west side of Creditview Road.

Branthaven Development Corporation is proposing to develop the lands to the north of the subject property, which are municipally addressed as 8940 Creditview Road, Brampton (City File#: PRE18.052). As a part of the proposal, our client is proposing to sever the rear of the subject property to create two (2) lots, which will be added to 8940 Creditview Road (the lot to the north of the subject property) and merge the two lots to the 8940 Creditview Road property so that the continued road connection of Classic Drive can be provided as part of the overall development of 8940 Creditview Road property, in accordance with the enclosed Development Concept Plan.

While the consent applications have been submitted under a separate cover, the resultant severances trigger the need for a zoning variance to the minimum lot area of the retained lot. Also, we identified existing zoning deficiencies related to minimum lot frontage and side yard setback on the subject property, which have been included as part of this Minor Variance application. This Planning Justification Brief has been prepared in support of a minor variance application to address these deficiencies.

Subject Property and Surrounding Area

The subject property is municipally addressed at 8884 Creditview Road, and legally described as PT LT 5, CON 4, WHS Chinguacousy, as in VS158307, City of Brampton. The subject property has a frontage of approximately 22.83 metres (74.90 feet) along Creditview Road, a depth of 89.21 metres (292.68 feet) and an area of approximately 0.19 ha (0.5 acres). The lands to be retained results in a lot depth of 65.77 metres (215.78 ft) and an area of 0.149 ha (0.37 acres).

The subject property is designated 'Residential' in the City of Brampton Official Plan and 'Executive Residential' in Credit Valley Secondary Plan (SPA 45). Additionally, the subject property is zoned 'Agricultural (A)' in the City of Brampton Zoning Bylaw (270-2004) and is currently occupied by a single storey detached dwelling with a detached garage. Furthermore, the surrounding area of the subject property is compromised of single detached dwellings.

Proposed Development and Variances

The applicant is proposing to continue the existing use on the subject property, comprised of a single detached dwelling and a detached garage. As such, a minor variance application is required to address the following deficiencies on the retained lot:

- 1. To permit a minimum lot area of 0.14 hectares, whereas the Zoning By-law requires a minimum of 0.40 hectares;
- 2. To permit a minimum lot width of 22.8 metres, whereas the Zoning By-law required 45 metres; and,
- 3. To permit a minimum side yard of 2 metres, whereas the Zoning By-law requires 7.5 metres.

Planning Rationale for Proposed Variances

Section 45(1) of the Planning Act, as amended, identifies the four tests which must be satisfied in order for the Committee to approve this application. The following section provides an analysis demonstrating how the variances satisfies these tests.

1. The variance maintains the general intent and purpose of the Official Plan.

The proposed variances maintain the general intent of the Official Plan. As noted above, the subject property is designated 'Residential' in the Official Plan and "Executive Residential" in the Secondary Plan. The existing single detached residential dwelling is a permitted use under the residential designation, and the applicant is proposing to retain the existing structures on the subject property without alterations. As such, the proposed variances to permit a smaller lot area, lot width and side yard are consistent with the land use intent of the Official Plan.

2. The variance maintains the general intent and purpose of the Zoning By-law.

The proposed variance maintains the general intent of the Zoning By-law. A single detached dwelling is a permitted use in the 'Agricultural (A)' zone of the subject property. The requested variance for lot width and side yard setback reflect the existing conditions on the subject property and therefore have been included as part of a comprehensive zoning review. The requested variance for a smaller lot size will enable a uniformity in the size of the subject property and maintain consistency with the surrounding residential lot sizes. Thus, the approval of the requested variance will maintain the intent and purpose of the Zoning By-law.

3. The variance is desirable for the appropriate development or use of the land.

The requested variances for decrease in minimum lot frontage and side yard setback is to rectify the existing conditions on the subject property and have been included in this application as a part of a comprehensive zoning review. As such, approval of these variances will permit the continuation of the existing uses on the subject property, which are compatible and integrated with the surrounding development, with no anticipated adverse impacts.

This minor variance application addresses the existing minimum lot area deficiency, as the Zoning Bylaw requires a minimum lot area of 0.40 hectares (0.98 acres). The existing lot area is 0.19 hectares (0.49 acres), and this minor variance application proposes a further reduction to 0.14 hectares (0.34 acres). The variance for a decrease in the minimum lot area is desirable as it will enable uniformity in the size of the lots fronting Creditview Road. Furthermore, the decrease in the lot area will enable future development to the north of the subject property by providing for the extension of Classic Drive through the severance process to complete the existing street network.

4. The variance is minor in nature.

The proposed variances are minor in nature as they do not change the intended use or function of the subject property. The lot frontage and side yard setback represent existing conditions which are not currently in conformity with the Zoning By-law and do not represent further reductions to the parcel fabric. The proposed single residential dwelling and associated structures will continue to function on the lands subject to this minor variance application. As such, there are no foreseeable negative impacts to surrounding properties, and therefore the requested variances are minor in nature.

Conclusion

Based on the findings presented in this brief, it is our opinion that the proposed minor variance application meets the four tests established in the Planning Act. As such, we respectfully request that the Committee of Adjustment approve this application.

Application Materials:

In support of the application, please find enclosed the following materials:
