**Subject:** [EXTERNAL]34-2500 Williams Pkwy Zoning Application - OZS-2021-0014 - Comments

Good Afternoon,

I am the solicitor for the owners of units 15 and 16 at 2500 Williams Pkwy. My clients received notice of the public meeting for an application to amend the zoning by law and permit an animal cremation facility at the building.

My clients oppose such application on the grounds that it does not conform with the official plan and that it shall negatively impact my client's business. My client operates a custom metal fabrication business and often has customers visiting the location to select designs. The potential odour and generally negative association with such a use shall deter clients from attending at my clients' units.
