 Integrated Approaches Toward Sustainable Urban Economies
 In the Post COVID-19 World
 On the Occasion of the Canadian Celebration
 of World Habitat Day

Brampton, Canada

UEF 2021 Poster Designed by: Graphic Designer, [Hanieh Riahi](#)

The 3rd Urban Economy Forum, UEF 2021, will have a systematic focus on how to deliver adequate and affordable housing and healthy environments as core pillars for urban economic recovery to deliver sustainable cities and achieve the SDGs. UEF 2021 will focus on housing as one of the key elements for urban equality, and as a practical arena for shifting societal behaviour in a world affected by climate change and pandemics. There are a number of good practices for effective and scalable solutions being adopted by the people most impacted by COVID-19, who are least likely to have a steady place to call home and most affected by the damage to our climate.
