Subject: [EXTERNAL]8000 Mississauga Road - Notice

B-2020-0019

Hi Jeanie,
Greetings,

This is in regards to the notice of an application of consent - **Canon Canada Inc.** As I am a resident of 1 Beckenrose Ct, unit 18, Brampton, ON I would like to express my opinion on the opportunity for the City of Brampton to explore. After carefully exploring the facilities available around my neighbourhood, I feel the city should consider the below Idea.

1. Potential to link High tech sports recreational activity/cultural centre/Small Scale business office centre

We the residents of Beckenrose Court don't have easy access to an affordable High tech recreational centre. This neighbourhood consists of different ethnic groups and people don't have many avenues which would help us understand each other. This kind of a facility will help us explore better. Having the right combination of a public space + open creative areas for small business has a definite neighbourhood enhancement potential in all aspects. Combining this with sustainable practices like rooftop solar farming/water retention spaces/possible terrace farming would improve the overall quality of our neighbourhood. Also this would further propel Brampton the flower city for new initiatives on sustainable development.

Sharing a few case which could form the base

1. Toronto central YMCA - Diamond Schmitt Architects
: <https://www.archdaily.com/897227/toronto-central-ymca-diamond-schmitt-architects>
2. Cultural and Education center Netherlands- <https://www.archdaily.com/891968/culture-and-education-center-jeanne-dekkers-architectuur>
3. Creative working spaces+rooftop gardening- <https://www.archdaily.com/942654/s-star-park-tres-birds>
4. Park - <https://www.archdaily.com/949125/park-park-public-city-architecture>

I hope the City of Brampton would integrate our ideas to your future plan and make this neighbourhood first of its kind. Kindly requesting you to keep us posted on your decision

Highest Regards
