Dear Mayors Brown, Thompson and Crombie,

Re: Recommended Amendments and Extension of the Municipal Mandatory Face Covering By-laws

The Mandatory Face Covering By-laws for the City of Brampton, City of Mississauga and Town of Caledon are set to expire on June 30, 2021. While vaccine coverage increases, as of May 25, 2021, the region of Peel continues to see high rates of community transmission of COVID-19 as well as the emergence of fast-spreading variants of concern. Therefore, it is critical that the Municipal Mandatory Face Covering By-laws be extended and amended based on current guidance.

The Region of Peel – Public Health adheres to the mask guidance from the Government of Ontario and Public Health Agency of Canada's (PHAC). Since the approval of the municipal by-laws in July 2020, guidance around the use of non-medical masks has evolved.

1. Recommendation: Amend by-laws to disallow the use of any face covering other than well-fitted, non-medical face masks.

Previously, scarves, bandanas, neck gaiters or neck warmers and masks with exhalation valves were acceptable forms of face coverings. These types of face coverings are no longer recommended. Scarves and bandanas are not well secured to the head or ears, can easily move or slip out of place, and don't cover the nose, mouth and chin securely without gaps. Neck gaiters are also not well-secured to the head or ears, can easily move or slip out of place, and are also difficult to remove without contaminating oneself. Finally, masks with exhalation valves allow infectious respiratory particles to spread outside the mask.

2. Recommendation: That the name of the by-law be changed to Mandatory Mask By-law
Current guidance from PHAC is that non-medical face masks are the only recommended face covering. It is suggested that the title of the municipal by-laws be changed to reflect that face coverings are no longer recommended. The non-medical mask should be made of at least two layers of tightly woven fabric, with a recommended third middle layer of filter-type material. The mask should also be well-fitting, covering the nose, mouth and chin without gaps; fit securely to the head; can be adjusted with ties or ear loops; and maintain its shape after cleaning. The non-medical mask can be homemade or purchased.

3. Recommendation: Amend by-laws to limit removal of the mask for consumption of food or drink only if the individual is seated in a designated area for that purpose.

Non-medical masks should only be removed to consume food and/or drink indoors or in enclosed spaces if the individual is in a designated area where consuming food and/or drink is permitted. There have been complaints where individuals have been using the food and drink exemption to remove their mask in indoor spaces like shopping malls, but in fact were found carrying an empty cup.

4. Recommendation: That the by-laws be extended, with these recommended amendments, through September 30, 2021

Based on this information, please find enclosed suggested amendments to bring the Municipal Mandatory Face Covering By-laws in line with current guidance. If you have any questions, please contact Louise Aubin at louise.aubin@peelregion.ca.

Sincerely,

Dr. Lawrence C. Loh, MD, MPH, FCFP, FRCPC, FACPM (*he/his*)
Medical Officer of Health
