We are the neighbour to this property and our address is 50 Elizabeth St. South. We have emailed and called them on several occasions with the water issues their property has and nobody bothered to solve this issue. Their gutters when raining deposits the water right into our property into our dwelling. Their snow removal company as well has killed the sides of our front garden. Our fence that divides our back garden and their parking is constantly getting damaged and we can't keep up with it. We wanted to solve these issues but nobody responds to phone calls or emails. We would like these few things resolved as their property really needs an update on these issues. Thanking you in advance.

Irma Kazer
